2018 Fall Semester

| | |
|--|----------------|
| Application Deadline for Fall 2018 Semester | August 1 |
| First Day of Classes | August 20 |
| Last Day to Late Register, Add or Change Sections* | August 28 |
| Last Day for Textbook Refunds | August 28 |
| Last Day to withdraw without a "W" grade* | September 11 |
| Priority Application/Payment Deadline for Fall Graduation | October 19 |
| Last Day to Withdraw with a "W" grade* | October 29 |
| Last Day to Change to CR/NC option, or select AUDIT grade* | October 29 |
| Last Day of Instruction* | December 6 |
| Final Exams | December 10–14 |
| Bookstore Buyback | December 10–14 |

2019 Spring Semester

| | |
|---|-------------|
| Application Deadline for Spring 2019 Semester | December 15 |
| First Day of Classes | January 7 |
| Last Day to Late Register, Add or Change Sections* | January 15 |
| Last Day for Textbook Refunds | January 11 |
| Last Day to withdraw without a "W" grade* | January 30 |
| Last Day to withdraw with a "W" grade* | March 21 |
| Last Day to Change to CR/NC option, or select AUDIT grade* | March 21 |
| Spring Graduation Application Deadlines | |
| Priority Application/Payment Deadline for Spring Graduation | March 15 |
| Name to Appear in Printed Program | April 19 |
| Last Day of Instruction* | May 2 |
| Final Exams | May 6–10 |
| Bookstore Buyback | May 6–10 |
| Commencement | May 10 |

2019 Summer Sessions

Summer Session I

May 20–June 28

Summer Session II

July 1–August 9

All grades for both Summer Session I and II will not be available until after the conclusion of Summer Session II.

*Semester-long courses only. For important dates affecting part-of-term courses, see the College's website.

Students who register at more than one UH campus should pay particular attention to deadlines as they may vary from campus to campus. Please refer to each campus website or contact the Admissions and Records Office at the campus offering the course.

ABOUT THE CATALOG

A note on Catalog Rights

Students have the right to follow the degree and certificate requirements that were in effect at the time of their original enrollment or any year thereafter, provided that they maintain continuous enrollment.

Disclaimer:

This catalog provides general information about Leeward Community College, its programs and services, and summarizes those major policies and procedures of relevance to the student. The information contained in this catalog is not necessarily complete. For further information, students should consult with the appropriate unit. This catalog was prepared to provide information and does not constitute a contract. The College reserves the right to, without prior notice, change or delete, supplement or otherwise amend at any time the information, requirements, and policies contained in this catalog or other documents. ABOUT THE COLLEGE

Leeward Community College's proven commitment to affordable, quality education is a foundation of our mission. As part of the University of Hawai'i system, we are dedicated and responsive to our community, providing an open door to the world of educational opportunities.

Located in Pearl City, Hawai'i, Leeward CC is a regional community center, creating both an environment for academic learning and a center of cultural life for our neighbors. From professional career studies to liberal arts, the College offers diverse and comprehensive opportunities for all students.

We believe in the dignity and potential of each individual and the power of that belief to help people learn and grow. We are committed to providing an educational environment that accepts people as they are and fosters the development of each student's unique talents.

At Leeward Community College, education is a cooperative endeavor in which students, faculty, and staff share responsibility. At Leeward, your success is our highest priority.

Our commitment to your success is embodied in our motto: "to help people learn"

Message from the Chancellor

It is my privilege to welcome you to the Leeward Community College 'ohana. The College eagerly extends its aloha and kokua to each and every one of our new and returning students. Leeward CC is positioned for expansive growth and opportunity, being in the midst of the fastest growing population sector on O'ahu and the anticipation of the first transit station to service a University of Hawai'i campus. We are here for you now and will be here for you in the future!

We are proud to offer an array of paths to higher education and workforce training. Whether your dream is to become a teacher, an engineer, a biotechnician, an artist, a nurse, a culinary chef, a digital media specialist, a computer scientist, a writer, an accountant, a pharmacologist, an economist, or a process technology technician... Leeward CC provides these and many other opportunities.

I am blessed to have been born and raised in Hawai'i and educated at home on O'ahu and on the mainland. Later, I returned to the islands and was hired as mathematics faculty at Leeward CC in 1980. I have been Chancellor of Leeward CC since 2007, and I am pleased to say that I have never worked with a more dedicated group of faculty and staff who are unselfishly dedicated to the success of our students.

Education is your best strategy to a more complete and rewarding personal and professional life. Mahalo for letting us be part of your plan to define or redefine your life as you embark on the next adventure to academic and professional success.

Manuel J. Cabral
Chancellor

Chancellor Manny Cabral is retiring on June 30, 2018. Suzette Robinson will serve as Interim Chancellor beginning July 1, 2019.

VISION

Leeward Community College is a learning-centered institution committed to student achievement.

MISSION

At Leeward Community College, we work together to nurture and inspire all students. We help them attain their goals through high-quality liberal arts and career and technical education. We foster students to become responsible global citizens locally, nationally, and internationally. We advance the educational goals of all students with a special commitment to Native Hawaiians.

CORE VALUES

These core values shape Leeward Community College's mission:

- **Community:** We value cooperation, collaboration, social responsibility, and concern for others as crucial elements in building a sense of community inside and outside of the institution.
- **Diversity and respect:** We value individual differences and the contributions they bring to the learning process. We believe that our students are enriched through a diverse intellectual and social environment, where learning occurs through exposure to world cultures, and through interaction with peoples of diverse experiences, beliefs, and perspectives.
- **Integrity:** We value personal and institutional integrity by fostering a culture of continuous improvement to open pathways to student success. We hold ourselves accountable for providing a high-quality academic experience.
- **Open access:** We value all students. We seek to meet their needs, as well as those of the community, by offering a diversity of courses, degree and certificate programs, and training opportunities, through traditional and distance education modes of delivery.

INSTITUTIONAL LEARNING OUTCOMES

Critical Thinking and Problem Solving

Our graduates are able to examine, integrate, and evaluate the quality and appropriateness of ideas and information sources to solve problems and make decisions in real world situations.

Written, Oral Communication and Use of Technology

Our graduates are able to use written and oral communication and technology to discover, develop, and communicate creative and critical ideas, and to respond effectively to the spoken, written, and visual ideas of others in multiple environments.

Values, Citizenship, and Community

Our graduates, having diverse beliefs and cultures, are able to interact responsibly and ethically through their respect for others using collaboration and leadership. Our graduates are able to engage in and take responsibility for their learning to broaden perspectives, deepen understanding, and develop aesthetic appreciation and workforce skills.

History of the College

Leeward Community College opened its doors in the fall of 1968 as the first college in the University of Hawai'i system to be developed without a connection to a pre-existing technical school. The college's guiding principle was "innovation"—a readiness to depart from tradition in order to bring the best of current educational practices to our students.

In 1968, Leonard T. Tuthill, our first Provost, welcomed over 1,640 students into humble old buildings that once housed Pearl City Kai Elementary School. That first semester witnessed more than twice the anticipated number of students ready to explore the "Community College" experience.

In the spring of 1969, the College moved to its current location, on 49 acres near the geographic center of O'ahu between Pearl City and Waipahu. Since those beginnings in inauspicious temporary facilities, enrollment in credit classes has grown to place the College among the largest community colleges in the State with approximately 8,000 students enrolled each fall semester.

Location

Leeward Community College offers a variety of educational programs and services on its main campus in Pearl City, and both off-campus at its satellite campus in Wai'anae and through its robust Distance Education program. The main campus is located between Pearl City and Waipahu. Situated on mildly sloping land, the upper campus provides a commanding and magnificent view of Pearl Harbor. While the Leeward coast and Central O'ahu are the primary areas served by the College, students attend Leeward Community College from all parts of the island.

Accreditation

Leeward Community College is accredited by the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges (ACCJC), 10 Commercial Boulevard, Suite 204, Novato, CA 94949, (415) 506-0234. ACCJC is a regional accrediting body recognized by the Council for Higher Education and the U.S. Department of Education.

To file a complaint with ACCJC, refer to the "Complaint Process" at <http://www.accjc.org/complaint-process>.

The programs in Culinary Arts are accredited by the American Culinary Federation (ACF), 180 Center Place Way, St. Augustine, FL 32095, (904) 824-4468. To file a complaint with the American Culinary Federation, visit www.acfchefs.org.

The programs in Automotive Technology are accredited by the National Automotive Technicians Education Foundation (NATEF), 101 Blue Seal Drive, S.E. Suite 101, Leesburg, VA 20175, (703) 669-6650. To file a complaint with NATEF, email webmaster@natef.org or visit www.natef.org.

The programs in Health Information Technology are accredited by the Commission on Accreditation for Health Informatics and Information Management (CAHIIM), 233 N. Michigan Ave. 21st Floor. Chicago, IL 60601-5800, (312)233-1166. To file a complaint with Commission on Accreditation for Health Informatics and Information Management visit cahiim.org

The Teacher Education Alternative Certification for CTE Licensure Program is accredited by the Council for the Accreditation of Educator Preparation. (CAEP), 1140 19th St. N.W., Suite 400, Washington, D.C. 20036, (202) 223-0077. To file a complaint with CAEP, email <http://caepnet.org>.

WAI'ANAE MOKU EDUCATION CENTER

87-380 Kulaaupuni Street, Wai'anae, HI 96792
(808) 454-4702
Danny Wyatt, Coordinator

Hours of Operation: Fall and spring semesters:

Monday–Thursday, 8 am–9 pm

Friday, 8 am–5 pm

Closed on weekends.

Summer and during breaks:

Monday–Friday, 8 am–4:30 pm

Leeward Community College, Wai'anae Moku (Leeward WM) is a full-service education center located on the beautiful Wai'anae coast. Its mission is to provide residents of the Wai'anae Coast access to a high quality college experience in a supportive and respectful environment within their own community.

The campus offers more than 65 Leeward CC credit classes in the fall and spring semesters. Classes offered in language arts, mathematics and science, fine arts and humanities, social sciences and education, business and vocational education meet the requirements for a liberal arts degree. Students can complete their entire Associate in Arts degree at Leeward WM. Classes are offered days and evenings during the fall and spring semesters, with limited class offerings in the summer session. A complete list of courses offered each semester can be found at <http://www.leeward.hawaii.edu/leewardccw-courses> .

Leeward CC Wai'anae offers several advantages for Wai'anae Coast residents pursuing higher education. The campus is in Ma'ili, making higher education accessible to all residents of the Wai'anae Coast without requiring that they travel long distances. The class sizes are small and provide students with more individualized attention from instructors.

The campus offers a math lab, a testing center, a student computer lab, as well as laptops, free wifi for UH system students, and support for distance learning. It is fully staffed with education support specialists and counselors who provide academic and personal support to students as they complete their college classes. Faculty and staff at Leeward WM work by the following motto: Helping students succeed every step of the way.

Application Assistance

Students may obtain assistance in the completion and submission of the online UH System Application Form at the reception desk at the front of the building Monday–Friday, 8:30 a.m.-5:00 p.m. Assistance with completion of financial aid forms and faxing documents to Admissions and Records at the Pearl City campus is also available.

Wai‘anae Moku Counseling Services

A full range of counseling services is offered by three full-time and part-time counselors and other mental health professional partners. Appointments are recommended, but every effort is made to accommodate students on a “walk-in” basis whenever possible. Services provided include:

- Academic advising and career counseling
- Class registration assistance
- New student orientation
- Financial aid and scholarship application assistance
- Financial aid workshops
- Requests for transcripts
- Graduation checks
- Transfer assistance
- Assistance obtaining services for students with disabilities
- Mental health counseling
- Personal counseling

Wai‘anae Moku Academic Support Services

A full range of learning support services are offered by two full-time support specialists. Services provided include:

- Accuplacer placement testing
- One-to-one tutorial assistance with computers
- Workshops or informational handouts on various topics, such as test anxiety, note taking, and study techniques.
- Library materials lending service from Leeward CC Pearl City campus
- Textbook reserve loans for classes
- Laptop computer loan program, as well as calculators and other resources, to be used at the Wai‘anae Moku campus
- Distance learning and course exam proctoring
- Student ID production at the beginning of each semester

Student Activities and Leadership Development

Leeward CC Wai‘anae Moku has an active student body who are engaged with the campus and the community. Students work closely with instructors and staff to develop, plan, and hold events that provide a social outlet. Past activities have included movie nights, International Week, outings to UH sports events and the Polynesian Cultural Center, concerts, and holiday gatherings. All students are invited to participate in these events. Student leadership is encouraged and fostered through participation in ASUH-Leeward CC and Leeward CC Wai‘anae Student Enrichment Activities, as well as through leadership training for student employees.

Wai‘anae Moku Community Partnerships

Kulia & Ka Lama Education Academy

The Kulia and Ka Lama Education Academy (KKLEA) of the Institute for Native Pacific Education and Culture (INPEACE) assists community residents interested in becoming teachers to obtain the appropriate college certifications and degrees so that they can be teachers on the Wai‘anae Coast. Participants interested in early childhood education are supported in obtaining their Child Development Associates degree and continue their education in the early childhood field. Those interested in teaching in the K-12 system are provided with guidance to obtain their Associate's degree and gain admittance to Hawai‘i state approved teacher education programs. KKLEA bundles social, education, and financial support for its participants including individual college and financial coaching, test supports, financial literacy workshops, scholarship opportunities to qualified participants, and social support events. For more information, call 696-5556 or email kklea@inpeace.org.

Kauhale

MA‘O Organic Farms, Searider Productions and Makaha Studios offer a two-year Youth Leadership Training (YLT) internship to Wai‘anae youth (ages 17-24). This internship offers a unique opportunity for students to start their college career by obtaining an Associate in Arts degree from Leeward CC while gaining work and leadership experience. Call 696-5569 for more information.

Wai‘anae Coast High Schools and Hawai‘i P-20

Leeward CC Wai‘anae Moku also works in partnership with Wai‘anae Coast high schools and Hawai‘i P-20 to provide early college experience to high school students.

OFFICE OF INTERNATIONAL PROGRAMS

Room BE 109
Phone (808) 455-0570
lccintl@hawaii.edu

The mission of the Office of International Programs is to support, promote and advance an international dimension on the Leeward campus and facilitate a greater appreciation of cross-cultural relations and international issues in order to prepare students to become global citizens. The Office of International Programs provides admissions and services to international students, both in the English Language Institute and the undergraduate program; offers Study Abroad programs; coordinates Short-Term Study Programs for visiting groups; and fosters relationships with foreign partner institutions to further the goals in internationalizing the campus.

English Language Institute (ELI)

The ELI is an academic unit in the Language Arts Division at Leeward. The ELI offers a high-quality Intensive English Program for international students in order to improve their English for academic, professional or personal purposes.

Students are introduced to American culture through class work and weekly activities while improving their English language skills. ELI provides 18 hours per week, 8-week per session of non-credit classroom instruction.

The ELI serves as a gateway for international students to enter our credit program and continue their studies here at Leeward CC. Students who complete the advanced level in the ELI are eligible to enter the credit program at Leeward CC without further testing.

ELI Mission Statement:

The central mission of the English Language Institute at Leeward Community College is to provide high-quality English as a second language (ESL) instruction and orientation in U.S. culture to international students, professionals and other non-native speakers by means of an intensive English program.

To achieve this mission, the English Language Institute pursues the following goals:

- Improve the English language and study skills of international students in preparation for study at an American college or university, or for personal or professional purposes.
- Provide students with the cultural knowledge and awareness necessary to transition from life and study in their own countries to the U.S.
- Provide student support and administrative services of the highest quality.
- Adhere to the highest standards of English language instruction by attracting and developing talented and experienced faculty.
- Develop an intellectual atmosphere in which professional development is supported, valued and pursued by all faculty.
- Enrich Leeward Community College and the local community, fostering cross cultural communication and interaction.
- Advance Leeward CC's reputation for excellence and its image as an international, multicultural learning community.

International Admission

International students are admitted to Leeward CC through the Office of International Programs. International students who are not U.S. citizens and who have not been admitted to live in the U.S. permanently are designated as non-immigrants and must apply for an F-1 student visa. The U.S. Department of State requires F-1 visa applicants to have a SEVIS Form I-20, which is issued by the Leeward CC Office of International Programs after the student has applied and been accepted. Please refer to page 135 for the specific admission requirements. Applications are accepted on a rolling basis throughout the year.

Study Abroad

Leeward CC's Study Abroad Programs offer students international travel, the chance to experience another culture first hand and the opportunity to earn college credit. Summer-long, semester-long, and year-long programs are currently available to Europe, Asia, Mexico, and South America through our custom programs or affiliations with study abroad organizations. A number of scholarships for Study Abroad are available to University of Hawai'i community college students through the UHCC office and other organizations. Contact the Office of International Programs for more information.

Short-Term Study Groups

International student groups study English and learn about Hawaiian culture and experience the multi-ethnic aspect of Hawai'i. Students from other countries can spend one to four weeks on the Leeward campus to attend English classes, meet Leeward students and participate in a variety of cultural activities. Contact the Office of International Programs for more information.

Proud Member of English USA, the American Association of Intensive English Programs, NAFSA, Association of International Educators, and Study Hawai'i

OFFICE OF CONTINUING EDUCATION & WORKFORCE DEVELOPMENT

Programs in

- Business & Professional Studies
- Computers & Technology

- Health Care & Caregiver
- Healthcare Technology
- Hospitality & Food
- Industry Technology
- Motorcycle Safety
- Personal Enrichment
- Process Technology
- Transportation Industry

The Office of Continuing Education and Workforce Development (OCEWD) is part of Leeward Community College's educational mission to enhance the quality of life and strengthen economic stability and growth by providing life-long development and personal enrichment. OCEWD provides a variety of continuing education programs, public service and cultural programs.

Programs support human resource and economic development, job training, and classes for small and large businesses, and aspiring entrepreneurs. OCEWD serves people whose educational goals do not require college credit.

Non-Credit and Continuing Education Program

The fee-based, non-credit program offers short- and long-term training opportunities especially designed to meet the needs and interests of the community and industry. The non-credit program offers activities for persons of all ages and interest.

Short-term, customized training meets the needs of business and industry. Flexible, convenient and self-supporting, these programs provide technical skills for the growing number of occupations that require more than the basics but do not require a degree.

OCEWD strives for constant development of new approaches and designs for learning. The long-range concerns and needs of industry, business, labor and consumers challenge Leeward CC to provide citizens and employees with an opportunity to learn new skills and upgrade present skills.

Community Involvement

The Office of Continuing Education and Workforce Development works closely with members of civic, business, community trade associations, and other organizations. These partnerships assure that the communities' needs are met, that the college is taking full advantage of the talents of the community, and that the College's resources are used and accessible.

OCEWD also works closely with other governmental and private non-profit agencies that provide services to the community. Education services of the College are carefully coordinated with education and training services provided by other agencies.

Training and Consultation

Faculty and staff of the College are available to groups and organizations to provide training and consultation in a variety of specialized subject areas. OCEWD also works closely with local professional or special-interest groups in order to offer quality workshops and conferences to the community on numerous topics.

For information, contact the Office of Continuing Education and Workforce Development at 455-0477 or in room CE 101.

Details on current offerings and programs are posted online <http://www.ocewd.org>

DISTANCE EDUCATION

Learn on your own time. Distance Education offers the opportunity to take college courses without having to come to campus or to significantly cut down on the trips you have to make. If work or family schedules conflict with on-campus classes, you don't have to give up important responsibilities to pursue an education. Depending upon the course, the instructor may use various media and methods of communication.

Types of DE Courses

- **Televised Courses** are available to enrolled students who are Spectrum Cable subscribers. Cable allows students to take cable courses in the convenience of their home. Courses are either live or pre-recorded. In most cable courses, there will be an online component for outside class communication, material distribution and assignments. More information is available in the Cable Student Guide
- **Two-Way Interactive Video Courses** allows students to take a course from one location while the instructor teaches from another. Class meetings are held at a specific time and place (synchronous). Both instructor and students can see and hear each other, simulating a face-to-face class environment. In most ITV courses, there will be an online component for outside class communication, material distribution and assignments. More information is available in the ITV Student Guide.
- **Internet Courses** are interactive courses delivered using the World Wide Web. Online classes allow you to access your class material via the Internet and study at the times and places that fit into your busy lifestyle. The Internet allows students to take a course from home using a personal computer. Depending on the online course, students may be required to log in at a specific day and time (synchronous) or at anytime (asynchronous). More information is available in the Online Learning Student Guide.

Differences from the Traditional Classroom

The delivery methods of a Distance Education (DE) course differentiate it from a face-to-face course. DE courses are delivered to you electronically via cable, satellite, ISDN, or phone line. Instructors utilize various methods of communication to conduct the course, such as Web 2.0 technologies, social networking, threaded discussions, email, web conferencing, audio and video.

Interactive Discussions

Online asynchronous discussions offer you opportunities to, explain, share knowledge and learn from other students in ways not found in the traditional classroom. Online asynchronous discussions give you more time to think and make thoughtful responses. Other interactive discussions occur synchronously using web conferencing tools such as Skype or Blackboard Collaborate.

More Opportunities for In-Depth Understanding

Online course resources are available anytime. You can read and interact with course content as often as you want, and communicate with your instructor when you have questions about the course.

Is Distance Education for You?

Just as some people are more successful at regular courses, others are more successful at DE courses. In general, a successful distance education student is someone who:

- wants or needs a flexible school schedule
- knows how to study independently
- is goal oriented & self directed
- has college level reading & writing skills
- has some experience with computer applications such as word processing and email
- establishes a regular viewing or online schedule
- sets aside a specific time on a routine basis for studying
- contacts the professor promptly with questions about any aspect of the course.

DE Registration

Students must apply for admission to Leeward Community College. After they have been admitted, they must register for the course. Admission and enrollment services can be found at:

<http://www.leeward.hawaii.edu/apply>

Alternate Technology Access Plan

In registering for a Distance Education course (Cable or Web), the student is responsible for finding immediate alternate access to a computer with Internet connectivity or cable television should that student experience technical difficulties. Technical difficulties can include but are not limited to problems with a student's computer hardware/software; inoperability of a student's DVR; or lack of service by a student's Internet Service Provider (ISP) or Cable Provider. Technical issues do not justify the extension of an assignment, project, quiz or exam deadline unless agreed upon by the instructor. An Alternate Technology Access Plan will be made by the student prior to the start of the semester and should be implemented immediately upon encountering technical difficulties. The student is required to continue course work as a result of having an alternate plan of access while independently resolving any technical issues with hardware/software, DVD, ISP, or Cable Provider.

Programs Offered Online

For information on degree and certificate programs offered via DE, visit www.leeward.hawaii.edu/DistanceEducation.

Accredited Delivery Method

Leeward CC is approved by the Accrediting Commission for Community and Junior Colleges (ACCJC) to deliver its degree and certificate programs via Distance Education.

Contact: Educational Media Center
Phone (808) 455-0222
www.leeward.hawaii.edu/DistanceEducation

SPECIAL ACADEMIC PROGRAMS

Cooperative Education

Cooperative Education formally integrates academic preparation and career interests with actual work experience. Employers are represented from private and public sectors of the community. The partnership between the student, the employer, and the College results in a rewarding and beneficial experience for all involved. Classroom study and training take on greater relevance as students gain career experience that is highly valued by employers.

Leeward offers three Cooperative Education classes: Business Technology, Information & Computer Science and Culinary Arts. To find out more about the program and to see if you're eligible to participate, contact the program coordinators:

For Business Technology, contact Warren Kawano at 455-0224 or email warrenk@hawaii.edu.

For Culinary Arts, contact Donald Maruyama at 455-0567, or email donaldkm@hawaii.edu.

English as a Second Language (ESL)

The ESL program is for permanent residents and immigrants who are non-native speakers of English who need further development of their English language skills to pursue college course work at Leeward CC. Students are tested and placed into the ESL program at the Basic, Intermediate, High Intermediate, or Advanced level.

In addition to classroom instruction in the English language and study skills, peer tutoring in the Writing Center and personal conferences with an ESL instructor are offered in all levels of this program.

The College also offers an Intensive English Program for international students through the English Language Institute. For details, please see page 13.

Hālau ‘Ike O Pu‘uloa

Hālau ‘Ike O Pu‘uloa, established by the College in 2009 to “inspire excellence, promote growth, and advance opportunities for Native Hawaiians,” has become a gathering place for students of all ancestries to grow in their knowledge of Hawaiian culture, language, history, and mālama ‘āina. We also feature on-site counseling services, group study areas, cultural speaker series, wireless laptop computers, cultural resource library, the Kahiau student club, and financial aid resources. All students are welcome to use our facilities during our hours of operation.

Programs, courses, services and events offered by the Hālau staff and its partners support the study of Hawaiian language, culture, and history in ways that honor, perpetuate, strengthen, and sustain their longevity into the future.

Current resources include:

- Ke Ala ‘Ike Native Hawaiian Excellence Program
- Ho‘oulu Project: Native Hawaiian Career & Technical Education Program
- Associate in Arts in Hawaiian Studies
- Academic Subject Certificate: Hawaiian Studies
- Academic Programs: Hawaiian Studies & Language
- Counseling & Guidance (Personal, Academic & Career)
- Laptop Computer Borrowing
- Financial Aid & Scholarship Assistance
- Distinguished Cultural Speaker Series
- Native Hawaiian S.T.E.M. Success
- ‘IKE: Indigenous Knowledge in Engineering
- Māla ‘Ōiwi Native Hawaiian Gardens
- Native Plant Conservation, Ethnobotanical and Polynesian Introduced Gardens
- Ho‘oulu ‘Āina Plant Propagation Facility
- Native Hawaiian Reference Library
- Career Resource Library

Aulii Silva, Coordinator, Native Hawaiian Student Support Programs
455-0555, aulii@hawaii.edu

Ho‘oulu: Native Hawaiian CTE Program

The Ho‘oulu Project is the Native Hawaiian Career and Technical Education Program located at Hālau ‘Ike o Pu‘uloa in the DA building. The goal of the Ho‘oulu Project is to increase the recruitment, retention, and completion of Native Hawaiian students in all Career and Technical Education and Science, Technology, Engineering, and Mathematics programs offered at Leeward CC. These programs include automotive technology, business programs, culinary arts, digital media, information and computer science, substance abuse counseling, television production, teaching, and all Associate in Science in Natural Sciences degree concentration.

Ho‘oulu provides personal and academic counseling, peer counseling, career and vocational planning, financial and leadership workshops, and assistance in finding opportunities for students to use traditional education in real-world experiences. Ho‘oulu also provides stipends to qualifying participants engaged in service-learning, internships, and cooperative education.

The Ho‘oulu Project receives its funding through a grant from the United States Department of Education to ALU LIKE, Inc. Career and Technical Education Programs. For more information, contact the Ho‘oulu Project Office at 455-0245.

Honors Program

To graduate with academic honors, students must first apply and be accepted into Leeward's Honors Program. This program is open to all qualified students in all degree and certificate programs at Leeward CC. Students who graduate with academic honors will have this designation inscribed on their diplomas or certificates, as well as in their transcripts. Additionally, Honors students have the right to wear the Honors hood at commencement and are recognized for their accomplishments during the ceremony.

To graduate with academic honors, students must be accepted into the Leeward CC Honors Program, must meet all degree requirements, take one Honors colloquium, and graduate with a 3.5 or higher cumulative grade point average.

Entrance requirements at the time of application are:

- Completed at least 12 college-level credits (i.e., courses numbered 100-level and higher) from Leeward CC
- A 3.5 cumulative GPA or higher at Leeward CC
- A completed Honors Application
- A completed Faculty Recommendation Form from a previous instructor
- A PDF copy of your MyUH transcript emailed to Michael Oishi at mtoishi@hawaii.edu

For more information and to apply online go to: <https://goo.gl/jRHtpm>

You may also contact the Leeward CC Honors Program Coordinators, P. Jayne Bopp (pbopp@hawaii.edu; FA-224; 455-0368) or Michael Oishi (mtoishi@hawaii.edu; FA-117; 455-0628).

Ke Ala 'Ike Native Hawaiian Excellence Program

"The Path of Knowledge" challenges students to pursue excellence on their academic and cultural journey. Ke Ala 'Ike is open to all students who wish to earn a degree or certificate from Leeward CC. Ke Ala 'Ike scholars who complete the program's academic and cultural activities will:

- Be invited to participate in the Hālau's Kīhei Ho'okomo Ceremony to produce a kīhei that they will wear at Commencement
- Expand understanding and appreciation for Native Hawaiians and their culture
- Increase use of resources and opportunities that lead to attainment of their academic and career goals

Service-Learning

Service-Learning is a teaching and learning method that connects meaningful community service experiences with academic learning, personal growth and civic responsibility. Service-Learning enhances what is taught in the college by extending students' learning beyond the classroom and providing opportunities for students to use newly acquired skills and knowledge in real life situations in their own communities.

Examples of community service activities include tutoring elementary school students, assisting senior citizens, coaching elementary students in sports, teaching computer basics to senior citizens or other age groups, or providing literacy tutoring. Students may earn variable credits for Service-Learning through independent study credits.

For additional information, contact Mimi Nakano, Service-Learning Coordinator, (LA 221), 455-0341, mnakano@hawaii.edu.

Study Abroad

Leeward CC's Study Abroad Programs offer students international travel, the chance to experience another culture first hand and the opportunity to earn college credit. Through our own custom programs or affiliations with study abroad organizations, short-term summer, semester-long, and year-long programs are currently available to Europe, Asia, Mexico, and South America. A number of scholarships for Study Abroad are available to University of Hawai'i community college students through the UHCC office and other organizations. Contact the Office of International Programs for more information or visit the website at www.leeward.hawaii.edu/StudyAbroad.

Management

Associate in Science Degree in Management

Academic Subject Certificate, Management

Academic Subject Certificate, Travel Industry Management

Certificate of Achievement, Management

Certificate of Competence, Business Essentials

Certificate of Competence, Business Foundations

Certificate of Competence, Management Essentials

Certificate of Competence, Management Foundations

Certificate of Competence, Hospitality and Tourism

Natural Science

Associate in Science Degree in Natural Science with emphasis in one of the following:

- Biological Sciences
- Physical Sciences
- Engineering
- Information & Communication Technology

Plant Biology and Tropical Agriculture

Associate in Science Degree in Plant Biology and Tropical Agriculture

Academic Subject Certificate, Plant Biology and Tropical Agriculture

Certificate of Achievement, Plant Biology and Tropical Agriculture

Certificate of Competence, Plant Biology and Tropical Agriculture

Television Production

Associate in Science Degree in Television Production

Certificate of Achievement, Television Production

Certificate of Competence, Television Production

ABOUT DEGREES & CERTIFICATES

Associate in Arts (AA) Degree

A general and pre-professional education degree, consisting of at least 60 baccalaureate-level semester credits, which provides students with skills and competencies essential for successful completion of a baccalaureate degree. The issuance of an AA degree requires that the student's work has been evaluated and stated outcomes have been met. The issuance of an AA degree requires that the student must earn cumulative 2.0 GPR or better for all courses used to meet the degree requirements. AA degrees may be offered in areas of study (e.g., Liberal Arts, Hawaiian Studies, Teaching).

Associate in Science (AS) Degree

A degree designed to prepare students for employment in career and technical fields, and/or transfer to a baccalaureate granting institution in a science, technology, engineering, mathematics or other articulated baccalaureate-level programs of study. The AS degree consists of at least 60 semester credits, which provides students with either skills and competencies for gainful employment, or with courses in the arts and sciences or career and technical education that will prepare students for entry into an articulated baccalaureate program of study. All courses applicable for the AS degree will be at the baccalaureate level. The issuance of an AS degree requires that the student's work has been evaluated and stated outcomes have been met. The issuance of an AS degree requires that the student must earn cumulative 2.0 GPR or better for all courses used to meet degree requirements.

Associate in Applied Sciences (AAS) Degree

A career and technical education degree, consisting of at least 60 semester credits, which provides students with skills and competencies for gainful employment in a career and/or technical education area. The AAS degree is not intended or designed for transfer directly to a baccalaureate program. AAS programs may, however, include some baccalaureate-level course offerings. Components of General Education included within the AAS must be consistent with levels of quality and rigor appropriate to higher education. The issuance of an AAS degree requires that the student's work has been evaluated and stated outcomes have been met. The issuance of an AAS degree requires that the student must earn a cumulative 2.0 GPR or better for all courses used to meet degree requirements.

Certificate of Achievement

A college credential for students who have successfully completed designated medium-term career and technical education credit course sequences which provide them with entry level skills or job upgrading. These course sequences shall be at least 24 credit hours, but may not exceed 51 credit hours (unless external employment requirements exceed this number). Appropriate to the CTE program, this certificate may include General Education courses that meet industry requirements. The issuance of this certificate requires that the student's work has been evaluated and stated outcomes have been met, and requires that the student must earn a cumulative 2.0 GPR or better for all courses required in the certificate.

Certificate of Competence

A college credential for students who have successfully completed a sequence of career-technical education courses within a BOR-approved CTE program that has been identified as fulfilling an employable set of skills recognized by Business and Industry. The issuance of a this certificate requires that the student's work has been evaluated and stated outcomes have been met. The issuance of this certificate requires that the student's work meets or exceeds competencies necessary for employment. Credit course sequences shall be at least four and less than 24 credit hours and may include General Education courses appropriate to industry requirements. In a credit course sequence the student must earn a cumulative 2.0 GPR or better for all courses required in the certificate.

Advanced Professional Certificate (APC)

A college credential for students who have successfully completed the associate-level degree, or designated medium-term credit/non-credit career-technical education courses, or the equivalent which has provided the student with skills and competencies for gainful employment beyond entry-level positions. The certificate is designed for transfer directly into a baccalaureate program or for industry professionals seeking industry/occupation-specific skills. Credit course sequences shall be at the upper-division course level and contain at least 18 and no more than 30 credit hours. The issuance of an APC requires that the student's work has been evaluated and stated outcomes have been met. The issuance of an APC requires that the student must earn a cumulative 2.0 GPR or better for all courses required in the APC.

Academic Subject Certificate

A supplemental college credential for students enrolled in an AA program or unclassified students already holding an Associate, Bachelor, or Graduate level credential and who have successfully completed a focused, specific sequence of credit courses from the AA curriculum. The sequence must fit within the structure of the AA degree, may not extend the credits required for the AA degree, and shall be at least 12 credit hours. The issuance of an ASC requires that the student's work has been evaluated and stated outcomes have been met. The issuance of the ASC requires that the student must earn a cumulative 2.0 GPR or better for all courses required in the certificate. Students enrolled solely for the purpose of obtaining an ASC will be identified as unclassified for admission and enrollment purposes.

Notes

- Application for Degree/Certificate: To be awarded a diploma from the College, the student must submit an "Application for Degree/Certificate." It is recommended that students schedule a "Grad Check" appointment with a counselor. A non-refundable \$15 fee is required for an Associate Degree or Certificate of Achievement.
- Any student is eligible to become a candidate for any degree or certificate offered at Leeward CC. To do so, candidates must first see a counselor, complete an Application for Degree/Certificate and pay the required graduation fee at the Cashier's Window by the appropriate deadline.
- IMPORTANT AA, AS, and AAS degrees and ASCs and CAs require a cumulative 2.0 GPR or better for all courses used to meet the degree or certificate requirements. Transfer coursework is not calculated into the GPR.
- To graduate with a degree from Leeward CC, a student must have earned a minimum of 12 credits of program courses in the degree/major at Leeward.
- To graduate with a certificate from Leeward CC, a student must have earned a minimum of twenty percent (20%) of program courses in the certificate/major from Leeward CC.
- Courses Completed at other Accredited College & Universities: Courses completed at other accredited colleges and universities with a grade of "D" or better may be transferable toward a Leeward CC degree. Some programs may require a grade of "C" or better. Upper division courses (numbered 300 or higher under the UH System's course numbering system) may be applied to no more than 20% of the Leeward CC's degree or certificate.

GENERAL EDUCATION

Philosophy for General Education Requirements

General education provides students the opportunity to develop understandings, abilities, values, and attributes which enable them to apply their knowledge, skills, and talents to make judicious decisions and to analyze and solve human problems within a multi-cultural community.

General education is that part of education which encompasses the common knowledge, skills, and attitudes needed by each individual to be effective as a person, a family member, a worker, and a citizen. General education is integrated with, but different in emphasis and approach from special training for a job or a profession. Further, general education for the career technical associate degree student should not be confused with liberal education for a baccalaureate student. General education should allow a student to gain a more integrated view of knowledge, a more realistic view of life and a more defined sense of community and social responsibility. Because of the belief that knowledge leads to actions, students should be actively engaged in learning. This holistic point of view provides the student a foundation of lifelong learning in a changing world.

General Education Outcomes

The following outcomes and academic skill standards represent the minimum outcomes expected of students who have completed their general education experiences. Each course included in the general education curriculum should address at least one of these academic skill standards.

1. Written Communication

Written communication is the development and expression of ideas in writing. Written communication involves learning to work in many genres and styles in order to communicate effectively with a particular audience for a specific purpose. It can involve working with different writing technologies, and mixing texts, data, and images. Written communication abilities develop through iterative experiences across the curriculum.

Upon completion of the general education program, students will be able to:

Develop, support, and communicate ideas to a particular audience through writing.

As demonstrated by the ability to:

- Develop a position or thesis to communicate main ideas.
- Use language, style, and organization appropriate to particular purposes and audiences to communicate position or thesis.
- Develop appropriate content to support position or thesis.
- Gather and document credible sources to support position or thesis.
- Use appropriate grammar and mechanics to communicate position or thesis.

2. Oral Communication

Oral communication is the interdependent process of sending, receiving, and understanding messages.

Upon completion of the general education program, students will be able to:

Develop, support, and communicate ideas to a particular audience through speech and writing.

As demonstrated by the ability to:

- Analyze the audience and the purpose of any intended communication (Audience Awareness).
- Arrange, organize, and analyze information for the communication (Content).
- Use language, techniques, and strategies appropriate to the audience and occasion (Language Use and Rhetorical Strategies).
- Demonstrate clear and confident vocalics appropriate to the audience and occasion (Extra-Verbal Delivery Techniques).
- Use competent oral expression to initiate and sustain discussions (Initiating and Sustaining Discussions).

3. Quantitative Reasoning

Quantitative reasoning can have applications in all content areas and disciplines. Generally, students should be able to interpret and apply numerical, symbolic, or graphical reasoning in order to solve problems and address real-life situations. Students then should be able to clearly communicate their thinking and findings to appropriate audiences.

Upon completion of the general education program, students will be able to:

Apply quantitative reasoning to solve problems, interpret answers, and communicate results.

As demonstrated by the ability to:

- Analyze and apply appropriate models to solve quantitative problems.
- Solve computational problems.
- Select and use appropriate numeric, symbolic, graphical, and/or statistical reasoning to interpret, analyze, or critique information or a line of reasoning presented by another and draws a conclusion.
- Express quantitative information symbolically and/or graphically, in written or oral language.

4. Critical Thinking

Critical thinking is characterized by the comprehensive exploration of issues, ideas, artifacts, and events before accepting or formulating an opinion or conclusion.

Upon completion of the general education program, students will be able to:

Use critical thinking to address issues and solve problems.

As demonstrated by the ability to:

- Describe an issue or problem.
- Analyze the issue or problem.
- Develop a thesis on the issue or problem.
- Evaluate stated thesis on the issue or problem.

5. Information Literacy

Information Literacy is a set of abilities needed to find, evaluate, and use information ethically and effectively.

Upon completion of the general education program, students will be able to:

Find, evaluate, and use information.

As demonstrated by the ability to:

- Determine the extent of information needed.
- Access the needed information.
- Evaluate information and its sources critically.
- Use information effectively to accomplish a specific purpose.
- Access and use information ethically and legally

6. Arts, Humanities, and Sciences

Through the study of the arts, humanities, and sciences, students are engaged in a process of inquiry in diverse settings and contexts exploring issues, objects, works, or other discipline specific approaches.

Upon completion of the general education program, students will be able to:

Use the concepts, theories, and methodologies in arts, humanities, natural and social sciences to examine natural phenomena or to evaluate human experiences.

As demonstrated by the ability to:

- Explain the concepts, theories, or methodologies.
- Apply the concepts, theories, or methodologies.
- Evaluate results.

7. Cultural Diversity

Cultural diversity is to recognize the existence of innumerable cultures, locally, nationally, and globally and to understand that these cultures consist of communities with shared values, shared perspectives, practices, experiences, and behavior that are learned. The ultimate goal is the ability to engage diverse perspectives.

ASSOCIATE IN ARTS DEGREE REQUIREMENTS

60 credits

1. Minimum cumulative grade-point average: 2.0 GPR or better for all courses used to meet the degree requirements. Transfer coursework is not calculated into the GPR.
2. 60 credits, all in courses numbered 100 or above
3. A maximum of 48 transfer credits earned at other colleges may be applied towards the degree
4. The 60 credits are composed of:
 - a. 31 credits in General Education Core requirements (12 credits in Foundation, 19 credits in Diversification)
 - b. 29 credits of electives
 - c. Graduation Requirements (Focus Requirements)
5. A minimum of 12 credits of courses number 100 or above must be earned at Leeward CC

Foundations Requirements: 12 credits

- 3 credits in Written Communication (FW)
- 3 credits in Quantitative Reasoning (FQ) or Symbolic Reasoning (FS).
Students entering Fall 2018 and thereafter must take FQ.
- 6 credits in Global Multicultural Perspectives (FG)

Foundations courses are intended to give students skills and perspectives that are fundamental to undertaking higher education. Courses taken to fulfill the Foundations requirement may not be used to fulfill Diversification or Focus requirements. Only courses taken after they have an official Foundations designation (FW, FS, or FG) will count as meeting the Foundations requirement. To enroll in a course that meets the Foundations requirement, students must first meet the prerequisites, if any. Approved Courses are listed on pages 38-41.

Written Communication (FW): 3 credits

Written Communication courses introduce students to the rhetorical, conceptual, and stylistic demands of writing at the college level; courses give instruction in composing processes, search strategies, and composing from sources. These courses also provide students with experiences in the library and on the Internet and enhance their skills in accessing and using various types of primary and secondary materials.

Symbolic Reasoning (FS): 3 credits or Quantitative Reasoning (FQ) 3 credits

Students admitted prior to Fall 2018 can select FS or FQ; students entering Fall 2018 and thereafter must take FQ.

Symbolic Reasoning or Quantitative Reasoning courses expose students to the beauty and power of formal systems, as well as to their clarity and precision; courses will not focus solely on computational skills. Students learn the concept of proof as a chain of inferences. They learn to apply formal rules or algorithms; engage in hypothetical reasoning; and traverse a bridge between theory and practice. In addition, students develop the ability to use appropriate symbolic techniques in the context of problem solving and to present and critically evaluate evidence.

Global and Multicultural Perspectives (FG): 6 credits

Global and Multicultural Perspectives courses provide thematic treatments of global processes and cross-cultural interactions from a variety of perspectives. Students will gain a sense of human development from prehistory to modern times through consideration of narratives and artifacts of and from diverse cultures. At least one component of each of these courses will involve the indigenous cultures of Hawai'i, the Pacific, or Asia. To satisfy this requirement, students must take six credits; the six credits must come from two different groups. See page 38 for groups A, B and C.

Diversification Requirements: 19 credits

- 6 cr. in Arts, Humanities, and Literatures (DA, DH, DL)
- 6 cr. in Social Sciences (DS)
- 7 cr. in Natural Sciences (DB, DP, DY; 2 courses and 1 lab)

The Diversification requirement is intended to assure that every student has a broad exposure to different domains of academic knowledge, while at the same time allowing flexibility for students with different goals and interests. To enroll in a course that meets the Diversification requirement, students must first meet the prerequisites, if any. Some courses that satisfy the Diversification requirement may also simultaneously satisfy Focus requirements. (See a counselor for "Requirements that may be Double-Dipped.") Approved courses are identified in this Catalog on pages 39-41. They are also indicated by designations after the course description.

Arts, Humanities, and Literatures (DA, DH, DL): 6 credits

To satisfy this requirement, students must take six credits from two separate sub-categories. Each course must be taken from a different discipline. Arts area courses are designated "DA," Humanities area courses as "DH," and Literatures area courses as "DL" in the course descriptions of this Catalog.

Social Sciences (DS): 6 credits

To satisfy this requirement, students must take six credits from two different disciplines. Approved courses are identified in this Catalog with the letters "DS" after the course description.

Natural Sciences (DB, DP, DY): 7 credits

To satisfy this requirement, students must take two courses and a lab for a total of seven credits. The three courses must include a biological science (DB), a physical science (DP) and a laboratory (DY) course; one of the courses must have a matching lab class. Course numbers with an "L" are separate lab courses. Some DB and DP courses have a lab embedded. Approved courses are identified in this Catalog with the appropriate letters after the course description. Designations are: "DB" for Biological science courses, "DP" for physical science courses and "DY" for laboratory courses.

Graduation Requirements

Focus Requirements (5 courses)

- 1 course: Contemporary Ethical Issues (ETH)
- 1 course: Hawaiian, Asian, & Pacific Issues (HAP)
- 2 courses: Writing Intensive (WI)
- 1 course: Oral Communication (OC)

Focus Requirements

The Focus requirements identify important additional skills and discourses necessary for living and working in diverse communities. Only Focus courses taken after they have received official designation can count as meeting the Focus requirement. Focus courses are not shown in this Catalog but appear in each semester's Class Availability listing. Because the approved Focus courses may change each semester, students should consult the College's up-to-date online course listing before they register.

Contemporary Ethical Issues (ETH): 1 course

These courses are designed to give students tools for the development of responsible deliberation and ethical judgment. Courses fulfilling this requirement are offered in departments across the curriculum. Approved sections are identified in the College's Class Availability with an "ETH" on the left-hand column and the letter "E" preceding the title; offerings vary each semester. Courses designated "ETH" fulfill the E-focus requirement at Leeward CC, but not at UH Mānoa. UH Mānoa requires a 300-level E-focus course for graduation. All approved E-focus courses from UH Mānoa, UHWO, or any community college, will meet the Leeward CC E-focus graduation requirement.

Hawaiian, Asian, and Pacific Issues (HAP): 1 course

These courses focus on issues in Hawaiian and Asian or Pacific cultures and history; they promote cross-cultural understanding between nations and cultures. Courses fulfilling this requirement are offered in departments across the curriculum. Approved sections are identified in the College's Class Availability with an "HAP"; offerings vary each semester.

Writing Intensive (WI): 2 courses

Because writing helps students both to learn and to communicate, Leeward Community College requires students to take two writing intensive courses. Small writing intensive classes, in which instructors work with students on writing related to course topics, are offered in various disciplines. Students need to satisfy the Written Communication "FW" requirement with a grade of C or better before they enroll in writing intensive courses. Approved sections are identified in the College's Class Availability with a "WI"; offerings vary each semester.

Oral Communication (OC): 1 course

These courses will give students explicit training, in the context of the class, in oral communication concerns relevant to the assignment or activity. Courses fulfilling this requirement are offered in departments across the curriculum. Approved sections are identified in the College's Class Availability with an "OC" on the left hand column and the letter "OC" preceding the title; offerings vary each semester. Courses designated "OC" fulfill the OC Focus requirement at Leeward CC, but not at UH Mānoa. UH Mānoa requires a 300 level OC-Focus course for graduation. All approved OC-Focus courses from UH Mānoa, UHWO, or any community college, will meet the Leeward CC OC-Focus graduation requirement.

ASSOCIATE IN SCIENCE DEGREE

60 to 67 credits depending upon the field of study

1. Minimum cumulative grade-point average: 2.0 GPR or better for all courses used to meet the degree requirements. Transfer coursework is not calculated into the GPR.
2. Minimum Program requirements:
 - a. Courses required by major program.
 - b. General education or liberal arts courses required by the college or program. Specific requirements are listed in each program section.
 - c. Electives as needed to meet the total credit hours requirement.
 - d. Proficiency in written and/or oral communication and/or mathematics usually met by successful completion of course identified by the program.
3. A minimum of 12 credit hours in the major subject area (such as Accounting, Digital Media etc.) must be earned at Leeward CC. This residency requirement may be waived for cause at the option of the Vice Chancellor for Academic Affairs or appropriate Academic Dean. The Vice Chancellor or Dean may also (at their discretion) approve use of credit-by-examination to meet residency requirements.
4. All of the total credit hours required must be at the baccalaureate level in courses numbered 100 or above

ASSOCIATE IN APPLIED SCIENCE DEGREE

60 to 67 credits depending upon the field of study

1. Minimum cumulative grade-point average: 2.0 GPR or better for all courses used to meet the degree requirements. Transfer coursework is not calculated into the GPR.
2. Minimum Program requirements:
 - a. Courses required by major program.
 - b. General education or liberal arts courses required by the college or program. Specific requirements are listed in each program section.
 - c. Electives as needed to meet the total credit hours requirement.
 - d. Proficiency in written and/or oral communication and/or mathematics usually met by successful completion of courses identified by the program.
3. A minimum of 12 credit hours in the major subject area (such as Automotive) must be earned at Leeward CC. The residency requirement may be waived for cause at the option of the Vice Chancellor for Academic Affairs or appropriate Academic Dean. The Vice Chancellor or Dean may also (at their discretion) approve use of credit-by-examination to meet residency requirements.

Notes

Exceptions to the residency requirement may be approved for cause by the Vice Chancellor for Academic Affairs or appropriate Academic Dean. The Vice Chancellor or Dean may also approve use of credit-by-examination to meet residency requirements for the Certificate of Achievement.

EXPLORATORY MAJORS

Exploratory majors are designed to use the students' interests as a starting point and to help provide structure and narrow choices for student success. At UHCCs, Exploratory Majors are designed primarily for Liberal Arts students who are unclear as to what they want to do, but have some idea of the general area they want to study. Exploratory majors will have a defined set of courses that are applicable to the students' terminal or transfer degrees. Within a well-defined set timeframe, students are counseled into a specific major or concentration.

Arts & Humanities

- Art
- Creative Media
- English
- Foreign Languages
- Dance
- Graphic Design
- Music
- History
- Philosophy
- Religion
- Hawaiian Studies

Business

- Marketing
- Accounting
- Finance
- Management
- Entrepreneurship

Health Sciences

- Nursing
- Dental Hygiene
- Athletic Training
- Physical Therapy
- Rad Tech (x-rays)
- EMT / Paramedic
- Dental Assisting
- Occupational Therapy

Social Sciences

- Psychology
- Sociology
- Counseling
- Journalism
- Communication
- Women Studies
- Social Work
- Economics
- Political Science
- Anthropology
- BA –Computer Science

AA DEGREE GENERAL EDUCATION COURSE LISTING

Foundation Requirements 12 credits

Written Communication (FW) 3 cr.

ENG 100 Composition I

ENG 100E Composition I (for non-native speakers of English)

Symbolic Reasoning (FS) 3 cr.

MATH 100C Survey of Math Culinary Arts

PHIL 110 Intro to Logic

Quantitative Reasoning (FS, FQ) 3 cr.

ICS 141 Discrete Mathematics for Computer Sci

ICS 241 Discrete Mathematics for Computer Sci II

MATH 100 Survey of Mathematics

MATH 103 College Algebra

MATH 112 Math for Elem. Teachers II

MATH 115 Statistics

MATH 135 Pre-Calculus: Elem. Functions

MATH 140 Pre-Calc: Trig & Anal Geometry

MATH 140X Accelerated Pre-Calculus

MATH 203 Calculus for Bus. & Soc Sciences

MATH 241 Calculus I

PHIL 111 Intro to Inductive Logic

Global Multicultural Perspectives (FG) 6 cr.

Select two courses, each from a different group.

Group A:

ANTH 151 Emerging Humanity

ART 175 Survey of Global Art I

HIST 151 World History to 1500

Group B:

ANTH 152 Culture and Humanity

ART 176 Survey of Global Art II

BUSN 277 International Business Protocol

BUSN 279 International Business Analysis

GEOG 102 World Regional Geography

HIST 152 World History Since 1500

Group C:

GEOG 151 Geography & Contemporary Society

MUS 107 Music in World Cultures

REL 150 Intro to the World's Major Religions

Diversification

Requirements 19 credits

Arts, Humanities, & Literature 6 cr.

6 total credits required, one course from two separate sub-categories. Each course must be taken from a different discipline.

Diversification Arts (DA)

(Mainly Theory)

ART 101 Intro to the Visual Arts
MUS 108 Music Fundamentals
MUS 253 Elementary Music in Action
MUS 281 Music Theory I

*Philosophy 110 (Introduction to Logic) may be counted as either an Arts & Humanities elective or a Mathematics & Natural Sciences elective for the "old" Associate in Arts degree, or the Associate in Applied Science, or the Associate in Science degree (if applicable) but may not be counted twice under both divisions for the same degree.

NOTES

The general education requirements for the AS and AAS degrees vary depending on the demands of the specific degree. A list of specific requirements for each degree program is included in the Program Section, pages 38-41. Please consult with a faculty program advisor or counselor for details.

Use this listing to select courses to complete the general education electives for some of the Associate in Science or the Associate in Applied Science degrees. Not applicable to the Associate in Arts degree.

PROGRAM REQUIREMENTS

Business, Academic Subject Certificate

24 or 27 credits

The Certificate in Business is designed to provide a strong foundation in accounting, economics, mathematics, computer applications, and written and oral communication for students who plan to earn a bachelor's degree in business administration.

At least twelve of the 24 or 27 credits required for the Certificate will also apply as general education core requirements for the Associate in Arts (AA) degree. With proper planning, the Certificate may be completed within the total credit requirements for the AA degree.

Students planning to transfer into a bachelor's degree program in business should obtain the applicable program requirements sheet for the college or university to which they intend to transfer and see a counselor for academic advising.

Requirements

| Course Alpha | Course Title | Credits |
|-------------------------------------|---|---------|
| ENG 100 | Composition I | 3 |
| SP 151 or SP 251 | Personal and Public Speech (3) Principles of Effective Public Speaking (3) | 3 |
| Accounting Series* | ACC 201 and ACC 202 (6) ACC 201 Intro to Financial Accounting and ACC 202 Intro to Managerial Accounting or ACC 124, ACC 125 and ACC 202 (9) ACC 124 Principles of Accounting I (3) ACC 125 Principles of Accounting II (3) ACC 202 Intro to Managerial Accounting (3) | 6 or 9 |
| ECON 130 | Principles of Microeconomics | 3 |
| ECON 131 | Principles of Macroeconomics | 3 |
| BUS 101 or BUS 201 or ICS 101 | Business Information Systems (3) Advanced Business Information Systems (3) Digital Tools for the Information World (3) | 3 |
| MATH | MATH 103 or higher ** | 3 |

NOTES

For Business Academic Subject Certificate:

*Possible combinations of accounting courses

ACC 124, ACC 125 and ACC 202

ACC 201 and ACC 202

**Students need to check receiving institution (to which they are transferring) for specific math requirement or see an academic advisor for appropriate Math course.

1. UH Mānoa CBA requires or MATH 203 or MATH 241.
2. UH–West O‘ahu prefers completion of MATH 103 or see counselor for appropriate math.

Academic Subject Certificate in Business Program Learning Outcomes

Upon completion of the certificate, students will be able to:

- Perform fundamental accounting tasks and maintain basic accounting systems
- Access, analyze, and interpret information to make judgments and to solve basic business problems
- Demonstrate basic competencies in oral and written communication
- Demonstrate basic quantitative reasoning and problem-solving skills
- Analyze economic conditions that are internal and external to an organization
- Use basic computer applications skills to create documents and produce information to help solve business problems

Community Food Security, Academic Subject Certificate

16 credits

The Academic Subject Certificate in Community Food Security is intended to provide the student with knowledge of the Community Food Security movement through course work and skills and knowledge about the operation of a certified organic farm and the sale of products grown on the farm. The courses will introduce them to the Community Food Security movement both nationally and internationally, provide them the skills for growing foods organically, preparing farm products for sale to restaurants and markets, providing educational activities to elementary, middle and high school students; knowledge about Hawaiian culture; knowledge related to plants, nutrition, the environment and agriculture. With this foundation, it is anticipated that students will be able to pursue degrees in a variety of areas, including environmental resources, education, nutrition, culinary arts, and business.

Requirements

| Course Alpha | Course Title | Credits |
|------------------------|---|---------|
| SOC 151 | Intro to Sociology of Food | 3 |
| AG 112 | Introduction to Organic Agriculture | 4 |
| MGT 135 or FSHN 100 | Agriculture Entrepreneurship (3) Concepts in Nutritional Science (3) | 3 |
| HWST 291 | Contemporary Hawaiian Issues | 3 |
| HWST 107 | Hawai'i: Center of the Pacific | 3 |
| | Total Credits: | 16 |

Academic Subject Certificate in Community Food Security Program Learning Outcomes

Upon completion of the certificate, students will be able to:

- Make connections between current food production systems, diet, the environment and public health.
- Evaluate factors such as economics, population and social equity within the national and local perspective.
- Demonstrate how to grow produce organically.
- Demonstrate ability to market the produce.
- Explain nutritional concepts related to agriculture.
- Describe the Hawaiian "sense of place" and the value of caring for the "āina."

Global Studies, Academic Subject Certificate

18-20 credits

The Academic Subject Certificate in Global Studies is designed to promote cultural sensitivities and international engagement by students at Leeward Community College. It builds upon the strengths of our Hawaiian and multiethnic communities in the Pacific. This program correlates with the system-wide efforts to position the University of Hawai'i as a preeminent center of international learning. The purpose of this certificate is to prepare students to meet the challenges of an interconnected and interdependent world as globally conscious and internationally engaged citizens.

| | Study Abroad (3-4) |

Total for Global Studies certificate

Core Requirements: 15-16 credits

Electives: 3-4 credits

Academic Subject Certificate in Global Studies Program Learning Outcomes

- Evaluate the growing interconnectedness of people and places through expanding economic, political and cultural activities.
- Analyze the factors that promote and shape the international exchange of goods and services.
- Critique the unique historical trajectories of different world regions and the complex political and cultural contexts of contemporary global issues.
- Recognize the diversity of the arts and their role in advancing universal understanding.
- Use second language skills to demonstrate cross-cultural knowledge and appreciation.

Hawaiian Language, Academic Subject Certificate

19 credits

Academic Subject Certificate in Hawaiian Language is intended to provide students with a strong introduction to the culture, and language of Hawai'i. The certificate enhances the Liberal Arts degree and prepares students with a strong foundation to complete their baccalaureate degrees in Hawaiian Language or other fields of study at the University of Hawai'i.

Program Coordinator **Joseph Badis**

Office LA 214

Phone 455-0426

badis@hawaii.edu

Requirements

| Course Alpha | Course Title | Credits |
|---------------------|--------------------------------|----------------|
| HAW 101 | Beginning Hawaiian I | 4 |
| HWST 107 | Hawai'i: Center of the Pacific | 3 |
| HAW 102 | Beginning Hawaiian II | 4 |
| HAW 201 | Intermediate Hawaiian I | 4 |
| HAW 202 | Intermediate Hawaiian II | 4 |
| | Total Credits: | 19 |

Academic Subject Certificate in Hawaiian Language Program Learning Outcomes

- Describe Native Hawaiian linguistic and cultural concepts.
- Explain Native Hawaiian concepts as expressed in the broader areas of science, humanities, arts or social sciences.
- Use Hawaiian language orally and in writing to discover, develop, communicate and reflect on issues relevant to the Native Hawaiian community.

Marine Option Program, Academic Subject Certificate

12 credits

The Marine Option Program (MOP) is designed to assist students interested in relating the ocean to their educational aspirations while earning their AA degree.

The Marine Options Program Academic Subject Certificate emphasizes an experiential, cross-disciplinary education and provides opportunities to apply traditional course work to the real world while students obtain practical marine skills through a “hands-on” internship, research or employment project. Students develop their own customized “skill project” as part of the Certificate.

MOP sponsors numerous field trips, a newsletter, and many opportunities for networking with other interested students and professionals.

Program Coordinator **Alyssa MacDonald**
Office BS 205
Phone 455-0285
alyssa.macdonald@hawaii.edu

Academic Subject Certificate, Marine Option Program Learning Outcomes

After successful completion of this program, students will be able to:

- Demonstrate an awareness of how the ocean relates to Hawai'i's economy, society, and life style.
- Evaluate how their career and educational opportunities can be influenced by the surrounding marine environment.
- Demonstrate basic knowledge about the ocean and its impacts on Hawai'i.
- Create and execute an experiential learning project (Skill Project) to further their education.

Requirements

GROUP 1 8-9 cr.

A total of 8-9 credits from the following list of courses in Subgroups A and B.

Subgroup A: Minimum of one of the following two marine survey courses:

OCN 201 and OCN 201L Science of the Sea (3) and Science of the Sea Lab (1)

ZOOL 200 and ZOOL 200L Intro to Marine Biology (3) and Intro to Marine Biology Lab (1)

Subgroup B: Four to six (4-6) additional credits of ocean-related elective courses from this list:

BIOL 124 Environment & Ecology (3)

BIOL 124L Environment and Ecology Lab (1)

BIOL 200 Coral Reefs (3)

BIOL 200L Coral Reefs Lab (1)

BOT 130 Plants in the Hawaiian Environment (3)

BOT 130L Plants in the Hawaiian Environment Lab (1)

GG 103 Geology of the Hawaiian Islands (3)

HIST 284 History of the Hawaiian Islands (3)

OCN 201 Science of the Sea (3)

OCN 201L Science of the Sea Lab (1) (if not counted as the required survey course)

ZOOL 200 Intro to Marine Biology (2)

ZOOL 200L Intro to Marine Biology Lab (1) (if not counted as the required survey course)

Any marine related course accepted for a MOP certificate at other UH campuses

GROUP 2 3-4 cr.

Both these courses must be taken.

OCN 101 MOP Seminar (must be taken once) – 1 cr

OCN 199 Independent Study 2-3cr

Total Credits: minimum of 12

Note that the lab course must be a companion course to a lecture course you have taken concurrently or previously, e.g. OCN 201 and OCN 201L.

Academic Subject Certificate, Marine Option Program Learning Outcomes

After successful completion of this program, students will be able to:

- Demonstrate an awareness of how the ocean relates to Hawai'i's economy, society, and life style.
- Evaluate how their career and educational opportunities can be influenced by the surrounding marine environment.
- Demonstrate basic knowledge about the ocean and its impacts on Hawai'i.
- Create and execute an experiential learning project (Skill Project) to further their education.

Music, Academic Subject Certificate

18 credits

The Academic Subject Certificate in Music is designed to provide a strong foundation in music theory and performance for students who plan to earn a Bachelor's Degree in music, who wish to develop and further their interest or talent in music while earning an Associate in Arts Degree, and/or who intend to pursue a professional career in music.

Total Credits: 18

Academic Subject Certificate in Music Program Learning Outcomes

After successful completion of this program, students will be able to:

- Perform solo or ensemble literature before a live audience.
- Analyze music for basic melodic, rhythmic and harmonic characteristics.
- Describe the functions and applications of music within diverse cultures.

Philippine Studies, Academic Subject Certificate

17 credits

The Certificate in Philippine Studies is designed to provide a strong introduction to the culture, language, and history of the Philippines and the Filipino people. With proper planning, the Certificate may be completed within the total credit requirements for the Associate in Arts degree. It provides a valuable foundation to students planning to earn a bachelor's degree in Asian Studies and is recommended to students of any ethnic heritage who are interested in Filipino culture, language, and history and the evolution of ethnic minorities in the United States.

Program Coordinator **Raymund Liongson**

Office GT 214

Phone 455-0557

liongson@hawaii.edu

Requirements

A minimum of 17 credits is required to fulfill the requirements of the Philippine Studies Academic Subject Certificate program.

| Course Alpha | Course Title | Credits |
|--------------|---------------------------------|---------|
| ASAN 203 | Philippine History & Culture* | 3 |
| ASAN 204 | Filipinos in the U.S.*^ | 3 |
| ASAN 205 | Contemporary Philippine Issues^ | 3 |
| FIL 101 | Elementary Filipino I | 4 |
| FIL 102 | Elementary Filipino II | 4 |
| HIST 242 | Civilizations of Asia II* | 3 |
| | Total Credits | 17 |

Recommended Electives

(beyond the 17 credits required for the Certificate)

SSCI 101 Self-Development (Project Malaya) (3)

FIL 201 Intermediate Filipino I (4)

FIL 202 Intermediate Filipino II (4)

* Any one of these three courses will fulfill the Diversification Humanities requirement (DH)

^ This course may meet the Writing Intensive (WI) requirement for the AA degree.

Academic Subject Certificate in Philippine Studies Program Learning Outcomes

A. Student Objectives

- Provide students the opportunity to learn and understand the history, language, arts and culture of the fastest growing and second largest ethnic group in Hawai'i (Filipinos);
- Provide students of Filipino ancestry the opportunity to learn about their heritage, and develop a sense of identity and confidence.
- Assist students transferring to four-year institutions majoring in Philippine Language and Literature, Asian Studies, Ethnic Studies, and other humanities or social science disciplines such as history, political science, sociology, geography, education and other fields of study.

B. Community Objectives

- Provide a vehicle for the community to understand the culture of the fastest growing and second largest ethnic group in Hawai'i (Filipinos); and
- Provide education for mutually respectful and productive employment environment in Hawai'i in areas that involve Filipino culture, e.g., health care, tourism and service industry, education, government, entrepreneurship.

Writing, Academic Subject Certificate

18 credits

The Academic Subject Certificate in Writing provides a structured course of study for students interested in further developing their facilities with written language, critical thinking, and creativity.

This Certificate will greatly enhance students' educational and career opportunities. As research has clearly demonstrated, writing offers an unparalleled opportunity for intellectual and creative development.

Students who are extensively trained in writing have enhanced skills that will promote their educational and career success. At the same time, writing is also one of the best vehicles there is for intellectual and creative growth and development.

Academic Subject Certificate in Writing Program Learning Outcomes

Upon completion of the program, students will be able to:

- Demonstrate advanced writing skills appropriate for college-level courses.
- Use writing to communicate clearly and effectively.

Applied Forensic Anthropology Certificate

7-8 credits at Leeward CC and 22 credits at UHWO

Awarded by UH–West O‘ahu

The Certificate in Applied Forensic Anthropology (CAFA) is a joint program offered by Leeward Community College and University of Hawai‘i–West O‘ahu. The Certificate is awarded by UH–WO upon the completion of all requirements. The CAFA program is designed to provide a strong background in forensic anthropology, which uses standard scientific techniques to identify human remains and assist in the detection of crime. This certificate, in combination with appropriate Associate and Bachelor’s degrees, will help make students competitive for a variety of job opportunities, including crime scene analyst, forensic anthropologist, forensic scientist, and crime lab technician.

The **Certificate of Competence in Small Business Accounting** is for the student who wishes to quickly acquire accounting knowledge to be applied in a new or continuing small business. This certificate can be earned by attending live or online classes. Both the **Certificate of Achievement and the Associate in Science Degree** programs are designed to prepare the student for entry-level accounting positions in accounts receivable, accounts payable, payroll, inventory, bookkeeping, and other related fields. We emphasize our students' development in the areas of analytical knowledge, communication skills, and computer applications. Our accounting programs provide solid foundations for any business career in government and private industry.

In order to obtain an accounting certificate or degree, students must pass all required accounting courses with a grade of "C" or better. Recommended schedules for full-time students: please see an academic advisor for help in choosing ACC 124 or ACC 201.

Associate in Science Degree in Accounting

60 Credits

The Associate in Science degree is designed to prepare the student for entry-level accounting positions in accounts receivable, accounts payable, payroll, inventory, bookkeeping, and other related fields.

First Semester Requirements

| Course Alpha | Course Title | Credits |
|----------------------------|---|---------|
| ACC 124* or ACC 201* | Principles of Accounting I (3) Intro to Financial Accounting (3) | 3 |
| BUSN 188 or MATH 103*** | Business Calculations (3) College Algebra (3) | 3 |
| MGT 121 | Service Excellence | 3 |
| SP 151 | Personal and Public Speech | 3 |
| BUS 101 | Business Information Systems | 3 |
| | Total Semester Credits | 15 |

Second Semester Requirements

| Course Alpha | Course Title | Credits |
|-------------------------|--|---------|
| ACC 125* or ACC 202* | Principles of Accounting II (3) Intro to Managerial Accounting (3) | 3 |
| ENG 100 | Composition I or equivalent | 3 |
| ACC 252 | Using Quickbooks in Accounting (Formerly ACC 150) | 3 |
| ACC 132 | Payroll & Hawai'i GE Tax | 3 |
| BUS 120 | Principles of Business | 3 |
| BUSN 166 | Professional Employment Preparation (AS students may take this in their fourth semester) | 1 |
| | Total Semester Credits | 16 |

Third Semester Requirements

| Course Alpha | Course Title | Credits |
|--|---|---------|
| BUSINESS | Business Elective for students who took ACC 201 and ACC 202. (Students who completed ACC 124 and ACC 125 need to take ACC 202.) | 3 |
| ACC 134 | Individual Income Tax Preparation | 3 |
| ECON 131 or ECON 130 or ECON 120 | Principles of Macroeconomics (3) Principles of Microeconomics (3) Introduction to Economics**(3) | 3 |
| ENG 209 | Business Writing | 3 |
| Nat Science | DB or DP course | 3 |
| | Total Semester Credits | 15 |

| Course Alpha | Course Title | Credits |
|--------------|--|---------|
| ACC 255 | Using Excel in Accounting | 3 |
| BLAW 200 | Legal Environment of Business | 3 |
| BUSN 193V | Cooperative Education | 1 |
| A & H | DA or DH course | 3 |
| BUSINESS | Business Elective Highly Recommended: ACC 137 Business Income Tax Preparation (3) Any course with ACC, BLAW, BUS, BUSN, FIN, ECOM, HIT, HOST, MGT, MKT, OR TIM alphas may be taken. | 4 |
| | Total Semester Credits | 14 |
| | Total Degree Credits | 60 |

Associate in Science Accounting Program Outcomes

In addition to acquiring the competencies required for Associate in Science degrees, upon successful completion of this program graduates will be able to:

- Perform basic accounting tasks and maintain accurate accounting systems including the preparation of financial statements.
- Use appropriate software to complete accounting/bookkeeping tasks.
- Access, analyze, and interpret information to make judgments and to solve business problems.
- Practice within the legal and ethical parameters of the profession.
- Interact with customers, vendors, and co-workers in ways that effectively support the work to be accomplished and customer satisfaction.
- Organize, prioritize, and perform work tasks to meet deadlines and schedules.
- Compose clear and accurate business documents.
- Demonstrate knowledge of wage/hour, payroll taxes and Hawai'i General Excise Tax laws.
- Demonstrate knowledge of income tax laws and prepare income tax returns.
- Utilize resources needed to find a job.
- Perform duties at a worksite according to industry standards.

NOTES on AS Degree in Accounting

*Combinations of Introductory Accounting Courses

For Certificate of Achievement:

ACC 124 and ACC 125

ACC 201 and ACC 202

*Combinations of Introductory Accounting Courses

For Associate in Science Degree:

ACC 201 and ACC 202

ACC 124, ACC 125, and ACC 202

* The sequence of ACC 124, 125 and 202 is equivalent to the sequence of ACC 201 and 202 and vice versa. Therefore, credit will not be given for both sequences. A student who has completed ACC 124 or ACC 125 may not use ACC 201 as an elective for any AS or AAS degree. Similarly, a student who has completed ACC 201 may not use ACC 124 and ACC 125 as an elective for any AA degree.

** Not recommended for transfer to a four year program.

***MATH 103 is articulated with UH West O'ahu as a General Education Foundations Symbolic Reasoning (FS) course and will satisfy the lower division math requirement for the Bachelor of Arts in Business Administration, Accounting degree.

Academic Subject Certificate, Accounting

15 credits

Designed to provide workforce skills to Liberal Arts students while earning their AA degree. Students taking these courses will also be able to enter the workforce after receiving their AA and can continue to work while pursuing a bachelor's degree.

The Academic Subject Certificate in Accounting will provide students with an opportunity to focus their elective studies on acquiring accounting skills. Students interested in exploring accounting as a possible major at a four-year institution can take these courses while earning their AA degree. Students also will have the opportunity to show potential employers they have accounting skills improving their chances of getting an accounting clerk position. Students holding this certificate will also be able to present themselves as receiving specialized training in accounting, which will greatly enhance their employment potential and admission into four-year business programs.

Requirements

| Course Alpha | Course Title | Credits |
|-----------------------|---|---------|
| Core Courses | | |
| MGT 121 | Service Excellence | 3 |
| ACC 201* | Introduction to Financial Accounting | 3 |
| ACC 202 | Introduction to Managerial Accounting | 3 |
| | Accounting Electives, select two | 6 |
| ACC 132 | Payroll and Hawai'i GE Tax (3) | |
| ACC 134 | Individual Income Tax Preparation (3) | |
| ACC 252 or ACC 255 | Using QuickBooks® in Accounting (3) Using Spreadsheets in Accounting (3) | |
| | Total Credits | 15 |

Academic Subject Certificate in Accounting Program Learning Outcomes

Upon completion of the program, students will be able to:

- Perform basic accounting tasks and maintain accurate accounting systems including the preparation of financial statements
- Access, analyze, and interpret information to make judgments and to solve basic business problems
- Use appropriate software to complete accounting/bookkeeping tasks
- Interact with customers, vendors, and co-workers in ways that effectively support the work to be accomplished and customer satisfaction

NOTES

*ACC 124 and ACC 125 can be taken to meet the ACC 201 requirement.

It is recommended that students take ECON 130 or ECON 131 as one of their Social Science courses in the AA liberal arts degree as both ECON 130 and ECON 131 are needed for students transferring to four-year business programs.

Such students are also recommended to take BUS 101 or ICS 101 as the technology prerequisite for the Shidler College of Business and UH-West O'ahu.

It is also recommended that students planning to transfer to UH–West O'ahu or UH–Mānoa review admission requirements for math and take the appropriate math course. Additional recommendations are that students take ENG 100 for written communication and SP 151 for oral communication.

Certificate of Achievement Accounting

31 Credits

The Certificate of Competence in Small Business Accounting is for the student who wishes to quickly acquire accounting knowledge to be applied in a new or continuing small business. This certificate can be earned by attending live or online classes. Both the Certificate of Achievement and the Associate in Science Degree programs are designed to prepare the student for entry-level accounting positions in accounts receivable, accounts payable, payroll, inventory, bookkeeping, and other related fields. Automotive Technology

- Associate in Applied Science Degree
- Certificate of Achievement
- Certificate of Competence

Program Coordinator **Milton Ayakawa**

Office ET 101C
Phone 455-0439
mayakawa@hawaii.edu

CTE Counselor **Ann Dorado**

Office GT 111
Phone 455-0652
adorado@hawaii.edu

The goals of the program are:

1. to prepare students with the skills and competencies necessary for a successful career as an automotive technician;
2. to instill in students the work habits and attitudes necessary to work in a highly competitive field; and
3. to provide students with the basic skills necessary to become lifelong learners in order to keep abreast of the latest technological changes in the automotive field.

In order to promote a student's readiness and success, prerequisites have been established for each AMT certificate and degree and for AMT courses. The competencies students are expected to achieve in the AMT program are based on the tasks prescribed by National Automotive Technician Education Foundation (NATEF) and the National Institute for Automotive Service Excellence (ASE) for technician certification.

Entering students must purchase or provide a basic tool set and uniform as prescribed by the program. Cost is approximately \$2200. Additionally, most courses have textbook requirements.

The programs in Automotive Technology are accredited by the National Automotive Technicians Education Foundation (NATEF), 101 Blue Seal Drive, S.E. Suite 101, Leesburg, VA 20175, (703) 669-6650. To file a complaint with NATEF, email webmaster@natef.org or visit www.natef.org.

Recommended high school preparation: Pre-Algebra, Electronics, Chemistry or Physics, Industrial Arts.

Ford ASSET Option

Automotive Student Service Educational Training (ASSET) is a Statewide program sponsored by Ford Motor Company, Ford and Lincoln/Mercury Dealers and Leeward CC. It is a two-year program designed to develop entry-level service technicians for Ford and Lincoln/Mercury dealerships. ASSET provides the student with a unique two-year work-study experience which leads to an Associate in Applied Science Degree (64 credits) in Automotive Technology.

The ASSET program is designed to provide Ford and Lincoln/Mercury dealerships with qualified technicians proficient in the latest automotive service technologies and methods. In addition, the program enables graduates to make advancements in their career paths. The cost of tools and supplies is approximately \$2,000. Students interested in enrolling in ASSET should see the AMT ASSET Instructor.

Associate in Applied Science in Automotive Technology

63-64 Credits

The Associate in Applied Science Degree is awarded to students who successfully complete both the required AMT and general education courses. The AAS degree enables students to enter the workforce. Graduates are able to seek employment in multiple areas in the automotive industry or related technical fields.

First Semester Requirements

| Course Alpha | Course Title | Hours | Credits |
|--------------|--|-------|---------|

The overall objective of the Business Technology Program is to prepare students (and to upgrade/retrain business professionals) for employment in administrative support positions in office settings in both private and public business and related industries. The curriculum provides for career mobility.

Articulation agreements have been established with both the University of Hawai'i–West O'ahu and Hawai'i Pacific University. In order to obtain a Business Technology certificate or degree, students must pass all required business (BUS), business technology (BUSN), management (MGT), accounting (ACC), and law (BLAW) courses with a grade of C or better.

Associate in Science Degree in Business Technology

Business Technology Program Outcomes: Associate in Science and Certificate of Competence

- Work as a responsible member of a team to meet an organization's objectives.
- Demonstrate professionalism in work quality, appearance, attitude, and workplace behavior as required in a diverse business environment.
- Use current and emerging technologies effectively to create and manage documents and handle multiple priorities.
- Communicate clearly and effectively through oral and written interactions, complying with standard office etiquette.
- Use research and decision-making skills to make informed choices consistent with personal and organizational goals.
- Apply appropriate strategies to secure employment, retain a job, and advance in a career.

Academic Subject Certificate, Business Technology

19 credits

Designed to enhance the marketability and increase earning potential of the Liberal Arts students who will enter the workforce upon graduation, work while earning their associate's degree, or continue working while pursuing a bachelor's degree.

The Academic Subject Certificate in Business Technology will provide Associate in Arts students with an opportunity to focus their elective studies on acquiring business technology skills. Students interested in exploring business or business education as possible majors at four-year institutions can take these courses while earning their AA degree. Students also will have the opportunity to show potential employers they have business technology skills improving their chances of getting a job. Students holding this certificate will also be able to present themselves as receiving specialized training in business technology, which will greatly enhance their employment potential and admission into four-year business programs.

Requirements

| Course Alpha | Course Title | Credits |
|-------------------------|---|----------------|
| BUS 101 | Business Information Systems | 3 |
| BUSN 121 or BUSN 123 | Introduction to Word Processing (3) Word Processing for Business (3) | 3 |
| BUSN 164 | Career Success | 3 |
| BUSN 166 | Professional Employment Preparation | 1 |
| BUSN 188 | Business Calculations | 3 |
| ACC 124 or ACC 201 | Principles of Accounting I (3) or Intro to Financial Accounting (3) | 3 |
| MGT 121 | Service Excellence | 3 |
| | Total Credits | 19 |

Academic Subject Certificate in Business Technology Program Learning Outcomes

Upon completion of the certificate, students will be able to:

- Provide students with skills and competencies essential for successful completion of a baccalaureate degree.
- Identify and respond to customer needs by applying professional behaviors and ethical standards in the workplace.
- Use appropriate technological tools to research, prepare, process, and communicate information and data to solve problems.
- Manage and maintain an effective office environment.
- Use business mathematics/accounting procedures to process basic financial transactions.
- Work in a business environment recognizing one's role in world community issues with a respect for diverse cultures and differing worldviews while embracing a sense of pride in one's own regional values and historical heritage.
- Explore various career opportunities in the business community.
- Maintain proficiency in business technology by participating in on-going professional development in the business community.

NOTES

- It is recommended that students take ECON 130 or ECON 131 as one of their Social Science courses in the AS degree as both ECON 130 and ECON 131 are needed for students transferring to four-year business programs. Additional recommendations are that students take ENG 100 for written communication and SP 151 for oral communication.
- By selecting BUSN 123, Word Processing for Business, and completing one additional course, BUSN 170, Records and Information Management, you will earn the Certificate of Competence in Business Technology.
- You cannot use ACC 124 as a 100-level elective if taking ACC 201 for Certificate of Achievement or Associate in Science Degree.
- ACC 124 and ACC 125 together are equivalent to ACC 201; therefore, ACC 124 is half of the content of ACC 201.

Certificate of Achievement, Business Technology

33 Credits

The Culinary Arts Program is accredited by the Accrediting Commission of the American Culinary Federation Education Foundation (ACFEF), 180 Center Place Way, St. Augustine, FL 32095, (904) 824-4468. ACF website: www.acfchefs.org.

The student who successfully completes the prescribed courses in the Culinary Arts curriculum will be awarded an Associate in Science Degree, a Certificate of Achievement and/or a Certificate of Competence. The time to complete the certificates or the degree varies from one to four semesters. Cost of cutlery, books and uniforms is approximately \$600 for the beginning student. In order to obtain a culinary arts certificate or degree, students must pass all required culinary arts (CULN) courses with a grade of C or better.

Associate in Science Degree Culinary Arts

64 credits

Requires four semesters to complete.

This program is designed to provide the technical knowledge and basic skills training for students interested in a professional food service career. Program emphasis is on providing students with theoretical knowledge reinforced with “hands-on” training. With job experience, graduates of the program have advanced to chefs, pastry chefs, kitchen managers, restaurant managers, and restaurant owners.

Requirements

| Course Alpha | Course Title | Credits |
|---|---|----------------|
| CULN 111 | Intro. to the Culinary Industry | 2 |
| CULN 112 | Sanitation and Safety | 2 |
| CULN 120 | Fundamentals of Cookery | 5 |
| CULN 125 | Fundamentals of Cookery II | 5 |
| MATH 100C | Survey of Math Culinary Arts (or equivalent) | 3 |
| CULN 224 | Asian/Continental Cuisine | 5 |
| CULN 150 | Fundamentals of Baking | 5 |
| ENG 100 | Composition I (or equivalent) | 3 |
| CULN 271 | Purchasing and Cost Control | 4 |
| CULN 160 | Dining Room Operations | 5 |
| CULN 223 | Contemporary Cuisines | 5 |

Associate in Science Culinary Arts Program Outcomes

Culinary Institute of the Pacific at Leeward Community College

Upon successful completion of this program graduates will be able to:

- Demonstrate professionalism in dress and grooming, attitude, and workplace behavior that reflect standards expected of food service industry professionals.
- Demonstrate basic principles of sanitation and safety in a foodservice operation for safe food handling and to protect the health of the consumer.
- Apply mathematical functions related to foodservice operations.
- Use knives, tools and equipment following established safety and sanitation practices and principles of food preparation to prepare a variety of food items, recipes, and/or products.
- Demonstrate a variety of culinary cooking methods and techniques following established procedures to produce classical, regional and contemporary cuisines.
- Demonstrate fundamental principles, methods, and techniques of baking to prepare a variety of baked goods.
- Demonstrate professional hospitality and service standards to insure quality guest service.
- Examine a variety of sustainable practices in the culinary industry as a means for controlling operating costs and for being good environmental stewards.
- Explore various management topics as related to foodservice operations.

2 Year Plan for Degree Completion

Suggested Sequence for 2-year plan

First Semester 17 credits

CULN 111

CULN 112

CULN 120

CULN 125

MATH 100C

At this point Certificate of Competence in Preparation Cook earned.

Second Semester 13 credits

CULN 150

CULN 224

ENG 100

At this point Certificate of Competence in Baking and Certificate of Achievement earned.

Third Semester 18 credits

CULN 115

CULN 160

CULN 223

CULN 271

FSHN 100

Fourth Semester 16 credits

CULN 240

CULN 269

CULN 293E

CULN 275

A&H Elective

SS Elective

At this point Certificate of Competence in Dining Room Supervision earned and Associate in Science Degree completed.

Certificate of Achievement, Culinary Arts

30–33 Credits

Requires two semesters to complete. Students acquire a solid foundation in cooking principles and develop fundamental food preparation skills. The goal of this program is to develop an employee able to work in a variety of entry-level job stations in a commercial kitchen.

Requirements

| Course Alpha | Course Title | Credits |
|-------------------------------------|--|---------|
| CULN 111 | Intro. to the Culinary Industry | 2 |
| CULN 112 | Sanitation and Safety | 2 |
| CULN 120 | Fundamentals of Cookery | 5 |
| CULN 125 | Fundamentals of Cookery II | 5 |
| CULN 224 | Asian/Continental Cuisine | 5 |
| CULN 150 | Fundamentals of Baking | 5 |
| ENG 22 or ENG 24 | Introduction to Composition (3) Reading, Reasoning, & Writing (6) or equivalent or higher | 3 or 6 |
| MATH 75 or QM 75 or MATH 100C | Intro to Math Reasoning (3) or Intro to Quantitative Methods or Survey of Math Culinary Arts (3) or equivalent or higher | 3 |
| | Total Credits | 30–33 |

Certificate of Achievement in Culinary Arts Program Learning Outcomes

Upon successful completion of the certificate, students will be able to:

- Demonstrate professionalism in dress, grooming, attitude, and workplace behavior that reflect standards expected of culinary and hospitality employees
- Demonstrate principles of sanitation and safety in a food service operation for safe food handling and to protect the health of the consumer
- Apply mathematical functions related to food service operations
- Use knives, tools and equipment following established safety and sanitation practices and principles of food preparation to prepare a variety of food items, recipes, and/or products
- Demonstrate a variety of culinary cooking methods and techniques following established procedures to produce classic, regional and contemporary cuisines
- Demonstrate fundamental principles, methods, and techniques of baking to prepare a variety of baked goods
- Demonstrate professional hospitality and service standards to insure quality guest service

Certificate of Competence, Preparation Cook

12 Credits

Requires one or two semesters to complete. The objective of the Certificate program is to give students basic skills in a specific entry-level job.

Requirements

| Course Alpha | Course Title | Credits |
|--------------|----------------------------|---------|
| CULN 112 | Sanitation and Safety | 2 |
| CULN 120 | Fundamentals of Cookery | 5 |
| CULN 125 | Fundamentals of Cookery II | 5 |
| | Total Credits | 12 |

Certificate of Competence Preparation Cook Program Learning Outcomes

- Apply basic principles of sanitation and safety in foodservice operations.
- Apply personal hygiene habits and food handling practices that protect the health of the consumer.
- Perform basic skills in knife, tool, and equipment handling.
- Apply the principles of food preparation to produce a variety of food products.

Certificate of Competence, Baking

10–11 Credits

Requires one or two semesters to complete. The objective of the Certificate program is to give students basic skills in a specific entry-level job.

Requirements

| Course Alpha | Course Title | Credits |
|--------------|--|---------|
| CULN 112 | Sanitation and Safety | 2 |
| CULN 150 | Fundamentals of Baking | 5 |
| MATH 75 | Intro to Math Reasoning (3) or equivalent or higher | 3–4 |
| | Total Credits | 10–11 |

Certificate of Competence in Baking Program Learning Outcomes

Upon successful completion of the certificate, students will be able to:

- Demonstrate basic entry level skills in sanitation and safety
- Demonstrate basic fundamentals of baking
- Use technical math as it applies to the culinary industry

Certificate of Competence, Dining Room Supervision

18–19 Credits

Requires two semesters to complete. The objective of the Certificate program is to give students basic skills in a specific entry-level job.

Requirements

| Course Alpha | Course Title | Credits |
|---|--|----------------|
| CULN 112 | Sanitation and Safety | 2 |
| CULN 160 | Dining Room Operations | 5 |
| CULN 275 | HR Management & Supervision | 2 |
| MATH 75 | Intro to Math Reasoning (3) or equivalent or higher | 3–4 |
| Social Science Elective (SOC 151 Intro to Sociology of Food recommended) | | 3 |
| SP 151 or COM 145 or ENG 100 | Personal and Public Speech (3) Interpersonal Communication (3) Composition I (3) | 3 |
| Total Credits | | 18–19 |

Certificate of Competence in Dining Room Supervision Program Learning Outcomes

- Apply the fundamental techniques of guest service and customer relations in a restaurant dining room.
- Demonstrate basic skills in sanitation and safety as related to the operation of a restaurant dining room.
- Use technical math as it applies to the operation of a restaurant dining room.
- Communicate effectively in small and large groups.
- Information on program length, estimated cost of education, completion rates, student loan indebtedness, and job placement.

Associate in Science Degree in Digital Media Production

60 credits

The Associate in Science in Digital Media Production provides creative individuals with the art and design training needed to explore and express ideas using leading-edge technology and skill-sets. Students receive integrated digital media training in one of five specializations: Animation and Motion Graphics, Creative Media, Digital Photography, Digital Video for the Web, and Internet Publishing. Students become life-long learners, developing the skills required for a vast array of digital media careers, including web design and development, multimedia-production, digital video production, corporate communications, two-dimensional and three-dimensional animation, and interactive media.

| | |
|-----------------------------|------------|
| DMED Core | 15 credits |
| General Education Courses | 21 credits |
| Specialization Courses | 24 credits |
| Total Credits for AS Degree | 60 credits |

*Notes: All ART, DMED, and ICS required courses must be passed with a grade of C or better. DMED 235 and DMED 236 need to be taken concurrently. Both courses will be offered in Spring only.

Specialization Animation and Motion Graphics

Produce 2-D and 3-D animation and attention-grabbing communication design by generating ideas using independent judgment, creativity, and computer software for content creation.

Specialization Creative Media

Demonstrate competence in the production and processing of images with current electronic tools and the application of electronic media to all areas of artistic and commercial new media art.

Specialization Digital Photography

Demonstrate competence in the production and processing of images with current electronic photographic tools and the application of electronic media to all areas of artistic and commercial photography.

Specialization Digital Video for the Web

Produce attention-grabbing communication design for film, television, music videos, and the Web while meeting industry standard specifications.

Specialization Internet Publishing

Create design prototypes, including graphic design, site navigation, and layout of content, for various Web sites and perform maintenance and updates to existing Web sites.

Associate in Science Degree in Digital Media Production Program Outcomes

In addition to acquiring the competencies required for Associate in Science degrees, upon successful completion of this program graduates will be able to:

- Develop critical thinking and problem-solving skills for project planning and use of necessary collaborative skills.
- Communicate clearly and concisely, visually, verbally and in writing, using digital media techniques appropriate for the intended audience.
- Identify and explain digital media standards of professionalism as they pertain to personal and work-related endeavors.
- Exhibit a portfolio of digital media projects related to the chosen specialization at the conclusion of the Associate in Science degree work.

Academic Subject Certificate, Creative Media

21 credits

The Certificate in Creative Media is designed for students who plan to earn a bachelor's degree in Animation & Computer Games or Interactive Media. The Certificate provides creative individuals with the art and design training needed to explore and express ideas using leading-edge technology as well as interactive scripting. The certificate focuses on 3D visual art production for the film, broadcast, and computer game development industries. The certificate provides a balance of technical skills and aesthetic development, culminating in a portfolio-building project targeted to the student's chosen specialization.

Students can take the required courses at any UH Community College and/or at UH Mānoa. A minimum of 50% of 12 required credits for the certificate must be taken at Leeward Community College. At least 6 credits of the 21 required credits for the Certificate would also apply as general education core requirements for the Associate in Arts (AA) degree. With proper planning, the Certificate can be used as electives for the AA degree and will not exceed the maximum credits needed for the AA.

Students planning to transfer to a bachelor's degree program in either Animation & Computer Games or Interactive Media should obtain the application program requirements sheet for the Transfer College or university and see a counselor for academic advising.

Academic Subject Certificate in Creative Media Program Learning Outcomes

Upon successful completion of this certificate, students will be able to:

- Develop critical thinking and problem-solving skills for project planning and use of necessary collaborative skills.
- Apply the principles of animated film, behavioral animation concepts, timing, movement analysis and dramatic interpretation.
- Apply scripting techniques to automate and manipulate multimedia.
- Communicate clearly and concisely, visually, verbally and in writing, using techniques appropriate for the intended audience.

Academic Subject Certificate, Digital Art: Photographic Emphasis

18 credits

An Academic Subject Certificate in Digital Art, encompassing a focus on visual art produced digitally. The certificate emphasizes digital photography.

Program Coordinator **Wayne Muromoto**

Requirements

| Course Alpha | Course Title | Credits |
|-----------------------------------|-----------------------------------|---------|
| Core Courses | | |
| ART 101 | Introduction to the Visual Arts | 3 |
| ART 107D | Intro to Digital Photography | 3 |
| ART 112 | Digital Art | 3 |
| ART 207D | Intermediate Digital Photography | 3 |
| DMED 200 | Electronic Portfolio | 3 |
| Total Core Courses: 15 | | |
| Electives (one of the following): | | 3 |
| ART 115 | Introduction to Design (3) | |
| ART 113D | Intro to Computer Drawing (3) | |
| ART 277D | Studio Photography (3) | |
| DMED 131 | Introduction to Digital Video (3) | |
| Total Credits: | | 18 |

Academic Subject Certificate in Digital Art, Photographic Emphasis Program Learning Outcomes

Upon successful completion of this certificate, students will be able to:

- Demonstrate artistic and technical quality in designing digital artworks.
- Develop skills in art and digital media to prepare for further academic study or the workplace.
- Communicate effectively with customers and co-workers in an organizational setting.
- Carry out basic accounting, computer, and management functions in a work-place environment.

Certificate of Achievement, Digital Media Production

30 credits

The Certificate of Achievement in Digital Media Production is designed to provide the student with entry-level skills or job upgrading for positions under direct supervision in Multi-Media and Web Development. Student must earn a GPA of 2.0 or better for all courses required in this certificate.

Requirements

| Course Alpha | Course Title | Credits |
|--------------|--|---------|
| | Written Communication (FW) | 3 |
| | Symbolic Reasoning (FS) | 3 |
| ART 112 | Digital Art | 3 |
| ART 229 | Interface Design I | 3 |
| DMED 131 | Introduction to Digital Video | 3 |
| DMED 150 | Film Analysis & Storytelling | 3 |
| DMED 160 | Media Literacy & Ethics | 3 |
| DMED 200 | Electronic Portfolio | 3 |
| DMED 251 | Media Entrepreneurship | 3 |
| Elective | Choose one course from any other DMED specialization | 3 |
| | Total Credits | 30 |

Certificate of Achievement in Digital Media Production Program Learning Outcomes

Upon completion of the certificate, the student will be able to:

- Apply critical thinking and aesthetic judgments in creating collaborative Digital Media projects.
- Demonstrate proficient-level skills in design software necessary to gain entry-level employment in Digital Media.
- Communicate clearly, concisely, visually, verbally and in writing, using techniques appropriate for the intended audience.
- Compile a portfolio of projects at the conclusion of the Certificate of Achievement program.

Information on program length, estimated cost of education, completion rates, student loan indebtedness, and job placement: Certificate of Achievement, Digital Media Production

http://www.leeward.hawaii.edu/files/gedt/dmed_ca/

Certificate of Competence, Graphic Design

9 credits

Training in practical, technical, and theoretical desktop publishing skills used by the graphic arts and allied industries in the areas of publication and print promotion.

Requirements

| Course Alpha | Course Title | Credits |
|--------------|----------------------------------|---------|
| ART 113D | Introduction to Computer Drawing | 3 |
| ART 112 | Digital Art | 3 |
| ART 221 | Design for Print and Web | 3 |
| | Total Credits | 9 |

Certificate of Competence in Graphic Design Program Learning Outcomes

Upon successful completion of the program, students will be able to:

- Design attention-grabbing communication graphics to meet specific commercial or promotional needs, such as packaging, displays, or logos while meeting industry standard specifications.
- Identify complex problems and review related information to develop and evaluate options and implement solutions.
- Demonstrate proficiency in the use of Graphic Design software and hardware.

Certificate of Competence, Motion Graphics

9 credits

The Motion Graphics Certificate of Competence prepares students for a variety of careers in the Multimedia industries. In order to establish a digital literacy core this truly comprehensive certificate starts students out with the basics of 2D and 3D animation to form a digital literacy core. Students build a strong foundation in Digital Art, visual and information design and animation for Film and TV.

Requirements

| Course Alpha | Course Title | Credits |
|---------------------|---|----------------|
| DMED 140 | Principles of Animation | 3 |
| DMED 240 | Animation and Special Effects | 3 |
| DMED 141 | Intro to 3-D Animation & Visual Effects | 3 |
| | Total Credits | 9 |

Certificate of Competence in Motion Graphics Program Learning Outcomes

Upon successful completion of the program, students will be able to:

Produce attention-grabbing communication motion graphics for film, television, music videos, and the Web while meeting industry standard specifications.

Identify complex problems and review related information to develop and evaluate options and implement solutions.

Demonstrate proficiency in the use of motion graphics software and hardware.

Certificate of Competence, Digital Media Production

21 credits

The Digital Media Production Certificate of Competence is designed to develop interdisciplinary skills necessary for the production of multimedia, students have the opportunity to explore a variety of media for the Internet, print, and digital video. The Certificate is intended to train students who are working in such fields which requires them to develop digital media materials.

Requirements

| Course Alpha | Course Title | Credits |
|--------------|-----------------------------------|---------|
| ART 101 | Introduction to Visual Arts | 3 |
| ICS 100 | Computing Literacy & Applications | 3 |
| ART 112 | Digital Art | 3 |
| ART 221 | Design for Print and Web | 3 |
| ART 229 | Interface Design I | 3 |
| DMED 131 | Introduction to Digital Video | 3 |
| DMED 200 | Electronic Portfolio | 3 |
| | Total Credits | 21 |

Certificate of Competence in Digital Media Production Program Learning Outcomes

Upon completion of the program, students will be able to:

- Create digital media projects that incorporate art theory, web design and development, computer graphics and non-linear digital video editing.
- Identify complex problems and review related information to develop and evaluate options and implement solutions.
- Demonstrate proficiency in the use of digital media software and hardware.
- Exhibit a portfolio of digital media projects at the conclusion of the certificate.

Information on program length, estimated cost of education, completion rates, student loan indebtedness, and job placement, Certificate of Competence, Digital Media Production

http://www.leeward.hawaii.edu/files/gedt/dmed_co/

Certificate of Competence, Digital Photography

9 credits

Provides students with both the technical and visual communication skills required for a variety of careers related to photography and imaging. The program combines an understanding of how digital cameras work with the concepts of digital capture, lighting, exposure evaluation, file formatting, image manipulation and composition.

Requirements

| Course Alpha | Course Title | Credits |
|---------------------|-------------------------------------|----------------|
| ART 107D | Introduction to Digital Photography | 3 |
| ART 112 | Digital Art | 3 |
| ART 207D | Intermediate Photography | 3 |
| | Total Credits | 9 |

Certificate of Competence in Digital Photography Program Learning Outcomes

Upon successful completion of the program, students will be able to:

- Produce and process attention-grabbing photos with current electronic photographic tools.
- Identify complex problems and review related information to develop and evaluate options and implement solutions.
- Demonstrate proficiency in the use of Digital Photography hardware and software.

Certificate of Competence, Digital Video for the Web

9 credits

Meet the challenges of real-world video production in a variety of global and local contexts. Students will experience storytelling, animation, editing, broadcasting and directing.

Requirements

| Course Alpha | Course Title | Credits |
|--------------|-------------------------------|---------|
| DMED 130 | Pre-Production: Digital Video | 3 |
| DMED 131 | Introduction to Digital Video | 3 |
| DMED 132 | Principles of Video Editing | 3 |
| | Total Credits | 9 |

Certificate of Competence in Digital Video, Program Learning Outcomes

Upon successful completion of the program, students will be able to:

- Create powerful video content to meet specific commercial or promotional needs for film, television, music videos, and the Web while meeting industry standard specifications.
- Identify complex problems and review related information to develop and evaluate options and implement solutions.
- Demonstrate proficiency in the use of digital video software and hardware.

Certificate of Competence, Web Architecture

9 credits

Provides students with a multi-disciplinary approach and exposes them to the principles of designing, programming, developing, testing, maintaining and publishing Dynamic Web Database Sites. Students will learn to integrate Web graphics, client-side and server-side technologies to build and manage real-world web-based applications. Designed to prepare students for entry-level employment as: Web Site Designer, Web Developer, Web Programmer.

Requirements

| Course Alpha | Course Title | Credits |
|--------------|----------------------------------|---------|
| ART 112 | Introduction to Digital Art | 3 |
| ICS 111 | Introduction to Computer Science | 3 |
| ICS 215 | Introduction to Scripting | 3 |
| | Total Credits | 9 |

Certificate of Competence in Web Architecture Program Learning Outcomes

Upon completion of the certificate, the student will be able to:

- Use critical thinking and problem-solving skills for project planning using necessary collaborative skills.
- Identify and explain standards of professionalism as they pertain to personal and work-related endeavors.
- Demonstrate proficiency in object-oriented design and programming skills.

Certificate of Competence, Web Design

15 credits

Prepare for a careers in web design, development, and management. Students will build a strong foundation in digital art, visual and information design, animation, web production and management.

Requirements

| Course Alpha | Course Title | Credits |
|--------------|------------------------------|---------|
| ART 112 | Introduction to Digital Art | 3 |
| ART 113D | Introduction to Computer Art | 3 |
| ART 229 | Interface Design I | 3 |
| DMED 120 | NetPrep Web Development | 3 |
| DMED 122 | Web Animation | 3 |
| | Total Credits | 15 |

Certificate of Competence in Web Design, Program Learning Outcomes

Upon successful completion of the program, students will be able to:

- Create design prototypes, including graphic design, site navigation, and layout of content, for various web sites and perform maintenance and updates to existing websites.
- Identify complex problems and review related information to develop and evaluate options and implement solutions.
- Demonstrate proficiency in the use of Web software and hardware.

EDUCATION

- Associate in Arts Degree
- Certificate of Competence, Alternative Certification in Teaching
- Certificate of Competence, Special/Inclusive Education Certificate
- Certificate of Competence, Special Education II
- Advanced Professional Certificate in Special Education Mild / Moderate PK-12

The Associate in Arts in Teaching (AAT) is a 62 credit degree program intended to either provide the first two years of a baccalaureate program in elementary or secondary education (transfer degree) or prepare the student for employment as para-educators (terminal degree). The AAT program is firmly rooted in the academic study skills and content courses of a strong general education program combined with a rigorous core of pre-professional education courses. The program also includes field experience embedded within education courses as well as a culminating Field Experience course with experienced professional teacher-mentors, and preparation for the Praxis Core exam, a test required nationally for admission into many teacher preparation programs. The program is designed to be flexible in order to best support transfer to any of our articulated partners and to allow focus on a range of teaching areas (e.g. elementary, secondary, and special education).

General Requirements

1. At least 12 of the 62 credits must be earned at Leeward CC.
2. All 62 credits must be in courses numbered 100 or higher.
3. Cumulative GPA of 2.0 or better for all courses used to meet the degree requirements.
4. A total of 45 hours of field experience is required.

Education Core: 13 credits

Education Electives: 9 credits

General Education (Liberal Arts) Courses: 25 credits

Graduation Requirements: 15 credits

Total Credits: 62 credits

Associate in Arts in Teaching Degree

62 credits

Education Core Requirements

| Course Alpha | Course Title | Credits |
|--------------|---|---------|
| ED 285 | Classroom Management within the Instructional Process | 3 |
| ED 290 | Foundations of Education | 3 |
| ED 291 | Developing Language & Literacy I | 3 |
| ED 294 | Intro to Multicultural Education | 3 |
| ED 295 | Field Experience in Education | 1 |
| | Total Ed Core Credits | 13 |

Education Electives

Choose 3 courses from list below for 9 credits

| Course Alpha | Course Title (Credits) | Credits |
|--------------|--|---------|
| ED 100 | Intro to Education & Teaching (3) | |
| ED 282 | Collaboration and Teaming (3) | |
| ED 283 | Partnerships with Families (3) | |
| ED 284 | Foundations of Inclusion in Teaching (3) | |
| ED 286 | Students with Exceptionalities I (3) | |
| ED 292 | Developing Language & Literacy II (3) | |
| ED 296 | Intro to Art, Music & Creative Movement in the Classroom (3) | |
| ED 279 | Educational Media and Technology (3) | |
| MATH 111 | Math for Elementary Teachers I (3) | |
| ED 289 | Educational Psychology (3) | |
| | Total Ed Elective Credits | 9 |

Students pursuing secondary education may opt to choose 3 content courses (totaling 9 credits) in their chosen discipline. For example: Math, Sciences, English, Music, Social Studies, Arts, etc. See the AAT counselor for details.

General Education Requirements

| Course | Credits |
|---|---------|
| Written Communication ENG 100 Composition I or ENG 100E (or any approved FW course) | 3 |
| Symbolic Reasoning Select one of the following PHIL 110 (3) MATH 100 (3) MATH 103 (3) MATH 112 or higher (or any approved FS course) (3) | 3 |
| Global Multicultural Perspectives Select 1 course from 2 different groups: Group A: ANTH 151, ART 175, HIST 151 Group B: ANTH 152, ART 176, BUSN 277, BUSN 279, GEOG 102, HIST 152 Group C: GEOG 151, MUS 107, REL 150 | 6 |
| Diversification Social Sciences 3 credits of any approved Diversification Social Sciences (DS), not from the PSY discipline | 3 |
| Diversification Arts 3 credits of any approved Diversification Arts (DA) | 3 |
| Diversification Natural Sciences 3 credits of any approved Diversification Biological Science (DB) 3 credits of any approved Diversification Physical Science (DP) 1 credit of any approved Lab science (DY); the lab must match the DB or DP course | 7 |
| Total Gen Ed Credits | 25 |

Graduation Requirements

Certificate of Competence, Alternative Certification in Teaching

(formerly Alternative Certification for CTE Licensure)

The Alternative Certification in Teaching (CTE) Certificate equips candidates who have content knowledge with the pedagogy necessary to become effective secondary teachers in CTE classrooms. This alternative post-baccalaureate program applies to the following license fields to teach CTE in high schools: Arts and Communications, Business, Health Services, Industrial and Engineering Technology, Natural Resources, and Public and Human Services.

Track I candidates entering with a baccalaureate degree will complete coursework leading to a provisional license in a CTE content field. Candidates can demonstrate content knowledge by degree; a passing score on the PRAXIS II in the content exam or with a minimum of 5 years of industry experience.

Track I candidates will complete an application for admittance to Leeward CC, complete an application form for the Alternative Certification program, and provide all required documentation of industry experience and/or content coursework.

Track II candidates who enter with an Associate degree in the content area and a minimum of three years of industry experience will complete coursework leading to a provisional restricted license in CTE.

Candidates who enter with an Associate degree not in the content area or an AAT degree will have a minimum of 5 years of industry experience.

Track II candidates entering for the alternate route to CTE Restricted licensure will complete an application for admittance to Leeward CC, complete an application form for the Alternative Certification program counselor, and provide documentation of industry experience and/or CTE content coursework.

Both tracks will prepare candidates who have content knowledge with the pedagogy necessary to become effective teachers in CTE classrooms. Contact the Education office for information on criteria used to validate a candidate's content knowledge in preparation for licensure.

Three options are available for the Alternative Certification in Teaching Certificate candidates:

Track I: Baccalaureate Degree

9 credits + 2 credits Practicum leading to standard provisional licensure in a CTE content field.

| Course Alpha | Course Title | Credits |
|--------------|---|---------|
| ED 310A | Classroom Management within the Instructional Process | 3 |
| ED 311A | Foundations of Inclusion in Teaching | 3 |
| ED 312A | Educational Psychology | 3 |
| ED 313A | CTE Practicum I | 1 |
| ED 314B | CTE Practicum II | 1 |
| | Total Credits | 11 |

Track II: Associate Degree with 3 years work experience

15 credits + 2 credits Practicum

| Course Alpha | Course Title | Credits |
|--------------|--|---------|

| ED 313A | CTE Practicum I | 1 |
| ED 314B | CTE Practicum II | 1 |
| | Total Credits | 17 |

Alternative Certification in Teaching Certificate Program Learning Outcomes

COMPETENT:

- The teacher candidate analyzes how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.
- The teacher candidate uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.
- The teacher candidate works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.
- The teacher candidate analyzes the central concepts, tools of inquiry, and structures of the discipline(s). He or she teaches and creates learning experiences that make these aspects of the discipline accessible and meaningful for learners to assure mastery of the content.
- The teacher candidate describes and demonstrates how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.
- The teacher candidate develops and uses multiple methods of assessment to engage learners in their own growth, to monitor the learner's progress, and to guide the teacher's and learner's decision making.
- The teacher candidate plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.
- The teacher candidate develops and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

CARING:

- The teacher candidate engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

COLLABORATIVE:

- The teacher candidate seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth and to advance the profession.

Certificate of Competence, Alternative Certification in Teaching-Track II

http://www.leeward.hawaii.edu/files/gedt/aat_acte_co/

Certificate of Competence, Special/Inclusive Education Certificate

16 credits

The 16 credit certificate will expand AAT programming in special education to better prepare para educators (educational assistants, educational assistants, part time teachers, para-professional tutors) to meet the demands of today's diverse classrooms. The certificate will also appeal to current teachers who may desire to enhance their skill set and gain professional development credit toward step increases.

Requirements

| Course Alpha | Course Title | Credits |
|----------------------|--|---------|
| ED 282 | Collaboration: Roles & Responsibilities as a Member of the Multi-Disciplinary Team (3 cr course taken with a 1 cr ED lab) | 3 |
| ED 282L or ED 143 | Collaboration and Working in the Multidisciplinary Team Lab (1) or Registered Behavior Technician Training (1) | 1 |
| ED 283 | Partnership with Culturally & Linguistically Diverse Families | 3 |
| ED 284 | Foundation of Inclusion in Teaching | 3 |
| ED 285 | Classroom Management within the Instructional Process | 3 |
| ED 289 | Educational Psychology | 3 |
| | Total Credits | 16 |

Certificate of Competence in Special/Inclusive Education Certificate Program Learning Outcomes

Students who complete this certificate will be able to:

- Describe characteristics of children with disabilities and developmental milestones for typically developing children
- Plan and deliver instruction appropriate to including children with disabilities within the general curriculum.
- Communicate with parents/guardians using culturally and linguistically diverse strategies to meet students' instructional goals and create individualized education plans (IEP).
- Apply evidence based practices (EBPs) to assess student learning, use appropriate instructional strategies for tiered levels of intervention, and monitor and report on progress
- Establish and maintain a safe learning environment
- Describe the appropriate responsibilities related to each member of the multidisciplinary support team and execute ethical practices as a professional.
- Information on program length, estimated cost of education, completion rates, student loan indebtedness, and job placement.

Information on program length, estimated cost of education, completion rates, student loan indebtedness, and job placement: Certificate of Competence, Special/Inclusive Education

http://www.leeward.hawaii.edu/files/gedt/aat_sped_co/

Certificate of Competence, Special Education II

16 credits

The Special Education Certificate of Competence II is designed to provide more specialized and comprehensive preparation in special education law, IEP development, assessment, educational technology, literacy intervention, and professionalism for those pursuing a teaching degree in special education or wishing to increase their knowledge in the field of special education.

Requirements to enter program: Completion of at least 60 credits from the following types of courses: associate degree

Requirements

| Course Alpha | Course Title | Credits |
|--------------|---|---------|
| ED 143 | Registered Behavior Technician Training Credential (formerly offered as ED 298B) (1) or ED 282L Collaboration and Teaming Lab (1) | 1 |
| ED 330 | SPED Law and IEP Development | 3 |
| ED 331 | SPED Assessment | 3 |
| ED 332 | ELA Instruction and Interventions | 3 |
| ED 334 | Participating in a Professional Community | 3 |
| ED 335 | Educational Technology for Students with Exceptionalities | 3 |
| | Total Credits | 16 |

Certificate of Competence Special Education II, Certificate Program Learning Outcomes

- Describe special education rules and regulations; develop Individual Education Programs (IEP) through examination of required elements of IEPs and simulated IEP team scenarios; describe ethical codes and related professional standards in special education
- Identify evaluation procedures, from pre-referral intervention, eligibility/placement/ program decision-making to progress monitoring of scientifically-based instructional interventions based on Response to Intervention (RTI).
- Describe a variety of instructional technology options and how these are effective across the curriculum; identify different types of learners, describe considerations of integration, and assess the effectiveness of technology use for students with special needs.
- Describe how to select appropriate instructional strategies and to design effective instructional programs leading to increased listening, speaking, reading and writing competencies for all children; and assessment strategies to evaluate student progress.
- Describe the organizational, personal, and interpersonal aspects of working as a teacher in schools; identify the preparation required for membership and leadership in a professional learning community and for continuing professional growth.

Advanced Professional Certificate in Special Education Mild/Moderate PK-12

19 credits

The Advanced Professional Certificate in SPED Mild/Moderate PK-12 is a 19 credit certificate for those with a bachelor-level degree in any field which leads to recommendation for licensure to teach SPED.

Admission requirements for the APC in SPED include:

- Complete an application for admittance to Leeward CC
- Complete an application form for the APC program
- bachelor-level degree in any field,
- 2 letters of recommendation,
- and a personal statement.

To earn an Advanced Professional Certificate, candidates must achieve a GPA of 2.0 or higher for all courses applicable to the certificate.

Requirements

| Course | Course Title | Credits |
|---------|--|---------|
| ED 330 | SPED Law and IEP Development | 3 |
| ED 331 | SPED Assessments | 3 |
| ED 332 | ELA Interventions | 3 |
| ED 334 | ED Tech for Students with Exceptionalities | 3 |
| ED 335 | Participating in a Professional Community | 3 |
| ED 314B | Student Teaching | 1 |
| ED 336 | Student Teaching Portfolio | 3 |
| | Total Credits | 19 |

Notes

- ED 330, 331, 332, 334, 335 each requires 22 hours of field experience in a SPED placement in the grade level of licensure they intend to pursue (PK-3, K-6, 6-12).
- Full-time student teaching-15 weeks; Clinical Practice: 420hours. APC candidates will meet the Content Knowledge Verification for Licensure by taking and passing the Praxis 5354: Special Education PK-3, P-12, K-6, 6-8, 6-12, K-12 and earn a passing score of 151 prior to student teaching.

Advanced Professional Certificate in Special Education Mild/Moderate PK-12 Program Learning Outcomes

Upon successful completion of this certificate, students will be able to:

- Explain and practice the special education policies, procedures and legal requirements regarding students with disabilities.
- Describe the range and multiple manifestations of disabilities and their effects on social and emotional development, communication skills and oral language development, motor skills, functional and independent living skills, employment-related skills, and self-advocacy skills.
- Design and implement individualized educational programs and will have a repertoire of instructional strategies, accommodations, assessment techniques and procedures that are appropriate for students with disabilities.
- Explain strategies for collaborating with families and other professionals to further student learning.
- Identify how to access resources and assistive technologies to support student learning, and to provide transition support to help students maintain continuous progress toward their educational goals.

General Education Requirements

| Course | Credits |
|--|---------|
| Foundation Requirements | |
| FW Written Communication | 3 |
| ENG 100 Composition I or ENG 100E Composition I | |
| FS Symbolic Reasoning | 3 |
| Select one of the following PHIL 110, MATH 100, MATH 100C, MATH 103, MATH 112, MATH 115, MATH 135, MATH 140, MATH 140x, MATH 203, MATH 241, ICS 141, ICS 241 | |
| FG Global Multicultural Perspectives | 6 |
| Select 2 courses, each from a different group Group A: ANTH 151, ART 175, HIST 151 Group B: ANTH 152, ART 176, BUSN 277, BUSN 279, GEOG 102, HIST 152 Group C: GEOG 151, MUS 107, REL 150 | |
| Diversification Requirements | |
| Diversification Arts, Humanities, and Literature | 6 |
| 6 credits required from two different disciplines DA: HWST 160, MUS 121Z, MUS 122Z, MUS 121F, MUS 122F DH: HIST 284, REL 205 DL: HWST 261 | |
| Diversification Social Sciences | 6 |
| 6 credits required from two different disciplines DS: ANTH 200, ECON 130, PACS 108, POLS 180, SOC 218, SOC 250, SOC 251 | |
| Diversification Natural Sciences | 7 |
| 3 credits from the biological science area (DB) and 3 credits from the physical science area (DP). In addition, the student must take a science laboratory/field trip course (DY) that matches one of the chosen science courses. DB: BOT 130, HORT 110, ZOOL 200 DP: GG 103, ASTR 110, OCN 201 DY: HORT 110L, BOT 130L, ZOOL 200L, OCN 201L | |
| Total Gen Ed Credits | 31 |

Graduation Requirements

| Course Alpha | Course Title | Credits |
|--|--------------------------------|---------|
| Oral Communication: | | |
| Select one course from the following: | | 3 |
| COM 210H, SP 151, or SP 251* | | |
| *This oral requirement is not the same as required by UH Mānoa | | |
| 2 Writing Intensive courses in any discipline | | |
| 1 Hawaiian/Asian, Pacific (HAP) focus course | | |
| 1 Contemporary Ethical Issues (ETH) focus course** | | |
| **Courses designated "ETH" fulfill the E-focus requirement at Leeward CC, but not at UH Mānoa . UH Mānoa requires a 300-level E-focus course for graduation. All approved E-Focus courses from UH Mānoa , UHWO, or any community college, will meet the Leeward CC E-focus graduation requirement. | | |
| | Total Grad Requirement Credits | 3 |
| | Total Degree Credits | 60 |

Associate in Arts in Hawaiian Studies Program Outcomes

Successful graduates of the AAHS program will be able to:

- Describe Native Hawaiian linguistic, cultural, historical and political concepts.
- Explain Native Hawaiian concepts as expressed in the broader areas of science, humanities, arts or social sciences.
- Use writing to discover, develop, communicate and reflect on issues relevant to the Native Hawaiian community.

Academic Subject Certificate, Hawaiian Studies

17 credits

Academic Subject Certificate in Hawaiian Studies is intended to provide students with a strong introduction to the culture, language and history of Hawai'i and the Native Hawaiian people. The certificate enhances the Liberal Arts degree and prepares students with a strong foundation to complete their baccalaureate degrees in Hawaiian Studies or other fields of study at the University of Hawai'i.

Associate in Science Degree, Health Information Technology

61 Credits

In order to obtain a Health Information Technology (HIT) degree or certificate, students must pass all required courses with a grade of C or better.

Requirements

| Course Alpha | Course Title | Credits |
|-----------------|--|---------|
| BUS 101 | Business Information Systems | 3 |
| HIT 102 | Health Data, Records, and Documentation | 3 |
| HLTH 110 | Medical Terminology | 2 |
| HIT 115 | Reimbursement Methodologies | 3 |
| ENG 100 | Composition I | 3 |
| HIT 171 | Health Data, Information, Law, and Ethics | 3 |
| BIOL 130 | Anatomy and Physiology | 4 |
| BIOL 130L | Anatomy and Physiology | 1 |
| ECON 130 or 131 | Microeconomics (3) or Macroeconomics (3) | 3 |
| HIT 200 | Disease Pathology and Pharmacology | 3 |
| HIT 108 | Introduction to Diagnosis Coding | 3 |
| HIT 109 | Introduction to Procedure Coding | 3 |
| HIT 176 | Statistics with Health Applications | 3 |
| HIT 208 | Advanced Coding I | 3 |
| HIT 209 | Advanced Coding II | 3 |
| HIT 192 | Professional Practice Experience and RHIT Study Prep | 3 |
| HIT 101 | Healthcare Delivery Systems | 3 |
| HIT 220 | Health Care Computing and EHR | 3 |
| HIT 225 | HIM Supervisory Management | 3 |
| HIT 215 | Quality Management | 3 |
| HWST 107 | Hawai'i: Center of the Pacific | 3 |
| | Total Degree Credits | 61 |

Associate in Science, Certificate of Achievement in Health Information Technology Program Outcomes

Upon successful completion of the program, students will be able to:

- Perform basic coding tasks and maintain accurate reimbursement systems including the preparation of patient access, registration, and patient accounting statements.
- Access, analyze, and interpret data to solve basic health information coding, patient accounting, and supervisory problems.
- Interact with customers, vendors, and co-workers to effectively support the work with high customer satisfaction.
- Organize, prioritize, and perform work tasks to meet deadlines and schedules.
- Apply health information, records management, and patient financial/patient accounting laws; and code basic cases with industry reimbursement procedures by patient insurance type.

Certificate of Achievement, Health Information Technology

31 Credits

Requirements

| Course Alpha | Course Title | Credits |
|--------------|---|---------|

http://www.leeward.hawaii.edu/files/gedt/hit_ca/

Certificate of Competence, Health Information Technology

16 Credits

The Certificate of Competence in Health Information Technology (HIT) develops a foundation in records and information management for a medical facility and the health information technology profession. Students completing the certificate will have the skills and knowledge necessary to assist in maintaining accurate and timely medical data in clinics, hospitals, and other health care organizations. The certificate will lead to job opportunities as patient access clerks, physician office clerks, registrars, registration clerks, and ward clerks.

Requirements

| Course Alpha | Course Title | Credits |
|--------------|---|---------|
| BUS 101 | Business Information Systems | 3 |
| HIT 101 | Healthcare Delivery Systems (formerly HIT 197A) | 3 |
| HIT 102 | Health Data, Records, and Documentation | 3 |

| BIOL 130L | Anatomy and Physiology | 1 |
| | Total Credits: | 16 |

Certificate of Competence in Health Information Technology Program Learning Outcomes

Upon successful completion of the program, students will be able to:

- Apply problem-solving skills and health care knowledge to address customer, patient, or organizational needs.
- Use computer and other office technology tools to accomplish administrative responsibilities in maintaining a secured information system while adhering to workplace policies and procedures and government laws.
- Use basic medical coding methodology and patient record guidelines to accurately process documents through the document life cycle.

HUMAN SERVICES SUBSTANCE ABUSE COUNSELING

Certificate of Competence

Program Coordinator Gwen Williams
Office FA 206
Phone 455-0365 Fax 455-0633
gwenw@hawaii.edu

Enrollment in this certificate program offers learners opportunities to develop the knowledge and skills required by the International Certification and Reciprocity Consortium (ICRC), which governs Hawai'i state certification of substance abuse counselors. The certificate fulfills most of the substance abuse specific education requirement for Hawai'i state certification and satisfies a portion of the experiential hours requirement.

Our program provides education and skill development for people interested in pursuing a career as alcohol and drug abuse counselors, as well as for people currently working in the field who wish to hone their knowledge and skills. The certificate program in substance abuse counseling may offer a specialization and additional expertise for people with advanced degrees in such areas of social work, psychology, counseling in law enforcement, nursing, education, and rehabilitation counseling. Those with advanced degrees may often qualify to substitute previous course work in counseling for some of the required program courses. Please contact the Coordinator to discuss options.

Learners will focus on developing both basic and intermediate-level knowledge and skills required for entrance level substance abuse counselors. They will be encouraged to develop personal maturity through self-exploration, and adoption of a professional demeanor that will support their entry into the substance abuse counseling field.

Learners can fulfill a sizable portion of the National Association of Drug and Alcohol Counselors' (NAADAC) Twelve Core Functions of the Alcohol and Drug Abuse Counselor requirements with completion of the substance abuse counseling certificate program. The course work will also assist one in preparing for the state certification exam. Please be advised that completing Leeward CC's certificate program is not the same as obtaining the state certification. Contact the Department of Health, Alcohol and Drug Abuse Division (ADAD), Certification Unit for additional information about such requirements. (<http://hawaii.gov/health/about/admin/health/substance-abuse/index.html>).

In most cases, learners must complete the prerequisite course, HSER 100, and the four clinical courses (HSER 140, 245, 268, and 270) prior to entry into the second year Seminar & Fieldwork courses. Fieldwork involves placement at a substance abuse treatment facility, and the completion of 200 hours each semester for a total of 400 hours, as well as attendance at an evening seminar each of the two semesters. HSER 294 is offered only in the fall semester and HSER 295 is offered only in the spring semester.

It is highly recommended that the learner work to complete an AA degree in Liberal Arts if s/he has not yet done so. All of the HSER courses support the elective credit requirement for the AA degree. Completion of the certificate equals 2,000 hours toward the ADAD experiential requirement with an additional 400 fieldwork hours, when signed off by a CSAC supervisor, which contributes toward the ADAD experiential hours requirement.

Certificate of Competence, Substance Abuse Counseling

18 credits

In order for a learner to enroll in human service (HSER) courses, one either must be eligible to register in ENG 100 based on placement requirements, or previously have completed ENG 100.

The 18 credits do not include the prerequisite course HSER 100, Self Exploration. One may concurrently enroll in HSER 100 with HSER 140, 245, 268 and 270 during the first semester if s/he meets the English requirement noted above. The learner will need to request a prerequisite waiver from the instructors teaching HSER 140, 245, 268 or 270 prior to being able to register concurrently for the other program courses. One must take HSER 268 prior to enrolling in HSER 270. Entering in the fall allows for completion of all course work within the two-year period. Arriving in the spring semester, typically tacks on an extra semester.

One needs to complete the prerequisite course, HSER 100 (3 credits) and the four counseling courses (HSER 140, 268, 245, 270) prior to beginning the second year, fall HSER 294 and spring HSER 295 Seminar & Fieldwork II courses. The Seminar & Fieldwork I and II courses need to be completed fall to spring.

The fieldwork requires 200 hours, or approximately 14.5 hours/week internship in a substance abuse treatment facility during both fall and spring semesters. Learners are only eligible to register for fieldwork once they have completed the prerequisite HSER 100, 268, 270 and either one of the two counseling courses, HSER 140 or 245.

First Semester (Fall) Requirements

HSER 100, prerequisite course

| Course Alpha | Course Title | Credits |
|--------------|---|---------|
| HSER 140 | Individual Counseling | 3 |
| HSER 268 | Survey of Substance Abuse and Addiction | 3 |

Second Semester (Spring) Requirements

| | | |
|----------|----------------------------|---|
| HSER 245 | Group Counseling | 3 |
| HSER 270 | Substance Abuse Counseling | 3 |

Third Semester (Fall) Requirements

| | | |
|----------|-----------------------|---|
| HSER 294 | Seminar & Fieldwork I | 3 |
|----------|-----------------------|---|

Fourth Semester (Spring) Requirements

| | | |
|----------|------------------------|----|
| HSER 295 | Seminar & Fieldwork II | 3 |
| | Total Credits | 18 |

Certificate of Competence in Substance Abuse Counseling Student Learning Outcomes

Upon successful completion of the program, students will be able to:

- Recognize the medical, societal, psychological, and family affects of abuse and addiction with regard to alcohol and other drugs
- Identify Hawai'i's prevention/intervention and treatment system, its strengths and limitations
- Develop an awareness of issues and other personal values/biases that might impact one's effectiveness as a substance abuse counselor
- Demonstrate knowledge and application of the Twelve Core Functions engaged by the alcohol and drug abuse counselor, and know how these functions apply to the continuum of care
- Demonstrate an ability to do an effective biopsychosocial assessment and display a basic knowledge of counseling approaches used with individuals and groups
- Identify the ethical and legal issues that confront the counseling professional, and abide by them when in the field
- Distinguish the stages of the treatment process, including aftercare, relapse prevention, and the issues relevant to their clients involved in each stage of intervention
- Display attending, active listening, and other counseling skills in their work with individuals and groups

Information and Computer Science

- Associate in Science Degree with emphasis in one of the following:
 - Network Support Specialist
 - Information Security Specialist
 - Software Developer Specialist
- Academic Subject Certificate, Information & Computer Science
- Certificate of Achievement, Information & Computer Science
- Certificate of Achievement, Information Security
- Certificate of Competence, Basic Logic and Programming Level 1
- Certificate of Competence, Basic Logic and Programming Level 2
- Certificate of Competence, Help Desk
- Certificate of Competence, Information Security Specialist
- Certificate of Competence, Network Support
- Certificate of Competence, Software Developer Specialist

Program Coordinator **William Albritton**

Office DA 211

Phone 455-0319

walbritt@hawaii.edu

The growing interdisciplinary use of information systems has increased the need for a comprehensive program in Computer Science. Such a program is offered by Leeward CC through the Division of Mathematics and Natural Sciences. The course credits are transferable at the Bachelor's degree level.

The curriculum leading to an Associate in Science degree in Computer Science is designed to prepare individuals for employment as technical assistants to professional and administrative personnel using computers. Students may choose one of the following specialty areas: Network Support Specialist, Information Security Specialist, or Software Developer Specialist. Skills in writing, speech, and mathematics complete the preparation for employment.

Students wishing to pursue a Bachelor's degree in computer science may, instead, want to earn an Associate in Science with the software developer specialist degree. See a counselor or ICS Faculty Advisor for appropriate course choices.

Associate in Science Degree, Information & Computer Science

60 Credits

The curriculum leading to an Associate in Science degree in Information and Computer Science is designed to prepare individuals for employment as technical assistants to professional and administrative personnel using computers. Students may choose one of the following areas of specialty: Network Support Specialist, Information Security Specialist, and Software Developer Specialist. Skills in writing, speech, and mathematics complete the preparation for employment. The program requirements are designed to facilitate transfer to the baccalaureate programs in Information and Computer Sciences at UH Mānoa, UH West O‘ahu and UH Hilo for those students who wish to continue their education while working in the industry.

All required ICS courses must be passed with a grade of “C” or better in order to be applied to the degree.

Associate in Science Information and Computer Science Program Outcomes

In addition to acquiring the competencies required for Associate in Science degrees, upon successful completion of this program graduates will be able to:

- Demonstrate computing literacy.
- Describe the functions and interrelationships of the building blocks of an operating system.
- Solve problems, develop algorithms, and write object-oriented computer programs in at least two programming languages.
- Apply the mathematics used in computing science to solve computing problems.
- Effectively communicate in written and oral form, a system solution its documentation, and its implementation.
- Use project management tools to manage information systems development projects.
- Work effectively as part of a group/team.
- Design a relational database with proper documentation.
- Demonstrate proficiency in computer maintenance and networking.

Based on selection of an area of specialty, the student will further be able to:

- **Software Developer Specialist:** Develop a foundation in computer science to succeed in upper-division courses.
- **Network Support Specialist:** Apply computer-networking principles to build and troubleshoot networks.
- **Information Security Specialist:** Apply the tools and techniques of information security to secure physical and digital information.

2 Year Plan for Degree Completion

Suggested Sequence for 2-year plan

First Semester

ICS 101

ICS 110M or ICS 110P

ICS 170

ENG 100

ICS 184

Second Semester

ICS 111

ICS 129

ICS 171

ICS 141 or MATH 103

ENG 209 or ENG 225

Third Semester

ICS 125

ICS 240

ICS 270

One DS course

Specialization (one course)

Network Support: ICS 215 or ICS 172 or ICS283

Information Security: ICS 215 or ICS 281 or ICS 282

Software Developer: ICS 211 or ICS 241 or ICS 212

Fourth Semester

SP 151 or SP 251

One FG Course

Elective

Specialization (two courses)

Network Support: ICS 215 or ICS 172 or ICS283

Information Security: ICS 215 or ICS 281 or ICS 282

Software Developer: ICS 211 or ICS 241 or ICS 212

Academic Subject Certificate, Information & Computer Science

15 Credits

The Academic Subject Certificate prepares you to transfer to either the B.A. or B.S. degree program in Information & Computer Science at UH Mānoa, or the B.S. degree program in Computer Science at UH Hilo.

The course sequence provides students with the opportunity to take all freshman and sophomore level required ICS courses at Leeward CC before transferring to UH Mānoa

Requirements

| Course Alpha | Course Title | Credits |
|-----------------------|--|---------|
| ICS 111 | Intro to Computer Science I | 3 |
| ICS 141 | Discrete Math for Computer Science I | 3 |
| ICS 211 | Intro to Computer Science II | 3 |
| ICS 212 or ICS 215 | Program Structure (3) Introduction to Scripting (3) | 3 |
| ICS 241 | Discrete Math for Computer Science II | 3 |
| | Total Credits | 15 |

Academic Subject Certificate in ICS Program Learning Outcomes

Upon completion of the Academic Subject Certificate in ICS the student will be able to:

- Solve problems, develop algorithms and write computer programs specified in a manner consistent with the ACM CS1 and CS2 recommendations.
- Demonstrate familiarity with the mathematics used in computing science.
- Apply the credits as electives towards an Associate in Arts degree.
- Information on program length, estimated cost of education, completion rates, student loan indebtedness, and job placement.

Information on program length, estimated cost of education, completion rates, student loan indebtedness, and job placement: Certificate of Achievement, Information & Computer Science

http://www.leeward.hawaii.edu/files/gedt/ics_ca/

Certificate of Achievement, Information and Computer Science

30 credits

Provides students with entry-level skills or job upgrading for positions under direct supervision in computer support, cabling, and basic networking, office application support, and database management.

Requirements

First Semester

| Course Alpha | Course Title | Credits |
|--|--|---------|
| ICS 101 | Digital Tools for the Information World | 3 |
| ICS 110M or ICS 110P | Introduction to Programming | 3 |
| ICS 129 | Introduction to Databases | 3 |
| ENG 100 | Composition I | 3 |
| MATH 103 or MATH 135 or higher or ICS 141 | College Algebra (3) Precalc: Elementary Functions (3) Discrete Math for Computer Sci I (3) | 3 |

Second Semester

| | | |
|---------------------|---|----|
| ICS 111 | Introduction to Computer Science I | 3 |
| ICS 125 | Personal Computer Maintenance and Repair | 3 |
| ICS 170 | Ethics for the Digital World | 3 |
| ICS 184 | Introduction to Networking | 3 |
| SP 151 or SP 251 | Personal and Public Speech (3) Principles of Effective Public Speaking (3) | 3 |
| | Total Credits | 30 |

Certificate of Achievement in Information and Computer Science Program Learning Outcomes

- Demonstrate computing literacy.
- Solve problems, develop algorithms and write object-oriented computer programs in a programming language.
- Design a relational database with proper documentation.
- Demonstrate proficiency in computer maintenance and networking.

Certificate of Achievement Information Security

30 credits

Provides students with entry-level skills or job upgrading for positions under direct supervision in information security.

Requirements

First Semester

| Course Alpha | Course Title | Credits |
|--------------|------------------------------------|---------|
| ICS 111 | Introduction to Computer Science I | 3 |

http://www.leeward.hawaii.edu/files/gedt/ics_issp_ca/

Certificate of Competence, Basic Logic and Programming Level 1

6 credits

Provides students an overview of the fundamentals of computer programming. Students will learn the fundamentals of problem solving, algorithm development, implementation, and debugging/testing using an object-oriented programming language. They will also learn the fundamentals of the mathematics behind computer operations.

Requirements

| Course Alpha | Course Title | Credits |
|--------------|---|---------|
| ICS 111 | Introduction to Computer Science I | 3 |
| ICS 141 | Discrete Mathematics for Computer Science I | 3 |
| | Total Credits | 6 |

Certificate of Competence in Basic Logic and Programming Level 1 Program Learning Outcomes

Upon successful completion of the certificate, students will be able to:

- Solve problems, develop algorithms and write structured computer programs in a programming language.
- Demonstrate familiarity with the mathematics used in computing science.

Certificate of Competence, Basic Logic and Programming Level 2

6 credits

Provides students with the second semester of computer programming and the mathematics of computers. Students will learn the fundamentals of data structures, searching and sorting algorithms, recursion, polymorphism, inheritance, and encapsulation using an object-oriented programming language. They will also learn the mathematical concepts behind computer operations, such as graphs, trees, Boolean algebra, finite-state machines, formal languages, program correctness, and solving recurrence relations.

Requirements

| Course Alpha | Course Title | Credits |
|--------------|--|---------|
| ICS 211 | Intro to Computer Science II | 3 |
| ICS 241 | Discrete Mathematics for Computer Science II | 3 |
| | Total Credits | 6 |

Certificate of Competence in Basic Logic and Programming Level 2 Program Learning Outcomes

Upon successful completion of the certificate, students will be able to:

- Solve problems, develop algorithms and write structured computer programs in a programming language.
- Demonstrate familiarity with the mathematics used in computing science.
- Create data structures in an object-oriented programming language.

Certificate of Competence, Help Desk

18 Credits

This program will enable students to pursue entry-level career opportunities as IT Help Desk Technicians. As organizations grow increasingly reliant on IT technologies in furthering and accomplishing their missions, so too does reliance on personnel equipped to support these technologies, in terms of software/hardware issues, both remotely and on-site. Computer Support Specialists provides such support.

Requirements

| Course Alpha | Course Title | Credits |
|---------------------|---|---------|
| ICS 101 | Digital Tools For the Information World | 3 |
| ICS 125 | Personal Computer Maintenance and Repair | 3 |
| ICS 171 | Introduction to Computer Security | 3 |
| SP 151 or SP 251 | Personal and Public Speaking Principles of Effective Public Speaking | 3 |
| ICS 184 | Introduction to Networking | 3 |
| Elective | Choose one other ICS, DMED, or MGT 121 course | 3 |
| | Total Credits | 18 |

Certificate of Competence Help Desk Student Learning Outcomes

- Apply critical thinking, problem-solving, and collaborative skills to assess and troubleshoot software and computer hardware problems.
- Demonstrate good customer services skills by identifying and evaluating the indicators of customer satisfaction throughout the problem-resolution process.
- Apply the characteristics of effective communication while working with clients and fellow workers.
- Report the problem to appropriate levels in the organization.

Information on program length, estimated cost of education, completion rates, student loan indebtedness, and job placement: Certificate of Competence, Help Desk

http://www.leeward.hawaii.edu/files/gedt/ics_hds_co/

Certificate of Competence, Information Security Specialist

9 credits

Students will be introduced to the essentials of computer security. They will perform basic ethical (white hat) hacking, learn about the moral and legal issues that are involved while performing the learned techniques. Students will learn how to perform basic computer forensics such as operating system diagnostics, as well as to use a forensic tool kit to examine and validate computer activity. Students will acquire knowledge about the proper techniques for data collection, examination and preservation of forensic data.

Requirements

| Course Alpha | Course Title | Credits |
|--------------|---------------------------|---------|
| ICS 215 | Introduction to Scripting | 3 |
| ICS 281 | Ethical Hacking | 3 |
| ICS 282 | Computer Forensics | 3 |
| | Total Credits | 9 |

Certificate of Competence in Information Security Program Learning Outcomes

Upon completion of the certificate, the student will be able to:

- Create and implement security policies and procedures to aid in security administration.
- Apply techniques involved with Ethical Hacking.
- Aid in the collection, examination and preservation of data using proper computer forensics.

Certificate of Competence, Network Support Specialist

9 credits

This certificate provides students with the essentials of computer security, the fundamentals of network design, and the advanced components of network design. This includes using encryption, activity monitoring, intrusion detection, security policies, security administration, basic switching and routing, wired and wireless networking, wide area networking, Internet Protocol Version 4 (IPv4) and Internet Protocol Version 6 (IPv6) routing, and route optimization.

Requirements

| Course Alpha | Course Title | Credits |
|--------------|--|---------|
| ICS 215 | Introduction to Scripting | 3 |
| ICS 172 | Network Design and Administration | 3 |
| ICS 283 | Advanced Network Design and Administration | 3 |
| | Total Credits | 9 |

Certificate of Competence in Network Support Program Learning Outcomes

Upon completion of the certificate, the student will be able to:

- Identify the potential risks and mitigations to various threats to a computing environment
- Identify and create security policies and procedures
- Design a local area network using appropriate network devices including switches and routers.
- Demonstrate how to administer a local area network consisting of a server, workstations, switches and routers.
- Design a multi-area network with route optimization.
- Design an IPv4/IPv6 hybrid network.

Certificate of Competence, Software Developer

9 credits

Students will develop applications in at least two object-oriented languages using data structures, recursion and graphical-user interfaces. Students will analyze and select appropriate algorithms for sorting and searching. Students will use mathematical models, which have implications for computer science. Students will be prepared for upper-division ICS courses.

Requirements

| Course Alpha | Course Title | Credits |
|-----------------------|---|---------|
| ICS 211 | Introduction to Computer Science II | 3 |
| ICS 212 or ICS 215 | Program Structure or Introduction to Scripting | 3 |
| ICS 241 | Discrete Mathematics for Computer Science II | 3 |
| | Total Credits | 9 |

Certificate of Competence in Software Developer Program Learning Outcomes

Upon completion of the certificate, the student will be able to:

- Develop applications using data structures, recursion and graphical user interfaces.
- Interpret and design mathematical models to solve computer science problems.

INTEGRATED INDUSTRIAL TECHNOLOGY

- Associate in Science Degree
- Certificate of Achievement
- Certificate of Competence

The Integrated Industrial Technology program at Leeward CC was developed in order to provide students on O'ahu with a foundation in electronic, electrical, mechanical, and automated control systems to meet the workforce needs of an emerging industrial technology industry.

The IIT Program provides students with a theoretical and practical understanding of mechatronic systems as well as develops practical skills and systems integration. Graduates will be able to program, operate, maintain, calibrate, and repair the equipment that makes up these systems.

The degree prepares students for occupations that involve the integration of electronic, electrical, mechanical, and communications systems. Typical occupations may include: automated programmable electromechanical systems technician, robotics and manufacturing systems technician, and process control systems integration technician.

All required IIT courses must be passed with a grade of "C" or better in order to be applied to all degrees and certificates.

Associate in Science, Integrated Industrial Technology

61 credits

First Semester Requirements

| Course Alpha | Course Title | Credits |
|--------------|--|---------|
| IIT 101 | Industrial Safety Health and Environment | 3 |
| IIT 131 | Mechanical Drive Systems | 3 |
| IIT 121 | Electro-hydraulics and Pneumatics | 3 |
| ENG 100 | Composition I | 3 |
| MATH 103 | College Algebra or higher | 3 |
| | Total Semester Credits | 15 |

Second Semester Requirements

| Course Alpha | Course Title | Credits |
|-----------------|--------------------------------------|---------|
| IIT 171 | Principles of Process Quality | 3 |
| IIT 151 | Rapid Prototyping | 3 |
| ICS 141 | Discrete Math for Computer Science I | 3 |
| PHYS 100 | Survey of Physics | 3 |
| PHYS 100L | Survey of Physics Lab | 1 |
| Social Sciences | 100 or higher | 3 |
| | Total Semester Credits | 16 |

Third Semester Requirements

| Course Alpha | Course Title | Credits |
|--------------|-------------------------------------|---------|
| IIT 201 | AC/DC Circuits | 4 |
| IIT 231 | Process Control and Instrumentation | 4 |
| IIT 251 | Motor and Motion Control | 4 |
| IIT 221 | Programmable Logic Control | 4 |
| | Total Semester Credits | 16 |

Fourth Semester Requirements

| Course Alpha | Course Title | Credits |
|-------------------|--|---------|
| IIT 205 | Digital and Analog Circuits | 4 |
| IIT 271 | Distributed Control Systems | 3 |
| IIT 281 | Supervisory Control and Data Acquisition | 4 |
| Arts & Humanities | 100 or higher | 3 |
| | Total Semester Credits | 14 |
| | Total Degree Credits | 61 |

Associates in Science Degree in Integrated Industrial Technology Program Learning Outcomes

- Apply the principles of mathematics, electronics, mechanical systems, and controls systems to program, maintain, calibrate, and repair advanced integrated systems in manufacturing and transportation.
- Use appropriate safety, health, and personal protection procedures applicable to an industrial working environment.
- Demonstrate an understanding of the structure and function of mechatronic systems and follow a logical sequence for isolating problems within an industrial process.
- Analyze process control system operations and select the appropriate sensing equipment for that operation.
- Analyze the operating difficulties of an automated system and perform the corrective actions needed.
- Utilize proper procedures for inspection, preventive maintenance, and corrective maintenance of integrated industrial systems.
- Demonstrate an understanding of the theory, construction, installation and operation of hydraulic and pneumatic systems in an automated controls environment.
- Demonstrate an understanding of mechanical drive systems, their function and the operation in an automated controls environment.
- Apply principles of process quality assurance to an automated control environment.
- Use CAD/CAM to create drawings of parts and assemblies to create prototypes using additive manufacturing.

Certificate of Achievement, Integrated Industrial Technology

31 credits

First Semester Requirements

| Course Alpha | Course Title | Credits |
|--------------|--|---------|
| IIT 101 | Industrial Safety Health and Environment | 3 |
| IIT 131 | Mechanical Drive Systems | 3 |
| IIT 121 | Electro-hydraulics and Pneumatics | 3 |
| ENG 100 | Composition I | 3 |
| MATH 103 | College Algebra or higher in STEM track | 3 |
| | Total Semester Credits | 15 |

Second Semester Requirements

| Course Alpha | Course Title | Credits |
|-----------------|--------------------------------------|---------|
| IIT 117 | Principles of Process Quality | 3 |
| IIT 151 | Rapid Prototyping | 3 |
| ICS 141 | Discrete Math for Computer Science I | 3 |
| PHYS 100 | Survey of Physics | 3 |
| PHYS 100L | Survey of Physics Laboratory | 1 |
| Social Sciences | 100 or higher | 3 |
| | Total Semester Credits | 16 |

Certificate of Achievement in Integrated Industrial Technology Program Learning Outcomes

- Use appropriate safety, health, and personal protection procedures applicable to an industrial working environment.
- Utilize proper procedures for inspection, preventive maintenance, and corrective maintenance of integrated industrial systems.
- Demonstrate an understanding of the theory, construction, installation and operation of hydraulic and pneumatic systems in an automated controls environment.
- Demonstrate an understanding of mechanical drive systems, their function and the operation in an automated controls environment.
- Apply principles of process quality assurance to an automated control environment.
- Use CAD/CAM to create drawings of parts and assemblies to create prototypes using additive manufacturing.

Certificate of Competence, Integrated Industrial Technology

15 credits

First Semester Requirements

| Course Alpha | Course Title | Credits |
|--------------|--|---------|
| IIT 101 | Industrial Safety Health and Environment | 3 |
| IIT 131 | Mechanical Drive Systems | 3 |
| IIT 121 | Electro-hydraulics and Pneumatics | 3 |
| ENG 100 | Composition I | 3 |
| MATH 103 | College Algebra or higher in STEM track | 3 |
| | Total Semester Credits | 15 |

Certificate of Competence in Integrated Industrial Technology Program Learning Outcomes

- Use appropriate safety, health, and personal protection procedures applicable to an industrial working environment.
- Utilize proper procedures for inspection, preventive maintenance, and corrective maintenance of integrated industrial systems.
- Demonstrate an understanding of the theory, construction, installation and operation of hydraulic and pneumatic systems in an automated controls environment.
- Demonstrate an understanding of mechanical drive systems, their function and the operation in an automated controls environment.

MANAGEMENT

- Associate in Science Degree
- Academic Subject Certificate, Management
- Academic Subject Certificate, Travel Industry Management
- Certificate of Achievement, Management
- Certificate of Competence, Business Essentials
- Certificate of Competence, Business Foundations
- Certificate of Competence, Hospitality and Tourism
- Certificate of Competence, Management Essentials
- Certificate of Competence, Management Foundations

Associate in Science Degree, Management

60 or 63 Credits

This program prepares the student for future managerial positions and provides continuing education for current managers.

First Semester Course Requirements

| Course Alpha | Course Title | Credits |
|--|---|----------|
| ENG 100 | Composition I | 3 |
| SP 151 or SP 251 | Personal and Public Speaking (3) or Principles of Effective Public Speaking (3) | 3 |
| MGT 121 | Service Excellence | 3 |
| BUS 101 or ICS 100 AND ICS 101 | Business Information Systems (3) Computing Literacy & Applications (3) and Digital Tools for the Information World (3) | 3 or 6 |
| BUS 120 | Principles of Business | 3 |
| | Total Credits | 15 or 18 |

Second Semester Course Requirements

| Course Alpha | Course Title | Credits |
|--|---|---------|
| BUSN 188 or MATH 103 or MATH 115 or higher | Business Calculations (3) or College Algebra (3) Statistics (3) | 3 |
| MGT 124 | Human Resource Management | 3 |
| MKT 120 | Principles of Marketing | 3 |
| ENG 209 or BUSN 242 | Business Writing (3) or Business Presentations (3) | 3 |
| Special Elective** | | 3 |
| | Total Credits | 15 |

Third Semester Course Requirements

| Course Alpha | Course Title | Credits |
|---|--|---------|
| ACC 124 or ACC 201 | Principles of Accounting I (3) or Intro to Financial Accounting (3) | 3 |
| MGT 120 | Principles of Management | 3 |
| MGT 122 | Human Relations in Management | 3 |
| Special Elective** | see list on next page | 3 |
| Natural Science Elective: DB or DP course | | 3 |
| | Total Credits | 15 |

Fourth Semester Course Requirements

| Course Alpha | Course Title | Credits |
|--|---|---------|
| | Arts & Humanities Elective | 3 |
| ECON 120 or ECON 130 or ECON 131 | Introduction to Economics (3) or Principles of Microeconomics (3) or Principles of Macroeconomics (3) | 3 |
| | Special Elective** | 3 |
| | Special Elective** | 3 |
| MGT 200 or MGT 299 | Integrated Topics in Management (3) or Independent Study (3) | 3 |
| | Total Credits | 15 |

**Special Electives

The following courses are recommended

| Course Alpha | Course Title | Credits |
|-----------------------|--|---------|
| BLAW 200 | Legal Environment of Business | 3 |
| BUSN 164 | Career Success | 3 |
| BUSN 166 | Professional Employment Prep | 1 |
| BUSN 193V | Cooperative Education | 2 |
| BUSN 277 | International Business Protocol | 3 |
| ECOM 100 | Introduction to E-Commerce | 3 |
| FIN 150 | Personal Finance | 3 |
| FIN 245 | Principles of Finance | 3 |
| HOST 101 | Introduction to Travel Industry Management (formerly TIM 101) | 3 |
| HOST 152 | Front Office Operations | 3 |
| HOST 154 | Food & Beverage Operations | 3 |
| MGT 125 | Starting a New Business | 3 |
| MKT 130 | Principles of Retailing | 3 |
| MKT 150 | Principles of Selling | 3 |
| MKT 160 | Principles of Advertising | 3 |
| PSY 100 or SOC 250 | Introduction to Psychology (3) or Community Forces in Hawai'i (3) | 3 |

Any course with ACC, BLAW, BUS, BUSN, FIN, ECOM, HOST, MGT, MKT, OR TIM alphas may be taken.

Students may elect to take four of the following special electives from the list below and earn a Concentration in Tourism within the AS in Management.

AS in Management, Concentration: Tourism

| Course Alpha | Course Title | Credits |
|--------------|---|---------|
| HOST 101 | Introduction to Travel Industry Management (formerly TIM 101) | 3 |
| HOST 152 | Front Office Operations | 3 |
| HOST 154 | Food and Beverage Operations | 3 |
| BUSN 166 | Professional Employment Prep | 1 |
| BUSN 193V | Cooperative Education | 2 |

Total required: 4 classes

Associate in Science Management Program Outcomes

Upon successful completion of this program graduates will be able to:

- Handle general business operations that require basic math and computer skills.
- Communicate effectively with customers and co-workers in an organizational setting.
- Carry out basic management, accounting and marketing functions in a workplace environment.
- Understand how to train, motivate, and supervise employees/associates to attain the goals of a business.
- Establish and promote a collaborative work environment.
- Work within the ethical, legal, and regulatory parameters on the industry.
- Calculate, compile, and analyze financial records to make prudent business decisions.
- Select, utilize and integrate appropriate current and emerging technologies to support business functions.
- Use verbal, non-verbal, and written communication skill effectively in the business context.
- Interact with internal and external customers in ways that effectively support the work to be accomplished and customer satisfaction.
- Exhibit work behaviors that maximize the opportunity for continued employment and growth within an organization.
- Assist in the design, implementation and continuous assessment of business strategies based on consumer needs and market changes.

Academic Subject Certificate, Management

18 or 21 Credits

Designed to enhance the marketability and increase earning potential of the Liberal Arts students who will enter the workforce upon graduation, work while earning their associate's degree, or continue working while pursuing a bachelor's degree.

The Academic Subject Certificate in Management will provide students with an opportunity to focus their elective studies on acquiring managerial skills. Students interested in exploring management as a possible major at a four-year institution can take these courses while earning their AA degree. Students also will have the opportunity to show potential employers they have basic management skills, improving their chances of moving into supervisory positions. Students holding this certificate will also be able to present themselves as receiving specialized training in management, which will enhance their employment potential and admission into four-year business programs.

Requirements

| Course Alpha | Course Title | Credits |
|--------------------------------------|---|----------|
| MGT 121 | Service Excellence | 3 |
| BUS 120 | Principles of Business | 3 |
| ACC 124 or ACC 201 | Principles of Accounting I (3) or Intro to Financial Accounting (3) | 3 |
| BUS 101 or ICS 100 AND ICS 101 | Business Information Systems (3) or Computing Literacy & Applications (3) and Digital Tools for the Information World (3) | 3 or 6 |
| MGT 120 | Principles of Management | 3 |
| MGT 122 | Human Relations in Management | 3 |
| | Total Credits | 18 or 21 |

Academic Subject Certificate in Management Program Learning Outcomes

Upon successful completion of this certificate, students will be able to:

- Handle general business operations that require basic math and computer skills.
- Communicate effectively with customers and co-workers in an organizational setting.
- Carry out basic management, accounting and marketing functions in a workplace environment.
- Understand how to train, motivate, and supervise employees/associates to attain the goals of a business.
- Establish and promote a collaborative work environment.
- Work within the ethical, legal, and regulatory parameters on the industry.
- Calculate, compile, and analyze financial records to make prudent business decisions.
- Select, utilize and integrate appropriate current and emerging technologies to support business functions.
- Use verbal, non-verbal, and written communication skill effectively in the business context.
- Interact with internal and external customers in ways that effectively support the work to be accomplished and customer satisfaction.
- Exhibit work behaviors that maximize the opportunity for continued employment and growth within an organization.
- Assist in the design, implementation and continuous assessment of business strategies based on consumer needs and market changes.

Academic Subject Certificate, Travel Industry Management

14 or 27 Credits

The Academic Subject Certificate in Travel Industry Management is designed to provide a strong foundation for students who plan to earn a bachelor's degree in Travel Industry Management. The Certificate also provides work place business knowledge and skills that may aid students in finding entry-level jobs.

Requirements

| Course Alpha | Course Title | Credits |
|--|---|----------|
| ENG 100 | Composition I (or equivalent) | 3 |
| MATH 203 | Calculus for Business and Social Sciences | 3 |
| SP 151 or SP 251 | Personal and Public Speech (3) or Principles of Effective Public Speaking (3) | 3 |
| ECON 130 | Principles of Microeconomics | 3 |
| HOST 101 | Introduction to Travel Industry Management (formerly TIM 101) | 3 |
| BUS 101 or ICS 100 AND ICS 101 | Business Information Systems (3) or Computing Literacy & Applications (3) and Digital Tools for the Information World (3) | 3 or 6 |
| ACC 201 | Intro to Financial Accounting | 3 |
| ACC 202 | Intro to Managerial Accounting | 3 |
| | Total Credits: | 24 or 27 |

Academic Subject Certificate Travel Industry Management Program Learning Outcomes

- Students will be able to communicate orally, and in writing, at levels that would make them succeed in baccalaureate degree travel industry management programs.
- Students will be able to use basic computer application skills to create documents and produce information to assist with problem solving within the travel industry.
- Students will be able to use logical and analytical problem solving skills to succeed in baccalaureate-level travel industry management programs.

Certificate of Achievement, Management

24 or 27 Credits

The Management Certificate of Achievement will provide students with a "stepping-stone" approach toward their AS in Management degree. The Western Association of Food Chains (WAFC), a non-profit association dedicated to the support of education programs for the food industry, has endorsed completion of this certificate for their program and will be providing scholarships and the WAFC Retail Management certificate to those students who are employed by member organizations and complete this certificate.

Requirements

| Course Alpha | Course Title | Credits |
|--|---|----------------|
| ENG 100 or ENG 209 | Composition I (3) OR Business Writing (3) | 3 |
| BUS 101 or ICS 100 AND ICS 101 | Business Information Systems (3) or Computing Literacy & Applications (3) and Digital Tools for the Information World (3) | 3 or 6 |
| MGT 120 | Principles of Management | 3 |
| MGT 122 | Human Relations in Management | 3 |
| MGT 124 | Human Resource Management | 3 |
| MKT 130 | Principles of Retailing | 3 |
| ACC 124 or ACC 201 | Principles of Accounting I (3) or Intro to Financial Accounting (3) | 3 |
| MKT 120 | Principles of Marketing | 3 |
| | Total Credits | 24 or 27 |

Certificate of Achievement Management Program Learning Outcomes

Upon successful completion of the program, students will be able to:

- Apply basic math and computer skills to solve general business operations issues.
- Communicate effectively with internal and external customers in a workplace setting.
- Analyze management situations to determine the most appropriate basic management, accounting, and marketing strategies to apply to ensure the business functions productively.
- Apply strategies to train, motivate, and supervise employees and associates to attain the goals of a business.

Certificate of Competence, Business Essentials

6 or 9 Credits

Focuses on developing interpersonal communication skills between management and employees and selecting and utilizing word processing, spreadsheet and presentation software. One of the three required certificates endorsed by the Western Association of Food Chains (WAFC) for its Retail Management Certificate.

Requirements

| Course Alpha | Course Title | Credits |
|--|--|----------------|
| MGT 122 | Human Relations in Management | 3 |
| BUS 101 or ICS 100 AND ICS 101 | Business Information Systems (3) OR Computing Literacy & Applications (3) and Digital Tools for the Information World (3) | 3 or 6 |
| | Total Credits | 6 or 9 |

Certificate of Competence in Business Essentials Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Handle general business operations that require computer skills.
- Communicate effectively with customers and coworkers in a work-place setting.

Certificate of Competence, Business Foundations

6 Credits

The Business Technology Division offers this program to provide the most critical skills demanded by businesses: customer service, interpersonal skills, and communication. The certificate offers training opportunities for business and students who are currently working in industry as well as for those who wish to apply their skills in immediate employment while pursuing additional college study.

Requirements

| Course Alpha | Course Title | Credits |
|--------------|--------------------|---------|
| MGT 121 | Service Excellence | 3 |
| BUSN 164 | Career Success | 3 |
| | Total Credits | 6 |

Certificate of Competence in Business Foundations Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Evaluate and apply decision-making components for successful problem solving in a workplace to satisfy customer (internal and external) needs.
- Analyze business situations and prescribe appropriate solutions to resolve conflicts.
- Evaluate life-long learning resources available and determine appropriate times to use them.
- Model professional behavior acceptable in a business setting.
- Provide exceptional customer service to attract new customers, retain current customers, and ensure loyal customers.

Certificate of Competence, Hospitality & Tourism

15 or 16 Credits

The Hospitality & Tourism Certificate of Competence is designed for those who seek to achieve basic skills and knowledge that will prepare them to find employment in various segments of the hospitality and travel industry, with a focus on lodging. Students selecting the Certificate may have background experience in the field or be seeking a career area. The courses required in the Certificate are applicable to the AS degree in Management.

Requirements

| Course Alpha | Course Title | Credits |
|--------------|--|----------|
| MGT 121 | Service Excellence | 3 |
| | Foreign Language Elective | 3 or 4 |
| HOST 101 | Introductions to Travel Industry Management (formerly TIM 101) | 3 |
| HOST 152 | Front Office Operations | 3 |
| HOST 154 | Food and Beverage Operations | 3 |
| | Total Credits | 15 or 16 |

Certificate of Competence in Hospitality and Tourism Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Assess situations and apply the concepts of hospitality business management to select the best solutions within a hotel and lodging establishment.
- Produce and present effective written and oral communication for the hospitality industry.
- Analyze and articulate perspectives on the travel industry, including the impact local and international events have on industry trends.

Information on program length, estimated cost of education, completion rates, student loan indebtedness, and job placement: Certificate of Competence, Hospitality & Tourism (formerly Travel Industry Management)

http://www.leeward.hawaii.edu/files/gedt/mgt_tim_co/

Certificate of Competence, Management Essentials

15 or 18 Credits

The Management Essentials Program provides students with management skills and knowledge necessary to advance to various levels of administrative and supervisory positions.

Requirements

| Course Alpha | Course Title | Credits |
|--------------|---|----------|
| BUS 101 | Business Information Systems (3) | 3 or 6 |
| or | | |
| ICS 100 | Computing Literacy & Applications (3) | |
| AND | and | |
| ICS 101 | Digital Tools for the Information World (3) | |
| MGT 121 | Service Excellence | 3 |
| BUSN 188 | Business Calculations | 3 |
| ENG 100 | Composition I | 3 |
| ENG 209 | Business Writing | 3 |
| | Total Credits | 15 or 18 |

Certificate of Competence Management Essentials Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Use computer and other office technology tools to fulfill administrative and supervisory responsibilities.
- Demonstrate positive interpersonal interactions to create and maintain a well-managed medical office or health care unit.
- Communicate effectively in a workplace setting.
- Information on program length, estimated cost of education, completion rates, student loan indebtedness, and job placement.

Certificate of Competence, Management Foundations

9 Credits

Provides insight to practical applications of managerial functions, theories and structures; introduction to accounting theory, and marketing fundamentals. One of the three required certificates endorsed by the Western Association of Food Chains (WAFC) for its Retail Management Certificate.

Requirements

| Course Alpha | Course Title | Credits |
|---------------------|---------------------------|----------------|
| MGT 120 | Principles of Management | 3 |
| MKT 120 | Principles of Marketing | 3 |
| MGT 124 | Human Resource Management | 3 |
| | Total Credits | 9 |

Certificate of Competence in Management Foundations Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Carry out basic management, accounting and marketing functions.

Natural Science

Associate in Science Degree with emphasis in one of the following

- Biological Sciences
- Physical Sciences
- Engineering
- Information and Communication Technology Program

Coordinator **Roger Kwok**

Office PS 215A

Phone 455-0261

skwok@hawaii.edu

Program Counselor **Heather Takamatsu**

Office PS 203

Phone 455-0443

haihara@hawaii.edu

The AS-NS Degree offers pathways for STEM (Science, Technology, Engineering, and Math) students planning to transfer to baccalaureate degree programs and is designed to fulfill the first two-year requirements for baccalaureate degrees in the sciences.

See list of possible majors in the Transfer section, page 162. There are four pathways:

- Biological Sciences
- Physical Sciences
- Engineering
- Information and Communication Technology Program

Degree Requirements

The Associate of Science Degree (AS - Natural Science) is awarded to students who complete the following:

1. 60 credits, all in courses numbered 100 and above.
2. General education and Concentration requirements, as indicated below.
3. 12 credits of the requirements earned at Leeward CC.
4. One Hawaiian, Asian, Pacific (HAP) course.
5. Cumulative grade point average of 2.0 or better for all courses used to meet the degree requirements.

AS-NS Program Learning Outcomes

Upon graduation, students will be able to:

- Analyze data effectively using current technology.
- Communicate scientific ideas and principles clearly and effectively.
- Analyze and apply fundamental mathematical, physical, and chemical concepts and techniques to scientific issues.
- Apply fundamental concepts and techniques in their chosen field of study, such as biology, chemistry, engineering, computer science, etc.

NOTE: Appropriate course substitutions may be made with the prior written approval of both the appropriate Division Chair and Dean.

AS-NS Biological Sciences

General Education Requirements

| Foundation Requirements | credits |
|--|---------|
| Written Communication (FW) ENG 100 Composition I (3) or ENG 100E Composition I (3) | 3 |
| Symbolic Reasoning (FS) MATH 241 Calculus I (4) | 4 |
| Global Multicultural Perspectives (FG) Select 1 course from 2 different groups Group A: ANTH 151, ART 175, HIST 151 Group B: ANTH 152, ART 176, BUSN 277, BUSN 279, GEOG 102, HIST 152 Group C: GEOG 151, MUS 107, REL 150 or other FG | 6 |
| Total Foundation Credits | 13 |

| Diversification Requirements | credits |

Phone 455-0418

kabi@hawaii.edu

Plant Biology and Tropical Agriculture Associate in Science program will prepare students for various careers in agriculture through hands-on practices and classroom instructions. The subjects included plants, soils, crop production, pest management, business principles, food, agriculture and the environment.

Associate in Science Degree, Plant Biology and Tropical Agriculture

Associate in Science in Plant Biology and Tropical Agriculture Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Use appropriate scientific and agricultural terminology to communicate in different settings and with different audiences.
- Identify and analyze the biotic and abiotic factors that affect agricultural production and manage these factors at the local, state, national, and global level.
- Understand and apply principles and practices from plant and soil sciences, and tropical agriculture to improve production and profitability.
- Apply scientific methods and information technology to manage agronomic and agribusiness challenges and opportunities.
- Demonstrate the fundamental knowledge of the contemporary issues involving food, agriculture and the environment.

NOTES

*When AG 112 or AG 251 is used to count as a concentration requirement, the course cannot also count as an elective.

Academic Subject Certificate, Plant Biology and Tropical Agriculture

27-30 Credits

The ASC in Plant Biology and Tropical Agriculture is designed to provide plant science and laboratory knowledge and skills to facilitate employment or further education in agricultural businesses.

Requirements

| Course Alpha | Course Title | Credits |
|---|--|---------|
| AG 200 | Principles of Horticulture | 3 |
| AG 200L | Principles of Horticulture lab | 1 |
| AG 100 | Orientation to Hawai'i's Agriculture Industry | 1 |
| AG 264 | Plant Propagation | 3 |
| AG 141 | Integrated Pest Management | 3 |
| AG 271 | Introduction to Crop Improvement | 3 |
| AG 293V | Plant Biology & Tropical Agriculture Internship | 1-4 |
| BIOL 101 and BIOL 101L or BIOL 171 and BIOL 171L or BOT 101 and BOT 101L | Biology for Non-majors (3) and Biology for Non-majors Lab (1) Introduction to Biology (3) and Introduction to Biology Lab (1) General Botany (3) General Botany Lab (1) | 4 |
| CHEM 151 and CHEM 151L or CHEM 161 and CHEM 161L | Elementary Survey of Chemistry (3) Elem. Survey of Chemistry Lab (1) General Chemistry I (3) and General Chemistry I Lab (1) | 4 |
| ICS 101 or BUS 101 | Digital Tools for the Information World (3) or Business Information Systems (3) | 3 |
| | Total Credits | 27-30 |

Academic Subject Certificate in Plant Biology and Tropical Agriculture Student Learning Outcomes

After successful completion of this program, students will be able to:

- Perform general plant cultivation in the field and greenhouse including propagation, hybridization, watering, fertilizing, and pest control.
- Apply technology and management skills to develop bioprocessing agribusiness.
- Follow standard ethics and regulations of agriculture and life science technicians.
- Perform standard plant science and micropropagation laboratory techniques

Certificate of Achievement, Plant Biology and Tropical Agriculture

34–38 Credits

Requirements

| Course Alpha | Course Title | Credits |
|--|--|---------|
| HIST 151 | World History I or other FG courses | 3 |
| SOC 151 | Introduction to the Sociology of Food (suggested) or other DS courses | 3 |

| | Total Elective Credits | 14 |

Certificate of Competence in Plant Biology and Tropical Agriculture Program Learning Outcomes

Upon successful completion of this certificate, students will be able to:

- Understand and apply principles and practices from plant and soil sciences, and tropical agriculture to improve production and profitability.
- Apply scientific methods and information technology to manage agronomic and agribusiness challenges and opportunities.
- Demonstrate the fundamental knowledge of the contemporary issues involving food, agriculture and the environment.

Certificate of Competence, Aquaponics Technician

13 Credits

Program Coordinator **Alyssa MacDonald**

Office BS 205

Phone 455-0285

alyssa.macdonald@hawaii.edu

The program will provide comprehensive courses in plant science and aquaponics. The subjects included plants, aquaculture, pest management and aquaculture systems. Students will have an opportunity to pursue CA and AS degree, which build upon this program.

The Aquaponics Technician Certificate of Competence is awarded to students who complete **13 credits** of the following courses:

| Course Alpha | Course Title (credits) |
|--------------------------------|---|
| AG 104 | Food Safety & Post Harvest Handling (proposed course) (1) |
| AG 170 | Introduction to Commercial Aquaponics (3) |
| AG 170L | Introduction to Commercial Aquaponics Lab (1) |
| HORT 110 and 110L or AG 112 | Hawaii Horticulture & Nutrition and Lab (4) |
| or AG 200 and 200L | Introduction to Organic Agriculture (4) |
| | Introduction to Plant Science and Lab (4) |
| AG 293V | AG Internship (4) |

Program Learning Outcomes (PLO):

- Demonstrate basic knowledge of aquaponics systems.
- Demonstrate an understanding of aquaponics standard operating procedures.
- Demonstrate current food safety policies and procedures related to aquaponics.
- Complete an internship in a commercial-scale aquaponics facilities.

Television Production

- Associate in Science Degree
- Certificate of Achievement
- Certificate of Competence

Program Coordinator **Robert Hochstein**

Office GT 107

Phone 455-0259

hochstein@aol.com

CTE Counselor **Ann Dorado**

Office GT 111

Phone 455-0652

adorado@hawaii.edu

This career-oriented program is designed specifically for students seeking job-entry skills/retraining/upgrading in professional digital cinematography, with emphasis on all aspects of video production. While this program assumes no prior knowledge of television production, students should be advised that this program is demanding, condensed, rigorous, academically challenging, and requires substantial time commitments. Courses and extensive hands-on labs include the use of state-of-the-art digital video technology and equipment to teach film techniques and television production.

The Certificate of Competence is 18 credits. The Certificate of Achievement is 39 credits. The Associate in Science degree is 63 credits.

TVPR 100 level courses emphasize video equipment operation. TVPR 200 level classes emphasize storytelling, application and mastery of equipment, and aesthetics. An advising appointment with, and signature of, the TVPRO Program Coordinator is required prior to registration.

MATH 100 or higher and ENG 100 or higher are required courses for the Certificate of Achievement and the Associate of Science degree and are recommended preparation for program entry and the Certificate of Competence.

In order to obtain the TVPRO certificates and degrees, all TVPRO courses must be passed with a grade of "C" or better.

Associate in Science Degree Television Production

63 Credits

Prerequisites: All Certificate of Competence and Certificate of Achievement courses listed with a grade of "C" or better.

Core Requirements

| Course Alpha | Course Title | Credits |
|-----------------------|---|---------|
| TVPR 101 | Film & Video Production Process & Business Operations | 3 |
| TVPR 126 | Introduction to Digital Camera Operation & Lighting Principles. | 3 |
| TVPR 136 | Audio / Video Engineering | 3 |
| TVPR 142 | Film & Video Audio – Acquisition & Recording | 3 |
| TVPR 151 | Introduction to Film & Video Digital Editing Principles | 3 |
| TVPR 211 | Film & Video Storytelling & Scriptwriting | 3 |
| TVPR 251 | Applied Film & Video Editing and Post-Production Audio | 3 |
| TVPR 121 | Film & TV Graphics | 3 |
| TVPR 226 | Applied Digital Camera Operation & Lighting | 3 |
| TVPR 227 | Advanced Film & Video Storytelling and Scriptwriting | 3 |
| TVPR 210 | Film & Video History, Criticism, Ethics, & Aesthetics | 3 |
| TVPR 276 | Advanced Digital Cinematography, Composition, & Lighting | 3 |
| TVPR 292 | Media Project Production | 3 |
| TVPR 294 | Advanced Film & Video Digital Editing & Postproduction Audio | 3 |
| TVPR 291 | Film & Video Directing/Studio/Location Production | 3 |
| TVPR 293C | Internship Career Preparation | 3 |
| Math 100 or higher | | 3 |
| English 100 or higher | | 3 |
| | Core Credits | 54 |
| | General Education Electives | 9 |
| | For a total of 3 courses and 9 credits, complete one course (numbered 100 or above) for 3 credits from the following areas. May be completed prior to entry into the TVPRO program. | |
| | Arts and Humanities (3) | |
| | Natural Sciences (3) | |
| | Social Sciences (3) | |
| | Total Degree Credits | 63 |

Associate in Science in TV Production Program Outcomes

In addition to acquiring the competencies required for Associate in Science degrees, upon successful completion of this program graduates will be able to:

- Demonstrate the ability to work as an individual as well as an effective team member.
- Consistently demonstrate professional qualities demanded by the business.
- Understand and be able to create concepts, treatments, storyboards, scripts, budgets, and be able to “pitch” these preproduction tools in a professional manner.
- Demonstrate knowledge of and be able to use modern digital video studio cameras and digital camcorders and camera mounting equipment as required by the industry.
- Demonstrate an understanding of the history, theory, and aesthetics of television, film, and the moving image.
- Understand media literacy and demonstrate professional ethics as applied to the moving image.
- Demonstrate knowledge of and be able to operate current nonlinear digital editing equipment.
- Demonstrate knowledge of and be able to apply current television and film lighting techniques.
- Demonstrate knowledge of and be able to use current sound sources and audio equipment specific to sound acquisition, recording, sweetening, editing, and post-production.
- Demonstrate and apply the skills at a professional level to block and direct a multi-camera field or studio production as well as a single camera movie-style production, using proper terminology and techniques.
- Understand and apply basic video and audio engineering techniques in order to produce a professionally acceptable television signal which meets FCC requirements for broadcast.
- Create acceptable and appropriate digital graphics necessary for television production.
- Understand and apply advanced aesthetic concepts and theories to television productions in relation to use of light, color, two and three dimensional screen spaces and forces, depth, volume, visualization, motion, time and sound to achieve professional results.

2 Year Plan for Degree Completion

Suggested Sequence for 2-year plan

First Semester 18 credits

ENG 100 or higher

Math 100 or higher

100 level or higher in Natural Sciences

100 level or higher in Social Sciences

100 level or higher in Arts & Humanities

TVPR 101

Second Semester 15 credits

TVPR 211

TVPR 126

TVPR 136

TVPR 142

TVPR 151

At this point, completes Certificate of Competence

Third Semester

TVPR 121

TVPR 226

TVPR 227

TVPR 210

At this point, completes Certificate of Achievement

Fourth Semester

TVPR 276

TVPR 292

TVPR 294

TVPR 291

TVPR 293C

At this point, completes Associate in Science Degree

Certificate of Achievement, Television Production

39 credits

Prerequisites: All Certificate of Competence courses listed with a grade of “C” or better and MATH 100 or higher and ENG 100 or higher with a grade of “C” or better (or equivalents) must be completed prior to entry into CA.

Requirements

| Course Alpha | Course Title | Credits |
|-----------------------|---|---------|
| TVPR 101 | Film & Video Production Process & Business Operations | 3 |
| TVPR 126 | Introduction to Digital Camera Operation & Lighting Principles. | 3 |
| TVPR 136 | Audio / Video Engineering | 3 |
| TVPR 142 | Film & Video Audio – Acquisition & Recording | 3 |
| TVPR 151 | Introduction to Film & Video Digital Editing Principles | 3 |
| TVPR 211 | Film & Video Storytelling & Scriptwriting | 3 |
| TVPR 251 | Applied Film & Video Editing and Post-Production Audio | 3 |
| TVPR 121 | Film & TV Graphics | 3 |
| TVPR 226 | Applied Digital Camera Operation & Lighting | 3 |
| TVPR 227 | Advanced Film & Video Storytelling and Scriptwriting | 3 |
| TVPR 210 | Film & Video History, Criticism, Ethics, & Aesthetics | 3 |
| Math 100 or higher | | 3 |
| English 100 or higher | | 3 |
| | Total Credits | 39 |

Certificate of Achievement in Television Production Program Learning Outcomes

Upon successful completion of this certificate, students will be able to:

- Demonstrate the ability to work as an individual as well as an effective team member as demanded by industry.
- Develop and produce concepts, treatments, storyboards, scripts, budgets, and be able to “pitch” these preproduction tools in a professional manner.
- Use modern digital video studio cameras and digital camcorders and camera mounting equipment as required by industry.

ADMISSION AND ENROLLMENT SERVICES

ADMISSIONS INFORMATION

2018–2019 Application Deadlines

The deadlines for submitting your completed application to the Leeward CC Admissions Office are:

August 1, 2018 for the Fall 2018 semester

December 15, 2018 for the Spring 2019 semester

INTERNATIONAL STUDENTS

Applications are accepted on a rolling basis through the year. It is recommended that international students apply at least 90 days prior to the start date to allow sufficient time to apply for a student visa.

Non-residents are urged to apply well in advance of the published deadlines. Non-residents are subject to the non-resident quota in the University of Hawai'i System Controlled Growth Policy and, once the quota is reached, additional non-resident applicants cannot be accepted.

ELIGIBILITY

Leeward is proud of its “open door” policy and is dedicated to providing educational opportunities for all its community members.

Any U.S. citizen who has graduated from a U.S. high school, has a G.E.D. (General Education Development) certificate, or is 18 years of age or older may attend Leeward Community College. High School students under 18 years of age may be eligible for a Dual Enrollment/Early College program.

Foreign citizens on immigrant visas who have been allowed to live in the U.S. permanently but have not yet resided in Hawai'i for twelve months are subject to the Controlled Growth Policy.

Non-residents of the State of Hawai'i are accepted in limited numbers and are subject to the non-resident quota as mandated by the Controlled Growth Policy of the University of Hawai'i System. A \$25.00 fee is required for application. This fee is non-refundable, non-transferable and paid each time you apply. (See Residency, pages 139)

It is the policy of the University of Hawai'i to comply with Federal and State laws, which prohibit discrimination in University programs and activities.

NOTE: the following terms are defined as:

Returning student: Anyone who once attended Leeward CC, but has been away at least one semester.

Transfer student: Anyone who has attended another college, prior to enrolling at Leeward CC.

Continuing Student: Any student enrolled at Leeward Community College in the current semester.

International student: Any student who is admitted as a non-immigrant and requires a visa to study.

Early College student: Anyone who is currently a high school student.

Faculty/Staff: Any full-time University of Hawai'i employee.

STEPS FOR ADMISSION AND ENROLLMENT

1. A University of Hawai'i System Application must be completed and submitted online at <http://apply.hawaii.edu>.
2. A transcript of high school or college work may be required. Applicable course work completed at any regionally accredited U.S. college or university may be credited toward a Leeward degree or certificate or used to meet prerequisites for courses to be taken at Leeward. Students must:
 - a. request that an official transcript be sent to the Admissions and Records Office (unofficial, hand-delivered, faxed, or student transcripts will not be accepted, even in a sealed unopened envelope.);
 - b. request that the transcript(s) be evaluated by completing a Transcript Evaluation Request form available at the Admissions and Records Office, online at www.leeward.hawaii.edu, or the Counseling and Advising Office, then submit the completed form to the Admissions and Records Office. If Leeward does not have official transcripts, it is possible that the student will have to repeat work for which he or she has already earned credit and/or experience problems at registration.
3. Applicants will be notified of their acceptance by email. Applicants should be sure that the College has both a valid email address and mailing address on file. It is an applicant's responsibility to notify Admissions and Records if there is any change in email or mailing address.
4. All new students must activate their MyUH account (UH Username) by going to <https://www.hawaii.edu/username/>, selecting "Get a UH username", and answering the questions. The UH username will be created within 15 minutes. Creation or reactivation of the UH username is required in order to attend New Student Orientation (NSO).
5. All new students are required to attend New Student Orientation (NSO) and a mandatory advising appointment. Information will be sent via MySuccess after the creation or re-activation of the UH Username.
6. Medical clearance documentation for measles, mumps, rubella and tuberculosis must be sent to the Health Center prior to registration. These clearances must be completed before the counseling appointment if the student wants to register for classes.
7. All new students are required to take placement tests in reading, writing, and math to assist them in meeting course prerequisites.

Any and all documents received by the college are the property of the college and will not be released to a third party.

Notes

- The University of Hawai'i utilizes MyUH, a web-based Student Information System, which allows students to view personal, registration, financial aid, grades, and course records information online. Each student has private access to their information.
- NSO is mandatory for new students. NSO has two parts – NSO session and advising appointment. The NSO session will give students an overview of campus life such as resources, Laulima training, tour of facilities, and a chance to meet faculty and current students. Students will also see live demonstrations of how to register for classes and how to use the online degree tracking tool called STAR. At the advising appointment, students will develop an academic plan, discuss career goals, and register for their classes.
- Admissions and Records, AD 220
Temporary location during renovation: DH-A 108
455-0642
Monday–Friday, 8:00 a.m. to 4:30 p.m.

Admissions Information for International Students

International students are admitted to Leeward CC through the Office of International Programs. International students who are not U.S. citizens and who have not been admitted to live in the U.S. permanently are designated as non-immigrants and must apply for an F-1 student visa. The U.S. Department of State requires F-1 visa applicants to have a SEVIS Form I-20, which is issued by the Leeward CC Office of International Programs after the student has applied and been accepted.

Contact the Office of International Programs for international admission information, 808-455-0570, or email lcintl@hawaii.edu.

International Student Admission Requirements

Complete and submit a Leeward Community College International Student Application Form. Forms can be downloaded from the Leeward CC website www.leeward.hawaii.edu/ipo-forms. Applications are accepted on a rolling basis throughout the year. It is recommended that international students apply at least 90 days prior to the start date to allow sufficient time to apply for a student visa.

Transcripts or Documentation of High School Equivalency: If you are under 18 years of age, submit a copy of your high school diploma, certification of completion, or equivalent.

English Requirements: International applicants may submit an official score from one of the following English Proficiency Tests: TOEFL, IELTS, ITEP, STEP EIKEN or GTEC. Students with the following test scores or higher will be eligible to enroll in College credit courses, based on placement test results:

TOEFL: 500 PBT, 61 iBT

IELTS: 5.5

ITEP: 4

STEP EIKEN: 2A

GTEC: 1051

Students with scores below those listed will enroll in the English Language Institute (ELI) intensive English program. Upon successful completion of the ELI advanced course (Level 4) students are eligible to enroll in credit courses with no additional testing requirements.

Submit a copy of current passport.

A SEVIS I-20 form is required by the U.S. Department of State in order to apply for an F-1 student visa. The SEVIS I-20 is issued by the Office of International Programs after the student has applied and been accepted to Leeward CC.

Credit Transfer: For non-immigrant applicants requesting credit transfer from a foreign or U.S. College or University, original transcripts should be sent directly to the Leeward CC Admissions & Records Office.

International Student Health Requirements

1. In compliance with public health regulations, new students must show evidence that they are free of active tuberculosis, measles, mumps and rubella. All students must have a skin TB test performed within the United States. Upon arrival on campus, TB skin tests can be taken at the Campus Health Center. If skin test is positive, a follow up x-ray is required.
2. Two doses of the measles vaccine are required with at least one dose of the two being an MMR vaccine. All students must complete this requirement by the first day of class. MMR immunizations can be completed at the Campus Health Center or in the student's home country prior to arrival, with proper documentation.
3. Health Insurance Required: Before being permitted to enroll at Leeward CC, all international students must demonstrate proof of enrollment in a health and accident insurance plan. The intent of this requirement is to protect international students from the high cost of unanticipated health care expenses resulting from accidents or illness.

Other Policies for International Students

International applicants must comply with all regulations of the U.S. Department of Homeland Security as well as with applicable policy of Board of Regents of the University of Hawai'i and the policies of the Leeward Community College.

RESIDENCY REGULATIONS FOR TUITION PURPOSES

(The residency rules and regulations may be subject to change.)

Students who do not qualify as bona fide residents of the State of Hawai'i, according to the University of Hawai'i rules and regulations in effect at the time they register, must pay the nonresident tuition. An official determination of residency status will be made prior to registration. Applicants may be required to provide documentation to verify residency status. Once classified as a nonresident, a student continues to be so classified during his/her enrollment at the college until he/she can present clear and convincing evidence to the residency officer that proves otherwise. Some of the more pertinent University residency regulations follow. For additional information or interpretation, contact the residency officer in the Admissions Office. The complete rules and regulations are available at the Admissions Office.

Definition of Hawai'i Residency

A student is deemed a resident of the State of Hawai'i for tuition purposes if the student has:

1. Demonstrated intent to permanently reside in Hawai'i (see below for evidences);
2. Been physically present in Hawai'i for the 12 consecutive months prior to the first day of instruction, and subsequent to the demonstration of intent to make Hawai'i his or her legal residency; and
3. The student, whether adult or minor, has not been claimed as a dependent for tax purposes by her or his parents or, legal guardians who are not legal residents of Hawai'i.

To demonstrate the intent to make Hawai'i your legal residency, the following evidence apply:

1. Filing Hawai'i resident personal income tax return.
2. Voting/registering to vote in the State of Hawai'i.

Other evidence, such as permanent employment and ownership or continuous leasing of a dwelling in Hawai'i, may apply, but no single act is sufficient to establish residency in the State of Hawai'i.

Other legal factors involved in making a residency determination include:

- A. The 12 months of continuous residence in Hawai'i shall begin on the date upon which the first overt action (see evidences) is taken to make Hawai'i the permanent residence. Residence will be lost if it is interrupted during the 12 months immediately preceding the first day of instruction.
- B. Residency in Hawai'i and residency in another place cannot be held simultaneously.
- C. Presence in Hawai'i primarily to attend an institution of higher learning does not create resident status. A nonresident student enrolled for 6 credits or more during any term within the 12-month period is presumed to be in Hawai'i primarily to attend college. Such periods of enrollment cannot be applied toward the physical presence requirement.
- D. The residency of unmarried students who are minors follows that of the parents or legal guardian. Marriage emancipates a minor.
- E. Resident status, once acquired, will be lost by future voluntary action of the resident inconsistent with such status. However, Hawai'i residency will not be lost solely because of absence from the State while a member of the United States Armed Forces, while engaged in navigation, or while a student at any institution of learning, provided that Hawai'i is claimed and maintained as the person's legal residence.

Board of Regents Exemptions

1. Nonresidents may be allowed to pay resident tuition if they qualify as one of the following:
 - a. United States military personnel and their authorized dependents during the period such personnel are stationed in Hawai'i on active duty.
 - b. Members of the Hawai'i National Guard and Hawai'i-based Reserves.
 - c. Veterans discharged within 3 years of enrollment and who are eligible for GI Educational Bill benefits; and their qualified spouse/dependents.
 - d. Full-time employees of the University of Hawai'i and their spouses and legal dependents (as defined under Internal Revenue Service rules).
 - e. East-West Center student grantees pursuing baccalaureate or advanced degrees
 - f. Hawaiians, descendants of the aboriginal peoples that inhabited the Hawaiian Islands and exercised sovereignty in the Hawaiian Islands in 1778.
2. Citizens of an eligible Pacific island district, commonwealth, territory, or insular jurisdiction, state, or nation which does not provide public institutions that grant baccalaureate degrees may be allowed to pay 150% of the resident tuition. At the time of publication, these included the following: American Samoa, Commonwealth of the Northern Marianas, Cook Islands, Federated States of Micronesia, Futuna, Kiribati, Nauru, Niue, New Caledonia, Rapa Nui, Republic of Palau, Republic of the Marshall Islands, Solomon Islands, Tokelau, Tonga, Tuvalu, Vanuatu, Wallis

This list is subject to change. For a current list, please contact the Admissions Office.

Misrepresentation

A student or prospective student who provides incorrect information on any form or document intended for use in determination of residency status for tuition purposes will be subject to the requirements and/or disciplinary measures provided for in the rules and regulations governing residency status.

Appeal Process

Residency decisions may be appealed by contacting the residency officer for information on how to initiate an appeal. Appeals are heard by the University of Hawai'i Residency Appeals Board only after the non-resident tuition is paid.

Residency Changes

If you are currently a non-resident but have established permanent residency in Hawai'i, you may petition for a change in residence status. Check with the Admissions and Records Office, room AD 220 (temporary location through Summer 2019: DH-A 108), for details and deadline information.

International Applicants (F1 Student Visas)

International applicants must comply with all regulations of the U.S. Department of Homeland Security as well as the applicable policy of the Board of Regents of the University of Hawai'i and the policies of Leeward Community College. Students who are not U.S. citizens and who have not been admitted to live in the U.S. permanently are designated as non-immigrants.

Leeward CC is authorized under Federal Law to enroll non-immigrant students. See the Steps to Take for Admission section on International Students for further information.

Early College Programs

Eligible high school students may register for coursework at Leeward CC while completing high school requirements. Hawai'i high school students who demonstrate college readiness may concurrently enroll at Leeward CC while still enrolled in high school.

Eligible high school students may attend college classes during the fall, spring, and summer terms while earning both high school and college credits.

Details and the required forms are available on our website at <http://www.leeward.hawaii.edu/early-college-programs>.

Concurrent Registrant

The student information system, MyUH, provides the ability to register at multiple UH campuses simultaneously. Students who are enrolled at any campus of the UH system may enroll at Leeward CC provided they are in good academic standing. Leeward CC students can register for courses for which they are eligible at any other UHCC campus without first having to apply to that campus.

Auditors

Persons wishing to audit courses must submit a completed application to the Admission Office, must have instructor's permission, and must pay all appropriate tuition and fees.

Auditors do not receive grades or credit for audited courses. Auditors must abide by the UH Student Conduct Code.

Veterans Administration

Leeward Community College is an approved educational institution for education and training under the Veteran's Educational Assistance Act (GI Bill), and the Dependents' Act. Information regarding eligibility, entitlement and types of training authorized may be obtained from the Veterans Administration Regional Office. Certification for VA Benefits is done by the Admissions and Records Office. For information or assistance, call 455-0644.

PLACEMENT TESTS

For entering students, Leeward uses a variety of ways to check your skill levels in English and math, so you'll be placed in the right level of those classes.

If you've graduated high school within the last two years, you can use any of the placement measures below. Additional placement testing may not be necessary. In other cases, you can take the Accuplacer test at our Test Center.

If one of the measures below leads to placement in a developmental education class, you have the option of taking a placement test if you think it will improve your placement.

Placement measures for students graduating high school within the last two years:

- Cumulative High School GPA
- 12th Grade English Grade
- 12th Grade Intro to College Math Grade
- 12th Grade Alg 3, Trig, or Pre Calc Grade
- Algebra II grade
- Algebra I grade
- ACT Writing / Math score
- SAT Writing / Math score
- HiSET Language Arts / Math score
- GED Language Arts / Math score

Please contact a Counselor if there are any questions about our placement measures.

If you live on the Leeward Coast and would like to take your placement test at our Wai'anae location, please call 454-4708 to make an appointment.

REGISTRATION

Registration into a course obligates you financially and academically even if you do not attend any classes or make payment by applicable deadlines. If payment in full is not received or you have not enrolled in the payment plan by the published deadline, the University of Hawai'i reserves the right to cancel your registration and/or place a financial hold on your student account which may deny you any further services such as future registration, request for transcripts, verification of student status request, etc.

Registration information and the listing of Course Availability are available for viewing online at the College's website. The College Catalog is available in pdf format on the website or can be purchased at the Copy Center. This information should be used in planning the program of studies. Visit the Leeward CC website at www.leeward.hawaii.edu for additional information and updates.

Continuing students registered in credit courses the preceding semester are eligible for early registration for the next semester. Early appointment information is available from the student's MyUH account. All new applicants will be assigned a date and time to register for courses only after completing all admission and related requirements.

Students not registered for at least one credit at a University of Hawai'i system campus in the preceding semester are not eligible to register and must reapply for admission.

Tuition and all applicable fees must be paid in full on, or before, the published deadline or the student's registration may be cancelled. Students who register during the late registration period will be liable for all applicable tuition and other related fees for the classes taken, whether or not they attend those classes. Therefore, students are advised to officially withdraw from classes they do not plan to attend. Failure to withdraw will result in a financial obligation to the University of Hawai'i and may also result in a failing grade for the class(es) in question.

Students who register at more than one UH campus should pay particular attention to payment and other deadlines as they may vary from campus to campus. Deadline information is available at each campus website or contact the Admissions and Records Office at the campus offering the course.

The College reserves the right to make changes in certain fees, faculty assignments and time schedules, to cancel classes where necessary, and to set maximum limits for enrollment in certain classes. Notice of such changes will be given whenever possible.

Applicants who have been accepted will be notified of acceptance by email. Information about orientation, placement testing (reading/English and mathematics) advising, and registration will be made available through MySuccess communications. Certain procedures and payments are required of all applicants and students, and registration is not official until these have been met.

Class attendance by persons not properly registered is prohibited. Any unofficial attendance does not provide a basis for later claim of registration or credit.

Registration for non-credit courses and specialized training is handled by the Office of Continuing Education and Workforce Development, 455-0477.

MyUH is the University of Hawai'i's integrated student information system. Important information from the College will be sent to your hawaii.edu email address. Please check this account for information on a regular basis.

Health Requirements for Registration

TB Clearance

In compliance with public health regulations, new students must show evidence that they are free of active tuberculosis.

New students must submit a TB clearance not more than one year old prior to the start of the semester. To prevent the spread of tuberculosis, no new student will be allowed to register for courses without proof of a current TB clearance.

Leeward Community College complies with all applicable requirements of other state health agencies and councils as may be required by law or by rules and regulations.

Note: TB Clearance policies are subject to change; check with the Admissions Office for the most current information.

Measles

New students must provide evidence of immunization against Measles Mumps and Rubella (MMR). Students born prior to 1957 are assumed to have acquired natural immunization and will be exempt from providing such evidence.

Evidence is either documented records of two MMR immunizations or blood titer tests proving immunity to measles, mumps and rubella.

Health and Accident Insurance Requirement, Non-Residents

All non-resident international students must demonstrate proof of enrollment in a health and accident insurance program before any such student shall be permitted to enroll. The intent of this requirement is to protect international students against the high cost of unanticipated health care expenses resulting from accidents or illness.

FINANCIAL INFORMATION

2018–2019 Tuition and Fees Schedule

All tuition and fee charges at the University of Hawai'i campuses are subject to change in accordance with requirements of State law and/or action by the University of Hawai'i Board of Regents or Administration.

| | Resident | Non-Resident | Non-Resident Pacific Island Jurisdiction* |
|---|--|--|--|
| Tuition | \$128.50 per credit | \$342.50 per credit | \$192.75 per credit |
| Tuition for 300-level courses | \$303.00 per credit | \$843.00 per credit | \$454.50 per credit |
| Student Activities Fee | \$1.00 per credit (up to a maximum of \$10.00) | \$1.00 per credit (up to a maximum of \$10.00) | \$1.00 per credit (up to a maximum of \$10.00) |
| Health Center Fee | \$15.00 | \$15.00 | \$15.00 |
| Board of Student Communication Fee | \$5.00 | \$5.00 | \$5.00 |

*Pacific Island Jurisdiction includes American Samoa, Commonwealth of the Northern Mariana Islands, Federated States of Micronesia, Republic of Palau, Republic of the Marshall Islands, Cook Islands, Futuna, Kiribati, Nauru, New Caledonia, Niue, Solomon Islands, Tokelau, Tonga, Tuvalu, Vanuatu, and Wallis.

Payments

All tuition and fees should be paid in full by the appropriate deadlines. Payment can be made online by echeck or debit/credit card (MasterCard, VISA or Discover only) or in person at the Cashier's Office by cash, check, cashiers check, travelers' check, or debit card.

Students who register at more than one UH campus should pay particular attention to payment deadlines as they may vary from campus to campus. Deadline information is available at each campus website or contact the Cashier's Office at the campus offering the course.

Installment Payment Plan (IPP)

Eligible registered students who cannot pay their tuition and fees in full by the published deadline will be able to sign up for an installment payment plan. There is a \$30.00 fee each semester to participate in the payment plan. This fee is non-refundable and non-transferable. A missed payment fee will be assessed for late payments and is also non-transferable and non-refundable. Visit MyUH at myuh.hawaii.edu for the most current information regarding the Installment Payment Plan.

Financial Obligations

Students who have not met their financial obligations at any college in the University of Hawai'i System (such as nonpayment of tuition and fees, traffic fines, library fines, loans, etc.) to the satisfaction of the University of Hawai'i may be denied letters of verification or certification, registration, withdrawal, grades, transcript requests, graduation, diplomas, and other university services.

Enrollment at the University of Hawai'i signifies consent to, and acceptance of, all policies and procedures governing enrollment including financial liability. Students who fail to clear all financial obligations in a timely manner may result in their account being sent to a collection agency. Students agree to pay the University of Hawai'i all reasonable costs for collection, to include but not limited to collection agency, attorney's and court fees. The University of Hawai'i also has the ability to submit an account to garnish state income tax refunds to offset financial obligations.

Copies of the delinquent financial obligation policy and procedures are available for inspection at the Office of the Dean of Student Services and the campus business office.

(Also see Policies for Financial Obligation, page 284)

FEES

Late Registration Fee

A \$30.00 fee for late registration is charged when a student initially registers in a class(es) after the end of the regular registration period.

Course Change Fee

A \$5.00 fee is charged each time a change is made to your registration by the Admissions and Records Office.

Credit by Institutional Exam Fee

Students will be assessed a fee in accordance with the University of Hawai'i policy for credits earned by institutional examination.

Portfolio Based Assessment

Students will be assessed additional tuition in accordance with the College's tuition schedule for credits earned.

Transcript Fee

Transcripts of work completed at Leeward CC, may be viewed by the student's home campus electronically. The student should check with the Admissions and Records Office at their home campus for evaluation and transfer procedures.

A \$5.00 per copy fee is charged for transcript requests processed by Admissions and Records within 3-5 business days. Priority transcript handling may also be requested at \$15.00 per copy and will be processed within 1-3 business days. Note: Processing does not include mailing time.

All transcripts released to the student will be stamped, "ISSUED TO STUDENT". As these transcripts bear the Leeward Community College seal and Registrar's signature, they are considered to be official. It, however, advises a third party that the student had personal possession of the "ISSUED TO STUDENT" transcript.

Installment Payment Plan Fee

A \$30.00 fee is charged when a student signs up for the optional IPP program. This once a semester fee is nonrefundable and nontransferable.

Late Installment Payment Plan Fee

A \$30.00 late fee is charged each time a payment is not made by the IPP deadlines. This fee is nonrefundable and nontransferable.

Non-resident Application Fee

Non-resident students applying to the college are required to pay a \$25.00 nonrefundable, nontransferable application fee each time they apply.

Degree/Certificate Fee

A \$15.00 nonrefundable fee is payable when submitting an application for an Associate in Arts, an Associate in Science, an Associate in Applied Science degree or a Certificate of Achievement. Students applying for other certificates must also remit the \$15.00 nonrefundable Degree/Certificate Fee if the student wishes to participate in the commencement ceremony.

Students may apply for degrees and certificates throughout the year, however, there is only one Commencement ceremony in May. Check the Student Life website for specific Commencement Ceremony deadlines.

Cap and Gown Fee

Students who participate in the Commencement Ceremony must purchase and wear a cap and gown. The cost will vary. Check the Student Life website for updates:
<http://studentlife.leeward.hawaii.edu/page/ceremony-information>.

Fee for Dishonored Checks

A \$25.00 service charge will be assessed for all returned checks of any cause. This includes electronic checks (echecks) returned for any reason. University departments reserve the right to refuse further check payments for any University receivable where three (3) or more checks have been returned for any reason.

Placement Test: Re-Test Fees

There is a re-test fee of \$25 each time you elect to retake the test. All Placement re-tests will cost \$25.00 per sitting.

Leeward students may be exempt from the \$25 re-test fee if they have not taken a math course in 2 years or their placement scores are more than 2 years old.

Additional Expenses

Health Insurance

All international students (F-1 visa) are required to purchase health insurance. Student health plans are available through the College at special rates. Contact the Office of International Education, 455-0570, for more information.

Books and Supplies

Cost will vary according to courses taken and the student's major. Some courses are offered with Open Educational Resources (OER) and have no textbook cost. This information is included in the comments for classes during registration.

Parking

No charge.

Catalog

The Catalog is sold at the Leeward CC Copy Center, GT 104, and is also available online at <http://www.leeward.hawaii.edu/catalog> in PDF format.

Non-Credit Course Fees

Students registered in non-credit courses pay fees as indicated by the Leeward CC Office of Continuing Education and Workforce Development or the English Language Institute.

PAYMENT PROCEDURES

Payments for tuition and fees can be made in full or in installments.

The procedures for Payment in Full are outlined below. For details on the UH Installment Payment Plan, please visit MyUH or go to <http://myuhinfo.hawaii.edu/object/paymentfaq.html>.

For Payment in Full: MyUH Online Payments

- Log in to your MyUH account @ myuh.hawaii.edu
- Click on "Pay Tuition and Fees" or search for it.
- From here, follow the directions to make a payment.

Tuition and fee payments can be made by:

Online MyUH: Pay by echeck, debit/credit card (MasterCard, VISA, or Discover only).

Mail: Make checks payable to "University of Hawai'i" and mail to: Leeward Community College, Cashier's Office, 96-045 Ala 'Ike; Pearl City, HI 96782

Mailed payments must be RECEIVED by the appropriate deadline. You should allow a minimum of 5 days for delivery prior to the deadline. Do not use Campus Mail. To ensure proper crediting to your account, use the Tuition Mail-In Remittance Form in the Schedule of Courses. Write your student ID number on the bottom left of the check. Improperly completed remittance forms and checks may be returned to you unprocessed and will not be posted to your account.

In-Person: Pay by cash, personal check, money order, cashier's check, travelers check, or debit card (no in-person credit card payment) at: Leeward Community College Cashier's Office, lower level of the Administration Building

National Service Trust/Americorp Recipients

Complete and submit your Americorp vouchers online at <https://my.americorps.gov>. The Financial Aid Office will certify your form. When payment is received, the Cashier's Office will post it to the student's account.

Army Reserve Tuition Subsidy

The 9th RSC has received approval for the Pacific Reserve Education Program (PREP). Take your approved Form DA2171 to the Cashier's Office at least 10 working days before the appropriate payment deadline. You are responsible for paying any remaining tuition and fees not covered by PREP. Contact your Army Reserve unit commander for more information.

National Guard Tuition Assistance

The Hawai'i National Guard Tuition Assistance Program is a reimbursement program. At the end of each semester, the National Guard will reimburse Guard members directly for tuition. Please contact your unit commanding officer for further information. Students are responsible for paying all tuition and fees by the appropriate payment deadline.

Third Party Sponsor Scholarship Recipients

If your tuition is being paid by a third party sponsoring agency (e.g. World Health Organization, East-West Center, Alu Like, Vocational Rehabilitation, armed forces branch, State of Hawai'i Department of Education, etc.), you are required to turn in the appropriate forms to each individual campus for which you are registering. The sponsoring agency must submit the appropriate forms to each individual campus you are registering for. Your account information will be displayed on the Review My Charges/Make an Online Payment page. You are responsible to pay the remaining tuition and/or fees by the appropriate payment receipt deadline.

If the Cashier's Office does not receive a letter of financial guarantee, purchase order or authorization letter from you at least 5 working days prior to the appropriate payment deadline, you must pay for your own tuition and fees. When the sponsor sends payment for the tuition and fees, the University will process a refund. If you have questions or want to confirm that your sponsor has met University billing requirements, please call the Cashier's Office.

If the third party sponsoring agency does not make payment for your tuition for any reason after being billed by the University, you will be responsible for paying any unpaid balances on your student account. Failure to do so will result in sanctions for outstanding financial obligations being imposed on your student account.

Loan Deferments

Submit loan deferment forms to National Student Clearinghouse at 2300 Dulles Station Blvd, Suite 300, Herndon, VA 20171 after tuition and fees are paid.

Hope Scholarship and Lifetime Learning Tax Credits

The U.S. Congress established federal tax credits for qualified college tuition and related expenses under the Taxpayer Relief Act of 1997. Information about the Hope and Lifetime Learning tax credits as well as other education related tax credits can be found at www.hawaii.edu/1098T or by contacting your tax advisor.

All students, except non-resident aliens, who attended a University of Hawai'i campus during the 2015 calendar year and were billed for qualified tuition and related expenses from January 1 to December 31, 2015, will receive a 1098-T tax form electronically. This form will reflect amounts billed (not paid) for qualified tuition and related expenses and amounts paid for scholarship and grants during the 2015 calendar year.

The 1098T form will be available no later than January 31, 2016, as required by the Internal Revenue Service (IRS). This important tax document must have your current Permanent Address. Please update your Permanent Address on file at the Admissions and Records Office by either one of the following methods:

- By mail: Send a letter of the permanent address to Admissions and Records Office, 96-045 Ala 'Ike, AD-220, Pearl City, HI 96782
- In person: Request to fill out the "Student Data Change Form."

Note: You must provide your Social Security Number to the University. The Taxpayer Relief Act of 1997 requires the University to collect and use students' Social Security Numbers or Individual Taxpayer Identification Numbers (ITINs) to report qualified tuition and related expenses billed to students and scholarship and grant payments made to students to the IRS each year. All student information is protected under the Family Educational Rights and Privacy Act (FERPA).

REFUND POLICY

Refunds will be given for withdrawal from a course, change in status, or change from one tuition rate to another tuition rate according to the timelines established below. Students completely withdrawing from their home campus must submit the Complete Withdrawal form at the Admissions & Records Office. Separate refund schedules have been developed based on the way the course is offered.

Tuition and Fees Refund Regular 16-Week Courses

In the event a student initiates before the fourth week of instruction a complete withdrawal from the College, change from full-time to part-time status, or change from one tuition rate to another, if applicable, tuition and special course fees are refunded as indicated below:

100% tuition refund for complete withdrawal if made on or before the last day of late registration. All related fees will be refunded.

100% tuition refund for change of status (partial withdrawal) or change in tuition rate if made on or before the last day of late registration. Student fees are refunded if changes are made before the first day of instruction.

50% tuition refund for complete withdrawal, change in status or change in tuition rates if made after the late registration period but on or before the end of the third week of instruction. No related fees will be refunded.

0% refund if complete withdrawal, change in status or change in tuition rate is made beginning of the fourth week of instruction.

Student Fees Refunds

100% refund of Student Activities, Health Center and Board of Student Communication fees if a complete withdrawal is made on or before the last day of late registration. All fees will be refunded if partial withdrawal or exchange in registration is made before the first day of instruction. No fees will be refunded if withdrawal or change in status is made after the first day of instruction to last day of late registration.

Payment of Refund

Students should receive a refund within four weeks following the end of the 50% refund period (beginning of the fourth week of instruction.)

Special Courses Refund

Part-of-Term Courses

Part-of-Term (modular or accelerated courses) are offered for fewer than the regular 16 weeks and begin/end at different times in the semester. For refund information or withdrawal dates of specific part-of-term courses, visit <http://www.leeward.hawaii.edu/part-of-term>

Summer Session

Refunds for Summer Session courses are determined by the elapsed instructional time as a percentage of the total instructional time for the course. For refund information or withdrawal dates of the respective summer session term, please check the schedule of courses or on the college's website.

Non-Credit Courses or Workshops

Refunds for courses and workshops offered through the Office of Continuing Education and Workforce Development will be permitted if the request is made at least five business days (Monday–Friday, excluding holidays) prior to the start of the course. Please allow 6-8 weeks for refunds.

For non-credit courses offered through the English Language Institute, students will receive 100% refund if withdrawal occurs before the start of classes. A 50% refund is available for the first three days of class. No refund thereafter.

Changes to Schedule of Courses Affecting Student's Schedule:

When changes by the College to the published Schedule of Courses precipitate a change in the student's schedule (complete withdrawal/change from full-time to part-time status), and the changes to the published schedule have occurred after the student registered, tuition and special course fees are refunded upon approval of the Dean of Arts and Sciences or the Dean of Career and Technical Education.

FINANCIAL AID

All financial aid programs are subject to change due to congressional or legislative action.

The financial aid program at Leeward Community College helps those students who can benefit from higher education but who may have difficulty attending without financial help. The financial aid program adds to the efforts of the student and the student's parents/spouse. Students may apply for financial aid at Leeward CC Financial Aid Office (AD 210), 455-0606, or through the Leeward CC financial aid website: www.leeward.hawaii.edu/finaid.

The majority of aid awarded by Leeward Community College is federal and based on demonstrated financial need. Eligibility requirements are determined by federal rules and include the following:

Applicant must

- be a U.S. citizen or an eligible non-citizen (permanent resident)
- be enrolled in a degree granting program (classified student)
- be making satisfactory academic progress toward a degree
- not be in default on a loan or owe a refund on a federal grant
- have demonstrated financial need
- have obtained a high school diploma or recognized equivalent
- be registered with Selective Service, if required

Specific programs may have additional requirements. Students who have earned a degree or certificate at another institution should check with the Leeward CC Financial Aid Office regarding eligibility.

Limitation

Students will be allowed an equivalent of 150% of the number of credits required for their degree. See the financial aid Satisfactory Academic Policy at <http://www.leeward.hawaii.edu/finaid-sap> for more information.

Application

By March 1 preceding the academic year for which aid is sought, each applicant must complete and submit the Free Application for Federal Student Aid (FAFSA) to Federal Student Aid Programs. The FAFSA may be obtained from high school counseling offices or the Financial Aid Office on any campus of the University of Hawai'i System. Other forms may be required depending on individual circumstances. Submission of applications by March 1 for the fall semester is recommended because funds are limited. Late applicants will be considered only if funds are available, and award notification for these applicants will be delayed.

The College reserves the right to modify aid commitments at any time due to changes in an applicant's financial or enrollment status or changes in the availability of funds.

Refunds for Financial Aid Recipients

A detailed refund policy which affects federal Title IV financial aid recipients is available at the Leeward CC Financial Aid Office. Tuition and fee refunds, calculated according to federal regulations, must be returned to federal student aid accounts and in most cases will not be returned to the student. All financial aid programs are subject to change due to legislative action.

Visit the Financial Aid website, www.leeward.hawaii.edu/finaid for more information.

Get more info on the Financial Aid Satisfactory Academic Policy at www.leeward.hawaii.edu/finaid-sap/

FINANCIAL AID PROGRAMS

All financial aid programs are subject to change due to congressional or legislative action.

SCHOLARSHIPS AND GRANTS FAFSA Required

Federal Pell Grant

A federal grant for students pursuing their first bachelor's degree. Students must demonstrate significant financial need based on the information provided on the FAFSA. Beginning Fall 2012, students are now limited to 12 full-time semesters (or 600%) of Pell Grant eligibility during their lifetime. Students may track their Pell Grant lifetime eligibility used at www.nsls.ed.gov

Federal Supplemental Education Opportunity Grant

A federal grant for students with exceptional financial need and is eligible for the Federal Pell Grant; student must not have received a Bachelor's Degree; must file a FAFSA; minimum enrollment is 6 credits. Award is for first degree student only.

Second Century Scholarship

Priority to a bonafide Hawai'i resident; must be Native Hawaiian; minimum enrollment is 6 credits; must file a FAFSA and demonstrate financial need. Award is for first degree student only.

State of Hawai'i B Plus Scholarship

For incoming students who graduated from a public Hawai'i high school after 2005 must file a FAFSA and demonstrate financial need; must be a bonafide Hawai'i resident; minimum enrollment is 6 credits at Leeward CC; must submit copy of high school transcript with a GPA of at least 3.0. Award is for first degree student only.

Leeward CC Opportunity Grant

An institutional scholarship based on financial need; minimum enrollment is 6 credits. Must file a FAFSA and demonstrate financial need. Award is for first degree student only

OTHER SCHOLARSHIPS FAFSA Not Required

Leeward CC Achievement Scholarship

Must be classified; must have a GPA of at least 2.5; must have performed at least 50 hours of school service to Leeward CC; must be recommended by a department; minimum enrollment is 6 credits at Leeward CC. Award is for first degree student only.

Leeward CC Chancellor's High School Scholarship

For students pursuing their first degree. Students must be enrolled for at least six credits, have a high school cumulative GPA of at least 3.0, and be nominated by a High School Counselor.

Leeward CC Chancellor's Merit Scholarship

For continuing Leeward CC students pursuing their first degree. Students must be enrolled for at least six credits and have a cumulative GPA of at least 3.5, however, priority will be given to students with the highest cumulative GPA.

Leeward CC International Student Scholarship

Must be classified; must have a GPA of at least 2.5 at Leeward CC; must be in a non-immigrant status; must be full-time at Leeward CC; must demonstrate international volunteer experience at Leeward CC; award is for first degree students only.

Leeward CC Pacific Islander Scholarship

Must be classified; must have a GPA of at least 2.0; must be citizens of an eligible Pacific Island; minimum enrollment is 6 credits at Leeward CC. Award is for first degree students only.

LOANS FAFSA Required

Federal Direct PLUS Loan

A federal loan for parents of dependent students; repayment begins within 60 days after loan is fully disbursed; minimum enrollment is 6 credits; requires a Federal Direct PLUS Loan Request Form in addition to the FAFSA; parents must also complete a PLUS Loan application and PLUS Master Promissory Note (MPN) at <https://studentloans.gov>

Federal Direct Subsidized Loan

A federal loan with interest subsidized while the student is in school at least half-time; repayment begins six months after the student ceases to be enrolled for at least 6 credits; requires a Federal Direct Loan Request Form in addition to the FAFSA; student must complete a loan entrance (<https://studentloans.gov>) every year before the application is processed. Effective for first-time borrowers on or after July 1, 2013, there is a time limit on the maximum period of time a student can receive Federal Direct Subsidized loans. In general, a student may not receive Direct Subsidized Loans for more than 150% of the published length of their program. Please visit <https://studentloans.gov/myDirectLoan/directSubsidizedLoanTimeLimitation.action> for more information.

Federal Direct Unsubsidized Loan

A federal loan that accrues interest that is not subsidized while the student is in school, minimum enrollment is 6 credits; requires a Federal Direct Loan Request Form in addition to the FAFSA; student must complete a loan entrance application (<https://studentloans.gov>) every year before the application is processed.

EMPLOYMENT FAFSA Required

Federal Work Study

Student receives priority for part-time on-campus employment; student must monitor earnings based on FWS award; minimum enrollment is 6 credits.

Other Leeward Scholarships

Application for other Leeward Scholarships are through <https://uhsys.scholarships.ngwebsolutions.com> when available. Awards are determined based on demonstrated financial need and specific scholarship criteria. Awards are for first degree students only who are enrolled for a minimum of at least 6 credits.

Other Resources

Information is available online at <http://www.leeward.hawaii.edu/financial-aid-scholarships>. Students can also call the Leeward CC Financial Aid Office for more information: phone 455-0606 or email at lccfao@hawaii.edu.

TRANSFER INFORMATION

Transferring from Leeward CC to University of Hawai'i Baccalaureate Universities

University of Hawai'i at Mānoa

University of Hawai'i at Hilo

University of Hawai'i – West O'ahu

Students are advised to work closely with Leeward counselors in planning their course of study and to consult the current catalog of the specific University of Hawai'i baccalaureate institution for further information. This section outlines basic information when planning to transfer to UH Mānoa, UH Hilo or UH–West O'ahu.

If the student has not completed 24 credits of college-level courses at Leeward, he or she will be subject to the same admission requirements as entering freshmen applying to UH Mānoa, UH Hilo or UH–West O'ahu.

New applicants are required to submit a transcript of satisfactory high school work and official scores of the Scholastic Assessment Test (SAT) or the American College Test (ACT) in addition to official transcripts from all post-secondary institutions previously attended.

If the applicant had previously been admitted to UH Mānoa, UH Hilo or UH–West O'ahu but elected to begin at Leeward, the student may reapply to transfer to the baccalaureate institution at any time. However, whatever admission requirements are in effect at the time of reapplication have to be met.

If the student has completed 24 credits in college-level courses with a cumulative GPR of 2.0 or higher as a resident applicant (or 2.5 GPR or higher as a non-resident applicant for UH Mānoa), she or he could be admitted to the UH baccalaureate institution as a transfer student even if previously denied admission as a freshman applicant.

Automatic Admissions

Students graduating from any of the University of Hawai'i's seven community colleges with an AA degree or selected AS degrees will be notified that they may be eligible for automatic admission to UH Mānoa, Hilo, or West O'ahu.

Under automatic admission, the application fee is waived, priority registration provided and student transcripts analyzed to help identify likely majors. Qualified students will receive an email notice during a pre-determined specified two-week period during the semester that they are considered eligible for automatic admissions. Students must respond to this offer in order to take advantage of this opportunity.

Submit Official Transcripts from All Colleges

Any Leeward student transferring to a UH System baccalaureate institution after attending another college or university must submit transcripts from each college.

Transcripts of work completed at Leeward Community College, may be viewed by the student's home campus electronically. The student should check with the Admissions and Records Office at their home campus for evaluation and transfer procedures. The credits and grades earned will be evaluated by the UH System baccalaureate institution to determine eligibility for transfer.

General Definition of Transferable Courses

Courses acceptable for transfer to UH System baccalaureate institutions are generally those numbered 100 and above. Some Leeward courses numbered 1-99 (primarily skill and occupational courses) may be accepted at Mānoa for credit toward certain degrees, such as the Bachelor of Education in Industrial Arts Education. Although transfer credit may be granted for a course, it does not necessarily mean that the course will satisfy the curricular requirements of a particular college or degree program.

D Grades When Transferring

Currently, UH Mānoa, Hilo, or West O‘ahu allow transfer credit for a course in which a grade of D was earned at Leeward; however, the course may be unacceptable toward fulfilling the course requirements for a particular major or degree.

Leeward courses in which a grade of W, Q, N, NC, F, or I have been earned are not acceptable for credit at Mānoa and UH Hilo.

Number of Credits that May Transfer

Currently, Mānoa and UH Hilo do not impose a limit on the number of credits in courses numbered 100 or higher which may be transferred from a UH community college.

However, Mānoa accepts no more than 60 credits in transfer from junior or community colleges outside the University of Hawai‘i system.

Any student intending to complete more than 60 credits at Leeward should work out his or her course of study very carefully with Mānoa and Leeward CC counselors, taking into consideration any relevant policy changes, the specific curricular requirements of the college in which he or she wishes to enroll, the courses required for the major field of study, and the minimum residency requirement at Mānoa.

Credit/No Credit Option

At UH System baccalaureate institutions, only elective courses may be completed on a “credit/no credit” basis. This option is not allowed for any course taken to fulfill a University, college, school, or department non-elective requirement, with the exception of those courses offered for mandatory credit/no credit. Students planning to transfer must be aware of this policy.

Transfer of Grade Point Average

Leeward students transferring to UH System baccalaureate institutions do not receive grade point credit for courses completed at the community college. Although the grade point average is not transferred, it is considered for admission purposes by the various university programs.

Admission Policies of the UH System 4-Year Colleges

Each UH System baccalaureate institution is made up of several colleges and schools which grant undergraduate degrees, and which may have additional prerequisites and requirements for admissions.

In addition to the policies outlined above for general admissions, the student transferring from a community college is subject to the admission requirements of the particular major, college, or school in which he or she wishes to enroll.

The various colleges and schools offering baccalaureate degrees at UH Mānoa include:

- Arts and Sciences
- Business Administration
- Education
- Engineering
- Medicine, Nursing & Dental Hygiene
- Tropical Agriculture and Human Resources
- School of Architecture
- School of Hawaiian Knowledge
- School of Pacific and Asian Studies
- School of Ocean and Earth Science and Technology
- Travel Industry Management

The various colleges and schools offering degrees at UH Hilo include:

- Agriculture, Forestry and Natural Resource Management
- Arts and Sciences
- Business Administration and Economics
- Ka Haka 'Ula O Ke'elikōlani
- Pharmacy
- School of Nursing
- School of Education

Any student wishing to be a candidate for a degree from a UH System baccalaureate institutions must specify the major/college in which she or he wishes to enroll when she or he applies for general admission to the University. Some majors (e.g., UHM business administration, education, and social work) require junior standing as one requirement for admission. Some programs (e.g., UHH Nursing, Pharmacy) require prerequisite courses and separate applications.

The Associate in Arts Degree and UH General Education Core Requirements Articulation with UH Campuses

Students who have earned an articulated Associate in Arts (AA) degree from a University of Hawai'i Community College shall be accepted as having fulfilled the general education core requirements at all other University of Hawai'i campuses.

While an articulated AA degree satisfies general education core requirements, students must also complete all specialized lower-division, major, college and degree/graduation requirements. Additional campus-specific requirements, such as competency in a foreign language or writing intensive courses, may also be required. With planning, most of these requirements may be incorporated into the Associate in Arts degree; if not, they are required in addition to the AA degree.

Each University of Hawai'i baccalaureate institution is made up of several colleges and schools which grant undergraduate degrees. Although there is a "core" of general education required of every student

regardless of the college in which they enroll, each college or major may modify the “core” to meet the educational needs of their particular students.

UHWO Specifics

Contact UHWO’s Student Services Office for any additional information.

Admission Requirements

Students who have graduated with an Associate in Arts (AA) degree from a University of Hawai’i community college with a grade point average of 2.0 or higher are eligible for transfer. Students with an AA degree in liberal arts will be accepted as having completed all general education requirements. However, the number of credits applicable towards the Bachelor of Arts degree will be determined by an evaluation of the courses completed for the AA degree.

Minimum Number of Credits Numbered 300 and Above

The minimum requirement for a Bachelor’s degree is 120 credits of acceptable college-level work. Of these 120 credits, the maximum number of credits from community college courses applicable to this requirement is 66. A minimum of 54 must be earned in upper-division courses (300 and 400 series). At least 30 credits must be earned in courses taken at UHWO.

Choosing and Preparing for a Major

In four-year college and university programs, a student takes most of the required courses for her or his major in the junior and senior years. The first two years are spent primarily in completing the general education requirements for that college and taking any freshman and sophomore courses that may be required to prepare students for advanced work in the major.

Which college or school a student will enroll in is determined by the student’s choice of major. Because most students have not chosen a major before entering college, the broad term “liberal arts” is used for most transfer students rather than classifying them as pre-psychology, pre-engineering, pre-education, etc. However, every student will be required to designate a more specific major during or prior to the junior year.

As the choice of major depends upon the type of career for which the student is preparing, students who have not yet determined their career goals are urged to consult with a counselor during their first semester. Early identification of career goals and major will enable the student to avoid taking courses which do not meet the general education or other requirements of the chosen major.

Students are strongly advised to consult with an advisor about the requirements of the campus and the program to which they plan to transfer.

Some of the more popular transfer programs at UH Mānoa:

- | | |
|-----------------------|----------------------------|
| Business | Nursing |
| Computer Science | Physical Therapy |
| Education | Health-Related professions |
| Engineering | Social Work |
| Environmental Studies | Psychology |
| Marine Science | |

Some of the more popular transfer programs at UH Hilo:

Business Administration
Computer Science
Environmental Science
Hawaiian Studies
Marine Science
Nursing
Psychology
Sociology

Some of the more popular transfer programs at UH–West O‘ahu:

Anthropology
Applied Forensic Anthropology
Business Administration
Education
Hawaiian-Pacific Studies
Psychology
Public Administration
Sociology

College catalogs are published once per year and do not always reflect the most recent campus actions involving core courses.

For the most recent information concerning core courses, students should check with their advisors.

Transferring from Leeward CC to Institutions outside the UH System

Students planning to transfer to a college other than UHM, UHH or UHWO are urged to write for the necessary college catalogs and to consult a counselor early in their college career so that a planned program can be arranged to meet the general education and admissions requirements of the college to which they plan to transfer.

It is the student's responsibility to obtain catalogs from any college or university being considered for transfer. These catalogs are essential to proper planning. Most of this information is available on the Internet and accessible through the College's subscription to CollegeSource Online. For access, please visit the Library's website www.leeward.hawaii.edu/lib

Transfer Information for Science, Technology, Engineering & Math (STEM) Students

The following list shows many of the four-year STEM degrees available at UH Mānoa for which Leeward's Associate in Science-Natural Sciences degree will be an appropriate first two years of study.

College of Natural Sciences

Biochemistry
Biology
Botany
Chemistry
Computer Science
Marine Biology
Mathematics
Microbiology
Physics
Zoology

College of Engineering

Civil Engineering
Computer Engineering
Electrical Engineering
Mechanical Engineering

School of Ocean and Earth Science and Technology

Geology
Geology and Geophysics
Global Environmental Science
Atmospheric Sciences

College of Tropical Agriculture and Human Resources

Animal Sciences
Biological Engineering
Natural Resources and Environmental Management: Development and Policy
Natural Resources and Environmental Management: Management and Conservation
Plant and Environmental Protection Sciences
Tropical Plant and Soil Sciences: Environmental Soil Sciences
Tropical Plant and Soil Sciences: Genetics and Physiology
Tropical Plant and Soil Sciences: Plant Production and Management
Tropical Plant and Soil Sciences: Tropical Landscape Horticulture

Transfer Information for Business Students

Leeward's Accounting and Business Technology programs have transfer agreements with both UH–West O'ahu and Hawai'i Pacific University. The Academic Subject Certificate in Business is highly recommended for transfer to UH Mānoa's College of Business Administration. Contact the Business Division office at 455-0344 more detailed information.

Transfer Information for Education Students

Leeward's Education program has transfer agreements with UH Mānoa, UH–West O'ahu, Chaminade University, and the University of Phoenix. Contact the Education office at 455-0392 more detailed information.

ACADEMIC INFORMATION

Course-Load Limitations

No student may register for more than 18 credits in a given semester except:

1. A student who needs no more than one additional course to complete a degree or certificate and who has a cumulative GPA of 3.0 or higher may be granted an exception by a counselor.
2. A student registering for a package program which contains more than 17 credits may register for the full package.

Exceptions may be granted by the Dean of Student Services in highly unusual circumstances.

International student

A student on an F-1 visa is required by the Immigration and Naturalization Service to carry a minimum of 12 credits (in a credit program) or 18 hours a week of classroom instruction in a non-credit program, and must complete the program of study according to the period specified on the I-20 form.

Attendance

Students are expected to be in attendance regularly and on time for all classes, quizzes, examinations, laboratory and fieldwork sessions of the courses for which they are registered. Anticipated (as well as unexpected) absences should be discussed with the instructor. The instructor is concerned about the student but it is the student's responsibility for arranging make-up work with the instructor.

Auditing Courses

Students are permitted to audit classes with the written approval of the instructor. The student shall process and file appropriate forms with the Leeward CC Admissions and Records Office during the Late Registration period only. Although no credits are earned for courses audited, regular tuition and fees must be paid by auditors. The instructor will determine the extent of classroom participation required of the auditor. Auditors are not usually allowed in laboratory science, vocational/technical, mathematics, elementary and intermediate languages, English composition, speech or classes in which the auditor might take the place of credit students.

Withdrawal from a Course

Students must initiate the process of withdrawing from a course; an instructor cannot drop a student from a course. To withdraw from a course, students must enter their MyUH account to drop the course and pay any applicable fees. If you are also enrolled in courses at other UH campuses, drop those courses using your MyUH account.

Drop deadlines for courses enrolled in from other campuses may differ from Leeward CC deadlines. Students should check with the Admissions and Records Office of the campus offering the course.

Deadlines for refunds, the erase period and withdrawal from semester-long courses are published in the schedule of courses and at the College's website. Selected dates are also published in the Academic Calendar in the Catalog. A student who does not attend class and does not officially withdraw from the class may receive the grade of "F" for the class.

Erase Period

The first three weeks of the semester (or its equivalent as determined by the appropriate academic Dean for shorter courses) is called the “erase period”. Students who officially withdraw from a course during this period will have no grade or record of the course on their permanent academic record.

Withdrawal from a Course after the Erase Period

Students who withdraw from individual courses after the erase period but before the withdrawal deadline will receive a “W” grade for those courses. The withdrawal deadline is the end of the tenth week of classes for semester-long courses (and an equivalent period for shorter courses as determined by the appropriate academic Dean).

Complete Withdrawal from the College

A student must withdraw completely from college via their STAR GPS account. Students who withdraw from college after the erase period will receive the grade of “W” for all classes which have not been completed at the time of withdrawal.

Failure to Withdraw from a Course

Only the student may initiate withdrawal from a course; an instructor cannot drop a student from a course. However, a student who does not meet the prerequisite(s) for a course in which the student is registered may be requested to drop the course. Students who do not complete a course and/or fail to withdraw from the course will receive a grade of “F” in accordance with the College’s and instructor’s grading policy.

Student Classification

Classified Students: Students following a prescribed program leading to a degree or certificate.

Unclassified Students: Students who are not pursuing a degree or certificate.

Full-time Students: Students who carry 12 or more credits.

Part-time Students: Students who carry fewer than 12 credits.

GRADES

Letter grades are given in all courses. Grades signify the various levels of achievement in carrying out the performance objectives of the course. Students will be informed of these criteria by the instructor who may use such methods as written papers, participation in class discussion, performance on assigned projects, and mid-term and final examinations. A grade change may be made within two years of the semester the course was completed. No grade changes beyond the two year limit.

| Grade | Grade Points | Definition |
|-------|--------------|--|
| A | 4.0 | Excellent achievement |
| B | 3.0 | Above-average achievement |
| C | 2.0 | Average achievement |
| D | 1.0 | Minimal passing achievement |
| F | 0 | Less than minimal passing achievement (0 grade points and 0 credits awarded. Course computed in GPA) |
| CR | 0 | Credit awarded (No grade points assigned and not computed in GPA) |
| NC | 0 | No credit given and no grade points earned and not computed in GPA |
| CE | 0 | Credit-by-Institutional Examination. Credit awarded for passing the examination with a "C" grade or higher (No grade points assigned and no credits computed in GPA) |
| PBA | 0 | Credit awarded via Portfolio-Based Assessment |
| W | 0 | Withdrawal from the course (No grade points assigned and no credits computed in GPA) |
| N | 0 | No grade assigned (No grade points assigned and no credits computed in GPA) |
| I | 0 | Incomplete coursework |
| L | 0 | Course was audited |
| P | 0 | Credit awarded |
| NP | 0 | No credit given |

"I" is used to indicate that the student has yet to complete a small but important part of the work for the course. It is given at the instructor's option. Work must be made up by the end of the 10th week of the following semester. "I" reverts to a "contingency" grade assigned at the time of final evaluation. Grade may not revert to a "W." An "I" grade, regardless of the contingency grade assigned, is considered non-completion of a course.

"CR" is used to indicate passing with a "C" or higher for courses taken under the Credit/No Credit option. It is also used to indicate credit for equivalency exams (e.g., AP, CLEP) and non-collegiate sponsored education

“NC” is used to indicate not passing with a “C” or higher grade for courses taken under the Credit/No Credit option.

“W” is used to indicate formal withdrawal from a course after the first three weeks of the semester (or its equivalent in a shorter term course).

“L” is used to indicate that the course was audited by the student. No credit is given and no grade points are earned. The instructor will determine the extent of classroom participation required of the auditor.

“P” is used to indicate passing with a “C” or higher for courses taken under the Pass/No Pass option.

“NP” is used to indicate not passing with a “C” or higher for courses taken under the Pass/No Pass option.

Credit/No Credit Option

Students who wish to enroll in a class on a Credit/No Credit basis (rather than a letter grade) must declare this intent during registration but no later than the last day to withdraw.

- Students enrolled in a Certificate program may not use the CR/NC option to meet program requirements.
- Students in the Associate in Arts program may use the option for elective courses only.
- Students in the Associate in Science or Associate in Applied Science program may use the option only for electives that fall outside the major field of study (e.g. Arts and Humanities or Natural Science electives taken by a Business Technology major).
- No more than 12 credits may be taken on a CR/NC basis for any degree program.
- To earn a CR, students must pass the course with a grade of “C” or higher.

However, students should be aware that some colleges, graduate and professional schools, employers, and some scholarship and fellowship awarding agencies may not recognize this option or may recalculate the “CR” as a “C” grade and the “NC” as an “F” grade. For example, UH Mānoa limits the CR/NC option to elective courses only; this option may not be used to meet any requirement for a Mānoa degree (with the exception of those courses offered for mandatory CR/NC). Therefore, it is imperative that students who select this option exercise careful educational planning. If in doubt, take a course for a regular letter grade and not for CR/NC.

The CR/NC option should not be confused with the CR grade awarded for transfer of equivalency exams, non-collegiate sponsored education credits, and back-language credits. These credits may be applicable to core/program requirements, while the CR/NC option is limited to elective courses only.

Grade Point Average

Grade point average (GPA) is a system used to evaluate the overall scholastic performance of college students. The GPA of a student is computed by dividing the total number of his/her grade points by the total number of course credits for which the student received the grades of A, B, C, D, or F.

The grade points a student earns for a course are computed by multiplying the number of credits that the course is worth by the grade points assigned to the grade that the student receives for the course (i.e., 4 for A, 3 for B, 2 for C, 1 for D, and 0 for F). Courses for which the grades of CR, NC, CE, W, N, I, and L have been recorded are not included in the computation of the GPA. Effective Spring 2009, the N grade will be an option in a limited number of courses.

Grade Point Average When Courses Are Repeated

For repeated courses taken during or after Fall 1997, only the grade for the most recent repeat of the course shall be used to determining the Grade Point Average. Only the course grades of A, B, C, D, or F shall be used for this purpose. Courses that may be repeated for credit are not included in this policy.

Students who intend to transfer are reminded that many colleges and universities do not permit the substitution of the most recent grades when computing grade point ratios and will compute the grade point ratio according to their own standards.

Manual recomputation of GPA for certain purposes when courses have been repeated

The GPA will not be recomputed for any course repeated exclusively before Fall 1997. However, the GPA for students with such courses will be manually recomputed as necessary for the following designated purposes:

1. determining eligibility for degrees or certificates the Dean's List
2. outstanding scholar recognitions at graduation
3. election to honor societies or organizations
4. other special purposes as designated by the Dean of Student Services.

These manually-computed GPAs will not be indicated on official transcripts.

Grade Reports

Grades are posted in each student's MyUH account at the end of each term. Grades for Summer (both Session I and Session II) are posted at the end of the second Summer session. Students are responsible for reporting errors to the Records Office within seven days.

DEVELOPMENTAL EDUCATION

Developmental courses help students attain basic and fundamental skills in reading, writing and mathematics, and related study skills so that they can increase their chances of success in college-level courses. Leeward CC also offers developmental courses in English as a second language (ESL) for academic purposes. Developmental courses do not apply toward an associate degree or technical certificate.

English and mathematics course placement is based on a variety of assessments, such as high school GPA, ACT or SAT scores, Smarter Balance Assessment scores, or alternative placement tests. You may place at the college level in one area(s) and at the developmental level in the other area(s). If your skills are below the levels required for successful performance in a college-credit program, you will be required to enroll in developmental English and/or mathematics courses at the beginning of your enrollment and continue to enroll in them each term until you have completed your required courses. Developmental education counselors are available to assist students who have transferred from another college campus or who have unique placement situations.

Developmental Mathematics

Leeward Community College has streamlined its developmental math sequence to align with the UHCC System Strategic Initiative. The following chart illustrates the sequence tracks of developmental math courses that lead to technical or transfer-level courses that fulfill program or core requirements.

Tiana Loo, Math & Sciences, Dev Ed Counselor
 Office MS 204, Phone 455-0430
 tiana.loo@hawaii.edu

Diagram of course sequence is online: <http://www.leeward.hawaii.edu/placement-testing>

| A grade of C or better (or CR) in one of these courses within the past two years | | Qualifies a student for one of these Leeward CC Courses |
|--|----------------------------------|--|
| at Leeward CC: | at another UH Community College: | |
| MATH 75 | MATH 22 MATH 24 MATH 75x | MATH 100 (FS, FQ) MATH 100C (FS) MATH 111 MATH 115 (FS, FQ) QM 107C |
| MATH 82 | MATH 25 MATH 26 MATH 82x | MATH 100 (FS, FQ) MATH 100C (FS) MATH 103 (FS, FQ) MATH 111 MATH 115 (FS, FQ) QM 107C |

Please note that prerequisite courses and placement test scores for sequential math courses are automatically recognized for two years. Courses or scores older than two years will be considered on a case-by-case basis by the Dean of Arts and Sciences, Math & Science Division Chair, or course instructor. In some cases it may be necessary for a student to take a placement test to re-establish the appropriate course level.

A student who took a course in the prior Leeward Community College sequence, or from another University of Hawai'i Community College, (within the past two years) can use the following table as a guideline to determine an appropriate course to take in the current sequence:

Developmental English

Diagram of course sequence is online: <http://www.leeward.hawaii.edu/placement-testing>

Accelerated developmental English courses at Leeward Community College gives students the opportunity to learn and gain integrated reading and writing skills necessary for college-level English 100 in one year or less. All developmental English courses are taught in-class and are offered in the day and evening to foster student engagement and academic support.

All new students will be assessed for their readiness for college level English. Students will be placed into one of the following courses: ENG 24, ENG 100/ENG 22 (ALP), or ENG 100.

The accelerated course options include:

1. ENG 24, "Reading, Reasoning, and Writing" After passing ENG 24 with a C or higher, students can advance to ENG 100.
2. ENG 22 and ENG 100 paired. The Accelerated Learning Program (ALP), pairs two writing courses, in which the first class hour focuses on ENG 100, college-level composition, and the second hour practices ENG 22 writing skills.

Nicole Keim-Fortuno. Language Arts, Dev Ed Counselor
Office LA 202, Phone 455-0432
keim@hawaii.edu

ACADEMIC HONORS

Dean's List

The purpose of the Dean's List is to recognize students who maintain outstanding academic records at Leeward Community College. It is compiled for each Fall and Spring semester. Only credits and grades earned for Leeward Community College courses will be used in determining Dean's List eligibility.

A student will be named to the Dean's List if all of the following requirements are met:

1. Has a cumulative grade point ratio of 3.8 or higher (on a 4.0 scale) for all coursework numbered 100 or above completed at Leeward CC.
2. Has successfully completed a minimum of 24 credits of coursework for letter grade ("A"- "D" only) at Leeward CC, exclusive of courses numbered below 100 in English, ESL, Mathematics, Reading and Learning Skills, with a cumulative grade point ratio of 3.8 or higher for those 24 credits of coursework. For non-vocational students, below 100 level courses will not count towards the minimum 24 credits.
3. Has been assigned the grade of "W," "N" or "NC" for no more than a total of four courses at Leeward CC, regardless of whether those courses are numbered below or above 100 and regardless of whether any of those courses were repeated.
4. Has successfully completed at least 6 credits numbered 100 or above for letter grade with a current grade point ratio of 3.0 or higher during the semester for which the student qualified to be named to the Dean's List.
5. When an "I" (incomplete) grade is assigned to a student at the end of the semester, the "contingency" grade submitted by the instructor will be used to determine eligibility for the Dean's List.

In determining a student's eligibility for the Dean's List, or whether the student meets the requirements above, any course repeated by the student shall be counted only up to the maximum number of credits that the applicable course description in the Leeward CC Catalog specifies that the course may be repeated for credit.

If a course description in the Catalog states that a course may be repeated for additional credit but fails to specify the maximum number of credits for which the course may be repeated, the course shall be treated as if it may be repeated only once for additional credit.

If a course description in the Catalog does not state that a course may be repeated for additional credit, the course, if repeated, shall be counted only once for purposes of this policy and only in terms of the grade and credits earned the first time it was successfully completed.

In all cases where a student has repeated a course in excess of the maximum number of times or the maximum number of credits allowed or specified by the applicable course description in the Catalog, that course (for purposes of determining eligibility to the Dean's List) shall be counted in the order it was repeated successfully but only up to the maximum number of times or the maximum number of credits for which the course could have been validly repeated for credit.

A student must qualify for the semester's Dean's List based on the student's total academic or transcript record to date at Leeward CC, including the student's semester grades for that particular semester as submitted to the Admissions and Records Office by the applicable end-of-semester deadline for the submission of semester grades. A student will not be named retroactively to the Dean's List based on any change of grade submitted after the applicable end-of-semester deadline.

Students named to the Dean's List will be informed in writing by the Office of the Vice-Chancellor. If a student believes that he/she should have been named to the Dean's List but was not, the student is encouraged to make a timely inquiry to the Dean of Student Services or designee.

Honors Program

To graduate with academic honors, students must first apply and be accepted into Leeward's Honors Program. This program is open to all qualified students in all degree and certificate programs at Leeward CC. Students who graduate with academic honors will have this designation inscribed on their diplomas or certificates, as well as in their transcripts. Additionally, Honors students have the right to wear the Honors hood at commencement and are recognized for their accomplishments during the ceremony.

To graduate with academic honors, students must be accepted into the Leeward CC Honors Program, must meet all degree requirements, take one Honors colloquium, and graduate with a 3.5 or higher cumulative grade point average.

Entrance requirements at the time of application are:

- Completed at least 12 college-level credits (i.e., courses numbered 100-level and higher) from Leeward CC
- A 3.5 cumulative GPA or higher at Leeward CC
- A completed Honors Application
- A completed Faculty Recommendation Form from a previous instructor
- A PDF copy of your MyUH transcript emailed to Michael Oishi at mtoishi@hawaii.edu

For more information and to apply online go to: <https://goo.gl/jRHtpm>

You may also contact the Leeward CC Honors Program Coordinators, P. Jayne Bopp (pbopp@hawaii.edu; FA-224; 455-0368) or Michael Oishi (mtoishi@hawaii.edu; FA-117; 455-0628).

Phi Beta Lambda

Phi Beta Lambda is a professional business association serving postsecondary students nationwide and abroad and helps future business leaders convert their ambitions and abilities into financial success and professional recognition. Leeward's chapter, Eta Beta Epsilon, is one of more than 7,000 chartered chapters of Future Business Leaders of America/Phi Beta Lambda (FBLA/PBL) throughout the United States, Puerto Rico, the Virgin Islands and Europe.

Organizational goals include:

- promoting competent, aggressive business leadership
- understanding American business enterprise
- establishing career goals
- encouraging scholarship and promoting school loyalty
- promoting sound financial management
- developing character and self-confidence
- facilitating the transition from school to work

Advisors are Doug Choy and Warren Kawano.

Phi Theta Kappa National Honor Society

Phi Theta Kappa is an international honor society founded in 1918 for outstanding community, technical, and junior college students. Leeward CC's chapter, Alpha Lambda Gamma, is one of over 1,000 chapters in the United States, Canada, and abroad.

PTK members have opportunities to:

- meet and socialize with interesting people outside of the classroom setting
- be recognized for their academic achievements at various campus activities and functions during the year and at the commencement ceremony
- be automatically entered into the Phi Theta Kappa Transfer Database and invited to submit their names to the National Dean's List and other such directories of the nation's top students
- have points added to scholarships and grant applications just for being a member or officer take advantage of the scholarships and tuition waivers designated only for members.

To be eligible for membership in Alpha Lambda Gamma, a student must:

1. have a cumulative 3.50 GPA at Leeward CC, based on at least 12 credits in 100-level or higher courses and less than 15% "W" grades
2. be enrolled at Leeward CC in at least one for-credit course during the semester of his/her induction into the chapter
3. adhere to the college's conduct code and possess recognized qualities of citizenship.

Those who do not meet all these membership requirements (such as recent high school graduates or transfer students) may still join the Society as provisional members. Once inducted, members must maintain a cumulative GPA of not less than 3.25 while enrolled at Leeward CC.

At the beginning of the fall and spring semesters, eligible students are mailed an invitation to join Alpha Lambda Gamma. Those interested in joining the Society may also contact its Lead Advisor, Michael Bauer, GT 207, telephone 455-0310.

Repetition of Courses

No student may attempt the same course more than two times without special approval. The third or any subsequent attempt of the same course requires the approval of the Dean of Student Services or designee. Withdrawal from a course after the erase period will count as an attempt of the course.

This policy does not apply to:

1. Courses which are identified in the Leeward CC Catalog as repeatable for additional credit. These courses may be repeated up to the maximum number specified.
2. Courses taken during Summer Session.

If a course is repeated, both the earlier and the subsequent grades earned shall remain on the student's transcript. In doing a graduation check for an Leeward CC degree or certificate, credit will be allowed only once for a course repeated unless the Catalog course description for that course specifically states that it may be repeated for additional credit(s). If a course description in the Catalog states that a course may be repeated for additional credit but fails to specify the maximum number of credits for which the course may be repeated, the course shall be treated as if it may be repeated only once for additional credit, with the exception of the following music courses:

| | |
|----------|-----------------------------|
| MUS 103 | Guitar Ensemble I |
| MUS 104 | Beginning Jazz Ensemble |
| MUS 112 | Hawaiian Ensemble I |
| MUS 113 | Hawaiian Ensemble II |
| MUS 114 | College Chorus |
| MUS 201 | Vocal Ensemble |
| MUS 203D | Keyboard Ensemble |
| MUS 203G | Guitar Ensemble II |
| MUS 221C | Intermediate Piano Class I |
| MUS 221B | Advanced Voice Class |
| MUS 221H | Classic Guitar III |
| MUS 222C | Intermediate Piano Class II |
| MUS 232 | Applied Music |

Students who intend to transfer are reminded that many colleges and universities do not permit the substitution of the most recent grades when computing grade point ratios and will compute the grade point ratio according to their own standards.

Prior Learning Assessment (PLA) program

Leeward's Prior Learning Assessment (PLA) Program (also known as College Credit Equivalency Program) provides alternate opportunities to obtain credits. Detailed guidelines and procedures are outlined in College's Manual of Policies and Procedures of the Prior Learning Assessment (PLA) Program, revised February 2017, at Leeward Community College, available for reference use through counselors, the Dean of Arts & Sciences, the Dean of Career & Technical Education, Dean of Student Services or Division Chairs. Leeward Community College believes there are many ways to demonstrate the learning outcomes and competencies found in traditional classroom course offerings; therefore, the college provides a number of options to earn college credit through previous college and non-college courses, equivalency and standardized exam scores, and skills gained from life experiences. This allows students to spend their time and money on the new subjects they need and want to take.

Credit-by-Institutional Exam

With instructor approval, currently enrolled students may take instructor-made examinations covering the material in a specific Leeward CC course if the student feels he/she has learned the concepts and skills elsewhere. Students may contact instructors teaching the specific course they wish to challenge.

To receive credit, a student must successfully pass the challenge examination at the "C" grade level or higher. A grade of "CE" is recorded on the student's transcript to indicate credit earned through credit-by-institutional exam. Students will be assessed tuition in accordance with the College's tuition schedule for credits earned.

Credits Earned at Foreign Colleges and Universities

Credits earned in institutions of higher education in foreign countries may be transferred to Leeward CC in some cases. Official transcripts of all post-secondary work completed at foreign, non-U.S. institutions must be sent by each institution attended directly to the Leeward CC Admissions and Records Office for evaluation. If such transcripts and related documents are written in a foreign language, certified English translations must be attached. It is highly recommended that you request course descriptions along with the request for your academic transcript.

College Transfer Credit

Courses completed at other accredited colleges and universities with a grade of "D" or better may be transferable toward a Leeward CC degree. Some programs may require a grade of "C" or better.

Equivalency exams, non-collegiate sponsored education credit, and back-language credit with a "CR" grade may be applicable to Leeward degrees or certificates.

Upper division courses (numbered 300 or higher under the UH System's course numbering system) may be applied to not more than 20% of the Leeward CC's degree or certificate.

The transcript evaluation is applicable only to the designated Leeward degree/certificate. It is not necessarily binding on other colleges to which the student may subsequently transfer.

Students are responsible for:

1. requesting that colleges previously attended send official transcripts directly to the Admissions and Records at Leeward CC; and
2. completing a Transcript Evaluation Request Form at the Admissions and Records Office or the Counseling and Advising Office. This form must be completed and returned to the Leeward CC Admissions and Records Office. The student must be enrolled in at least one credit in the UH system and Leeward CC must be the home campus before transcripts will be evaluated.

For other policies on the awarding of transfer credits, see the earlier section under Admissions Information relating to students transferring to Leeward CC from colleges or universities not part of the UH System.

Equivalency Examinations

Leeward CC awards college credit, which may be applied as applicable to Leeward degrees or certificates, for acceptable scores earned on two nation-wide examination programs administered by the College Entrance Examination Board of The College Board with the assistance of the Educational Testing Service:

1. College-Level Examination Program (CLEP)
2. Advanced Placement (AP) Examinations
3. DSST (formerly DAN TES)

Starting with exams taken from July 2001, students no longer need to take the former General Exams prior to completing 24 semester hours of college level work (prior to July 2001, to qualify for credit, the CLEP general examinations had to be taken before the student had completed 24 semester hours of college level coursework in courses numbered 100 or higher under the University of Hawai'i System's course numbering system). Credit is not awarded for the General Examination in English Composition with or without essay.

Copies of the Leeward CC CLEP policy (including acceptable minimum scores, course equivalencies for the CLEP Subject Examinations and other related information) are available at the College's Admissions and Records Office and the Counseling Office.

Leeward CC awards college credit, placement into courses or programs, and/or waivers without credit for acceptable scores earned on the Advanced Placement Examinations in accordance with the AP policy and criteria adopted by the University of Hawai'i at Mānoa, subject to such revisions as may be adopted in the future by UH Mānoa and as may be adapted by Leeward CC.

Copies of the Leeward CC AP policy (including acceptable scores for course credit, waivers, and/or placement) are available at the College's Admissions and Records Office and the Counseling Office.

Portfolio-Based Assessment

Other learning experiences (such as unique kinds of employment or projects) may be granted Leeward CC credit if the learning can be verified and documented at college level, and the competency can be documented. The determination will be made by select faculty. A class is required to learn how to provide college-level evidence in a portfolio. There is also a fee, which must be paid at the time of registering for the class, for the portfolio to be assessed by a Review Committee.

Non-collegiate-Sponsored Education Credit

Formal courses completed in non-collegiate settings may be equivalent to college credit in some instances. Such courses may be sponsored by the military, businesses, industry, social and community agencies, labor unions, etc. National and local guidebooks are used in this evaluation process, including the American Council on Education's Guide to the Evaluation of Educational Experiences in the Armed Services and Credit Recommendations for Noncollegiate Courses; the Hawai'i Guide to Crediting Noncollegiate-Sponsored Learning; and other similar recommendations from other states.

Restrictions/Limitations:

1. A maximum of 21 nontraditional credits ("Portfolio-Based Assessment" and "non-collegiate sponsored education credit") can be applied toward a major/core Leeward CC degree or certificate. The maximum of 21 credits does not include credit earned through credit-by-institutional examination or independent study. Nontraditional credits may not be used to meet any part of the 12-credit residency requirement for a Leeward CC degree.
2. For credit to be awarded under Leeward CC's College Credit Equivalency Program, the desired credits must, as a general rule, be substantially comparable in content and level or equivalent to any existing course(s) offered at Leeward CC.

The UH Community Colleges and UH West O'ahu Agreement on Prior Learning Credits

In 1998, the UH Community Colleges (UHCCs) and UH-West O'ahu (UHWO) developed an agreement on the acceptance and transfer of credit for prior learning. Prior learning refers to college-level learning (knowledge, skills, and competencies in both theory and application) which may have been acquired outside the traditional classroom. If such prior learning is adequately demonstrated and documented and is equatable to a college course applicable to a degree sought by the student, college credit may be awarded.

Under the agreement, prior learning may be demonstrated through (1) portfolio assessment or (2) challenge exams or credit-by-institutional examination.

Among the UHCCs, the agreement applies to the Associate in Arts (AA) and the Associate in Science (AS) degrees. Between the UHCCs and UHWO, the agreement applies to the A.A. degree and select AS degrees (as defined by separate formal agreements) offered by the UHCCs as preparation for transfer to UHWO. Within UHWO, the agreement applies to the baccalaureate degree.

Procedures and handbooks to implement the agreement are being finalized. For additional information, contact the Academic Advising Coordinator in the Leeward CC Counseling Office.

COURSE OFFERINGS

ABOUT COURSES

Prerequisites

Prerequisites have been established to promote student readiness and success in individual courses, and/or in degree and certificate programs. Prerequisites generally represent the minimum level of competency in the basic skills of reading, writing, and mathematics. Prerequisites have also been established within a course sequence. For example, Psychology 100 is a prerequisite for an advanced course in psychology.

Prerequisites are stated in this way: (Name of course) with a grade of C or better or equivalent. The “or equivalent” refers to either an established test score on the applicable placement test, an equivalent course taken at another campus or, in some cases, the equivalent non-credit course offered at Leeward CC. Some prerequisite statements may include “or consent of instructor.” This applies to those instances when a student may have met the prerequisite through means other than course work. For example, a student may meet a prerequisite for a music class by having taken private lessons outside of college. In this case, the instructor’s consent would allow the student to enroll in the course.

Students will not be allowed to take a course for which they have not met the prerequisites. Students who preregister for a course but fail to meet the prerequisites prior to the beginning of the course will be required to drop the course or may be administratively disenrolled. As applicable, tuition refunds may be requested.

Individual course prerequisites are stated in the respective course descriptions in the Catalog. For program prerequisites, see the degrees and certificates section of the Catalog.

Assessment Notification

With the goal of continuing to improve the quality of educational services offered to students, Leeward CC conducts assessments of student achievement of course, program, and institutional learning outcomes. Student work is used anonymously as the basis of these assessments, and the work students do in Leeward courses may be used in these assessment efforts.

Course Descriptions

ACCOUNTING (ACC)

ACC 124 Principles of Accounting I (3)

Introduces basic accounting principles and practices for service and/or merchandising types of businesses. Areas include: accounting as an information system, the accounting cycle, financial statements, internal control, current and/or long-term assets, current liabilities and payroll. Special emphasis will be placed upon the practical application of accounting principles. (45 lecture hours)

Prerequisite: ENG 19 with C or better or equivalent, or placement in ENG 22 .

Recommended Prep: BUSN 188 or concurrent enrollment

ACC 125 Principles of Accounting II (3)

Continues the study of financial accounting procedures. Areas include: long-term assets, long-term liabilities, accounting for corporations and/or partnerships. The statement of cash flows and financial statement analysis may be covered. (45 lecture hours)

Prerequisite: ACC 124 with a grade of C or better or equivalent or instructor approval.

ACC 132 Payroll and Hawai'i General Excise Tax (3)

Introduces principles, manual and computerized procedures, and terminology for business applications of payroll accounting. Includes preparation and filing of federal and Hawai'i state forms for payroll taxes and the Hawai'i General Excise and Use Tax.

Prerequisite: ACC 120, ACC 124, or ACC 201 with a grade of C or better or equivalent.

Recommended Prep: ENG 22, or ENG 24.

ACC 134 Individual Income Tax Preparation (3)

Introduces the preparation of federal and state of Hawai'i individual income tax returns with an emphasis on tax law and regulations and their application to the tax returns. This course is intended for an individual preparing basic tax returns under the supervision of an accounting professional.

Prerequisites: ENG 22 or ENG 24 or equivalent with a grade of C or better, or qualification for ENG 100 or ESL 100 or equivalent, or successful completion of ESOL 94F or ESOL 94S, or consent of instructor.

Recommended Prep: Completion of ICS 100 or ICS 101 or BUSN 150 or BUS 101 or concurrent.

ACC 137 Business Income Tax Preparation (3)

Introduces Federal and Hawai'i tax laws and regulations and basic return preparation for business entities. This course is intended for an individual preparing basic tax returns under the supervision of an accounting professional.

Prerequisite: ACC 134 with a grade of C or better, or equivalent, or instructor approval.

Recommended Prep: Completion of ICS 100 or ICS 101 or BUSN 150 or BUS 101 or concurrent.

ACC 201 Introduction to Financial Accounting (3)

An introduction to accounting principles and practices used to record and communicate financial information. Analyze methods for valuating assets, liabilities, and equity of an organization. Areas include: Accounting as an information system, the accounting cycle, revenue and expense recognition, accounting for merchandising operations, financial statements including cash flow, internal control, current assets, current and long-term liabilities, payroll, long-term assets, and corporate equity.

Prerequisite: Placement into ENG 100 or equivalent, or instructor approval

Recommended Prep: BUSN 188.

ACC 202 Introduction to Managerial Accounting (3)

An introduction to managerial accounting methods for evaluating performance including cost accounting, budgeting, break-even analysis, ratio analysis, standard cost systems, and reporting for internal decision making. The course also covers capital budgeting and incremental analysis. Requirement for the Accounting AS program; elective for the Liberal Arts AA program.

Prerequisite: ACC 201 with a grade of C or higher, or both ACC 124 with a grade of C or higher and ACC 125 with a grade of C or higher, or instructor approval.

ACC 252 Using QuickBooks® in Accounting (3)

Provides "hands-on" approach to computerized accounting using QuickBooks®. Applies previously acquired accounting skills and knowledge in a computerized environment to set up and maintain accounting records. Emphasis will be placed on the application of QuickBooks® to the accounting cycle. (Formerly ACC 150 at Leeward CC)

Prerequisite: C or better in ACC 120, ACC 124, or ACC 201; and credit or concurrent enrollment in BUS 101 or BUSN 150 or ICS 100 or ICS 101; or consent of instructor.

ACC 255 Using Excel® in Accounting (3)

Provides "hands-on" training in the use of spreadsheets on computers to solve accounting problems. Applies previously acquired accounting skills and knowledge. Emphasizes financial and managerial accounting. (Formerly ACC 155 at Leeward CC)

Prerequisite: Credit or concurrent enrollment in ACC 126 or ACC 202; and BUS 101, BUSN 150, ICS 100 or ICS 101 or equivalent, or consent of instructor.

AGRICULTURE (AG)

AG 100 Orientation to Hawai'i's Agriculture Industry (1)

This course familiarizes students with different agricultural operations/systems in Hawai'i through lectures, research, student presentations, guest speakers and/or field trips. (Formerly PBT 100)

AG 104 Food Safety & Post-Harvest Handling (1)

This course examines food safety requirements for farms and explores and evaluates post-harvest handling of products including vegetables, fruits, meats, and flowers. Students will also identify and evaluate standard wholesale and retail packaging for various farm products and review worker protection standards.

Recommended Prep: BUS 101, ICS 101

AG 112 Introduction to Organic Agriculture (4)

This course is an introduction to natural resource sustainability in agriculture. Basic principles of soil science, plant culture, and pest management are explained and organic farming techniques are practiced. The societal, and environmental, reasons for engaging in organic agriculture are explored. The goal of this course is to increase understanding of organic farming and to introduce sustainable agriculture practices that can be applied in Hawai'i.

Prerequisites: ENG 22 or ENG 24 with a grade of C or better or equivalent; and CR in MATH 22 or higher.

AG 122 Soil Technology (3)

Studies identification, preparation, and fertilization of soils. Discusses soil formation, soil classification, soil reaction, soil and water relationships, soil protection and irrigation practices. Emphasizes sustainable management systems. (Formerly PBT 122)

Recommended Prep: ENG 24, MATH 82

AG 141 Integrated Pest Management (3)

This course includes an introduction to the principles involved in the control of plant pests including diseases, insects, mites, nematodes, and weeds. Various methods of controlling pests, including the correct method of selecting and applying pesticides will be covered. Integrated Pest Management will be incorporated into the course. (Formerly PBT 141)

Recommended Prep: CHEM 151, CHEM 151L

AG 170 Introduction to Commercial Aquaponics (3)

Companion course to AG 170L Introduction to Commercial Aquaponics Laboratory. The course will provide students with an understanding of the major biological concepts using an aquaponics system as a model ecosystem. Additionally, the course will provide an overview of standard operating procedures of large scale aquaponics systems in relation to food safety and production. (Formerly AG 197)

Corequisite: AG 170L.

Recommended Prep: ENG 22, ENG 24 or ENG 24C.

AG 170L Introduction to Commercial Aquaponics Laboratory (1)

Companion course to AG 170 Applied Aquaponics. The course will provide students with a hands-on application of the major biological concepts using an aquaponics system as a model ecosystem. Additionally, the course will follow standard operating procedures of large scale aquaponics systems in relation to food safety and production. (Formerly AG 197L)

Corequisite: AG 170

Recommended Prep: ENG 22, ENG 24 or ENG 24C.

AG 200 Principles of Horticulture (3)

Introduces plant anatomy and physiology. Discusses plant nutrients, moisture, environmental requirements and plant propagation. Studies culture and production techniques for selected ornamental crops. (Formerly PBT 200)

Prerequisite: AG 200L with a grade of C or better or concurrent registration or consent of instructor

Recommended Prep: BIOL 101, BIOL 101L, BOT 101, BOT 101L, BIOL 171, BIOL 171L

AG 200L Principles of Horticulture Lab (1)

Cultivation of selected economic crops using seed to seed model in student gardens or greenhouse. Perform field and laboratory tests involving plant, soil and seeds. (Formerly PBT 200L)

Prerequisite: AG 200 with a grade of C or better or concurrent registration or consent of instructor

Recommended Prep: BIOL 101, BIOL 101L, BOT 101, BOT 101L, BIOL 171, BIOL 171L

AG 210 Introduction to Environmental Science (3)

Analysis of the environment with emphasis on understanding relationships and interactions of physical, biological, technological, and political components using scientific methods of inquiry. Food supply and safety, water quality, pollution control, biodiversity, environmental policy. (Formerly PBT 210)

Recommended Prep: BOT 130, HORT 110

AG 251 Sustainable Crop Production (4)

Introduces production methods for selected crops including propagation planting, fertilization, irrigation, pest control, harvesting, and marketing. Evaluates conventional and alternative methods of production and analyzes effects of these practices. Examines economic and social impacts. (Formerly PBT 251)

Recommended Prep: AG 200, AG 200L, ENG 24, ENG 100

AG 260 Tropical Landscape (4)

Introduces students to the elements of landscape design, planning, and plan implementation. The areas covered include design principles, functional aesthetics, reading and development of landscape plans, and cost estimates. (Formerly PBT 250)

Recommended Prep: AG 200, BOT 130, ENG 24

AG 264 Plant Propagation (3)

Theoretical and applied aspects of sexual and asexual reproduction of plants. Propagation of selected plants by seed, cuttings, grafting, layering, and micropropagation/tissue culture. (Formerly PBT 264)

Recommended Prep: CHEM 151, CHEM 151L, AG 200, AG 200L

AG 269 Ornamental Plant Materials (3)

Identify major ornamental plants used in Hawaii's landscapes, including trees, shrubs, vines, ground covers, flowers, house plants and natives. Properly select ornamental plants for landscape according to their habits and growing requirements. (Formerly PBT 269)

Recommended Prep: AG 200

AG 271 Introduction to Crop Improvement (3)

This course includes the fundamentals of genetic theory. Biotechnological procedures in insect and plant pathogen control and also plant and animal breeding are used as practical applications. (Formerly PBT 275)

Recommended Prep: AG 200, AG 200L

AG 293V Plant Biology & Tropical Agriculture Internship (1-4)

The course provides supervised experiential-learning with an employer. The nature of the job or project is variable but will be designed to provide opportunity for workplace experience. Maximum credit for internships may not exceed 4 hours in an agricultural enterprise. The number of credits earned depends upon the number of hours spent on the job or project during the semester. AG 293V for one credit and requires 60 to 119 hours of work; AG 293V for two credits and requires 120 to 179 hours of work; AG 293V for three credits and requires 180 to 239 hours of work; AG 293V for four credits and requires 240 or more hours of work. Students can take another AG 293V class in a subsequent semester; however, the total number of credits in AG 293V are limited to four credits. (Formerly PBT 290V)

*Prerequisite: Completed at least 6 credits of 200 level AG courses with a C or better or consent of instructor
Rec Prep: AG 210, AG 269, AG 264, AG 251, AG 271, AG 260*

AMERICAN STUDIES (AMST)

AMST 201 The American Experience: Institutions and Movements (3)

Interdisciplinary course that examines diversity and changes in American values and institutions—political, economic, legal, and social.

Recommended Prep: ENG 22 with a grade of C or better or equivalent.

AMST 202 The American Experience: Culture and the Arts (3)

Interdisciplinary course that examines diversity and changes in American values and institutions - literature, film, visual arts, and architecture.

Recommended Prep: ENG 22 with a grade of C or better or equivalent.

AMST 211 Contemporary American Domestic Issues (3)

Interdisciplinary exploration of such current American domestic issues topics as politics, economics, civil rights, family life, the justice system, and the environment.

Recommended Prep: ENG 22 with a grade of C or better or equivalent.

AMST 212 Contemporary American Global Issues (3)

Interdisciplinary exploration of such current global issues as international diplomacy, economic development, national security, demographic change, and the environmental protection.

Recommended Prep: ENG 22 with a grade of C or better or equivalent.

ANTHROPOLOGY (ANTH)

ANTH 150 Human Adaptations (3)

ANTH 150 is meant to introduce students to general anthropology and is primarily designed for non-majors. It introduces students to theories and methods in the four fields of anthropology and to major concepts such as the scientific method, human evolution and cultural development, and biological and cultural diversity. The course is sequenced so that the student will learn the evolution theory, basic concepts in genetics, and general knowledge of primates earlier in the course. Then the student will study the fossil record and the interaction between human biological evolution and cultural evolution. Later in the course the student will learn the anthropological account of cultural similarities and diversity. This course is not designed to lead to a future course.

Prerequisite: ENG 24 with a grade of C or better or equivalent

ANTH 151 Emerging Humanity (3)

Introduction to human biological evolution and the archaeology of culture in the world prior to 1500 CE.

Prerequisite: ENG 22 or ENG 24, with a grade of C or better, or equivalent.

ANTH 152 Culture and Humanity (3)

ANTH 152 is an anthropological examination of the development of cultures in the post-1500 world. We will study the impact of globalization on some cultural traditions in different regions, including Africa, the Americas, Asia, Europe, and Oceania. The emphasis is on a multicultural and global perspective of cultural diversity and change.

Prerequisites: ENG 22 or ENG 24 with a grade of C or better, or equivalent.

ANTH 200 Cultural Anthropology (3)

ANTH 200 is a survey course of cultural anthropology designed to provide the student with an understanding of the concept of culture, the principles of field methodology, cultural diversity, some of the factors underlying this diversity and the universal aspects of culture. ANTH 200 aims at assisting the student to view objectively his/her own as well as other cultures. Additional topics include: history and theory of cultural anthropology, culture and personality, processes of cultural change, and applied anthropology.

Prerequisite: ENG 24 with a grade of C or better or equivalent

ANTH 215 Biological Anthropology (3)

An introduction to the methodology and principles of biological anthropology. Topics covered include human evolution, primatology, human genetics, biological variation, human adaptability, growth and development. Offered once a year. Must be taken concurrently with ANTH 215L.

Offered fall semester only.

Corequisite: Concurrent enrollment in ANTH 215L.

Prerequisite: ENG 24 with a grade of C or better or equivalent, or qualified for ENG 100.

ANTH 215L Biological Anthropology Lab (1)

This lab course is designed to accompany ANTH 215 Biological Anthropology. Concurrent registration is required. The course provides additional experience and laboratory exercises in human and population genetics, human osteology, human variability, forensic anthropology, primatology, and paleoanthropology.

Prerequisite: ENG 24, with a grade of C or better or equivalent, or qualified for ENG 100

Corequisite: Concurrent enrollment in ANTH 215.

ART (ART)

ART 101 Introduction to the Visual Arts (3)

This course is a general introduction to the visual arts including media, techniques, and history. It is designed to offer an appreciation of the creative processes involved in the visual arts. This course reviews two- and three-dimensional art forms, methods and media; examines the visual elements and principal of design; and surveys art styles from the prehistoric to the 20th Century. It is oriented to students who have not been exposed to the formal study of these disciplines.

Prerequisite: ENG 22 or ENG 24 with a grade of CR or placement in ENG 100 or equivalent.

ART 104 Introduction to Printmaking (3)

An introductory printmaking course that is designed for studio experience. This course deals with projects as well as written exams that allows students to demonstrate an understanding of the multiple facets of printmaking. Hands on experience in screen- printing, monotype, intaglio, and relief printmaking will be covered.

ART 104D Introduction to Printmaking: Screenprinting (3)

Basic screen printing techniques for fabric and paper. Construction of screens, stencil making and printing will be covered in lectures and demonstrations. Supplies are to be provided by the student.

Recommended Prep: Art 101.

ART 105B Introduction to Ceramics (Handbuilding) (3)

Studio experience in ceramic hand building techniques. Course includes both lectures and projects.

ART 105C Introduction to Ceramics (Wheel Throwing) (3)

Studio experience in ceramic wheel throwing techniques. Course includes both lectures and projects.

Recommended Prep: Art 105B.

ART 107D Introduction to Digital Photography (3)

This course is an introduction to digital photography. Students will learn basic camera techniques and how to process their images in digital format. This course will provide the student with basic aesthetic principles as well as an extensive range of practical photographic techniques needed for entry into the photographic workplace and/or for artistic expression. It provides experience in traditional and contemporary photographic techniques for art, multimedia, and television.

Prerequisites: ENG 22 or ENG 24 with a grade of C or better or equivalent, or placement in ENG 100 , or consent of the instructor.

Recommended Prep: ART 112.

ART 112 Intro to Digital Arts (3)

Introduction to digital technology and its applications to the production of visual art. Emphasis is on the relationship between art, design, and technology. Students develop the capacity for critical thinking and problem solving through project based learning.

Prerequisite: ENG 22 or ENG 24 with a grade of CR or instructor consent.

Rec Prep: ICS 100, BUS 101

ART 113 Introduction to Drawing (3)

This beginning drawing course introduces general drawing and compositional principles. Elements of design will be addressed in depth and a variety of materials and techniques will be used. No prior experience required.

Rec Prep: ART 101

ART 113D Introduction to Computer Drawing (3)

This course is an introductory course for students who are interested in developing communication skills in the area of two-dimensional drawing as it relates to computer based imaging. Fundamental drawing concepts, creative problem solving techniques and basic design principles will be covered. Material covered in this course may be useful to any area of study where visual enhancement may apply. This includes ICS and business.

Recommended Prep: ICS 100.

ART 115 Introduction to Design (3)

A foundation course in the two-dimensional design aspect of the visual arts. The emphasis is on basic concepts, elements and principles of organization as well as their application and manipulation on problem solving situations.

Recommended Prep: ART 101.

ART 115D Digital Design (3)

A foundation course for students who are interested in developing communication skills in the area of two-dimensional design as it relates to computer based imaging. Fundamental design concepts, creative problem solving techniques and design principles and elements will be covered.

Recommended Prep: ART 112 and ART 113D with a grade of C or better, equivalent or instructor's approval.

ART 116 Introduction to Three-Dimensional Composition (3)

A beginning sculpture course which covers techniques, materials and concepts of form/space relation and three-dimensional design through a variety of projects such as clay modeling, carving, construction and metal casting. Supplies are provided by students. (Formerly ART 106)

ART 123 Introduction to Painting (3)

Introduction to the theory and practice of painting. Instruction on the use of painting materials and techniques. This course will cover art historical movements and show parallels in contemporary art practices as well. Designed to serve art majors and non-art majors.

Prerequisite: ART 113 with a grade of C or better or consent of instructor.

Rec Prep: ART 101

ART 156 Digital Painting (3)

ART 156 is an introduction to the use of the computer as a painting tool. Studio experience will explore digital painting techniques as used for personal expression, production design, concept art, matte painting, and texture mapping. Emphasis will also be placed on developing an aesthetic criteria for evaluation.

Prerequisite: ART 112 with a grade of C or better or consent of instructor.

ART 166 Digital Printmaking (3)

Art 166 focuses on the creation of visual images that combine the use of computer design and digital-printmaking. All facets of digital printmaking, starting with the essentials of good scanning, Photoshop techniques for image refinement, and options for output involving paper and ink combinations will be covered.

Prerequisite: ART 112 with a grade of C or better or consent of instructor.

Recommended Prep: ART 113D.

ART 175 Survey of Global Art I (3)

This course is an introduction to the major developments in Global Art from prehistory to 1500.

ART 176 Survey of Global Art II (3)

This course will examine artistic production of major societies from 1500 to the present.

ART 202 Digital Imaging (3)

Studio experience in digital imaging concepts and techniques including image capture, manipulation and output using Adobe Photoshop.

Prerequisite: ART 112 or permission of the instructor.

ART 207D Intermediate Digital Photography

This course is an intermediate level digital photography course intended for students who are serious photographers or who intend to pursue a career involving digital photography. The course will cover photography history, theory and aesthetics more comprehensively than the introductory level ART 107D. It will develop composition skills as well as emphasize current trends in advanced, professional level digital photography techniques. It will provide a foundation for digital photography for students who wish to pursue it or related fields such as art, multimedia and television production.

Prerequisite: Grade of B or better in Art 107D Digital Photography or equivalent based on portfolio review and interview by the instructor. Students must have basic digital photography technical and theoretical skills gained from Art 107D or its equivalent.

Recommended Prep: Art 112

ART 213 Intermediate Drawing (3)

A continuation and development of skills and ideas introduced in ART 113. Contemporary concepts and techniques will be explored and applied. Students will engage in art historical discourse and theory.

Prerequisite: ART 113 with a grade of C or better or consent of instructor.

Rec Prep: ART 101

ART 214 Introduction to Life Drawing (3)

ART 214 is an investigation of the figure concerning anatomical construction, light, space, diagrammatic analysis, and thematic content through the process of drawing.

Prerequisite: ART 113 or permission of the instructor.

Recommended Prep: ART 101 and ART 213.

ART 221 Design for Print and Web (3)

Introduction to the development principles related to graphic design terminology, tools and media, and layout design concepts. Emphasis on typesetting and composing for print and web products. (A student cannot earn credit for both DMED 113 and ART 221.)

Prerequisites: ART 112 with a grade of C or better, or consent of instructor.

Recommended Prep: ART 113D

ART 223 Intermediate Painting (3)

ART 223 is an extension of the observational foundation established in Art 123 (Introduction to Painting) to address contemporary, conceptual and expressive approaches to painting. Oil painting will be the primary medium used in this course. Students will further develop their knowledge of mediums and substrates. May be repeated once for additional credit.

Prerequisite: ART 123 with a grade of C or better or consent of instructor.

Recommended Prep: ART 101

ART 229 Interface Design I (3)

ART 229 Interface Design I provides a foundation of interface design skills, techniques, and principles necessary to design visually effective, user-friendly web sites. Through lessons, demonstrations, and hands-on projects, this course explores how the fundamental elements and principles of graphic design are applied through the design process for creating interactive interfaces. Students go through the analysis, information architecture, conceptual planning, and visual layout designing stages of the web design process and document their findings through client documentation and presentations. (A student cannot earn credit for both DMED 121 and ART 229.)

Prerequisite: ART 112 with a grade of C or better or equivalent or consent of instructor.

Rec Prep: DMED 120

ART 243 Intermediate Ceramics, Hand Building (3)

Sculptural and vessel concepts in clay using hand-building techniques, emphasizing the development of constructive skills and an understanding of form, surface, and firing possibilities. Repeatable.

Prerequisite: ART 105B or equivalent experience and consent of instructor.

ART 244 Intermediate Ceramics, Wheel Throwing II (3)

Vessel and sculptural concepts in clay using wheel-throwing techniques, emphasizing the development of construction skills and an understanding of form, surface, and firing possibilities. Repeatable.

Prerequisite: ART 105C or consent of instructor.

ART 249 Interface Design II (3)

ART 249 integrates the foundation level visual interface design skills introduced in ART 229 with the technical interface programming skills introduced in DMED 120. Students go through the full creative design process for interaction design of analyzing, planning, designing, coding, testing, and launching a custom designed web standard compliant HTML/CSS static web site for a proposed client. Students document their findings through client documentation and defend their design decisions via presentations and critiques. (A student cannot earn credit for both DMED 220 and ART 249.)

Prerequisites: DMED 120 and ART 229 with a grade of C or better, or consent of instructor.

ART 277D Studio Photography (3)

The course is a survey of studio and available light photography. Students will learn professional-level lighting techniques using continuous lights, strobe and flash for studio and available lighting situations. Students will learn lighting methods for various subjects, aesthetic principles concerning light, and technical processes for digital photography.

Prerequisites: Grade of C or better in ART 112 and ART 107D, or with instructor's approval.

Recommended Prep: ART 207D

ART 290 The Arts of Africa, Native Americas, and the Pacific (3)

Art 290 focuses on formal and contextual study of art from selected areas in Africa, the Pacific, and Native Americas.

Prerequisite: ART 176 with a C or higher, or equivalent, or consent of instructor.

ASIAN STUDIES (ASAN)

ASAN 203 Philippine Culture: A Survey of Philippine Cultural History (3)

A study of the history, politics, society, culture and art forms of the Philippines from pre-history to the present. Selected topics are approached through the integrated use of the art forms, e.g., music, literature, theater arts, etc., as ways of experiencing and understanding cultural and political issues.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent.

ASAN 204 Filipinos in the United States: The History and Culture of Filipinos in the U.S. (3)

A study of the history of the Filipino as traveler and immigrant; historical and contemporary experiences in the U.S.; ethnic identity as expressed and represented in their cultural practices and art forms.

Prerequisite: ENG 24 or equivalent with a grade of C or better.

Recommended Prep: ENG 22 with a grade of C or better.

ASAN 205 Contemporary Philippine Issues (3)

This course is a critical study of contemporary Philippine social, cultural, economic and political issues and how they relate to current global affairs. Selected topics are approached through the integrated use of the humanities (history and art forms), ethnic studies, social and behavioral sciences, and technology.

Prerequisite: ENG 100 with a grade of C or better or equivalent.

ASTRONOMY (ASTR)

ASTR 110 Survey of Astronomy (3)

This course is a description of the nature of the astronomical universe for science and non-science majors, with emphasis on scientific method and development of scientific thought. Course offers a descriptive treatment of planets, the solar system, stars and galaxies and also discusses concepts of size, distance and time in the observable universe.

Prerequisite: MATH 22 and ENG 22 or ENG 24 with a grade of C or better or equivalent or instructor approval.

Recommended Prep: PHYS 100B

AUTOMOTIVE TECHNOLOGY (AMT)

AMT 20 Introduction to Automotive Mechanics (2)

An introductory course to the automotive service/repair industry and Standard Operating Procedures (SOP) for the AMT program. Principles of system operation, equipment usage, and safety practices are applied to preventive maintenance, inspection and service. Students participating in the AMT program are required to have a valid driver's license. Verification of its validity will be made during class; anyone without a current driver's license will be disenrolled. A tool set as listed by Leeward CC's AMT program must be purchased within the first three weeks of class.

Prerequisite: MATH 100 or QM 107C with a grade of C or better or equivalent or concurrent enrollment.

AMT 30 Engines (7)

Covers the theory of design and operation of internal combustion engines in current production automobiles. The course provides training in repair, overhaul, reconditioning, and troubleshooting of internal components and related subsystems. Students participating in the AMT program are required to have a valid driver's license. Verification of its validity will be made during class; anyone without a current driver's license will be disenrolled. A tool set as listed by Leeward CC's AMT program is required.

Prerequisite: AMT 20, AMT 40, AMT 53 with a grade of C or better and ENG 100 with a grade of C or better or equivalent or concurrent enrollment.

AMT 40 Electrical/Electronic Systems I (6)

Explains the concepts and theories of automotive electrical/electronic devices and circuits. Areas of study include: starting, charging, ignition, fuel, lighting, and accessories. Emphasis is placed on the application of principles to evaluate components based on measurements obtained from specialized equipment. Students participating in the AMT program are required to have a valid driver's license. Verification of its validity will be made during class; anyone without a current driver's license will be disenrolled. A tool set as listed by Leeward CC's AMT program is required. (60 lecture; 90 lab hours)

Prerequisites: AMT 20 with a grade of C or better or concurrent enrollment. MATH 100 or equivalent or higher with a grade of C or better or concurrent enrollment.

AMT 40D Engine Performance (9)

Examines the operation and relationships of engine, ignition, air/fuel induction, emission, and computerized control systems. Diagnostic procedures are covered using test equipment. These include distributor testers, oscilloscopes, gas analyzers, scan tools, and specialized meters. Students participating in the AMT program are required to have a valid driver's license. Verification of its validity will be made during class; anyone without a current driver's license will be disenrolled. A tool set as listed by Leeward CC's AMT program is required.

Prerequisite: AMT 20, AMT 30, AMT 40, AMT 41, AMT 46, AMT 50, AMT 53, AMT 55 with a grade of C or better. Social Science 100 level and Arts & Humanities 100 level course with a grade of C or better or concurrent enrollment.

AMT 41 Electrical/Electronic Systems II (3)

An advanced course in problem diagnosis and trouble-shooting of semi-conductor components and related circuits. This course provides explanations of operating parameters for electronic sensors, actuators, control modules, and automotive on-board computers.

Prerequisite: AMT 20, AMT 30, AMT 40, AMT 53, and AMT 55 with a grade of C or better. AMT 46 and AMT 50 with a grade of C or better or concurrent enrollment. MATH 100 or QM 107C with a grade of C or better or equivalent or concurrent enrollment. Natural Science 100 level or higher with a grade of C or better or concurrent enrollment.

AMT 43 Heating & Air Conditioning and Ventilation (3)

Covers the theory, diagnostic, service, and repair practices of automotive air conditioning and climate control systems. Presented in the course are the operation and function of vacuum, electrical, refrigeration circuits, and computer controls. Training is provided in the use of manifold gauges, leak detectors and recovery/charging systems.

Prerequisite: AMT 20, AMT 30, AMT 40, AMT 41, AMT 46, AMT 53, and AMT 55 with a grade of C or better. MATH 100 or QM 107C with a grade of C or better or equivalent or concurrent enrollment. Social Science 100 level and Arts & Humanities 100 level course with a grade of C or better or concurrent enrollment.

AMT 46 Manual Drive-Train and Transaxles (3)

Examines the purpose, operation, diagnosis, and repair of drive train components in automobiles. Various designs of manual transmissions, transaxles, differentials, and transfer cases are covered. Students participating in the AMT program are required to have a valid driver's license. Verification of its validity will be made during class; anyone without a current driver's license will be disenrolled. A tool set as listed by Leeward CC's AMT program is required.

Prerequisite: AMT 20, AMT 30, AMT 40, AMT 53, and AMT 55 with a grade of C or better. MATH 100 or QM 107C with a grade of C or better or equivalent or concurrent enrollment. Natural Science 100 level or higher with a grade of C or better or concurrent enrollment.

AMT 50 Automatic Transmissions and Transaxles (6)

Explains the fundamental principles of automatic transmission design and operation found on Front Wheel Drive (FWD) and Rear Wheel Drive (RWD) automobiles. Service, repair, and overhaul procedures are included for a variety of import and domestic automatic transmissions. Students participating in the AMT program are required to have a valid driver's license. Verification of its validity will be made during class; anyone without a current driver's license will be disenrolled. A tool set as listed by Leeward CC's AMT program is required.

Prerequisite: AMT 20, AMT 30, AMT 40, AMT 53, and AMT 55 with a grade of C or better. AMT 46 with a grade of C or better or concurrent registration. MATH 100 or QM 107C with a grade of C or better or equivalent or concurrent enrollment. Natural Science 100 level or higher with a grade of C or better or concurrent enrollment.

AMT 53 Brakes (4)

Explains design requirements and reconditioning practices of automotive brakes. Various mechanical, hydraulic, vacuum, and electrical/electronic principles are applied to troubleshooting, servicing and repairing of drums, discs, power assist units, parking, and Anti-lock Braking Systems (ABS). Students participating in the AMT program are required to have a valid driver's license. Verification of its validity will be made during class; anyone without a current driver's license will be disenrolled. A tool set as listed by Leeward CC's AMT program is required.

Prerequisite: AMT 20 and AMT 40 with a grade of C or better or concurrent registration. MATH 100 or QM 107C with a grade of C or better or equivalent or concurrent enrollment.

AMT 55 Suspension and Steering (5)

Explains the theory and practical application of the operation, problem diagnosis, maintenance and repair of the modern suspension and steering systems to include: front wheel drive steering and suspension systems; rear wheel drive steering and suspension systems; four wheel drive steering and suspension systems; and all wheel drive steering and suspension systems. Wheel alignment and tire servicing for all systems are also covered. Students participating in the AMT program are required to have a valid driver's license. Verification of its validity will be made during class; anyone without a current driver's license will be disenrolled. A tool set as listed by Leeward CC's AMT program is required.

Prerequisite: AMT 20, AMT 40 and AMT 53 with a grade of C or better. AMT 30 with a grade of C or better or concurrent enrollment. ENG 100 with a grade of C or better or equivalent or concurrent enrollment.

AMT 93D Cooperative Education (3)

This cooperative training experience will provide students an opportunity to apply their professional and technical skills in dealership service centers. Students will be supervised on the job by a professional Journeyman Technician. Students will complete 225 hours per training experience. This course may be repeated up to four times, for a maximum of 15 credits.

Prerequisite: AMT 20, AMT 40 and AMT 33 with a grade of C or better.

BIOCHEMISTRY (BIOC)

BIOC 141 Fundamentals of Biochemistry (3)

Biological chemistry focusing on the integration of concepts from general, inorganic, and biochemistry and their application to living systems. Satisfies the one-semester chemistry requirement for pre-nursing and pre-dental hygiene majors.

Prerequisite: MATH 82 or higher.

BIOC 142 Elements of Biochemistry (3)

Second semester of a two semester course sequence covering the fundamentals of general, inorganic, organic and biochemistry. Biochemical principles and concepts as applied to living systems, including sufficient organic chemistry to understand the relationship between structure and properties. Topics include the structural theory of organic chemistry, nomenclature, and properties of the major bio-organic families; enzymology; and the metabolism of the major classes of biochemical compounds. Intended for students entering into a BSN program. (formerly BIOC 251)

Prerequisite: BIOC 141, CHEM 100, CHEM 151 or CHEM 161 with a grade of C or better.

BIOLOGY (BIOL)

BIOL 100 Human Biology (3)

Designed for the non-biologist who wishes to learn more about the fundamental biological concepts, with emphasis on humans and the human body. Topics covered will include the structure and functions of cells, tissues, organs, and organ systems of the human body, which will be related to physical fitness, nutrition, health, disease and genetics. Evolution of humans and their role in the biosphere will also be covered. Not intended for science majors.

Prerequisite: ENG 22 or ENG 24 with a C or better or equivalent.

BIOL 101 Biology and Society (3)

Companion course to BIOL 101L Biology for Non-Majors Laboratory. The course will provide students not majoring in any of the natural sciences with an understanding of the major concepts in the following biological disciplines: cell structure and function, genetics, evolutionary theory, plant and animal structure and function, ecology and animal behavior. Additionally, it provides non-science majors with an understanding of the scientific approach to problem solving and the increasing role biology has in daily life.

Prerequisite: ENG 24 with a grade of C or better or equivalent and BIOL 101L with a grade of C or better or concurrent registration or equivalent

BIOL 101L Biology for Non-Majors Laboratory (1)

Companion laboratory to BIOL 101 Biology for Non-Majors. The laboratory and field activities in BIOL 101L provide students not majoring in any of the natural sciences with an understanding of the major concepts in the following biological disciplines: cell structure and function, genetics, evolutionary theory, plant and animal structure and function, ecology and animal behavior. Additionally, it provides non-science majors with an understanding of the scientific approach to problem solving and the increasing role biology has in daily life. Laboratory attendance is required.

Prerequisite: ENG 22 or ENG 24, with a grade of C or better or equivalent
Corequisite: BIOL 101

BIOL 124 Environment and Ecology (3)

Working from a general background in biology, the course examines the many interrelationships among organisms and their environment with an emphasis on the impact which our species has had (and may yet have) on the total planet. Problems of pollution, overpopulation, depletion of resources, etc. are considered. Causes of ecological problems and alternatives to current actions by people are suggested and evaluated, stressing the ecological action of the individual. Emphasis is placed on problems relating to island ecology and Hawai'i in particular.

Prerequisite: ENG 24 with grade of C or better or equivalent.

BIOL 124L Environment and Ecology Lab (1)

This laboratory course is an extension of the lecture course, Environment and Ecology (BIOL 124). It is designed to introduce students to the basic field techniques used in environmental and ecological studies applying the principles learned in BIOL 124. Occasional field trips. It may be taken either concurrently or separately after completion of the BIOL 124.

Prerequisite: BIOL 124 (or concurrent)

BIOL 130 Anatomy and Physiology (4)

BIOL 130 focuses on the structure and function of the human body which includes a study of its gross anatomy, microanatomy, physiology, pathology, and pathophysiology.

Prerequisite: ENG 24, or equivalent, or consent of instructor.
Recommended Prep: CHEM 100 or higher or biochemistry course; or college level of biology or zoology course.

BIOL 130L Anatomy and Physiology Lab (1)

BIOL 130 L focuses on gross and microscopic anatomy of the human body with special emphasis upon the skeleton, muscles, heart and blood vessels, and the nervous system.

Prerequisite: Credit or concurrent enrollment in BIOL 130.

BIOL 171 Introduction to Biology I (3)

Introductory biology for all life science majors. Cell structure and chemistry, growth, reproduction, genetics, evolution, viruses, bacteria, and simple eukaryotes.

Prerequisite: CHEM 151 or 151B (or concurrent); or CHEM 161 or CHEM 161 and CHEM 161L (or concurrent); or equivalent or consent of the instructor.

Corequisite: BIOL 171L.

Recommended Prep: High school level biology course.

BIOL 171L Introduction to Biology I Lab (1)

Laboratory to accompany BIOL 171.

Prerequisite: CHEM 151 or 151B (or concurrent); or CHEM 161 (or concurrent); or equivalent or consent of the instructor.

Corequisite: BIOL 171.

Recommended Prep: High school level biology course.

BIOL 172 Introduction to Biology II (3)

Continuation of BIOL 171. Anatomy, physiology, and systematics of plants and animals; behavior; ecosystems, populations, and communities.

Prerequisite: BIOL 171 and BIOL 171L with grade of C or better or equivalent.

Corequisite: BIOL 172L

BIOL 172L Introduction to Biology II Lab (1)

This laboratory course is an extension of the lecture course, Introduction to Biology II (BIOL 172). It is designed to introduce students to the basic lab techniques used in biology research applying the principles learned in BIOL 172. Occasional field trips.

Prerequisite: BIOL 171 and BIOL 171L with grade of C or better or equivalent.

Corequisite: BIOL 172.

BIOL 200 Coral Reefs (3)

Companion course to BIOL 200L Coral Reefs Laboratory. The course is an introduction to the biology, ecology and geology of coral reefs. Topics include the physical and chemical properties of coral reef habitats, reef geology, the physiology, anatomy, ecology and evolution of coral reef organisms, and the management of human impacts on coral reefs. Emphasis will be on Hawai'i's coral reefs, but comparisons will be made among reefs from other areas. Class meets for 3 hours of lecture per week.

Prerequisite: ENG 24 with a grade of C or better or equivalent, or qualified for ENG 100.

Corequisite: BIOL 200L

BIOL 200L Coral Reefs Laboratory (1)

Companion laboratory to BIOL 200 Coral Reefs. The laboratory and field activities in BIOL 200L provide an introduction to the biology, ecology and geology of coral reefs. Topics include the physical and chemical properties of coral reef habitats, reef geology, the physiology, anatomy, ecology and evolution of coral reef organisms, and the management of human impacts on coral reefs. Emphasis will be on Hawai'i's coral reefs, but comparisons will be made among reefs from other areas. Class meets for 3 hours of laboratory and field activities per week.

Prerequisite: ENG 24 with a grade of C or better or equivalent, or qualified for ENG 100

Corequisite: BIOL 200

BIOL 265 Ecology and Evolutionary Biology (3)

Principles of ecology and evolution for the life science majors stressing integrated approach and recent advances.

Prerequisite: A grade of C or better in BIOL 171/171L and BIOL 172/172L.

Corequisite: BIOL 265L

BIOL 265L Ecology and Evolutionary Biology Lab (1)

Laboratory to accompany BIOL 265.

Prerequisite: A grade of C or better in BIOL 171/171L and BIOL 172/172L.

Corequisite: Credit in or concurrent registration in BIOL 265.

BIOL 275 Cell and Molecular Biology (3)

BIOL 275 is an integrated cell and molecular biology course for life science majors. This course is designed to give the student a fundamental understanding of the structure and biochemistry of eukaryotic and prokaryotic cells. The course covers the basic principles of molecular biology and includes modern advances in biotechnology, recombinant DNA technology and bioinformatics.

Prerequisite: BIOL 171/171L and CHEM 272/272L or instructor consent.

BIOL 275L Cell and Molecular Biology Lab (2)

BIOL 275L is a lecture/laboratory in cell and molecular biology for life science majors. This course is taken either concurrently or after BIOL 275. Through lectures and laboratory exercises, students will acquire a fundamental understanding of the biochemistry of the cell. Students will also acquire competence in modern advances in protein chemistry, recombinant DNA technology and biotechnology.

Prerequisite: BIOL 171/171L and CHEM 272/272L or instructor consent.

Corequisite: Credit or concurrent registration in BIOL 275

BOTANY (BOT)

BOT 101 Botany (3)

An introductory course in plant biology. Topics to be covered are the structure and function of plant cells, tissues, and organs such as roots, stems, leaves, and flowers; concepts of biological evolution and classification; the diversity of plants and plant-like organisms; genetics; and ecology. Concurrent registration in BOT 101L highly recommended.

Prerequisite: ENG 22 or ENG 24, with a grade of C or better or equivalent and concurrent registration in or completion of BOT 101L.

BOT 101L General Botany Laboratory (1)

Laboratory observations, experiments and field trips illustrating the basic principles of plant biology. One 3-hour lab per week.

Prerequisite: ENG 24 with a grade of C or better or equivalent and BOT 101 with a grade of C or better or concurrent registration or equivalent.

BOT 130 Plants in the Hawaiian Environment (3)

Companion course to BOT 130L Plants in the Hawaiian Environment Laboratory. The course will provide with an understanding of the major concepts in the following plant biology disciplines: structures, functions and propagation of vascular plants, biotic and abiotic forces that have shaped the Hawaiian Islands and their impact on evolution, distribution and endangerment of Hawaiian flora. Additionally, it provides students with an understanding of Hawaiian flora by origin, development, composition, cultural and economic uses.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent, or instructor approval.

Corequisite: BOT 130L.

BOT 130L Plants in the Hawaiian Environment Laboratory (1)

Companion laboratory to BOT 130 Plants in the Hawaiian Environment. The laboratory and field activities in BOT 130L provide students with an understanding of the major concepts in: structures, functions and propagation of vascular plants, biotic and abiotic forces that have shaped the Hawaiian Islands and their impact on evolution, distribution and endangerment of Hawaiian flora. Additionally, it provides students with an understanding of Hawaiian flora by origin, development, composition, cultural and economic uses.

Prerequisite: ENG 22, or ENG 24, with a grade of C or better or equivalent or instructor approval.

Corequisite: BOT 130.

BUSINESS (BUS)

BUS 101 Business Information Systems (3)

An introduction to computers and the components of a business information system, including “hands-on” exposure to office productivity applications, and learning how information technology can be applied to satisfy business needs.

BUS 120 Principles of Business (3)

BUS 120 surveys the fundamentals of American business enterprise and examines the foundations and responsibilities of accounting, management, finance, marketing, and the business environment.

Prerequisite: ENG 22 or ENG 24 with a grade of CR or placement in ENG 100 or equivalent.

BUS 201 Advanced Business Information Systems (3)

Continuation of business information systems, including advanced word processing applications, advanced spreadsheet applications, advanced database applications, advanced presentation applications, and integration of applications.

Prerequisite: BUS 101, ICS 100, or ICS 101 with a grade of C or better, or instructor approval.

Recommended Prep: BUSN 121 or equivalent.

BUSINESS LAW (BLAW)

BLAW 200 Legal Environment of Business (3)

This course introduces the nature and development of law in the United States, with a particular emphasis on how the law applies to businesses and how the law adapts and remains relevant in the face of constantly changing economic, political, social and technological conditions. It includes a study of business documents, how business entities are created and operated, the role of government in regulating businesses, and ethical implications of law.

Prerequisite: ENG 22 or ENG 24 with a grade of CR or placement in ENG 100 or equivalent or higher.

BUSINESS TECHNOLOGY (BUSN)

BUSN 121 Introduction to Word Processing (3)

The course covers proper keyboarding techniques, word processing concepts (Microsoft® Word), and document formatting of letters, memos, tables, reports, and e-mail. Basic file management and operating system functions are included. Keyboarding speed and accuracy are emphasized.

Recommended Prep: Completion of or concurrent enrollment in ENG 24 or equivalent.

BUSN 123 Word Processing for Business (3)

Uses advanced features from a word processing program to create business documents emphasizing production and proofreading. Integrates knowledge of the Internet and the computer. Includes timed computer keyboarding skills for creating and editing business documents and sending electronic attachments.

Prerequisite: Thirty-five (35) gross words a minute (GWAM); or instructor approval.

Recommended Prep: ENG/ESL 21 and ENG/ESL 22 or ENG 24 or equivalent. C or better in BUSN 121 or equivalent.

BUSN 137 Computerized Databases– MS® Access (1)

Introduces database management as used in a business environment. Covers concepts and terminology; database design, construction, applications; advantages and limitations of a database management program; the creation, editing, and organization of data files; the querying of a database; and the design, display, and printing of reports.

Recommended Prep: Ability to keyboard by touch.

BUSN 158 Social Media and Collaboration Tools for Business (3)

Introduces students to social media, collaboration, and Web tools as they relate to business. Students learn how to effectively create, maintain, and update blogs, social media sites (e.g., Facebook, Twitter, LinkedIn, Pinterest, Google+, YouTube), and internal/external collaboration and communication tools. Organizational management of cloud storage will be covered.

Recommended Prep: ENG 22, BUS 101, BUSN 123

BUSN 159 Creating and Managing the Virtual Office (3)

This course will explore concepts and issues involved in establishing a virtual assistant business. Students will use integrated software applications to complete assignments, create projects, conduct research, and identify the components of a business plan.

Prerequisites: ENG 22 or ENG 24 or equivalent each with a grade of C or higher OR placement in ENG 100 or equivalent; BUS 101 OR ICS 100 and ICS 101 with a grade of C grade or higher; BUSN 121 OR BUSN 123 with a grade of C or higher; and BUSN 164 with a grade of C or higher; or instructor's consent.

BUSN 164 Career Success (3)

Presents concepts and theories relating to workplace behavior; managing one's attitude and relationships for workplace effectiveness.

Prerequisite: Completion of or concurrent enrollment in ENG/ESL 21 and ENG/ESL 22 or ENG 24 or equivalent, or instructor approval.

Recommended Prep: Computer experience using a word processing program.

BUSN 166 Professional Employment Preparation (1)

Facilitates employment search by emphasizing professional techniques and standards in the preparation of application forms, résumés, cover letters, and employment interviews.

Recommended Prep: Ability to keyboard and knowledge of word processing.

BUSN 170 Records and Information Management (3)

Studies principles and procedures for organizing and operating Records and Information Management (RIM) programs. Topics include: Selection of filing systems, equipment, and supplies; procedures for storage, retrieval, transfer, retention, and disposal of records; records inventory and analysis; records protection and disposition; study and application of ARMA (Association of Records Managers and Administrators) rules for alphabetic, geographic, numeric, and subject methods. Helps a business or organization meet its fiscal, legal, and governmental requirements by managing its information systems.

Recommended Prep: ENG/ESL 21 or ENG/ESL 22 or equivalent.

BUSN 188 Business Calculations (3)

Introduces various quantitative computational procedures used in accounting and finance such as present and future value concepts, payroll, inventory, and international currency exchange rates. Utilization of the electronic 10-key pad as a tool for calculating will be stressed.

Recommended Prep: Completion of MATH 75 or higher with a CR grade or higher and completion of or concurrent enrollment in ENG 24 or equivalent.

BUSN 193V Cooperative Education (1–4)

Cooperative Education provides practical career-related work experience through a program used nationally in colleges and universities to apply classroom knowledge and to develop job competencies. Full-time or part-time work in private and public sectors is utilized for this program. The number of credits earned depends upon the number of hours spent at the job station during the semester. Leeward CC: To receive credit for Cooperative Education, a student must complete a minimum of 60 work hours per credit and attend Cooperative Education required seminars. Work must be supervised by an approved employer in the public or private sector of the community. For example, a student registered in three credit hours will need to work a minimum of 180 hours during the semester and attend all Cooperative Education seminars. It is a minimum course requirement that the required work hours be completed within the semester. May be repeated but cannot exceed nine (9) credits total.

Prerequisites: Business major or Department/instructor approval. Completion of ENG 22 or ENG 24 with a grade of C or better or equivalent or placement in ENG 100, and approval of the instructor.

Additional requirements by the University of Hawai'i, Leeward Community College Business Division: (1) completion of 12 or more credits in the Leeward CC Business Division in order to assess job skills, (2) enrolled in a Business Division program of study, (3) full- or part-time student enrolled at Leeward CC, (4) a student in good academic standing with a minimum cumulative grade point average of 2.0, and (5) eligible for employment—U.S. citizen or have the legal right to work in the U.S.

Additional requirements by the University of Hawai'i, Leeward Community College Business Division, Hospitality and Tourism Concentration, Management A.S. degree program: Students must complete two (2) credits of BUSN 193V for 120 hours minimum at the worksite. The job must be approved prior to the first day of class by the BUSN 193V instructor and/or Management Program Coordinator. The student must work in a hospitality and/or tourism-related job. It is recommended that students in the Hospitality and Tourism Concentration take BUSN 193V in one of their last semesters before earning their associate degree. If the student is volunteering in an off-campus location, the student must purchase special liability insurance.

BUSN 232 Microsoft Excel for Business (3)

Covers business spreadsheets with special attention to advanced techniques required by experts. Develops critical thinking skills for applying software tools to business problems. Covers financial and logical functions, custom formatting, charts and graphs, multi-sheet and shared workbooks, formula auditing, data importing, web features, one-variable and two-variable data tables, decision-making functions, and application development tools.

Prerequisite: BUS 101 with a grade of C or better or instructor approval.

BUSN 242 Business Presentations (3)

Provides skills and competencies relating to the demands of professional business presentations including use of Microsoft® Word and PowerPoint, desktop publishing, and other media. Competencies encompass reporting as well as presenting information, data, and evidence using current technologies.

Prerequisites: BUSN 121, BUSN 123, or BUS 101 with a grade of C or better or equivalent, or keyboarding or typewriting skills and computer knowledge or instructor's approval.

Recommended Prep: ENG 100 and SP 151 or equivalent. Keyboarding or typewriting skills and computer knowledge.

BUSN 250 Expert Business Computing (3)

Expert use of the Microsoft® Office features and preparation for the Microsoft® Expert-level certification exams.

Prerequisite: BUS 101 with grade of C or better or instructor approval.

Recommended Prep: BUS 201 or equivalent.

BUSN 269 Supervision (3)

Develops effective communication techniques while strengthening supervisory skills. Students apply oral and written communication skills while studying topics on basic concepts in administrative office management, managing human resources and administrative services, and controlling administrative office systems.

Prerequisite: ENG 22 or ENG 24 or equivalent with a grade of C or better or instructor's approval.

BUSN 270 Advanced Records and Information Management (3)

Introduces specialized functions, current technology, international issues, and other advanced topics in Records and Information Management (RIM). Topics covered include: Forms Management, Vital Records Protection, Disaster Prevention and Recovery, Micrographics, Mail and Reprographics Management, Optical Disk Technology, and International Standards. Association of Records Managers and Administrators (ARMA) International rules are reviewed. A database such as Microsoft® Access may be used to introduce and practice RIM program controls such as records inventory.

Prerequisites: BUSN 170 with a grade of C or better, or equivalent, or work experience in RIM and Microsoft® Access and Microsoft® PowerPoint or instructor approval.

BUSN 277 International Business Protocol (3)

Presents international business protocol differences among countries and develops the skills to identify and understand these differences in a business environment.

Prerequisite: ENG 22 or ENG 24 or equivalent with a grade of C or better or instructor's approval.

BUSN 279 International Business Analysis (3)

Analyzes international corporate environments and their impact on business dynamics. The focus is on business practices in the Asian/Pacific region; but other regions may also be included.

Prerequisite: ENG 22 or ENG 24 or equivalent with a grade of C or better or instructor's approval.

BUSN 284 Medical Office and Administrative Procedures (3)

Presents the skills needed to perform activities required in a medical office/facility setting. Offers a broad spectrum of medical administrative principles. Designed to familiarize the student with various types of documents, activities, and situations in a medical office/facility environment.

Recommended Prep: ENG 100 or equivalent, BUSN 121, BUSN 123, or BUS 101; and HLTH 110.

BUSN 286 Legal Terminology and Procedures (3)

Presents the skills needed to perform office activities required in a law firm or other legal setting. Offers a broad spectrum of legal terms, concepts and principles required in a law office. Designed to familiarize the student with various types of legal documents; emphasis is on creating, formatting, and editing common types of legal documents.

Prerequisite: BUSN 123 with a grade of C or better or instructor's approval.

Recommended Prep: ENG 100 or ENG 100E or equivalent and BUS 101 or equivalent.

CHEMISTRY (CHEM)

CHEM 100 Chemistry and Society (3)

Brief introduction to basic principles of chemistry and their relationship to the modern world. This course provides a general education core course for the non-science major. Emphasis will be placed on how science and technology affect the individual, society and the environment. Topics to be treated include: air and water pollution, energy resources, and basics of physical and biochemistry. Concurrent registration in CHEM 100L recommended.

Prerequisite: MATH 82, MATH 100 or MATH 115 or higher with a grade of C or better or equivalent.

CHEM 100L Chemistry and Society Lab (1)

Introduction to laboratory techniques and experimental methods of chemistry intended for students preparing for careers in non-science fields.

Prerequisite: CHEM 100 with a grade of C or better or concurrent enrollment.

CHEM 151 Elementary Survey of Chemistry (3)

An introductory course to the fundamental theories and experimental methods of chemistry intended for students preparing for careers in medical technology, nursing, life sciences, and other technical fields. The basic language and quantitative relationships of chemistry are studied, as well as the theories of atomic structure, chemical bonding, structure-property relationships, and chemical reactions. Class meets for 3 hours of lecture.

Prerequisite: MATH 82 with CR or C or higher, OR C or higher in MATH 103 OR C or higher in MATH 135 or Qualification for MATH 103 or MATH 135 or higher.

Recommended Prep: Concurrent registration in CHEM 151L.

CHEM 151L Elementary Survey of Chemistry Lab (1)

Introduction to laboratory techniques and experimental methods of chemistry intended for students preparing for careers in medical technology, nursing, life sciences, and other technical fields.

Prerequisite: CHEM 151 with a grade of C or better or concurrent enrollment.

CHEM 161 General Chemistry I (3)

Basic principles of inorganic chemistry. The first course of a two-course sequence designed to meet the one-year requirement of general college chemistry. Concepts and topics include scientific measurement, chemical math, atomic structure and chemical bonding, the states of matter, and solution chemistry.

Prerequisite: MATH 103 with grade of C or better.

Recommended Prep: CHEM 151 or High School Chemistry.

CHEM 161L General Chemistry I Lab (1)

CHEM 161L is a laboratory course which accompanies CHEM 161, the first course of a two-course sequence designed to meet the one-year requirement of general college chemistry. Experiments are performed which relate to the lecture material in CHEM 161. The student will develop practical laboratory skills to competently and safely use laboratory equipment.

Prerequisite: MATH 103 with a grade of C or better.

Corequisite: Credit or concurrent registration in CHEM 161

Recommended Prep: CHEM 151 or High School Chemistry.

CHEM 162 General Chemistry II (3)

The second course of a two-course sequence designed to meet the one-year requirement of general college chemistry. Concepts and topics include, thermochemistry, kinetics, acid-base equilibrium, solubility equilibrium and electrochemistry with an emphasis on problem solving.

Prerequisite: CHEM 161, 161L and MATH 135 with a grade of C or better.

CHEM 162L General Chemistry II Lab (1)

CHEM 162L is a laboratory course which accompanies CHEM 162, the second course of a two-course sequence designed to meet the one-year requirement of general college chemistry. Experiments are performed which relate to the lecture material in CHEM 162. The student will develop competency in using laboratory equipment and laboratory report writing skills.

Prerequisite: CHEM 161, 161L and MATH 135 with a grade of C or better.

Corequisite: Credit or concurrent registration in CHEM 162.

CHEM 272 Organic Chemistry I (3)

CHEM 272 is the first semester of a comprehensive study of organic chemistry including: molecular structure, nomenclature, stereochemistry, spectroscopy, reactions, reaction mechanisms, and synthesis of organic compounds. (Formerly lecture part of CHEM 272B.)

Prerequisite: CHEM 162 or CHEM 162B with grade of C or better or equivalent.

CHEM 272L Organic Chemistry I Lab (2)

The first semester laboratory course in organic chemistry covering: molecular structure, stereochemistry, spectroscopy, mechanisms, reactions, and synthesis of organic compounds. (Formerly lab part of CHEM 272B.)

Prerequisites: CHEM 162L with a grade of C or better and CHEM 272 with a grade of C or better or concurrent registration.

CHEM 273 Organic Chemistry II (3)

CHEM 273 is the second semester of a comprehensive study of organic chemistry including: molecular structure, nomenclature, stereochemistry, spectroscopy, reactions, reaction mechanisms, and synthesis of organic compounds. (Formerly lecture part of CHEM 273B.)

Prerequisite: CHEM 272 or CHEM 272B with grade of C or better or equivalent.

CHEM 273L Organic Chemistry II Lab (1)

The second semester lab course in organic chemistry covering: molecular structure, stereochemistry, spectroscopy, mechanisms, reactions, and synthesis of organic compounds. (Formerly lab part of CHEM 273B.)

Prerequisites: CHEM 272L with a grade of C or better and CHEM 273 with a grade of C or better or concurrent registration.

CHINESE (CHN)

CHN 101 Elementary Chinese I (4)

CHN 101 is a course designed for beginners of Chinese. Study of basic structures of the Mandarin Chinese language with emphasis on listening, speaking, reading and writing skills. Students will gain these four skills in standard Mandarin Chinese attaining the Novice-High level on the ACTFL-ETS proficiency scale.

Recommended Prep: ENG 22 or ENG 24 with a grade of C or better or equivalent.

CHN 102 Elementary Chinese II (4)

CHN 102 is a continuation of CHN 101. The four skills of listening, speaking, reading, and writing in Standard Mandarin Chinese are further developed. Students will gain these four skills, attaining approximately the Intermediate-Low level on the ACTFL-ETS proficiency scale.

Prerequisite: CHN 101 with a grade of C or better.

Recommended Prep: ENG 22 or ENG 24 with a grade of C or better or equivalent.

CHN 201 Intermediate Chinese I (4)

CHN 201 is the first half of an intermediate course in Chinese. Four language skills, speaking, listening, reading and writing introduced in the elementary level course will be reinforced. Students in this course will develop language skills in a linguistically appropriate manner.

Prerequisite: Chinese 102 with a grade of C or better, or Chinese 102 equivalent by placement test or consent of instructor.

Recommended Prep: ENG 22 or ENG 24 with a grade of C or better or equivalent.

CHN 202 Intermediate Chinese II (4)

CHN 202 is the second half of an intermediate course in Chinese. Four language skills, speaking, listening, reading and writing introduced in the elementary level course will be reinforced. Students in this course will develop language skills in a linguistically appropriate manner.

Prerequisite: Chinese 201 with a grade of C or better, or Chinese 201 equivalent by placement test or consent of instructor.

Recommended Prep: ENG 22 or ENG 24 with a grade of C or better or equivalent.

CIVIL ENGINEERING (CE)

CE 270 Applied Mechanics I (3)

The study and analysis of forces, resultants, equilibrium, trusses, frames, machines, centroids, moments of inertia, and friction.

Prerequisites: PHYS 170 with a grade of C or better and MATH 243 with a grade of C or better or concurrent registration.

CE 271 Applied Mechanics II (3)

The study of dynamics of particles and rigid bodies. Topics include force, acceleration, the impulse-momentum theorem, and the work-energy theorem.

Prerequisites: CE 270 with a grade of C or better and MATH 244 with a grade of C or better or concurrent registration.

COMMUNICATION (COM)

COM 145 Interpersonal Communication (3)

Introduction to communication strategies and outcomes through participation in interpersonal communication activities.

Recommended Prep: ENG 22 or ENG 24 with a grade of C or equivalent.

COM 210H Intercultural Communication: Honors Course (3)

Survey of social-psychological and cultural variables which affect communication among peoples of different cultures. This knowledge helps in understanding and facilitating social and cultural change.

Prerequisite: ENG 100 or equivalent with a C or better.

CULINARY ARTS (CULN)

CULN 111 Introduction to the Culinary Industry (2)

Provides an overview of the culinary industry within the aspects of the entire hospitality industry. It provides students with an introduction to the historical, social, and cultural forces that have affected and shaped the industry of today. Students will identify job qualifications and opportunities, professional standards, communication skills, and attitudes essential for successful workers in the industry.

CULN 112 Sanitation and Safety (2)

This course introduces students to the fundamentals of food safety in the foodservice industry. Course content includes the study of food borne illnesses, the micro world, contamination, the flow of food through a foodservice operation including purchasing and receiving, storage, preparation and service, sanitary facilities, cleaning and sanitizing principles and pest management. Emphasis on the Hazard Analysis Critical Control Point (HACCP) food safety system. Successful completion of this course will result in ServSafe certification from the National Restaurant Educational Foundation.

CULN 115 Menu Planning and Merchandising (1)

This course is a study of the factors involved in planning effective menus for a variety of food service operations. Course content includes basic menu planning principles, layout and design, factors that impact menu items selection, menu pricing, menu sales performance and mix analysis, and menu planning resources.

CULN 120 Fundamentals of Cookery (5)

This course focuses on the fundamental concepts, skills and techniques of cooking. Course coverage includes the use of standardized recipes, weights and measures, culinary tools and equipment, basic ingredients and their uses in cooking and basic cooking methods. Emphasizes the preparation of stocks, soups, sauces and lunch menu items.

Prerequisites: Completion of or concurrent enrollment in CULN 112 with a C or better.

CULN 125 Fundamentals of Cookery II (5)

This course focuses on the fundamental concepts, skills and techniques of basic garde manger, breakfast and short-order cookery skills. Content includes basic salads and salad dressings, the handling, storage and preparation of fruits and vegetables including decorative garnishes, cold food presentation using plates, platters and trays, basic egg and breakfast items including quick breads, and short order line cookery.

Prerequisites: Completion of CULN 120 with a grade of C or better and completion (with a grade of C or better) of, or concurrent enrollment in CULN 112.

CULN 150 Fundamentals of Baking (5)

Application of scientific principles and baking theory to the production and evaluation of breads, pies, cookies and cakes. Course coverage includes terminology, ingredients, weights/measures, formula conversions and costing factors. Emphasis is placed on equipment use and maintenance, hygiene and work habits.

Prerequisites: Completion of or concurrent enrollment in CULN 112.

CULN 160 Dining Room Operations (5)

This course introduces students to food and beverage service. Course content includes basic service techniques, setup and organization of the dining room, service language and professionalism including dress, grooming and sanitation. Also covered is an introduction to alcoholic beverages and principles of responsible alcoholic service.

Prerequisites: Completion of or concurrent enrollment in CULN 112.

CULN 223 Contemporary Cuisines (5)

In a fast paced restaurant environment, students plan, organize, and prepare menu items typically served in an upscale dining establishment specializing in European, Asian, and American regional cuisine with an emphasis on contemporary menu trends, cross-cultural influences, flavor combinations and plate presentation. Students will develop an awareness of and utilize locally grown and produced ingredients.

Prerequisite: CULN 120 and CULN 125 or CULN 224 with a grade of C or better or instructor approval.

CULN 224 Asian/Continental Cuisine (5)

In this course students expand upon fundamental cooking skills and techniques and study regional cuisines. Students learn about traditional food ingredients and their uses, flavorings, regional cooking methods, and general characteristics of various cuisines. Emphasis is placed upon technique, speed, timing, plate presentation, organization and teamwork.

Prerequisite: CULN 120 with a grade of C or better or instructor approval.

CULN 240 Garde Manger II (3)

Building upon the fundamental knowledge of cold food preparation, this course covers the preparation of pates, terrines, galantines, canapés, hot and cold hors d'oeuvres, appetizers, mousses and gelatins. Also covered are the techniques of cold food decoration, cold platter design and presentation and the design and planning of appetizer buffets.

Prerequisites: CULN 120 and CULN 125 with a grade of C or better or instructor consent.

CULN 269 Culinary Special Events (3)

Students participate as professionals in community and college sponsored culinary events. As part of interactive management teams, students will also plan, market, organize and produce special culinary themed events in the College's "The Pearl" restaurant.

Prerequisite: C grade or better in CULN 160 and CULN 223.

CULN 271 Purchasing and Cost Control (4)

This course is a study of the overall concept of purchasing and receiving practices and cost control systems associated with commercial restaurants, hotels and institutional settings. Content includes the flow of foods in a food service operation, purchasing methods, (purchasing, receiving, storing, issuing) legal and ethical considerations of purchasing, and controlling inventory and costs.

Prerequisites: CULN 111, MATH 100C with a C or better or instructor approval.

Recommended Prep: CULN 112.

CULN 275 Human Resources Management and Supervision in the Hospitality Industry (2)

This course is designed to prepare students for the transition from employee to supervisor in a food service operation. Students will learn to identify and evaluate various leadership styles and develop skills in human relations and personnel management. Course content also includes employee training, motivation and evaluation techniques, laws and regulations that affect restaurant and foodservice operations, and employee benefits.

Prerequisites: CULN 160 with C or better or instructor consent.

Recommended Prep: ENG 22 or ENG 24.

CULN 293E Culinary Externship (2)

This externship experience will provide students an opportunity to apply their professional and culinary skills in restaurant and hotel settings. Students will complete 150 hours to gain on-the-job experiences.

Prerequisite: CULN 150, CULN 160, CULN 223, CULN 224, and CULN 271 with a grade of C or better or instructor approval

DANCE (DNCE)

DNCE 108 Hatha Yoga: Beginning (3)

Practice, theory, and history of the yoga tradition with the emphasis on the practice of hatha yoga postures. Sanskrit terminology is incorporated throughout the course. Students must supply their own exercise clothes. May be repeated once for additional credit.

DNCE 131 Modern Dance I (3)

An introduction to modern dance technical skills and creative processes for the beginner. No dance experience is necessary. Students learn body alignment, physical conditioning, dance actions, exercises, and combinations. A variety of music is used. Dance clothes are to be provided by the student. May be repeated once for additional credit.

DNCE 132 Modern Dance II (3)

Continuation of the study of Modern Dance I. Technical skills and processes, with an emphasis on developing personal responsibility and discipline. Students further develop body alignment, physical conditioning, dance steps, actions, exercises, and combinations. A variety of music is used. Dance clothes are to be provided by the student. May be repeated once for additional credit.

Prerequisites: DNCE 131 with a grade of C or better or equivalent or the consent of instructor or prior dance training in any technical dance form.

DNCE 180 Dance Production (3)

The creation of a dance, choreographed by faculty and rehearsed and performed by the students at the Leeward Dance Festival Concert on mainstage in the Leeward Theatre. This concert brings together dancers and choreographers from various Dance Programs in high schools, UH Mānoa and independent dance companies.

Prerequisite: Consent of instructor.

Corequisite: Depending on the instructor's evaluation of the student's technical skills, the student may be required to concurrently enroll in DNCE 131.

Recommended Prep: Previous dance experience preferred.

DIGITAL MEDIA (DMED)

DMED 120 NetPrep Web Development (3)

This course will prepare students to analyze, design, build and implement websites. Areas covered include identification of information objects, the creation of flow diagrams, the use of multimedia, the use of hyperlinks, navigational efficiency, text creation and the appropriate use of maps, menus and frames.

Prerequisite: Completion of ENG 22 or ENG 24, with a grade of C or better, or equivalent, or consent of instructor.

Recommended Prep: ICS 100.

DMED 122 Web Animation (3)

This course introduces the basic principles of interactive animation in web design. Students will develop an interactive HTML 5 Canvas animated web scene using Adobe Animate.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or placement in ENG 100 and ART 113D with a grade of C or better.

Recommended Prep: ART 229.

DMED 130 Pre-Production: Digital Video (3)

This course covers pre-production processes for film and video. Students learn to plan media productions and craft scripts for various media. Emphasis on writing, designing and presenting a storyboard and story reel using digital tools.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better, or equivalent, or consent of instructor.

Recommended Prep: Art 113D.

DMED 131 Introduction to Digital Video (3)

This course introduces digital video production techniques including: camera operation and procedures, basic principles and techniques of sound and digital video editing. Course topics include the operation of digital Prosumer camcorders, lighting and sound equipment, the concepts and techniques of nonlinear digital editing with emphasis on the principles and aesthetics of film and video editing.

*Prerequisite: ENG 22 or ENG 24 or equivalent, with a grade of C or better, or consent of instructor.
Recommended Prep: DMED 130.*

DMED 132 Principles of Video Editing (3)

This course introduces digital video production techniques including: camera operation and procedures, basic principles and techniques of sound and digital video editing. Course topics include the operation of digital Prosumer camcorders, lighting and sound equipment, the concepts and techniques of nonlinear digital editing with emphasis on the principles and aesthetics of film and video editing.

*Prerequisite: ENG 22 or ENG 24 or equivalent, with a grade of C or better, or consent of instructor.
Recommended Prep: DMED 130.*

DMED 133 Sound Design for Digital Media (3)

Utilization of audio within the context of digital media production. Elements of sound design, production and implementation will be covered. A survey of acquisition and post-production technology and techniques used in media production will be included within the course.

*Prerequisite: ENG 22 or ENG 24 or equivalent, with a grade of C or better, or consent of instructor.
Recommended Prep: DMED 130*

DMED 140 Principles of Animation (3)

This course focuses on the principles and history of animation. Students will review live action and animated examples, learning the mysteries of making an animated character come to life. Topics include animation history, animation principles and how the timeline in a graphics software program can give movement to individual frames. Students will focus on traditional animation principles and how they are effectively applied in digital animation environments. Additional topics include key-framing strategies, timing and visual rhythm.

Prerequisite: ENG 22 or ENG 24 or equivalent, with a grade of C or better, or consent of instructor.

DMED 141 Introduction to 3D Animation (3)

DMED 141 is a course in the design and production of 3D animation and visual effects for film, television and multimedia applications. Topics include 3D rendering, the relationship between 2D and 3D animation, and multimedia concepts and production procedures.

Prerequisite: ENG 22 or ENG 24 with a grade of CR or equivalent or consent of instructor.

DMED 150 Film Analysis & Storytelling (3)

Students will discover the techniques of effective storytelling in film and video through analysis of film transitions, shot types and angles, montage, mise-en-scène, blocking, and camera movement. Story structure, character construction and development, will be examined. A history of film will also be explored.

Prerequisite: ENG 22 or ENG 24 or equivalent, with a grade of C or better, or equivalent or consent of instructor.

DMED 160 Media Literacy and Ethics (3)

This course explores media literacy, ethics, and law. Ethical principles and standards are explored in relation to digital media and Internet content. Course topics include: media and democracy, deconstructing media messages, copyright and intellectual property, digital media distribution, global perspectives on media, and the social responsibility of media makers. The course explores the advertising, journalism, television, film, and gaming industries.

Prerequisite: Completion of ENG 22 or ENG 24, with a grade of C or better, or equivalent, or consent of instructor.

DMED 200 Electronic Portfolio (3)

DMED 200 is a course in how to digitize and store student portfolio projects using a range of technologies and multimedia elements. This course asks students to summarize all work done in previous courses. The work will be developed into presentation formats such as CD-ROM, DVD, video and the Internet.

*Prerequisite: ART 112 with a grade of C or better, or instructor approval.
Recommended Prep: DMED 130.*

DMED 235 Digital Video Pre-Production for the Web (3)

Students build on skills learned in DMED 131 Introduction to Digital Video, and /or DMED 132 Principles of Video Editing, DMED 133 Sound Design for Digital Media. This course reinforces the skills necessary for preplanning of effective video production for distribution over the Internet. Topics include brainstorming ideas, writing of treatments, script writing and storyboarding.

Prerequisites: DMED 131 or 132, and DMED 133 with a grade of C or better or consent of instructor. ENG 22 or ENG 24 or equivalent, all with a grade of C or better, or consent of instructor.

Corequisite: DMED 236

Recommended Prep: DMED 130 and DMED 150

DMED 236 Advanced Digital Video for the Web (3)

Students build on skills learned in DMED 131 Introduction to Digital Video, and /or DMED 132 Principles of Video Editing, and DMED 133 Sound Design for Digital Media. This course reinforces the skills necessary that utilize audio, video, graphics, and motion to communicate effectively. Students will create productions that emphasize the aesthetic and technical capabilities of the medium for distribution over the Internet.

Prerequisites: DMED 131 or 132, and DMED 133 with a grade of C or better or consent of instructor. ENG 22 or ENG 24 or equivalent, all with a grade of C or better, or consent of instructor.

Corequisite: Concurrent registration with DMED 235.

Recommended Prep: DMED 130 and DMED 150

DMED 240 Animation & Special Effects (3)

This course focuses on advanced 2-D animation techniques for film, television and multimedia. Students will further enhance motion concepts in animation and develop advanced compositing, sound and editing skills.

Prerequisite: DMED 140 with a grade of C or better, or consent of instructor.

Recommended Prep: DMED 130.

DMED 241 3D Motion Graphics (3)

This course trains students to create broadcast-quality motion graphics for TV and web. Building on skills learned in DMED141, students will conceive and develop 3D motion graphic projects such as station idents, show titles, corporate logo animations, and the like. Students will learn to use 3D software in conjunction with digital compositing software to create an industry-standard motion graphics showreel. Topics include storyboarding, modeling, typography, animation, and compositing.

Prerequisite: DMED 141 with grade of C or better, or consent of instructor.

Recommended Prep: DMED 140 and DMED 240

DMED 242 Character Animation (3)

This course moves deeper into the heart of animation studying techniques in character design and animation. The focus is on storytelling, filmmaking, performance and actually making a movie. Students will begin developing stories and characters. Dialogue, lip sync and character interaction will be explored in detail.

Prerequisite: DMED 141 with a grade of C or better, or consent of instructor.

DMED 243 3D Modeling and Animation (3)

This course covers the concepts of 3D modeling and animation. Students will establish a foundation of 3D computer animation theory and concepts along with an introduction to curves, surfaces, nurbs, polygons, textures, modeling, animation, lighting and rendering.

Prerequisite: DMED 141 with a grade of C or better, or consent of instructor.

DMED 251 Media Entrepreneurship (3)

This course introduces students to entrepreneurship in the media industries. Course content includes: principles of entrepreneurship, media economics, and evolving business models for the media industries. Students will identify, develop, and pitch ideas for media businesses, while learning to fund, operate, and manage media companies. State-specific business and legal concerns are covered.

Prerequisite: ART 112 with a grade of C or better, or instructor consent.

Recommended Prep: DMED 261.

DMED 261 Digital Media Marketing and Online Distribution (3)

This course provides an overview of best practices for leveraging video sharing platforms, social networks, websites, search engines and other online tools. Learn to integrate and utilize these tools to distribute, market, and monetize media content online.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent, or qualified for ENG 100, or consent of instructor.

Recommended Prep: DMED 131.

E-COMMERCE (ECOM)

ECOM 100 Introduction to E-Commerce (3)

This course provides an introduction to the technology and history of the internet and its use as an electronic commerce medium from informational websites to full online retail systems. Included in this introductory survey course will be an analysis and evaluation of retail and business-to-business internet-based systems. Coursework includes an analysis of e-commerce websites and internet and email marketing techniques.

Rec Prep: Working knowledge of personal computer systems and the ability to operate standard web browsers and email clients comfortably. Knowledge of data communications systems would be very helpful.

ECONOMICS (ECON)

ECON 120 Introduction to Economics (3)

A one-semester introduction to economics which combines the macro and micro perspectives and concentrates on application of basic economic principles to analysis of public policy questions. This course contains three parts. First part will begin with an overview of how economists model reality, outline the concepts of supply and demand, and assess efforts made by the government to influence the operation of the market – such efforts include price controls, taxes, externalities, and public goods. Second part will focus on microeconomics topics such as business costs, various market structures, and how firms make decisions. Third part will examine macroeconomics topics such as production, unemployment, inflation, fiscal policy, banking, and monetary policy.

ECON 130 Principles of Microeconomics (3)

This course examines the decision-making process of households and firms. This course analyzes the functioning of market systems, using supply and demand models. This analysis includes both input and output markets including perfect competition, monopolistic competition, oligopoly, and monopoly. Additional topics include game theory, market failure, income inequality, and the role of government in a market system, and the effects of competitive strategy on the economy.

ECON 131 Principles of Macroeconomics (3)

This course examines the economy at the aggregate level. The focus is on modern theory of income determination, production, employment and price levels fluctuate; the structure of the financial markets; and current domestic and global macroeconomics issues and challenges that are facing American economy.

EDUCATION (ED)

ED 100 Introduction to Education and Teaching (3)

ED 100 is an introductory course where students will learn about the teaching profession, the professional teacher, and the learner. The roles and responsibilities of the educator and the educational system in Hawai'i will be examined. Students will also learn about diverse learners and learning styles and theories. Creating a positive learning environment, managing classrooms effectively, and developing and conducting standards-based lesson plans will be covered. Students will also explore various careers in education.

Recommended Prep: ENG 22 with a grade of C or better or placement in ENG 100, or equivalent, or consent of instructor.

ED 143 Registered Behavior Technician Training Credential (1)

This training program is based on the Registered Behavior Technician (RBT) Task List which is part of an internationally recognized 40-hour RBT training that equips professionals with the highest level of Applied Behavior Analytic training. The program is offered independent of the Behavior Analyst Certification Board (BACB). As the number of children diagnosed with Autism Spectrum Disorder (ASD) continues to increase so does the need for specially trained and credentialed (certified) professionals and caregivers in the area of Applied Behavior Analysis (ABA). The training covers measurement, assessment, skill acquisition, behavior reduction, documentation and reporting, and professional conduct and scope of practice. In addition to the 40-hour training, students will complete a competency assessment administered by a Board Certified Behavior Analyst (BCBA) which involves an interview and direct-observation of competencies based on the RBT Task List. Upon completion of this course, students will be eligible to apply for the RBT Examination for their RBT Credential. (Formerly ED 298B)

ED 279 Educational Media and Technology (3)

Introduction to theories, application of principles, acquisition of practical skills of educational media relevant to teaching/learning situations, in classroom as well as non-school settings. (Formerly ED 297A)

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent, or placement of ENG 100 or equivalent, or consent of instructor.

ED 282 Collaboration: Roles and Responsibilities as a Member of the Multi-Disciplinary Team (3)

This course is designed to provide teachers with knowledge of collaborative and co-teaching models of instruction and to prepare them to implement these models in their schools and classrooms. While co-teaching can be a rewarding experience for students and professionals, understanding its elements and foundations is critical in creating a positive learning environment for students. Co-teaching requires not only pedagogical skill on the part of the participating teachers, but also a willingness to share and collaborate in the teaching of all students in special education and inclusion classrooms. This course is consistent with state and local educational goals including the focus on activities that participants will apply to real-world settings.

Prerequisites: ENG 22 or ENG 24 with a grade of C or better or equivalent; or placement in ENG 100 or consent of instructor.

Recommended Prep: Interest in the field of teaching and experience working with children.

ED 282L Collaboration and Teaming Lab (1)

Collaboration and Teaming is designed to provide students with knowledge of collaborative and co-teaching models of instruction and to prepare them to implement these models in their schools and classrooms. While co-teaching can be a rewarding experience for students and professionals, understanding its elements and foundations is critical in creating a positive learning environment for students. Co-teaching requires not only pedagogical skill on the part of the participating teachers, but also a willingness to share and collaborate in the teaching of all students in special education and inclusion classrooms. This course is consistent with state and local educational goals including the focus on activities that participants will apply to real-world settings. (Previously taught as ED 298L.)

Prerequisite: ENG 22 or ENG 24 or equivalent with a C or better or placement in ENG 100; or consent of instructor. Current registration in or completion of ED 282.

ED 283 Partnerships with Culturally and Linguistically Diverse Families (3)

Partnership with Culturally and Linguistically Diverse Families focuses on the skills necessary for working effectively with families of diverse students including those with disabilities. Instruction will include family system theory; characteristics/functions of families; relevant law and policy such as the Individuals with Disabilities in Education Act (IDEA) and requirements for family participation; strategies for communication and collaboration with diverse families.

Prerequisites: ENG 22 or ENG 24 with a grade of C or better or equivalent; or placement in ENG 100 or consent of instructor.

Recommended Prep: Interest in the field of teacher education and experience with children.

ED 284 Foundations of Inclusion in Teaching (3)

Foundations of Inclusion in Teaching (Formerly ED 297S) explores historical and contemporary educational contexts, laws, policies and practices that support special student populations. Curriculum is focused on the demonstration and application of supportive and age-appropriate instructional goals, experiences and assessments. Special populations in need of an inclusive setting include all students, but this course is specifically focused on Native Hawaiians, students from poverty, and low-income communities, and all students with Individualized Education Programs and special needs.

Prerequisite: ENG 22 or ENG 24 or equivalent with a C or better; or placement in ENG 100; or consent of instructor.

Recommended Prep: Students should be prepared to travel off campus for field visits and interviews.

ED 285 Classroom Management within the Instructional Process (3)

An introductory course which offers the student exposure to the various issues of classroom management. The professional role of the teacher, development of positive and inclusive classroom culture, planning for effective instruction, and proactive approaches to supporting student behaviors and community relationships will be addressed. Learning will focus on the development of values oriented and organized learning environments. Students will learn how to develop classroom discipline and individualized behavior plans. Behavioral assessment, strategies and interventions will be introduced. Learning styles, theory, instructional assessment, planning and delivery will be explored. 10 hours of field experience is required which will lead to the development of a case study.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent; or placement in ENG 100 or consent of the instructor.

ED 289 Educational Psychology (3)

This course introduces students to major concepts and principles in the field of Educational Psychology that form the foundations of learning and instruction. Students will examine various development domains and learning theories and translate this knowledge into effective teaching practices for motivating learners with diverse needs. While traditionally educational psychology focuses on the teaching profession, this course is open for all students interested in developing a deeper understanding on how humans learn. (Formerly ED 298)

Prerequisite: ENG 22, ENG 24 or ENG 100 with a grade of C or better or equivalent

ED 290 Foundations of Education (3)

This is an introductory course that provides a broad yet detailed exposure to the American Educational System, an introduction to the teaching profession and a knowledge base of contemporary issues in Education. Students will examine the structure, culture, and curriculum of schools and the broad forces (historical, philosophical, legal and financial) that shape the foundation of our educational system.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or placement in ENG 100 or equivalent.

ED 291 Developing Language & Literacy I (3)

This is an introductory class for students interested in becoming educational assistants, as well as teachers in elementary, secondary or special ed. classrooms. Through a balanced literacy approach, instruction will include developmental stages of reading and writing, phonemic awareness, phonics, fluency, vocabulary development and text comprehension. The major characteristics of multi-level literacy instruction and assessment techniques will also be examined. Students will complete 10 hours of field experience which will lead to the final project of a case study.

Prerequisite: ENG 22, ESL 22 or ENG 24 or placement in ENG 100, ENG 100E or consent of instructor.

ED 294 Introduction to Multicultural Education (3)

Reflective practitioners realize that in order to create a community of learners, we must first build that community by celebrating diversity. This introduction to multicultural education will integrate discussion, "hands-on" activities, skills and methods to develop an awareness and sensitivity to the challenges facing K-12 educators in today's classrooms.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better OR placement in ENG 100 or equivalent or consent of the instructor.

ED 295 Field Experience in Education (1)

Field Experience in Education is a culmination of the knowledge, skills, and dispositions learned in the Associate in Arts in Teaching (AAT) program. Students will engage in observations of, and personal reflection on, effective teaching practices and successful student interactions. They will also engage in seminar discussions with their peers about their experiences and observations in the classroom. Students will have the opportunity to work with classroom teachers at the elementary, middle, and/or high school levels to give them a range of exposure to the K-12 educational experience. 45 hours of field experience is required (students can apply 10 hours of field experience from ED 291 and 10 hours of field experience from ED 285 toward the total of 45 hours). This course is a hybrid with four (4) mandatory in-class sessions. Accommodations for class attendance will be made for off-island students.

Prerequisite: ED 285, ED 290, ED 291, and ED 294, or consent of instructor.

ED 296 Introduction to Art, Music and Creative Movement in the Classroom (3)

This is an introductory course which will introduce students to the principles, concepts and values in integrating the arts into our elementary or special education classrooms. Educators are aware that children need to be engaged visually, auditorily and kinesthetically to enhance learning and support content. The arts support a balanced program of instruction across all content areas.

Prerequisite: ENG 22, ENG 24, or ESL 22, with a grade of C or better OR placement in ENG 100 or equivalent or consent of the instructor.

ED 310A Classroom Management within the Instructional Process for CTE Teacher Candidates (3)

An introductory course for CTE Teacher Candidates which offers the student exposure to the various issues of classroom management. The professional role of the teacher, development of positive and inclusive classroom culture, planning for effective instruction, and proactive approaches to supporting student behaviors and community relationships will be addressed. Learning will focus on the development of value-oriented and organized learning environments. Students will learn how to develop classroom discipline and individualized behavior plans. Behavioral assessment, strategies and interventions will be introduced. Learning styles, theory, instructional assessment, planning and delivery will be explored. (Formerly ED 285A)

Prerequisite: ENG 100 with a C or equivalent; or consent of instructor. Acceptance into the Alternative Certification for CTE Teacher Licensure program.

ED 311A Foundations of Inclusion in Teaching for CTE Teacher Candidates (3)

Foundations of Inclusion in Teaching for Career and Technical Education Teacher Candidates explores historical and contemporary educational contexts, laws, policies and practices that support special student populations. Curriculum is focused on the demonstration and application of supportive and age-appropriate instructional goals, experiences and assessments. Special populations in need of an inclusive setting include all students, but this course is specifically focused on Native Hawaiians, students from poverty and low-income communities, and all students with Individualized Education Programs and special needs. (Formerly ED 284A)

Prerequisite: ENG 100 with a C or better or equivalent; or consent of instructor. Acceptance into the Alternative Certification for CTE Teacher Licensure program.

ED 312A Educational Psychology for CTE Teacher Candidates (3)

This course introduces CTE Teacher Candidates to major concepts and principles in the field of educational psychology that form the foundations of learning and instruction. Candidates will examine various development domains and learning theories and translate this knowledge into effective teaching practices for motivating learners with diverse needs. (Formerly ED 289A)

Prerequisite: PSY 100 with a grade of C or better and ENG 100 with a grade of C or better or equivalent. Acceptance into the Alternative Certification for CTE Teacher Licensure Program.

ED 313A Practicum I: Alternative Certification for CTE Teacher Licensure (1)

The Alternative Certification for Career and Technical Education (CTE) teacher licensure program will prepare candidates who have content knowledge with the pedagogy necessary to become effective practitioners in CTE classrooms at the secondary level. A critical component of the program is the supervised practicum where knowledge of content and strategies for best teaching practice will be integrated and polished. Through extensive mentoring and performance evaluations completed by program faculty. CTE teacher candidates will be well prepared to meet the high standards for licensure and practice. Practicum I will provide mentoring for the CTE candidate as they intern in their own CTE high school classroom. (Formerly ED 295A)

Prerequisite: Acceptance into the Alternative Certification for CTE Teacher Licensure Program.

ED 314B Practicum II: Alternative Certification for CTE Teacher Licensure (1)

The Alternative Certification for Career and Technical Education (CTE) teacher licensure program will prepare candidates who have content knowledge with the pedagogy necessary to become effective practitioners in CTE classrooms at the secondary level. A critical component of the program is the supervised practicum where knowledge of content and strategies for best teaching practice will be integrated and polished. Through extensive mentoring and performance evaluations completed by program faculty. CTE teacher candidates will be well prepared to meet the high standards for licensure and practice. Practicum II, the second semester of the practicum experience will provide formal supervision for the CTE candidate as they intern in their own CTE high school classroom. Five formal observations will be completed by an Education faculty member. (Formerly ED 295B)

Prerequisite: Acceptance into the Alternative Certification for CTE Teacher Licensure program.

ED 330 SPED Law and IEP Development (3)

This course will give students the opportunity to review special education law, with an emphasis upon Hawaii Administrative Rules, Chapter 60 and the 2004 Reauthorization of IDEA. Heavy emphasis will be on Individual Education Program development through examination of required elements of IEPs and simulated IEP team scenarios. Students will be introduced to state and federal special education rules and regulations, practical application of the law, ethical codes and related professional standards. Students will review curriculum standards and mock student records, participate in mock IEP/Placement meetings, develop mock IEPs and develop methods for monitoring progress. The course will also discuss Section 504 of the Rehabilitation Act of 1973, The No Child Left Behind Act of 2001 and the impact of key laws upon students with disabilities. (Formerly ED 297D).

Prerequisite: Complete 2 years of any associate level degree or higher.

ED 331 Special Education Assessment (3)

This course focuses on assessing the exceptional child, including an examination of evaluation procedures, from pre-referral intervention, eligibility/placement/ program decision-making to progress monitoring of scientifically-based instructional interventions based on Response to Intervention (RTI). Emphasis will be on using assessment information to determine strengths and needs to design instruction related to Individualized Education Program (IEP) goals and state standards, and to evaluate the effectiveness of that instruction using progress-monitoring techniques. This course will introduce students to commonly used tests and evaluation systems used in public school special education programs. (Formerly ED 297F).

Prerequisite: Complete 2 years of any associate level degree or higher

ED 332 English Language Arts Instruction and Interventions (3)

This course introduces the developmental continuum for literacy. Students will be prepared to assess learners' abilities; select appropriate instructional strategies; design effective instructional programs, leading to increased listening, speaking, reading and writing competencies for all children; and establish assessment strategies to evaluate student progress.

Prerequisite: Complete 2 years of any associate level degree or higher

ED 334 Participating in a Professional Community (3)

This course explores the organizational, personal, and interpersonal aspects of working as a teacher in schools. Course content will prepare students for membership and leadership in a professional learning community and for continuing professional growth.

Prerequisite: Complete 2 years of any associate level degree or higher

ED 335 Educational Technology for the Inclusive Classroom (3)

This course presents an overview of the variety of instructional technology options and considers how these are effective across the curriculum. Educational technology includes the many tools and methods in which technology is used within an educational setting. Students will learn about current trends in education that are directly related to technology. Emphasis is placed on reaching different types of learners, considerations of integration, and assessing effectiveness of technology use for students with special needs in the inclusive classroom.

Prerequisite: Complete 2 years of any associate level degree or higher.

ED 336 Student Teaching Portfolio (3)

This course guides students through the process of providing documented evidence of teaching proficiencies aligned with initial preparation standards from Hawaii Teachers Standards Board, the Council for Exceptional Children, and the Interstate Teacher Assessment and Support Consortium (InTASC). The portfolio will be assessed as part of recommendation for licensure in SPED PK-12 in the state of Hawaii.

Prerequisite: ED 330 and ED 331 with a grade of C or better and complete 4 years of a bachelor's degree.

Recommended Prep: ED 332, ED 334 and ED 335.

ELECTRICAL ENGINEERING (EE)

EE 160 Programming for Engineers (4)

Introductory course on computer programming and modern computing environments in C with an emphasis on algorithm and program design, implementation, and debugging. Includes a hands-on laboratory to develop and practice programming skills.

Prerequisite: MATH 241 with a grade of C or better or concurrent enrollment.

EE 211 Basic Circuit Analysis I (4)

Linear passive circuits, time domain analysis, transient and steady-state responses, phasors, impedance and admittance, power and energy, frequency responses, resonance.

Prerequisites: PHYS 272 with a grade of C or better or concurrent registration and MATH 243 with a grade of C or better or concurrent registration.

EE 213 Basic Circuit Analysis II (4)

Laplace transforms and their application to circuits, Fourier transforms and their applications to circuits, frequency selective circuits, introduction to and design of active filters, convolution, and state space analysis of circuits.

Prerequisites: EE 211 with a grade of C or better and MATH 244 with a grade of C or better or concurrent registration.

EE 260 Introduction to Digital Design (4)

Introduction to the design of digital systems with an emphasis on design methods and the implementation and use of fundamental digital components.

Prerequisite: EE 160 or ICS 111 with a grade of C or better.

EE 296 Sophomore Project (1)

Sophomore level individual or team project under Electrical Engineering or Computer Engineering faculty direction and guidance. The project provides design experience and develops practical skills.

Prerequisite: EE 211 with a grade of C or better.

ENGLISH (ENG)

ENG 22 Introduction to Composition (3)

Provides practice in writing clear, effective, well-developed compositions using various modes of development. Students follow a recursive writing process and consider topic, purpose, and audience as they write. They read from a variety of texts to generate ideas for essays and to learn effective methods of drafting, revising, editing, proofreading, and publishing their compositions. Students write essays that have clear ideas, adequate support, logical organization, and correct sentence structure. They learn the principles of expository writing and refine their language skills. Students become efficient readers, effective writers, and critical thinkers.

Prerequisite: Placement in ENG 22 or approval from the Language Arts Division.

Corequisite: ENG 100.

Recommended Prep: Experience in using computers for writing.

ENG 24 Reading, Reasoning and Writing (6)

An introduction to the reading, reasoning, and writing skills essential to succeed in ENG 100. This six-credit course, through practice in analytical reading, extended discussion, summarizing of concepts, and incorporating ideas into writing, will familiarize new and returning students with the components of college-level critical thinking and composition. (ENG 24 is an accelerated course that can be taken in place of these four courses: ENG 18, 19, 21, and 22. Students cannot take ENG 24 concurrently with any of these courses: ENG 18, 19, 21, and 22.)

Prerequisite: ENG 18/19 COMPASS placement or completion of ENG 8 with a C or better.

ENG 24C Reading, Reasoning, and Writing (6)

For Career and Technical Education (CTE) students only. An introduction to the reading, reasoning, and writing skills essential to succeed in ENG 100. This six-credit course, through practice in analytical reading, extended discussion, summarizing of concepts, and incorporating ideas into writing, will familiarize new and returning students with the components of college-level critical thinking and composition. (ENG 24C is an accelerated course that replaces these four courses: ENG 18, 19, 21, and 22. Students cannot take ENG 24C concurrently with any of these courses: ENG 18, 19, 21, and 22.)

Prerequisite: ENG 18 and 19 COMPASS placement or completion of ENG 8 with a C or better.

ENG 100 Composition I (3)

Provides practice in producing substantial compositions at the college transfer level for courses across the curriculum. Engaging in research activities, students evaluate and integrate sources into their compositions. Following a recursive writing process, they analyze the rhetorical, conceptual, and stylistic demands of writing for various purposes and audiences. Students apply the principles of expository writing and produce compositions that have clear ideas, adequate support, logical organization, and correct sentence structure. Students become proficient language users, independent learners, and thoughtful members of an academic community.

Prerequisites: Placement in ENG 100 or ENG 22, ENG 24 or ENG 24C with a grade of CR or approval from the Language Arts Division.

ENG 100E Composition I (3)

For non-native speakers of English only. Practice in writing clear, effective university-level prose. Attention to all stages of the writing process—generating ideas, drafting, revising, and editing.

Prerequisite: Placement into ENG 100E; or a grade of C or better in ESL 21 and 22, or approval from the Language Arts Division.

Recommended Prep: Typing or computer experience.

ENG 102 College Reading (3)

Provides practice in advancing critical thinking skills. Students apply techniques that promote active reading, clear thinking, and careful reasoning. For example, students analyze main points, evaluate support, and make appropriate inferences. In addition, students distinguish between fact and opinion, determine a writer's purpose and tone, and follow extended analogies. Students become proficient language users, independent learners, and thoughtful members of an academic community.

Prerequisite: Appropriate reading placement test score, or

ENG 22 or ENG 24 with a grade of C or better, or approval from Language Arts Division.

ENG 200 Composition II (3)

Students learn how to plan, develop, organize, and edit various writing projects with clarity and precision. Students write various kinds of papers, including a research project, using general practices within specific areas of concentration.

Prerequisite: ENG 100 or equivalent with a grade of C or higher; or approval from the Language Arts Division.

Recommended Prep: Experience in using computers for writing.

ENG 204 Introduction to Creative Writing (3)

Students will practice writing poems, scenes, and short stories. The course includes creative writing assignments, discussion of professional works, and discussion of each student's writing. May be repeated for additional credit.

Prerequisite: ENG 100 or equivalent with a grade of C or higher; or approval from the Language Arts Division.

Recommended Prep: Experience in using computers for writing.

ENG 207 Fiction Workshop (3)

ENG 207 is a writing workshop designed for students with some knowledge of fiction writing. Through the creation of original short stories and the analysis of published work and student drafts, students will gain knowledge and experience as well as develop creativity within the fiction genre. This course may be repeated once for credit.

Prerequisite: ENG 100 or equivalent with a grade of C or higher; or approval from the Language Arts Division.

Recommended Prep: ENG 204; experience using computers for writing.

ENG 208 Poetry Workshop (3)

English 208 is a poetry writing course designed for students with knowledge of the writing process and some experience in the writing of poetry. Through the creation of original poems and the analysis of published work and student drafts, students will gain knowledge and experience as well as develop creativity within the genre. This course may be repeated once for credit.

Prerequisite: ENG 100 or equivalent with a grade of C or higher; or approval from the Language Arts Division.

Recommended Prep: ENG 204; experience in using computers for writing.

ENG 209 Business Writing (3)

This course is designed for students interested in a career in business. It will teach how to organize and evaluate effective communication in writing—how to compose the various forms of letters and reports found in the business field; how to evaluate job resumes. Most course work must be typed.

Prerequisite: ENG 100 with a C grade or higher, or approval from the Language Arts Division.

Recommended Prep: Experience in using computers for writing.

ENG 211 Autobiographical Writing (3)

Writing clear, effective prose based on the writer's own experience and ideas.

*Prerequisite: ENG 100 or equivalent with a C grade or higher, or approval from the Language Arts Division.
Recommended Prep: Ability to use computer for word processing and research.*

ENG 212 Screenwriting Workshop (3)

ENG 212 introduces students to the narrative and technical aspects of screenwriting. Through the creation of adapted and original screenplays as well as the analysis of screenplays, films, student drafts and other supporting material, students will gain knowledge and experience as well as develop creativity within the screenwriting genre. (This course may be repeated once for credit.)

*Prerequisite: ENG 100 or equivalent with a grade of C or higher; or approval from the Language Arts Division.
Recommended Prep: ENG 204 with a C or higher; experience using computers for writing.*

ENG 225 Technical Writing (3)

Provides practice in creating, designing, and transmitting technical information so that specialists and laypersons can understand it easily.

*Prerequisite: ENG 100 with a C grade or higher, or approval from the Language Arts Division.
Recommended Prep: Experience in using computers for writing.*

ENG 270 Introduction to Literature: Literary History (3)

Study of significant works of selected historical periods.

*Prerequisites: ENG 100 or equivalent with a grade of C or better.
Recommended Prep: Experience in using computers for writing.*

ENG 271 Introduction to Literature: Genre (3)

Study of significant works of selected genres.

*Prerequisites: ENG 100 or equivalent with a grade of C or better.
Recommended Prep: Experience in using computers for writing.*

ENG 272 Introduction to Literature: Culture and Literature

Study of significant works of selected cultures and cultural formations.

*Prerequisites: ENG 100 or equivalent with a grade of C or better.
Recommended Prep: Experience in using computers for writing.*

ENG 272H Introduction to Literature: Culture and Literature (3)

Study of significant works of selected cultures and cultural formations.

*Prerequisites: ENG 100 or equivalent with a grade of C or better.
Recommended Prep: Experience in using computers for writing. Acceptance into the Leeward CC Honors Program.*

ENGLISH LANGUAGE INSTITUTE (ELI)

ELI 10A Beginning Speaking and Listening (NC)

This course is designed to build the oral English skills of non-native speakers of English in order to prepare for academic work in English. This is a beginning listening and speaking course and includes practice in group interaction, public speaking and listening comprehension. Enrollment preference is given to international students wishing to prepare for academic work in English.

Prerequisite: This is a beginning level course with placement into ELI 10A by exam. There are no prerequisite courses.

Corequisite: ELI 10 B, C, D.

ELI 10B Beginning Reading and Writing (NC)

This course is designed to build the reading and writing skills of non-native speakers of English in order to prepare for academic work in English. This is a reading and writing course and includes practice in the following: In reading, the focus is on comprehension, vocabulary development, reading rate and study skills. In writing it emphasizes sentence structure, paragraph organization and usage of formal English grammar. Enrollment preference is given to international students wishing to prepare for academic work in English.

Prerequisite: This is a beginning level course with placement into ELI 10B by exam. No prerequisites.

Corequisite: ELI 10 A, C, D.

ELI 10C Beginning Grammar (NC)

This course is designed to build the English grammar skills of non-native speakers of English in order to prepare for academic work in English. The course emphasizes usage of formal English grammar in written work and in speaking. Enrollment preference is given to international students wishing to prepare for academic work in English.

Prerequisite: This is a beginning level course with placement into ELI 10C by exam. No prerequisites.

Corequisite: ELI 10 A, B, D.

ELI 10D Pronunciation I (NC)

This course is designed to build the English pronunciation skills of non-native speakers of English in order to prepare for academic work in English. This is a pronunciation course and includes practice in discrimination and production of the NAE vowels and consonants and stress and rhythm of the language. Enrollment preference is given to international students wishing to prepare for academic work in English.

Prerequisite: This is a beginning level course with placement into ELI 10D by exam. There are no prerequisite courses.

Corequisite: ELI 10 A, B, C.

ELI 20A Low Intermediate Speaking and Listening (NC)

This course is designed to build the oral English skills of non-native speakers of English in order to prepare for academic work in English. This is a low intermediate listening and speaking course and includes practice in group interaction, public speaking and listening comprehension. Enrollment preference is given to international students wishing to prepare for academic work in English.

Prerequisite: Completion of ELI 10A, 10B, 10C and 10D (pass); placement through testing or approval of the Language Arts Division and ELI Coordinator.

Corequisite: ELI 20 B, C, D.

ELI 20B Low Intermediate Reading and Writing (NC)

This course is designed to build the reading and writing skills of non-native speakers of English in order to prepare for academic work in English. This is a low intermediate reading and writing course and includes practice in the following: In reading, the focus is on comprehension, vocabulary development, reading rate and study skills. In writing it emphasizes paragraph organization, writing good paragraphs and short essays. Enrollment preference is given to international students wishing to prepare for academic work in English.

Prerequisite: Successful completion of ELI 10A, 10B, 10C, 10D (pass); placement through testing or approval of the Language Arts Division and ELI Coordinator.

Corequisite: ELI 20 A, C, D.

ELI 20C Low Intermediate Grammar (NC)

This course is designed to build the English skills of non-native speakers of English in order to prepare for academic work in English. This is a low intermediate grammar course and emphasizes usage of formal English grammar in written work and in speech. Enrollment preference is given to international students wishing to prepare for academic work in English.

Prerequisite: Completion of ELI 10A, 10B, 10C, and 10D (pass); placement through testing or approval of the Language Arts Division and ELI Coordinator.

Corequisite: ELI 20 A, B, D.

ELI 20D Pronunciation II (NC)

This course is designed to build the English pronunciation skills of non-native speakers of English in order to prepare for academic work in English. This is a pronunciation course and includes practice in sounds in connected speech, intonation, sounds in grammar and pronouncing written English. Enrollment preference is given to international students wishing to prepare for academic work in English.

Prerequisite: Completion of ELI 10A, 10B, 10C and 10D (pass); placement through testing or approval of the Language Arts Division and ELI Coordinator.

Corequisite: ELI 20 A, B, C.

ELI 30A High Intermediate Listening and Speaking (NC)

This course is designed to build the oral English skills of non-native speakers of English in order to prepare for academic work in English. This is a high intermediate listening and speaking course and includes practice in group interaction, public speaking and listening comprehension. Enrollment preference is given to international students wishing to prepare for academic work in English.

Prerequisite: Completion of ELI 20A, 20B, 20C and 20D (pass); placement through testing or approval of the Language Arts Division and ELI Coordinator.

Corequisite: ELI 30 B, C, D.

ELI 30B High Intermediate Reading and Writing (NC)

This course is designed to build the reading and writing skills of non-native speakers of English in order to prepare for academic work in English. This is a high intermediate reading and writing course and includes practice in the following: In reading, the focus is on comprehension, vocabulary development, reading rate and study skills. In writing it emphasizes paragraph and essay organization and construction. Enrollment preference is given to international students wishing to prepare for academic work in English.

Prerequisite: Successful completion of ELI 20A, 20B, 20C, 20D (pass); placement through testing or approval of the Language Arts Division and ELI Coordinator.

Corequisite: ELI 30 A, C, D.

ELI 30C High Intermediate Grammar (NC)

This course is designed to build the English skills of non-native speakers of English in order to prepare for academic work in English. This is a high intermediate grammar course and emphasizes usage of formal English grammar in written work and in speech. Enrollment preference is given to international students wishing to prepare for academic work in English.

Prerequisite: Completion of ELI 20A, 20B, 20C, 20D (pass); placement through testing or approval of the Language Arts Division and ELI Coordinator.

Corequisite: ELI 30 A, B, D.

ELI 30D American Culture I (NC)

This course is designed to build the English and cross-cultural skills of non-native speakers of English in order to prepare for academic work in English. This is high intermediate American culture course and focuses on orienting students to the cultural values of the United States as well as other countries and fostering cross-cultural communication. Enrollment preference is given to international students wishing to prepare for academic work in English.

Prerequisite: Completion of ELI 20A, 20B, 20C, 20D (pass); placement through testing or approval of the Language Arts Division and ELI Coordinator.

Corequisite: ELI 30 A, B, C.

ELI 40A Advanced Speaking and Listening (NC)

This course is designed to build the oral English skills of non-native speakers of English in order to prepare for academic work in English. This is an advanced listening and speaking course and includes practice in group interaction, public speaking and listening comprehension. Enrollment preference is given to international students wishing to prepare for academic work in English.

Prerequisite: Completion of ELI 30A, 30B, 30C, 30D (pass); placement through testing or approval of the Language Arts Division and ELI Coordinator.

Corequisite: ELI 40 B, C, D.

ELI 40B Advanced Reading and Writing (NC)

This course is designed to build the reading and writing skills of non-native speakers of English in order to prepare for academic work in English. This is an advanced reading and writing course and includes practice in the following: In reading, the focus is on comprehension, vocabulary development, reading rate, reading strategies and study skills. In writing it reviews paragraph organization and focuses on essay construction. Enrollment preference is given to international students wishing to prepare for academic work in English.

Prerequisite: Successful completion of ELI 30A, 30B, 30C, 30D (pass); placement through testing or approval of the Language Arts Division and ELI Coordinator.

Corequisite: ELI 40 A, C, D.

ELI 40C Advanced Grammar (NC)

This course is designed to build the English skills of non-native speakers of English in order to prepare for academic work in English. This is an advanced grammar course and emphasizes usage of formal English grammar in written work and in speech. Enrollment preference is given to international students wishing to prepare for academic work in English.

Prerequisite: Completion of ELI 30A, 30B, 30C, 30D (pass); placement through testing or approval of the Language Arts Division and ELI Coordinator.

Corequisite: ELI 40 A, B, D.

ELI 40D American Culture II (NC)

This course is designed to build the English and cross-cultural skills of non-native speakers of English in order to prepare for academic work in English. This is an advanced American culture course and focuses on orienting students to the cultural values of the United States as well as other countries and fostering cross-cultural communication. Enrollment preference is given to international students wishing to prepare for academic work in English.

Prerequisite: Completion of ELI 30A, 30B, 30C, 30D (pass); placement through testing or approval of the Language Arts Division and ELI Coordinator.

Corequisite: ELI 40 A, B, C.

ENGLISH AS A SECOND LANGUAGE (ESL)

ESL 1A Beginning Speaking and Listening for Speakers of Other Languages (6)

This course is designed to build the oral English skills of non-native speakers of English in order to prepare for academic work in English. This is a beginning listening and speaking course and includes practice in group interaction, public speaking and listening comprehension. (Formerly ESL 97A. Cross-listed as ELI 10A.)

Prerequisite: This is a beginning level course with placement into ESL 1A by exam.

ESL 2A Beginning Reading for Speakers of Other Languages (3)

This course is designed to build the reading skills of beginning level non-native speakers of English. The focus is on reading comprehension, vocabulary development, reading rate, and study skills. Open only to non-native speakers of English and may be repeated.

Prerequisite: Placement into ESL 2A; or approval from the Language Arts Division.

Corequisite: ESL 3A.

ESL 3A Beginning Writing for Speakers of Other Languages (3)

This course is designed as an intensive writing program for beginning level non-native speakers of English. It emphasizes sentence structure, paragraph organization, and usage of formal English grammar. Open only to non-native speakers of English and may be repeated.

Prerequisite: Placement into ESL 3A; or approval from the Language Arts Division.

Corequisite: ESL 2A.

ESL 4A Beginning English Grammar (3)

This course is designed to build the English grammar skills of non-native speakers of English in order to prepare for academic work in English. The course emphasizes usage of formal English grammar in written work and in speaking. (Formerly ESL 97C. Cross-listed as ELI 10C.)

Prerequisite: This is a beginning level course with placement by ESL exam.

ESL 7B High Intermediate Listening and Speaking for Speakers of Other Languages (6)

This course is designed to build the oral English skills of non-native speakers of English in order to prepare for academic work in English. This is a high intermediate listening and speaking course and includes practice in group interaction, public speaking and listening comprehension. (Formerly ESL 98A. Cross-listed as ELI 30A.)

Prerequisite: ESL 1A with a C or better, placement through testing, or approval of the Language Arts Division.

ESL 8B Intermediate Reading for Speakers of Other Languages (3)

This course is designed to improve the reading skills of intermediate level non-native speakers of English. The focus is on reading comprehension, vocabulary development, reading rate, and study skills. Open only to non-native speakers of English and may be repeated.

Prerequisite: Completion of ESL 2A and 3A with a grade of C or better; or placement into ESL 8B; or approval from the Language Arts Division.

Corequisite: ESL 9B.

ESL 9B Intermediate Writing for Speakers of Other Languages (3)

This course is designed to give the intermediate level non-native speakers of English the skills necessary to write a good paragraph and short essay. Open only to non-native speakers of English and may be repeated.

Prerequisite: Completion of ESL 2A and 3A with a grade of C or better; or placement into ESL 9B; or approval from the Language Arts Division.

Corequisite: ESL 8B.

ESL 10B High Intermediate Grammar (3)

This course is designed to build the English grammar skills of non-native speakers of English in order to prepare for academic work in English. This is a high intermediate grammar course and emphasizes usage of formal English grammar in written work and in speech. (Formerly ESL 98C. Cross-listed as ELI 30C.)

Prerequisite: Completion of ESL 4A with a grade of C or better, placement through testing, or approval of the Language Arts Division.

ESL 18 High Intermediate Reading for Speakers of Other Languages (3)

This course is designed to improve the academic reading skills of high intermediate level non-native speakers of English. The focus is on reading comprehension, vocabulary development, reading rate, and study skills. Open only to non-native speakers of English and may be repeated.

Prerequisite: Completion of ESL 8B and 9B with a grade of C or better; or placement into ESL 18; or approval from the Language Arts Division.

Corequisite: ESL 19.

ESL 19 High Intermediate Writing for Speakers of Other Languages (3)

This course is designed to improve the academic writing skills of high intermediate level non-native speakers of English. The focus is on sentence structure, paragraph organization and essay construction. Open only to non-native speakers of English and may be repeated.

Prerequisite: Completion of ESL 8B and 9B with a grade of C or better; or placement into ESL 19; or approval from the Language Arts Division.

Corequisite: ESL 18.

ESL 21 Advanced Reading for Speakers of Other Languages (3)

This is an advanced level ESL course in reading comprehension and vocabulary development for the non-native speaker. Open only to non-native speakers of English and may be repeated. Students who pass this course and ESL 22 with grades of C or better may enroll in ENG 100E.

Prerequisite: Completion of ESL 18 and 19 with a grade of C or better; or placement into ESL 21; or approval from the Language Arts Division.

Corequisite: ESL 22.

ESL 22 Advanced Writing for Speakers of Other Languages (3)

Advanced ESL course in composition and grammar study for the non-native speaker. Open only to non-native speakers of English and may be repeated. Students who pass this course and ESL 21 with grades of C or better may enroll in ENG 100E.

Prerequisite: Completion of ESL 18 and ESL 19 with a grade of C or better; or placement into ESL 22; or approval from the Language Arts Division.

Corequisite: ESL 21.

ESL 23 Advanced Grammar (3)

This course is designed to build the grammar editing skills of Advanced level non-native speakers of English. It broadens the students' knowledge of grammar as it is used in complex sentence structures. Open only to non-native speakers of English and may be repeated.

Prerequisite: Completion of ESL 18 and ESL 19 with a grade of C or better; or placement into ESL 23; or approval from the Language Arts Division.

ENTREPRENEURSHIP (ENT)

Pending approval of subject code, ENT

ENT 125 Starting a New Business (3)

Surveys the business environment, establishment of a firm, decision-making processes, marketing assessments, financing, operations considerations, and government regulations. Covers development of a business plan. Designed for those who wish to start or are currently operating their own business. Formerly MGT 125

Prerequisite: Completion of or concurrent enrollment in ENG 22 or ENG 24 or equivalent or consent of instructor.

Recommended Prep: BUS 120, MKT 120.

FAMILY RESOURCES (FAMR)

FAMR 230 Human Development (3)

FAMR 230 is a survey of human development from birth to death with emphasis on biological, cognitive and psychosocial development.

Prerequisite: Credit in MATH 22 or higher or equivalent.

Filipino (FIL)

FIL 101 Elementary Filipino I (4)

Basic structures of Filipino with emphasis on listening comprehension, speaking, reading, and writing. Through directed drill and practice in class, the student learns to communicate in idiomatic Filipino.

Recommended Prep: ENG 22 or ENG 24 with grade of C or better or equivalent

FIL 102 Elementary Filipino II (4)

Basic structures of Filipino with emphasis on listening comprehension, speaking reading and writing. Through directed drill and practice in class and in the Learning Resource Center, the student learns to communicate in correct Filipino.

Prerequisite: FIL 101 with C or better, equivalent placement test, or instructor's approval.

Recommended Prep: ENG 22 or 24 with a grade of C or better or equivalent.

FIL 201 Intermediate Filipino I (4)

Emphasizes a variety of sentence constructions in Filipino: non-verbal sentences, exclamatory sentences, primary active and passive affixes, secondary active and passive affixes, causation, and formal and informal ways of communicating with people daily. Emphasizes reading and translating simple dialogues in various situations, both formal and informal. Emphasizes speaking and listening and includes reading and writing.

Prerequisite: FIL 102 with a grade of C or better, or instructor's approval.

FIL 202 Intermediate Filipino II (4)

Emphasizes a variety of sentence constructions in Filipino: nonverbal sentences, exclamatory sentences, primary active and passive affixes, secondary active and passive affixes, causation, and formal and informal ways of communicating with people daily. Emphasizes reading and translating simple dialogues in various situations, both formal and informal. Emphasizes speaking and listening and includes reading and writing. Emphasizes translating paragraphs and answering comprehension questions into English on various topics: weather, Filipino food, the family, holidays, courtship, marriage, divorce, and others.

Prerequisite: FIL 201 with a grade of C or better, or permission of instructor.

FINANCE (FIN)

FIN 150 Personal Finance (3)

A goal-oriented approach to personal financial management covering budgeting, use of financial institutions, income tax effects and strategies, credit risk management, investment analysis, risks, alternatives, financial products and markets, retirement planning and estate planning. Introduction to various financial software programs, including the Internet.

Prerequisite: ENG 22 or ENG 24 with a grade of CR or placement in ENG 100 or equivalent.

FRENCH (FR)

FR 101 Elementary French I (4)

Basic structure of the French language emphasizing listening and reading comprehension and spoken and written expression. Through practice in and outside of class, students learn to use the basic structures of French.

Recommended Prep: ENG 22 or ENG 24 with a grade of C or better or equivalent

FR 102 Elementary French II (4)

Continuation of FR 101. Basic structure of the French language with continued emphasis on listening and reading comprehension and spoken and written expression. Through practice in and outside of class, students learn to use the basic structures of French.

Prerequisites: FR 101 with a grade of C or better or equivalent, or consent of instructor

Recommended Prep: ENG 22 or ENG 24 with a grade of C or better or equivalent, or consent of instructor

FR 201 Intermediate French I (3)

Continuation of FR 102. Students will hone basic language skills acquired in FR 101-102 through reading, conversation, oral presentations, writing, listening, watching movie excerpts and making their own short videos. Through these activities, students will gradually develop confidence and fluency in written and oral expression. Cultural presentations will enhance knowledge and appreciation of the French language and the Francophone world. To this end special attention will be given to French Speaking Oceania, in particular Tahiti and New Caledonia.

Prerequisites: FR 102 with a grade of C or better or equivalent, or consent of instructor

Recommended Prep: ENG 22 with a grade of C or better or equivalent

FR 202 Intermediate French II (3)

Continuation of FR 201. Students will hone basic language skills acquired previously through reading, conversation, oral presentations, writing, listening, watching movie excerpts and making their own short videos. Through these activities, students will gradually develop confidence and fluency in written and oral expression. Cultural presentations will enhance knowledge and appreciation of the French language and the Francophone world. To this end special attention will be given to French Speaking Oceania, in particular Tahiti and New Caledonia.

Prerequisites: FR 201 with a grade of C or better or equivalent, or consent of instructor

Recommended Prep: ENG 22 with a grade of C or better or equivalent, or consent of instructor

FOOD SCIENCE & HUMAN NUTRITION (FSHN)

FSHN 100 Concepts in Nutritional Science (3)

Students will learn about the relationship of food and nutrition to health. Students will study the characteristics, physiological functions, and food sources of the six categories of nutrients, as well as other nutrition-related topics. Special emphasis is placed on understanding the nutrients in relationship with the needs of the human body. This course is required for the AS Degree in Culinary Arts.

Prerequisite: MATH 100C or higher with a grade of C or better.

Recommended Prep: Completion of ENG 22 or ENG 24 with a grade of C or better or equivalent.

FSHN 185 The Science of Human Nutrition (3)

Integration of natural science concepts basic to the study of human nutrition. Emphasis placed on nutrient requirements of healthy individuals and the function of nutrients and their food sources.

Prerequisite: ENG 100 and MATH 82 with a grade of C or better or equivalent, or consent of instructor.

GEOGRAPHY (GEOG)

GEOG 101 The Natural Environment (3)

GEOG 101 surveys Earth's natural systems including the atmosphere, lithosphere, biosphere, and hydrosphere. Basic elements of the natural environment are examined, especially climate, soils, landforms, water and natural vegetation.

Recommended Prep: ENG 22, ENG 24, MATH 82.

GEOG 101L The Natural Environment Lab (1)

GEOG 101L is laboratory course that examines Earth's natural systems including the atmosphere, lithosphere, biosphere, and hydrosphere. The course includes lab work, field data collection, analysis, and reporting.

Prerequisites: GEOG 101 with a grade of C or better or concurrent registration.

Recommended Prep: ENG 22, ENG 24, MATH 82.

GEOG 102 World Regional Geography (3)

Geography of world's major cultural regions; emphasis on geographic aspects of contemporary economic, social and political conditions. Introduction to the study of geographic regions. Each region will be examined in terms of its underlying physical, cultural, economic and political backgrounds.

Recommended Prep: ENG 22 with a grade of C or better or equivalent.

GEOG 122 Geography of Hawai'i (3)

This course examines the physical, biotic, cultural, and socio-economic elements of Hawai'i. These include the study of volcanism, climatic diversity, water features, vegetation, population and land use patterns, and cultural expression, with a focus on understanding the interrelation and inseparability of physical processes and human activities.

Recommended Prep: ENG 22, ENG 24

GEOG 151 Geography and Contemporary Society (3)

GEOG 151 is an introductory survey course on human society and culture. It examines patterns of population and migration, cultural diffusion and change, globalization, economic development, political systems, agriculture and urbanization.

Recommended Prep: ENG 22 with a grade of C or better or equivalent.

GEOLOGY–GEOPHYSICS (GG)

GG 101 Introduction to Geology (3)

Lecture course in the fundamentals of physical geology covering rocks and minerals, volcanoes, earthquakes, external processes of weathering, mass wasting, erosion, the internal processes of magma movement and the dynamics of plate tectonics. Field trips to nearby sites to study local geology are optional. An optional lab course, GG 101L, is offered and students could register concurrently in the lab course.

Recommended Prep: Completion of MATH 22 with a grade of C or better or equivalent.

GG 101L Introductory Geology Lab (1)

Laboratory course offered as an optional part of the introductory geology lecture course. The class will study structure and properties of the earth, rocks and minerals, make topographic maps, interpret geologic maps, interpret seismic data, groundwater properties, and geological time scale. On campus field trips conducted to learn about surface phenomena are optional. Class meets for 3 hours of lab per week.

Prerequisite: Completion of GG 101 with a grade of C or better or concurrent registration in GG 101.

Recommended Prep: Completion of MATH 22 with a grade of C or better or equivalent.

GG 103 Geology of the Hawaiian Islands (3)

Hawaiian geology and geologic processes: origin of Hawaiian Islands, volcanism, rocks and minerals, geomorphology, stream processes, coastal geology, landslides, earthquakes and tsunamis, groundwater, and geological and environmental hazards. Fieldtrips arranged.

Prerequisite: ENG 24 with a grade of C or better or equivalent, and MATH 18 with a grade of C or better or equivalent.

Recommended Prep: Completion of or concurrent enrollment in ENG 100, and completion of or concurrent enrollment in MATH 82.

HAWAIIAN (HAW)

HAW 101 Elementary Hawaiian I (4)

Development of the ability to communicate in Hawaiian through the study of basic structures with an emphasis on speaking, writing, reading and listening comprehension, and cultural understanding. Skills will further be developed through directed drill and practice in the classroom.

Recommended Prep: ENG 22 or ENG 24 with a grade of C or better or equivalent.

HAW 102 Elementary Hawaiian II (4)

HAW 102 continues to develop the ability to communicate in Hawaiian through the study of basic structures with an emphasis on speaking, writing, reading and listening comprehension, and cultural understanding. Skills will further be developed through directed drill and practice in the classroom.

Prerequisite: HAW 101 with a grade of C or better or equivalent.

HAW 201 Intermediate Hawaiian I (4)

HAW 201 is a continuation of HAW 102 in which communication skills that include reading, writing, speaking, and listening, are further developed. Students will become more proficient in Hawaiian while gaining knowledge of more complex structures.

Prerequisite: HAW 102 with a grade of C or better or equivalent.

HAW 202 Intermediate Hawaiian II (4)

HAW 202 is a continuation of HAW 201 focusing on further development and refinement of communication skills. Students will become more proficient in Hawaiian while gaining knowledge of more complex structures.

Prerequisite: HAW 201 with a grade of C or better or equivalent.

HAWAIIAN STUDIES (HWST)

HWST 105 Mea Kanu Hawai'i: Hawaiian Ethnobotany (3)

This class is an introductory survey course of Hawaiian ethnobotany. Students will learn about basic plant classification, cultivation/gathering, preparation and use in food, medicine, ritual/ceremonies, cosmetics, dyeing, construction, tools, clothing, social-life and/or health care.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or placement in ENG 100 or instructor consent.

HWST 105L Mea Kanu Hawai'i: Hawaiian Ethnobotany Laboratory (1)

Companion laboratory to HWST 105 Mea Kanu Hawai'i: Hawaiian Ethnobotany. The laboratory and field activities in HWST 105L provide students with an understanding of ethnobotany through plant classification, cultivation/gathering, preparation and use in food, medicine, ritual/ceremonies, cosmetics, dyeing, construction, tools, clothing, social life and/or health care.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or placement in ENG 100 or HWST 105 with a grade of C or better or concurrent or instructor approval

HWST 107 Hawai'i: Center of the Pacific (3)

An introduction to the unique aspects of the native point of view in Hawai'i and the larger Pacific with regards to origins, language, religion, land, art, history and modern issues.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or placement in ENG 100 or instructor consent.

HWST 160 Hula Nei I (3)

This course is an introduction to hula and oli (chant). It will explore Hawaiian history and literature associated with hula as well as hula protocols, and traditional and contemporary hula dance forms, basic hula movements, hula instruments and oli. The course is repeatable twice.

Prerequisite: ENG 22 or placement in ENG 100 or instructor consent.

Recommended Prep: HAW 101, HAW 102, HWST 107 or HWST 270 with a grade of C or better or equivalent.

HWST 161 Hula Nei II (3)

HWST 161 is beginning hula and oli and is a continuation of HWST 160. Hula and oli are chosen from selected bodies of work used to facilitate increased complex movement sequences, rhythmic structures and techniques. The course work includes Hawaiian history and literature associated with oli and hula as well as hula protocols and traditional and contemporary dance forms.

Prerequisites: HWST 160 with a grade of C or better; or DNCE 160 with a grade of C or better.

Recommended Prep: One or more of HAW 101, HAW 102 or HWST 107 or HWST 270 or HUM 261 is helpful but not necessary for admission to this class.

HWST 261 Hawaiian Literature (3)

A survey of Hawaiian literature in English translation is studied in the context of the Hawaiian culture. Its characteristics, forms, relation to other Hawaiian arts, history and society are examined. Hawaiian literature can include but is not limited to prose narration, poetry and orature.

Prerequisite: ENG 100 with a grade of C or better or equivalent.

Recommended Prep: HWST 107

HWST 270 Hawaiian Mythology (3)

An introduction to Hawaiian mythology and mo'olelo as a basis of understanding (or a reflection) of Hawaiian culture, values, metaphor and Worldviews. This course will investigate and analyze oral and written Hawaiian literary sources and the roles of akua, 'aumakua, kupua and kánaka.

Prerequisite: HWST 107 with a grade of C or better.

HWST 281 Ho'okele I: Hawaiian Astronomy and Weather (3)

Introduction to the basic principles and techniques of contemporary Pacific voyaging and their basis in astronomical, atmospheric, and other natural phenomena. May be repeated once for additional credit.

Prerequisite: HWST 107 with a grade of C or better

Recommended Prep: HAW 101

HWST 281L Ho'okele I: Hawaiian Astronomy and Weather Lab (1)

Companion laboratory to HWST 281 (Ho'okele I: Hawaiian Astronomy & Weather). The laboratory and field activities in HWST 281L provide students with an introduction and opportunity to apply the basic principles, techniques, and experimental methods of contemporary Pacific wayfinding learned in HWST 281. May be repeated twice for additional credit.

Prerequisite: HWST 281 with a grade of C or better or concurrent registration

HWST 291 Contemporary Hawaiian Issues (3)

This course is a critical study and interdisciplinary introduction to contemporary, domestic and international Hawaiian issues within their historical, social, cultural and political contexts.

Prerequisite: ENG 100 with a grade of C or better or equivalent and HWST 107 with a grade of C or better.

HWST 292 Kūkulu Mana'o: Hawaiian Studies Capstone Project (1)

This is the capstone course for the AA in Hawaiian Studies Program. It requires students to integrate knowledge gained in the Associate in Arts in Hawaiian Studies program. Students will collaborate with faculty to design and complete a project which demonstrates that students can describe aboriginal Hawaiian linguistic, cultural, historical and political concepts, apply those concepts in other areas, and analyze topics relevant to the aboriginal Hawaiian community. May be repeated once for additional credit.

Prerequisites: HWST 107, HWST 270, HAW 101 and HAW 102 with a grade of C or better.

HEALTH (HLTH)

HLTH 110 Medical Terminology (2)

Medical Terminology includes pronunciation, spelling, and definition of medical terms pertaining to all systems of the body and supplementary terms applicable to specialty areas of medicine, selected paramedical fields, medical assisting and coding. Emphasis is on increasing professional vocabulary and proficiency in spelling and medical terms.

Prerequisite: ENG 24 with a grade of C or better or equivalent.

HLTH 120 Introduction to the Health Professions (1)

This course introduces students to the concepts of health and disease, health care systems, organizational structure and function of primary, tertiary, and community-based health facilities, health care ethics, and the health care team in individualized patient care.

Prerequisite: ENG 24 with a grade of C or better or equivalent.

HLTH 125 Survey of Medical Terminology (1)

HLTH 125 develops the students' knowledge of prefixes, suffixes, and word roots used in medical terminology to help students analyze, understand and correctly use medical terms. It covers pronunciation, spelling, and definitions of selected medical words dealing with all human body systems. Commonly used medical abbreviations and pharmacological terms as well as singular and plural forms are also covered.

Prerequisite: ENG 24 with a grade of C or better or equivalent.

HEALTH INFORMATION TECHNOLOGY (HIT)

HIT 101 Healthcare Delivery Systems (3)

Students learn about the current structure, organizations, activities, and future direction of hospitals, mental health and ambulatory care facilities and hospices in the United States. Students will also explore government regulations, medical ethics, healthcare financing, and the responsibilities of healthcare professionals.

Recommended Prep: ENG 22 or ENG 24, with a grade of C or better, or equivalent.

HIT 102 Health Data, Records, and Documentation (3)

Give students the opportunity to design, develop, and process health information data. Students learn how health information is stored, retained, and retrieved in accordance with ethical, legal and voluntary rules, regulations and standards. Primary and secondary record systems will be covered, including numbering and filing systems, documentation and form requirements, screen designs and content, and usage and structure of health data sets. In addition, students learn about ambulatory care facilities, nursing homes, hospices, and home care offered in the United States. Students also explore the electronic health record, human resource supervision and resource management and the responsibilities of healthcare professionals.

Recommended Prep: ENG 22 or ENG 24, with a grade of C or better, or equivalent

HIT 106 Introduction to Medical Coding (3)

This course introduces the classification systems employed to organize medical information for future retrieval. The Current Procedural Terminology - 4 (CPT-4) coding system is emphasized including the impact to physician office coding and reimbursement. Course work focuses on understanding the coding procedures as well as the impact that coding has on the healthcare delivery system (in reimbursements, as well as gathering data for statistics and research). Professional certification in Medical Coding may require work experience and a more advanced course.

Prerequisites: HLTH 110, or equivalent or the consent of the instructor.

HIT 108 Introduction to Diagnosis Coding (3)

Introduces students to diagnostic coding related to ICD-10-CM and ICD-10-PCS and Diagnosis Related Groups (DRGs). Students learn the rules, methodology, sequencing, data sets, documentation requirements, ethics, and basic reimbursement technologies related to diagnostic coding in the medical field.

Prerequisites: HLTH 110, BIOL 130, BIOL 130L, or equivalent each with a grade of C or better or instructor's consent.

Concurrent or prior credit in HIT 200, or instructor approval.

HIT 109 Introduction to Procedure Coding (3)

Introduces students to basic procedural coding, which includes Current Procedural Terminology (CPT) and Ambulatory Patient Classifications (APCs). Issues of fraud and abuse, coding compliance, and compliance programs are emphasized.

Prerequisites: HLTH 110, BIOL 130, BIOL 130L or ZOOL 240 or ZOOL 241, or equivalent each with a grade of C or better or equivalent or instructor's consent.

Recommended Prep: BUS 101.

HIT 115 Reimbursement Methodologies (3)

Students become familiar with health insurance terminology and the health insurance claims processing cycle. The billing systems are introduced for various healthcare organizations including federal, Veterans Affairs, state, private, and managed care health insurance plans. Legal issues and regulations related to reimbursement are covered.

Prerequisite: HIT 108 and HIT 109 with a grade of C or better or instructor approval.

Recommended Prep: ENG 22 or ENG 24 with a grade of C or better, or equivalent; BUS 101 or equivalent.

HIT 171 Health Data, Information, Law, and Ethics (3)

Introductory course into medical records which integrates all phases of the records management cycle while complying with state and federal regulations and laws. Topics include: privacy and access laws, release of medical information, e-discovery, privacy and security audits; Health Insurance Portability and Accountability Act (HIPAA); American Recovery and Reinvestment Act (ARRA); and The Patient Protection and Affordable Care Act (PPACA) and the impact on health information.

HIT 176 Statistics with Healthcare Science Applications (3)

HIT 176 covers principles of statistics with applications to healthcare science. Statistical methods include collection, maintenance, organization, presentation, interpretation, and quantitative analysis of data from primary and secondary sources. Terminology, examples and assignments from healthcare science are incorporated throughout the course.

Prerequisites: HIT 102 and BUS 101 with a grade of C or better or instructor consent.

Recommended Prep: ENG 22 or ENG 24, Mathematical skills and practices at the Common Core level.

HIT 192 Professional Practice Experience and Registered Health Information Technologist Exam Prep (3)

This course aids the student in making the transition from student to employee by practicing and testing professional competencies needed for employment in the Health Information Management (HIM) career field. Student will perform advanced functions of the HIM department in a controlled virtual environment with the guidance of the instructor. The activities will represent application of all health information technology (HIT) coursework. The student will also be placed in a HIM facility for the purpose of assimilating theory with practice for the Professional Practice Experience (PPE) portion. The student will also experience the structure and format of the American Health Information Management Association (AHIMA) Registered Health Information Technician (RHIT) credential exam. By completing practice exams the student will acquire testing skills and knowledge to be prepared to take the RHIT credential exam. Student is required to register and attempt the AHIMA RHIT credential exam as a requirement of this course. (Replacing BUSN 192V in program).

Prerequisite: BUS 101, HIT 102, HIT 108, HIT 109 and HIT 115 with a grade of C or better and HIT 176, 208 and 209 with a grade of C or better or concurrent or instructor approval.

Recommended Prep: ENG 22 or ENG 24. Course should be taken in the student's final semester as the work completed in the prior 3 semesters build on the skills needed to complete this course.

HIT 200 Disease Pathology and Pharmacology (3)

Students learn the definition, cause, diagnosis, and symptoms of specific diseases. Therapy with medications (pharmacology) and the effects of drugs on the human body, in terms of absorption, distribution, metabolism, and excretion, are explored.

Prerequisite: C or better in BIOL 130, BIOL 130L, and HLTH 110 or the approval of the instructor.

Recommended Prep: Completion of ENG 22 or ENG 24, BUS 101 with a grade of "C" or better or equivalent.

HIT 208 Advanced Coding I (3)

Students build on skills learned in HIT 108, Introduction to Diagnostic Coding, and HIT 109, Introduction to Procedure Coding. Students apply diagnostic and procedure coding to advanced scenarios and complex patient records. Computerized coding systems and coding conventions will be covered. Students also analyze the impact of coding complications on healthcare reimbursements.

This course may be taken concurrently with HIT 209.

Prerequisites: HIT 108 and HIT 109 with a grade of C or better or instructor approval.

HIT 209 Advanced Coding II (3)

Students build on skills learned in HIT 108, Introduction to Diagnostic Coding, and HIT 109, Introduction to Procedure Coding. Students apply diagnostic and procedure coding to advanced scenarios and complex patient records. Computerized coding systems and coding conventions will be covered. Students also analyze the impact of coding complications on healthcare reimbursements.

This course may be taken concurrently with HIT 208.

Prerequisites: HIT 108 and HIT 109 with a grade of C or better or instructor approval.

Recommended Prep: ENG 22 or ENG 24, with a grade of C or better, or equivalent.

HIT 215 Quality Management (3)

The course presents a comprehensive introduction to the theory, practice, and management of performance and quality improvement processes in healthcare organizations. The course prepares students with an understanding of the functions performed by HIM professionals in quality-related roles and given quality related responsibilities, performing Quality Management (QM), tasks in their jobs.

Prerequisites: HLTH 110, HIT 108, HIT 109, HIT 200, BIOL 130 and BIOL 130L or instructor approval.

Recommended Prep: HIT 101, HIT 102, HIT 208, HIT 209, BUSN 101 and ENG 22 or ENG 24.

HIT 220 Healthcare Computing and Electronic Health Records (EHR) (3)

Students learn how computers and technology are used in various healthcare settings, and about software applications that are specific to health information technology. Security, privacy, electronic healthcare records, electronic records, and technology implementation issues are also covered.

Prerequisites: HIT 101 and HIT 102, with a grade of C or better or instructor approval

Recommended Prep: ENG 22, or ENG 24 with a grade of C or better, or equivalent.

HIT 225 Health Information Management (HIM) Supervisory Management (3)

Students will learn management principles used in healthcare organizations (specifically HIM departments and functions), including supervision, budgeting, and policies and procedures. Emphasis is also on communication within the organization and problem solving.

Prerequisites: HIT 101 and HIT 102, with a grade of C or better or instructor approval.

Recommended Prep: ENG 22 or ENG 24, with a grade of C or better, or equivalent.

HISTORY (HIST)

HIST 151 World History to 1500 (3)

A global and historical survey focusing on human societies and cross-cultural interactions to 1500 CE. Emphasis is given to broad relationships and trends within the historical process and to political, religious, economic, and social changes.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent, or consent of instructor.

HIST 152 World History Since 1500 (3)

A global and historical survey focusing on human societies and cross-cultural interactions since 1500 CE. Emphasis is given to broad relationships and trends and to the political, religious, economic and social changes most relevant to contemporary society.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent, or consent of instructor.

HIST 231 Modern European Civilizations I (3)

Political evolution and major economic, social, and cultural development of European states, 1500-1800.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better, or its equivalent.

Recommended Prep: HIST 152.

HIST 232 Modern European Civilizations II (3)

A survey of the political evolution, and major economic, social, and cultural development of European states, 1500-1800.

Prerequisite: ENG 22, ESL 22, or ENG 24 with a grade of C or better, or its equivalent; or consent of instructor.

Recommended Prep: HIST 152.

HIST 241 Asian Civilizations I (3)

A survey of the history of Asian civilizations with emphasis upon Japan, China, Korea, South Asia, and Southeast Asia from their earliest development to approximately 1500 CE.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent.

Recommended Prep: HIST 151 is helpful but not necessary.

HIST 242 Civilizations of Asia II (3)

A continuation of HIST 241. Survey of East, South and Southeast Asian civilizations from 1500 CE to the present.

Prerequisite: ENG 22, ESL 22, or ENG 24 with a grade of C or better or equivalent, or consent of the instructor.

Recommended Prep: HIST 152.

HIST 244 Introduction to Japanese History (3)

Introductory course emphasizing the institutional history of Japan, organized along chronological and topical lines.

Prerequisite: ENG 22, ESL 22, or ENG 24 with grade of C or above, or equivalent, or consent of instructor

Recommended Prep: HIST 151 and/or HIST 152

HIST 251 Islamic Civilization (3)

History 251 focuses on the history and culture of the Muslim World from the rise of Islam in the seventh century to about 1500.

Prerequisite: ENG 100 with a grade of C or better or equivalent or instructor approval.

Recommended Prep: HIST 151 or REL 151.

HIST 260 Twentieth Century World History (3)

This course covers the major individuals and political, economic, social, and cultural events of the world during the twentieth century. Emphasis will be placed on global relationships, conflict, and changing patterns of interaction among cultures and peoples in an era of near-constant change.

Prerequisite: ENG 22, ESL 22 or ENG 24 with a grade of CR or higher or consent of instructor.

Rec Prep: HIST 152

HIST 281 Introduction to American History I (3)

A survey of the development of the American continent beginning with the arrival of Europeans and proceeding through the periods of exploration, colonization, revolution and expansion up to the Civil War and Reconstruction. Emphasis is placed on the social and political evolution of the United States.

Prerequisites: ENG 24 with a grade of CR or better or equivalent or consent of the instructor.

Recommended Prep: HIST 152.

HIST 282 Introduction to American History II (3)

A survey of the continuing development of the United States from the end of Reconstruction to the present time. Emphasizes the social and political structure and analyzes the major historical forces, movements and cultural developments which have brought the United States to its present position.

Prerequisites: ENG 24 with a grade of CR or better or equivalent or consent of the instructor.

Recommended Prep: HIST 152.

HIST 284 History of the Hawaiian Islands (3)

This course is a survey of the history of the Hawaiian Islands from Polynesian origins to contemporary multi-cultural society. The course focuses on social, economic, and political developments through history, further examining the Hawaiian responses to these developments.

Prerequisite: ENG 100 or equivalent with a grade of C or better.

HIST 288 History of the Pacific Islands (3)

HIST 288 is an introduction to the history of Oceania from early settlement of the region to modern times.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent, or consent of instructor.

Recommended Prep: HIST 151, HIST 152, or PACS 108

HORTICULTURE (HORT)

HORT 110 Hawai'i Horticulture & Nutrition (3)

The course provides opportunities for hands-on learning on campus using the shade house and gardens for plant maintenance and propagation. It explores uses of native, introduced and other culturally important plants found in Hawai'i. Botanical concepts of plant structure and function are examined in light of horticultural application. Proper nutritional principles are applied to plant uses including food preparation. Field trips and student projects provide additional active learning opportunities.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent.

Corequisite: HORT 110L.

HORT 110L Hawai'i Horticulture & Nutrition Lab (1)

Companion course to HORT 110. This course will provide opportunities for hands-on learning on campus using the shade house and gardens for plant maintenance and propagation. It explores uses of native, introduced and other culturally important plants found in Hawai'i. Botanical concepts of plant structure and function are examined in light of horticultural application. Proper nutritional principles are applied to plant uses including food preparation. Field trips, and student projects provide additional active learning opportunities.

Prerequisite: ENG 22, or ENG 24, with a grade of C or better or equivalent.

Corequisite: HORT 110.

HOSPITALITY AND TOURISM (HOST)

HOST 101 Introduction to Hospitality and Tourism (3)

HOST 101 provides an overview of the travel industry and related major business components. Students will analyze the links between travel, lodging, food, recreation, and other tourism-related industries.

(Formerly TIM 101)

HOST 152 Front Office Operations (3)

Studies the philosophy, theory, equipment, and current operating procedures of a hotel front office. Concentrates on the human relation skills necessary for effective guest and employee relations and the technical skills necessary to operate a manual, mechanical, or computerized front office operation.

Recommended Prep: HOST 101.

HOST 154 Food and Beverage Operations (3)

HOST 154 introduces the basic principles of marketing, menu planning, service styles, nutrition, sanitation and safety, purchasing and control systems as they apply to food and beverage management in an operational setting. The class provides practical applications for effectively managing resources for food and beverage industry operations.

Recommended Prep: HOST 101.

HUMAN SERVICES (HSER)

HSER 100 Self Exploration (3)

This group process course provides an opportunity for learner exploration of personal values, attitudes, and the development of goals to support greater insight and understanding of self and others. The learners are encouraged to identify and assess personal characteristics that are hampering growth and to apply methods of change-action plans. Critical self-reflection and analysis within a life span/stage model of human development is the foundation of the course content. The course specifically supports the development of knowledge and skills for people interested in entering any of the human service and helping professions, education, health sciences, justice, etc. and for those who desire developing healthy relationships with others.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent or consent of instructor.

HSER 140 Individual Counseling (3)

This course is designed to upgrade the knowledge and skills for people who are currently working in the counseling field and to introduce newcomers to the field who wish to pursue a possible career in the helping professions. Learners will practice interviewing and attending skills through role-plays and be exposed to various theories of counseling, assessment and treatment practices, as well as ethical guidelines for work in the field of human service and helping professions.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent and HSER 100 with a grade of C or better, or consent of instructor.

HSER 160 Effective Parenting (3)

The course explores various approaches and styles of successful parenting. It exposes learners to important developmental issues surrounding children and families and reviews functional and dysfunctional communication and parenting styles. Research on healthy parenting attitudes and behaviors are introduced within the framework of a family systems model. The course intends to upgrade the attitudes and skills of individual parents, those who may become parents, as well as service providers who work with children and families. Another goal is to instill the importance of a child's need to receive respect and love.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent or consent of instructor.

Recommended Prep: HSER 100.

HSER 245 Group Counseling (3)

This course provides theoretical and experiential training in facilitating self-exploration and growth groups. It is designed to encourage knowledge and skill development in selecting group members, establishing group norms and goals, attending to ethical codes of conduct, setting group climate, developing group activities, promoting group and individual growth, and making appropriate group interventions. Learners will be members of an in-class group and also be responsible for facilitating a group. Theories of group counseling will be explored. This course supports the development of learners who are either currently working in the field, or who wish to enter human service or one of the helping professions.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent and HSER 100 with C or better, or consent of instructor.

HSER 248 Case Management (3)

The Case Management course enlists a systems, strength-based and client-centered approach for successful work in this field. Over the course of the semester learners examine the multiple roles required of a case manager and the various fields and functions, which they may engage. While employing a culturally sensitive approach, examination of client needs is undertaken that is based upon an assessment and research of available resources. Adoption of a code of ethics and an attitude of client empowerment is encouraged. Attention is given to the development of microskills and to the explication of the legislative process. Exploration of how legislative decisions influence policies and available resources for the case manager. Additional focus is given to the importance of comprehensive documentation throughout the case management process. (Previously offered as experimental courses HSER 297L.)

Prerequisite: ENG 22 or ENG 24 with a grade of C or better, or equivalent, or consent of instructor.

Recommended Prep: HSER 100

HSER 256 Dynamics of Family Violence & Sex Assault (3)

This course is designed to encourage the development of knowledge, skills, and the sensitivity necessary for engaging individuals and families affected by sexual assault, intimate partner violence, and non-familial violence. Course content focuses on the victimization of children, adults, the elderly, and other vulnerable populations. The course examines various influences that may encourage perpetrators and socio-cultural beliefs and behaviors that propagate sexual and physical violence, the historical responses, as well as a review of relevant state and federal laws. Victim, survivor, and perpetrator dynamics, current trends, intervention strategies, and community resources are identified. Learners have an opportunity to explore their own values and feelings in relation to a difficult subject matter.

Prerequisites: ENG 22 or ENG 24 with a grade of CR or equivalent or placement in ENG 100 or instructor consent.

Recommended Prep: HSER 100 and basic internet, computer knowledge and navigation ability

HSER 268 Survey of Substance Use and Addiction (3)

This course explores the effects of substance use across the continuum from use to addiction. Examination of the impact of substances on the individual, the family, and society is undertaken. Historical and societal perceptions toward substances and patterns of substance use and addiction, current trends, legal responses, and the effectiveness of various treatment interventions, are investigated.

Prerequisites: ENG 22 or ENG 24 with a grade of CR or equivalent or placement in ENG 100 or instructor consent.

Recommended Prep: HSER 100 and knowledge of computers and the internet.

HSER 270 Substance Abuse Counseling (3)

This course is designed for people interested in pursuing work as a substance abuse counselor. The course material covers aspects of the counseling process and specifically, the 12 Core Functions engaged by the substance abuse counselor. It also attends to the treatment process, which includes the continuum of care: prevention, intervention, and aftercare practices. Ethical and legal issues affecting substance abuse counselors are also identified.

Prerequisite: ENG 22 or ENG 24 or equivalent and HSER 268 with grade of C or better, or consent of instructor.

Recommended Prep: HSER 140

HSER 294 Seminar & Fieldwork I (3)

The HSER 294 Seminar and Fieldwork I course is the first of two required courses, which offers the intern enrolled in the Certificate of Competence in Substance Abuse Counseling Program a graduated internship experience in which s/he is able to complete 200 hours of onsite fieldwork in an approved addiction treatment facility. In the weekly seminar, the learner examines in depth the 12 Core Functions of the substance abuse counselor and the ethical and legal mandates under which s/he must practice. Individual strengths and challenges are identified in relationship to the onsite experiences and the learner begins to develop a professional identity as a substance abuse counselor by applying the knowledge, skills, and values that s/he has learned in the previous program courses. Attention also is given to how to attend to one's self-care while working within a stressful and demanding field.

Prerequisites: Acceptance into the Certificate of Competence in Substance Abuse Counseling Program and HSER 100, HSER 140, HSER 245, HSER 268, HSER 270 with a grade of C or better or permission of instructor.

HSER 295 Seminar & Fieldwork II (3)

The HSER 295 Seminar and Fieldwork course is the second of two required courses, which offers the intern enrolled in the Certificate of Competence in Substance Abuse Counseling Program a graduated internship experience in which s/he is able to complete 200 hours of onsite fieldwork in an approved addiction treatment facility. In the weekly seminar, the learner examines in depth the 12 Core Functions of the substance abuse counselor and the ethical and legal mandates under which s/he must practice. Individual strengths and challenges are identified in relationship to the onsite experiences and the learner begins to develop a professional identity as a substance abuse counselor by applying the knowledge, skills, and values that s/he has learned in the previous program courses. Attention also is given to how to attend to one's self-care while working within a stressful and demanding field.

Prerequisites: Acceptance into the Certificate of Competence in Substance Abuse Counseling Program and HSER 294 with a grade of C or better or permission of instructor.

INFORMATION & COMPUTER SCIENCE (ICS)

ICS 100 Computing Literacy and Applications (3)

An introductory survey of computers and their role in the information world emphasizing computer terminology, hardware, and software. Opportunities for "hands-on" experience using applications software may include spreadsheets, word processing, presentations, and communications.

ICS 101 Digital Tools for the Information World (3)

Fundamental information technology concepts and computing terminology, productivity software for problem solving, computer technology trends and impact on individuals and society. Emphasizes the utilization of operating systems and the production of professional documents, spreadsheets, presentations, databases, and web pages.

ICS 110 Introduction to Programming (3)

A gentle introduction to coding for anyone. Students use design strategies to create programs. Promotes an understanding of basic programming constructs, including control structure and object-oriented programming. The alpha suffix indicates technology such as: P - Python, C - C/C++, D - Animation/Java, M - Mobile, R - Robotics, G - Games, S - C#. Students are able to receive credit for completing the course if the alpha differs.

Recommended Prep: ICS 100, ICS 101

ICS 111 Introduction to Computer Science I (3)

An overview of the fundamentals of computer science emphasizing problem solving, algorithm development, implementation, and debugging/testing using an object-oriented programming language is covered.

Prerequisite: ENG 22 or ENG 24 or equivalent with a grade of C or better and MATH 82 with a grade of CR or better or consent of instructor.

ICS 125 Personal Computer Maintenance and Repair (3)

Introduction to the hardware components of microcomputer systems. The specification, selection, installation, and configuration of PC hardware components including motherboards, RAM, video, sound, network cards, storage devices, monitors, and printers are covered. Advantages and disadvantages of hardware components, and compatibility issues are discussed. Opportunities for “hands-on” activities include the installation and configuration of said components and system software.

Prerequisite: ENG 22 or ENG 24, and MATH 82 or their equivalents with grades of C or better; consent of instructor.

Recommended Prep: ICS 100 or ICS 101.

ICS 129 Introduction to Databases (3)

This course covers the fundamental concepts in database technology, including storage structures, access methods, recovery, concurrency and integrity. The relational model and its implementation will be covered in depth together with an overview of SQL and its role in application development. The course also presents an overview of database administration, including modeling and design activities. A substantial part of the course involves the development of an understanding of database concepts. (Formerly ICS 106, ICS 113).

ICS 141 Discrete Mathematics for Computer Science I (3)

This course includes logic, sets, functions, matrices, algorithmic concepts, mathematical reasoning, recursion, counting techniques, and probability theory.

Prerequisite: Placement in MATH 135 or instructor consent.

ICS 170 Ethics for the Digital World (3)

An overview of ethical issues and regulations in the digital world related to networked communications, intellectual property, privacy, computer and network security, computer reliability, and workplace issues.

ICS 171 Introduction to Computer Security (3)

Examines the essentials of computer security, including risk management, the use of encryption, activity monitoring, intrusion detection; and the creation and implementation of security policies and procedures to aid in security administration.

Prerequisites: ICS 184 with a grade of C or better or concurrent registration or consent of the instructor.

Recommended Prep: ICS 170

ICS 172 Network Design and Administration (3)

This course covers the network design fundamentals including basic switching and routing, layer 2 and 3 protocols, wired and wireless networking and wide area networking. Fundamental network administration techniques will also be covered as the complement to network design.

Prerequisite: ICS 184 with a grade of C or better or consent of instructor.

ICS 184 Introduction to Networking (3)

This course provides the student with the knowledge and skills to manage, maintain, troubleshoot, install, operate and configure basic network infrastructure, as well as to describe networking technologies, basic design principles, and adhere to wiring standards and use testing tools.

ICS 211 Introduction to Computer Science II (3)

Reinforce and strengthen problem-solving skills using abstract data types and introduce software development practices. Emphasize the use of searching and sorting algorithms and their complexity, recursion, object-oriented programming, and data structures.

Prerequisite: ICS 111 with a grade of "B" or higher, or instructor consent.

ICS 212 Program Structure (3)

Program organization paradigms, programming environments, implementation of a module from specifications, the C and C++ programming languages.

Prerequisite: ICS 211 with a grade of "B" or better, or instructor consent.

ICS 215 Introduction to Scripting (3)

Introduction to scripting languages for the integration of applications and systems. Scripting in operating systems, web pages, server-side application integration, regular expressions, event handling, input validation, selection, repetition, and parameter passing for languages such as Perl, JavaScript, PHP, Python, and/or shell scripting.

Prerequisite: ICS 111 with a "B" or higher or consent of instructor.

ICS 240 Operating Systems (3)

This course will introduce students to various aspects of operating systems. This course will examine and explore the structure, basic functionality, user administration, troubleshooting, system and application software installation of operating systems. Advanced topics of shell scripting, system security, maintenance and essential services will be covered.

Prerequisite: ICS 111 with a grade of C or better, or concurrent enrollment, or instructor consent.

ICS 241 Discrete Mathematics for Computer Science II (3)

Includes program correctness, recurrence relations and their solutions, divide and conquer relations, graph theory, trees and their applications, Boolean algebra, introduction to formal languages and automata theory.

Prerequisite: ICS 141 with a grade of "C" or higher, or instructor consent.

ICS 270 Systems Analysis (3)

Use of tools to analyze, design, develop, test, document and implement a system.

Prerequisite: ICS 111 and ICS 129 each with a grade of C or better, or instructor consent.

ICS 281 Ethical Hacking (3)

This course covers basic ethical hacking techniques also known as white hat hacking. It stresses the moral and legal issues about hacking and how these techniques can be used to defend against attacks as well as to perform authorized system security evaluation testing.

Prerequisite: ICS 170 and ICS 171 with a grade of C or better or consent of instructor.

Recommended Prep: ICS 184 and ICS 240 and be able to use the Linux operating system.

ICS 282 Computer Forensics (3)

This course covers basic computer forensics including operating system diagnostics, the use of forensic toolkits to examine and validate computer activity and techniques for the proper collection, examination and preservation of forensic evidence.

Prerequisite: ICS 170 and ICS 171 with a grade of C or better or consent of instructor.

Recommended Prep: ICS 184 and ICS 240 and be able to use the Linux operating system.

ICS 283 Advanced Network Routing and Optimization (3)

This course covers the advanced network design components including advanced Internet Protocol Version 4 (IPv4) and Internet Protocol Version 6 (IPv6) routing, route optimization, utilities to maintain the network and three of the most widely used routing protocols.

Prerequisite: ICS 172 with a grade of C or better, or concurrent, or consent of instructor.

ICS 293D Cooperative Education (3)

Provides practical work experiences in the computer area to apply classroom knowledge and to develop job skills. May be part-time work in the private sectors of the business, government or industrial communities or may be directed study in a particular computer area. The student will meet with the instructor at least once a month and prepare written reports as directed. Acceptance into the courses is by permission of the instructor.

Prerequisite: completion of 12 or more credits in ICS courses and declared AS-ICS program and cumulative GPA of 2.0 and if the student obtains a paid coop, the student must be eligible for employment.

INTERDISCIPLINARY STUDIES (IS)

IS 1B Assessment Semester (NC)

A non-credit designed for students who score at the remedial level in both English and Math. Its purpose is to help students determine whether or not college is an appropriate choice for them. Students get to know themselves, the world of work, and the community through a series of values and personality inventories and investigations into community issues.

IS 10 College Success Seminar (NC)

The College Success Seminar supports first time college students in making important transitions to college and building connections on campus that contribute towards a successful college experience. (Formerly IS 197F)

IS 100A Jump Start Your College Success (1)

IS 100A is a modular one-credit course providing students fundamental college success skills, i.e. using college resources, life management, goal setting, life planning, As a modular one-credit course it may be offered several times through the semester to accommodate instructors' and students' needs. (Students cannot take both IS 100A and IS 100 for credit.)

IS 103 Introduction to College (3)

This course will introduce students to college life and focus on essential transitional elements that promote academic success and personal goals. Students will have an opportunity to become familiar with college and community resources, acquire skills which support academic achievement and provide opportunities to develop personal goals, self-confidence and personal responsibility for lifelong learning. (Formerly IS 100 Freshman Year Seminar)

IS 104 Career/Life Exploration and Planning (1)

Survey course offering preparation for initial career/life exploration and planning. Emphasis on career decision-making, assessment of self-information, world-of-work information, self-assessed interests, values, and a survey of occupational clusters and related academic preparation. Upon completion of this course, students will have developed a basic career action plan comprised of a career goal statement and short-term and long-term career and educational objectives. May be repeated once for additional credit.

IS 105 Career/Life Exploration and Planning (3)

Preparation for effective career decisions, development of a career profile, survey of occupational clusters and job market, preparation of resumes, employment interview and job seeking techniques, introduction to cooperative education. Primarily for persons seeking direction with reference to career decisions.

IS 106 Career Shadowing (1)

An exploratory opportunity to get a first-hand look at the work world in occupational areas related to the student's chosen career interest. Students will be placed at work sites with employers who will provide them an opportunity to observe the work environment and learn from professionals in the field. Through this experience, the student will have a chance to learn about various occupations and the skills needed to be successful on the job.

Recommended Prep: ENG 18 with a grade of C or better or equivalent and ENG 19 with a grade of C or better or equivalent

IS 107V Student Leadership Concepts (2-3)

This course is designed to expose students to the basic skills essential for effective student leadership through hands-on learning exercises and student leadership theory development. This course facilitates a shared learning experience, allowing for networking with other students. Students may register for two credits (lecture only) or three credits (lecture and project assignment). Credit choice must be made at the time of registration.

Recommended Prep: ENG 18 or ENG 19 with a C or better.

IS 250H Leadership Development (3)

Focus is on developing a personal leadership style and philosophy through study of basic leadership and group dynamics theory, and through analysis of the moral and ethical responsibilities of leadership. Course integrates readings and discussions of traditional leadership theories with readings from the humanities (classic works of literature and contemporary multi-cultural writings), media presentations (especially film), and experiential learning exercises. Students accepted in the Honors Program may meet their Colloquium requirement with this course.

Recommended: Acceptance in the Honors Program.

Prerequisite: ENG 100 or equivalent with a grade of C or better.

INTEGRATED INDUSTRIAL TECHNOLOGY (IIT)

IIT 101 Industrial Safety Health & Environment (3)

The Safety Health and Environment course emphasizes the development of knowledge and skills to reinforce the attitudes and behaviors required for safe and environmentally sound work habits for industrial work environments. Coursework, demonstrations and exercises highlight the importance of regulatory compliance issues to be addressed in the performance of all job tasks. Course topics will be reinforced through scenarios performed at the campus as well as industrial sites as available.

IIT 121 Electro Hydraulics and Pneumatics (Fluid Power Systems) (3)

This course covers the fundamentals of fluid power and fluid power systems. Students will learn the operating principles and components of hydraulic and pneumatic systems including pumps, compressors and actuating devices. Students will learn to design, configure and troubleshoot hydraulic and pneumatic systems for industrial automation and process control, incorporating automated actuator control and fail-safe interlocks into the design process. Facilitated learning and practical exercises reinforce the learning.

IIT 131 Mechanical Drive Systems (3)

This course is an introduction to mechanical drive systems that are typical to automated manufacturing and process systems. The course provides students with an understanding of mechanical energy transmission concepts. Students will apply these concepts to design, configure and conduct performance analysis on mechanical transmission systems.

IIT 151 Rapid Prototyping (3)

This course introduces the student to 3d modeling using the CAD/CAM mechanical design automation software. Students will build parametric models of parts and assemblies, and make drawings of those parts and assemblies. The student will study CAD/CAM software configurations, and translate parametric models to produce prototypes using both additive and subtractive manufacturing methods. The course will cover g-code and basic machine safety.

IIT 171 Principles of Process Quality (3)

Principles of Process Quality introduces the student to quality concepts, including operating consistency, continuous improvement, plant economics and statistical process control (SPC).

IIT 201 AC/DC Circuits (4)

The Fundamentals of DC and AC Circuits introduces the student to direct current and alternating current theory and the laws that represent electrical concepts. The course includes circuit configurations, source and load types, as well as the wiring configurations of common DC and AC electrical devices. Practical exercises reinforce theory, incorporate experiential learning, and emphasize basic circuit analysis and troubleshooting. The course contextualizes the proper use of electrical tools and test equipment.

Prerequisite: ICS 141 with a grade of C or better and MATH 103 or higher in STEM track with a grade of C or better.

IIT 205 Digital and Analog Circuits (4)

Digital and Analog Circuits introduces the student to the characteristics and applications of semiconductor devices and circuits as well as digital logic functions, combinational, flip flop, and register memory logic circuits. Practical exercises reinforce theory, incorporate experiential learning, and emphasize basic circuit analysis and troubleshooting. The course contextualizes the proper use of electrical tools and test equipment.

Prerequisite: ICS 141 and IIT 201 with a grade of C or better.

IIT 221 Programmable Logic Control (4)

This course covers the fundamentals of programmable logic controller (PLC) hardware, programming and integration with mechatronic automation systems. Students will integrate PLC functions by writing logic programs and testing these programs on a functioning system. Students will identify malfunctioning PLC programming and apply troubleshooting strategies to identify and localize problems caused by PLC hardware.

Prerequisite: ICS 141 with a grade of C or better.

Recommended Prep: Must be able to use a desktop and/or laptop computer with a high degree of proficiency.

IIT 231 Process Control and Instrumentation (4)

This course is a study of the instruments and instrument control systems used in a variety of processing industries, including instrumentation unique to manufacturing and automated production and processing systems. Topics include terminology, process variables, symbology, control loops, and basic troubleshooting, as well as temperature, pressure and flow formulas used in the process and industrial automation industries.

Prerequisite: ICS 141 with a grade of C or better and MATH 103 or higher in STEM track with a grade of C or better.

IIT 251 Motor and Motion Control (4)

The Fundamentals of Motors and Motion Control Systems is an introductory course to AC & DC motors of various types and the integrated control systems used to control the power and function of electric motors. It is designed to give the student an overview of, and introduction to the basic principles of the components and circuitry logic programs that integrate motors to systems. Course work emphasizes an overall understanding of the systems, engineering, equipment, and operations of a typical motor system.

Prerequisite: ICS 141 with a grade of C or better.

IIT 271 Distributed Control Systems (3)

This course introduces the student to logical process automation systems such as Distributed Control Systems (DCS) and Programmable Automation Controllers (PAC).

Prerequisite: ICS 141 and IIT 221 with a grade of C or better.

IIT 281 Supervisory Control and Data Acquisition (SCADA) Systems (4)

This course introduces students to Supervisory Control and Data Acquisition (SCADA) Systems concepts, including basic architecture and technology. This course includes how SCADA software is configured, programmed and networked. Students will program SCADA software, integrate input/output devices, networking, and communication configurations.

Prerequisite: IIT 221 with a grade of C or better.

JAPANESE (JPNS)

JPNS 51 Japanese for 1st-Time Learners (3)

A course designed to introduce the fundamentals of Japanese language and develop the skills in conversational Japanese for first-time learners. First-time learners who are planning to take JPNS 101 are encouraged to take this course. (Formerly JPNS 97).

JPNS 101 Elementary Japanese I (4)

A course designed to teach the fundamentals of the language and culture of modern Japanese. Emphasis is placed on development of listening, speaking, reading, and writing skills using hiragana and katakana.

JPNS 102 Elementary Japanese II (4)

Continuation of JPNS 101. Continued emphasis is placed on listening and speaking skills, while an increased concentration is placed on reading and writing skills with introduction of kanji.

Prerequisite: JPNS 101 with a grade of C or better or instructor consent.

JPNS 141 Japanese for Customer Service (3)

A course designed to develop basic oral communication skills in Japanese used in the customer service industry such as hotels, restaurants, or retail stores.

Recommended Prep: ENG 22 or ENG 24 with a grade of C or better or equivalent.

JPNS 151 Conversational Japanese (3)

A course designed to further develop the skills in beginning-level conversational Japanese. While emphasis is placed on the conversation skills, class time is also spent on establishing students' abilities to read words and phrases related to consumer products and public signs commonly encountered in Japan.

Prerequisite: JPNS 51 or higher with a grade of C or CR or better.

JPNS 201 Intermediate Japanese I (4)

This course is a continuation of JPNS 102. Emphasis on listening and speaking skills continues while development of reading and writing skills are increased. Additional kanji characters are introduced in the course. Students are expected to use more complex and compound sentences.

Prerequisite: JPNS 102 with a grade of C or better or instructor consent.

JPNS 202 Intermediate Japanese II (4)

This course is a continuation of JPNS 201. Emphasis on listening and speaking skills continues while development of reading and writing skills are increased. Additional kanji are introduced in the course. Students are expected to use more complex and compound sentences.

Prerequisite: JPNS 201 with a grade of C or better or approval from the Language Arts Division.

JOURNALISM (JOUR)

JOUR 205 Newswriting (3)

Practice and instruction in reporting, interviewing and news writing and feature writing techniques.

Prerequisite: ENG 100 with a grade of C or higher or equivalent or approval of Language Arts Division

Recommended Prep: Keyboarding experience.

KOREAN (KOR)

KOR 101 Elementary Korean I (4)

A course designed to teach the fundamentals of the language and the culture of the modern Korean. Emphasis is placed on the development of listening, speaking, reading, and writing skills.

Recommended Prep: ENG 22 or ENG 24 with a grade of C or better or equivalent.

KOR 102 Elementary Korean II (4)

Korean 102 continues to build a basic foundation that will enable students to acquire and develop language skills in listening, speaking, reading, and writing in Korean in a linguistically and culturally appropriate manner.

Prerequisite: KOR 101 with a grade of C or better or equivalent.

Recommended Prep: ENG 22 or ENG 24 with a grade of C or better or equivalent.

KOR 201 Intermediate Korean I (4)

KOR 201 is the first half of an intermediate course in Korean. Four language skills, speaking, listening, reading and writing introduced in the elementary-level course will be reinforced. This intermediate course deals with one-page long conversations and paragraph-level narrative text. Students in this course learn Korean expressions necessary for everyday situations and develop oral and written language skills at the low-intermediate level.

Prerequisite: Korean 102 with a grade of C or better, or Korean 102 equivalent by placement test or consent of instructor.

Recommended Prep: ENG 22 or ENG 24 with a grade of C or better or equivalent.

KOR 202 Intermediate Korean II (4)

KOR 202 is a continuation of the Intermediate Korean I (KOR 201). Previous Korean learning experience (KOR 201) is required to register for this course. This course covers all four language skills at the high-intermediate level in Korean: listening, speaking, reading, and writing. Vocabulary and grammar are also emphasized. By the end of the semester, students will be able to apply the language skills in Korean in the following situations: party invitation, beauty salons, hobbies, holidays, hospitals, marriage, etc. Also, students will learn about Korean culture, history and daily life.

Prerequisite: Korean 201 with a grade of C or better, or Korean 201 equivalent by placement test or consent of instructor.

Recommended Prep: ENG 22 or ENG 24 with a grade of C or better or equivalent.

LEARNING SKILLS (LSK)

LSK 110 College Success Strategies (3)

This course will acquaint students with the college and its services, prepare students for success in all college courses, and help students begin to explore career options. Students will (1) focus on learning and study skills, critical thinking, basic computer skills, and presentation skills while reinforcing reading, writing, and math skills; (2) learn to improve their ability to recall both spoken and written materials (memory and concentration skills), visualize concepts, control their anxieties in high stress situations such as during public speaking and test taking (relaxation techniques), and develop a positive image of themselves as effective learners; (3) engage in a service learning or other independent project; and (4) learn to understand their own cultural and personal learning styles and blend those with learning techniques expected of college students.

Recommended Prep: Concurrent registration in or successful completion of appropriate level of writing (ENG 19), reading (ENG 18), and MATH 22 or higher.

LINGUISTICS (LING)

LING 102 Introduction to the Study of Language (3)

An investigation of the nature and workings of language: its composition (sound system, grammatical structure, and lexicon); representation (oral and written); and divergence (relationships between languages of the world). General linguistic principles applicable to all languages will be covered.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better, or consent of the Language Arts Division.

MANAGEMENT (MGT)

MGT 120 Principles of Management (3)

An introduction to management functions including planning, organizing, directing, and controlling from an organizational viewpoint. Included are contemporary studies that relate to communication, motivation, leadership styles, and decision making. (45 lecture hours)

*Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent.
Recommended Prep: BUS 120.*

MGT 121 Service Excellence (3)

This course builds and maintains the critical skills and understanding necessary to be a dynamic and successful member of today's rapidly growing service economy. Individuals who work with customers will gain insight into customer behavior and attitudes and will develop strategies to create positive customer relationships encountered in various situations on the job.

Prerequisite: ENG 22 or ENG 24 with a grade of CR or equivalent.

MGT 122 Human Relations in Management (3)

Introduction to the basic concepts of individual, group, and organizational human behavior as they affect human relations, performance, and productivity within the workplace.

*Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent.
Recommended Prep: BUS 120.*

MGT 124 Human Resource Management (3)

Introduction to principles, organizations and techniques of personnel administration including procurement and placement, improvement of performance, management and labor relations, remunerations and security and other services provided to the firm by the personnel section. Designed to give students an operational knowledge of the activities involved in personnel management relations in regard to their future roles in business. (45 lecture hours)

Prerequisite: ENG 22 or ENG 24, with a grade of C or better or equivalent.

MGT 135 Agricultural Entrepreneurship (3)

This in-depth course covers evaluating resources, planning and research, legal and management issues, marketing strategies, budgets and financial statements and cultivating money resources. The basic economic and business principles governing profitable and sustainable farm and agribusiness operations are emphasized. Participants produce a comprehensive business plan by the completion of the course. (Formerly MGT 197)

Recommended Prep: ENG 22 with a grade of C or better or equivalent.

MGT 200 Integrated Topics in Management (3)

Analysis of comprehensive business problems and problem-solving utilizing the application of appropriate contemporary management and business principles and practices.

Prerequisite: BUS 120, MGT 120, MGT 122, MGT 124, ENG 209, and SP 151 all with a C grade or better.

Recommended Prep: ACC 124 or ACC 201, MKT 120.

MARKETING (MKT)

MKT 120 Marketing in a Global Economy (3)

Introduction to marketing concepts and the application to the process of marketing products, services, and ideas to provide value and benefit to both for-profit and non-profit organizations. Student will develop an understanding of the marketing process, analyze marketing opportunities and develop strategies to fulfill the needs of target markets.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent.

Recommended Prep: BUS 120.

MKT 130 Principles of Retailing (3)

An introductory view of retailing and its relative position in the marketing chain. Primary emphasis is on the basic functions of a retail store, including finance and control, operations, personnel, merchandising and sales promotion.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent or consent of instructor.

Recommended Preparation BUS 120 and MKT 120.

MATHEMATICS (MATH)

MATH 75 Introduction to Mathematical Reasoning (3)

MATH 75 prepares students for MATH 100, MATH 100C, MATH 111, and MATH 115. Course topics include ratio and percent, unit conversion, graphs, data interpretation, basic algebra, solving linear equations, and working with formulas with special emphasis on pattern recognition and problem solving.

Recommended Prep: English and math skills at the High School Common Core Level.

MATH 78 College Math Companion (1)

MATH 78 provides students concurrently enrolled in MATH 100, MATH 100C, MATH 111, or MATH 115 with Just-In-Time support with special emphasis on pattern recognition and problem solving. Course topics are tailored to the concurrent course and may include ratio and percent, unit conversion, graphs, data interpretation, basic algebra, solving linear equations, and working with formulas.

Prerequisite: Either of the following, or an articulated equivalent, within the past two years: CR in MATH 22 OR appropriate math placement.

Corequisite: MATH 100, MATH 100C, MATH 111 or MATH 115

MATH 82 Algebraic Foundations (4)

MATH 82 covers elementary algebra topics. Topics include linear equations and inequalities, graphing, linear systems, properties of exponents, operations on polynomials, factoring, rational and radical expressions and equations, quadratic equations, and applications.

Prerequisite: Either of the following, or an articulated equivalent, within the past two years: CR in MATH 22 OR appropriate math placement.

MATH 88 College Algebra Companion (2)

MATH 88 provides students with supplemental algebra instruction that directly supports the topics covered in MATH 103 (College Algebra). Course topics are tailored to MATH 103 and may include linear equations and inequalities, graphing, linear systems, properties of exponents, operations on polynomials, factoring, rational and radical expressions and equations, quadratic equations, and applications.

*Prerequisite: Appropriate math placement within the past two years.
Corequisite: MATH 103*

MATH 100 Survey of Mathematics (3)

MATH 100 includes a variety of selected mathematical topics designed to acquaint students with examples of mathematical literacy and quantitative reasoning that demonstrate the usefulness of quantitative reasoning. The core course content includes deductive, numeric, symbolic, graphical and statistical algorithms and reasoning. MATH 100 is not intended as, and does not qualify as, a prerequisite for advanced mathematics courses.

Prerequisite: Any one of the following, or an articulated equivalent, within the past two years: C or better (or CR) in MATH 75, OR C or better (or CR) in MATH 82, OR appropriate placement, OR concurrent enrollment in MATH 78.

Recommended Prep: English and math skills at High School Common Core levels.

MATH 100C Survey of Math Culinary Arts (3)

MATH 100C includes a variety of selected mathematical topics designed to acquaint students with examples of mathematical and quantitative reasoning that demonstrate the beauty, power, clarity, and precision of mathematics. The core course content includes deductive, numeric, symbolic, graphical and statistical algorithms and reasoning with culinary arts application problems. MATH 100C is not intended as, and does not qualify as, a prerequisite for advanced mathematics courses. This course is for culinary arts certificate or degree programs. (A student cannot earn credit for both MATH 100 and MATH 100C.)

Prerequisite: Either of the following, or articulated equivalent, within the past two years: C or better (or CR) in MATH 75, OR C or better (or CR) in MATH 82, OR appropriate placement, OR concurrent enrollment in MATH 78.

MATH 103 College Algebra (3)

Functions, graphs and their properties are studied by generalizing and interpreting techniques initially introduced in elementary algebra. Simplification techniques are used to define, simplify, and derive elementary properties of linear, quadratic, rational, exponential and logarithmic functions. Equation, system and inequality solving techniques are used to determine the domain and range and analyze the nature of the roots and intersection points of functions and graphs. Quantitative interpretation and practical application of functions and graphs are included throughout the course.

Prerequisite: Any ONE of the following, or an articulated equivalent, completed within the past two years: C or better (or CR) in MATH 82, OR appropriate placement, OR concurrent enrollment in MATH 88.

MATH 111 Math for Elementary Teachers I (3)

MATH 111 is the first of a year-long sequence (MATH 111 - MATH 112) designed to provide a rigorous background in mathematical concepts and reasoning for students intending careers in elementary education. The emphasis is on understanding, representing and communicating mathematical ideas, problem solving and reasoning, and constructing and writing elementary proofs. Topics covered over the year include operations (both standard and nonstandard arithmetic) and their properties, ordered n-tuples and their practical applications, set theory, counting, introduction to measurement, patterns and algebra. It is recommended that students needing both MATH 111 and MATH 112 take the courses in sequential semesters and from the same institution.

Prerequisite: C or better in ENG 22 or ENG 24 or equivalent; and EITHER of the following within the past two years: C or better (or CR) in MATH 75, OR appropriate placement.

MATH 112 Math for Elementary Teachers II (3)

MATH 112 is the second of a year-long sequence (MATH 111–MATH 112) designed to provide a rigorous background in mathematical concepts and reasoning for students intending careers in elementary education. The emphasis is on understanding, representing and communicating mathematical ideas, problem solving and reasoning, and constructing and writing elementary proofs. Topics covered over the year include operations (both standard and nonstandard arithmetic) and their properties, ordered n-tuples and their practical applications, set theory, counting, introduction to measurement, patterns and algebra. It is recommended that students needing both MATH 111 and MATH 112 take the courses in sequential semesters and from the same institution.

Prerequisite: MATH 111 with C or better, completed within the past two years.

MATH 115 Introduction to Statistics and Probability (3)

MATH 115 utilizes basic statistical topics including measures of central tendency and dispersion, classification of variables, sampling techniques, elementary probability, normal and binomial probability distributions, tests of hypothesis, linear regression and correlation in order to solve problems.

Prerequisite: Any one of the following, or an articulated equivalent, within the past two years: C or better (or CR) in MATH 75, OR C or better (or CR) in MATH 82, OR appropriate placement, OR concurrent enrollment in MATH 78.

Recommended Prep: English skills at the high school Common Core level.

MATH 135 Pre-Calculus: Elementary Functions (3)

MATH 135 investigates linear, quadratic, polynomial, rational, exponential, logarithmic functions, and related topics. Quantitative interpretation and practical application of functions and graphs are included throughout the course. The course is the first part of the precalculus sequence.

Prerequisite: MATH 103 with a C or higher or appropriate placement test score.

MATH 140 Pre-Calculus: Trigonometry and Analytic Geometry (3)

MATH 140 studies trigonometric functions, analytic geometry, polar coordinates, vectors, and related topics. This course is the second part of the pre-calculus sequence.

Prerequisite: MATH 135 with a C or higher OR qualified placement test score.

MATH 140X Accelerated Pre-Calculus: Elementary Functions, Trigonometry, & Analytic Geometry (4)

MATH 140X is designed to provide an accelerated path to Calculus to students who have a strong background in College Algebra. Topics include the essential pre-calculus skills needed for success in calculus: functions, with special attention to polynomial, rational, exponential, logarithmic, and trigonometric functions; plane trigonometry; polar coordinates; and conic sections. Credit may not be earned for both MATH 140 and MATH 140X.

Prerequisite: Any one of the following, or an articulated equivalent, within the past two years: A grade of A in MATH 103 OR C in MATH 135 OR qualified placement test score OR “well prepared” designation in the Algebra II End-Of-Course exam OR instructor consent.

MATH 203 Calculus for Business and Social Sciences (4)

MATH 203 introduces and develops the basic calculus concepts and techniques, which include limits, derivatives, curve sketching, integration, and partial derivatives. These concepts and techniques are used to analyze and solve problems with an emphasis on applications commonly encountered in business management and the social sciences.

Prerequisite: C or better in MATH 135, OR C or better in MATH 140, OR C or better in MATH 140X, OR qualifying placement test score.

MATH 241 Calculus I (4)

Introduces and develops basic calculus concepts and procedures: limits, continuity, derivatives, and an introduction to integration of single-variable algebraic and trigonometric functions. Derivations of algorithms and formulas, and proofs of important theorems, are included. Applications of differentiation and integration are introduced to bridge theory and practice. (Formerly MATH 205)

Prerequisite: C or better in MATH 140 or 140X.

MATH 242 Calculus II (4)

The second course in the standard four-course calculus sequence. The course extends differentiation and integration to single-variable inverse trigonometric, logarithmic, and exponential functions. Topics include techniques of integration, convergence of improper integrals, sequences and series, Power and Taylor series representations of functions, and an introduction to differential equations. (Formerly MATH 206)

Prerequisite: C or better in MATH 241 or MATH 205.

MATH 243 Calculus III (3)

The third course in the standard four-course calculus sequence. Vector algebra, vector-valued functions, differentiation of functions of several variables, and optimization. (Formerly MATH 231)

Prerequisite: C or better in MATH 242 or MATH 206.

MATH 244 Calculus IV (3)

The final course in the standard four-course calculus sequence. Topics include multiple integrals, line integrals, Green's Theorem, surface integrals, Stokes' Theorem, and Gauss's Theorem. (Formerly MATH 232)

Prerequisite: C or better in MATH 243 or MATH 231.

MECHANICAL ENGINEERING (ME)

ME 213 Introduction to Engineering Design (3)

Introductory experience in communication, presentation, professional ethics, social responsibility, engineering economics, quality control, and computer-aided drafting.

Prerequisite: PHYS 170 with a grade of C or better.

MICROBIOLOGY (MICR)

MICR 130 General Microbiology (3)

This course covers the fundamentals of microbiology and the role of microorganisms in the environment and in human affairs. Bacteria, viruses, fungi, algae, and protozoa are described and their importance is discussed. Other topics include cell structure and metabolism; microbial genetics; pathology and epidemiology; principles of immunology. Emphasis is given to medical aspects of bacterial and viral diseases, immunology and chemotherapy.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent

MICR 140 General Microbiology Laboratory (2)

Experiments involve aseptic technique and manipulation of microorganisms under laboratory conditions to illustrate the basic principles of microbiology. Primarily for students majoring in the health sciences. Class meets for two 2-hour lab sessions per week. (Formerly MICR 130L)

Prerequisite: Completion of MICR 130 with C or better, or concurrent registration in MICR 130.

MUSIC (MUS)

MUS 103 Guitar Ensemble 1 (2)

This course offers an opportunity to study and play guitar ensemble literature from the Renaissance to the present: duets, trios, quartets and larger groups. May be repeated for additional credits. (45 lecture/lab hours)

Rec Prep: MUS 121D

MUS 104 Jazz Ensemble I (2)

Performance of music for large Jazz Ensemble. Jazz Ensemble 1 offers students an opportunity to study and play both standard and experimental selections from the genre. Emphasis is placed on originality with regard to compositions and arrangements. Students are expected to be proficient performers on their instrument. Students should have some reading skills. Acceptance into the ensemble is by audition. May be repeated for additional credit. (45 lecture/lab hours)

Prerequisite: Acceptance into the ensemble is by audition or consent of the instructor.

MUS 106 Introduction to Music Literature (3)

Covers the history and development of classical music. Emphasis is on music of the western hemisphere from the listener's point of view. (45 lecture hours)

MUS 107 Music in World Cultures (3)

Folk, popular, and art music from major regions of the world, with emphasis upon Asia and the Pacific; representative styles and regional characteristics.

MUS 108 Music Fundamentals (3)

Covers basic concepts of reading, notating and aurally recognizing music in Western culture. Notation of rhythms, pitch, diatonic scales, key and time signatures, the recognition of intervals and use of chords shall be presented. Emphasis will be on music reading, notation, and aural dictation. (45 lecture hours)

MUS 112 Hawaiian Ensemble 1 (2)

Hawaiian Ensemble 1 focuses on basic vocal and instrumental collaboration, offering students an opportunity to study a wide range of Hawaiian repertoire. The group focus is on creating vocal and instrumental arrangements from both contemporary and traditional Hawaiian folk literature, with an emphasis on originality with regard to arranging. May be repeated for additional credits. (45 lecture/lab hours)

Recommended Prep: MUS 108, MUS 121B, MUS 121D, MUS 121Z

MUS 113 Hawaiian Ensemble 2 (2)

Hawaiian Ensemble 2 offers students an opportunity to study and play increasingly difficult Hawaiian repertoire. The group focuses on creating vocal and instrumental arrangements from both contemporary and traditional Hawaiian literature, with an emphasis on originality with regard to compositions and arrangements. May be repeated for additional credits. (45 lecture/lab hours)

Prerequisite: MUS 112 with a grade of C or better or consent of instructor.

MUS 114 College Chorus (2)

Students will cultivate ensemble singing skills by learning and singing choral works. May be repeated for additional credit(s). Concurrent enrollment in Music 121B, 122B or 221B is strongly recommended.

Recommended Prep: MUS 108, MUS 121B

MUS 121B Voice 1 (2)

MUS 121B is the first of a three-semester sequence in learning solo singing skills. This course will provide the student with the opportunity to explore their natural singing voice and find their vocal identity. Concepts and skills introduced in the class include basic techniques in vocal production: alignment, breathing, vowels, resonance, and energy. Concurrent enrollment in MUS 108 is strongly recommended.

MUS 121C Piano 1 (2)

An introduction to keyboard skills to include exploring and developing finger technique and elementary note reading skills as it relates to the piano keyboard. May be repeated for additional credits. (45 lecture/lab hours)

MUS 121D Guitar 1 (2)

Introductory classroom instruction in the art of classic guitar playing: solos and ensembles, technique, music reading, interpretation, stage deportment and music literature. (45 lecture/lab hours)

MUS 121E Pop/Folk Guitar 1 (2)

Introductory classroom instruction in folk and popular styles of guitar playing: technique, music reading, chord symbols, song accompaniment patterns, stage deportment, and ensemble arranging. (45 lecture/lab hours)

MUS 121F Slack Key Guitar 1 (2)

This course is intended for students with little or no background in slack key guitar and provides a basic introduction to Hawaiian style slack key guitar playing. Taro Patch (open G) and C tunings are introduced, with an emphasis on slack key technique, standard reading of tablature and an understanding of basic rhythm structure. Ability to read music is not required. May be repeated for additional credits. (45 lecture/lab hours)

MUS 121Z 'Ukulele 1 (2)

Introductory classroom instruction in Hawaiian 'ukulele playing: technique, music reading, chord symbols, song accompaniment, stage deportment and ensembles. (45 lecture/lab hours)

MUS 122B Voice 2 (2)

Continuation of MUS 121B to develop vocal technique by learning to improve and control the coordination of the singing mechanism. Listening skills will be stressed and supplemented by the study of the International Phonetic Alphabet. Basic musicianship skills will be actively applied in the learning of songs. This class provides students an opportunity to investigate and integrate motion and emotion in a song. Concurrent enrollment in MUS 108 is strongly recommended.

Prerequisite: MUS 121B with a grade of C or better or consent of instructor.

MUS 122C Piano 2 (2)

MUS 122C is a continuation of MUS 121C. This course emphasizes the art of piano playing in a solo and an ensemble setting, technique and music literature for piano. May be repeated for additional credits. (45 lecture/lab hours)

Prerequisite: MUS 121C with a grade of C or better or consent of instructor.

MUS 122D Guitar 2 (2)

A continuation of the skills and concepts in MUS 121D, Guitar 1: solo and ensembles, technique, interpretation, stage deportment and music literature for guitar. (45 lecture/lab hours)

Prerequisite: MUS 121D with a grade of C or better or consent of instructor.

MUS 122E Pop/Folk Guitar 2 (2)

A continuation of MUS 121E, Pop/Folk Guitar 1. Classroom instruction in folk and popular styles of guitar playing: technique, music reading, chord symbols, song accompaniment patterns, simple improvisation and ensembles. (45 lecture/lab hours)

Prerequisite: MUS 121E with a grade of C or better or consent of instructor.

MUS 122F Slack Key Guitar 2 (2)

MUS 122F offers students an opportunity to build upon Hawaiian style slack key guitar skills begun in MUS 121F. Intermediate techniques and compositions are integrated, including an exploration of additional tunings. Memorization of compositions, playing for others, and the creation of original compositions are emphasized. Ability to read music is not required. (45 lecture/lab hours)

Prerequisites: MUS 121F or MUS 121D with a grade of C or better or consent of instructor.

MUS 122Z 'Ukulele 2 (2)

A continuation of MUS 121Z, 'Ukulele 1, with classroom instruction in Hawaiian and popular styles of 'ukulele playing: technique, music reading, chord symbols, song accompaniment patterns, improvisation, stage deportment and ensembles. (45 lecture/lab hours)

Prerequisite: MUS 121Z with a grade of C or better or consent of instructor.

MUS 140 Introduction to Audio Production (3)

Introduction to the process of audio engineering for live concerts or recorded sound. Students learn the proper usage of audio production tools through lecture and hands-on studio projects. (45 lecture hours)

MUS 201 Vocal Ensemble (2)

This course offers an opportunity to study and sing advanced choir literature from the Renaissance to the present. Audition or consent of instructor required. May be repeated for additional credit(s). See the section on repetition of courses in the course catalog in order to determine the number of repeats allowed. (45 lecture/lab hours)

Prerequisite: Audition or consent of instructor required.

Recommended Prep: Previous choral experience and MUS 121B.

MUS 203D Keyboard Ensemble (2)

This course explores and develops repertoire for piano ensemble, on both one piano and two pianos and small groups of two or more keyboards. May be repeated for additional credits. (45 lecture/lab hours)

Prerequisite: MUS 121C with a grade of C or better or consent of instructor.

MUS 203G Guitar Ensemble 2 (2)

This course offers an opportunity to study and play advanced guitar ensemble literature from the Renaissance to the present: duets, trios, quartets and larger groups. May be repeated for additional credits. See the section on repetition of courses in the course catalog in order to determine the number of repeats allowed. (45 lecture/lab hours)

Prerequisite: MUS 103 with a grade of C or better.

MUS 221B Voice 3 (2)

Advanced voice class is a continuation of MUS 122B. This course is designed for experienced voice students. Class work includes master-class and lectures to aid students in their development and understanding of the art and science of singing. Students are encouraged to refine their vocal technique and to identify the elements that contribute to developing as an effective artist. May be repeated for additional credit. See the section on repetition of courses in the course catalog in order to determine the number of repeats allowed. (45 lecture/lab hours)

Prerequisite: MUS 122B with a grade of C or better
Recommended Prep: MUS 108

MUS 221C Piano 3 (2)

MUS 221C is a continuation of MUS 122C, Piano 2, with a focus on developing a repertoire of piano literature of intermediate levels. This course will continue to develop keyboard skills, basic musicianship skills to include music note reading, improvising, transposing, harmonizing and ear training. (45 lecture/lab hours)

Prerequisite: MUS 122C with a grade of C or better or consent of instructor

MUS 221H Guitar 3 (2)

A continuation of MUS 122D, Guitar 2. Intermediate and advanced skills and concepts involving solo and ensemble literature, technique, interpretation and stage deportment are addressed. May be repeated for additional credits. See the section on repetition of courses in the course catalog in order to determine the number of repeats allowed. (45 lecture/lab hours)

Prerequisite: MUS 122D with a grade of C or better or consent of instructor.

MUS 222C Piano 4 (2)

MUS 222C is a continuation of MUS 221C, Piano 3, with a focus on developing further repertoire of piano literature of intermediate levels. This course will continue to develop keyboard skills, basic musicianship skills to include music note reading, improvising, transposing, harmonizing and ear training. May be repeatable for additional credits. (45 lecture/lab hours)

Prerequisite: MUS 221C with a grade of C or better or consent of instructor.

MUS 232 Applied Music (1)

Offers individual music instruction for commercial music majors (CMUS). MUS 232: B Voice; C Piano; D Organ; E Harpsichord; F Harp; G Classic Guitar; H Violin; I Viola; J Cello; K Double Bass; N Oboe; P Bassoon; R Trumpet; S French Horn. May be repeated for additional credit. (7 1/2 lecture hours) (15 1/2 hour lessons)

Prerequisite: Audition and instructor approval

MUS 232B Applied Music: Voice (1)

Private instruction in the art of singing for intended music majors. May be repeated for additional credits. See section on Repetition of courses in order to determine number of repeat allowed. (7.5 lecture hours; 15 thirty minute lessons).

Prerequisite: Instructor's approval via audition.
Corequisite: MUS 114
Recommended Prep: MUS 121B

MUS 232C Applied Music: Piano (1)

Offers individual music instruction for intended music majors. May be repeated for additional credits. See the catalog section on repetition of courses in order to determine number of repeat allowed.

Prerequisite: Consent of instructor
Recommended Prep: MUS 121C

MUS 232G Applied Music: Classic Guitar

Private instruction in the art of classical guitar playing for intended music majors. May be repeated for additional credits. See the catalog section on repetition of courses in order to determine number of repeat allowed. (7.5 lecture hours: fifteen 30-minute lessons)

Prerequisite: Audition and instructor approval

Corequisite: MUS 203G

Recommended Prep: MUS 122D

MUS 240 Intro to Digital Music (3)

An introduction to the theory and practice of digital music production: music notation; MIDI sequencing; audio recording, editing, mixing and mastering; and preparation of audio files for distribution.

Prerequisite: MUS 140 with a grade of C or better or consent of instructor.

Recommended Prep: MUS 108

MUS 253 Elementary Music in Action (3)

This course examines the fundamental elements of music: time, pitch, performance media, musical expression and form, and how these elements interact within the musical experience. These elements are explored and applied through singing and the playing of percussion instruments, ukulele, autoharp, piano, and other classroom instruments; listening; movement; notation of music; performing from notation; and analysis of music both aurally and from musical scores. The creative uses of musical elements as a means of understanding music is an integral component of this course. (Required of UH Mānoa elementary education majors.)

MUS 281 Music Theory I (3)

A survey of elementary concepts in music theory: melodic, rhythmic, and harmonic materials; musical structure and form; composition and analysis. To be taken concurrently with MUS 283. (45 lecture hours)

Prerequisite: MUS 108 with a grade of C or better or consent of instructor

Corequisite: MUS 283.

MUS 282 Music Theory II (3)

A continuation of Music 281. Fundamental concepts in music theory are examined in detail: melodic, rhythmic, and harmonic materials; musical structure and form; composition and analysis. To be taken concurrently with MUS 284. (45 lecture hours)

Prerequisite: MUS 281 with C or better or consent of instructor

Corequisite: MUS 284.

MUS 283 Aural Training 1 (1)

A course in the development of aural perception through the techniques of music dictation, sight singing, and rhythm exercises. (45 lecture/lab hours)

Prerequisite: MUS 108 with a grade of C or better or consent of instructor.

MUS 284 Aural Training 2 (1)

A continuation of MUS 283. A course in the development of aural perception through the techniques of music dictation, sight singing, and rhythm exercises. (45 lecture/lab hours)

Prerequisite: MUS 283 with a grade of C or better or consent of instructor.

OCEANOGRAPHY (OCN)

OCN 101 Marine Option Program Seminar (1)

Statewide overview of ocean issues and the organizations involved with marine activities, management, education, research and business. Exploration of opportunities for internships, research projects and careers. Proposal writing, project implementation, and report preparation guidelines. Course is presented on HITS interactive television with participation of students and faculty from throughout the UH system. Orientation to the Marine Option Program.

Recommended Prep: A grade of C or higher in ENG 18 or 19, 21 or 22.

OCN 201 Science of the Sea (3)

Structure, formation, and features of ocean basins; seawater properties and distributions; currents; waves; tides; characteristics of marine organisms; marine ecological principles; man and the sea. Field trip required.

Recommended Prep: Completion of MATH 22 with a grade of C or better or equivalent.

OCN 201L Science of the Sea Laboratory (1)

Experiments, exercises, and field trips demonstrating the geological, physical, chemical and biological principles of earth and ocean sciences.

Prerequisite: Credit or concurrent registration in OCN 201.

Recommended Prep: Completion of MATH 22 with a grade of C or better or equivalent.

PACIFIC STUDIES (PACS)

PACS 108 Pacific Worlds: An Introduction to Pacific Islands Studies (3)

Introduces students to the geography, societies, histories, cultures, contemporary issues, and arts of Oceania, including Hawai'i. Combines lecture and discussion that emphasize Pacific Islander perspectives and experiences.

Prerequisite: ENG 22 or ENG 24 with a grade of CR or placement in ENG 100 or consent of instructor.

PHARMACOLOGY (PHRM)

PHRM 203 General Pharmacology (3)

A lecture course designed to build an understanding of the fundamental principles of drug action; the application of specific drugs in the treatment of disease; normal and abnormal responses of the patient to drug therapy; and the appropriate nursing actions to achieve the desired outcome of drug therapy. A required course for all nursing students.

Prerequisite: BIOC 141 and ZOOL 241 with a grade of C or better or equivalent.

Recommended Prep: BIOC 251.

PHILOSOPHY (PHIL)

PHIL 100 Introduction to Philosophy (3)

An investigation of major problems and concepts of philosophy including, the relationships between appearance and reality, mind and body, matter and mind, the conflict between freedom and determinism, the nature, sources and conditions of knowledge, the nature of morality and the existence of God.

PHIL 101 Introduction to Philosophy: Morals and Society (3)

Philosophical attempts to evaluate conduct, character, and social practices. This course examines ethical views and practice through the lens of reason. Philosophy has a long history of proposing, examining, discussing and criticizing moral action on both the individual and social level. This course will also explore what pathways have been explicated and explored to guide us in the endeavor to live good lives. The course looks at the ethical theories and ethical frameworks that have been proposed by some of the greatest thinkers and founders of religions to answer our basic moral questions. The breadth of moral theory over time and culture and geography is enormous. Many of the topics are controversial, ongoing and unresolved. This makes the course current and challenging.

PHIL 102 Introduction to Philosophy: Asian Traditions (3)

Problems, methods and concepts of Asian philosophical traditions including Hinduism, Buddhism, Taoism, Confucianism and Zen.

PHIL 110 Introduction to Deductive Logic (3)

PHIL 110 is an introductory course in logic focusing on the methods and principles of deductive reasoning. Integral to this study will be the presentation of methods for representing logical form and the development of a system of inference rules and strategies that allow for the analysis and evaluation of deductive arguments.

PHIL 111 Intro to Inductive Logic (3)

promote drawing logical inferences when evidence leaves them unsure as to what is actually true. Application to the media's use of probabilities and statistics, and the way many academic disciplines use these strategies to analyze and present data will provide concrete contexts for applying inductive principles and reasoning strategies.

Recommended Prep: MATH 75, PHIL 110

PHIL 211 Ancient Philosophy (3)

An introduction to the history of philosophy based on translations of texts originally written in classical Greek or Latin. The ancient philosophers embraced rational discourse over religious and political authority as the correct method to freedom, happiness, knowledge and justice. Their early endeavor continues to light the way for those more interested in truth than money or fame.

Prerequisite: ENG 100 or equivalent with a grade of C or better.

Recommended Prep: PHIL 100 or PHIL 101 or any other 100-level philosophy course.

PHYSICS (PHYS)

PHYS 100 Survey of Physics (3)

This is an introductory course in Physics with topics chosen from, but not limited to, mechanics, thermodynamics, electricity and magnetism, wave theory, optics, atomic and/or nuclear physics. Emphasis will be placed on understanding basic principles and concepts with application to "Real-Life" connections. Simple algebra will be used.

Prerequisite: MATH 82, MATH 103 or MATH 135 with a grade of CR or C or higher or qualification for MATH 103 or MATH 135 or higher

PHYS 100L Survey of Physics Laboratory (3)

Introduction to laboratory techniques and experimental methods of physics with emphasis on linking the understanding of physics concepts with "Real-Life" situations.

Prerequisite: C or better for or concurrent registration in PHYS 100.

PHYS 151 College Physics I (3)

The first course in a two-semester sequence in introductory physics intended for science majors. Emphasis is split between concepts and mathematical applications. Algebra, trigonometry and geometry are used; calculus is not. The course includes mechanics, kinetic theory and thermodynamics. Required: scientific calculator.

Offered fall semester only.

Prerequisite: C or better in MATH 140 or MATH 140X or by consent of instructor

PHYS 151L College Physics I Lab (1)

PHYS 151L is a non-calculus-based physics laboratory course designed to provide the students a hands-on experience in experimental analysis, physical observation, and measurements. Topics include the kinematics and dynamics of motion, heat, and thermodynamics.

Offered fall semester only.

Prerequisite: PHYS 151 with a grade of C or better or concurrent enrollment.

PHYS 152 College Physics II (3)

The second course in a two-semester sequence in introductory physics intended for science majors. Emphasis is split between concepts and mathematical applications. Algebra, trigonometry and geometry are used; calculus is not. Course includes electricity and magnetism, wave motion, optics, and atomic and nuclear physics. Required: Pocket trig-type calculator.

Offered spring semester only.

Prerequisite: PHYS 151.

PHYS 152L College Physics II Lab (1)

PHYS 152L is a non-calculus-based physics laboratory course designed to provide the students a hands-on experience in experimental analysis, physical observation, and measurements. Topics include electricity, magnetism, and geometric optics. Offered in the spring semester only.

Prerequisite: PHYS 152 with a grade of C or better or concurrent enrollment.

PHYS 170 General Physics I (4)

A rigorous introductory course in classical mechanics and thermodynamics for physical science and engineering majors, emphasizing the mathematical techniques used in the explanation of physical phenomena.

Prerequisite: MATH 242 with a grade of C or better or concurrent registration.

Recommended Prep: PHYS 100

PHYS 170L General Physics I Lab (1)

Experimental analysis in mechanics emphasizing error analysis, measurement techniques, and report writing.

Prerequisite: PHYS 170 with a grade of C or better or concurrent enrollment.

PHYS 272 General Physics II (3)

Electricity, magnetism, and geometric optics.

Prerequisite: PHYS 170 and MATH 242 with a grade of C or better.

PHYS 272L General Physics II Lab (1)

Experimental analysis in electricity, magnetism and optics.

Prerequisite: PHYS 272 with a grade of C or better or concurrent enrollment.

PHYS 274 General Physics III (3)

Relativity, introduction to quantum mechanics, atomic and nuclear physics, and physical optics.

Prerequisites: PHYS 152 or PHYS 272 with a grade of C or better and MATH 243 with a grade of C or better or concurrent registration in MATH 243.

PHYSIOLOGY (PHYL)

PHYL 141 Human Anatomy and Physiology I (3)

PHYL 141 is the first semester of a comprehensive two-semester course which provides a thorough introduction to the structure and function of the human body. PHYL 141 covers the gross anatomy, histology, and physiology of the integumentary, skeletal, muscular, and nervous systems. Students will be expected to learn details of anatomy and physiology as well as applying those details in the broader context of whole body function and homeostasis. The covered topics include body orientation, chemical level, cellular level, tissue level, integumentary system, bone tissue, skeletal system, joints, muscular tissue, muscular system, nervous tissue, spinal cord and spinal nerves, brain and cranial nerves, autonomic nervous system, and special senses.

Prerequisite: ENG 100 with a grade of C or better or equivalent and CHEM 151, CHEM 161 or BIOC 141 with a grade of C or better or 1 year of high school college prep chemistry with a B or better within the last 5 years and HLTH 125 with a grade of C or better of concurrent enrollment and PHYL 141L with a grade of C or better or concurrent enrollment.

Rec Prep: MICR 130, BIOL 101

PHYL 141L Human Anatomy and Physiology Lab I (1)

PHYL 141L is the laboratory course of Human Anatomy and Physiology I and it provides a thorough introduction to the structure and function of the human body. PHYL 141L covers the gross anatomy, histology, and physiology of the integumentary, skeletal, muscular, and nervous systems. Students will be expected to learn details of anatomy and physiology through models, dissections, and physiological experimentations. Students will also apply those details in the broader context of whole body function and homeostasis. The covered topics include body orientation, chemical level, cellular level, tissue level, integumentary system, bone tissue, skeletal system, joints, muscular tissue, muscular system, nervous tissue, spinal cord and spinal nerves, brain and cranial nerves, autonomic nervous system, and special senses.

Prerequisite: ENG 100 with a grade of C or better or equivalent and CHEM 151, CHEM 161 or BIOC 141 with a grade of C or better or 1 year of high school college prep chemistry with a B or better within the last 5 years and HLTH 125 with a grade of C or better of concurrent enrollment and PHYL 141L with a grade of C or better or concurrent enrollment.

Rec Prep: MICR 130, BIOL 101

PHYL 142 Human Anatomy and Physiology II (3)

PHYL 142 is the second semester of a comprehensive two-semester course which provides a thorough introduction to the structure and function of the human body. PHYL 142 covers the gross anatomy, histology, and physiology of the endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, reproduction systems as well as basic concepts of inheritance and development. Students will be expected to learn details of anatomy and physiology as well as applying those details in the broader context of whole body function and homeostasis. This course is the companion course to PHYL 142L.

Prerequisite: PHYL 141 and PHYL 141L with a grade of C or better or equivalent and PHYL 142L with a grade of C or better or concurrent enrollment.

Rec Prep: MICR 130, BIOL 101

PHYL 142L Human Anatomy and Physiology Lab II (1)

PHYL 142L is the laboratory course of PHYL 142 (Human Anatomy and Physiology II) and it provides a thorough introduction to the structure and function of the human body. PHYL 142L covers the gross anatomy, histology, and physiology of the endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, reproductive systems as well as basic concepts of inheritance and development. Students will be expected to learn details of anatomy and physiology through models, dissections, and physiological experimentations. Students will also apply those details in the broader context of whole body function and homeostasis.

Prerequisite: PHYL 141 and PHYL 141L with a grade of C or better or equivalent and PHYL 142L with a grade of C or better or concurrent enrollment.

Rec Prep: MICR 130, BIOL 101

Plant Bioscience Technology (PBT)

PBT 100 Orientation to Hawai'i's Agriculture Industry (1)

Familiarizes students with different agricultural operations/systems in Hawai'i through lectures, guest speakers and field trips.

PBT 200 Introduction to Plant Science

Introduces botany and plant physiology. Relation of plants, nutrients, and environment, cultural practices to tropical crop production. (3 hr. lecture)

Recommended Prep: BIOL 101, BOT 101, BOT 101L, BIOL 171 and BIOL 171L.

POLITICAL SCIENCE (POLS)

POLS 110 Introduction to Political Science (3)

This course is an introduction to the discussion of politics as an activity and of political problems, systems, ideologies, and processes.

Recommended Prep: ENG 22 with a grade of C or better or equivalent.

POLS 120 Introduction to World Politics (3)

Power and contemporary world politics since 1945 with emphasis on the role of the United States.

Recommended Prep: ENG 22 with a grade of C or better or equivalent.

POLS 180 Introduction to Politics in Hawai'i (3)

A study of Hawai'i political history, institutions, processes, and issues; Hawai'i's place in the national and international political arenas; and the future of politics in Hawai'i.

Recommended Prep: ENG 22 with a grade of C or better or equivalent.

PSYCHOLOGY (PSY)

PSY 100 Survey of Psychology (3)

The basic principles of human behavior, motivation, learning, perception, and emotion, as they relate to the individual.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent.

PSY 202 Psychology of Gender (3)

Survey of topics relevant to gender and its impact on the lives of women and men: socialization of gender, mental health, racial identity, majority-minority status, sexual orientation, life-span issues and violence (cross-listed as WS 202).

Prerequisite: PSY 100 or WS 151 with a grade of C or better.

PSY 212 Survey of Research Methods (3)

Survey of standard methods and related conceptual issues employed in psychological research. Both experimental and non-experimental methods will be reviewed.

Prerequisite: PSY 100 with a grade of C or better.

PSY 240 Developmental Psychology (3)

Emotional, mental, physical, social development from infancy to adulthood; interest and abilities at different age levels.

Prerequisite: PSY 100 with a grade of C or better, or consent of instructor.

PSY 260 Psychology of Personality (3)

Scientific study of personality, its theories, assessment, development and relationships to cultural-social determinants.

Prerequisite: PSY 100 with a grade of C or better or consent of instructor.

QUANTITATIVE METHODS (QM)

QM 75 Introduction to Quantitative Methods (3)

QM 75 is intended for Career Technical Education students. It fulfills some certificate requirements and can be used as a prerequisite to QM 107C or MATH 100C. Course topics include ratio and percent, unit conversion, graphs, data interpretation, basic algebra, solving linear equations, and working with formulas with special emphasis on pattern recognition and problem solving. Cross-listed as MATH 75. A student may not earn credit for both QM 75 and MATH 75.

Recommended Prep: English and math skills at the High School Common Core Level.

QM 78 Quantitative Methods Companion (1)

QM 78 provides students concurrently enrolled in QM 107C with Just-In-Time support with special emphasis on pattern recognition and problem solving. Course topics are tailored to the QM 107C topics and may include ratio and percent, unit conversion, graphs, data interpretation, basic algebra, solving linear equations, and working with formulas.

Corequisite: QM 107C.

Recommended Prep: English and math skills at the high school Common Core level.

QM 107C Quantitative Methods in Automotive Tech (3)

QM 107C covers the quantitative methods, reasoning, and applications necessary to perform tasks and solve problems encountered by automotive technologists. The quantitative methods covered include computational operations; geometry and measurement; ratio, proportion, and percent; statistics and probability; and trigonometry. Applications include major automotive systems such as engines, drive train, chassis, and suspension. QM 107C is designed for Automotive Technology degrees and certificates but does not satisfy the Foundation Symbolic Reasoning (FS) core requirement of an Associate in Arts degree.

Prerequisites: Any one of the following within the past two years: C or better (or CR) in MATH 22, OR C or better (or CR) in MATH 75, OR appropriate placement, OR concurrent enrollment in QM 78, OR consent of instructor.

Recommended Prep: English and math skills at the high school Common Core level.

RELIGION (REL)

REL 150 Introduction to the World's Major Religions (3)

A survey of the origins, teachings, practices, and present-day situation of the world's major religions. Buddhism, Christianity, Confucianism, Hinduism, Islam, Judaism, Shinto, Taoism, and indigenous traditions.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent or consent of instructor.

REL 151 Religion & the Meaning of Existence (3)

An investigation of basic concepts running through the world's major religious traditions that bear on the issue of what constitutes and enhances the meaningfulness of human existence.

Prerequisite: ENG 100 with a grade of C or better or equivalent or consent of instructor.

REL 200 Understanding The Old Testament (3)

Examination of the Old Testament (Hebrew Bible) as an expression of the religious life, history, and thought of ancient Israel and as a sacred text within later Judaism and Christianity.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent or consent of the instructor.

REL 201 Understanding The New Testament (3)

Intellectual analysis of the origin and development of the early Christian message as set forth in the New Testament. Special attention will be given to the messages of Jesus and Paul and their relevance to the modern world.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent or the consent of instructor.

REL 202 Understanding Indian Religions (3)

Teachings and practices of major religious traditions of India, to include Hindu traditions, Buddhism, Jainism, and Sikhism. Some attention will be given to the influences of Islam and Christianity on these traditions.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent.

Recommended Prep: REL 150.

REL 204 Understanding Japanese Religions (3)

Broad survey, with primary focus on Shinto, Buddhist and modern sectarian movements, analyzed in relation to social and cultural themes of major historical periods.

Prerequisite: ENG 100 with a grade of C or better or equivalent or consent of instructor.

REL 205 Understanding Hawaiian Religion (3)

A general introductory survey of Hawaiian religious teaching and practice from ancient times to the present.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent or consent of instructor.

REL 207 Understanding Buddhism (3)

An investigation of the major forms, practices and concepts of the Buddhist tradition.

Prerequisite: ENG 100 with a grade of C or better or equivalent or consent of instructor.

REL 209 Understanding Islam (3)

REL 209 focuses on the history, scriptures, beliefs, practices, law, and philosophy of Islam.

Prerequisite: ENG 100 with a grade of C or better or equivalent.

REL 210 Understanding Christianity (3)

History of ideas concentrating on events, persons, and issues with the greatest impact on the development of Christianity.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent or the consent of instructor.

Recommended Prep: REL 150.

SCIENCE (SCI)**SCI 103 Environmental Science of Hawai'i (4)**

This course introduces students to the environment of the Hawaiian Islands and the factors that endanger Hawai'i's unique ecosystems. Students will examine the biological, botanical, chemical, geological, meteorological, oceanographic, and physics-related aspects of the Hawaiian Islands. Hands-on exercises and laboratory and fieldwork are emphasized to enable students to understand the application of scientific methods to environmental stewardship.

Recommended Prep: MATH 22 (or equivalent) with a grade of C or better.

SCI 122 Introduction to Science-Physical (4)

An introduction to the philosophy and history of science from the perspective of the physical scientist. Topics covered include: the evolution of the scientific approach to problem solving, interrelationships between science and technology. To illustrate these topics, examples from the history of physical sciences will be used. The lab is required and allows the student to perform discovery-type activities.

Recommended Prep: MATH 83 or one year of high school algebra.

SCI 295EN STEM Research Experience in Engineering (1-3)

SCI 295EN offers research experience in science, technology, engineering and/or mathematics, emphasizing the application of the engineering design process to a specific project.

Prerequisite: Instructor Approval.

Recommended Prep: PHYS 170 and PHYS 170L.

SOCIAL SCIENCE (SSCI)

SSCI 101 Self-Development (3)

This course will increase students' awareness and acceptance of their own personal and cultural values and background, develop learning strategies and communication skills, and address personal attitudes and barriers so as to provide opportunity for educational success. This course is repeatable.

Recommended Prep: ENG 18 and 19 or equivalent

SOCIAL WORK (SW)

SW 200 The Field of Social Work (3)

This SW 200 course offers the learner an orientation to the profession of social work in the context of existing within a multicultural society. This course examines the nature and scope of social work practice, its historical origins, and development. It also surveys foundational values of the field, the philosophy of the profession, codes of ethics, methods of practice, and a range of interventions.

Prerequisite: ENG 100 with a grade of C or better, or equivalent, or consent of instructor.

Recommended Prep: HSER 100

SOCIOLOGY (SOC)

SOC 100 Survey of General Sociology (3)

Introduction to basic sociological concepts, theories and findings with emphasis on the sociological perspective to gain insight into basic social relationships, social structures and processes.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent.

SOC 151 Introduction to Sociology of Food (3)

Introduction to the sociological analysis of food by challenging students to think critically about issues involving food production, food consumption behaviors, and the controversies surrounding food production and the environmental impact of food production practices. Students will also evaluate social justice issues related to food and current social movements that have emerged to address these issues.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better.

SOC 214 Introduction to Race & Ethnic Relations (3)

This course examines race and ethnic relations from a global perspective. Social, economic and political problems associated with perception, existence, and accommodation of varying racial and ethnic groups within the wider society are examined.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent.

Recommended Prep: SOC 100

SOC 218 Introduction to Social Problems (3)

Application of a social perspective to selected problems afflicting modern industrial societies. Emphasis on understanding the nature, causes, and effects of selected social problems. Different research data and theoretical approaches are examined.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent.

SOC 231 Introduction to Juvenile Delinquency (3)

This course focuses on juvenile delinquency in the U.S. and examines: the nature of and trends in juvenile delinquency; explanations for and theories of juvenile delinquency; and institutional responses to and treatment of juvenile delinquency including discussion of the U.S. juvenile justice system. Special attention is paid to juvenile delinquency and the juvenile justice system in Hawai'i.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent.

SOC 250 Community Forces in Hawai'i (3)

This course is designed to acquaint the student with sociological principles and the application of these principles to aid in the awareness, understanding, and appreciation of the unique social environment of the State of Hawai'i. Fundamental concepts of sociology in the area of race relations are presented with emphasis on Hawai'i's unique potential "melting pot" social environment and the development of an "unorthodox race doctrine" for Hawai'i. Sociological aspects of the various cultural contributions by the ethnic groups to Hawai'i including values, concepts, practices, history, and language are also investigated.

Recommended Prep: ENG 22 or ENG 24 with a grade of C or better or equivalent

SOC 250H Community Forces in Hawai'i: Honors Course (3)

This course is designed to acquaint the student with sociological principles and the application of these principles to aid in the awareness, understanding, and appreciation of the unique social environment of the State of Hawai'i. Fundamental concepts of sociology in the area of race relations are presented with emphasis on Hawai'i's unique potential "melting pot" social environment and the development of an "unorthodox race doctrine" for Hawai'i. Sociological aspects of the various cultural contributions by the ethnic groups to Hawai'i including values, concepts, practices, history, and language are also investigated.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or equivalent.

SOC 251 Introduction to Sociology of the Family (3)

This course is a survey of contemporary family life. Using a cross-cultural perspective, this course examines variations in relationships and family patterns focusing on choices in relationships; current patterns, trends, and changes in these choices and family life. Love, sex roles, sexual attitudes and their relationship within the institution of the family are discussed along with partner selection, dating, marriage, singlehood, divorce, separation or widowhood. Major issues in family life today will be addressed including: career and family conflicts, alternative family forms, family planning and parenthood, spouse and child abuse, et al.

Prerequisite: ENG 22 or ENG 24 with a grade of CR or equivalent.

SPANISH (SPAN)

SPAN 101 Elementary Spanish I (4)

Basic structure of the Spanish language emphasizing listening and reading comprehension and spoken/written expression. Through practice in class and in workbook/laboratory manual activities, students learn to use the basic structures of Spanish.

Recommended Prep: ENG 22 with a grade of C or better or equivalent.

SPAN 102 Elementary Spanish II (4)

Basic structure of the Spanish language emphasizing listening and reading comprehension and spoken/written expression. Through practice in class and in workbook/laboratory manual activities, students learn to use the basic structures of Spanish.

Prerequisite: SPAN 101 with a grade of C or better or equivalent, or instructor's approval.

SPAN 201 Intermediate Spanish I (3)

Continuation and refinement of basic language skills acquired in Spanish 101 and 102. Through videos, study of authentic materials and literary texts, functional review of grammar, written and oral communicative activities supported by an integrated language laboratory program, students will acquire competency in speaking and writing, will gain an increased awareness and appreciation of Hispanic culture and will be able to express ideas and opinions about aspects of American society and the Hispanic world.

Prerequisite: SPAN 102 with a grade of C or better, or equivalent, or instructor approval.

SPAN 202 Intermediate Spanish II (3)

Continuation and refinement of basic language skills acquired in SPAN 201. Through videos, study of authentic materials and literary texts, functional review of grammar, written and oral communicative activities supported by an integrated language laboratory program, students will acquire competency in speaking and writing, will gain an increased awareness and appreciation of Hispanic culture and will be able to express ideas and opinions about aspects of American society and the Hispanic world.

Prerequisite: SPAN 201 with a grade of C or better, or equivalent or instructor approval.

SPEECH (SP)

SP 151 Personal and Public Speech (3)

Develop communication skills necessary to function effectively in today's society. Enhance communication skills in interpersonal, small group, and public speaking situations.

Prerequisite: ENG 22 or ENG 24 with a grade of C or better or approval by the division chair.

SP 251 Principles of Effective Public Speaking (3)

Adaptation of rhetorical theory to particular speakers, audiences, occasions. Extensive practice.

Prerequisite: ENG 100 with a grade of C or better or equivalent.

TELEVISION PRODUCTION (TVPR)

TVPR 101 Film & Video Production Process & Business Operations (3)

This course explains the entire production process (pre-production, production, post-production) for film and television, and business aspects of these media. Topics include concepts, treatments, storyboarding, scripts, breakout, budgeting, preproduction planning and documents, copyrights, roles of production personnel, departments and functions, production considerations, post-production editing, graphics, music, soundtrack, final cut, promotion, sales, marketing, and distribution. Ratings, share, box office receipts, business aspects, and how film and video companies make a profit are also emphasized.

Rec Prep: ENG 100, MATH 100

TVPR 121 Film and Video Graphics (3)

Introduction to video and film graphics. Students will learn about digital and non-electronic graphic production including character generators, color, motion, perspective, teleprompters, set construction, virtual sets, and graphic design.

Prerequisite: ENG 100 or higher and MATH 100 or higher with a grade of D or better or equivalent and TVPR 101, TVPR 126, TVPR 136, TVPR 142 and TVPR 151 with a grade of D or better and TVPR 226 and TVPR 251 with a grade of D or better or concurrent enrollment or instructor's consent.

TVPR 126 Introduction to Digital Camera Operation, Composition, & Lighting Principles (3)

An introduction to contemporary digital video cameras, operating controls, and mounting systems. Basic lighting principles, portable and studio equipment, safety, and operation will be illustrated in theory and application, particularly in relationship to camera operation.

Prerequisite: TVPR 101, TVPR 136, TVPR 142 and TVPR 151 with a grade of D or better or concurrent enrollment or instructor's consent.

Rec Prep: ENG 100, MATH 100

TVPR 136 Audio/Video Engineering (3)

Audio and video engineering fundamentals for television producers and production staff. This introductory course focuses on electrical power sources and generation, proper calibration, readings, and settings of audio and video signal monitoring and testing equipment, connections, adapters, inputs, and outputs. Students will learn to diagnose problems and adjust equipment accordingly. Simple troubleshooting, safety, care, and maintenance will also be emphasized.

Prerequisite: TVPR 126, TVPR 142 and TVPR 151 with a grade of D or better or concurrent enrollment or instructor's consent.

Rec Prep: ENG 100, MATH 100

TVPR 142 Film & Video Audio Acquisition & Recording (3)

Delivers theory, knowledge, and skills required for audio acquisition and recording as applied to film and television production. Audio theory, microphones, pickup patterns, frequency and amplitude, digital and analog signals, mixers, recording techniques, production audio devices, Foley, channels and tracks, sound effects, music, troubleshooting, mixing, and monitoring equipment are emphasized.

Prerequisite: TVPR 126, TVPR 136 and TVPR 151 with a grade of D or better or concurrent enrollment or instructor's consent.

Rec Prep: ENG 100, MATH 100

TVPR 151 Introduction to Film & Video Editing Principles (3)

An introduction to editing film and video in non-linear digital formats. Topics will include the grammar of the edit, history of film and video editing, analog and digital theories, contemporary formats, magnetic and optical recording and editing, contemporary recording, editing, and playback devices, digital editing file management, edit decision lists, timelines, editing strategies and methodologies, manipulation of audio and creation of simple soundtracks, and contemporary editing software and hardware and operation. Current editing software includes Adobe Premier, Final Cut Pro, and Avid.

Prerequisite: TVPR 126, TVPR 136 and TVPR 142 with a grade of D or better or concurrent enrollment or instructor's consent.

Rec Prep: ENG 100, MATH 100

TVPR 210 Film & Video History, Criticism, Ethics, & Aesthetics (3)

Through various international examples and critiques, students will study film and video history, development, and technical milestones, learn, study, question, and practice criticism, and examine ethical problems, responsibilities, and personal solutions. Students will study and examine media literacy. Students will also examine, compare, and contrast the aesthetics of film and video.

Prerequisite: ENG 100 or higher and MATH 100 or higher with a grade of D or better or equivalent or instructor's consent.

TVPR 211 Introduction to Film and Video Storytelling and Scriptwriting (3)

Students enrolled in this course will study fiction and non-fiction storytelling forms in film and video. Various genres will be explored and examined. Brainstorming, concepts, treatments, pitching, storyboarding, and scriptwriting formats will be emphasized. Students will produce their own scripts for both film projects shot on video and television projects.

Corequisite: TVPR 101, 126, 136, 142, and 151; or instructor's permission

Recommended Prep: ENG 100 or higher, and MATH 100 or higher or instructor's approval.

TVPR 226 Applied Digital Camera Operation, Composition, & Lighting (3)

This course refines and builds on the introductory abilities, knowledge, and skills of basic camera operation, and basic lighting equipment and techniques from the prerequisite TVPR 126. Students will apply that technical knowledge to specific projects. Projects will include criticism and duplication of existing film and video scenes, then move on to creation of independent student projects selected from various genres including narrative drama, news, public service, and documentary storytelling.

Prerequisite: ENG 100 or higher and MATH 100 or higher with a grade of D or better or equivalent and TVPR 101, TVPR 126, TVPR 136, TVPR 142 and TVPR 151 with a grade of D or better and TVPR 121 and TVPR 251 with a grade of D or better or concurrent enrollment or instructor's consent.

TVPR 227 Advanced Film and Video Storytelling and Scriptwriting (3)

This course builds upon knowledge and skills from TVPR 211 - Introduction to Film/Video Storytelling & Scriptwriting. Students will generate fiction and non-fiction stories for visual media in various genres. Stories will then be produced in standard professional film and video script and storyboard forms. Emphasis will be on dramatic narrative form including classic Act structures, plot, characterization, and visualization.

*Prerequisite: TVPR 211 with passing grade, or instructor's permission.
Corequisite: TVPR 251, 121, and 226; or instructor's permission*

TVPR 251 Applied Film & Video Editing & Post-Production Audio (3)

This course combines methods, techniques, software, and hardware image editing with audio editing to produce a complete film or video product. The grammar of the edit, online and offline editing, edit decision lists, A/B roll, cutaways, integration of graphics, continuity editing, complexity editing, context, transitions, time expansion and contraction, mastery of the tools of editing, signal monitoring, continuity, pacing, timing, advanced aesthetics, and ethics will be emphasized. Advanced audio techniques, tools, multi-track soundtracks, and audio effects will be integrated with pictures in order to produce a unified whole.

Prerequisite: ENG 100 or higher and MATH 100 or higher with a grade of D or better or equivalent and TVPR 101, TVPR 126, TVPR 136, TVPR 142, TVPR 151 and TVPR 211 with a grade of D or better and TVPR 121, TVPR 210 and TVPR 226 with a grade of D or better or concurrent enrollment or instructor's consent.

TVPR 276 Advanced Digital Cinematography, Composition & Lighting (3)

This course will provide students with advanced camera and lighting techniques while offering an appreciation of applied film and video aesthetics.

Prerequisite: ENG 100 or higher and MATH 100 or higher with a grade of D or better or equivalent and TVPR 101, TVPR 121, TVPR 126, TVPR 136, TVPR 142, TVPR 151, TVPR 226 and TVPR 251 with a grade of D or better and TVPR 291, TVPR 292 and TVPR 294 with a grade of D or better or concurrent enrollment or instructor's consent.

TVPR 291 Film & Video Directing-Studio/Location Production (3)

This course will concentrate on directing techniques and skills for both film and video, in the studio and during location production.

Prerequisite: ENG 100 or higher and MATH 100 or higher with a grade of D or better or equivalent and TVPR 101, TVPR 121, TVPR 126, TVPR 136, TVPR 142, TVPR 151, TVPR 210, TVPR 211, TVPR 226 and TVPR 251 with a grade of D or better and TVPR 276, TVPR 292 and TVPR 294 with a grade of D or better or concurrent enrollment or instructor's consent.

TVPR 292 Media Project Production (3)

This terminal course in the TVPro video production program will require students to apply all appropriate skills and knowledge gained in the Associate in Science TVPro degree program to produce a final ten minute production.

Prerequisite: ENG 100 or higher and MATH 100 or higher with a grade of D or better or equivalent and TVPR 101, TVPR 121, TVPR 126, TVPR 136, TVPR 142, TVPR 151, TVPR 210, TVPR 211, TVPR 226 and TVPR 227 with a grade of D or better and TVPR 276, TVPR 251, TVPR 291, TVPR 293C and TVPR 294 with a grade of D or better or concurrent enrollment or instructor's consent.

TVPR 293C Internship & Career Preparation (3)

This course provides practical work experiences in television where students will apply classroom/lab knowledge and develop job competencies. The course requires a minimum of eighty hours of internship and 15 hours of classroom instruction. Positions may be offered on Leeward CC campus and/or in other off-campus television assignments. Practicum class includes: resume writing, job interviewing skills, and creation of demo reels.

Prerequisite: TVPR 101, TVPR 126, TVPR 136, TVPR 142, TVPR 151 and TVPR 226 with a grade of D or better or instructor's consent.

TVPR 294 Advanced Editing & Audio (3)

This course concentrates knowledge, skills, and application of advanced film and video editing techniques with creation of a final multi-track soundtrack for productions.

Prerequisite: ENG 100 or higher and MATH 100 or higher with a grade of D or better or equivalent and TVPR 101, TVPR 121, TVPR 126, TVPR 136, TVPR 142, TVPR 151, TVPR 211, TVPR 226 and TVPR 251 with a grade of D or better and TVPR 276, TVPR 291 and TVPR 292 with a grade of D or better or concurrent enrollment or instructor's consent

THEATRE (THEA)

THEA 101 Introduction to Drama and Theatre (3)

Performance traditions of Africa, Asia, Australia, Europe, North America, and the Pacific from the 5th century B.C. to the present. Analysis of political, religious, and technological conditions of theatre.

THEA 170 Introduction to Children's Theatre (3)

This course examines the dramatic structure, audience needs, directing, and acting techniques that are employed in the production of theatre for children. Students will use movement, vocal exercises, improvisation, script writing, scripted material, and puppet and shadow theatre to increase knowledge of and comfort with theatre for children. Students will perform a short children's theatre piece for a young audience as part of their final for the class.

THEA 220 Beginning Voice and Movement (3)

This course is an introduction to the basic fundamentals of voice and movement for the actor. Students will concentrate on breathing and relaxation exercises, neutral mask and other approaches to increase self-awareness and potential for self-expression. The work in this class is intended as preparatory for a wide range of acting/movement/vocal techniques.

Recommended Prep: There is no academic preparation necessary. For the class, students should wear appropriate clothing. Students will be lying down, stretching, rolling, jumping and sweating to the best of their ability.

THEA 221 Beginning Acting I (3)

An introduction to acting with individual and group exercises in movement for the stage, improvisation, monologue preparation and performance.

THEA 222 Beginning Acting II (3)

Advanced work in improvisation and character development. Vocal and physical training is emphasized, particularly on scene work. Actors are expected to work together to present scenes to the class. This course is repeatable once for credit.

Prerequisite: THEA 221 with a grade of C or better or equivalent.

THEA 230 Storytelling and Solo Performance (3)

THEA 230 is a practical performance-oriented course emphasizing the history, forms and art of storytelling and solo performance. Students create and rehearse individual and group stories/monologues, as well as perform in a solo piece. This course examines the dramatic structure, audience needs, directing, and acting techniques that are unique to the craft of a solo performer or storyteller.

Prerequisites: ENG 100 or equivalent with a grade of C or better; or approval from instructor.

Recommended Prep: THEA 221 or THEA 101.

THEA 240 Basic Stagecraft (3)

An introduction to stagecraft and the technical aspects of theatre, including basic theory and fundamentals of lighting, set construction, sound, costuming, makeup and stage management. Class time will be divided between lectures and laboratory work in the theatre.

THEA 260 Dramatic Production (3)

Practical introduction to the process of converting a script into a performance. Students are required to participate in at least two aspects of a public performance. This course may be repeated twice for credit (three times maximum).

Prerequisite: THEA 221 with a grade of C or better, or consent of the instructor.

THEA 262 Local Style Theatre (3)

A practical performance-oriented theatre course that presents the local experience in a theatrical production. The actual production activities the student undertakes will vary with the production requirements of the play being produced. This course may be repeated for credit twice (three times maximum.)

Prerequisites: THEA 221 with a grade of C or better, or equivalent; or instructor approval.

THEA 280 Beginning Playwriting (3)

The course introduces structure, guidelines, and format of the monologue and short play; beginning with the conception of an idea, followed by effective outlining techniques, subsequent drafts, and the final product in a polished monologue and short play.

Prerequisites: ENG 100 or equivalent with a grade of C or higher; or approval from instructor.

WOMEN'S STUDIES (WS)

WS 151 Introduction to Women's Studies (3)

An interdisciplinary introductory course which looks at the gender roles and relationships between women and men and among women, historically and in contemporary societies. Examines the social, cultural, historical and political influences on the status of women. Presents women's experiences from diverse backgrounds, social structures, and cultures. (Leeward CC offers PSY 202, Psychology of Gender, which is cross-listed as Women Studies 202 at UH Mānoa.)

Recommended Prep: ENG 22 with a grade of C or better or equivalent.

WS 200 Culture, Gender and Appearance (3)

This course explores the social construction of gender within culture and its visual expression through appearance. An analysis of role, identity, conformity, and deviance in human appearance is emphasized.

Prerequisites: ENG 22 or ENG 24 or ENG 24C with a grade of C or better

WS 202 Psychology of Gender (3)

Survey of topics relevant to gender and its impact on the lives of women and men: socialization of gender, mental health, racial identity, majority-minority status, sexual orientation, life-span issues and violence. Cross-listed as PSY 202. (A student cannot earn credit for both WS 202 and PSY 202.)

Prerequisites: PSY 100 or WS 151 with a grade of C or better.

WS 290V Topics in Women's Studies (3-6)

A selection of various topics in Women's Studies utilizing perspectives and data from many disciplines. Each topic examines the issues involved in sexism and sex role differentiation by focusing on women's positions, contributions, concerns and problems. This course may be taken for a maximum of 2 times and for a maximum of 6 credits.

Prerequisite: At least one Social Science course at 100-level or higher with a grade of C or better.

Recommended Prep: WS 151 and/or an introductory-level course in a contributing discipline area for the selected 290 topic courses.

ZOOLOGY (ZOOL)

ZOOL 101 Principles of Zoology (3)

An introduction to the study of animal life. Basic principles of biology are covered including the role of plants as primary producers of chemical energy. The mechanisms of digestion, circulation, osmoregulation, excretion, locomotion, nerve action and reproduction in representative animals are discussed. The chemical and cellular mechanisms involved in the transmission of inheritance are studied. The evolution of plant and animal life, the interaction of organisms in their environment, food chains and trophic levels, and ecological distributions are introduced. Representative animal phyla including both invertebrates and vertebrates are studied from the viewpoint of systematics and structural characters. This course is designed to provide the student with basic information and vocabulary in preparation for advanced courses in zoology and biology. Class meets for 3 hours of lecture per week.

Prerequisite: ENG 22 with a grade of C or better or equivalent, or ENG 24 with a grade of C or better or equivalent, or qualified for ENG 100.

Corequisite: ZOOL 101L.

ZOOL 101L Principles of Zoology Laboratory (1)

Companion laboratory to ZOOL 101 Principles of Zoology. The laboratory and field activities in ZOOL 101L provide an overview of an introduction to the study of animal life. Basic principles of biology are covered including the role of plants as primary producers of chemical energy. The mechanisms of digestion, circulation, osmoregulation, excretion, locomotion, nerve action and reproduction in representative animals are discussed. The chemical and cellular mechanisms involved in the transmission of inheritance are studied. The evolution of plant and animal life, the interaction of organisms in their environment, food chains and trophic levels, and ecological distributions are introduced. Representative animal phyla including both invertebrates and vertebrates are studied from the viewpoint of systematics and structural characters.

Prerequisite: ENG 22 with a grade of C or better or equivalent, or ENG 24 with a grade of C or better or equivalent, or qualified for ENG 100.

Corequisite: ZOOL 101.

ZOOL 200 Marine Biology (3)

An introduction to marine animals and plants; their ecological relationships, structures and systematics; physical and chemical characteristics of the marine ecosystems; survey of marine environments; and utilization, exploitation, pollution, and conservation of marine resources; with special emphasis on the Hawaiian marine environment.

Prerequisite: ENG 22 or ENG 24, with a grade of C or better or equivalent

Corequisite: ZOOL 200L.

Recommended Prep: ZOOL 101 and ZOOL 101L.

ZOOL 200L Marine Biology Laboratory (1)

Companion laboratory to ZOOL 200 Marine Biology. The laboratory and field activities in ZOOL 200L provide an overview of marine life in Hawai'i inclusive of taxonomy, body structure and function, geographical distribution and ecological relationships. The physical and chemical features of Hawai'i's varied marine environments are also examined.

Prerequisite: ENG 22 or ENG 24, with a grade of C or better or equivalent.

Corequisite: ZOOL 200.

Recommended Prep: ZOOL 101 and ZOOL 101L.

INDEPENDENT STUDY

Students who wish to design and complete individual study projects geared to their particular interests, aptitudes and needs may register for this option. Plans must be approved by an appropriate faculty member who supervises and grades the project outcomes (usually completed within one semester). This study provides the student with an opportunity to participate in the creation of academic learning experiences geared to individual needs, interests, aptitudes and desired outcomes.

Any student registering at Leeward CC may design an independent study project at one of three levels:

1. Developmental (99)
2. Introductory (199)
3. Enrichment (299)

The study must be managed by at least one student-selected advisor and approved by the advisor's Division Chairperson. While there are no prerequisites, an advisor may recommend particular preparation before a student may undertake a project. The independent study could take the form of self-directed reading, research, fieldwork experience, public performance or an occupational experience.

For further information, see the appropriate faculty member, counselor or other college official.

EXPERIMENTAL COURSES

Experimental courses are provisional courses offered on a trial basis, and are designated by the numbers 97, 98, 197, 198, 297, or 298. An experimental course can be offered for up to two years and shall expire after the three years unless a request to extend the course or grant permanent status has been approved. An experimental course may or may not be transferable.

SUPPORT & SERVICES FOR STUDENTS

ADMISSIONS AND RECORDS

AD 220 455-0642 Monday–Friday 8:00 a.m.–4:30 p.m.

Temporary relocation during renovation through Summer 2019: DH-A 108

Admissions email: leeapply@hawaii.edu, Records email: lccar@hawaii.edu

The Admissions and Records Office provides admission services and maintains academic records for all current and former students. Throughout your college career, A&R will provide you with vital information, beginning with your first inquiry through your transcript and graduation diploma or certificate.

The Admissions and Records Office offers information and assistance with admission and registration of students and maintains student records, transcript requests, and Veterans' Administration (G.I. Bill) Certifications. The office also handles enrollment certification and graduation processing.

COLLEGE COMPUTING CENTER (CCC)

LC 201 455-0623

Leeward Community College provides computer resources to help students succeed. Computer labs are located in the Learning Commons, the Math Lab, Chemistry and Physics Labs. The Learning Commons also provides access to laptop computers and iPads. Students are required to present a current validated student ID to access computer resources.

COUNSELING AND ADVISING

AD 208 455-0233/0234

Temporary relocation during renovation through Summer 2019: DH-C

email: leeward@hawaii.edu

Counselors offer a variety of appointment types to assist students. Counselors are available to meet with students through scheduled appointments that can vary between 30 or 45 minutes. Evening appointments are also available on specific days of the week. Express services are available for quick questions; these appointments are scheduled for 15 minutes. Please contact the counseling office for specific information and to make an appointment.

Counselors are available to help develop a program of study to meet educational objectives. Meeting with a counselor provides an opportunity to develop an individualized educational plan and career exploration, along with a program of academic support throughout your college experience. You will also receive guidance in academic planning through assistance in course selection.

Counselors provide information on program requirements, prerequisites, course sequence, and registration. Other services include: program status and eligibility, graduation information, counseling as related to academic success, course waiver/substitution, information on credit by exam, transcript evaluation and transfer information.

The office also coordinates the advising of students on academic warning, probation or suspension.

EDUCATIONAL MEDIA CENTER

LC 116 455-0222

In addition to the programs EMC provides for the faculty and staff, the EMC operates:

- Copy Center: Pay for copies or prints , purchase printed OER textbooks
- Hawai'i Interactive Television System (HITS): Two-way distance learning courses
- Video Studio: Facilities for cable course production and support of instruction and informational program production.

FINANCIAL AID OFFICE

AD 210 455-0606

Temporary relocation during renovation through Summer 2019: DH-A 106

Monday–Friday 8:00 a.m.–4:30 p.m. email: lccfao@hawaii.edu

Wai'anae Moku: evenings by appointment

Financial Aid provides Federal financial aid applications for Pell Grants, student loans and work-study in addition to general information on scholarships, grants, state tuition waivers and private scholarships..

INTERNATIONAL ADMISSIONS

BE 109, 455-0570

Monday-Friday 8:00 a.m.-4:30 p.m.

email: lccintl@hawaii.edu

The Office of International Programs provides admission and services for international students. The International Programs staff is here to help you succeed — not only in your studies, but also in your adjustment to living in the United States. We want to see all our international students reach their academic and personal goals. The Office of International Programs offers a wide range of services to international students on campus, including an international student orientation for new students, visa information and counseling, and social activities designed to help you make friends and enjoy your experience in the United States.

LEARNING COMMONS

Located in the center of the campus, the Learning Commons is a student-centered learning space that integrates a variety of services in a flexible, technology-rich setting that encourages collaboration. Partners in the Learning Commons are the Learning Resource Center, Writing Center, Library, and Services for Students with Disabilities (KI Program). The Learning Commons also hosts a KiMOBEAN Coffee Shop.

LEARNING RESOURCE CENTER

LC 2nd Floor 455-0412

<http://www.leeward.hawaii.edu/lrc>

The Learning Resource Center (LRC) provides free instructional support services to help students succeed at Leeward CC:

- Free help from peer content tutors. Assistance is offered for a wide variety of courses, including accounting, logic, computer skills, languages, psychology, and sciences. Online help is available for some subjects.
- Language conversation groups led by native speakers for students enrolled in language classes
- Interactive workshops facilitated by tutors that offer success strategies for specific subject areas
- Pre-exam review sessions led by tutors
- Assistance in organizing study groups for classes
- A group study room
- Online and print resources for study skills and other useful topics
- Several computers for student use

LIBRARY

Learning Commons Building

Circulation Desk, 2nd Floor 455-0210, lccirc@hawaii.edu

Kapunawai Reference Desk, 2nd Floor, 455-0681

Main Reference Desk, 3rd Floor 455-0379, lccref@hawaii.edu

Blog: blogs.leeward.hawaii.edu/library/

Website: www.leeward.hawaii.edu/library

The Library is located at the Leeward CC campus in Pearl City and provides support and services to students, faculty, and staff on the main campus, the Leeward Waianae Education Center, and distance education online courses.

The Library offers:

Resources supporting your classes and assignments

- 221,000 books (print and electronic)
- 30,000 magazines, newspapers, and journals (print and electronic)
- 30,500 online videos
- 53 research databases
- Intra-system loan service providing access to circulating materials throughout the UH System.

Instruction and research assistance. Librarians offer

- Class presentations and workshops on information literacy skills and library research
- Individualized research assistance at reference desk on both floors.
- Email and chat reference during library hours.

Learning and study spaces

- Collaborative areas with flexible seating, 2nd Floor
- A 22 seat instructional classroom, 3rd floor
- Two Group Study Rooms with large LCD monitors with Apple TVs, 2nd floor

- Quiet Study Area and individual study carrels, 3rd floor
- Kapunawai, a multi-purpose Hawai'i-Pacific Resource Room, 2nd Floor

Technology

- 80 computer workstations (PC and Mac)
- 30 Dell PC laptops
- 30 iPads
- A DMED/TVPRO computer lab with 5 dual-screen Mac Pro workstations and 5 Macbook Pro laptops
- Self-service printing and photocopying

MATH LAB

MS 204 455-0400

The Math Lab offers you instructional assistance in mathematics when you are enrolled in Math courses at Leeward CC. Tutoring is available at no charge, on a first-come-first-serve basis at the Help Station. Graphic and scientific calculators and books on Arithmetic, Algebra, Pre-calculus, and Calculus are available for student use, along with computer stations.

MyUH Services

MyUH is part of the University of Hawai'i's integrated student information system. The University will provide each student an official UH Username and a password that are required to access UH online services.

MyUH Services is a personal dashboard for access to registration, class information, academic advising, campus calendar and more! Students having difficulty entering their MyUH account should email the University's Help Desk at help@hawaii.edu or call 956-8883.

New Student Orientation (NSO)

NSO is mandatory for new students. NSO offers campus tours, information on campus resources and how to get involved on campus, Laulima training, and opportunities to meet faculty and current students. Students will also sign up for a New Student Advising appointment to help register for courses, and to develop an educational plan. Information about NSO is provided in an email sent from MySuccess after the creation of the UH Username.

Non-Credit Courses

The Office of Continuing Education and Workforce Development offers a variety of non-credit classes that can assist you in your academic goals. Short-term classes in computer technology and various employment training opportunities are offered year-round. Non-credit courses can help you gain specific skills that can enhance and complement credit instruction. Call 455-0477 or visit our website

www.ocewd.org for current information on non-credit courses.

Password Resets

CCL Help Desk, LC 101, 455-0271

The CCL Help Desk can assist in resetting your UH password.

SERVICES FOR STUDENTS WITH DISABILITIES

Kāko'o 'Ike (KI)—Support for Learning LC 213 455-0421, TTY 455-0532

The Kāko'o 'Ike program provides support services to students with documented disabilities. We also help students who choose to better understand their own personal learning strengths and style. We have over 60 free informational handouts related to disabilities and strategies for success in college.

Some of the other services we provide include:

- Computer lab—Four assistive technology stations, Internet access, special adaptive software, scanner and printer.
- Accommodations—Learn about classroom and test-taking accommodations that may be appropriate for you based on your documentation.
- Faculty consultation—Faculty can receive tips on working with particular disabilities and students can receive assistance in approaching instructors about recommended accommodations.
- Interactive analysis—Through discussion and various preference inventories, discover and understand your own unique learning style.
- A counselor knowledgeable about disabilities can help with course advisement, course selection, and career exploration.

The range of academic support services we provide includes recorded textbooks, note takers, testing alternatives, and extended time limits. These accommodations in no way afford students with disabilities an unfair advantage. Rather, they are in place to “level the playing field” and to assist students to overcome the disadvantages that would otherwise hinder their success.

SUCCESS CONNECTION WORKSHOPS

Success Connection (SC) workshops are free college success skills workshops offered weekly throughout the semester. No advance sign-up is needed. The SC Workshop schedule is posted on the college website and available at the Writing Center. For more information, contact the SC Workshop Coordinator at 455-0414.

TEST CENTER

LC 101

455-0273

<http://www2.leeward.hawaii.edu/itg/testcenter> Please check the website for the hours of operation.

Placement testing is available on a walk-in basis in LC 101.

WIRELESS ACCESS

Leeward Community College also provides wireless access throughout its campus. Reference to further information can be found at <http://www2.leeward.hawaii.edu/itg/wireless/>

WRITING CENTER

LC 2nd Floor 455-0409

The Writing Center provides free and friendly peer support services to help students strengthen their writing skills and develop their college success skills. Writing consultants (peer tutors) assist students with–

- Writing assignments for any Leeward CC course;
- Scholarship essays;
- Writing placement preparation and review; and
- Reading, time management, note taking, organization, and other college success skills.

The writing consultants work with students in person in the Writing Center, online, by phone, via workshops, and in the classroom.

The Writing Center also provides online resources via its website (<http://www.leeward.hawaii.edu/writingcenter>) and has print handouts and computers available for students.

WRITING INTENSIVE PROGRAM

Writing Intensive courses give you an opportunity to practice and improve your writing skills in many subject areas. These courses, indicated by a “WI” in the course title, enable you to use writing to increase your understanding of course material. The courses require a minimum of 4,000 words of writing (approximately 16 typed pages) during the semester, with writing as a major element in determining the course grade. A prerequisite for all Writing Intensive courses is successful completion of ENG 100 or equivalent with a grade of C or better. Two Writing Intensive courses are required for the Associate in Arts degree.

VETERANS AFFAIRS

AD 220

Temporary relocation during renovation through Summer 2019: DH-C
455-0644

Visit the window "Veterans Education Benefits"

or Veterans Resource Center, BS-103 455-0410 Hours: M-F from 8:00 a.m.–4:00 p.m.

Leeward CC is an approved institution for education and training under the Veteran’s Educational Assistance Act (GI Bill) and the Dependents’ Act. Information regarding eligibility, entitlement and types of training authorized may be obtained from the Veterans Administration Regional Office. Please visit the Veterans Resource Center for general assistance in academic advising, selecting a major, and planning an educational program.

Contact the Veterans Affairs Certifying Officials in the Leeward CC Admissions Office regarding VA Educational benefits and course certifications.

VETERANS RESOURCE CENTER

BS-103 455-0410

The Veterans Resource Center (VRC) of Leeward CC is dedicated to helping veteran students transition from active duty services to civilian education. We aid in providing student support services, focusing on the special needs and requirements of today's military veteran, service member, dependents, and survivors. The VRC helps veterans stay connected to their academic goals.

The VRC offers the following services for military members, veterans and their families:

- Veterans Counselor provides academic, career, and financial aid counseling, education and training plans for the military spouse tuition assistance program (MYCAA) and active duty military tuition assistance (TA).
- Veterans Integration to Academic Leadership (VITAL) offers individual and group counseling on campus by a VA psychologist. Assistance in accessing VA healthcare is also provided.
- VetSuccess On Campus Counselor (VSOC) aims to help student Veterans and their qualified dependents succeed and thrive through a coordinated delivery of on-campus benefits assistance and counseling leading to completion of their education and preparing them to enter the labor market in viable careers. VSOC counselors provide: community and on-campus outreach, communication with student Veterans and their dependents, and educational and vocational counseling.

Other VRC Resources:

- Lending Library
- Student Lounge
- Computer/Laptop/Printer and CAC reader use
- VA Work Study opportunities and peer support
- Free VA Benefits Workshops throughout the semester

EMPLOYMENT ASSISTANCE

Job Prep Services

AD 222

Temporary relocation during renovation through Summer 2019: DH-D 104

455-0240

Monday–Friday 8:00 a.m.–4:00 p.m. (or by appointment)

The JPS staff can help you look for jobs, both on and off-campus. We can help you organize your resume, create your cover letter, prepare for interviews and develop employment strategies. Stop by and find out all we can do for you!

For Leeward CC students:

- Regularly updated job postings
- Interviewing tips
- Career exploration
- Job search assistance
- Assistance in filling out applications
- Assistance in writing resume and cover letters
- Use computers to apply online for jobs
- Find a mentor in your career area
- Labor market information—access to Career Coach that provides current local data on wages, employment, job postings and education and training options.

For the business community:

- Free job posting on our website and bulletin boards
- Assistance in arranging on-campus recruitment
- On-campus testing sites
- Opportunity to participate in Leeward Community College's annual job fairs
- Opportunities for other partnership activities
- Be a mentor to our students

For Leeward CC faculty:

- Interactive and informational workshops on employment for individual classes
- Online career/job exploration assessments and resources for class assignments
- Online job preparation tutorial support and training
- Labor market information—access to Career Coach that provides current local data on wages, employment, job postings and education and training options.
- Assistance in administering online career exploration assessments and activities

Campus Health Center

AD 122 455-0515; Hours are posted.

Temporary relocation during renovation through Summer 2019: DH-A 104

The Campus Health Center offers a variety of low cost services:

General Medical Clinic:

- Visits for illnesses and injuries
- Minor nursing urgent care and referrals Physical exams
- Limited laboratory services
- Limited prescription and over the counter medications

Women's Health & Family Planning

- Breast and pelvic exams
- Counseling, testing and treatment for sexually transmitted infections
- Contraceptive methods Emergency Contraception
- Pregnancy testing & referral

Immunizations:

- TB testing, MMR, Hepatitis A&B, Flu shot, Tetanus/ Diphtheria, Polio, Gardasil, Meningitis and Varicella (chicken pox)
- Student medical and dental insurance applications
- Health promotion and wellness programs
- Pamphlets and booklets covering a wide variety of health subjects

Campus Security

LA 238 455-0611

Campus Security provides around-the-clock assistance to students, faculty, and staff and maintains a “lost and found” service. Incidents and concerns relating to security should be reported directly to this office. Campus Security offers an Escort Service on request from anyone on campus by calling 455-0611. There is an Emergency Call Box located on the outside wall of the security office at LA 238, which can be activated by simply picking up the handset.

In the event of an emergency, any blue box on campus will also connect you to a security officer.

Children’s Center (Leeward)

DA 107

455-0488 (During Fall and Spring semester) 845-9466 (Summer)

Monday–Friday 7:45 a.m.–3:15 p.m.

The Leeward CC Children’s Center provides quality early childhood care and education services for preschool children (3, 4, and 5 year-olds) during the fall and spring semesters. Priority for enrollment is given to Leeward CC students, faculty, and staff. Full week and part week schedules are offered. Tuition includes breakfast, and a morning and afternoon snack. A half-day summer program is offered if there is sufficient demand.

The Children’s Center is licensed by the state of Hawai‘i and serves as laboratory for the Honolulu Community College Early Childhood Program.

To read more about the center and download a form-fillable application go to <https://sites.google.com/a/hawaii.edu/leeward-community-college-children-s-center/>

Send applications to:

Leeward Community College, Children’s Center, DA 107, 96-045 Ala ‘Ike, Pearl City, HI 96782

During the summer, send applications to: Honolulu Community College,

Early Childhood Program,

874 Dillingham Blvd., Honolulu, HI 96817

Copy Center

GT 104 455-0323

Monday–Friday 8:00 a.m.–4:00 p.m.

The Leeward CC Copy Center provides black & white and color copying, printing, scanning and faxing services.

Finishing services include lamination, binding, folding and three-hole punching.

Emergency—Medical

In case of emergency please notify the Security Office at 455-0611. If you are disabled by sickness or injury, you can contact the Campus Health Center by calling 455-0515. Please call 911 in case of emergency (if calling from on campus, you must first dial ‘9’ then 911).

Food Options

The College offers a variety of food options on campus:

Uluwehi Café First level, Campus Center 455-0630 Monday–Thursday: 7:30 a.m.–4:30 p.m.
Friday 7:30 a.m.–1:00 p.m.

The Pearl Second level of the Campus Center; Wed., Thurs., & Fri. 11:30 a.m.–1:30 p.m. Call 455-0475 for reservations; For more information email: tibenave@hawaii.edu

Tucked away on the makai side of the Campus Center Building, this fine dining restaurant features casual elegance and upscale contemporary cuisine. Culinary Arts Program students prepare contemporary menu items and provide dining services. Special dinners are offered throughout the academic year, which are listed online at www.leeward.hawaii.edu/ThePearl

Other Options

Additional food options are offered by Subway, located in the Uluwehi Café; KimoBean, located on the second floor of the Learning Commons Bldg; and Hot Dog Hawai'i, located on the Concourse.

Hours of operation for these outside vendors may vary each semester.

Lost and Found

Please contact the Security Office in LA 238, or call 455-0611.

Parking

The College provides parking to the maximum extent possible for which there is no charge. Obey all signage rules and regulations. A copy of the Rules and Regulations for Campus Parking at Leeward Community College is available at the Security Office (LA 238). If you believe your vehicle has been towed, contact Security at 455-0611.

Photocopiers

The Learning Commons has two self-service copying machines, one on each floor. Copying services are also available at the Leeward CC Copy Center, GT 104.

Public Transportation

The Mass Transit Lines, TheBus, runs several routes providing service to the College on a regular basis. Complete schedules may be obtained from TheBus by visiting the website, www.thebus.org

The City and County of Honolulu also maintain a shuttle bus service between the campus and Pearl City area during school days.

Vending Machines

Soda and snack vending machines are located throughout the campus. Coins and dollar bills are accepted. Credit cards and Apple Pay are accepted at selected machines.

FACILITIES, ACTIVITIES AND SPECIAL EVENTS

Facilities Use

Many of Leeward's facilities (e.g. theatre, cafeteria, classrooms, outdoor courtyards, recreational facilities) are available for use by college constituencies and the community. Rental fees are typically assessed to non-University of Hawai'i affiliated groups.

To reserve facilities, complete a Facilities Use Application available from the Facilities Office, DH-B (455-0558) or online at <http://www.leeward.hawaii.edu/FacilitiesUse>. The application should be received at least two weeks prior to the date of intended use in order to accommodate the review, authorization, and scheduling process.

For rental of the Leeward Theatre, please contact the Theatre Administrative Offices directly at 455-0380 or visit the Theatre website at <http://lcctheatre.hawaii.edu/rental.html>.

Special Facilities

Biotech Lab: Opportunities for undergraduate research and experience in molecular techniques including gene cloning, sequencing and bioinformatics. Dr. Kabi Neupane, 455-0418.

Educational Media Center: Support for teaching and student learning through the integration and use of instructional technology. The EMC operates several facilities and services for the campus. LC 116, 455-0222

Ho'oulu 'Āina, Plant Propagation Facility: Propagation center serving a wide variety of classes. Shade House Manager at 455-0474.

Leeward CC Observatory: Astronomical Observatory offering learning opportunities for the Leeward students, K-12 school students, and the community. Appointments are required for visiting the observatory. Kakkala Mohanan, 455-0442

The Leeward Theatre: Leeward and Central O'ahu's only major performing arts facility.
<http://LCCTheatre.hawaii.edu>

Native Plant Conservation, Ethnobotanical and Polynesian Introduced Gardens: Extensive native Hawaiian plant collection with more than 100 native species, 30 of which are endangered. Shade House Manager, 455-0474.

The Pearl: Fine dining with upscale contemporary cuisine in a casually elegant atmosphere. Second level of the Campus Center, call 455-0475.

Television Studio: New facilities opened in 2014 with the studio sound stage supporting the Television Production program.

Tennis Courts: Located on the 'ewa end of campus and are available for use. 455-0558 for reservations.

STUDENT LIFE

Student Life Office

Temporary Location during renovation: Campus Center Senate Chambers, 2nd floor 455-0208
Monday–Friday 8:00a.m.–4:30p.m.
(After renovation, returning to AD Building)

The Student Life Office provides leadership opportunities through the advisement of the ASUH -Leeward Student Government, Student Activities Board, Budget and Finance Committee, and New Student Orientation Leaders. The Student Life Office also facilitates co-curricular learning experiences through clubs and the IM LeeSports. Campus involvement enables students to gain life skills, increase their civic responsibility, and develop leadership skills that enrich their personal and professional development.

The Student Life staff also manages the Campus Center Student Lounge and the Senate Chambers meeting room, approves bulletin board postings, provides discount movie tickets and the use of sports equipment.

Campus Center Student Lounge

Second Level Campus Center Building
Monday–Thursday 8:00a.m.–4:00p.m.
Friday 8:00a.m.–3:00p.m.

Located on the second floor of Campus Center, the Student Lounge is a comfortable area open to students for gathering, studying, and relaxing between classes. The Lounge is equipped with comfortable furniture, a ping pong table, bus schedules, board and table games, and magazine swap table. The Lounge also hosts student events such as poetry slams, live entertainment, and other departmental events. The Student Lounge may be under renovation in Fall 2018, updates will be sent through the Student Life email announcements.

For more information on the Student Life Office, please visit: www.leeward.hawaii.edu/studentlife

Registered Independent Student Organizations

The Student Life Office facilitates the Registered Independent Student Organizations (RISO). For an updated list of organizations please check the Student Life website. If you would like to start a RISO please refer to the registration guidelines.

Student Government—Associated Students of UH-Leeward Community College (ASUH-Leeward CC)

Campus Center Building, 455-0560; Monday–Friday 9:00a.m.–4:00p.m.

ASUH-Leeward CC is governed by an Executive Board comprised of the President, Vice President, Secretary, and Treasurer. They oversee six Senators, including a Wai‘anae Moku Senator, who were elected by the Associated Students of Leeward CC. The Student Government represents the Associated Students of Leeward CC to administration and system-wide. They advocate for students concerns and needs. Their major responsibilities include the budgeting and management of the student activities fees, advocating student needs at the campus and system level, and the establishing of policies and programs for students.

Terms of all offices are for one year. The ASUH-Leeward CC Constitution allows students with a GPA of 2.0 or better to run for office. All students are eligible (and encouraged) to vote.

Student Activities Board—Associated Students of UH-Leeward Community College

Second Level, Campus Center Building, inside the Student Lounge 455-0208
Monday–Friday 8:00a.m.–4:30p.m.

The Student Activities Board (SAB) is governed by the Student Government and advised by the Student Life Coordinator. The purpose of the Student Activities Board is to provide fun, educational, and diverse programs and events for the student body. Events can include video game tournaments, poetry slams, live entertainment, cultural events, and many more. If interested in joining the Student Activities Board please contact Lexer Chou, achou@hawaii.edu

Budget and Finance Committee – Associated Students of the UH – Leeward Community College

The Budget and Finance Committee (B&F) is a sub-committee of the ASUH-Leeward CC Student Government. This committee focuses on properly allocating funding to student organizations and campus departments in co-sponsoring their events/programs to educate and provide social and learning programs outside of the classroom.

Board of Student Communications

The Board of Student Communications encourages and supports student work and publications in journalism, literature, the arts and multimedia. The student produced magazine, Ka Mana'o, is looking for journalists, photographers, and more. Contact Stanley Lee, stanleyl@hawaii.edu for more information.

Commencement Ceremony

The Student Life Office coordinates the Spring Commencement Ceremony. For updates on deadlines, fees, and general information please visit the Student Life Office website.

IM LEESPORTS: Intramurals

The Student Life Office coordinates the IM LeeSports League that invites campuses on the island to participate in the intramurals league. This is an opportunity for Leeward students to compete against other community college or UHWO students. The Student Life Office also provides intramurals on the Leeward campus for Leeward students only. If you have any questions please email: leeintramurals@gmail.com

New Student Orientation (NSO)

The Student Life Office recruits, hires, and trains the NSO Leaders. If interested please contact nsorocks@gmail.com

For more information on the Student Life Office please visit: www.leeward.hawaii.edu/studentlife

POLICIES

All policies pertaining to students can be found online www.leeward.hawaii.edu/policies

LEEWARD CC STUDENT CONDUCT CODE

As a student at Leeward Community College, you are expected to conduct yourself appropriately on-campus. You may not engage in behavior that violates the rights of others or disrupts the activities of the college. The Student Conduct Code delineates various categories of impermissible behavior and explains the sanctions that may be applied to students who violate one of the rules of the Code.

The categories of impermissible behavior include, but are not limited to:

- Personal misconduct, such as fighting, hazing, harassing, stealing, unauthorized entering, using or possessing weapons, failing to comply with the directions of a campus official, being disorderly, etc.
- Demonstrations or interference with campus operations
- Furnishing false or fraudulent information
- Stealing or mutilating college property
- Abuse of controlled substances
- Academic dishonesty (cheating or plagiarizing)

For violations of these rules, the following sanctions may be imposed:

- Warning
- Probation
- Restitution
- Temporary suspension
- Suspension
- Expulsion
- Rescission of grades or degree

Leeward CC's Student Conduct Code and its approved procedures are available at the Office of the Dean of Student Services and on the College's website: www.leeward.hawaii.edu/policies

ACADEMIC DISHONESTY

Academic dishonesty cannot be condoned by the University. Such dishonesty includes cheating and plagiarism (examples of which are given below), which violate the Student Conduct Code and could result in expulsion from the University.

Cheating includes but is not limited to giving unauthorized help during an examination, obtaining unauthorized information about an examination before it is administered, using inappropriate sources of information during an examination, altering the record of any grades, altering answers after an examination has been submitted, falsifying any official University record, and misrepresenting the facts in order to obtain exemptions from course requirements.

Plagiarism includes but is not limited to submitting any document, to satisfy an academic requirement, that has been copied in whole or part from another individual's work without identifying that individual; neglecting to identify as a quotation a documented idea that has not been assimilated into the student's language and style, or paraphrasing a passage so closely that the reader is misled as to the source;

submitting the same written or oral material in more than one course without obtaining authorization from the instructors involved; or dry-labbing, which includes (a) obtaining and using experimental data from other students without the express consent of the instructor, (b) utilizing experimental data and laboratory write-ups from other sections of the course or from previous terms during which the course was conducted, and (c) fabricating data to fit the expected results.

DANGEROUS WEAPONS

The possession or use of firearms, ammunition or dangerous weapons as defined in Chapter 134, HRS, on University premises is strictly prohibited, unless specifically authorized by the Chancellor.

Dangerous weapons include but are not limited to firearms, ammunition, spear guns, knives, explosives and dangerous substances. Any person found in violation may be subject to the provisions of State law, University policy and the Student Conduct Code.

For more information, see the University of Hawai'i's System Policy on Workplace Non-Violence (EP 9.210) at <https://www.hawaii.edu/policy/ep9.210>.

SMOKING

All University of Hawai'i campuses and facilities are tobacco-free. Hawai'i state law (SB 134, Act 160, SLH 2018) prohibits the use of tobacco products on all 10 UH campuses and university-owned facilities.

Tobacco products include, but are not limited to, cigarettes, cigars, pipes, smoking tobacco, electronic cigarettes, vapes and chewing tobacco. Previously designated "smoking areas," (including parking lots) are now also no-smoking areas.

Additional information can be found online at www.leeward.hawaii.edu/smoking.

PROHIBITED ACTIVITIES

Non-approved activities such as skateboarding, roller-blading, bicycling, ball-playing, and frisbee, etc. are prohibited on campus.

ILLCIT DRUGS AND ALCOHOL

This Official Notice, by the University of Hawai'i Office of the President, is issued pursuant to the requirements of the federal Drug-Free Schools and Communities Act of 1989 and the Drug-Free Workplace Act of 1988.

In conformance with the existing law, University faculty, staff and students are not permitted to manufacture, distribute, possess, use, dispense or be under the influence of illegal drugs and/or alcohol as prohibited by State and Federal law, at University-sponsored or approved events or on University property or in buildings used by the University for education, research or recreational programs. Consistent with its mission, the University will cooperate with law enforcement agencies responsible for enforcing laws related to the use of illegal drugs and alcohol. Students found in violation of this part shall be subject to the provisions of the student conduct code. Faculty and staff found in violation of this part are subject to disciplinary action as provided in collective bargaining agreements, University policy, and other applicable State laws and rules.

The University recognizes that substance abuse is a complex problem that is not easily resolved solely by personal effort and may require professional assistance and/or treatment. Students, faculty and staff members with substance abuse problems are encouraged to take advantage of available diagnostic,

referral, counseling and prevention services. The University will not excuse misconduct by employees and students whose judgment is impaired due to substance abuse.

The purchase, possession or consumption of alcoholic beverages is regulated by state law. Students are expected to know and abide by state law and by University rules and regulations governing the use and consumption of alcoholic beverages on campus. Students are referred to Board of Regents policy, executive policies and campus guidelines regulating the use and consumption of alcoholic beverages on campus.

Students are not permitted to be under the influence of, possess, manufacture, distribute, or sell illicit drugs, as prohibited by state law, at University-sponsored or approved events, on University property or in buildings used by the University for its educational or recreational programs. Reasonable suspicion of possession or use of illegal drugs and substances on campus may subject the students involved to investigation.”

Sanctions which may be imposed on violators of the alcohol and drug related sections of the Student Conduct Code include disciplinary warning, probation, suspension, expulsion or rescission of grades or degree. Copies of the full text of the Code are available in the Office of the Dean of Student Services or online at www.leeward.hawaii.edu/policies.

Campus-sponsored activities on campus that involve either the serving or selling of alcoholic beverages must be in compliance with applicable College/University policies and State law.

Copies of policies governing the possession, consumption, serving and sale of alcoholic beverages on the University of Hawai'i Leeward Community College campus are available in the Office of the Dean of Student Services and the Office of the Chancellor or online at www.leeward.hawaii.edu/policies and at <https://www.hawaii.edu/policy/ep11.201>.

FINANCIAL OBLIGATIONS TO THE UNIVERSITY

Students who have financial obligations (such as tuition and fees, traffic violations, parking tickets, unreturned library books, library fines, other fines, laboratory breakage charges, transcript fees, loans past due, rental payments, etc.) may be denied letters of verification or certification, grades, transcripts, diplomas, and registration.

Financial obligations not cleared will be sent to a collection agency. A copy of the Hawai'i, Administrative Rules, Title 20, University of Hawai'i, Chapter 10 on Delinquent Financial Obligations, promulgated by the Board of Regents, is on file in the Office of the Dean of Student Services and is available online at <http://www.hawaii.edu/offices/bor/adminrules/chapter10.pdf>.

ACADEMIC RIGHTS AND FREEDOMS OF STUDENTS

Leeward Community College embraces those aspects of academic freedom that guarantee the freedom to teach and the freedom to learn. Free inquiry and free expression for both students and faculty are indispensable and inseparable.

The College subscribes to that part of the 2007 “Joint Statement on Rights and Freedom of Students,” adopted by a diverse number of higher education organizations including the American Association of University Professors, which relates to classroom instruction: “The professor in the classroom and in conference should encourage free discussion, inquiry, and expression. Student performance should be evaluated solely on an academic basis, not on opinions or conduct in matters unrelated to academic standards.”

- A. Protection of Freedom of Expression
Students should be free to take reasoned exception to the data or views offered in any course of study and to reserve judgment about matters of opinion, but they are responsible for learning the content of any course of study for which they are enrolled.
- B. Protection Against Improper Academic Evaluation
Students should have protection through orderly procedures against prejudiced or capricious academic evaluation. At the same time they are responsible for adhering to standards of academic performance established for each course in which they are enrolled.
- C. Protection Against Improper Disclosure
Information about student views, beliefs and political association which professors acquire in the course of their work as advisors, and counselors should be considered confidential. Protection against improper disclosure is a serious professional obligation. Judgments of ability and character may be provided under appropriate circumstances, normally with the knowledge or consent of the student.

STUDENT ACADEMIC GRIEVANCE PROCEDURES

A student who seeks to appeal the assignment of a course grade may initiate action to achieve a remedy. The actions available are outlined in the Academic Grievance Procedures and must be initiated within 30 calendar days after the student has become aware, or could have reasonably been expected to become aware, of the grade assignment.

A student who seeks to appeal the assignment of a course grade must first make every reasonable attempt to discuss the matter with the faculty member involved. The faculty member must be afforded the opportunity to initially handle these matters before the grievance progresses to the next level.

If the student fails to resolve the matter with the faculty member, he/she needs to then discuss it with the faculty member's Division Chair within 14 business days after completing step 1. The DC shall then complete any consultation and shall notify the faculty member and student in writing of his/her conclusion(s) and recommendation(s) within 14 calendar days of receiving the student's report.

If this process fails to achieve a satisfactory resolution of an appeal of a final grade, the student may file an academic grievance, in writing, with the Chairperson of the Faculty Senate Student Committee.

Complete details of the Academic Grievance Procedures are available through the Office of the Dean of Student Services and online at www.leeward.hawaii.edu/policies.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY OF STUDENTS

The Family Educational Rights and Privacy Act (FERPA) affords eligible students certain rights with respect to their education records. These rights include:

1. The right to inspect and review the student's education records within 45 days after the day Leeward Community College receives a request for access.

A student should submit to the registrar, dean, head of the academic department, or other appropriate official, a written request that identifies the record(s) the student wishes to inspect. The school official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the school official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student's education records that the student believes is inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

A student who wishes to ask the school to amend a record should write the school official responsible for the record, clearly identify the part of the record the student wants changed, and specify why it should be changed.

If the school decides not to amend the record as requested, the school will notify the student in writing of the decision and the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

The school discloses education records without a student's prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by Leeward Community College in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff); a person serving on the board of regents; or a student serving on an official committee, such as a disciplinary or grievance committee. A school official also may include a volunteer or contractor outside of Leeward Community College who performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, or collection agent. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for Leeward Community College.

Parents and spouses of students are advised that information contained in education records, with the exception of directory information, will not be disclosed to them without the prior written consent of the student.

Students are advised that institutional policy and procedures required under FERPA have been published as Administrative Procedure AP 7.022, Procedures Relating to Protection of the Educational Rights and Privacy of Students. Copies of Administrative Procedure AP 7.022 may be obtained from the Office of the Dean of Student Services.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Leeward Community College to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:
Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW Washington, DC 20202

Directory Information:

The University has designated the following information from a student's education record as "directory information":

1. Name of student;
2. Major field of study;
3. Class (i.e., freshman, sophomore, etc.);
4. Past and present participation in officially recognized activities (including positions held and official statistics related to such participation and performance);
5. Past and present participation in officially recognized sports (including positions held and official statistics related to such participation and performance);
6. Weight and height of members of athletic teams;
7. Dates of attendance;
8. Previous institution(s) attended;
9. Full or part-time status;
10. Degree(s) conferred (including dates);
11. Honors and awards (including dean's list).

At its discretion and in conformance with applicable state law, the University may disclose directory information to the public without obtaining a student's prior consent, so long as certain conditions regarding general notification of disclosure of directory information have been followed. Specific directory information about an individual student will not be released to the public if the student has affirmatively informed the University that he or she does not want any or all of those types of information about himself or herself designated as directory information. The procedures for an individual student to "opt" out of disclosure is set forth in UH administrative policy A7.022

Note: Submission of this FERPA nondisclosure of directory information request does not automatically remove students from the UH Online Directory of email addresses, which is accessible only to those with a valid UH email address.

To remove yourself from the UH Online Directory:

- Login to MyUH
- Select the My Profile Tab
- Look for UH Online Directory, Options for Students, select Opt-out

Lists of directory information will not be made publicly available to third parties.

The school may provide the UH Foundation with lists of students with the following information: name, school/college/division/department. Degree, major and minor fields of study, UH email address, home address, and telephone number for the purpose of University and alumni relations.

FERPA Annual Notice Addendum:

As of January 3, 2012, the U.S. Department of Education's FERPA regulations expand the circumstances under which your education records and personally identifiable information (PII) contained in such records—including your Social Security Number, grades, or other private information—may be

accessed without your consent. First, the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local education authorities (“Federal and State Authorities”) may allow access to your records and PII without your consent to any third party designated by a Federal or State Authority to evaluate a federal- or state-supported education program. The evaluation may relate to any program that is “principally engaged in the provision of education” such as early childhood education and job training, as well as any program that is administered by an education agency or institution. Second, Federal and State Authorities may allow access to your education records and PII without your consent to researchers performing certain types of studies, in certain cases even when we object to or do not request such research. Federal and State Authorities must obtain certain use-restriction and data security promises from the entities that they authorize to receive your PII, but the Authorities need not maintain direct control over such entities. In addition, in connection with Statewide Longitudinal Data Systems, State Authorities may collect, compile, permanently retain, and share without your consent PII from your education records, and they may track your participation in education and other programs by linking such PII to other personal information about you that they obtain from other Federal or State data sources, including workforce development, unemployment insurance, child welfare, juvenile justice, military service, and migrant student records systems.

INFORMATION TECHNOLOGY POLICY

UH Executive Policy, Administration E 2.210: Use and Management of Information Technology Resources Responsible Use, Privileges and Responsibilities:

The University of Hawai'i defines and provides access to institutional computers, information systems and networks as a privilege rather than a right. All users must respect the rights of others, the integrity of the facilities and controls which are implemented to maximize the community's reliable access, and all pertinent license and contractual agreements that underlie the University's technology infrastructure. It is the policy of the University to deny access to any member of the user community who violates this policy or who uses the University's technology resources to violate other duly established policies and/or Federal or State laws.

The complete IT Usage policy can be found at <https://www.hawaii.edu/policy/ep2.210>.

ACADEMIC PROBATION AND SUSPENSION POLICY

1. The purposes of this policy are to establish standards of satisfactory academic progress; to establish procedures for identifying students who are not making satisfactory academic progress; and to encourage such students to take appropriate action to improve their academic performance.
2. For purposes of this policy, a student is not making satisfactory academic progress if he/she is placed on:

- Academic Warning
- Academic Probation
- Academic Suspension
- Academic Dismissal

3. As used in this policy:

- *Term* includes all sessions/semesters conducted by Leeward Community College (fall, winter, spring and summer).
- *Regular term* refers to fall and spring semesters.
GPA stands for grade point average earned at Leeward Community College.
- *Term GPA* means the same as current GPA, semester GPA, or the GPA for only the applicable semester.

4. ACADEMIC WARNING

A student shall be placed on Academic Warning for the following term if, during the term, the student fails to earn a term and cumulative GPA of 2.0 or higher, or **fails to complete at least 50% of the total credits for that term.**

A student on Academic Warning shall be restored to good academic standing the following term if, during the term the student is on Academic Warning, he/she **earns a term and cumulative GPA of 2.0 or higher and passes 50% of the total credits for that term.**

A student shall remain on Academic Warning status if either—but not both—term or cumulative GPA is below 2.0.

A student on Academic Warning will be required to meet with a counselor to discuss and secure approval for courses to be taken that semester. As a general rule, the warning student may not register or add/drop courses until he/she meets with a counselor.

A student on Academic Warning is prohibited from taking more than 13 credits during the term he/she is on Academic Warning. If the student has pre-registered for more than 13 credits, the student will be required to drop the excess credits.

5. ACADEMIC PROBATION

A student shall be placed on Academic Probation for the following term if, during the term the student is on Academic Warning, the student **fails to earn a term and cumulative GPA of 2.0 or higher, or fails to complete at least 50% of the total credits for that term.**

A student on Academic Probation shall be restored to good academic standing the following term if, during the term the student is on Academic Probation, **he/she earns a term and cumulative GPA of 2.0 or higher.**

A student shall remain on Academic Probation if **either—but not both—term or cumulative GPA is below 2.0.**

A student on Academic Probation will be required to meet with a counselor to discuss and secure approval for courses to be taken that semester. As a general rule, the probationary student may not register or add/drop courses until he/she meets with a counselor.

A student on Academic Probation is prohibited from taking more than 13 credits during the term he/she is on Academic Probation. If the student has pre-registered for more than 13 credits, the student will be required to drop the excess credits. A student on Academic Probation is also ineligible for campus employment for that term.

6. ACADEMIC SUSPENSION

A student shall be placed on Academic Suspension the following regular academic term if, during the term the student is on Academic Probation, the student **fails to earn a term and cumulative GPA of 2.0 or higher, or fails to complete at least 50% of the total credits for that term.**

A student who has been suspended is prohibited from enrolling in any credit courses offered for one regular term and any intervening winter and summer term(s). If the student has pre-registered for an upcoming term, he/she will automatically be disenrolled from their Leeward Community College classes. The student will receive a 100% refund of tuition and fees.

The student may reapply for admission after the suspension period and will be readmitted on Academic Probation/Suspension status (see section 5). If, however, during the probationary term, student **fails to earn a term and cumulative GPA of 2.0 or higher, or fails to complete at least 50% of the total credits for that term, the student will be placed on Academic Dismissal** (see section 7).

7. ACADEMIC PROBATION following ACADEMIC SUSPENSION

Students on or readmitted on Academic Probation/Suspension following Academic Suspension are required to make an appointment with a designated counselor for appropriate advising and to remove the registration hold which prevents registration.

If, during the probationary term following an Academic Suspension, the student earns or maintains a term and cumulative GPA of 2.0 or higher and passes 50% of the total credits for that term, the student shall be restored to good academic standing the following semester.

If, during the probationary term following an Academic Suspension, the student succeeds in earning a term or cumulative GPA of 2.0 or higher, the student shall remain on Academic Probation for another term.

Special conditions may be established by the Dean of Student Services. If the student fails to meet those special conditions during the probationary term following the suspension, the student shall be placed on Academic Dismissal (see section 8).

If, during the probationary term following an Academic Suspension, the student fails to earn a term and cumulative GPA of at least 2.0, or fails to complete at least 50% of the total credits for that term, the student shall be placed on Academic Dismissal (see section 8).

A student on Academic Probation/Suspension is prohibited from taking more than 13 credits during the term he/she is on Academic Probation/Suspension. If the student has pre-registered for more than 13 credits, the student will be required to drop the excess credits. A student on Academic Probation/Suspension is also ineligible for campus employment for that term.

8. **ACADEMIC DISMISSAL**

A student readmitted to the College on Academic Probation/Suspension following an Academic Suspension shall be placed on Academic Dismissal if the student.

A student who has been dismissed is prohibited from enrolling in any credit courses offered by the College for two regular terms and any intervening winter and summer term(s). If the student has pre-registered for an upcoming term, he/she will automatically be disenrolled from their Leeward Community College classes. The student will receive a 100% refund of tuition and fees.

The student may reapply for admission after the dismissal period and will be readmitted on Academic Probation/Dismissal status. The student will then be subject to section 9 below.

9. **ACADEMIC PROBATION following ACADEMIC DISMISSAL**

Students on or readmitted on Academic Probation/Dismissal following Academic Dismissal are required to make an appointment with a designated counselor for appropriate advising and to remove the registration hold which prevents registration.

If, during the probationary term following an Academic Dismissal, the student **earns or maintains a term and cumulative GPA of 2.0 or higher and passes 50% of the total credits for that term**, the student shall be restored to good academic standing the following semester.

If, during the probationary term following an Academic Dismissal, the student **succeeds in earning a term or cumulative GPA of 2.0 or higher**, the student shall remain on Academic Probation for another term.

Special conditions may be established by the Dean of Student Services. If the student fails to meet those special conditions during the second probationary term following the dismissal, the student shall be permanently dismissed from the College.

If, during the probationary term following an Academic Dismissal, the student **fails to earn a term and cumulative GPA of at least 2.0**, the student shall be permanently dismissed from the College.

10. The College shall inform, in writing, any student who is not making satisfactory academic progress as soon as practicable after term grades have been reviewed and the appropriate action has been taken.
11. When a student has been placed on Academic Probation, Academic Suspension, or Academic Dismissal, such action shall be permanently indicated on the student's academic (transcript) record.
12. A student placed on Academic Warning, Academic Probation, Academic Suspension, or Academic Dismissal status may appeal such action by filing a written appeal with the Dean of Student Services or designee no later than 20 working days after the date of the written notice.

The appeal shall include a brief outline of the reasons why the appeal should be granted. The decision of the Dean of Student Services or designee on the appeal shall be final.

13. When an "I" (incomplete) grade is assigned to a student at the end of the semester deadline, the "contingency" grade submitted by the instructor will be used to calculate GPA.
14. In computing GPAs for purposes of this policy, the College's grading system shall be observed. Courses for which "N" grades are received shall be considered as failing.

Term and cumulative GPAs will be calculated after repeated courses have been noted on a student's academic record.

15. Students on Academic Suspension or Academic Dismissal are not eligible to graduate.

POLICY OF NONDISCRIMINATION AND AFFIRMATIVE ACTION

Leeward Community College declares and reaffirms its commitment to the University of Hawai'i's policy of equal education and employment opportunity. The College is committed to the principles and practices of nondiscrimination on the basis of race, sex (including sexual orientation, gender identity and expression), age, religion, color, national origin, citizenship status (except as permissible by applicable law), ancestry, physical and mental disability, genetic information, marital status (including civil union), arrest and court record (except as permissible under State law), National Guard absence, uniformed services, status as a protected veteran, income assignment for child support, credit history (unless directly related to a bona fide occupational qualification), pregnancy, breastfeeding, or status as a victim of domestic or sexual violence (includes stalking), provided the victim provides notice to her/his employer of such status or the employer has knowledge of such status.

The College further declares its commitment that as part of the University's equal opportunity policy to implement reasonable accommodations, to the extent required by law, for individuals with disabilities, sincerely held religious practices, victims of domestic or sexual violence, pregnancy, and breastfeeding.

In addition, employees and applicants for employment are protected under Title IX, Title II and Section 504.

As an integral part of its Policy on Nondiscrimination and Affirmative Action, the Office of the President, University of Hawai'i, hereby declares and reaffirms its commitment to the University's pursuit of equal education and employment opportunity and further declares that any harassment of students or employees or applicants for admission or employment on the basis of sex is prohibited and will not be tolerated.

Individuals designated to coordinate the University of Hawai'i Community Colleges' nondiscrimination and affirmative action programs are:

Lori Lei Hayashi

EEO/AA Coordinator
Leeward Community College
96-045 Ala 'Ike, AD 121
(temp. location: DH-B 101)
Pearl City, HI 96782
Phone: 808-455-0277

Mary Perreira

Director of EEO/AA
UH Community Colleges
2327 Dole Street
Honolulu, HI 96822
Phone: 808-956-4650 (V/T)

Kay Ono

Interim Dean of Academic Services
Section 504 and Title II Coordinator
Leeward Community College
96-045 Ala 'Ike, AD 107
Pearl City, HI 96782
Phone: 808-455-0440

DISCRIMINATION COMPLAINTS

Discrimination against students, employees, and applicants for admission or employment as articulated in the Policy on Nondiscrimination and Affirmative Action is prohibited and will not be tolerated by Leeward Community College. Violation of this Policy from any individual may subject a member of the University community to adverse treatment/action based on the protected category as set forth in the Policy.

Discrimination complaints will be processed using the University's Administrative Procedure A9.920, Discrimination Complaint Procedures for Employees, Students, and Applicants for Employment and Admissions.

Complaints of discrimination may be addressed to:

Students:

Kami Kato, Deputy Title IX Coordinator
Leeward Community College
96-045 Ala 'Ike, AD 225A (temporary location: DH-A 103)
Pearl City, HI 96782
Phone: 808-455-0236

Kay Ono, Section 504 and Title II Coordinator
Leeward Community College
96-045 Ala 'Ike, AD 107
Pearl City, HI 96782
Phone: 808-455-0440

College Employees (to include student employees):

Lori Lei Hayashi, Deputy Title IX Coordinator
Leeward Community College
96-045 Ala 'Ike, AD 121 (temporary location: DH-B 101)
Pearl City, HI 96782
Phone: 808-455-0277

For Either Students or Employees:

Mark Lane, Title IX Coordinator
Leeward Community College
96-045 Ala 'Ike, AD 111 (temporary location: DH-B 105)
Pearl City, HI 96782
Phone: 808-455-0213

The process of addressing allegations of discrimination are described in the University of Hawai'i Administrative Procedure A9.920, Discrimination Complain Procedures for Students, Employees, and Applicants for Admission or Employment, August 2002.

Complaints of discrimination may also be filed with:

Mary Perreira

Director of EEO/AA

UH Community Colleges

2327 Dole Street

Honolulu, HI 96822

Phone: 808-956-4650 (V/T)

SERVICES FOR DEAF AND HARD OF HEARING STUDENTS

Deaf and hard of hearing individuals desiring information may contact the College by calling the TTY (Text Telephones) number at 1711 or (808) 643-8833. A TTY pay phone is located outside on the 'ewa side, ground floor, of the Administration Building.

Information about the programs, services, activities, and facilities which are available to persons with disabilities can be obtained by contacting the Kāko'o 'Ike Program at 455-0421. See details in the next section.

SERVICES FOR STUDENTS WITH DISABILITIES

In accordance with Section 84.4 of the Federal rules and regulations governing Section 504 of the Rehabilitation Act of 1973, no qualified individual with a disability shall, on the basis of their disability, be excluded from participation in, be denied benefits of, or otherwise be subjected to discrimination under any program or activity which receives or benefits from Federal financial assistance.

Students with documented disabilities may be provided classroom accommodations (reader, note-taker, American Sign Language Interpreters, adaptive technology) and/or other academic support services as needed.

For further information about accessing services, call or visit:

Kris Hernández

Program Coordinator

POLICY ON SEX DISCRIMINATION AND GENDER-BASED VIOLENCE

The University of Hawai'i is committed to maintaining and promoting safe and respectful campus environments that are free from sex discrimination and gender-based violence. This includes:

- Sex Discrimination
- Sexual Harassment
- Gender-Based Harassment, including harassment based on actual or perceived sex, gender, sexual orientation, gender identity or gender expression
- Sexual Exploitation
- Sexual Assault
- Domestic and/or Dating Violence
- Stalking

Conduct of this nature constitutes illegal discrimination as set forth in Title IX of the Education Amendment of 1972, relevant sections of the Violence Against Women Reauthorization Act of 2013, Title VII of the Civil Rights Act of 1964, and Hawai'i laws that prohibit discrimination on the basis of sex, sexual orientation and gender identity.

Any person believing that they have been subjected to any of the above should report the prohibited behavior immediately to one of Leeward CC's Title IX Coordinators. Retaliation against anyone who has reported this type of conduct or who participates in any resolution process is strictly prohibited.

In addition, the following confidential resources are available to students who may wish to make a confidential disclosure in order to gain confidential information or support:

SAFE ZONE

The Safe Zone Program's objective is for trained participants to utilize their gained knowledge and skills to foster a safe and inclusive community for LGBTQ+ students, faculty, and staff to promote social justice in the University of Hawai'i System.

Upon completion of a Safe Zone Training, participants will be invited to become Advocates in the University of Hawai'i System Safe Zone Program.

Any office or faculty/staff member that has the Safe Zone poster have declared they are advocates.

To view a listing of allies and advocates: <http://tinyurl.com/safezoneleeward>

For more information: <http://www.leeward.hawaii.edu/lgbtq-plus>

The Safe Zone program recognizes Leeward Community College's Rae Watanabe, Assistant Professor in English and the late Joan Souza, former Leeward Community College Counselor, for creating the initial safe zone program that is now embraced system-wide.

COLLEGE SECURITY

In compliance with the Crime Awareness and Campus Security Act of 1990 and Higher Education Amendments of 1998, the College's Security policies and crime statistics can be found online at <http://www.leeward.hawaii.edu/security>.

GENERAL POLICY INVOLVING NON-STUDENTS

Anyone who is not officially enrolled for credit or audit in a course or is not an invited guest is not entitled to be in a classroom at any time. This includes any Leeward CC student who has not yet registered for the class. Faculty have the discretion to include or exclude such students if their registration for the class is pending. No one is allowed to "sit" in class for any length of time as an unofficial audit.

Minors

For the purpose of this policy, a minor is anyone under the age of 18 who is a dependent of a student. This policy will not be construed to include as a minor any student under the age of 18 as long as that person is registered for the class.

Hazardous Classroom Environments

Any laboratory, studio, shop, or area in which there is equipment or materials which could pose a hazard to minors or which could be endangered by the presence of minors is to be included as one of these environments. The determination of such a hazard will be made by the faculty teaching the class in such areas with consultation from other faculty making use of the area, and the Division Chair.

Exclusion of Minors

In any area where a "hazardous classroom environment" has been determined to exist, signs should be posted warning that minors are not allowed at any time. At the beginning of each semester, faculty should notify students that minors will not be permitted in the area for any reason. This notification should be printed in the course outline and announced orally to the class. If a student asks to bring a minor to the class for any reason, the instructor cannot allow it and should a student bring a minor to a class without asking, the instructor may ask the student to leave the class for that day.

GRADUATION PARTICIPATION POLICY

Graduation is one of the most rewarding experiences in our students' academic journey. To be awarded a diploma from the College, the student must submit an "Application for Degree/Certificate" It is recommended that students schedule a Degree/Certificate check appointment with a counselor. A non-refundable \$15 fee is required for an Associate Degree or Certificate of Achievement. For students denied graduation, the fee may be applied to subsequent graduation applications. Proof of payment is required for the fee to be waived for subsequent semesters.

Applications for graduation will be denied if all requirements, including incompletes, have not been met by the end of the graduating semester. An "I" grade, regardless of the contingency grade assigned, is considered non-completion of a course. The student will be eligible for graduation in the semester that the "I" grade has been changed and is required to re-apply for graduation.

To participate in the annual Commencement Ceremony, students may exercise their right to participate according to their eligibility described below:

Participation in the annual Commencement Ceremony at Leeward Community College will be based on the following criteria:

- candidates for any Associate Degree must be within nine (9) credits of completing the requirements for the degree.
- candidates for any Certificate must have earned, or be enrolled in, all of the requirements for the certificate.
- candidates must have an official "Application for Degree/Certificate" on file with the Records Office by the published deadline.

More information about the Ceremony is online.

Quick Directory

NOTE: Due to renovations, most Administration and Student Services offices will be temporarily relocated to the DH Quad on the diamond head side of campus. Student Life will be relocated to the Campus Center. Please see details on Renovation update webpage, <http://www.leeward.hawaii.edu/AD-renovation>. Renovations are expected to be complete by Summer 2019.
