# About this Catalog

## Catalog Disclaimer

The Leeward Community College General Catalog provides an overview of College offerings, policies, services, courses, programs, degree requirements, as well as general information. It is not a contract between Leeward Community College and students.

While the Catalog is published annually and every effort is made to keep it correct and current, Leeward Community College reserves the right to change, delete, supplement or otherwise amend at any time, and without prior notice, the information, requirements and policies contained in this Catalog. It is highly recommended that students consult academic advisors in conjunction with the Catalog for the most current information.

Not all courses listed in the Catalog may run every semester. Please consult the online [Leeward Community College - Class Availability](#) page for classes offered in a given term.

Print copies of the General Catalog are available from the College's [Copy Center](#) for a nominal fee.

## A Note on Catalog Rights

Students have the right to follow the degree and certificate requirements that were in effect at the time of their initial enrollment or any year thereafter, as long as they remain continuously enrolled. Students who take a break in their enrollment must follow the degree requirements in effect at the time of their most recent enrollment at the College, unless granted special approval ([Leeward CC Policy L7.201](#)).

# The College

## A Message from the Chancellor

Greetings,

It is my privilege to welcome you to the Leeward Community College 'ohana. The College extends its aloha and kōkua to each and every one of you. For over fifty years, Leeward has served students like you, throughout O'ahu and our entire State, by providing the strong foundation necessary to fulfill your academic, career, and personal goals.

We proudly celebrate the unique character of the Leeward community, among the most diverse regions in the United States. This past fall, over 6,000 credit students were served, 69% of which were Asian and/or Pacific Islanders, with over 25% of the entire student body being of Native Hawaiian descent. Almost 500 of our students were active duty veterans or their dependents, as we remain committed to serving those who serve Hawai'i and our nation.

We offer an array of paths to higher education and workforce training, including 85 academic credentials in career and transfer degree programs and numerous non-credit workforce development courses and certificate programs.

As a community college graduate, I can speak from firsthand experience about the value of committed faculty and staff. At Leeward, those who support, empower, and guide students also enable them to strengthen skills, generate confidence, and clarify their path toward a more rewarding life and career.

Mahalo for letting us be a part of your journey to define, or redefine, your life as you embark on your next adventure toward academic and professional success.

I wish you a rewarding experience while you are with us at Leeward Community College and I also wish you much success with the achievement of your goals and dreams in the years ahead.

**Carlos G. Peñaloza, Ph.D | Chancellor**

## About the College

Leeward Community College opened its doors in the fall of 1968 as the first college in the University of Hawai'i system to be developed without a connection to a pre-existing technical school. The College's proven commitment to affordable, quality education is the foundation of our mission. As part of the University of Hawai'i system, we are dedicated and responsive to our community and the State of Hawai'i, providing an open door to a world of educational opportunities. We offer a variety of educational programs and services online and in-person at our Pu'uloa (Pearl City) campus and our Wai'anae Moku campus, and Wahiawā Value-Added Product Development Education Center in addition to Early College programs at over 13 of our neighboring High Schools.

The main campus is located between Pearl City and Waipahu. Situated on mildly sloping land, the upper campus provides a commanding and magnificent view of Pu'uloa (Pearl Harbor). While the Leeward coast and Central O'ahu are the primary areas served by the College, students attend Leeward Community College from all parts of the island.

We believe in the dignity and potential of each individual and the power of that belief to help people learn and grow. We are committed to providing an educational environment that accepts people as they are and fosters the development of each student's unique talents.

At Leeward Community College, education is a cooperative endeavor in which students, faculty, and staff share responsibility. At Leeward, your success is our highest priority.

# Vision, Mission, and Core Values

## Vision

We aspire to be the leading indigenous-serving community college dedicated to inclusion, innovation, and our Hawaiian sense of place.

## Mission

At Leeward Community College, we mālama all students and affirm our special commitment to Native Hawaiians. We transform the lives of our students through high quality, accessible, and affordable education.

## Core Values

- **Community:** We value cooperation, collaboration, social responsibility, and concern for others as crucial elements in building a sense of community inside and outside of the institution.
- **Diversity and respect:** We value individual differences and the contributions they bring to the learning process. We believe that our students are enriched through a diverse intellectual and social environment, where learning occurs through exposure to world cultures, and through interaction with peoples of diverse experiences, beliefs, and perspectives.
- **Integrity:** We value personal and institutional integrity by fostering a culture of continuous improvement to open pathways to student success. We hold ourselves accountable for providing a high-quality academic experience.
- **Open access:** We value all students. We seek to meet their needs, as well as those of the community, by offering a diversity of courses, degree and certificate programs, and training opportunities, through traditional and distance education modes of delivery.

# Hō'ōia 'Āina Statement

Leeward Community College, with profound reflection, offers this Hō'ōia 'Āina, Land Acknowledgement Statement, recognizing Hawai'i as an indigenous space whose original people are today identified as Native Hawaiians.

Leeward Community College upholds the University of Hawaii's commitment to the well-being of our indigenous communities. This Hō'ōia 'Āina honors the relationship between kānaka 'ōiwi and the land upon which the college sits.

With much aloha, this statement pays respect to the 'āina 'ōiwi of our Pu'uloa campus and Wai'anae Moku Education Center, both located on the mokupuni of O'ahu, moku of 'Ewa, ahupua'a of Waiawa, as well as the moku of Wai'anae and the ahupua'a of Lualualei.

This Hō'ōia 'Āina welcomes all who gather on these ancestral lands.

## Hālau Pu'uloa (Mele oli)

Hālau Pu'uloa he awa lau no 'Ewa

Expansive is Pu'uloa a harbor for 'Ewa

He awa lau moana na ke Kēhau

An extensive harbor belonging to the Kēhau breeze

He ki'owai lua he muliwai, no 'Ewa

An abundant, overflowing estuary for 'Ewa

No ua 'āina ka i'a hāmau leo

To this 'āina belongs the i'a that silences voices

E hāmau ana ka leo o ke kānaka

The voices of people will be silenced

'O pānea mai auane'i hilahila

Yet, a response is always given lest there be shame

Ke'eo ua i'a la iloko o ke kai

The aforementioned i'a fills the sea

'O ke kai puakai 'ula ai ke kai o Kuhia – e

from the sacred reddish sea to the sea of Kuhia

He mai, he mai

Welcome, welcome

## Bibliography

1. The original collection of mele within which this mele was found must be examined again to verify the date that this mele may have been published.
2. Pukui and Elbert, *Hawaiian Dictionary*, 142.: Pukui defines kēhau as dew, mist, or dewdrop and also notes that it is a gentle land breeze of O‘ahu and other islands. The word kēhau is also found in the ‘ili name Hanakēhau along the Southeastern border of the Waiawa ahupua‘a as found on Registered Maps and documents from the Mahele, the process for privatizing land in Hawai‘i beginning in 1848.
3. Nākoa, *Lei Momi o ‘Ewa*, 20–23.: The “i‘a hāmau leo” refer to a specific oyster found in ‘Ewa, especially in the Mānana ahupua‘a. These oysters were prized more for their meat than for their pearls from which the contemporary name “Pearl City” has been derived.
4. Pukui and Elbert, *Hawaiian Dictionary*, 11.: Land, earth. The word ‘āina may refer generically to any portion of earth, but is also used to refer to specific sections of land that may be divided and subdivided into districts, towns, villages, etc. The word is not exclusive to terrestrial locations and may also apply to sections of sea or fresh water. Due to its definitions that include land and water resources, the word ‘āina remains untranslated here to avoid excluding any resources that may be defined through this word.
5. Pukui and Elbert, *Hawaiian Dictionary*, 93.: The word i‘a remains untranslated here as it defines not only fish, but marine animals of any sort, including oysters such as those referred to as the “i‘a hāmau leo” of ‘Ewa.
6. Manu, *Keaomelemele ; He Moolelo Kaa No Keaomelemele*, 161.: The Mo‘olelo of Keaomelemele contains more info on these famous oysters of ‘Ewa for which the Mo‘o Akua Kānekua‘ana is the guardian of.
7. It may be possible that “puakai ula” could be a poetic reference for the Easternmost loch of Ke Awalau o Pu‘uloa, but more research must be done to verify this.
8. Sterling and Summers, *Sites of Oahu*, 17–18.: Kuhia is the name of one of the retainers of the Akua manō Ka‘ahupāhau. Two ‘ili in Waiawa share this name: Kuhialoko and Kuhiawaho. These names are found on maps and documents from the Mahele. Kuhiawaho is directly adjacent to the Westernmost loch of Pu‘uloa.

## Wahiawā Value-Added Product Development Center

The Wahiawā Value-Added Product Development Center (WVAPDC) is a project of the State of Hawai'i and Leeward Community College to contribute to the growth of Hawai'i's agricultural industry and entrepreneurial community.

The WVAPDC will:

- Increase the opportunity for local farmers and growers to sell their products to value-added producers.
- Build residents' capacity to develop entrepreneurial skills and incubate their business through access to small business resources, production kitchens and in-house product development.
- Provide premier education to students and community members, supporting Hawai'i's entrepreneurial ecosystem for generations to come.

The WVAPDC is scheduled to open during Spring of 2024. [Subscribe](#) to our mailing list for updates and information.

# **Admission Information**

## **Application Deadlines (2024-2025)**

The deadlines for submitting your completed application to the Leeward Community College Admissions Office are:

- August 1, 2024, for the Fall 2024 semester
- December 15, 2024, for the Spring 2025 semester
- November 15, 2024 for Early College Spring 2025 semester (additional materials required, please see your high school Early College Coordinator)
- May 1, 2025 for Early College Summer and Fall 2025 semester (additional materials required, please see your high school Early College Coordinator)

Leeward Community College is authorized by the U.S. Department of Homeland Security (DHS) to admit international students under F-1 visa status.

## **Admission Policies of the University of Hawai'i System 4-year Colleges**

Each University of Hawai'i (UH System) baccalaureate institution is made up of several colleges and schools which grant undergraduate degrees, and which may have additional prerequisites and requirements for admissions.

Students transferring from a community college are subject to the admission requirements of the particular major, college, or school in which the student wishes to enroll.

Any student wishing to be a candidate for a degree from a UH System baccalaureate institution must specify the major/college in which the student wishes to enroll when applying for general admission to the University. Some majors (e.g., business administration, education, and social work) require junior standing as one requirement for admission. Some programs (e.g., Nursing, Pharmacy) require prerequisite courses and separate applications.

### **The Associate in Arts Degree and UH General Education Core Requirements Articulation with UH Campuses**

Students who have earned an articulated Associate in Arts (AA) degree from a University of Hawai'i Community College shall be accepted as having fulfilled the general education core requirements at all other University of Hawai'i campuses.

While an articulated AA degree satisfies general education core requirements, students must also complete all specialized lower-division, major, college, and degree/graduation requirements. Additional campus-specific requirements, such as competency in a foreign language or writing-intensive courses, may also be required.

With planning, most of these requirements may be incorporated into the AA degree; if not, they are required in addition to the AA degree.

Each University of Hawai'i baccalaureate institution is made up of several colleges and schools which grant undergraduate degrees. Although there is a "core" of general education required of every student regardless of the college in which they enroll, each college or major may modify the "core" to meet the educational needs of their particular students.

### **Choosing and Preparing for a Major**

In four-year college and university programs, a student takes most of the required courses for their major in the junior and senior years. The first two years are spent primarily in completing the general education requirements for that college and taking any freshman and sophomore courses that may be required to prepare students for advanced work in the major.

Which college or school a student will enroll in is determined by the student's choice of major. Because most students have not chosen a major before entering college, the broad term "liberal arts" is used for most transfer students rather than classifying them as pre-psychology, pre-engineering, pre-nursing, etc. However, every student will be required to designate a more specific major during or prior to the junior year.

As the choice of major depends upon the type of career for which the student is preparing, students who have not yet determined their career goals are urged to consult with a counselor during their first semester. Early identification of career goals and major will enable the student to avoid taking courses, which do not meet the general education or other requirements of the chosen major.

Students are strongly advised to consult with an advisor about the requirements of the campus and the program to which they plan to transfer.

College catalogs are published once per year and do not always reflect the most recent campus actions involving core courses.

For the most recent information concerning core courses, students should check with their advisors.

## **Transferring from Leeward Community College to Institutions outside the UH System**

Students planning to transfer to a college other than UH Mānoa, Hilo, or West O‘ahu are urged to review the necessary college catalogs and to consult a counselor early in their college career so that a planned program can be arranged to meet the general education and admissions requirements of the college to which they plan to transfer.

It is the student's responsibility to contact and visit the website of the college or university being considered for transfer.

### **Transfer Information for Business Students**

Leeward's Accounting and Business Technology programs have transfer agreements with both UH West O‘ahu and Hawai‘i Pacific University. The Academic Subject Certificate in Business is highly recommended for transfer to UH Mānoa's College of Business Administration. Contact the Business Division office at (808) 455-0344 for more detailed information.

### **Transfer Information for Education Students**

Leeward's Teacher Education program has transfer agreements with UH Mānoa, UH West O‘ahu, and Chaminade University. Contact the Education office at (808) 455-0392 for more detailed information.

## **Eligibility**

Leeward is proud of its "open door" policy and is dedicated to providing educational opportunities for all its community members.

Any US citizen who has graduated from a US high school, has a GED (General Education Development) certificate, or is 18 years of age or older may attend Leeward Community College (CC). High School students under 18 years of age may be eligible for a Dual Enrollment/Early College program.

Foreign citizens on immigrant visas who have been allowed to live in the US permanently but have not yet resided in Hawai‘i for twelve months are subject to the Controlled Growth Policy.

Non-residents of the State of Hawai‘i are accepted in limited numbers and are subject to the non-resident quota as mandated by the Controlled Growth Policy of the University of Hawai‘i System. A \$25.00 fee is required for application. This fee is non-refundable, non-transferable and paid each time you apply. (See [Residency Requirements](#))

It is the policy of the University of Hawai‘i to comply with Federal and State laws, which prohibit discrimination in University programs and activities.

Note the following terms are defined as:

- **Returning student:** Anyone who once attended Leeward CC, but has been away at least one semester.
- **Transfer student:** Anyone who has attended another college, prior to enrolling at Leeward CC.
- **Continuing Student:** Any student enrolled at Leeward Community College in the current semester.
- **International student:** Any student who is admitted as a non-immigrant and requires a visa to study.
- **Early College student:** Anyone who is currently a high school student.
- **Faculty/Staff:** Any full-time University of Hawai'i employee.

### **Concurrent Registrant**

The student information system, MyUH, provides the ability to register at multiple UH campuses simultaneously. Students who are enrolled at any campus of the UH system may enroll at Leeward CC provided they are in good academic standing. Leeward CC students can register for courses for which they are eligible at any other UHCC campus without first having to apply to that campus.

### **Auditors**

Persons wishing to audit courses must submit a completed application to the Admission Office, must have the instructor's permission, and must pay all appropriate tuition and fees. Auditors do not receive grades or credit for audited courses. Auditors must abide by the UH Student Conduct Code.

### **Veterans Affairs (VA) Education Benefits**

Leeward Community College is an approved educational institution for education and training under the Veteran's Educational Assistance Act (GI Bill ® ), and the Dependents' Act. Information regarding eligibility, entitlement, and types of training authorized may be obtained from the Veterans Administration Regional Office. Certification for VA Benefits is done by the Admissions and Records Office. For information or assistance, call 455-0644.

The College will not impose any penalty, including the assessment of late fees, denial of access to classes, libraries, or other institutional facilities, or the requirement that a covered individual borrows additional funds, on any covered individual because of the individual's inability to meet his or her financial obligations to the institution due to the delayed disbursement of funding from the VA under chapter 31 or 33.

All Veterans and other eligible beneficiaries must provide transcripts of previous education and training for review by the College. Leeward Community College is required to review the transcripts of previous education and training for all VA students in order to certify their enrollment. Veteran students and other Veterans Affairs (VA) beneficiaries will be required to meet Standards of Progress to their benefits. To be certified to use VA educational benefits at Leeward Community College, a veteran or eligible dependent must enroll only in courses within their declared major and must meet minimum standards of satisfactory academic progress.

In order to maintain eligibility, a VA student cannot remain on any Unsatisfactory Academic Progress (UAP) status at Leeward Community College indefinitely. A VA student that remains on academic probation for more than two consecutive semesters, or who does not return to good academic standing after a total of four consecutive semesters on UAP (for example, two semesters on warning and two semesters on probation), will be denied VA certification eligibility. VA students that are denied VA certification eligibility for not meeting the minimum standards of academic progress must attain a cumulative grade point average (GPA) of 2.0 or higher at Leeward Community College before they can petition the school to be re-certified to use their VA educational benefits.

**Independent Study:** Students who wish to design and complete individual study projects geared to their particular interests, aptitudes, and needs may apply for Independent Study credit. A faculty member and Division Chair must approve project plans and the student must complete the project within one semester. 100% tuition of the regular course fee is required for this type of Prior Learning Assessment.

**GI Bill®** is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at <https://www.benefits.va.gov/gibill>

# **Health Requirements for Registration**

## **TB Clearance**

In compliance with public health regulations, new students must show evidence that they are free of active tuberculosis. To prevent the spread of tuberculosis, no new student will be allowed to register for courses without proof of a current TB clearance.

## **Immunization Requirements**

New students must provide evidence of immunity against Measles Mumps and Rubella (MMR), Chickenpox (Varicella), and Tetanus-Diphtheria-Pertussis (Tdap).

Students born prior to 1957 are assumed to have acquired natural immunity to measles and will be exempt from providing such evidence. Varicella is waived if born in the US before 1980.

Evidence is documented records of two MMR immunizations, two Varicella immunizations, and one Tdap.

Contact the Student Health Center at (808) 455-0515 should you have any questions.

## **Health and Accident Insurance Requirement, Non-Residents**

All non-resident international students must demonstrate proof of enrollment in a health and accident insurance program before any such student shall be permitted to enroll. The intent of this requirement is to protect international students against the high cost of unanticipated healthcare expenses resulting from accidents or illness.

## **Early College**

MOA, Running Start, and Early Admit students from public or private high schools will NOT need to submit Health Clearances once cleared by their secondary institutions. All home-schooled students are required to submit Health Clearances before enrolling in any Leeward course with a face-to-face component (fully on campus or hybrid modalities).

Early Admit homeschooled students are required to turn in forms.

## Placement Tests

Placement testing is a way to assess students' current skill levels in English, Math, and ESL and determines the courses in which students are eligible to register.

High school scores may be used as a placement qualifier under multiple measures at Leeward CC. Additional placement testing may not be necessary.

If one of the measures below leads to placement in a developmental education class, students have the option of taking a placement test to improve placement.

### High School Placement Measures:

- Smarter Balanced Assessment
- Cumulative High School GPA
- 12th Grade English Grade
- 12th Grade Intro to College Math Grade
- 12th Grade Alg 3, Trig, or Pre Calc Grade
- Algebra II grade
- Algebra I grade
- ACT English / English score
- SAT Writing / Math score
- HiSET Language Arts / Math score
- GED Language Arts / Math score

Please contact a Counselor at 808-455-0233 if there are any questions about our placement measures. Placement testing is available in-person via the Accuplacer Assessment (most recommended for English Language Learners). To schedule an appointment please visit this site for more information:

<https://www.leeward.hawaii.edu/placement>

Online placement testing is also available online via the EdReady Assessment.

## Registration

Registration into a course obligates you financially and academically even if you do not attend any classes or make payment by applicable deadlines. If payment in full is not received or you have not enrolled in the payment plan by the published deadline, the University of Hawai'i (UH) reserves the right to cancel your registration and/or place a financial hold on your student account which may deny you any further services such as future registration, request for transcripts, verification of student status request, etc.

Registration information and the listing of Course Availability are available for viewing online at the College's website. The Catalog is available in pdf format on the website or can be purchased at the Copy Center. This information should be used in planning the program of studies. Visit the Leeward CC website at [www.leeward.hawaii.edu](http://www.leeward.hawaii.edu) for

additional information and updates.

Continuing students registered in credit courses the preceding semester are eligible for early registration for the next semester. Early appointment information is available from the student's MyUH account. All new applicants will be assigned a date and time to register for courses only after completing all admission and related requirements.

Students not registered for at least one credit at a University of Hawai'i system campus in the preceding semester are not eligible to register and must reapply for admission.

Tuition and all applicable fees must be paid in full on, or before, the published deadline or the student's registration may be cancelled. Students who register during the late registration period will be liable for all applicable tuition and other related fees for the classes taken, whether or not they attend those classes. Therefore, students are advised to officially withdraw from classes they do not plan to attend. Failure to withdraw will result in a financial obligation to the University of Hawai'i and may also result in a failing grade for the class(es) in question.

Students who register at more than one UH campus should pay particular attention to payment and other deadlines as they may vary from campus to campus. Deadline information is available at each campus website or contact the Admissions and Records Office at the campus offering the course.

The College reserves the right to make changes in certain fees, faculty assignments and time schedules, to cancel classes where necessary, and to set maximum limits for enrollment in certain classes. Notice of such changes will be given whenever possible.

Applicants who have been accepted will be notified of acceptance by email. Information about orientation, placement testing (reading/English and mathematics) advising, and registration will be made available through email communications. Certain procedures and payments are required of all applicants and students, and registration is not official until these have been met.

Class attendance by persons not properly registered is prohibited. Any unofficial attendance does not provide a basis for later claim of registration or credit.

Registration for non-credit courses and specialized training is handled by the Office of Continuing Education and Workforce Development, (808) 455-0477.

MyUH is the University of Hawai'i's integrated student information system. Important information from the College will be sent to your hawaii.edu email address. Please check this account for information on a regular basis.

# Residency Regulations for Tuition Purposes

Students who do not qualify as bona fide residents of the State of Hawai'i, according to the University of Hawai'i (UH) rules and regulations in effect at the time they register, must pay the nonresident tuition. Applicants may be required to provide documentation to verify residency status. Once classified as a nonresident, a student continues to be so classified during his/her enrollment at the college until he/she can present clear and convincing evidence to the residency officer that proves otherwise. Some of the more pertinent University residency regulations follow. For additional information or interpretation, contact the residency officer in the Admissions Office. The complete rules and regulations are available at the Admissions Office.

## Definition of Hawai'i Residency

The determination of residence for tuition purposes requires that the adult student or in the case of a minor student, the student's parent or guardian, has been a bona fide resident of Hawai'i for at least twelve (12) consecutive months immediately prior to the first day of instruction.

The following may be accepted as evidence of bona fide residence:

1. Filing of a Hawai'i resident personal income tax return.
2. A Hawai'i State driver's license or Hawai'i State identification card issued at least twelve months prior to the first day of instruction.
3. Voting, or voter registration, in Hawai'i at least twelve months prior to the first day of instruction.
4. Ownership or continuous rental in Hawai'i of the principal residence beginning at least twelve months prior to the first day of instruction.
5. Carrying on of a business or the holding of employment in Hawai'i for at least twelve months prior to the first day of instruction.
6. Any other clear and compelling evidence of bona fide residence for at least twelve months prior to the first day of instruction.

Other legal factors involved in making a residency determination include:

- A. The twelve months begin on the date upon which the first overt action is taken to make Hawai'i the student's permanent residence. Residence will be lost if it is interrupted during the twelve months immediately preceding the first day of instruction.
- B. Residence in Hawai'i and residence in another place cannot be held simultaneously.
- C. Presence in Hawai'i primarily to attend an institution of higher learning does not create residence status. A nonresident student enrolled for 6 credits or more during any term within the 12-month period is presumed to be in Hawai'i primarily to attend college. Such periods of enrollment cannot be applied toward the physical presence requirement.
- D. Residence status, once acquired, shall be lost by future voluntary actions of the

resident inconsistent with that status. However, Hawai'i residence shall not be lost solely because of absence from the State while a member of the United States Armed Forces, while engaged in navigation, or while a student at any institution of learning, provided Hawai'i is claimed and maintained as the student's residence.

### **Board of Regents Exemptions**

1. Non-residents may be allowed to pay the resident tuition rate if they qualify for one of the following exemptions to non-resident tuition:
  - a. United States military personnel stationed in Hawai'i on active duty, and their authorized dependents during the period that the personnel are stationed in Hawai'i.
  - b. Members of the Hawai'i National Guard and the Hawai'i Reserves
  - c. Native Hawaiians whose domicile is outside of Hawai'i.
  - d. Employees of the university, their spouses, and their dependents. The faculty or staff member must be employed on a half-time basis or more; those excluded from collective bargaining must have an appointment exceeding three (3) months.
  - e. Veterans eligible to use Post 9/11 GI Bill® or Montgomery GI Bill® Active Duty Program educational benefits per the Isakson and Roe Veterans Health Care and Benefits Improvement Act of 2020 (P.L.116-315), who live in Hawai'i and those who subsequently move but maintain continuous enrollment.
  - f. Individuals eligible to use transferred Post 9/11 GI Bill® educational benefits per the Isakson and Roe Veterans Health Care and Benefits Improvement Act of 2020 P.L.116-315), who live in Hawai'i and those who subsequently move but maintain continuous enrollment.
  - g. Individuals are eligible to use educational benefits under the Marine Gunnery Sergeant John David Fry Scholarship, who live in Hawai'i and those who subsequently move but maintain continuous enrollment.
  - h. Individuals are eligible to use educational assistance under the Survivors' or Dependents' Educational Assistance (Chapter 35) program, who live in Hawai'i and those who subsequently move but maintain continuous enrollment.
  - i. Veterans with service-connected disabilities who are eligible for benefits provided for in Title 38, U.S. Code, Chapter 31, otherwise known as the Veteran Readiness and Employment or VR&E (formerly called Vocational Rehabilitation and Employment) program, who live in Hawai'i and those who subsequently, move but maintain continuous enrollment.
2. Citizens from an eligible Pacific Island district, commonwealth, territory, or insular jurisdiction, state or nation (collectively, "Pacific Island jurisdictions") which provides no public higher education institution granting baccalaureate degrees, are charged 150 percent of the resident tuition rate. For citizens from Pacific Island jurisdictions that have a public higher education institution but does not offer a program that is desired by the student and is offered at the University of Hawai'i, the 150 percent of the resident rate may be applied for

participation in the specified program at a specified campus upon written agreement by that institution and the university. The president or designee updates and distributes the list of eligible Pacific Island jurisdictions. This list is subject to change. For a current list, please contact the Admissions Office.

## **Misrepresentation**

A student or prospective student who provides incorrect information on any form or document intended for use in the determination of residency status for tuition purposes will be subject to the requirements and/or disciplinary measures provided for in the rules and regulations governing residency status.

## **Appeal Process**

Residency decisions may be appealed by contacting the residency officer for information on how to initiate an appeal. Appeals are heard by the University of Hawai'i Residency Appeals Board only after the non-resident tuition is paid.

## **Residency Changes**

If you are currently a non-resident but have established permanent residency in Hawai'i, you may petition for a change in residence status. Check with the Admissions and Records Office, for details and deadline information.

## **Steps for Admission and Enrollment**

1. A University of Hawai'i (UH) System Application must be completed and submitted online at <http://apply.hawaii.edu>.
2. Applicants will be notified of their acceptance by email. Applicants should be sure that the college has both a valid email address and mailing address on file. It is an applicant's responsibility to notify Admissions and Records if there is any change in email or mailing address.

Once accepted to Leeward:

1. All new students must activate their MyUH account (UH Username) by going to <https://www.hawaii.edu/username/>, selecting "Get a UH username", and answering the questions.
2. All new students are required to take placement tests in English and Math so you'll be placed in the right level of those classes. Students have three - Accuplacer/Self Reporting/EdReady options to complete placement testing. See <https://www.leeward.hawaii.edu/placement>
  - A. EdReady (online placement test for Math and English)
  - B. Self-Report Form: Applicable coursework completed at any regionally accredited U.S. college or university may be credited toward a Leeward degree or certificate or used to meet prerequisites for courses to be taken at Leeward.
3. Applicable coursework completed at any regionally accredited US college or university may be credited toward a Leeward degree or certificate or used to meet prerequisites for courses taken at Leeward. Students must:

- A. Request that an official transcript be sent to the Admissions & Records Office (unofficial, hand-delivered, faxed, or issued to student transcripts will not be accepted, even if in a sealed and unopened envelope.) All Veterans and other eligible beneficiaries must provide transcripts of previous education and training for review by the College. Leeward Community College is required to review the transcripts of previous education and training for all VA students in order to certify their enrollment.
  - B. Request that the transcript(s) be evaluated by completing a Transcript Evaluation Request form available online on the Admission and Records webpage, and submit the completed form to the Admissions and Records Office. If Leeward does not have official transcripts, it is possible that the student will have to repeat work for which they have already earned credits and/or experience problems at registration.
- 4. Medical clearance documentation for Measles, Mumps, Rubella, (MMR) vaccines, Tetanus, Diphtheria, Pertussis, (TDAP) vaccine, Chicken pox (Varicella) vaccines, and TB (tuberculosis) clearance must be uploaded to MedProctor to register for in-person and/or hybrid courses.
  - 5. Mandatory New Student Orientation (NSO) Online for First-Time Students. You must complete NSO Online to familiarize yourself with important campus information. The NSO Online link is in your acceptance email.
  - 6. Mandatory Incoming Student Advising for First Time Students. An academic advisor/Counselor will help you choose your classes and explore careers so that you are on track. You will receive the link to sign up for an Incoming Student Advising appointment once you complete NSO Online.

Any and all documents received by the college are the property of the college and will not be released to a third party.

## Notes

- The University of Hawai'i utilizes MyUH, a web-based Student Information System, which allows students to view personal, registration, financial aid, grades, and course records information online. Each student has private access to their information.
- Early College admission and enrollment processes as well as deadlines differ from those for general admission and enrollment. Please see your high school counselor for specific requirements and deadlines.

## Transfer Information

Students are advised to work closely with Leeward counselors in planning their course of study and to consult the current catalog of the specific University of Hawai'i baccalaureate institution for further information. This section outlines basic information when planning to transfer to UH Mānoa, UH Hilo, or UH West O'ahu.

If the student has completed 24 credits in college-level courses with a cumulative GPR of 2.0 or higher as a resident applicant (or 2.5 GPR or higher as a non-resident applicant for UH Mānoa), they could be admitted to the UH baccalaureate institution as a transfer student even if previously denied admission as a freshman applicant.

If the applicant had previously been admitted to UH Mānoa, UH Hilo, or UH West O'ahu but elected to begin at Leeward, the student may reapply to transfer to the baccalaureate institution at any time. However, whatever admission requirements are in effect at the time of reapplication have to be met.

If the student has not completed 24 credits of college-level courses at Leeward, they will be subject to the same admission requirements as entering freshmen applying to UH Mānoa, UH Hilo, or UH West O'ahu.

New applicants are required to submit a transcript of satisfactory high school work and official scores of the Scholastic Assessment Test (SAT) or the American College Test (ACT)

in addition to official transcripts from all post-secondary institutions previously attended.

### Automatic Admissions

Students graduating from any of the University of Hawai'i's seven community colleges with an Associate in Arts (AA) degree or selected Associate in Science (AS) degrees will be notified that they may be eligible for automatic admission to UH Mānoa, UH Hilo, or UH West O'ahu.

Under automatic admission, the application fee is waived and student transcripts analyzed to help identify which courses can transfer in and which requirements these will cover. Qualified students will receive an email notice that they are considered eligible for automatic admissions in October for the spring semester or February for the fall semester. Students must respond to this offer in order to take advantage of this opportunity by a specific deadline.

## **Submit Official Transcripts from All Colleges**

Any Leeward student transferring to a UH System baccalaureate institution does not need to submit an official transcript. The baccalaureate institutions will view the student's transcript through STAR. The student should check with the Admissions and Records Office at the baccalaureate home campus for evaluation and transfer procedures. The credits and grades earned will be evaluated by the UH System baccalaureate institution to determine eligibility for transfer.

If there are additional institutions the student attended outside of the UH System, official transcripts from those schools will need to be submitted to the baccalaureate institution.

## **General Definition of Transferable Courses**

Courses acceptable for transfer to UH System baccalaureate institutions are generally those numbered 100 and above. Some Leeward courses numbered 1-99 (primarily skill and occupational courses) may be accepted at Mānoa for credit toward certain degrees. Although transfer credit may be granted for a course, it does not necessarily mean that the course will satisfy the curricular requirements of a particular college or degree program.

## **D Grades When Transferring**

Currently, UH Mānoa, Hilo, or West Oʻahu allow transfer credit for a course in which a grade of D was earned at Leeward; however, the course may be unacceptable toward fulfilling the course requirements for a particular major or degree. Leeward courses in which a grade of W, N, NC, F, or I have been earned are not acceptable for credit at UH Mānoa, UH Hilo, and UH West Oʻahu.

## **Number of Credits that May Transfer**

Currently, Mānoa and UH Hilo do not impose a limit on the number of credits in courses numbered 100 or higher which may be transferred from a UH community college.

However, Mānoa accepts no more than 60 credits in transfer from junior or community colleges outside the University of Hawaiʻi system.

Any student intending to complete more than 60 credits at Leeward should work out their course of study very carefully with Mānoa and Leeward CC counselors, taking into consideration any relevant policy changes, the specific curricular requirements of the college in which they wish to enroll, the courses required for the major field of study, and the minimum residency requirement at Mānoa.

## **Credit/No Credit Option**

At UH System baccalaureate institutions, only elective courses may be completed on a "credit/no credit" basis. This option is not allowed for any course taken to fulfill a University, college, school, or department non-elective requirement, with the exception of those courses offered for mandatory credit/no credit. Students planning to transfer must be aware of this policy.

Due to the COVID-19 spring 2020 term disruption, students enrolled as follows were given the option to convert letter grades to CR/NC: all UH courses following the standard academic calendar, part of term, or 5-week courses ending after Spring Break. Within the UH System, students will be "held harmless" by the choice to select CR/NC in spring 2020 only. This policy supersedes all other relevant UH System or campus policies and requirements described in campus catalogs regarding Credit/No Credit grades or grading.

## **Transfer of Grade Point Average**

Leeward students transferring to UH System baccalaureate institutions do not receive grade point credit for courses completed at the community college. Although the grade point average is not transferred, it is considered for admission purposes by the various university programs.

# Tuition and Fees

## Financial Information

### 2024-2025 Tuition and Fees Schedule

\*Pacific Island Jurisdiction includes American Samoa, Commonwealth of the Northern Mariana Islands, Federated States of Micronesia, Republic of Palau, Republic of the Marshall Islands, Cook Islands, Futuna, Kiribati, Nauru, New Caledonia, Niue, Solomon Islands, Tokelau, Tonga, Tuvalu, Vanuatu, and Wallis.

### Payments

All tuition and fees should be paid in full by the appropriate deadlines. Payment can be made online by echeck or debit/credit card (MasterCard, VISA or Discover only) or in person at the Cashier's Office by cash, check, cashiers check, travelers' check, or debit card.

Students who register at more than one UH campus should pay particular attention to payment deadlines as they may vary from campus to campus. Deadline information is available at each campus website or contact the Cashier's Office at the campus offering the course.

### Installment Payment Plan (IPP)

Eligible registered students who cannot pay their tuition and fees in full by the published deadline will be able to sign up for an installment payment plan. There is a

\$30.00 fee each semester to participate in the payment plan. This fee is non-refundable and non-transferable. A missed payment fee will be assessed for late payments and is also non-transferable and non-refundable. Visit MyUH at [myuh.hawaii.edu](http://myuh.hawaii.edu) for the most current information regarding the Installment Payment Plan.

## **Financial Obligations**

Students who have not met their financial obligations at any college in the University of Hawai'i System (such as nonpayment of tuition and fees, traffic fines, library fines, loans, etc.) to the satisfaction of the University of Hawai'i may be denied letters of verification or certification, registration, withdrawal, grades, transcript requests, graduation, diplomas, and other university services.

Enrollment at the University of Hawai'i signifies consent to, and acceptance of, all policies and procedures governing enrollment including financial liability. Students who fail to clear all financial obligations in a timely manner may result in their account being sent to a collection agency. Students agree to pay the University of Hawai'i all reasonable costs for collection, to include but not limited to collection agency, attorney's and court fees. The University of Hawai'i also has the ability to submit an account to garnish state income tax refunds to offset financial obligations.

Copies of the delinquent financial obligation policy and procedures are available for inspection at the Office of the Dean of Student Services and the campus business office.

(Also see [Policies for Financial Obligation](#))

## **Fees**

### **Late Registration Fee**

A \$30.00 fee for late registration is charged when a student initially registers in a class(es) after the end of the regular registration period.

### **Credit by Institutional Exam Fee**

Students will be assessed a fee in accordance with the University of Hawai'i policy for credits earned by institutional examination.

### **Portfolio Based Assessment**

Students will be assessed additional tuition in accordance with the College's tuition schedule for credits earned.

## **Transcript Fee**

Official transcripts may be requested from Leeward Community College for a fee of \$5.00 per copy (plus additional online processing fees depending on the method of delivery requested).

## **Installment Payment Plan Fee**

A \$30.00 fee is charged when a student signs up for the optional IPP program. This once a semester fee is nonrefundable and nontransferable.

## **Non-resident Application Fee**

Non-resident students applying to the college are required to pay a \$25.00 nonrefundable, nontransferable application fee each time they apply.

## **Degree/Certificate Fee**

A \$25 non-refundable fee is required when a student elects to purchase a diploma and diploma cover when completing an Application for Graduation. Purchase of a diploma and diploma cover is not required to receive a degree/certificate from the College, but it is required if a student wishes to participate in the commencement ceremony.

Students may apply for degrees and certificates throughout the year, however, there is only one Commencement ceremony in May. Check the Student Life website for specific Commencement Ceremony deadlines.

## **Cap and Gown Fee**

Students who participate in the Commencement Ceremony must purchase and wear a cap and gown. The cost will vary. Check the Student Life website for updates: <http://studentlife.leeward.hawaii.edu/page/ceremony-information>.

## **Fee for Dishonored Checks**

A \$25.00 service charge will be assessed for all returned checks of any cause. This includes electronic checks (echecks) returned for any reason. University departments reserve the right to refuse further check payments for any University receivable where three (3) or more checks have been returned for any reason.

## **Placement Test: Re-Test Fees**

There is no charge for EdReady.

For Accuplacer, there is a re-test fee of \$25 each time you elect to retake the test. All Placement re-tests will cost \$25.00 per sitting.

Leeward students may be exempt from the \$25 re-test fee if they have not taken a math course in 2 years or their placement scores are more than 2 years old.

## **Additional Expenses**

### **Health Insurance**

All international students (F-1 visa) are required to purchase a mandatory group health insurance plan. Student health plans are available through the college at special rates. Contact the Office of International Programs, (808) 455-0570, for more information.

### **Books and Supplies**

Cost will vary according to courses taken and the student's major. Some courses are offered with Open Educational Resources (OER) and have no textbook cost. This information is included in the comments for classes during registration and listed as "TXTO".

### **Parking**

No charge.

### **Catalog**

The Catalog is sold at the Leeward CC Copy Center, GT 104 for a nominal fee, and is also available online at <http://www.leeward.hawaii.edu/catalog> in PDF format.

### **Non-Credit Course Fees**

Students registered in non-credit courses pay fees as indicated by the Leeward CC Office of Continuing Education and Workforce Development or the English Language Institute.

## **Payment Procedures**

Payments for tuition and fees can be made in full or in installments.

The procedures for Payment in Full are outlined below. For details on the Installment Payment Plan, please visit MyUH or go to <https://www.hawaii.edu/myuhinfo/payment-faqs/>

### **For Payment in Full: MyUH Online Payments**

- Log in to your MyUH account at [myuh.hawaii.edu](http://myuh.hawaii.edu)
- Click on "Pay Tuition and Fees" or search for it.
- From here, follow the directions to make a payment.

Tuition and fee payments can be made by:

**Online MyUH:** Pay by echeck, debit/credit card (MasterCard, VISA, or Discover only).

**Mail:** Make checks payable to "University of Hawai'i" and mail to: Leeward Community College, Cashier's Office, 96-045 Ala'Ike; Pearl City, HI 96782

Mailed payments must be RECEIVED by the appropriate deadline. You should allow a minimum of 5 days for delivery prior to the deadline. Do not use Campus Mail. To ensure proper crediting to your account, use the [Tuition Mail-In Remittance Form](#) in the Schedule of Courses. Write your student ID number on the bottom left of the check. Improperly completed remittance forms and checks may be returned to you unprocessed and will not be posted to your account.

**In-Person:** Pay by cash, personal check, money order, cashier's check, travelers check, or debit card (no in-person credit card payment) at: Leeward Community College Cashier's Office, lower level of the Administration Building

### **National Service Trust/Americorp Recipients**

Complete and submit your Americorp vouchers online at <https://my.americorps.gov>. The Financial Aid Office will certify your form. When payment is received, the Cashier's Office will post it to the student's account.

### **Army Reserve Tuition Subsidy**

The 9th RSC has received approval for the Pacific Reserve Education Program (PREP). Take your approved Form DA2171 to the Cashier's Office at least 10 working days before the appropriate payment deadline. You are responsible for paying any remaining tuition and fees not covered by PREP. Contact your Army Reserve unit commander for more information.

### **National Guard Tuition Assistance**

The Hawai'i National Guard Tuition Assistance Program is a reimbursement program. At the end of each semester, the National Guard will reimburse Guard members directly for tuition. Please contact your unit commanding officer for further information. Students are responsible for paying all tuition and fees by the appropriate payment deadline.

### **Third Party Sponsor Scholarship Recipients**

If your tuition is being paid by a third party sponsoring agency (e.g. World Health Organization, East-West Center, Alu Like, Vocational Rehabilitation, armed forces branch, State of Hawai'i Department of Education, etc.), you are required to turn in the appropriate forms to each individual campus for which you are registering. The sponsoring agency must submit the appropriate forms to each individual campus you are registering for. Your account information will be displayed on the Review My

Charges/Make an Online Payment page. You are responsible to pay the remaining tuition and/or fees by the appropriate payment receipt deadline.

If the Cashier's Office does not receive a letter of financial guarantee, purchase order or authorization letter from you at least 5 working days prior to the appropriate payment deadline, you must pay for your own tuition and fees. When the sponsor sends payment for the tuition and fees, the University will process a refund. If you have questions or want to confirm that your sponsor has met University billing requirements, please call the Cashier's Office.

If the third party sponsoring agency does not make payment for your tuition for any reason after being billed by the University, you will be responsible for paying any unpaid balances on your student account. Failure to do so will result in sanctions for outstanding financial obligations being imposed on your student account.

## **Loan Deferments**

Submit loan deferment forms to National Student Clearinghouse at 2300 Dulles Station Blvd, Suite 300, Herndon, VA 20171 after tuition and fees are paid.

## **Hope Scholarship and Lifetime Learning Tax Credits**

The U.S. Congress established federal tax credits for qualified college tuition and related expenses under the Taxpayer Relief Act of 1997. Information about the Hope and Lifetime Learning tax credits as well as other education related tax credits can be found at [https://manoa.hawaii.edu/records/tax\\_info.html](https://manoa.hawaii.edu/records/tax_info.html) or by contacting your tax advisor.

All students, except non-resident aliens, who attended a University of Hawai'i campus during the 2020 calendar year and were billed for qualified tuition and related expenses from January 1 to December 31, 2020, will receive a 1098-T tax form electronically. This form will reflect amounts billed (not paid) for qualified tuition and related expenses and amounts paid for scholarship and grants during the 2020 calendar year.

The 1098T form will be available no later than January 31, 2021, as required by the Internal Revenue Service (IRS). This important tax document must have your current Permanent Address. Please update your Permanent Address on file at the Admissions and Records Office by either one of the following methods:

- By mail: Send a letter of the permanent address to Admissions and Records Office, 96-045 Ala'Ike, AD-220, Pearl City, HI 96782
- In person: Request to fill out the "Student Data Change Form."

Note: You must provide your Social Security Number to the University. The Taxpayer Relief Act of 1997 requires the University to collect and use students' Social Security Numbers or Individual Taxpayer Identification Numbers (ITINs) to report qualified tuition and related expenses billed to students and scholarship and grant payments made to students to the IRS each year. All student information is protected under the Family Educational Rights and Privacy Act (FERPA).

# **Refund Policy**

Refunds will be given for withdrawal from a course, change in status, or change from one tuition rate to another tuition rate according to the timelines established below. Separate refund schedules have been developed based on the way the course is offered.

## **Tuition and Fees Refund Regular 16-Week Courses**

In the event a student initiates before the fourth week of instruction a complete withdrawal from the College, change from full-time to part-time status, or change from one tuition rate to another, if applicable, tuition and special course fees are refunded as indicated below:

100% tuition refund for complete withdrawal if made on or before the last day of late registration. All related fees will be refunded.

100% tuition refund for change of status (partial withdrawal) or change in tuition rate if made on or before the last day of late registration. Student fees are refunded if changes are made before the first day of instruction.

50% tuition refund for complete withdrawal, change in status or change in tuition rates if made after the late registration period but on or before the end of the third week of instruction. No related fees will be refunded.

0% refund if complete withdrawal, change in status or change in tuition rate is made beginning of the fourth week of instruction.

## **Student Fees Refunds**

100% refund of Student Activities, Health Center and Board of Student Communication fees if a complete withdrawal is made on or before the last day of late registration. All fees will be refunded if partial withdrawal or exchange in registration is made before the first day of instruction. No fees will be refunded if withdrawal or change in status is made after the first day of instruction to last day of late registration.

## **Payment of Refund**

Students should receive a refund within four weeks following the end of the 50% refund period (beginning of the fourth week of instruction.)

## **Special Courses Refund**

### **Part-of-Term Courses**

Part-of-Term (modular or accelerated courses) are offered for fewer than the regular 16 weeks and begin/end at different times in the semester. For refund information or withdrawal dates of specific part-of-term courses, visit <http://www.leeward.hawaii.edu/part-of-term>.

### **Summer Session**

Refunds for Summer Session courses are determined by the elapsed instructional time as a percentage of the total instructional time for the course. For refund information or withdrawal dates of the respective summer session term, please check the schedule of courses or on the College's website.

### **Non-Credit Courses or Workshops**

Refunds for courses and workshops offered through the Office of Continuing Education and Workforce Development will be permitted if the request is made at least five business days (Monday–Friday, excluding holidays) prior to the start of the course. Please allow 6-8 weeks for refunds.

For non-credit courses offered through the English Language Institute, students will receive 100% refund if withdrawal occurs before the start of classes. A 50% refund is available for the first three days of class. No refund thereafter.

### **Changes to Schedule of Courses Affecting Student's Schedule:**

When changes by the College to the published Class Availability precipitate a change in the student's schedule (complete withdrawal/change from full-time to part-time status), and the changes to the published schedule have occurred after the student registered, tuition and special course fees are refunded upon approval of the Dean of Arts and Sciences or the Dean of Career and Technical Education.

# Financial Aid

## Financial Aid Application Process

### Financial Aid Office

The mission of the Leeward Community College Financial Aid Office is to promote access to higher education and to support student success.

Several types of financial aid - federal, state, and institutional - are available to eligible students: grants, part-time employment (Federal Work Study), loans, and scholarships. All financial aid programs are subject to change due to legislative action or the availability of funds.

Federal awards are made without regard to age, gender, race, religion, or ethnic origin. Complete financial aid policies are available at the Financial Aid Office or through the financial aid website: <https://www.leeward.hawaii.edu/finaid>.

<b>Hours:</b>	Monday - Friday, 8:00 AM to 4:00 PM
<b>Address:</b>	Student Services Welcome Center
	96-045 Ala Ike, AD 201
	Pearl City, HI 96782
<b>Phone:</b>	(808) 455-0606
<b>Fax:</b>	(808) 455-8804
<b>Email:</b>	<a href="mailto:lccfao@hawaii.edu">lccfao@hawaii.edu</a>
<b>Federal School Code:</b>	004549

### Financial Aid Application Process

#### How to Apply

Online at <https://studentaid.gov/h/apply-for-aid>

- Students (and their parents, if applicable) must have a StudentAid.gov account (formerly known as FSA ID). A StudentAid.gov account can be created at <https://studentaid.gov/fsa-id/create-account/launch>.
- Leeward CC's Federal School Code is 004549. Need assistance? Call us at (808) 455-0606.

#### Application Deadline

Early submission of the FAFSA (Free Application for Federal Student Aid) is highly recommended because many scholarship programs have a March 1 deadline. The priority deadline for filing a FAFSA at Leeward CC is March 1 preceding the school year for which financial aid is sought.

For more information on applying for aid, important dates, and deadlines, please visit: <http://www.leeward.hawaii.edu/finaid>

## Basic Eligibility

The applicant must:

- demonstrate financial need for need-based federal student aid programs
- be a U.S. citizen or an eligible non-citizen
- have a valid Social Security number (with the exception of students from the Republic of the Marshall Islands, Federated States of Micronesia, or the Republic of Palau)
- be enrolled or accepted for enrollment as a regular student in an eligible degree or certificate program
- be enrolled at least half-time to be eligible for Direct Loan Program funds
- maintain satisfactory academic progress
- sign the certification statement on the Free Application for Federal Student Aid (FAFSA®) form stating that you're not in default on a federal student loan, you do not owe money on a federal student grant, and you'll only use federal student aid for educational purposes and
- show you're qualified to obtain a college or career school education by:
  - having a high school diploma or a state-recognized equivalent such as a General Educational Development (GED) certificate;
  - completing a high school education in a homeschool setting approved under state law (or—if state law does not require a homeschooled student to obtain a completion credential—completing a high school education in a homeschool setting that qualifies as an exemption from compulsory attendance requirements under state law); or
  - enrolling in an eligible career pathway program and meeting one of the “ability-to-benefit” alternatives described below.

## Documentation Requirements

In addition to submitting the FAFSA, students may also be required to submit additional documents to the Financial Aid Office for award processing. The College verifies all financial aid applicants chosen for verification by the Federal processor. Students chosen for verification will be required to submit additional documentation.

Students must adhere to the deadlines required for document submission. Students who experience difficulties in completing documentation or verification requirements should contact the Financial Aid Office before the deadlines expire. Failure to provide the necessary documents can result in the termination of all financial aid benefits for the year.

## Eligible Degree Programs/Courses

To receive aid, students must be a classified student in an aid-eligible associate degree or certificate program. If a student's degree program changes to an ineligible degree program after being awarded, financial aid will not disburse, or the student will need to return aid. Please remember that financial aid can pay only for courses that apply to a student's degree or certificate program.

To view all eligible certificate programs, please go to <https://www.leeward.hawaii.edu/finapply>

### **Satisfactory Academic Progress (SAP)**

In accordance with the U.S. Department of Education regulations, students enrolled at Leeward CC must be making satisfactory academic progress to be eligible for financial aid. Financial Aid Satisfactory Academic Progress Policy is separate and distinct from the institution's academic progress policy. All **Credits** attempted in any semester of enrollment at the student's home campus, regardless of aid status, will be counted when calculating all measures of satisfactory academic progress. Financial aid calculations for GPA, as well as **Credits** earned and attempted include all home campus and transfer coursework ever taken. Students' academic progress will be evaluated annually. For students placed on Probation and have Academic Plan requirements, satisfactory academic progress will be evaluated at the end of every term. For students in certificate programs that are less than 24 **Credits**, academic progress will be evaluated at the end of every term. These calculations may be different from what the student sees on their academic transcript. The minimum academic requirements and the student's current status can be viewed in their MyUH Services portal.

To meet SAP, students must meet the following Qualitative and Quantitative Measures:

- Qualitative Measure (GPA) - maintain a minimum cumulative Financial Aid grade point average (GPA) of at least 2.0. For Financial Aid purposes, GPA is calculated by dividing the total points earned by the total **Credits** attempted.
- Quantitative Measure (Pace & Timeframe)
  - (Pace) - successfully pass/complete at least 67% of all **Credits** attempted (calculation will be rounded down to the nearest percent).
  - (Timeframe) - complete their degree program within 150% of the **Credits** required for their degree program. All attempted **Credits** previously mentioned will be applied toward a student's time frame. Students who are unable to complete their program and achieve minimum SAP standards by the end of their timeframe may be determined ineligible for financial aid.

For more information, please go to <https://www.leeward.hawaii.edu/finpolicies> and review SAP Policy.

### **Award Offer/Financial Aid Package**

The Financial Aid Award Offer, also known as Financial Aid Package, is a conditional offer of financial aid for the academic year. The award offer is based on student needs, enrollment levels, living situation, and the availability of aid. Financial need is determined by subtracting the Student Aid Index (SAI) from the cost of attendance (COA), which includes tuition, fees, books, supplies, transportation, room, board, and

miscellaneous personal expenses. The financial aid package offered may be a combination of gift aid (grants and scholarships) and self-help (loans or part-time employment).

The initial financial aid award offer will generally be based on full-time enrollment (12 **Credits** or greater) for an academic year (Fall and Spring semester) at Leeward CC, unless the recipient is planning to graduate at the end of the Fall semester, or entering in the Spring semester, or nearing maximum timeframe (SAP\*). Award offer will be adjusted for enrollment levels less than full-time. Changes in enrollment level (adding or dropping classes) after aid has been disbursed may require the financial aid office to recalculate the student's award offer, and the student may be required to pay back to the aid program and/or have an outstanding obligation at the institution.

Financial aid recipients are required to inform the Financial Aid Office if they are receiving outside financial resources (all scholarships or financial resources not administered by Leeward Community College's Financial Aid Office). An adjustment to the award offer may be necessary to reflect the increase in resources.

Students always make the final decision to accept or decline any part of the financial aid award package offered.

For more information, please go to <https://www.leeward.hawaii.edu/finpolicies> and review Award Policies.

## **Disbursement of Aid**

Financial aid will be applied electronically to outstanding registration charges approximately ten days prior to the first day of instruction for each semester unless the Award Offer is finalized after the start of school or the student has any outstanding requirements. Any excess monies will be refunded to the student via paper check (sent through U.S. mail) or directly deposited into a designated bank account within ten business days from the date of disbursement. Students may sign up for electronic (eRefunds) through the MyUH Services Portal.

For more information, please go to <https://www.leeward.hawaii.edu/finpolicies> and review Disbursement Policy.

## **Withdrawing from School**

Enrolled in all Full Term Courses (Instruction 15 weeks or greater)

- A student is considered withdrawn, if the student withdraws from all courses, or a student begins attendance and fails to earn a passing grade in at least one course over the entire term (known as an Unofficial Withdrawal). The student is subject to the Return of Title IV refund calculation as dictated by federal regulations.

Enrolled in a Modular/Part of Term Courses (Instruction less than 15 weeks)

- A student is considered be a modular withdrawal if the student does not complete all the days in the semester (payment period or period of enrollment) that the student was awarded aid. the student is subject to the Return of Title IV refund calculation as dictated by federal regulations.

## Federal Financial Aid

**Federal Pell Grant:** A grant for students with financial need pursuing their first bachelor's degree.

**Federal Supplemental Education Opportunity Grant (SEOG):** A grant for students with exceptional financial need enrolled for a minimum of 6 **Credits**. Funding is limited.

**Federal Work-Study:** Wages earned through student employment. Available to students with financial need who indicate interest in the fund on the FAFSA. Students must enroll for a minimum of 6 **Credits**. Funding is limited.

**Federal Direct Students Loans:** There are two federal fixed-rate loans. Both require students to enroll for a minimum of 6 **Credits**; repayment begins 6 months after the student graduates or ceases to be enrolled in at least 6 **Credits**.

- Federal Direct Subsidized Loan: A loan for students with financial need. Interest is subsidized by the U.S. Department of Education while the student is enrolled in at least 6 **Credits**.
- Federal Direct Unsubsidized Loan: A loan that is not based on financial need. Interest begins to accrue from the time the loan is disbursed.

**Federal Direct Parent PLUS Loan:** A federal fixed-rate loan for parents of dependent students. Requires students to enroll for a minimum of 6 **Credits**. Repayment begins 60 days after the second disbursement.

For more detail of our types of aid, visit: <http://www.leeward.hawaii.edu/typesofaid>

## Institutional and State Financial Aid

**Institutional Grants:** There are several grants available to students with financial need who enroll for a minimum of 6 **Credits**. Requirements may differ among the grants. Funding is limited.

**Hawai'i B Plus Scholarship:** A state scholarship for recent Hawai'i public high school graduates with financial need. Requires a minimum enrollment of 12 **Credits**. Students must submit an official high school transcript that reflects a cumulative GPA of at least 3.0 and completion of a rigorous high school curriculum. Funding is limited.

**Hawai'i Promise Scholarship:** A state scholarship for students with financial need who are pursuing their first bachelor's degree. Students must be Hawai'i residents, or qualify for an exempt status that pays in-state tuition and enrolled for a minimum of 6 **Credits**. Funding is limited.

For more detail on our types of aid, visit: <http://www.leeward.hawaii.edu/typesofaid>

# College Policies

## Academic Freedom

The Agreement between the University of Hawai'i Professional Assembly and the Board of Regents of the University of Hawai'i states in Article IX A that "Faculty Members are entitled to freedom in the classroom in discussing subjects of expertise, in the conduct of research in their field of special competence, and in the publication of the results of their research." It also states in Article IV A that "Faculty Members are responsible for maintaining high professional standards of scholarship and instruction in their field of special competence. In giving instruction on controversial matters, Faculty Members are expected to set forth justly and without suppression, the differing opinions of other investigators, and in their conclusions provide factual or other scholarly sources for such conclusions. Faculty members should be careful not to introduce into their teaching controversial matters that have no relation to their subject." This Article also states that "When speaking and acting as citizens, Faculty Members shall take suitable precaution to assure that personal utterances or actions are not construed as representing the University."

## Administrative Disenrollment for Failed Prerequisites

The Leeward Community College (CC) Registrar's Office will perform an administrative disenrollment for all students who have registered for a Leeward CC course based on an in-progress prerequisite and who subsequently did not meet the prerequisite for that course. This does not apply to students who have received a prerequisite override for the course.

An administrative disenrollment will be performed for students registered for a Leeward CC course and who receive any of the following for the in-progress prerequisite:

- Students who received an F or N grade
- Students with an Incomplete (except if the student were receiving an IA, IB, IC, or ID, and the default grade would satisfy the prerequisite)
- Students enrolled in a mandatory or optional Credit/No Credit (CR/NC) course and receive NC
- Students enrolled in a Pass/No Pass (P/NP) course and Receive NP
- Any other grade that does not meet the prerequisite requirement

Students will be notified of their disenrollment via UH email accounts and advised to see counselors for options to reschedule courses impacted by the disenrollment.

For more information go to <https://www.leeward.hawaii.edu/policies>.

## **Animals on Campus**

Leeward Community College is committed to equal access for persons with disabilities, including students, employees, and visitors, in compliance with federal and state laws. Under federal and state law, Service Animals are allowed in areas where animals, including pets, are generally not permitted. Individuals with disabilities may be accompanied by Service Animals on all University of Hawai'i campuses and its premises where members of the public are allowed to go. A Service Animal's work or task must be directly related to its owner's disability.

For more information, refer to the following policy:

[Executive Policy on Service Animals and Emotional Support Animals \(EP 1.207\)](#)

## **Campus Crime Awareness (Clery Act)**

In compliance with the Campus Crime Awareness and Campus Security Act of 1990, as amended, (known as the "Clery Act" ) and the Campus Fire Safety Right-to-Know Act signed into law in 2008 the College's security policies and crime statistics can be found in the Annual Security Report, online at <http://www.leeward.hawaii.edu/security>.

## **Consensual Relationships**

The University of Hawai'i consensual relationships policy prohibits an employee from initiating or engaging in a romantic, dating, or sexual relationship with another employee or a student whom he/she currently supervises, directs, instructs, evaluates, advises, or has substantial influence over wherein a power and control differential exists. The full Executive Policy EP 1.203 is available at <https://www.hawaii.edu/policy/index.php?action=viewPolicy&policySection=ep&policyChapter=1&policyNumber=203&menuView=closed>

## **Dangerous Weapons**

The possession or use of firearms, ammunition or dangerous weapons as defined in Chapter 134, HRS, on University premises is strictly prohibited, unless specifically authorized by the Chancellor.

Dangerous weapons include but are not limited to firearms, ammunition, spear guns, knives, explosives and dangerous substances. Any person found in violation may be subject to the provisions of State law, University policy and the Student Conduct Code.

For more information, see the University of Hawai'i's System Policy on Workplace Non-Violence (EP 9.210) at <https://www.hawaii.edu/policy/ep9.210>.

## Discrimination Complaints

Discrimination against students, employees, and applicants for admission or employment as articulated in the Policy on Nondiscrimination and Affirmative Action is prohibited and will not be tolerated by Leeward Community College. Violation of this Policy from any individual may subject a member of the University community to adverse treatment/action based on the protected category as set forth in the Policy.

Discrimination complaints will be processed using the University's Administrative Procedure AP 1.202 (<http://www.hawaii.edu/policy/docs/temp/ap1.202.pdf>), Discrimination Complaint Procedure for Students, Employees, and Applicants for Admission or Employment.

Complaints of discrimination may be addressed to:

*Students:*

Complaints of discrimination may also be filed with:

**Christine S. Y. Chun**, Director  
Office of Compliance, EEO/AA, and Title IX  
Office of the Vice President for Community Colleges  
2327 Dole Street Room 1  
Honolulu, Hawai'i 96822  
Phone (808) 956-4564

## **General Policy Involving Non-students**

Anyone who is not officially enrolled for credit, non-credit, or auditing a course is not entitled to be in a classroom at any time. This includes any Leeward Community College student who has not yet registered for the class. Faculty have the discretion to include or exclude such students if their registration for the class is pending. No one is allowed to "sit" in class for any length of time as an unofficial audit.

### **Minors**

For the purpose of this policy, a minor is anyone under the age of 18 who is a dependent of a student. This policy will not be construed to include as a minor any student under the age of 18 as long as that person is registered for the class.

### **Hazardous Classroom Environments**

Any laboratory, studio, shop, or area in which there is equipment or materials which could pose a hazard to minors or which could be endangered by the presence of minors is to be included as one of these environments. The determination of such a hazard will be made by the faculty teaching the class in such areas with consultation from other faculty making use of the area, and the Division Chair.

### **Exclusion of Minors**

In any area where a "hazardous classroom environment" has been determined to exist, signs should be posted warning that minors are not allowed at any time. At the beginning of each semester, faculty should notify students that minors will not be permitted in the area for any reason. This notification should be printed in the course outline and announced orally to the class. If a student asks to bring a minor to the class for any reason, the instructor cannot allow it and should a student bring a minor to a class without asking, the instructor may ask the student to leave the class for that day.

## **Graduation**

### **Purpose**

The Graduation Policy establishes campus-level requirements that must be met, in addition to UH System and program-specific requirements, for conferrals (i.e., degree or certification).

### **Definitions**

- Graduation: The awarding/conferral of a degree or certificate with a notation on a student's official transcript.
- Cumulative Grade Point Average (GPA): is a system used to evaluate the overall scholastic performance of college students. The GPA of a student is computed

by dividing the total number of his/her grade points by the total number of course credits for which the student received the grades of A, B, C, D, or F. The grade points a student earns for a course are computed by multiplying the number of credits that the course is worth by the grade points assigned to the grade that the student receives for the course (i.e., 4 for A, 3 for B, 2 for C, 1 for D, and 0 for F). For the purposes of this policy, "GPA" refers only to grade points and credits earned at Leeward Community College (Leeward CC) and only for courses numbered 100 or higher, unless a sub-100 level course is applicable towards degree requirements and was taken for a letter grade.

### **Policy**

- a. **GPA Requirement:** Leeward CC complies with UHCC policy 5.203 which requires students earn a cumulative 2.0 GPA or better for all courses used to meet program degree requirements. Leeward CC programs may have their own specific graduation. In addition, students must hold a minimum cumulative 2.0 GPA in Leeward CC delivered courses in order to be awarded degrees or certificates. Minimum GPA in both categories must be met by the time of conferral.
- b. **Catalog Year Requirement:** A student must fulfill the specific course and degree requirements of the catalog in effect at the time of their most recent admission, or of any subsequent catalog in effect during their continuous enrollment. Students entering the college for the first time during a summer session are subject to the requirements of the catalog for the previous fall term, or of any subsequent catalog in effect during their continuous enrollment. Students who take a break in their enrollment must follow the degree requirements in effect at the time that they re-enter the College, unless granted special approval.

### **Procedures and Responsibilities**

Before awarding degrees or certificates, the appropriate college personnel will verify the student holds a minimum cumulative 2.0 GPA at Leeward CC as well as meeting all program-specific requirements. Under certain circumstances, exceptions may be initiated by delegation of authority.

## **Illicit Drugs and Alcohol**

This Official Notice, by the University of Hawai'i Office of the President, is issued pursuant to the requirements of the federal Drug-Free Schools and Communities Act of 1989 and the Drug-Free Workplace Act of 1988.

In conformance with the existing law, University faculty, staff and students are not permitted to manufacture, distribute, possess, use, dispense or be under the influence of illegal drugs and/or alcohol as prohibited by State and Federal law, at University-sponsored or approved events or on University property or in buildings used by the University for education, research or recreational programs. Consistent with its mission, the University will cooperate with law enforcement agencies

responsible for enforcing laws related to the use of illegal drugs and alcohol. Students found in violation of this part shall be subject to the provisions of the Student Conduct Code. Faculty and staff found in violation of this part are subject to disciplinary action as provided in collective bargaining agreements, University policy, and other applicable State laws and rules.

The University recognizes that substance abuse is a complex problem that is not easily resolved solely by personal effort and may require professional assistance and/or treatment. Students, faculty and staff members with substance abuse problems are encouraged to take advantage of available diagnostic, referral, counseling and prevention services. The University will not excuse misconduct by employees and students whose judgment is impaired due to substance abuse.

The purchase, possession or consumption of alcoholic beverages is regulated by state law. Students are expected to know and abide by state law and by University rules and regulations governing the use and consumption of alcoholic beverages on campus. Students are referred to Board of Regents policy, executive policies and campus guidelines regulating the use and consumption of alcoholic beverages on campus.

Students are not permitted to be under the influence of, possess, manufacture, distribute, or sell illicit drugs, as prohibited by state law, at University-sponsored or approved events, on University property or in buildings used by the University for its educational or recreational programs. Reasonable suspicion of possession or use of illegal drugs and substances on campus may subject the students involved to investigation.

Sanctions which may be imposed on violators of the alcohol and drug related sections of the Student Conduct Code include disciplinary warning, probation, suspension, expulsion or rescission of grades or degree. Copies of the full text of the Code are available in the Office of the Dean of Student Services or online at [www.leeward.hawaii.edu/policies](http://www.leeward.hawaii.edu/policies).

Campus-sponsored activities on campus that involve either the serving or selling of alcoholic beverages must be in compliance with applicable College/University policies and State law.

Copies of policies governing the possession, consumption, serving and sale of alcoholic beverages on the University of Hawai'i Leeward Community College campus are available in the Office of the Dean of Student Services and the Office of the Chancellor or online at [www.leeward.hawaii.edu/policies](http://www.leeward.hawaii.edu/policies) and at <https://www.hawaii.edu/policy/ep11.201>.

## **Nondiscrimination and Affirmative Action**

As an integral part of its Policy on Nondiscrimination and Affirmative Action, the Office of the President, University of Hawai'i, hereby declares and reaffirms its commitment to the University's pursuit of equal education and employment opportunity and further

declares that any harassment of students or employees or applicants for admission or employment on the basis of sex is prohibited and will not be tolerated.

This Executive Policy provides the administrative framework to ensure compliance with applicable federal and state statutes, rules and regulations, and provisions in the collective bargaining agreements regarding nondiscrimination, equal opportunity, and affirmative action, as applicable. This includes compliance with federal contractor affirmative action mandates pursuant to Executive Order 11246 and implementing regulations for protected veterans and individuals with disabilities.

### **Executive Policy**

It is the policy of the University of Hawai'i to provide equity of opportunity in higher education, both in the educational mission and as an employer. The University is committed to complying with all state and federal statutes, rules, and regulations which prohibit discrimination. The Office of the President, University of Hawai'i, affirms its commitment to the University's equal education and employment opportunity policy. The University is committed to a policy of on the bases of race, sex, gender identity and expression, age, religion, color, national origin, ancestry, citizenship, disability, genetic information, marital status, pregnancy (including childbirth, pregnancy related medical conditions, and lactation/breastfeeding), arrest and court record (except as permissible under State law), sexual orientation, national guard participation, status as a protected veteran or other military status, status as a domestic or sexual violence victim, or any other protected category under federal or state laws, regulations, and/or executive orders. This policy covers admission and access to and participation, treatment, and employment in the University's programs and activities. The University shall promote a full realization of equal opportunity through a positive, continuing program of nondiscrimination and affirmative action (41 CFR Chapter 60) on each campus.

The University of Hawai'i is committed to maintaining a community that fosters understanding and mutual respect. The University believes that diversity among its many members strengthens the institution, stimulates creativity, promotes the exchange of ideas, and enriches campus life. To protect the diversity of people and ideas, we must provide an environment in which the civil rights and dignity of every individual are fully respected. Discrimination and harassment undermine the trust and mutual respect which must prevail if the students and employees of the University of Hawai'i are to reach their fullest potential. The University prohibits and does not tolerate discrimination or discriminatory harassment based on the protected categories as referenced in this policy. This policy also prohibits retaliation against any person for bringing a complaint of discrimination or harassment or for assisting or testifying in an investigation or complaint resolution pursuant to this policy, as discussed in further detail in Section III.C.3 of [EP 1.202](#). The University will take prompt and appropriate action to prevent, correct, and, if applicable, discipline behavior that violates this policy (up to and including dismissal from the University).

The University's equal opportunity policy includes a commitment to implementing

reasonable accommodations, as required by law, for individuals with disabilities or for an individual's sincerely held religious beliefs or practices. The University's policy further includes a commitment to providing support for individuals who are pregnant (including those with pregnancy-related medical limitations), individuals who are breastfeeding, or victims of domestic or sexual violence, and any other matter as described and required by law.

**Executive Policy, EP 1.202**, Nondiscrimination, Equal Opportunity, and Affirmative Action Policy (<http://www.hawaii.edu/policy/docs/temp/ep1.202.pdf>)

### **Affirmative Action in Employment Practices**

The University strives to prevent discrimination and promote a full realization of equal employment opportunity through a positive, continuing affirmative action program in compliance with applicable federal laws and Executive Orders to ensure that qualified, historically underrepresented racial and ethnic minorities, females, protected veterans, and individuals with disabilities are considered for hiring and advancing in employment. The program includes placing and publicizing equal opportunity officers on each campus, publishing nondiscrimination and anti-harassment policies, reviewing employment practices, analyzing applicant and workforce data, monitoring progress toward achieving hiring goals, and conducting prevention education. The University also commits to taking measures, beyond simple termination of a discriminatory practice, adopted to correct or compensate for past or present discrimination or to prevent discrimination from recurring in the future. Such measures may include but are not limited to training programs, outreach efforts, and other positive action steps.

Leeward Community College declares its commitment that as part of the University's equal opportunity policy to implement reasonable accommodations, to the extent required by law, for individuals with disabilities, sincerely held religious practices, victims of domestic or sexual violence, pregnancy, and breastfeeding.

In addition, employees and applicants for employment are protected under Title IX, Title II, and Section 504.

Individuals designated to coordinate the University of Hawai'i Community Colleges' nondiscrimination and affirmative action programs are:

## Safe Zone

In light of Leeward Community College's commitment to the University of Hawai'i's policy of equal education and employment opportunity and to the principles and practices of nondiscrimination including sexual orientation, gender identity, and expression, the Safe Zone program was established.

The Safe Zone Program's objective is for trained participants to utilize their gained knowledge and skills to foster a safe and inclusive community for LGBTQ+ students, faculty, and staff to promote social justice in the University of Hawai'i System. Upon completion of a Safe Zone Training, participants will be invited to become Advocates in the University of Hawai'i System Safe Zone Program.

Any office or faculty/staff member that has the Safe Zone poster have declared they are advocates.

# **Sex Discrimination and Gender-Based Violence - Title IX**

The University of Hawai'i is committed to maintaining and promoting safe and respectful campus environments that are free from sex discrimination and gender-based violence. This includes:

- Sex Discrimination
- Sexual Harassment
- Gender-Based Harassment, including harassment based on actual or perceived sex, gender, sexual orientation, gender identity or gender expression
- Sexual Exploitation
- Sexual Assault
- Domestic and/or Dating Violence
- Stalking

Conduct of this nature constitutes illegal discrimination as set forth in Title IX of the Education Amendment of 1972, relevant sections of the Violence Against Women Reauthorization Act of 2013, Title VII of the Civil Rights Act of 1964, and Hawai'i laws that prohibit discrimination on the basis of sex, sexual orientation and gender identity.

Any person believing that they have been subjected to any of the above should report the prohibited behavior immediately to one of Leeward CC's Title IX Coordinators. Retaliation against anyone who has reported this type of conduct or who participates in any resolution process is strictly prohibited.

## Smoking

All University of Hawai'i (UH) campuses and facilities are tobacco-free. Hawai'i state law (SB 134, Act 160, SLH 2018) prohibits the use of tobacco products on all 10 UH campuses and university-owned facilities.

Tobacco products include, but are not limited to, cigarettes, cigars, pipes, smoking tobacco, electronic cigarettes, vapes and chewing tobacco. Previously designated "smoking areas," (including parking lots) are now also no-smoking areas.

Additional information can be found online at <https://www.leeward.hawaii.edu/policies> and <https://www.hawaii.edu/offices/communications/tobaccofree/>

## Statement of Professional Ethics

As noted in University of Hawai'i policies, faculty members, guided by a deep conviction of the worth and dignity of the advancement of knowledge, recognize the special responsibilities placed upon them. Their primary responsibility to their subject is to seek and to state the truth as they see it. To this end faculty members devote their energies to developing and improving their scholarly competence. They accept the obligation to exercise critical self-discipline and judgment in using, extending, and transmitting knowledge. They practice intellectual honesty. Although faculty members may follow subsidiary interests, these interests must never seriously hamper or compromise their freedom of inquiry.

As teachers, faculty members encourage the free pursuit of learning in their students. They hold before them the best scholarly and ethical standards of their discipline. Faculty members demonstrate respect for students as individuals, and adhere to their proper roles as intellectual guides and counselors. Faculty members make every

reasonable effort to foster honest academic conduct and to assure that their evaluations of students reflect each student's true merit. They respect the confidential nature of the relationship between faculty member and student. They avoid any exploitation, harassment, or discriminatory treatment of students. They acknowledge significant academic or scholarly assistance from them. They protect their academic freedom.

As colleagues, faculty members have obligations that derive from common membership in the community of scholars. Faculty members do not discriminate against or harass colleagues. They respect and defend the free inquiry of associates. In the exchange of criticism and ideas faculty members show due respect for the opinions of others. Faculty members acknowledge academic debt and strive to be objective in their professional judgment of colleagues. Faculty members accept their share of faculty responsibilities for the governance of their institutions.

As members of an academic institution, faculty members seek above all to be effective teachers and scholars. Although faculty members observe the stated regulations of the institution, provided the regulations do not contravene academic freedom, they maintain their right to criticize and seek revision. Faculty members give due regard to their paramount responsibilities within their institution in determining the amount and character of the work done outside it. When considering the interruption or termination of their service, faculty members recognize the effect of their decision upon the program of the institution and give due notice of their intentions.

As members of their community, faculty members have the rights and obligations of other citizens. Faculty members measure the urgency of these obligations in light of their responsibilities to their subject, to their students to their profession, and to their institution. When they speak or act as private persons they avoid creating the impression of speaking or acting for their college or university. As citizens engaged in a profession that depends upon freedom for its health and integrity, faculty members have a particular obligation to promote conditions of free inquiry and to further public understanding of academic freedom.

## **Student Academic Grievance Procedure**

### **2.1 The Resolution of a Student Appeal of the Assignment of Course Grades**

A student who seeks to appeal the assignment of a course grade may initiate action to achieve a remedy. The actions available are outlined herein and must be initiated within 45 calendar days once grades are posted. Exceptions can be made if students experienced extenuating circumstances.

#### **A. Report of a Student Appeal of a Course Grade**

1. **Step 1:** A student who seeks to appeal the assignment of a course grade must first make every reasonable attempt to discuss the matter with the faculty member involved. The faculty member must be afforded the opportunity to initially handle these matters before the grievance progresses to the next level. (If approached, administrators, division chairs, counselors, fellow faculty and staff shall immediately redirect the student to the closest possible level of resolution; i.e., to the faculty member involved.)
2. **Step 2:** Failing to resolve the matter with the faculty member, the student should report the matter in writing to the faculty member's Division Chair (DC), including the facts as the student perceives them (e.g., course, semester, instructor's name, semester grade, and **Description** of why this grade was received based on the instructor's grading system), specifying the remedy sought, and outlining the faculty member's response, if any, to the consultation at Step 1. Should the faculty member involved in Step 1 be the DC, the student should present his/her unresolved report directly to the Chair of the Division Personnel committee (DPC). Such discussion should be initiated with the DC/DPC within fourteen (14) business days after the final scheduled discussion at Step 1 with the faculty member involved. The DC/DPC may meet separately with the student and the faculty member, or if both agree, to discuss the report jointly. The DC will also remind the contesting parties of their responsibility to familiarize themselves with the written grievance procedures. Within fourteen (14) business days of receipt of the student's report, the DC/DPC shall complete any consultation and shall notify the faculty member and the student in writing of his/her conclusion(s) and recommendation(s), including a finding of "no merit" at this or any other subsequent level of review. A determination of "no merit" by the DC/DPC may, in effect, end the appeal unless the student insists on proceeding to Step 3 - Contacting the Chairperson of the Senate Student Affairs Committee for a Review by the AGC Committee. In such a case, the DC/DPC may advise the student if the finding of a different outcome is unlikely. The student should inquire at the appropriate Division Office as to the identity and contact information for the current DPC chair.

The student has the right to be assisted by an advisor of her/his choice. The advisor may be a member of the Leeward Community College community and cannot be an attorney. The student is responsible for presenting her/his own information, and therefore, the students' advisor is not permitted to speak during, or to participate directly, in any meetings with the DC/DPC or potential subsequent AGC Hearing. The student should select as an advisor a person whose schedule allows attendance at the scheduled date and time for the AGC Hearing because delays will not normally be allowed due to the scheduling conflicts of an advisor.

3. **Step 3:** See below.

## **B. Written Academic Grievance**

1. Step 3: Failing to achieve satisfactory resolution of an appeal of a final grade at the DC (DPC Chair) level, the student may file an academic grievance, in writing, with the Chairperson of the Senate Student Affairs Committee. Such filing must be received within fourteen (14) business days after the student has received written notification from the DC (DPC Chair) regarding the resolution of the student's complaint.
2. The student's written academic grievance shall contain all information previously provided in the student's complaint to the DC (DPC Chair) as well as a copy of the DC's (DPC Chair's) written notification to the student regarding the disposition of his/her complaint.
3. The faculty member also will receive written notification regarding the disposition of the complaint from the DC (DPC Chair). (SEE: A.2 above)

## **Workplace Non-Violence**

The University of Hawai'i encourages the intellectual and personal growth of its students as scholars and citizens and recognizes the need to maintain a safe and secure environment for faculty and staff to fulfill the University of Hawai'i's mission of teaching, research, and service. In order to maintain an environment where these goals can be achieved safely and equitably, the University promotes civility, respect, and integrity among all members of its community.

The University of Hawai'i prohibits any work-related or workplace violence against its students, faculty, staff, visitors, and contract employees which materially and substantially interferes with an individual's work, academic performance, and/or workplace safety and/or otherwise subjectively and objectively creates a hostile environment. Such prohibited violent acts may involve physical attack, property damage, as well as written or verbal statements or non-verbal gestures that, to a reasonable person, express or suggest the intent to cause physical or mental harm to another person.

# Student Rights and Responsibilities

## Academic Honesty

Leeward Community College's integrity relies on a foundation of academic honesty, which is built on the principles of independent learning and research. The College will not tolerate academic dishonesty, which undermines these principles. Cheating and plagiarism are forms of academic dishonesty that breach the University of Hawai'i's [Student Conduct Code](#). Engaging in these activities can lead to severe consequences, including suspension or expulsion.

**Cheating** includes but is not limited to giving unauthorized help during an examination, obtaining unauthorized information about an examination before it is administered, using inappropriate sources of information during an examination, altering the record of any grades, altering answers after an examination has been submitted, falsifying any official University record, and misrepresenting the facts in order to obtain exemptions from course requirements.

**Plagiarism** includes but is not limited to submitting any document, to satisfy an academic requirement, that has been copied in whole or part from another individual's work without identifying that individual; neglecting to identify as a quotation a documented idea that has not been assimilated into the student's language and style, or paraphrasing a passage so closely that the reader is misled as to the source; submitting the same written or oral material in more than one course without obtaining authorization from the instructors involved; or dry-labbing, which includes (a) obtaining and using experimental data from other students without the express consent of the instructor, (b) utilizing experimental data and laboratory write-ups from other sections of the course or from previous terms during which the course was conducted, and (c) fabricating data to fit the expected results.

For more information, refer to the following policy:  
[Systemwide Student Conduct Code EP 7.208](#)

## Academic Rights and Freedoms of Students

Leeward Community College embraces those aspects of academic freedom that guarantee the freedom to teach and the freedom to learn. Free inquiry and free expression for both students and faculty are indispensable and inseparable.

The College subscribes to that part of the 2007 "Joint Statement on Rights and Freedom of Students," adopted by a diverse number of higher education organizations including the American Association of University Professors, which relates to classroom instruction: "The professor in the classroom and in conference should encourage free discussion, inquiry, and expression. Student performance should be evaluated solely on an academic basis, not on opinions or conduct in matters

unrelated to academic standards.”

**A. Protection of Freedom of Expression**

Students should be free to take reasoned exception to the data or views offered in any course of study and to reserve judgment about matters of opinion, but they are responsible for learning the content of any course of study for which they are enrolled.

**B. Protection Against Improper Academic Evaluation**

Students should have protection through orderly procedures against prejudiced or capricious academic evaluation. At the same time they are responsible for adhering to standards of academic performance established for each course in which they are enrolled.

**C. Protection Against Improper Disclosure**

Information about student views, beliefs and political association which professors acquire in the course of their work as advisors, and counselors should be considered confidential. Protection against improper disclosure is a serious professional obligation. Judgments of ability and character may be provided under appropriate circumstances, normally with the knowledge or consent of the student.

For more information, refer to the following policy:

[Academic Rights and Freedoms of Students](#)

## **Commencement Ceremony Participation Policy**

Graduation is one of the most rewarding experiences in our students’ academic journey. To be awarded a diploma from the College, the student must submit an “Application for Graduation.” A non-refundable fee is required for an Associate Degree or Certificate of Achievement. For students denied their degree/certificate, the fee may be applied to subsequent degree/certificate applications. Proof of payment is required for the fee to be waived for subsequent semesters. To participate in the annual Commencement Ceremony held in May, students may exercise their right to participate according to their eligibility described below:

To participate in the annual commencement ceremony, you must meet the following eligibility criteria:

- Candidates for any Associate Degree must be within nine (9) credits of completing the requirements for the degree.
- Candidates for any Certificate must have earned, or be enrolled in, all of the requirements for the certificate.
- Candidates must have completed and submitted the online graduation application by the published deadline.

**NOTE:** You do not receive your diploma or diploma cover at the ceremony. Your diploma and diploma cover will be mailed to you (approximately 6 to 8 weeks after the semester ends). Should you have any questions, you can contact the Admissions & Records Office at (808) 455-0642.

For more information, please visit <https://www.leeward.hawaii.edu/commencement>

## Directory Information

The University has designated the following information from a student's education record as "directory information":

1. Name of student;
2. Major field of study;
3. Class (i.e., freshman, sophomore, etc.);
4. Past and present participation in officially recognized activities (including positions held and official statistics related to such participation and performance);
5. Past and present participation in officially recognized sports (including positions held and official statistics related to such participation and performance);
6. Weight and height of members of athletic teams;
7. Dates of attendance;
8. Previous institution(s) attended;
9. Full or part-time status;
10. Degree(s) conferred (including dates);
11. Honors and awards (including dean's list).

At its discretion and in conformance with applicable state law, the University may disclose directory information to the public without obtaining a student's prior consent, so long as certain conditions regarding general notification of disclosure of directory information have been followed. Specific directory information about an individual student will not be released to the public if the student has affirmatively informed the University that he or she does not want any or all of those types of information about himself or herself designated as directory information. The procedures for an individual student to "opt" out of disclosure is set forth in UH administrative policy A7.022

Note: Submission of this FERPA nondisclosure of directory information request does not automatically remove students from the UH Online Directory of email addresses, which is accessible only to those with a valid UH email address.

To remove yourself from the UH Online Directory:

- Login to [MyUH](#)
- Select the My Profile Tab
- Look for UH Online Directory, Options for Students, select Opt-out

Lists of directory information will not be made publicly available to third parties.

The school may provide the UH Foundation with lists of students with the following information: name, school/college/division/department. Degree, major and minor fields

of study, UH email address, home address, and telephone number for the purpose of University and alumni relations.

## **Family Educational Rights and Privacy of Students (FERPA)**

The Family Educational Rights and Privacy Act (FERPA), as amended, establishes requirements regarding the privacy of student records. Leeward Community College has established policies and procedures with regards to privacy and the release of your individual educational records. Your primary rights protected under FERPA are:

1. The right to inspect and review the student's education records within 45 days after the day Leeward Community College receives a request for access.
2. The right to request the amendment of the student's education records that the student believes is inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA. A student who wishes to ask the school to amend a record should write the school official responsible for the record, clearly identify the part of the record the student wants changed, and specify why it should be changed.
3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Leeward Community College to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

U.S. Department of Education

Student Privacy Policy Office

400 Maryland Ave, SW

Washington, DC 20202-8520

Students are advised that institutional policy and procedures required under FERPA have been published as Administrative Procedure AP 7.022, Procedures Relating to Protection of the Educational Rights and Privacy of Students.

## **FERPA Annual Notice Addendum**

As of January 3, 2012, the U.S. Department of Education's FERPA regulations expand the circumstances under which your education records and personally identifiable information (PII) contained in such records—including your Social Security Number,

grades, or other private information—may be accessed without your consent.

First, the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local education authorities ("Federal and State Authorities") may allow access to your records and PII without your consent to any third party designated by a Federal or State Authority to evaluate a federal- or state-supported education program. The evaluation may relate to any program that is "principally engaged in the provision of education" such as early childhood education and job training, as well as any program that is administered by an education agency or institution.

Second, Federal and State Authorities may allow access to your education records and PII without your consent to researchers performing certain types of studies, in certain cases even when we object to or do not request such research. Federal and State Authorities must obtain certain use-restriction and data security promises from the entities that they authorize to receive your PII, but the Authorities need not maintain direct control over such entities.

In addition, in connection with Statewide Longitudinal Data Systems, State Authorities may collect, compile, permanently retain, and share without your consent PII from your education records, and they may track your participation in education and other programs by linking such PII to other personal information about you that they obtain from other Federal or State data sources, including workforce development, unemployment insurance, child welfare, juvenile justice, military service, and migrant student records systems.

## **Financial Obligations to the University**

Students who have financial obligations (such as tuition and fees, traffic violations, parking tickets, unreturned library books, library fines, other fines, laboratory breakage charges, transcript fees, loans past due, rental payments, etc.) may be denied letters of verification or certification, grades, transcripts, diplomas, and registration.

Financial obligations not cleared will be sent to a collection agency. A copy of the Hawai'i, Administrative Rules, Title 20, University of Hawai'i, Chapter 10 on Delinquent Financial Obligations, promulgated by the Board of Regents, is on file in the Office of the Dean of Student Services and is available online at <http://www.hawaii.edu/offices/bor/adminrules/chapter10.pdf>.

# Information Technology Policy

## UH Executive Policy, Administration E 2.210: Use and Management of Information Technology Resources Responsible Use, Privileges and Responsibilities:

The University of Hawai'i defines and provides access to institutional computers, information systems and networks as a privilege rather than a right. All users must respect the rights of others, the integrity of the facilities and controls which are implemented to maximize the community's reliable access, and all pertinent license and contractual agreements that underlie the University's technology infrastructure. It is the policy of the University to deny access to any member of the user community who violates this policy or who uses the University's technology resources to violate other duly established policies and/or Federal or State laws.

The complete IT Usage policy can be found at <https://www.hawaii.edu/policy/ep2.210>.

## Student Complaint Process

Leeward Community College recognizes its responsibility to provide students with an informal process for addressing complaints about faculty's treatment of students that are not protected by academic freedom and are not covered by other procedures. Examples might include ineffective or inefficient service (i.e., not replying to email inquiries after one week), or neglect of duty (i.e., not holding office hours, not returning a graded assignment/exam before the next similar assignment/exam is due, not having an up-to-date gradebook). To address this possible problem, below are the steps students should take to resolve such issues.

### Step 1:

- First attempt to work out the problem with the instructor.
- If, after working with one's instructor and the issue remains unresolved, **or**
- if the student does not feel safe working with the instructor.
  - contact the Division Chair via email, phone, or in-person.
- If the issue is not resolved in 10 business days, move to Step 2:
  - The following link identifies which courses fall under which division:

## Systemwide Student Conduct Code

All University of Hawai'i students must conduct themselves appropriately on campus and at college-related events in order to maintain the safety and well-being of all. The University of Hawai'i's Systemwide Student Conduct Code outlines how students are expected to conduct themselves as a part of our educational community. Students who fail to uphold this Code and who engage in behavior prohibited by it may be subject to disciplinary action.

All students should read the University of Hawai'i Systemwide Student Conduct Code, EP 7.208 ([link](#)) in addition to Leeward Community College's Student Conduct Code Procedures ([link](#)).

Hardcopies may be obtained at the Dean of Student Services' Office.

# Academic Regulations

## Academic Honors

### Dean's List

The purpose of the Dean's List is to recognize students who maintain outstanding academic records at Leeward Community College (CC). It is compiled for each Fall and Spring semester. Only **Credits** and grades earned for Leeward Community College courses will be used in determining Dean's List eligibility.

A student will be named to the Dean's List if all of the following requirements are met:

1. Has a cumulative grade point ratio of 3.8 or higher (on a 4.0 scale) for all coursework numbered 100 or above completed at Leeward CC.
2. Has successfully completed a minimum of 24 **Credits** of coursework for a letter grade ( "A" - "D" only) at Leeward CC, exclusive of courses numbered below 100 in English, ESL, Mathematics, Reading and Learning Skills, with a cumulative grade point ratio of 3.8 or higher for those 24 **Credits** of coursework. For non-vocational students, below 100-level courses will not count towards the minimum 24 **Credits**.
3. Has been assigned the grade of "W," "N" or "NC" for no more than a total of 4 courses at Leeward CC, regardless of whether those courses are numbered below or above 100 and regardless of whether any of those courses were repeated.
4. Has successfully completed at least 6 **Credits** numbered 100 or above for letter grade with a current grade point ratio of 3.0 or higher during the semester for which the student qualified to be named to the Dean's List.
5. When an "I" (incomplete) grade is assigned to a student at the end of the semester, the "contingency" grade submitted by the instructor will be used to determine eligibility for the Dean's List.

In determining a student's eligibility for the Dean's List, or whether the student meets the requirements above, any course repeated by the student shall be counted only up to the maximum number of **Credits** that the applicable course **Description** in the Leeward CC Catalog specifies that the course may be repeated for credit.

If a course **Description** in the Catalog states that a course may be repeated for additional credit but fails to specify the maximum number of **Credits** for which the course may be repeated, the course shall be treated as if it may be repeated only once for additional credit.

If a course **Description** in the Catalog does not state that a course may be repeated for additional credit, the course, if repeated, shall be counted only once for purposes of this policy and only in terms of the grade and **Credits** earned the first time it was successfully completed.

In all cases where a student has repeated a course in excess of the maximum number

of times or the maximum number of **Credits** allowed or specified by the applicable course **Description** in the Catalog, that course (for purposes of determining eligibility to the Dean's List) shall be counted in the order it was repeated successfully but only up to the maximum number of times or the maximum number of **Credits** for which the course could have been validly repeated for credit.

A student must qualify for the semester's Dean's List based on the student's total academic or transcript record to date at Leeward CC, including the student's semester grades for that particular semester as submitted to the Admissions and Records Office by the applicable end-of-semester deadline for the submission of semester grades. A student will not be named retroactively to the Dean's List based on any change of grade submitted after the applicable end-of-semester deadline.

Students named to the Dean's List will be informed in writing by the Office of the Vice-Chancellor. If a student believes that he/she should have been named to the Dean's List but was not, the student is encouraged to make a timely inquiry to the Dean of Student Services or designee.

## Honors Program

To graduate with academic honors, students must first apply and be accepted into Leeward's Honors Program. This program is open to all qualified students in all degree and certificate programs at Leeward CC. Students who graduate with academic honors will have this designation inscribed on their diplomas or certificates, as well as in their transcripts. Additionally, Honors students have the right to wear the Honors hood at commencement and are recognized for their accomplishments during the ceremony. To graduate with academic honors, students must be accepted into the Leeward CC Honors Program, must meet all degree requirements, take one Honors colloquium, and graduate with a 3.5 or higher cumulative grade point average. Students cannot be named retroactively to Leeward's Honors Program. Honors cannot be inscribed on diplomas, certificates or transcripts retroactively.

Entrance requirements at the time of application are:

- Completed at least 12 college-level **Credits** (i.e., courses numbered 100-level and higher) from Leeward CC
- A 3.5 cumulative GPA or higher at Leeward CC
- A completed Honors Application
- A completed Faculty Recommendation Form from a previous instructor
- A PDF copy of your MyUH transcript emailed to Michael Oishi at [mtoishi@hawaii.edu](mailto:mtoishi@hawaii.edu)

For more information and to apply online go to: <https://goo.gl/jRHtpm>

## Phi Beta Lambda

Phi Beta Lambda (PBL) is a professional business association serving postsecondary

students nationwide and abroad and helps future business leaders convert their ambitions and abilities into financial success and professional recognition. Leeward's chapter, Eta Beta Epsilon, is one of more than 7,000 chartered chapters of Future Business Leaders of America/Phi Beta Lambda (FBLA/PBL) throughout the United States, Puerto Rico, the Virgin Islands and Europe.

Organizational goals include:

- promoting competent, aggressive business leadership
- understanding American business enterprise
- establishing career goals
- encouraging scholarship and promoting school loyalty
- promoting sound financial management
- developing character and self-confidence
- facilitating the transition from school to work

**Advisor:** Douglas Choy, [dchoy@hawaii.edu](mailto:dchoy@hawaii.edu)

### **Phi Theta Kappa Honor Society**

Phi Theta Kappa is an international honor society founded in 1918 for outstanding community, technical, and junior college students. Leeward CC 's chapter, Alpha Lambda Gamma, is one of over 1,300 chapters in the United States, Canada, and abroad.

PTK members have opportunities to:

- meet and socialize with interesting people outside of the classroom setting
- be recognized for their academic achievements at various campus activities and functions during the year and at the commencement ceremony
- have points added to scholarships and grant applications just for being a member or officer
- take advantage of the scholarships and tuition waivers designated only for members.

To be eligible for membership in Alpha Lambda Gamma, a student must:

1. have a cumulative 3.50 GPA at Leeward CC, based on at least 12 **Credits** in 100-level or higher courses and less than 15% "W" grades
2. be enrolled at Leeward CC in at least one for-credit course during the semester of his/her induction into the chapter

Those who do not meet all these membership requirements (such as recent high school graduates or transfer students) may still join the Society as provisional members. Once inducted, members must maintain a cumulative GPA of not less than 3.0 while enrolled at Leeward CC.

At the beginning of the fall and spring semesters, eligible students are mailed an invitation to join Alpha Lambda Gamma.

**Lead Advisor:** Michael Bauer, [mbauer@hawaii.edu](mailto:mbauer@hawaii.edu), (808) 455-0310.

## Attendance

Students are expected to be in attendance regularly and on time for all classes, quizzes, examinations, laboratory and fieldwork sessions of the courses for which they are registered. Anticipated (as well as unexpected) absences should be discussed with the instructor. While instructors are concerned about students, it is the student's responsibility for arranging make-up work with the instructor.

## Auditing Courses

Students are permitted to audit classes and may select that grading option when registering for a class. Audited courses do not earn **Credits** or grades; however, regular tuition and fees are charged and must be paid by auditors. Instructors of audited courses will determine the extent of classroom participation required of the auditor. Auditors are not usually allowed in laboratory science, vocational/technical, mathematics, elementary and intermediate languages, English composition, speech or classes in which the auditor might take the place of credit students.

## Withdrawing from Courses and Complete Withdrawals from the College

In general, registered students who no longer wish to take classes must initiate their withdrawal from their course(s); an instructor and other College personnel cannot drop a student from a course. Students must withdraw from their classes via their STAR GPS account by the published deadlines. Students who withdraw from their classes or from the College after the erase period will receive the grade of "W" for all classes they withdrew from.

Students who withdraw from their classes and/or from the College will still be responsible for the related tuition and fees for their courses unless they withdraw by the appropriate refund deadlines. Withdrawal and refund deadlines are published on the College's website each semester at [www.leeward.hawaii.edu/academic-calendar](http://www.leeward.hawaii.edu/academic-calendar). Course withdrawal and tuition refund periods for Part-of-Term classes are shorter. Deadlines for these classes are also available online at <https://www.leeward.hawaii.edu/part-of-term>.

Students who do not complete a course and/or fail to withdraw from the course will receive a grade of "F" in accordance with the College's and the instructor's grading policy. They will also remain responsible for their tuition and fee charges for their course(s).

# Administrative Withdrawal from Courses

There are only a few situations in which the College will administratively withdraw students from class(es).

## **Canceled Courses**

On occasion, classes initially offered are canceled by the College. When this happens, students who were enrolled in the canceled course are notified by email and are disenrolled from the course(s). They are also issued a 100% tuition refund.

## **Failure to meet Course Prerequisites**

Per Leeward CC's policy on Administrative Disenrollment for Failed **Prerequisites** (L5.190), a student who does not meet the prerequisite(s) for a course in which they are registered will be administratively dropped from the course. They will also be issued a 100% tuition refund for the course.

## **Participation Verification**

Students are expected to attend and participate in the courses for which they are registered. The University of Hawai'i is required, by federal regulation, to verify the participation of students in their classes. According to Executive Policy 7.209, students who fail to establish attendance by the late registration period will be administratively dropped from their class. Students may also be dropped from other classes that are dependent on the class where they failed to establish attendance (i.e. co-requisite or future class where the dropped class meets the prerequisite requirement).

For more information visit: <http://www.leeward.hawaii.edu/participation>

# Course-Load Limitations

No student may register for more than 18 **Credits** in a given semester except:

1. A student who needs no more than one additional course to complete a degree or certificate and has a cumulative GPA of 3.0 or higher;
2. Students who have a cumulative GPA of 3.0 or higher;
3. A student registering for a package program that contains more than 18 **Credits** may register for the full package.

Exceptions may be reviewed on a case-by-case basis and granted by a Counselor.

# Erase Period

The first three weeks of the semester (or its equivalent as determined by the appropriate academic Dean for part of term courses) is called the "erase period". Students who officially withdraw from a course during this period will have no grade or record of the course on their permanent academic record. Erase periods are published each semester online at [www.leeward.hawaii.edu/academic-calendar](http://www.leeward.hawaii.edu/academic-calendar).

## Grades

Letter grades are given in all courses. Grades signify the various levels of achievement in carrying out the performance objectives of the course. Students will be informed of these criteria by the instructor who may use such methods as written papers, participation in class discussions, performance on assigned projects, and mid-term and final examinations. A grade change may be made within two years of the semester the course was completed. No grade changes will be made beyond the two year limit.

Grade	Grade Points	Definition
A	4.0	Excellent achievement
B	3.0	Above-average achievement
C	2.0	Average achievement
D	1.0	Minimal passing achievement
F	0	Less than minimal passing achievement (0 grade points and 0 <b>Credits</b> awarded. Course computed in GPA)
CR	0	Credit awarded (No grade points assigned and not computed in GPA)
NC	0	No credit awarded (no grade points earned and not computed in GPA)
CE	0	Credit-by-Institutional Examination. Credit awarded for passing the examination with a "C" grade or higher (No grade points assigned and no <b>Credits</b> computed in GPA)
PBA	0	Credit awarded via Portfolio-Based Assessment
W	0	Withdrawal from the course (No grade points assigned and no <b>Credits</b> computed in GPA)
N	0	No grade assigned (No grade points assigned and no <b>Credits</b> computed in GPA)
I	0	Incomplete coursework
L	0	Course was audited
P	0	Credit awarded

Grade	Grade Points	Definition
NP	0	No credit given
RD	0	Record Delayed - Not Submitted

"I" is used to indicate that the student has yet to complete a small but important part of the work for the course. It is given at the instructor's discretion. When an "I" grade is assigned by an instructor, a "contingency" grade is also assigned by them. The "contingency" grade represents the grade earned by the student without the submission of incomplete work. Work related to the "I" grade must be made up by the end of the 10th week of the following semester. For "I" grades assigned during Summer Session, work must be made up by the end of the 10th week of the following fall semester. If an instructor does not submit a final grade, "I" grades will revert to the "contingency" grade that was assigned by them at the time of final evaluation. "I" grades may not revert to a "W." An "I" grade, regardless of the contingency grade assigned, is considered non-completion of a course.

"CR" is used to indicate passing with a "C" or higher for courses taken under the Credit/No Credit option. It is also used to indicate credit for equivalency exams (e.g., AP, CLEP) and non-collegiate sponsored education.

"NC" is used to indicate not passing with a "C" or higher grade for courses taken under the Credit/No Credit option.

"W" is used to indicate formal withdrawal from a course after the first three weeks of the semester (or its equivalent in a shorter term course).

"L" is used to indicate that the course was audited by the student. No credit is given and no grade points are earned. The instructor will determine the extent of classroom participation required of the auditor.

"P" is used to indicate passing with a "C" or higher for courses taken under the Pass/No Pass option.

"NP" is used to indicate not passing with a "C" or higher for courses taken under the Pass/No Pass option.

### **Credit/No Credit Option**

Students who wish to enroll in a class on a Credit/No Credit basis (rather than a letter grade) must declare this intent during registration but no later than the last day to withdraw from class.

- Students enrolled in a Certificate program may not use the CR/NC option to meet program requirements.
- Students in the Associate in Arts program may use the option for elective courses only.
- Students in the Associate in Science or Associate in Applied Science program

may use the option only for electives that fall outside the major field of study (e.g. Arts and Humanities or Natural Science electives taken by a Business Technology major).

- No more than 12 **Credits** may be taken on a CR/NC basis for any degree program.
- To earn a CR, students must pass the course with a grade of "C" or higher.

Students should be aware that some colleges, graduate and professional schools, employers, and some scholarship and fellowship awarding agencies may not recognize this option or may recalculate the "CR" as a "C" grade and the "NC" as an "F" grade. For example, the University of Hawai'i at Mānoa limits the CR/NC option to elective courses only; this option may not be used to meet any requirement for a Mānoa degree (with the exception of those courses offered for mandatory CR/NC). Therefore, it is imperative that students who select this option exercise careful educational planning. If in doubt, take a course for a regular letter grade and not for CR/NC.

The CR/NC option should not be confused with the CR grade awarded for transfer of equivalency exams, non-collegiate sponsored education **Credits**, and back-language **Credits**. These **Credits** may be applicable to core/program requirements, while the CR/NC option is limited to elective courses only.

## **Grade Point Average**

Grade point average (GPA) is a system used to evaluate the overall scholastic performance of college students. The GPA of a student is computed by dividing the total number of his/her grade points by the total number of course **Credits** for which the student received the grades of A, B, C, D, or F.

The grade points a student earns for a course are computed by multiplying the number of **Credits** that the course is worth by the grade points assigned to the grade that the student receives for the course (i.e., 4 for A, 3 for B, 2 for C, 1 for D, and 0 for F). Courses for which the grades of CR, NC, CE, W, N, I, and L have been recorded are not included in the computation of the GPA. Effective Spring 2009, the N grade will be an option in a limited number of courses.

## **Grade Point Average When Courses Are Repeated**

For repeated courses taken during or after Fall 1997, only the grade for the most recent repeat of the course shall be used to determine the Grade Point Average. Only the course grades of A, B, C, D, or F shall be used for this purpose. Courses that may be repeated for credit are not included in this policy.

Students who intend to transfer are reminded that many colleges and universities do not permit the substitution of the most recent grades when computing grade point averages and will compute the GPA according to their own standards.

## **Manual recomputation of GPA for certain purposes when courses have been repeated**

The GPA will not be recomputed for any course repeated exclusively before Fall 1997. However, the GPA for students with such courses will be manually recomputed as necessary for the following designated purposes:

1. Determining eligibility for graduation and the Dean's List
2. Determining outstanding scholar recognitions at graduation
3. Confirming election to honor societies or organizations
4. Other special purposes as designated by the Dean of Student Services

These manually-computed GPAs will not be indicated on official transcripts.

## **Grade Reports**

Grades are posted in each student's MyUH and STAR account at the end of each term. Students are responsible for reporting errors to the Records Office within seven days.

## **Prior Learning Assessment Program**

Leeward Community College's Prior Learning Assessment (PLA) Program is designed to recognize and credit the valuable knowledge and skills acquired from life and work experiences. As community college students, you bring diverse backgrounds and expertise to the classroom, and the PLA Program offers a pathway to convert those experiences into college credit. Whether you've gained proficiency through previous coursework, standardized exams, or real-world experiences, PLA provides a means to demonstrate your learning and potentially earn **Credits** toward your degree.

Participating in PLA can allow you to expedite your academic journey, save time and money, and help you achieve your educational goals more efficiently.

To begin the process, simply [schedule a counseling appointment](#) and inquire about PLA options. For further assistance, reach out to our PLA Coordinator, Michele Mahi ([mhamada@hawaii.edu](mailto:mhamada@hawaii.edu)). Your counselor and the PLA Coordinator can guide you through the process by helping you identify relevant learning experiences, choosing appropriate courses, and facilitating college credit attainment.

**Independent Study:** Students who wish to design and complete individual study projects geared to their particular interests, aptitudes, and needs may apply for Independent Study credit. A faculty member and Division Chair must approve project plans and the student must complete the project within one semester. 100% tuition of the regular course fee is required for this type of PLA.

## **Repetition of Courses**

No student may attempt the same course more than two times without special approval. The third or any subsequent attempt of the same course requires the

approval of the Dean of Student Services or designee. Withdrawal from a course after the erase period will count as an attempt of the course.

This policy does not apply to:

1. Courses which are identified in the Leeward Community College (CC) Catalog as repeatable for additional credit. These courses may be repeated up to the maximum number specified.
2. Courses taken during Summer Session.

If a course is repeated, both the earlier and the subsequent grades earned shall remain on the student's transcript. In doing a graduation check for a Leeward CC degree or certificate, a credit will be allowed only once for a course repeated unless the Catalog course **Description** for that course specifically states that it may be repeated for additional credit(s). If a course **Description** in the Catalog states that a course may be repeated for additional credit but fails to specify the maximum number of **Credits** for which the course may be repeated, the course shall be treated as if it may be repeated only once for additional credit.

Students who intend to transfer are reminded that many colleges and universities do not permit the substitution of the most recent grades when computing grade point ratios and will compute the grade point ratio according to their own standards.

## Student Classification

**Classified Students:** Students following a prescribed program leading to a degree or certificate.

**Unclassified Students:** Students who are not pursuing a degree or certificate.

**Full-time Students:** Students who carry 12 or more **Credits**.

**Part-time Students:** Students who carry fewer than 12 **Credits**.

## Unsatisfactory Academic Progress (UAP) Policy

The Unsatisfactory Academic Progress (UAP) policy is an academic progress standard set by Leeward Community College. Students who fail to maintain a GPA of 2.0 or higher are considered to be making unsatisfactory academic progress and could receive academic sanctions (e.g., course-taking limits, required breaks from their education, etc.). Tiered responses: Academic Warning, Probation, Suspension, and Dismissal. The intent is to urge such students to take timely appropriate action to allow for successful certification and/or degree. Students placed on academic suspension and dismissal are required to take a break from their education at Leeward CC, but can take classes at other college campuses, including other University of Hawai'i campuses.

## **Policy Objectives**

1. To establish standards of satisfactory academic progress.
2. To establish procedures for identifying students who are not making satisfactory academic progress.
3. To encourage such students to take appropriate action to improve their academic performance.
4. To have a procedure that is clear and understandable to students that provides campus offices with guidelines on the implementation of the policy.

## **Definitions Used in This Policy**

- A. Term is defined as Fall or Spring semester.
- B. Term GPA is defined as the semester grade point average (GPA) earned for only the applicable semester at Leeward Community College.
- C. Cumulative GPA is defined as the overall GPA earned at Leeward Community College (the College).

For purposes of this policy, a student has Unsatisfactory Academic Progress if the student is placed on: Academic Warning, Academic Probation, Academic Suspension, or Academic Dismissal.

## **Academic Warning**

- If a student fails to earn a cumulative GPA of 2.0 or higher during a term, the student will be placed on Academic Warning for the following term.
- If the student earns a cumulative GPA of 2.0 or higher during the term the student is on Academic Warning, the student will be restored to good academic standing the following term.
- A student will remain on Academic Warning status if the cumulative GPA is below a 2.0, but the term GPA is 2.0 or higher. A student on Academic Warning will be encouraged to meet with a counselor.

# Special Programs & Curriculum

## Cooperative Education, Externship, Internship, Practicum, or Fieldwork

### Cooperative Education, Externship, Internship, Practicum, or Fieldwork

Cooperative Education, Externship, Internship, Practicum, or Fieldwork formally integrates academic preparation and career interests with actual work experience. Employers are represented from private and public sectors of the community. The partnership between the student, the employer, and the College results in a rewarding and beneficial experience for all involved. Classroom study and training take on greater relevance as students gain career experience that is highly valued by employers. Leeward offers the following Cooperative Education, Externship, Internship, Practicum, or Fieldwork courses: Accounting, Automotive Technology (Ford ASSET), Business Technology, Culinary Arts, Health Information Technology, Human Services, Management, Sustainable Agriculture, and Teacher Education. To find out more about the program and to see if you're eligible to participate, contact the program coordinators:

For Accounting, contact Mellissa Moody

## **Developmental Education**

Developmental courses help students attain basic and fundamental skills in reading, writing and mathematics, and related study skills so that they can increase their chances of success in college-level courses. Leeward Community College (CC) also offers developmental courses in English as a second language (ESL) for academic purposes. Developmental courses do not apply toward an associate degree or technical certificate.

English and mathematics course placement is based on a variety of assessments, such as high school GPA, ACT or SAT scores, Smarter Balance Assessment scores, or alternative placement tests. You may place at the college level in one area(s) and at the developmental level in the other area(s). If your skills are below the levels required for successful performance in a college-credit program, you will be required to enroll in developmental English and/or mathematics courses at the beginning of your enrollment and continue to enroll in them each term until you have completed your required courses. Developmental education counselors are available to assist students who have transferred from another college campus or who have unique placement situations.

### **Developmental Mathematics**

Leeward Community College has streamlined its developmental mathematics sequence so students have the opportunity to complete a college-level mathematics or quantitative reasoning course in one year or less regardless of their initial MATH course placement. The developmental mathematics sequence offers a standalone course that covers developmental algebra (MATH 82X) as well as co-requisite learning community companion courses (QM 78, MATH 78, MATH 78B, and MATH 88) that support and accompany introductory college-level mathematics and quantitative reasoning courses. Many of these courses are offered in an Emporium Redesign Format which allows instructors to tailor explanations to each individual student and provide one-on-one assistance on demand during scheduled class times. Students are encouraged to enroll and complete a college-level mathematics or quantitative reasoning course in their first year.

Each developmental mathematics course is integrated into one of three tracks: College Math Track, College Algebra Track, and Quantitative Methods Track. Each track is based on a student's intended or declared program or major.

### **College Math Track**

- MATH 78 (College Math Companion), when scheduled as a learning community with a section of one of the following:
  - MATH 100\* (Survey of Mathematics, FQ)
  - MATH 115\* (Introduction to Statistics and Probability, FQ)
- MATH 78B (College Math Companion B), when scheduled as a learning community with a section of one of the following:
  - MATH 100\* (Survey of Mathematics, FQ)
  - MATH 111\* (Math for Elementary Teachers I)
  - MATH 115\* (Introduction to Statistics and Probability, FQ)

### **College Algebra Track**

- MATH 82X (Expanded Algebraic Foundations), a standalone developmental algebra course that meets the prerequisite to MATH 103 (College Algebra, FQ)
- MATH 88\* (College Algebra Companion), when scheduled as a learning community with MATH 103\* (College Algebra, FQ)

### **Quantitative Methods Track**

- QM 78\* (Quantitative Methods Companion), when scheduled as a learning community with QM 107C\* (Quantitative Methods in AMT)

\*Corequisite learning communities are scheduled to meet anticipated student enrollment. Consequently, it is not assured that every possible pairing of a developmental companion course with a transfer-level course will be offered as a learning community in every academic term, and not every section of each transfer-level course will be scheduled as a learning community with a corequisite developmental companion course.

## **Developmental English**

Accelerated developmental English courses at Leeward Community College (CC) give students the opportunity to learn and gain integrated reading and writing skills necessary for college-level English 100 in one year or less. All developmental English courses are taught in class and are offered in the day and evening to foster student engagement and academic support.

All new students will be assessed for their readiness for college-level English. Students will be placed into one of the following courses: ESL 92, ESL 94, ENG 24, ENG 16, ENG 100/ENG 22 (ALP), ENG 100, or ENG 100E (for multilingual writers).

The accelerated developmental English course options include:

1. ENG 16, "Fundamentals of Reading and Writing." After successfully completing ENG 16, students can advance to the Transitional English Pathway (TEP) paired ENG 22/100 course. The first hour of the TEP, ENG 22, is used as preparation for the second hour, which is ENG 100.
2. ENG 24, "Reading, Reasoning, and Writing." After receiving credit in ENG 24,

students can advance to ENG 100.

3. ENG 22 and ENG 100 paired. The Accelerated Learning Program (ALP) pairs two writing courses, in which the first class hour focuses on ENG 100, college-level composition, and the second-hour practices ENG 22 writing skills.

## Distance Education

Distance Education offers the opportunity to take college courses without having to come to campus or to significantly cut down on the trips you have to make. DE allows you to have the flexibility to reach your academic goals while remaining connected to your personal and professional life. If work or family schedules conflict with on-campus classes, you don't have to give up important responsibilities to pursue an education. While most DE courses are structured asynchronously (i.e. online not-in-live-time), some may require synchronous (i.e. online in-live-time) participation. Depending upon the course, the instructor may use various media and methods of communication.

Leeward CC is approved by the Accrediting Commission for Community and Junior Colleges (ACCJC) to deliver its degree and certificate programs via Distance Education.

For more information go to: <https://www.leeward.hawaii.edu/distance-education>.

## English As a Second Language

The mission of the English as a Second Language (ESL) Program is to provide high-quality English language instruction that supports English learners in achieving their goals. The ESL Program offers English classes for all levels of learners—beginning, intermediate, and advanced.

The ESL Program helps students to prepare for a degree at Leeward Community College or to transfer to a four-year college or university. Students will have the opportunity to improve their language skills (Reading, Writing, Speaking, Listening, Grammar, and Vocabulary) for personal or professional purposes.

In addition to classroom instruction in the English language and study skills, peer tutoring in the Writing Center and personal conferences with an ESL instructor are offered at all levels of this program. For more information, please visit: <https://www.leeward.hawaii.edu/esl>.

# Degrees & Certificate Information

## About Degrees & Certificates

### **Associate in Arts ([AA](#)) Degree**

A general and pre-professional education degree, consisting of at least 60 baccalaureate-level semester **Credits**, which provides students with skills and competencies essential for successful completion of a baccalaureate degree. The issuance of an AA degree requires that the student's work has been evaluated and stated outcomes have been met. The issuance of an AA degree requires that the student must earn cumulative 2.0 GPA or better for all courses used to meet the degree requirements. AA degrees may be offered in areas of study (e.g., Liberal Arts, Hawaiian Studies).

### **Associate in Science ([AS](#)) Degree**

A degree designed to prepare students for employment in career and technical fields, and/or transfer to a baccalaureate granting institution in a science, technology, engineering, mathematics or other articulated baccalaureate-level programs of study. The AS degree consists of at least 60 semester **Credits**, which provides students with either skills and competencies for gainful employment, or with courses in the arts and sciences or career and technical education that will prepare students for entry into an articulated baccalaureate program of study. All courses applicable for the AS degree will be at the baccalaureate level. The issuance of an AS degree requires that the student's work has been evaluated and stated outcomes have been met. The issuance of an AS degree requires that the student must earn cumulative 2.0 GPA or better for all courses used to meet degree requirements.

### **Associate in Applied Sciences ([AAS](#)) Degree**

A career and technical education degree, consisting of at least 60 semester **Credits**, which provides students with skills and competencies for gainful employment in a Career and/or Technical Education (CTE) area. The AAS degree is not intended or designed for transfer directly to a baccalaureate program. AAS programs may, however, include some baccalaureate-level course offerings. Components of General Education included within the AAS must be consistent with levels of quality and rigor appropriate to higher education. The issuance of an AAS degree requires that the student's work has been evaluated and stated outcomes have been met. The issuance of an AAS degree requires that the student must earn a cumulative 2.0 GPA or better for all courses used to meet degree requirements.

### **Certificate of Achievement ([CA](#))**

A college credential for students who have successfully completed designated medium-term career and technical education credit course sequences which provide them with entry level skills or job upgrading. These course sequences shall be at least 24 credit hours, but may not exceed 51 credit hours (unless external employment requirements exceed this number). Appropriate to the CTE program, this certificate

may include General Education courses that meet industry requirements. The issuance of this certificate requires that the student's work has been evaluated and stated outcomes have been met, and requires that the student must earn a cumulative 2.0 GPA or better for all courses required in the certificate.

### **Certificate of Competence (CO)**

A college credential for students who have successfully completed a sequence of career-technical education courses within a Board of Regents-approved CTE program that has been identified as fulfilling an employable set of skills recognized by Business and Industry. The issuance of this certificate requires that the student's work has been evaluated and stated outcomes have been met. The issuance of this certificate requires that the student's work meets or exceeds competencies necessary for employment. Credit course sequences shall be at least four and less than 24 credit hours and may include General Education courses appropriate to industry requirements. In a credit course sequence the student must earn a cumulative 2.0 GPA or better for all courses required in the certificate.

### **Certificate in Applied Forensic Anthropology (CAFA)**

The CAFA is a joint program offered by Leeward Community College and University of Hawai'i–West O'ahu. The Certificate is awarded by University of Hawai'i West-O'ahu (UHWO) upon the completion of all requirements. The CAFA program is designed to provide a strong background in forensic anthropology, which uses standard scientific techniques to identify human remains and assist in the detection of crime. This certificate, in combination with appropriate Associate and Bachelor's degrees, will help make students competitive for a variety of job opportunities, including crime scene analyst, forensic anthropologist, forensic scientist, and crime lab technician.

### **Advanced Professional Certificate (APC)**

A college credential for students who have successfully completed the associate-level degree, or designated medium-term credit/non-credit career-technical education courses, or the equivalent which has provided the student with skills and competencies for gainful employment beyond entry-level positions. The certificate is designed for transfer directly into a baccalaureate program or for industry professionals seeking industry/occupation-specific skills. Credit course sequences shall be at the upper-division course level and contain at least 18 and no more than 30 credit hours. The issuance of an APC requires that the student's work has been evaluated and stated outcomes have been met. The issuance of an APC requires that the student must earn a cumulative 2.0 GPA or better for all courses required in the APC.

### **Academic Subject Certificate (ASC)**

A supplemental college credential for students enrolled in an AA program or unclassified students already holding an Associate, Bachelor, or Graduate level credential and who have successfully completed a focused, specific sequence of credit courses from the AA curriculum. The sequence must fit within the structure of the AA degree, may not extend the **Credits** required for the AA degree, and shall be at least 12 credit hours. The issuance of an ASC requires that the student's work has

been evaluated and stated outcomes have been met. The issuance of the ASC requires that the student must earn a cumulative 2.0 GPA or better for all courses required in the certificate. Students enrolled solely for the purpose of obtaining an ASC will be identified as unclassified for admission and enrollment purposes.

## Notes

- Application for Degree/Certificate: To be awarded a degree/certificate from the College it is recommended that students schedule a "Grad Check" appointment with a counselor and submit an "Application for Degree/Certificate" by the appropriate deadline.
- Students that wish to purchase a diploma and diploma cover can indicate this when completing the "Application for Degree/Certificate". A non-refundable \$15 fee is required for each diploma cover.
- IMPORTANT: All degrees and certificates require a cumulative 2.0 GPA or better for all courses used to meet the degree or certificate requirements. Transfer coursework is not calculated into the GPA.
- To graduate with a degree from Leeward Community College (CC), a student must have earned a minimum of 12 **Credits** of program courses in the degree/major at Leeward CC.
- To graduate with a certificate from Leeward CC, a student must have earned a minimum of twenty percent (20%) of program courses in the certificate/major from Leeward CC.
- Courses Completed at other Accredited College & Universities: Courses completed at other accredited colleges and universities with a grade of "D" or better may be transferable toward a Leeward CC degree. Some programs may require a grade of "C" or better. Upper division courses (numbered 300 or higher under the University of Hawai'i (UH) System's course numbering system) may be applied to no more than 20% of the Leeward CC's degree or certificate.

# Philosophy for General Education Requirements

General education provides students the opportunity to develop understandings, abilities, values, and attributes which enable them to apply their knowledge, skills, and talents to make judicious decisions and to analyze and solve human problems within a multi-cultural community.

General education is that part of education which encompasses the common knowledge, skills, and attitudes needed by each individual to be effective as a person, a family member, a worker, and a citizen. General education is integrated with, but different in emphasis and approach from special training for a job or a profession. Further, general education for the career technical associate degree student should not be confused with liberal education for a baccalaureate student.

General education should allow a student to gain a more integrated view of knowledge, a more realistic view of life and a more defined sense of community and social responsibility. Because of the belief that knowledge leads to actions, students should be actively engaged in learning. This holistic point of view provides the student a foundation of lifelong learning in a changing world.

## Associate in Arts Degree

### 60 Credits

1. Minimum cumulative grade-point average: 2.0 GPA or better for all courses used to meet the degree requirements. Transfer coursework is not calculated into the GPA.
2. **60 Credits**, all in courses numbered 100 or above.
3. A maximum of 48 transfer **Credits** earned at other colleges may be applied towards the degree.
4. The **60 Credits** are composed of:
  - a. 31 **Credits** in General Education Core requirements (12 **Credits** in Foundation, 19 **Credits** in Diversification)
  - b. 29 **Credits** of Electives
  - c. Graduation Requirements (Focus Requirements)
5. A minimum of 12 **Credits** of courses number 100 or above must be earned at Leeward Community College (CC).

### Foundations Requirements: 12 Credits

- 3 **Credits** in Written Communication (FW)
- 3 **Credits** in Quantitative Reasoning (FQ) or Symbolic Reasoning (FS).

*Students entering Fall 2018 and thereafter must take FQ.*

- 6 **Credits** in Global Multicultural Perspectives (FG)

Foundations courses are intended to give students skills and perspectives that are fundamental to undertaking higher education. Courses taken to fulfill the Foundations requirement may not be used to fulfill Diversification or Focus requirements. Only courses taken after they have an official Foundations designation (FW, FS, or FG) will

count as meeting the Foundations requirement. To enroll in a course that meets the Foundations requirement, students must first meet the **Prerequisites**, if any. Approved Courses are listed on the [Foundation Requirements](#) page.

### **Written Communication (FW): 3 Credits**

Written Communication courses introduce students to the rhetorical, conceptual, and stylistic demands of writing at the college level; courses give instruction in composing processes, search strategies, and composing from sources. These courses also provide students with experiences in the library and on the internet and enhance their skills in accessing and using various types of primary and secondary materials.

### **Symbolic Reasoning (FS): 3 Credits**

### **or Quantitative Reasoning (FQ) 3 Credits**

*Students admitted prior to Fall 2018 and who have not had a break in enrollment in the University of Hawai'i (UH) system can select FS or FQ; students entering Fall 2018 and thereafter must take FQ.*

Symbolic Reasoning or Quantitative Reasoning courses expose students to the beauty and power of formal systems, as well as to their clarity and precision; courses will not focus solely on computational skills. Students learn the concept of proof as a chain of inferences. They learn to apply formal rules or algorithms; engage in hypothetical reasoning; and traverse a bridge between theory and practice. In addition, students develop the ability to use appropriate symbolic techniques in the context of problem-solving and to present and critically evaluate evidence.

### **Global and Multicultural Perspectives (FG): 6 Credits**

Global and Multicultural Perspectives courses provide thematic treatments of global processes and cross-cultural interactions from a variety of perspectives. Students will gain a sense of human development from prehistory to modern times through consideration of narratives and artifacts of and from diverse cultures. At least one component of each of these courses will involve the indigenous cultures of Hawai'i, the Pacific, or Asia. To satisfy this requirement, students must take six **Credits**; the six **Credits** must come from two different groups. See the [Foundation Requirements](#) page for groups A, B, and C.

### **Diversification Requirements: 19 Credits**

- 6 cr. in Arts, Humanities, and Literatures (DA, DH, DL)
- 6 cr. in Social Sciences (DS)
- 7 cr. in Natural Sciences (DB, DP, DY; 2 courses and 1 lab)

The Diversification requirement is intended to assure that every student has a broad exposure to different domains of academic knowledge, while at the same time allowing flexibility for students with different goals and interests. To enroll in a course

that meets the Diversification requirement, students must first meet the **Prerequisites**, if any. Some courses that satisfy the Diversification requirement may also simultaneously satisfy Focus requirements. (See a counselor for "Requirements that may be Double-Dipped.") Approved courses are identified in this Catalog on the [Diversification Requirements](#) page. They are also indicated by designations after the course **Description**.

### **Arts, Humanities, and Literatures (DA, DH, DL): 6 Credits**

To satisfy this requirement, students must take six **Credits** from two separate sub-categories. Each course must be taken from a different discipline. Arts area courses are designated "DA," Humanities area courses as "DH," and Literatures area courses as "DL" in the course **Descriptions** of this Catalog.

### **Social Sciences (DS): 6 Credits**

To satisfy this requirement, students must take six **Credits** from two different disciplines. Approved courses are identified in this Catalog with the letters "DS" after the course **Description**.

### **Natural Sciences (DB, DP, DY): 7 Credits**

To satisfy this requirement, students must take two courses and a lab for a total of seven **Credits**. The three courses must include a biological science (DB), a physical science (DP) and a laboratory (DY) course; one of the courses must have a matching lab class. Course numbers with an "L" are separate lab courses. Some DB and DP courses have a lab embedded. Approved courses are identified in this Catalog with the appropriate letters after the course **Description**. Designations are: "DB" for Biological science courses, "DP" for physical science courses and "DY" for laboratory courses.

### **Graduation Requirements**

Focus Requirements (5 courses)

- 1 course: Contemporary Ethical Issues (ETH)
- 1 course: Hawaiian, Asian, & Pacific Issues (HAP)
- 2 courses: Writing Intensive (WI)
- 1 course: Oral Communication (OC)

#### **Focus Requirements**

The Focus requirements identify important additional skills and discourses necessary for living and working in diverse communities. Only Focus courses taken after they have received official designation can count as meeting the Focus requirement. Focus courses are not shown in this Catalog but appear in each semester's [Class Availability](#) listing. Because the approved Focus courses may change each semester, students should consult the College's up-to-date online course listing before they register.

**Contemporary Ethical Issues (ETH): 1 course**

These courses are designed to give students tools for the development of responsible deliberation and ethical judgment. Courses fulfilling this requirement are offered in departments across the curriculum. Approved sections are identified in the College's Class Availability with an "ETH" on the left-hand column and the letter "E" preceding the title; offerings vary each semester. Courses designated "ETH" fulfill the E-focus requirement at Leeward CC, but not at UH Mānoa. UH Mānoa requires a 300-level E-focus course for graduation. All approved E-focus courses from UH Mānoa, University of Hawai'i West O'ahu (UHWO), or any community college, will meet the Leeward CC E-focus graduation requirement.

**Hawaiian, Asian, and Pacific Issues (HAP): 1 course**

These courses focus on issues in Hawaiian and Asian or Pacific cultures and history; they promote cross-cultural understanding between nations and cultures. Courses fulfilling this requirement are offered in departments across the curriculum. Approved sections are identified in the College's [Class Availability](#) with a "HAP"; offerings vary each semester.

**Writing Intensive (WI): 2 courses**

Because writing helps students both to learn and to communicate, Leeward CC requires students to take two writing intensive courses. Small writing intensive classes, in which instructors work with students on writing related to course topics, are offered in various disciplines. Students need to satisfy the Written Communication "FW" requirement with a grade of C or better before they enroll in writing intensive courses. Approved sections are identified in the College's [Class Availability](#) with a "WI"; offerings vary each semester.

**Oral Communication (OC): 1 course**

These courses will give students explicit training, in the context of the class, in oral communication concerns relevant to the assignment or activity. Courses fulfilling this requirement are offered in departments across the curriculum. Approved sections are identified in the College's [Class Availability](#) with an "OC" on the left-hand column and the letter "OC" preceding the title; offerings vary each semester. Courses designated "OC" fulfill the OC Focus requirement at Leeward CC, but not at UH Mānoa. UH Mānoa requires a 300 level OC-Focus course for graduation. All approved OC-Focus courses from UH Mānoa, UHWO, or any community college, will meet the Leeward CC OC-Focus graduation requirement.

## **Associate in Science Degree**

60 to 67 **Credits** depending upon the field of study

1. Minimum cumulative grade-point average: 2.0 GPA or better for all courses used to meet the degree requirements. Transfer coursework is not calculated into the GPA.
2. Minimum Program requirements:
  - a. Courses required by major program.
  - b. General education or liberal arts courses required by the college or

- program. Specific requirements are listed in each program section.
- c. Electives as needed to meet the total credit hours requirement.
- d. Proficiency in written and/or oral communication and/or mathematics usually met by successful completion of course identified by the program.
- 3. A minimum of 12 credit hours in the major subject area (such as Accounting, Digital Media etc.) must be earned at Leeward Community College (CC). This residency requirement may be waived for cause at the option of the Vice Chancellor for Academic Affairs or appropriate Academic Dean. The Vice Chancellor or Dean may also (at their discretion) approve use of credit-by-examination to meet residency requirements.
- 4. All of the total credit hours required must be at the baccalaureate level in courses numbered 100 or above

### **Notes**

Exceptions to the residency requirement may be approved for cause by the Vice Chancellor for Academic Affairs or appropriate Academic Dean. The Vice Chancellor or Dean may also approve use of credit-by-examination to meet residency requirements for the Certificate of Achievement.

## **Associate in Applied Science Degree**

60 to 67 **Credits** depending upon the field of study

1. Minimum cumulative grade-point average: 2.0 GPA or better for all courses used to meet the degree requirements. Transfer coursework is not calculated into the GPA.
2. Minimum Program requirements:
  - a. Courses required by major program.
  - b. General education or liberal arts courses required by the college or program. Specific requirements are listed in each program section.
  - c. Electives as needed to meet the total credit hours requirement.
  - d. Proficiency in written and/or oral communication and/or mathematics usually met by successful completion of courses identified by the program.
3. A minimum of 12 credit hours in the major subject area (such as Automotive) must be earned at Leeward CC. The residency requirement may be waived for cause at the option of the Vice Chancellor for Academic Affairs or appropriate Academic Dean. The Vice-Chancellor or Dean may also (at their discretion) approve use of credit-by-examination to meet residency requirements.

### **Notes**

Exceptions to the residency requirement may be approved for cause by the Vice Chancellor for Academic Affairs or appropriate Academic Dean. The Vice Chancellor or Dean may also approve use of credit-by-examination to meet residency requirements for the Certificate of Achievement.

### **Notes**

The general education requirements for the Associate in Science and Associate in Applied Science degrees vary depending on the demands of the specific degree. A list of specific requirements for each degree program is included in the Program Section. Please consult with a faculty program advisor or counselor for details. Use this listing to select courses to complete the general education electives for some of the Associate in Science or Associate in Applied Science degrees. Not applicable to the Associate in Arts degree.

## **General Education - Foundations and Diversification Requirements**

### **Foundations Requirement**

For the list of approved Foundation courses, see: <http://www.hawaii.edu/offices/app/aa/afc/>

Foundations courses are intended to give students skills and perspectives that are fundamental to undertaking higher education. Only courses taken after they have an

official Foundations designation (FW, FS, FQ or FG) will count as meeting the Foundations requirement.

To enroll in a course that meets the Foundations requirement, students must first meet the **Prerequisites**, if any. Some courses that satisfy a Focus requirement may also simultaneously satisfy Diversification and/or Writing Intensive requirements. (See a counselor for "Requirements that may be Double-Dipped.")

### **Diversification Requirement**

For the list of Diversification courses, see: <https://sites.google.com/a/hawaii.edu/leeward-cc-diversification-board/list-of-diversification-courses>

The Diversification requirement is intended to assure that every student has a broad exposure to different domains of academic knowledge, while at the same time allowing flexibility for students with different goals and interests.

To enroll in a course that meets the Diversification requirement, students must first meet the **Prerequisites**, if any. Some courses that satisfy the Diversification requirement may also simultaneously satisfy Focus requirements. (See a counselor for "Requirements that may be Double-Dipped.")

### **Academic Probation**

- If during the term the student is on Academic Warning, the student fails to earn a term GPA of 2.0 or higher, the student will be placed on Academic Probation for the following term.
- During the term the student is on Academic Probation, if the student earns a cumulative GPA of 2.0 or higher, the student will be restored to good academic standing the following term.
- A student will remain on Academic Probation status if the cumulative GPA is below a 2.0, but term GPA is 2.0 or higher. A student on Academic Probation will be required to meet with a counselor.

### **Academic Suspension**

- If during the term the student is on Academic Probation, the student fails to earn a term GPA of 2.0 or higher, the student will be placed on Academic Suspension the following term.
- A student who has been suspended is prohibited from enrolling in any credit courses for one term at the College. If the student has pre-registered for an upcoming term, the student will automatically be dropped from their Leeward Community College classes.
- The student will receive a 100% refund of tuition and fees.
- The student may reapply for admission after the suspension period and will be readmitted on "Probation after Suspension" status (see next section).

### **Academic Probation after Academic Suspension (Probation after Suspension)**

- Students on, or readmitted on, Academic Probation after Academic Suspension status will be required to meet with a counselor to discuss and secure approval for courses to be taken that term. The probationary student may not register or add/drop courses until the student meets with a counselor.
- If, during the “Probation after Suspension” term(s), the student earns a cumulative GPA of 2.0 or higher, the student will be restored to good academic standing the following semester.
- If, during the “Probation after Suspension” term(s), the cumulative GPA is below a 2.0, but term GPA is 2.0 or higher, the student will remain on “Probation after Suspension” status.
- If, during the “Probation after Suspension” term(s), the student fails to earn a term GPA of 2.0 or higher, the student will be placed on Academic Dismissal (see next section).

### **Academic Dismissal**

- If the student readmitted to the College on “Probation after Suspension” fails to earn a term GPA of 2.0 or higher, the student will be placed on Academic Dismissal.
- A student who has been dismissed is prohibited from enrolling in any credit courses offered by the College for the next two consecutive terms. If the student has pre-registered for an upcoming term, the student will automatically be dropped from their Leeward Community College classes. The student will receive a 100% refund of tuition and fees.
- The student will be eligible to reapply for admission after the dismissal period and will be readmitted on Academic Probation after Dismissal status. See the next section for required steps.

### **Academic Probation after Academic Dismissal (Probation after Dismissal)**

- Students on, or readmitted on, Academic “Probation after Dismissal” status will be required to meet with a counselor to discuss and secure approval for courses to be taken that term. The probationary student cannot register or add/drop courses until the student meets with a counselor.
- If, during the “Probation after Dismissal” term(s), the student earns a cumulative GPA of 2.0 or higher, the student will be restored to good academic standing the following term.
- If, during the “Probation after Dismissal” term(s), the cumulative GPA is below a 2.0, but term GPA is 2.0 or higher, the student will remain on “Probation after Dismissal” status.
- If, during the “Probation after Dismissal” term(s), the student fails to earn a term GPA of at least 2.0 or higher, the student will be permanently dismissed from the College.

The College will inform, in writing, any student who is not making satisfactory academic progress as soon as practicable after term grades have been reviewed and

the appropriate action has been taken.

When a student has been placed on Academic Probation, Academic Suspension, or Academic Dismissal, such action will be permanently indicated on the student's academic record (transcript).

A student placed on Academic Suspension or Academic Dismissal status may appeal the action by filing a written appeal with the Dean of Student Services or designee no later than 10 calendar days after the date of the written notice from the College. The appeal must include a brief outline of the reasons why the appeal should be granted. The decision of the Dean of Student Services or designee on the appeal will be final. Students on Academic Warning, Academic Probation, Academic Suspension, or Academic Dismissal are not eligible to graduate. For students on UAP seeking to graduate in the summer: if, upon GPA recalculation after summer grades are posted they achieve a cumulative Leeward GPA of 2.0 or higher, the student will be restored to good academic standing and their graduation eligibility will be reinstated.

### **Responsibilities**

Admissions and Records track student grade point averages, inputs academic action on student records, and inform students that have UAP status.

Counseling and Advising provide students with accurate information about the impact of being placed on UAP, recommends appropriate courses to take in subsequent semesters, and removes probation holds on accounts for students on probation, suspension, and dismissal.

Students may be required to meet different standards of satisfactory academic progress in order to remain eligible to receive Federal Financial Aid or VA educational benefits at Leeward Community College.

### **\*Footnote:**

*Satisfactory Academic Progress (SAP): Is an academic progress standard set by the U.S. Department of Education and used by Financial Aid Offices to determine students' eligibility for federal financial aid. Students receiving financial aid must maintain a minimum cumulative GPA of 2.0 and successfully complete 67 percent of all **Credits** attempted. Students must also complete their degree program within 150 percent of the **Credits** required for their degree program. Failure to do so may result in students being deemed ineligible to receive aid. Students on financial aid suspension may still take classes at the college but will need to finance them in another way.*

*Being placed on Financial Aid Probation and Financial Aid Suspension due to SAP is not the same as being placed on Academic Probation and Academic Suspension via the College's Unsatisfactory Academic Progress Policy (UAP).*

*Additionally, the academic progress standards used to determine eligibility for federal student aid is also separate and distinct from the academic progress standards used to determine eligibility for VA benefits.*

## **Withdrawal from a Course**

Students must initiate the process of withdrawing from a course; an instructor cannot drop a student from a course except through Participation Verification criteria. To withdraw from a course, students must enter their MyUH account to drop the course and pay any applicable fees. If you are also enrolled in courses at other University of Hawai'i (UH) campuses, drop those courses using your MyUH account.

Deadlines for refunds, the erase period and withdrawal from semester-long courses are published in the Class Availability section of the College's website. Selected dates are also published in the Academic Calendar. A student who does not attend class and does not officially withdraw from the class may receive the grade of "F" for the class.

## **Withdrawal from a Course After the Erase Period**

Students who withdraw from individual courses after the erase period but before the withdrawal deadline will receive a "W" grade for those courses. The withdrawal deadline is the end of the tenth week of classes for semester-long courses (and an equivalent period for part of term courses as determined by the appropriate academic Dean).

# **Degrees and Certificates**

## **Accounting**

### **Accounting (Certificate of Achievement (CA))**

#### **Description**

This certificate is designed to prepare the student for entry-level accounting positions such as accounts receivable, accounts payable, payroll, inventory, and bookkeeping. We emphasize our students' development in the areas of transaction analysis, communication skills, and computer applications. Our accounting certificates and AS program provide a solid foundation for any business career in government or private industry.

#### **Program Learning Outcomes**

1. Perform basic accounting tasks, and maintain accurate accounting systems including the preparation of financial statements.
2. Access, analyze, and interpret information to make judgments and to solve basic business problems.
3. Complete work tasks to meet deadlines and schedules.
4. Prepare payroll reports in accordance with wage and salary, payroll tax, and Hawai'i's general excise tax laws.
5. Use appropriate software to complete accounting tasks.

## **Program Requirements**

In order to earn the CA-ACCT degree, students must pass all required accounting (ACC) courses with a grade of "C" or better.

The certificate consists of general education courses, including oral and written communications, general business courses to provide a strong business foundation, and specific accounting courses to prepare students for entry-level jobs in bookkeeping and accounting. Admission and counseling is consistent with other programs at the college. (No special admission requirements.)

### **Core Requirements: 18 credits**

- ACC 124\* Principles of Accounting I (3), and ACC 125\* Principles of Accounting II (3), or ACC 201\* Intro to Financial Accounting (3), and ACC 202\* Intro to Managerial Accounting (3)
- BUS 101 Business Information Systems (3) or ICS 101 Digital Tools for the Information World (3)
- ACC 252 Using Quickbooks in Accounting (3)
- ACC 132 Payroll & Hawai'i GE Taxes (3)
- BUS 120 Principles of Business\*\* (3)

### **General Education Requirements: 9 credits**

- BUSN 188\*\* Business Calculations or MATH 103\*\*\* College Algebra or BUS 250\*\*\*Applied Mathematics in Business or MATH 115\*\*\*Introduction to Statistics and Probability, or higher (3)
- SP 151 Personal and Public Speech or SP 251 Principles of Effective Public Speaking (3)
- ENG 100 Composition I or equivalent (3)

### **Elective\*\*\*\* requirements: 3 credits**

### **Total Certificate Credits 30**

#### **NOTES:**

Please see an Academic Advisor for help in choosing ACC 124 or ACC 201 and BUSN 188, MATH 103, MATH 115 or BUS 250.

\* Combination of Introductory Accounting courses:

For Certificate of Achievement:

ACC 124 and ACC 125, or  
ACC 201 and ACC 202

For Associate in Science:

ACC 201 and ACC 202, or  
ACC 124, ACC 125 and ACC 202

\*The sequence of ACC 124, 125 and 202 is equivalent to the sequence of ACC 201 and 202 and vice versa. Therefore, credit will not be given for both sequences. A student who has completed ACC 124 or ACC 125 may not use ACC 201 as an elective for any AS, AA or AAS degree. Similarly, a student who has completed ACC 201 may not use ACC 124 and ACC 125 as an elective for any AS, AA or AAS degree. Note: University of Hawai'i at

Mānoa will only accept credit for the combination of ACC 201 and ACC 202 or ACC 124, ACC 125 and ACC 202 taken from the same UHCC.

## **Accounting (Academic Subject Certificate (ASC))**

### **Description**

The Academic Subject Certificate, Accounting is designed to provide workforce skills to Liberal Arts students while earning their AA degree. Students taking these courses will also be able to enter the workforce after receiving their certificate and can continue to work while pursuing a bachelor's degree. In addition, students interested in exploring accounting as a possible major at a four-year institution can take these courses as electives while earning their AA liberal arts degree.

### **Program Learning Outcomes**

1. Perform basic accounting tasks and maintain accurate accounting systems including the preparation of financial statements.
2. Access, analyze, and interpret information to make judgments and to solve basic business problems.
3. Use appropriate software to complete accounting/bookkeeping tasks.
4. Interact with customers, vendors, and co-workers in ways that effectively support the work to be accomplished with customer satisfaction.

### **Program Requirements**

Students earning the Academic Subject Certificate in Accounting will be working towards an AA liberal arts degree. Leeward's AA liberal arts degree requires a total of 60 credits including 29 elective credits.

Students would target their electives to the courses specified in the Academic Subject Certificate in Accounting. The courses include customer service and accounting classes. The customer service course provides basic skills required of anyone planning to work in an office-based workplace. Additionally, our Accounting Advisory Board has recommended as many accounting skills classes as possible. Students would take ACC 201 and ACC 202 which are the conceptual classes for Financial and Managerial Accounting. Both courses would be required of any student continuing on for a four-year degree in business. Finally, students would choose two courses from a list of four skill-based accounting

courses. These courses give students hands-on experience in accounting functions.

Any student meeting the prerequisites for the courses would be admitted into the program. No new courses are being created. The certificate would use the same admission and counseling resources as other programs.

The following are the requirements for the Academic Subject Certificate in Accounting.

MGT 121 Service Excellence (3)

Accounting Core Requirement (6 - 9)

ACC 201\* Intro to Financial Accounting (3) and ACC 202 Managerial Accounting (3)

or

ACC 124\* Principles of Accounting (3), ACC 125\* Principles of Accounting II (3), and ACC 202 Managerial Accounting (3)

Electives

## Business Technology (Academic Subject Certificate (ASC))

### Description

The Academic Subject Certificate in Business Technology will provide Associate in Arts students with an opportunity to focus their elective studies on acquiring business technology skills. Students interested in exploring business or business education as possible majors at four-year institutions can take these courses while earning their AA degree. Students also will have the opportunity to show potential employers they have business technology skills improving their chances of getting a job. Students holding this certificate will also be able to present themselves as receiving specialized training in business technology, which will greatly enhance their employment potential and admission into four-year business programs.

### Program Learning Outcomes

1. Provide students with skills and competencies essential for successful completion of a baccalaureate degree.
2. Identify and respond to customer needs by applying professional behaviors and ethical standards in the workplace.
3. Use appropriate technological tools to research, prepare, process, and communicate information and data to solve problems.
4. Manage and maintain an effective office environment.
5. Use business mathematics/accounting procedures to process basic financial transactions.
6. Work in a business environment recognizing one's role in world community issues with a respect for diverse cultures and differing worldviews while embracing a sense of pride in one's own regional values and historical heritage.
7. Explore various career opportunities in the business community.
8. Maintain proficiency in business technology by participating in on-going professional development in the business community.

### Program Requirements

a. According to the guidelines detailed in UHCCP 5.203, the Associate degree requirements and the Academic Subject Certificate, the general education credits and 19 Business Technology course requirements account for the total required credits for the AA degree with Academic Subject Certificate in Business Technology.

b. These courses already exist and are taught at Leeward CC as part of the certificates and degrees in the Business Technology Program. It would use the same admission and counseling resources as other programs.

## Digital Media Production

### Creative Media (Academic Subject Certificate (ASC))

#### Description

The Academic Subject Certificate in Creative Media is designed for students who plan to earn a bachelor's degree in Animation and Computer Games or Interactive Media. The Certificate provides creative individuals with the art and design training needed to explore and express ideas using leading-edge technology as well as interactive scripting. The certificate provides a balance of technical skills and aesthetic development culminating in a portfolio building project targeted to the student's chosen specialization.

#### Program Learning Outcomes

1. Develop critical thinking and problem-solving skills for project planning and use of necessary collaborative skills.
2. Apply the principles of animation, behavioral animation concepts, timing, movement analysis and dramatic interpretation.
3. Apply scripting techniques to automate and manipulate multimedia.
4. Communicate clearly and concisely visually, verbally, and in writing using techniques appropriate for the intended audience.

#### Program Requirements

Specialization Animation and Computer Games Design and Illustration

2 different courses up to 6 credits from the list below:

- ART 113 Introduction to Drawing 3
- ART 113D Introduction to Computer Drawing 3
- ART 115D Digital Design 3

Animation Production 4 different courses up to 12 credits from the list below

- DMED 122 Web Animation 3
- DMED 140 Principles of Animation 3
- DMED 141 Introduction to 3D Animation 3
- DMED 240 Animation and Special Effects 3
- DMED 242 Character Animation 3
- DMED 243 3D Modeling and Animation 3 Technology
- ICS 111 Introduction to Computer Science I 3

## Digital Art (Academic Subject Certificate (ASC))

### Description

This Academic Subject Certificate in Digital Art encompasses a focus on visual art produced digitally, which emphasizes digital photography.

Program Learning Outcomes

1. Demonstrate artistic and technical quality in designing digital photographic art.
2. Demonstrate skills in art and digital media to prepare for further academic study or the workplace in digital photography.
3. Communicate effectively with customers and co-workers in an organizational setting.

### Program Requirements

The courses are organized to progress the students from introductory to intermediate level competency in Digital Art/Digital Photography. All courses must be completed with a C or better grade.

Core requirement (15 credits total):

ART 101 Introduction to Visual Arts (3 credits)

ART 107D Introduction to Digital Photography (3 credits)

ART 112 Digital Art (3 credits)

ART 207D Intermediate Digital Photography (3 credits)

ART 277D Studio Photography (3 credits)

Electives (one of the following, 3 credits):

ART 115 Introduction to Design (3 credits)

ART 115D Introduction to 2D Digital Design (3 credits)

DMED 131 Introduction to Digital Video (3 credits)

Total including one elective: 18 credits

### Sample Program Plan

## **Digital Media Production (Associate in Science (AS))**

### **Description**

The degree provides individuals with the art and design training needed to explore and express ideas using leading-edge technology and skillsets. Students receive integrated digital media training in one of four specializations: Animation and Motion Graphics, Creative Media, Digital Photography, and Digital Video for the Web. Students become lifelong learners, developing the skills required for a vast array of digital media communications, graphic design, photography, two-dimensional and three-dimensional animation, and video production.

### **Program Learning Outcomes**

1. Utilize critical-thinking and problem-solving skills for digital media projects by planning and using necessary collaborative skills.
2. Communicate in a clear and concise manner using digital media techniques appropriate for the intended audience.
3. Identify and explain digital media standards of professionalism as they pertain to personal and work-related endeavors.
4. Exhibit a portfolio of digital media projects related to the chosen specialization at the conclusion of the Associate in Science degree work.

### **Program Requirements**

#### **DIGITAL MEDIA PRODUCTION (60 Credits)**

All core and specialization courses must be passed with a grade of "C" or better. Students must earn a cumulative 2.0 GPA or better for all required courses.

#### **Core Requirements (12 credits)**

## **Digital Media Production (Certificate of Achievement (CA))**

### **Description**

The certificate is designed to provide the student with entry-level skills or job upgrading for positions under direct supervision in Multi-Media in various specialization areas including Animation and Motion Graphics, Creative Media, Digital Photography, and Digital Video for the Web.

### **Program Learning Outcomes**

1. Create collaborative digital media projects using critical thinking and aesthetic judgments.
2. Demonstrate proficient-level skills using design software necessary to gain entry-level employment in digital media.
3. Communicate clearly and concisely using techniques appropriate for the intended audience.
4. Compile a portfolio of projects at the conclusion of the Certificate of Achievement program.

### **Program Requirements**

The program consists of general education courses, including written communications, as well as courses in Art and Digital Media to provide a basic foundation for entry-level jobs in the creative media industry. Admission and counseling are consistent with other programs at the college. There are no special admission requirements.

All core and specialization courses must be passed with a grade of "C" or better. Students must earn a cumulative 2.0 GPA or better for all required courses.

## **Digital Photography (Certificate of Competence (CO))**

### **Description**

The Certificate of Competence in Digital Photography provides students with both the technical and visual communication skills required for a variety of careers related to photography and imaging. The program combines an understanding of how digital cameras work with the concepts of digital capture, lighting, exposure evaluation, file formatting, image manipulation and composition.

### **Program Learning Outcomes**

1. Produce and process attention-grabbing photos with current electronic photographic tools.
2. Identify complex problems and review related information to develop and evaluate options and implement solutions.
3. Demonstrate proficiency in the use of Digital Photography hardware and software.

## **Program Requirements**

The program is comprised of three courses.  
ART 107D Introduction to Digital Photography  
ART 112 Digital Art  
ART 207D Intermediate Photography

These classes already exist and are taught at Leeward CC on a regular basis. They also form a part of the DMED program requirements. This certificate will use the same admission, advising, and counseling resources as other programs.

## **Digital Video (Certificate of Competence (CO))**

### **Description**

Meet the challenges of real-world video production in a variety of global and local contexts. Students will experience storytelling, shooting, editing, and directing.

Program Learning Outcomes

1. Create video productions that communicate their intended message.
2. Identify complex problems and review related information to develop and evaluate options and implement solutions.
3. Demonstrate proficiency in the use of editing software.
4. Demonstrate proficiency in the use of video cameras.

### **Program Requirements**

The program is comprised of three courses. Students must earn a C or better grade for the required courses.

DMED 150 - Film Analysis and Storytelling (3)  
DMED 126 - Intro to Digital Cam Operation, Composition, and Lighting Principles (3)  
DMED 151 - Intro to Film and Video to Editing Principles (3)

Total Credits: 9

These courses form a part of the DMED program requirements. This certificate will use the same admission, advising, and counseling resources as other programs.

## **Graphic Design (Certificate of Competence (CO))**

### **Description**

The Certificate of Competence in Graphic Design provides students with training in practical, technical and theoretical skills used by graphic arts and allied industries in the areas of publication and print promotion.

Program Learning Outcomes

1. Design attention-grabbing communication graphics to meet specific commercial or promotional needs, such as packaging, displays, or logos while meeting industry standard specifications.
2. Identify complex problems and review related information to develop and evaluate options and implement solutions.
3. Demonstrate proficiency in the use of Graphic Design software and hardware.

### **Program Requirements**

The program is comprised of three courses.

1. ART 112 - Digital Art
2. ART 113D - Introduction to Computer Drawing
3. ART 221 - Design for Print and Web

These classes already exist and are taught at Leeward Community College on a regular basis. They also form a part of the DMED program requirements. This certificate will use the same admission, advising, and counseling resources as other programs.

## **Motion Graphics (Certificate of Competence (CO))**

### **Description**

The Motion Graphics Certificate of Competence prepares students for a variety of careers in the Multimedia industries. In order to establish a digital literacy core this truly comprehensive certificate starts students out with the basics of 2D and 3D animation to form a digital literacy core. Students build a strong foundation in Digital Art, visual and information design and animation for Film and TV.

Program Learning Outcomes

1. Produce attention-grabbing communication motion graphics for film, television, music videos, and the Web while meeting industry standard specifications.
2. Identify complex problems and review related information to develop and evaluate options and implement solutions.
3. Demonstrate proficiency in the use of motion graphics software and hardware.

### **Program Requirements**

The program is comprised of three courses.

DMED 140 - Principles of Animation

DMED 240 - Animation and Special Effects

DMED 141 - Intro to 3-D Animation & Visual Effects

These classes already exist and are taught at Leeward CC on a regular basis. They also form a part of the DMED program requirements. This certificate will use the same admission, advising, and counseling resources as other programs.

## Education

### Advanced Professional Certificate in Special Education (Advanced Professional Certificate (APC))

#### Description

The Advanced Professional Certificate in SPED is a 19 cr. certificate for those with a bachelor-level degree in any field which leads to recommendation for licensure to teach SPED.

#### Program Learning Outcomes

1. Explain special education policies, procedures and legal requirements regarding students with disabilities.
2. Describe the range and multiple manifestations of disabilities and their effects on social and emotional development, communication skills and oral language development, motor skills, functional and independent living skills, employment-related skills, and self-advocacy skills.
3. Design individualized educational programs that have a repertoire of instructional strategies, accommodations, assessment techniques and procedures that are appropriate for students with disabilities.
4. Explain strategies for collaborating with families and other professionals to further student learning.
5. Identify how to access resources and assistive technologies to support student learning, and to provide transition support to help students maintain continuous progress toward their educational goals.

#### Program Requirements

Admission requirements for the APC in SPED include: bachelor-level degree in any field, 2 letters of recommendation, a personal statement, and contact Christina Keaulana (ctk8@hawaii.edu) for application. To earn an Advanced Professional Certificate, candidates must achieve a GPA of 2.0 or higher and earn at least a C grade for all courses applicable to the certificate.

## **Alternative Certification in Teaching, Track 1 (Certificate of Competence (CO))**

### **Description**

The Certificate prepares candidates to become licensed CTE teachers in secondary (grades 6-12) classrooms. To enter, candidates must possess curricular content knowledge relevant to their Career and Technical Education (CTE) pathway. This is demonstrated through industry experience and/or appropriate academic degrees. This alternative, accelerated teacher preparation program recommends program completers for the State of

Hawai'i teaching licensure in the following fields: Arts and Communications (6-12), Business (6-12), Health Services (6-12), Industrial and Engineering Technology (6-12), Natural Resources (6-12), and Public and Human Services (6-12).

#### Program Learning Outcomes

1. Demonstrate caring practice, professional improvement, ethical decision-making, and compliant behavior.
2. Demonstrate professional practice, behavior, and ethics of a teacher.
3. Collaborate with students, colleagues, schools, and families to support learners.
4. Plan effective curriculum and assessment.
5. Demonstrate effective instructional practice.
6. Use data and assessment to support learning, adapt instruction, and accommodate learner needs.
7. Evaluate teaching and learning practices as a basis for making professional decisions and growth.

#### Program Requirements

All foundational courses are offered online and asynchronous. This accommodates candidates employed in HIDOE classrooms and provides access to candidates statewide. The accelerated Track I program can be completed within three semesters.

Students must pass all courses with a grade of C or better.

#### **Track I - 14 credits** (12 credits of coursework; 2 credits of field practicum)

- *Core Requirement*
  - ED 310A - Classroom Management within the Instructional Process for CTE Teacher Candidates (3)
  - ED 311A - Foundations of Inclusion in Teaching or Foundations of Inclusion in Teaching for CTE Teacher Candidates (3)
  - ED 312A - Educational Psychology or Educational Psychology for CTE Teacher (3)
  - ED 393P - Field Practicum I: Alternative Certification for CTE Teacher Licensure (1)
  - ED 393S - Field Practicum II (1)
- *Electives* (Only one (1) of the following is required)
  - ED 315 - Safety in the CTE Classroom (3) **or**
  - ED 316 - Educational Technology in CTE (3)

The course curriculum utilizes a clinical approach, where assessments in each education course require candidates to demonstrate the practical application of content and pedagogical knowledge. Assessments are driven by Course Learning Outcomes (CLOs) aligned to professional standards and licensure requirements. Candidates will demonstrate proficiency in all focus areas through various means, such as projects, document analysis, development of structures in the classroom environment aligned with professional expectations, standards-based curriculum, lesson planning, case studies, the development of professional portfolios, mentoring, and field practicum experiences all leading to licensure as a career and technical education (CTE) teacher at the secondary level (grades 6-12).

Admission for Track I requires students to complete an application for admittance to Leeward Community College, an application to the program, an intake form for the Teacher Education Program counselor, and to provide all required documentation. Upon successful review of the documentation and admission to the program, the program coordinator will work with the candidate to determine the individual plan for successful program completion (length of time, number of courses per semester).

The practicum experience (taking place over two academic semesters and two courses), ED 393P and ED 393S, requires candidates to meet with a college supervisor a minimum of 5 times at their school placement site. Additional orientation and completion meetings may be required. The meetings focus on the candidate's curricular cycle and needs. They generally include a pre-observation meeting for documentation and expectations, at least one hour of classroom instructional observation, and a debrief meeting. Observations in the field are initially focused on mentoring (ED 393P) and move progressively toward candidate performance of observable outcome measures (ED 393S). Each observation cycle opens with orientation and relationship-building sessions and is capped with a debrief meeting with candidates to ensure they are meeting expectations and prepared for licensure—candidates must complete the exit portfolio in preparation for licensure recommendations.

Candidates hired by HIDOE or another secondary school during the program will complete these requirements in their assigned CTE middle or secondary classroom with the on-site mentoring completed by the Leeward CC College Supervisor, CTE department chair, or other HIDOE/school designee. The Program Coordinator will place all other candidates at their practicum sites, with on-site mentoring provided by the Leeward CC College Supervisor and the Mentor Teacher or other HIDOE/school designee.

## **Culturally Responsive Teaching (Certificate of Competence (CO))**

### **Description**

The goal of this program is to produce culturally responsive teachers versed in Hawaiian and indigenous knowledge, pedagogy and worldview. The CO in Culturally Responsive Teaching (CRT) will provide students with opportunities to pursue positions as

paraeducators or enhance skills for current inservice teachers. The certificate will provide a microcredential and preparation for students planning careers in teaching as well as provide professional development and career advancement for current inservice teachers. ## **Special Education Certificate of Competence II (Certificate of Competence (CO))**

### **Description**

The Special Education Certificate of Competence II is designed to provide more specialized and comprehensive preparation in special education law, IEP development, assessment, educational technology, literacy intervention, and professionalism for those pursuing a teaching degree in special education or wishing to increase their knowledge in the field of special education. The certificate is for candidates who have completed an associate-level degree and includes five 3-credits upper division special education courses and a 1-credit course in either behavior analytic training or professional collaboration. The certificate is not a licensure program in itself, but includes coursework that is part of an official articulation agreement for a 4-year degree leading to SPED teacher licensure.

Program Learning Outcomes

1. Describe special education rules and regulations.
2. Describe ethical codes and related professional standards in special education.
3. Develop Individual Education Programs (IEP) through examination of required elements of IEPs and simulated IEP team scenarios.
4. Identify evaluation procedures, from pre-referral intervention, eligibility/placement/program decision-making to progress monitoring of scientifically-based instructional interventions based on Response to Intervention (RTI).
5. Describe the organizational, personal, and interpersonal aspects of working as a teacher in schools.
6. Identify the preparation required for membership and leadership in a professional learning community and for continuing professional growth.

## Special/Inclusive Education Certificate (Certificate of Competence (CO))

### Description

The Certificate of Competence in Special /Inclusive Education will provide students with opportunities to pursue positions as paraeducators or enhance skills as already certified teachers. Upon completion of the certificate, the student will be able to: Describe characteristics of children with disabilities and developmental milestones for typically developing children. Plan and deliver instruction appropriate to including children with disabilities within the general curriculum. Communicate with parents/guardians using culturally and linguistically diverse strategies to meet students; instructional goals and create individualized education plans (IEP). Apply evidence-based practices (EBPs) to assess student learning, use appropriate instructional strategies for tiered levels of intervention, monitor and report on progress. Establish and maintain a safe learning environment. Describe the appropriate responsibilities related to each member of the multidisciplinary support team and execute ethical practices as a professional. The Special /Inclusive Education Certificate of Competence contains 6 courses for a total of 16 credits. These six classes are taught at Leeward Community College at least once a year and will be offered online and face to face. They also form a part of the AAT program requirements. This certificate will use the same admission, advising, and counseling resources as the AAT programs. Core Content includes: ED 284 Foundation of Inclusion in Teaching (3 credits). This course provides essential knowledge of special education history, law and policies that teachers and paraeducators must comply with in their everyday practice. ED 282 Collaboration and Working in the Multidisciplinary Team (3 credits) focuses on understanding roles and responsibilities in working with special education and related service professionals, which is an essential component in today's inclusive classrooms and a requirement to collaborate with multiple members of the interdisciplinary team for a student's Individual Educational Plan (IEP). ED 282B: Collaboration and Working in the Multidisciplinary Team Lab (1 credit) or ED 143 (formerly ED 298B and ED 281) : RBT

Training Credential (1 credit) equips students to deliver Applied Behavioral Analysis therapy for students with behavioral needs. ED 283 Partnership with Culturally and Linguistically Diverse Families (3 credits) focuses on the skills necessary for working effectively with families of students with disabilities and transition planning. ED 285 Classroom Management (3 credits) will build skills for effectively managing behaviors within the general classroom setting. ED 289 Educational Psychology (3 credits) focuses on developmentally appropriate instructional design and delivery. All six courses in the core content combine both skills and application so that the candidates for the certificate can be well equipped to meet the new demands of today's classroom environment.

**Program Learning Outcomes**

1. Describe characteristics of children with disabilities and developmental milestones for typically developing children
2. Plan and deliver instruction appropriate to including children with disabilities within the general curriculum.
3. Communicate with parents/guardians using culturally and linguistically diverse strategies to meet students' instructional goals and create individualized education plans (IEP).

## Teaching (Associate in Science (AS))

### Description

The Associate in Science in Teaching (AST) degree program seeks to improve equity and access to teacher education for underrepresented groups and non-traditional students. The program seeks to address the critical teacher shortage in the state of Hawai'i by providing quality pre-service teachers who are locally educated and culturally sensitive to schools in their own communities. The degree is considered terminal as graduates are prepared to enter the Hawai'i Department of Education (HIDOE) as highly qualified para-educators (Educational Assistants, Part-time teachers, paraprofessional tutors). The degree is also considered transfer as graduates enter bachelor's degree programs at the university level.

Program Learning Outcomes

1. Analyze and collaborate with learning communities to ensure learner growth and evaluate his/her own effectiveness.

2. Analyze and implement developmentally appropriate instructional and assessment strategies and positive learning environments to ensure growth for all learners and evaluate his/her own effectiveness.
3. Analyze, design, implement, and assess standards-based lesson plans that are contextually, culturally, and technologically relevant to reach all learners and evaluate his/her own effectiveness.
4. Engage in ongoing professional learning and use evidence to continually evaluate practice, particularly the effects of choices and actions on others, and adapt practice to meet the needs of each learner.

## Program Requirements

The Associate in Science in Teaching (AST) degree provides the opportunity for students to jump start their professional teaching career path by offering education courses embedded with field experiences in education which blends theory with practical application.

The AST degree is 62 credit which includes a rigorous core of pre-professional education and general education courses, development and presentation of a teaching portfolio aligned with the Hawai'i Teacher Standards Board standards demonstrating effective teaching practice. *Students must earn a cumulative 2.0 GPR or better for all courses used to meet AS degree requirements. Students must earn a C or better grade for all core ED courses.*

The AST program is designed to be flexible with courses offered statewide via distance learning and in person at the Leeward CC Pearl City and Leeward CC Wai'anae Moku campuses.

The AST program is outlined as follows:

I. Core education courses (13 credits) NOTE: All are offered every semester, in class and on-line.

ED 285 Classroom Management within the Instructional Process (WI) (3 cr)  
 ED 290 Foundations of Education (WI) (3 cr)  
 ED 291 Developing Language and Literacy I (3 cr)

FQ: PHIL 111, or Math 100, 103, 112 or higher (or any approved FQ course) (3cr)

FG: One course from two different groups of approved FG courses (6cr)

A. ANTH 151, ART 175, HIST 151

B. ANTH 152, ART 176, HIST 152, BUSN 277, BUSN 279, GEO 102

C. GEO 151, MUS 107, REL 150

Diversification Arts: 3 credits of any approved Diversification Arts (DA)

Diversification Social Sciences: 3 credits of any approved Diversification Social Sciences (DS), not from the PSY discipline

Diversification Natural Sciences: 3 credits of any approved Diversification Biological Science (DB) 3 credits of any approved Diversification Physical Science (DP) 1 credit of any approved Lab science (DY); the lab must match the DB or DP course

Graduation Requirements (15 credits) ENG 200 (3 cr) HWST 107 (3 cr) PSY 100 (3 cr)  
PSY 240 or HDFS 230 (3 cr) SP 151, 251, or COM 210H (3 cr)

*\* Students pursuing secondary education may opt to choose up to three (3) content courses (9 credits) in their chosen discipline. For example: Math, Science, English, Music, Social Sciences, Art, etc. or a mixture of content courses and ED electives.*

See AST counselor for details. The AST program has a dedicated counselor who meets with students regularly to provide advising and counseling services. Students are encouraged to take at least one to two education courses each semester (along with three to four liberal arts courses). Our counselor also advises students regarding career readiness directing them to Job Prep Services (preparation for applying to the HDOE) and/or transfer options and works with students to develop customized academic and transition plans.

## **Hawaiian Studies (Associate in Arts (AA))**

### **Description**

The Associate in Arts in Hawaiian Studies (AAHS) provides a focused pathway for students pursuing an AA degree and transferring to a Hawaiian Studies or other baccalaureate degree program within the UH System. The AAHS also provides students with beneficial qualifications for Hawai'i's workforce, where knowledge of the host culture or alternative approaches to problem-solving are desirable. The degree integrates Hawaiian knowledge and values into the curriculum, and thus nurtures a sense of place; defines personal, community and global responsibilities; and builds connections between all who call Hawai'i home.

### **Program Learning Outcomes**

1. Describe aboriginal Hawaiian linguistic, cultural, historical and political concepts.
2. Apply aboriginal Hawaiian-based concepts, knowledge and methods in other areas of inquiry such as to the areas of sciences, humanities, arts and social sciences – in academics, and in other professional endeavors.
3. Engage, articulate and analyze topics relevant to the aboriginal Hawaiian community using college-level research and writing methods.

### **Program Requirements**

The requirements for the Associate in Arts in Hawaiian Studies Degree are as follows:

1. Minimum cumulative grade point average: 2.0 GPR or better for all courses used to meet the degree requirements
2. 60 credits, all in courses numbered 100 or above
3. A maximum of 48 transfer credits earned at other colleges may be applied towards the degree
4. A minimum of 12 credits of courses numbered 100 or above must be earned at Leeward CC The 60 credits are composed of:
  - a. 31 credits in General Education Core requirements (12 credits in Foundation, 19 credits in Diversification)
  - b. 15 credits in Hawaiian Studies Core courses
  - c. 3 credits in Oral Communication (OC)

- d. 11 credits of electives or more to add up to 60 credits total
- e. Graduation Requirements (Focus Requirements).

## Health Information Technology

### Health Information Technology (Certificate of Achievement (CA))

#### Description

The Certificate of Achievement in Health Information Technology (HIT) develops a foundation in records and information management for a medical facility and the health information technology profession. Students completing the certificate will have the skills and knowledge necessary to assist in maintaining accurate and timely medical data in clinics, hospitals, and other health care organizations. The certificate will lead to job opportunities as patient access clerks, physician office clerks, registrars, registration clerks, and ward clerks.

#### Program Learning Outcomes

1. Perform basic coding tasks and maintain accurate reimbursement systems including the preparation of patient access, registration, and patient accounting statements.
2. Access, analyze, and interpret data to solve basic health information, coding, patient accounting, and supervisory problems.
3. Apply health information, records management, patient financial, and patient

accounting laws to code basic cases with industry reimbursement procedures based on patient insurance type.

## **Program Requirements**

The Program is designed to meet the (1) employment needs of the healthcare organizations and (2) needs of students who wish to participate in a training program that will lead to a certificate in Health Information Technology with the opportunity to obtain entry-level positions and advance to higher levels in medical facilities.

The Leeward CC counselors, especially the counselor assigned to the Business Division will be responsible for advising future and current students in the HIT Program.

Certificate of Achievement in Health Information Technology: (31 credits)

HIT 101 - Healthcare Delivery Systems (3 credits)

HIT 102 - Health Data, Records, and Documentation (3 credits)

BUS 101 – Business Information Systems (3 credits) or ICS 101 Digital Tools for the Information World (3 credits)

HLTH 110 – Medical Terminology (2 credits)

ENG 100-Composition I (3 credits)

BIOL 130 – Anatomy and Physiology (4 credits)

BIOL 130L – Anatomy and Physiology Lab (1 credit)

HIT 108 - Introduction to Diagnosis Coding (3 credits)

HIT 109 - Introduction to Procedure Coding (3 credits)

HIT 200 - Disease Pathology and Pharmacology (3 credits)

HIT 120 -Intro to Healthcare Data Management & Analytics (3 credits)

Workflow:

In order to obtain a Health Information Technology (HIT) certificate, students must pass all required courses with a grade of C or better.

## **Sample Program Plan**

## **Health Information Technology (Certificate of Competence (CO))**

### **Description**

The Certificate of Competence in Health Information Technology (HIT) develops a foundation in records and information management for a medical facility and the health information technology profession. Students completing the certificate will have the skills and knowledge necessary to assist in maintaining accurate and timely medical data in clinics, hospitals, and other health care organizations. The certificate will lead to job opportunities as patient access clerks, physician office clerks, registrars, registration clerks, and ward clerks.

### **Program Learning Outcomes**

1. Apply problem-solving skills and health care knowledge to address customer, patient, or organizational needs.
2. Accomplish administrative responsibilities in maintaining a secured information system while adhering to workplace policies and procedures and government laws using computer and other office technology tools.
3. Process documents through the document life cycle using basic medical coding methodology and patient record guidelines.

### **Program Requirements**

The Program is designed to meet the (1) employment needs of the health care organizations and (2) needs of students who wish to participate in a training program that will lead to a certificate in Health Information Technology with the opportunity to obtain entry-level positions and advance to higher levels in medical facilities.

The Leeward CC counselors, especially the counselor assigned to the Business Division, will be responsible for advising future and current students in the HIT Program.

Certificate of Competence in Health Information Technology (16 credits)

HIT 101 - Healthcare Delivery Systems (3 credits)

HIT 102 - Health Data, Records, and Documentation (3 credits)

HLTH 110 – Medical Terminology (2 credits)  
BIOL 130 – Anatomy and Physiology (4 credits)  
BIOL 130L – Anatomy and Physiology Lab (1 credit)

In order to obtain a Health Information Technology (HIT) certificate, students must pass all required courses with a grade of C or better.

The modification supports the Five-Year development plan for a HIT Certificate of Competence, Certificate of Achievement and Associate in Science degree.

## **Health Information Technology (Associate in Science (AS))**

### **Description**

The Associate in Science (AS) Program of Study builds upon the Health Information Technology (HIT) foundation presented in the Certificate of Competence (CO) and Certificate of Achievement (CA) Programs of Study. Students will expand their records and information management skills in medical coding and medical records, including electronic records. Combined with the biological science, health statistics, and management courses, the students will be able to pursue careers as an Admissions Clerk, Cancer Registrar, Coder, Health Information Management (HIM) Technologist, Patient Access Supervisor, Privacy Officer, and/or Release of Information Technologist.

Program Learning Outcomes

1. Perform basic coding tasks and maintain accurate reimbursement systems including the preparation of patient access, registration, and patient accounting statements.
2. Access, analyze, and interpret data to solve basic health information, coding, patient

- accounting, and supervisory problems.
3. Interact with customers, vendors, and co-workers to effectively support the work with high customer satisfaction.
  4. Organize, prioritize, and perform work tasks to meet deadlines and schedules.
  5. Apply health information, records management, patient financial, and patient accounting laws to code basic cases with industry reimbursement procedures based on patient insurance type.

## **Program Requirements**

The program is designed to meet the (1) employment needs of the health care organizations and (2) needs of students who wish to participate in a training program that will lead to an Associate in Science (AS) in Health Information Technology (HIT) with the opportunity to obtain entry-level positions and advance to higher levels in medical facilities. HIT 215 - Quality Management (3 credits)  
HIT 220 - Healthcare Data Management & Analytics (3 credits)  
HIT 176 - Statistics with Health Applications (3 credits)  
HIT 192 - Professional Practice Experience and RHIT Study Prep (80 hours minimum) (3 credits)  
HIT 225 - HIM Supervisory Management (3 credits)  
HWST 107 - Hawai'i: Center of the Pacific (3 credits)  
Diversification Social Sciences (DS) (3 credits)

Total: 61 credits

To obtain a Health Information Technology (HIT) Associate in Science (AS), students must pass all required courses with a grade of C or better. The program is organized so that the student builds a foundation (CO = 16 credits; CA = 31 credits; AS = 61 credits) as progressing through a recommended group of courses. Courses with required knowledge have prerequisites, and the counselors will have the program information to guide the student into the proper course sequence.

## Sample Program Plan

### Semester 1

16Total Credits

- Complete all of the following

- 

Earned a minimum grade of C in each of the following:

- HIT101 - Healthcare Delivery Systems (3)
- HIT102 - Health Data, Records, and Documentation (3)
- HLTH110 - Medical Terminology (2)
- BIOL130 - Anatomy and Physiology (4)
- BIOL130L - Anatomy and Physiology Laboratory (1)

- Complete 1 of the following

- 

Earned a minimum grade of C in each of the following:

- BUS101 - Business Info Systems (3)

- 

Earned a minimum grade of C in each of the following:

- ICS101 - Digital Tools for the Information World (3)

### Semester 2

15Total Credits

- 

Earned a minimum grade of C in each of the following:

- HIT108 - Introduction to Diagnosis Coding (3)
- HIT109 - Introduction to Procedure Coding (3)
- HIT120 - Intro to Healthcare Data Management & Analytics (3)
- HIT200 - Disease Path and Pharmacology (3)
- ENG100 - Composition I (3)

### Semester 3

15Total Credits

- 

Earned a minimum grade of C in each of the following:

- HIT208 - Advanced Coding I (3)
- HIT209 - Advanced Coding II (3)
- HIT115 - Reimbursement Methodologies (3)
- HIT215 - Quality Management (3)
- HIT220 - Healthcare Data Management & Analytics (3)

### Semester 4

15Total Credits

- Complete all of the following

- 

Earned a minimum grade of C in each of the following:

- HIT176 - Health Information Statistics (3)
- HIT192 - Professional Practice Experience and Registered Health Information Technician Exam Prep (3)

- HIT225 - Health Information Management (HIM) Supervisory Management (3)
  - HWST107 - Hawai'i: Center of the Pacific (3)
  - Complete 1 of the following
    - Completed at least 3 credits from the following types of courses: Diversification Social Sciences (DS)
    - Earned a minimum grade of C in each of the following:
      - ECON131 - Principles of Macroeconomics (3)
- Grand Total Credits: **61**

## Human Services

### Human Services/Substance Use Disorders Counseling (Certificate of Competence (CO))

#### Description

The Human Services (HSER) Certificate of Competence in Substance Abuse Counseling Program provides education and skill development for people interested in pursuing a career as substance use disorders (SUDs) counselors, as well as for those already working in the helping professions and who wish to hone their knowledge and skills. The CO-SUDS program offers a specialization for people with BA and MA degrees in such areas as social work, psychology, counseling, marriage and family counseling, and additional expertise for professionals in law enforcement, nursing, education, and rehabilitation counseling. Learners will focus on developing both basic and intermediate-level knowledge and skills required for entrance-level substance use disorder counselors. They will be encouraged to develop personal maturity through self-exploration, and the adoption of a professional demeanor that will support their entry into the substance use disorder counseling field. Learners can fulfill a sizable portion of the IC & RC Twelve Core Functions of the Alcohol and Drug Abuse Counselor requirements with the completion of a substance use disorder counseling certificate program. The coursework will also assist one in preparing for the state certification exam. Please be advised that completing Leeward CC's certificate program is not the same as obtaining the state certification. Contact the Department of Health, Alcohol and Drug Abuse Division (ADAD), Certification Unit for additional information about such requirements.

(<http://hawaii.gov/health/about/admin/health/substance-abuse/index.html>). It is highly recommended that learners work to complete along with the certificate, an AA degree in Liberal Arts if they currently have no degree. All of the HSER courses may be applied toward the elective credit requirements for the AA degree. Completion of the certificate equals 2,000 hours toward the ADAD education and experiential requirement with the potential for securing an additional 400 fieldwork hours when signed off by a CSAC supervisor, which also contributes toward the ADAD experiential hours requirement.

#### Program Learning Outcomes

1. Demonstrate interpersonal and communication skills needed to build appropriate, collaborative, and respectful relationships with clients, colleagues and a diversity of

- populations in various practice settings.
2. Identify the medical, societal, and psychological effects of substance use disorders (SUD) on the family.
  3. Examine the special needs of vulnerable substance use disorder populations and develop an attitude of cultural humility, inclusivity, and sensitivity to the unique needs of various groups (such as minority groups, Americans with disabilities, LGBTQIA+, the elderly, intravenous drug users, pregnant women, youth, and incarcerated populations).
  4. Apply the 12 Core Functions and the 46 Global Criteria of the SUD counselor across the continuum of care.
  5. Employ a person-centered and motivational interviewing approach during practice assessments (with the American Society of Addiction Medicine- ASAM & biopsychosocial) and counseling role plays.
  6. Survey the history of substance use disorders, theories, regulatory issues, the stages of the treatment process, and issues relevant to clients along the continuum of care—to include prevention, intervention, aftercare, and relapse prevention.
  7. Compare the substance use disorder severity along the continuum, the pharmacology of the drugs, their physiological impact, and the symptomology to meet DSM 5/ICD criteria.
  8. Examine the most common co-occurring behavioral/mental health disorders as defined in the Diagnostic and Statistical Manual of Mental Disorders (DSM-5) that occur alongside substance use disorders, the symptomatic behavior, and best practice interventions.

## **Program Requirements**

The Certificate of Competence in Substance Use Disorders Counseling consists of:

HSER 100 Exploration of Self in Society (3) credits  
HSER 140 Individual Counseling (3) credits  
HSER 245 Group Counseling (3) credits  
HSER 268 Survey of Substance Use Disorders (3) credits  
HSER 270 Substance Use Disorders Counseling (3) credits  
HSER 294 Seminar & Fieldwork I (3) credits  
HSER 295 Seminar & Fieldwork II (3) credits

Total Program: 21 credits

In order for a learner to enroll in human service (HSER) courses, one must qualify for placement into ENG 100 based on current placement standards.

The CO in Substance Use Disorders Counseling Program requires a minimum of a C grade in all courses to matriculate through the program.

Typically, this is a two-year, part-time program of study. In most cases, one needs to complete HSER 100, 140, 245, 268 & 270 (in any order) prior to enrollment in the fieldwork courses HSER 294 and HSER 295, which typically are completed in the second year.

Prior to entering the internship/fieldwork experience and enrolling in HSER 294 & 295, but after completing all previous program courses (or with instructor approval), the learner

must be officially accepted into the CO in Substance Use Disorders Counseling Program. Learners will complete a formal application (to be provided by the program coordinator) before being accepted into the fieldwork part of the program. Upon acceptance into the program, they will then need to secure a commitment from a substance use disorder treatment program in order to complete their internship. In most cases, learners need to be living an abstinent (if in recovery) lifestyle for a minimum of two years and for some agencies, up to three years, in order to intern at a substance use disorders treatment facility.

\*Background checks of applicants are often done by fieldwork agencies prior to acceptance. There are only a few agencies who accept those on probation or parole as interns.

\*Felonies that are substance use related have typically not been a barrier to work within this field, however having other felonies could be an obstacle to working with clients. Contact DOH Alcohol & Drug Abuse Division (ADAD) Certification Department if you have any questions about becoming a Certified Substance Abuse Counselor (CSAC).

### **Sample Program Plan**

#### **Semester 1**

**9Total Credits**

Earned a minimum grade of C in each of the following:

- HSER140 - Individual Counseling (3)
- HSER268 - Survey of Substance Use Disorders (3)
- HSER100 - Exploration of Self in Society (3)

#### **Semester 2**

**6Total Credits**

Earned a minimum grade of C in each of the following:

- HSER245 - Group Counseling (3)
- HSER270 - Substance Use Disorders Counseling (3)

#### **Semester 3**

**3Total Credits**

Earned a minimum grade of C in each of the following:

- HSER294 - Seminar & Fieldwork I (3)

# Information & Computer Science

## Basic Logic and Programming Level 1 (Certificate of Competence (CO))

### Description

The Certificate of Competence in Basic Logic and Programming Level 1 provides students an overview of the fundamentals of computer programming. Students will learn the fundamentals of problem solving, algorithm development, implementation, and debugging/testing using an object-oriented programming language. They will also learn the fundamentals of the mathematics behind computer operations.

Program Learning Outcomes

1. Solve problems, develop algorithms, and write structured computer programs in a programming language.
2. Demonstrate familiarity with the mathematics used in computing science.

### Program Requirements

A minimum of a "C" grade in each course is required to earn this certificate.

The Certificate of Competence in Basic Logic and Programming Level 1 contains these two ICS courses:

ICS 111 - Introduction to Computer Science I (3)

ICS 141 – Discrete Mathematics for Computer Science I (3)

Total credits: 6

These two courses are taught at Leeward CC as part of the ICS courses required to transfer to UH Manoa. This certificate will use the same admission, advising, and counseling resources as the ICS programs. ICS 111 is a programming class. ICS 141 is a mathematics class. The two skills have been identified by the Department of the Navy as meeting a critical need. Furthermore, these two classes are articulated with the ICS BA and BS degrees at UH Manoa. Earning a Certificate of Competence in Basic Logic and Programming will facilitate the transfer of students to UH Manoa who wish to attain these degrees.

### Sample Program Plan

Semester 1

6Total Credits

•

Earned a minimum grade of C in each of the following:

- ICS111 - Introduction to Computer Science I (3)
- ICS141 - Discrete Mathematics for Computer Science I (3)

Grand Total Credits: 6

## Basic Logic and Programming Level 2 (Certificate of Competence (CO))

### Description

The Certificate of Competence in Basic Logic and Programming Level 2 provides students with the second semester of computer programming and the mathematics of computers. Students will learn the fundamentals of data structures, searching and sorting algorithms, recursion, polymorphism, inheritance, and encapsulation using an object-oriented programming language. They will also learn the mathematical concepts behind computer operations, such as graphs, trees, Boolean algebra, finite-state machines, formal languages, program correctness, and solving recurrence relations.

#### Program Learning Outcomes

1. Solve problems, develop algorithms, and write structured computer programs in a programming language.
2. Demonstrate familiarity with the mathematics used in computing science.
3. Create data structures in an object-oriented programming language.

### Program Requirements

A minimum grade of "C" in each course is required to earn the certificate.

The Certificate of Competence in Basic Logic and Programming Level 2 contains these two ICS courses:

ICS 211 - Introduction to Computer Science II (3)

ICS 241 – Discrete Mathematics for Computer Science II (3)

Total credits: 6

These two courses are taught at Leeward CC as part of the ICS courses required to transfer to UH Manoa. ## **CO-Cloud Security Specialist (Certificate of Competence (CO))**

### **Description**

Students will be introduced to the essentials of computer security in the cloud. They will perform basic ethical (white hat) hacking, and learn about the moral and legal issues that are involved while performing the learned techniques. Students will use tools to validate user's identity and prevent data from leaving an organization's perimeter. Students will learn tools to deploy a zero trust network.

#### **Program Learning Outcomes**

1. Utilize methodologies and tools that assist with discovering and securing data in the cloud.
2. Apply techniques involved with Ethical Hacking.
3. Utilize methodologies and tools that will assist in deploying a zero trust network.

### **Program Requirements**

This certificate contains these three ICS courses: ICS 215 Introduction to Scripting (3), ICS 281 Ethical Hacking (3), and ICS 284 Cloud Security (3). This certificate will use the same admission, advising, and counseling resources as the ICS program. To earn the certificate, a minimum of a C grade in each of the courses is required.

### **Sample Program Plan**

Semester 1

3Total Credits

Completed the following:

- ICS281 - Ethical Hacking (3)

Semester 2

6Total Credits

Completed the following:

- ICS215 - Introduction to Scripting (3)
- ICS284 - Cloud Security (3)

Grand Total Credits: **9**

## **Help Desk (Certificate of Competence (CO))**

### **Description**

This program will enable students to pursue entry-level career opportunities as IT Help Desk Technicians. As organizations grow increasingly reliant on IT technologies in furthering and accomplishing their missions, so too does reliance on personnel equipped to support these technologies, in terms of software/hardware issues, both remotely and on-site. Computer Support Specialists provides such support.

#### **Program Learning Outcomes**

1. Apply critical thinking, problem-solving, and collaborative skills to assess and troubleshoot software and computer hardware problems.
2. Demonstrate good customer service skills by identifying and evaluating the indicators of customer satisfaction throughout the problem-resolution process.
3. Apply effective communication while working with clients and fellow workers.
4. Report the problem to appropriate levels in the organization.

### **Program Requirements**

To earn the certificate, a minimum of a "C" grade in each of the courses is required.

ICS courses 12 credits:

ICS 101 Digital Tools for the Information World (3)

ICS 125 Personal Computer Maintenance and Repair (3)

ICS 171 Introduction to Computer Security (3)

ICS 184 Introduction to Networking (3)

Elective 6 credits:

SP 151 Personal and Public Speech (3) or SP 251 Principles of Effective Public Speaking (3)

Any ICS or DMED course or MGT 121 Customer Service (3)

Total credits: 18

These courses are taught at Leeward CC as part of the ICS AS. This certificate will use the same admission, advising, and counseling resources as the ICS program.

### **Sample Program Plan**

Semester 1

12 Total Credits

Earned a minimum grade of C in each of the following:

- ICS101 - Digital Tools for the Information World (3)
- ICS125 - Personal Computer Maintenance and Repair (3)
- ICS171 - Introduction to Computer Security (3)
- ICS184 - Introduction to Networking (3)

## Semester 2

### 6Total Credits

- Complete all of the following
  - Complete 1 of the following
    - Earned a minimum grade of C in each of the following:
      - SP151 - Personal and Public Speech (3)
    - Earned a minimum grade of C in each of the following:
      - SP251 - Principles of Effective Public Speaking (3)
  - Complete 1 of the following
    - Completed at least 3 credits from the following types of courses:  
Any ICS or DMED courses with a C or better grade.
    - Earned a minimum grade of C in each of the following:
      - MGT121 - Service Excellence (3)

Grand Total Credits: **18**

## Information and Computer Science (Academic Subject Certificate (ASC))

### Description

This certificate prepares the student to transfer to either the BA or BS degree programs in Information & Computer Science at UH Mānoa, or the BS degree program in Computer Science at UH Hilo. The course sequence provides students with the opportunity to take all freshman and sophomore level required ICS courses at Leeward CC before transferring.

Program Learning Outcomes

1. Solve problems, develop algorithms, and write computer programs specified in a manner consistent with the ACM CS1 and CS2 recommendations.
2. Demonstrate familiarity with the mathematics used in computing science.

### Program Requirements

To earn the certificate, a minimum of a "C" grade in each of the courses is required.

ICS111 - Introduction to Computer Science I (3)

ICS141 - Discrete Mathematics for Computer Science I (3)

ICS211 - Introduction to Computer Science II (3)

ICS241 - Discrete Mathematics for Computer Science II (3)

ICS212 - Program Structure (3) OR ICS215 - Introduction to Scripting (3)

Total credits: 15

## Information and Computer Science (Certificate of Achievement (CA))

### Description

Provides students with entry-level skills or job upgrading for positions under direct supervision in computer support, cabling, and basic networking, office application support, and database management.

#### Program Learning Outcomes

1. Demonstrate computing literacy.
2. Solve problems, develop algorithms, and write object-oriented computer programs in a programming language.
3. Design a relational database with proper documentation.
4. Demonstrate proficiency in computer maintenance and networking.

### Program Requirements

The program consists of general education courses including oral and written communications, general computing courses to provide a strong foundation in computer skills, and specific database and networking courses to prepare students for entry-level jobs in computer support, cabling and basic networking, office application support, and database management. Admission and counseling is consistent with other programs at the

college. There are no special admission requirements.

A minimum of a "C" grade in each ICS course is required to earn the certificate.

ICS 101 Digital Tools For the Information World (3 credits)

ICS 110M Introduction to Programming (3 credits) or ICS 110P Introduction to Programming (3 credits)

ICS 129 Introduction to Databases (3 credits)

ICS 111 Introduction to Computer Science I (3 credits)

ICS 125 Personal Computer Maintenance (3 credits)

ICS 170 Ethics for the Digital World (3 credits)

ICS 184 Introduction to Networking (3 credits)

ENG 100 Composition I (3 credits)

MATH 103 College Algebra (3 credits) or MATH 135 Precalc: Elementary Functions (3) or higher or ICS 141 Discrete Math for Computer Science I (3 credits)

SP 151 Personal and Public Speech (3 credits) or SP 251 Principles of Effective Public Speaking (3 credits)

Total credits: 30.

## Information and Computer Science (Associate in Science (AS))

### Description

The curriculum leading to an Associate in Science degree in Information and Computer Science is designed to prepare individuals for employment as technical assistants to professional and administrative personnel using computers. Students may choose one of five areas of specialty: Network Support Specialist, Information Security Specialist, Software Developer Specialist, Data Science Specialist, and Cloud Security Specialist. Skills in writing, speech, and mathematics complete the preparation for employment. In addition to training the student for work in the technical areas mentioned earlier, the program requirements are designed to facilitate transfer to the baccalaureate programs in Information and Computer Sciences at UH Mānoa, UH Hilo, and UH West O'ahu for those students who wish to continue their education while working in the industry.

### Program Learning Outcomes

1. Demonstrate computing literacy.
2. Describe the functions and interrelationships of the building blocks of an operating system.
3. Develop object-oriented computer programs in at least two programming languages.

4. Apply mathematics to solve computing problems.
5. Communicate in written and oral form, a system solution, its documentation, and its implementation.
6. Use project management tools to manage information systems development projects.
7. Work as part of a group/team.
8. Design a relational database with proper documentation.
9. Demonstrate proficiency in computer maintenance and networking.
10. Software Developer Specialist: Develop a foundation in computer programming, data structures, and discrete mathematics.
11. Network Support Specialist: Apply computer-networking principles to build and troubleshoot networks.
12. Information Security Specialist: Apply the tools and techniques of information security to secure physical and digital information.
13. Cloud Support Specialist: Utilize methodologies and tools that assist with discovering and securing data in the cloud.
14. Data Science Specialist: Apply tools used to analyze and display data.

### **Program Requirements**

All required ICS courses must be passed with a grade of “C” or better in order to be applied to the degree and certificates.

#### **Core Requirements: 27 credits**

- ICS 101 Digital Tools for the Information World (3) or ICS 103 Introduction to Computer Science Principles (3)
- ICS 110M Introduction to Programming (3) or ICS 110P Introduction to Programming or equivalent (3)
- ICS 111 Introduction to Computer Science I (3)
- ICS 125 Personal Computer Maintenance and Repair (3) or ICS 131 Introduction to Virtualization (3)
- ICS 129 Introduction to Databases (3)
- ICS 171 Introduction to Computer Security (3)
- ICS 184 Introduction to Networking (3)
- ICS 231 Introduction to Linux (3)

- ENG 100 Composition I (3)
- ENG 209 Business Writing (3) or ENG 225 Technical Writing (3)
- ICS 141 Discrete Mathematics for Computer Science I (3) or MATH 103 College Algebra (3), or MATH 135 Precalc: Elementary Functions (3) or higher than MATH 135
- ICS 170 Ethics for the Digital World (3)
- SP 151 Personal and Public Speech (3) or SP 251 Principles of Effective Public Speaking (3)
- One DS Course (3)
- One FG Course (3)
- One Elective: 3 credits (must be any ICS course 100 or higher not used for ICS program requirements)

Specialty: 9 credits Select One Specialty Below

Information Security Specialty (for UHWO ISA BAS transfer students)

- ICS 215 Introduction to Scripting (3)
- ICS 281 Ethical Hacking (3)
- ICS 282 Computer Forensics (3)

Network Support Specialty (for UHWO ISA BAS transfer students)

- ICS 215 Introduction to Scripting (3)
- ICS 273 Network Design and Administration (3)
- ICS 274 Advanced Network Design and Administration (3)

Software Developer Specialty (for UHM ICS BA or UHWO ISA BAS transfer students)

- ICS 211 Introduction to Computer Science II (3)
- ICS 212 Program Structure (3) or ICS 215 Introduction to Scripting (3)
- ICS 241 Discrete Mathematics for Computer Science II (3)

Cloud Support Specialty

- ICS 215 Introduction to Scripting (3)
- ICS 281 Ethical Hacking (3)
- ICS 284 Cloud Security (3)

Data Science Specialty

- ICS 235 Machine Learning Methods (3)
- ICS 262 Data Analysis Using R and Python (3)
- ICS 263 Data Visualization (3)

Total Credits: 60

MATH 103 transfers to UHWO. ICS 141 transfers to UH Mānoa. ENG 209 transfers to UHWO. ICS 110P is recommended for students who plan to transfer to UHWO B.A.S Information Security and Assurance.

      - ICS211 - Introduction to Computer Science II (3)
      - ICS241 - Discrete Mathematics for Computer Science II (3)
      - ICS212 - Program Structure (3)
    - Completed at least 2 courses from the following:
    - Network Support Speciality
      - ICS215 - Introduction to Scripting (3)
      - ICS273 - Network Design and Administration (3)
      - ICS274 - Advanced Network Routing and Optimization (3)
    - Completed at least 2 courses from the following:
    - ICS Cloud Specialization
      - ICS284 - Cloud Security (3)
      - ICS215 - Introduction to Scripting (3)
      - ICS281 - Ethical Hacking (3)
    - Completed at least 2 courses from the following:
    - Data Science Speciality
      - ICS235 - Machine Learning Methods (3)
      - ICS262 - Data Analysis Using R and Python (3)
      - ICS263 - Data Visualization (3)
  - Completed at least 3 credits from the following types of courses: FG.
  - Completed at least 3 credits from the following types of courses: DS.
  - Earned a minimum grade of C in each of the following:
    - ICS270 - Systems Analysis (3)

Grand Total Credits: **60**

## Information Security (Certificate of Achievement (CA))

### Description

Provides students with entry-level skills or job upgrading for positions under direct supervision in information security.

Program Learning Outcomes

1. Develop object-oriented computer programs using a programming language.
2. Design a relational database with proper documentation.
3. Demonstrate proficiency in computer maintenance and networking.
4. Exhibit proper use of an operating system.
5. Apply the tools and techniques of information security to secure physical and digital information.

### Program Requirements

First Semester

ICS 111 Introduction to Computer Science I (3)

ICS 170 Ethics for the Digital World (3)

ICS 171 Introduction to Computer Security (3)

ICS 184 Introduction to Networking (3)

ICS 231 Introduction to Linux (3)

Second Semester

ICS 101 Digital Tools for the Information World (3)

ICS 215 Introduction to Scripting (3)

ICS 129 Introduction to Databases (3)

ICS 281 Ethical Hacking (3)

ICS 282 Computer Forensics (3)

Total Credits 30

This certificate will use the same admission, advising, and counseling resources as the ICS program.

All Courses must be completed with a grade of "C" or better.

### Sample Program Plan

Semester 1

15Total Credits

Completed the following:

- ICS111 - Introduction to Computer Science I (3)
- ICS170 - Ethics for the Digital World (3)
- ICS184 - Introduction to Networking (3)
- ICS231 - Introduction to Linux (3)
- ICS171 - Introduction to Computer Security (3)

Semester 2  
15Total Credits

Completed the following:

- ICS215 - Introduction to Scripting (3)
- ICS281 - Ethical Hacking (3)
- ICS282 - Computer Forensics (3)
- ICS129 - Introduction to Databases (3)
- ICS101 - Digital Tools for the Information World (3)

Grand Total Credits: **30**

## **Information Security Specialist (Certificate of Competence (CO))**

### **Description**

Students will be introduced to the essentials of computer security. They will perform basic ethical (white hat) hacking, and learn about the moral and legal issues that are involved while performing the learned techniques. Students will learn how to perform basic computer forensics such as operating system diagnostics, as well as to use a forensic tool kit to examine and validate computer activity. Students will acquire knowledge about the proper techniques for data collection, examination and preservation of forensic data.

Program Learning Outcomes

1. Create and implement security policies and procedures to aid in security administration.
2. Apply techniques involved with ethical hacking.
3. Aid in the collection, examination, and preservation of data using proper computer forensics.

### **Program Requirements**

To earn the certificate, a minimum of a C grade in each of the courses is required.

This certificate is for career retraining.

Students obtaining just the certificate will have the prerequisites for each course by means of previous experience.

This certificate contains these three ICS courses:

ICS 215 Introduction to Scripting (3)

ICS 281 Ethical Hacking (3)

ICS 282 Computer Forensics (3)

Total credits: 9

These three courses are taught at Leeward CC as part of the AS in ICS. This certificate will use the same admission, advising, and counseling resources as the ICS program.

## Sample Program Plan

Semester 1  
3Total Credits

- Earned a minimum grade of C in each of the following:
  - ICS215 - Introduction to Scripting (3)

Semester 2  
6Total Credits

- Earned a minimum grade of C in each of the following:
  - ICS281 - Ethical Hacking (3)
  - ICS282 - Computer Forensics (3)

Grand Total Credits: **9**

## Network Support Specialist (Certificate of Competence (CO))

### Description

This certificate provides students with the essentials of computer security, the fundamentals of network design, and the advanced components of network design. This includes using encryption, activity monitoring, intrusion detection, security policies, security administration, basic switching and routing, wired and wireless networking, wide area networking, Internet Protocol Version 4 (IPv4) and Internet Protocol Version 6 (IPv6) routing, and route optimization.

### Program Learning Outcomes

1. Identify the potential risks and mitigations of various threats to a computing environment.
2. Identify and create security policies and procedures.
3. Design a local area network using appropriate network devices including switches and routers.
4. Administer a local area network consisting of a server, workstations, switches, and routers.
5. Design a multi-area network with route optimization.
6. Design an IPv4/IPv6 hybrid network.

### Program Requirements

To earn the certificate, a minimum of a C grade in each of the courses is required.

This certificate contains these five ICS courses:

ICS 111 Introduction to Computer Science I (3)

ICS 184 Introduction to Networking (3)

ICS 215 Introduction to Scripting (3)

ICS 273 Network Design and Administration (3)

ICS 274 Advanced Network Design and Administration (3)

Total credits: 15

These courses are taught at Leeward CC as part of the AS in ICS. This certificate will use the same admission, advising, and counseling resources as the ICS program.

### **Sample Program Plan**

Semester 1  
6Total Credits

- Earned a minimum grade of C in each of the following:
  - ICS111 - Introduction to Computer Science I (3)
  - ICS184 - Introduction to Networking (3)

Semester 2  
9Total Credits

- Earned a minimum grade of C in each of the following:
  - ICS215 - Introduction to Scripting (3)
  - ICS273 - Network Design and Administration (3)
  - ICS274 - Advanced Network Routing and Optimization (3)

Grand Total Credits: **15**

## **Software Developer (Certificate of Competence (CO))**

### **Description**

Students will develop applications in at least two object-oriented languages using data structures, recursion, and graphical user interfaces. Students will analyze and select appropriate algorithms for sorting and searching. Students will use mathematical models, which have implications for computer science. Students will be prepared for upper-division ICS courses.

Program Learning Outcomes

1. Develop applications using data structures, recursion, and graphical user interfaces.
2. Interpret and design mathematical models to solve computer science problems.

### **Program Requirements**

A minimum of a "C" grade in each course is required to earn the certificate.

This certificate is for career retraining.

Students obtaining just the certificate will have the prerequisites for each course by means of previous experience.

This certificate contains these two required ICS courses:

- ICS 211 Introduction to Computer Science II (3)
- ICS 241 Discrete Mathematics for Computer Science II (3)

Students are also required to select one of the following two ICS courses to complete this certificate:

- ICS 212 Program Structure (3)
- ICS 215 Introduction to Scripting (3)

Total credits: 9

These courses are taught at Leeward CC as part of the AS in ICS. This certificate will use the same admission, advising, and counseling resources as the ICS program.

### **Sample Program Plan**

Semester 1

6Total Credits

- 

Earned a minimum grade of C in each of the following:

- ICS211 - Introduction to Computer Science II (3)
- ICS241 - Discrete Mathematics for Computer Science II (3)

Semester 2

3Total Credits

- Complete 1 of the following

- 

Earned a minimum grade of C in each of the following:

- ICS212 - Program Structure (3)

- 

Earned a minimum grade of C in each of the following:

- ICS215 - Introduction to Scripting (3)

Grand Total Credits: **9**

## **Integrated Industrial Technologies**

### **Integrated Industrial Technology (Associate in Science (AS))**

#### **Description**

The Associate in Science in Integrated Industrial Technology (AS-IIT) is a 61-credit degree program intended to provide students with a foundation in electronic, electrical, mechanical, and automated control systems to meet the workforce needs of an emerging industrial technology industry. This program provides students with a theoretical and practical understanding of mechatronic systems and develops practical skills and systems integration. Graduates will be able to program, operate, maintain, calibrate, and repair the equipment that makes up these systems. The degree prepares students for occupations that involve the integration of electronic, electrical, mechanical, and communications systems. Typical occupations may include automated programmable electromechanical systems technicians, robotics and manufacturing systems technicians, and process control systems integration technicians.

Program Learning Outcomes

1. Use appropriate safety, health, and personal protection procedures applicable to an industrial working environment.
2. Utilize proper procedures for inspection, preventive maintenance, and corrective

- maintenance of integrated industrial systems.
3. Demonstrate an understanding of the theory, construction, installation, and operation of hydraulic and pneumatic systems in an automated controls environment.
  4. Demonstrate an understanding of mechanical drive systems, their function, and their operation in an automated controls environment.
  5. Apply principles of process quality assurance to an automated controls environment.
  6. Use CAD/CAM to create drawings of parts and assemblies and create prototypes using additive manufacturing.
  7. Apply the principles of mathematics, electronics, mechanical systems, and controls systems to program, maintain, calibrate, and repair advanced integrated systems in manufacturing and transportation.
  8. Demonstrate an understanding of the structure and function of mechatronic systems and follow a logical sequence for isolating problems within an industrial process.
  9. Analyze process control system operations and select the appropriate sensing equipment for that operation.
  10. Analyze the operating difficulties of an automated system and perform the corrective actions needed.

### **Program Requirements**

The IIT Associate of Science Degree contains these courses:

Core Requirements (42 credits):

- IIT 101 Safety, Health, and Environment (3 cr)
- IIT 121 Electro-hydraulics and Pneumatics (3 cr)
- IIT 131 Mechanical Drive Systems (3 cr)
- IIT 151 Rapid Prototyping (3 cr)
- IIT 171 Principles of Process Quality (3 cr)
- IIT 201 AC/DC Circuits (4 cr)
- IIT 205 Digital and Analog Circuits (4 cr)
- IIT 221 Programmable Logic Control (4 cr)
- IIT 231 Process Control and Instrumentation (4 cr)
- IIT 251 Motor and Motion Control (4 cr)
- IIT 271 Distributed Control Systems (3 cr)
- IIT 281 Supervisory Control & Data Administration (4 cr)

General Education Requirements (19 credits):

- ENG 100 Composition I (3 cr)
- MATH 103 College Algebra or higher in STEM track (3 cr)
- ICS 141 Discrete Math for Computer Science I (3 cr)
- PHYS 100 Survey Of Physics (3 cr)
- PHYS 100L Survey of Physics Laboratory (1 cr)
- Social Science, 100 level or above (3 cr)
- Arts & Humanities, 100 level or above (3 cr)

Total: 61 credits

All courses must be completed with a C or better grade.

## Sample Program Plan

15Total Credits

- Complete all of the following
  - Earned a minimum grade of C in each of the following:
    - IIT101 - Industrial Safety Health and Environment (3)
    - IIT121 - Electro-Hydraulics and Pneumatics (Fluid Power Systems) (3)
    - IIT131 - Mechanical Drive Systems (3)
    - ENG100 - Composition I (3)
  - Complete 1 of the following
    - Earned a minimum grade of C in each of the following:
      - MATH103 - College Algebra (3)
      - higher STEM MATH

### Semester 2

16Total Credits

- Complete all of the following
  - Earned a minimum grade of C in each of the following:
    - IIT151 - Rapid Prototyping (3)
    - IIT171 - Principles of Process Quality (3)
    - ICS141 - Discrete Mathematics for Computer Science I (3)
    - PHYS100 - Survey of Physics (3)
    - PHYS100L - Survey of Physics Lab (1)
  - Completed at least 3 credits from the following types of courses:  
Any Social Sciences Course (100 level or above)

### Semester 3

16Total Credits

- Earned a minimum grade of C in each of the following:
  - IIT201 - AC/DC Circuits (4)
  - IIT251 - Motor and Motion Control (4)
  - IIT221 - Programmable Logic Control (4)
  - IIT231 - Process Control and Instrumentation (4)

#### Semester 4

#### 14 Total Credits

- Complete all of the following

- 

Earned a minimum grade of C in each of the following:

- IIT205 - Digital and Analog Circuits (4)
- IIT271 - Distributed Control Systems (3)
- IIT281 - Supervisory Control and Data Acquisition (SCADA) Systems (4)

- Completed at least 3 credits from the following types of courses:  
Any Arts & Humanities Course (100 level or above)

Grand Total Credits: **61**

## **Integrated Industrial Technology (Certificate of Achievement (CA))**

### **Description**

The Certificate of Achievement in Integrated Industrial Technology (CA-IIT) program is intended to provide students with entry-level skills in hydraulic, pneumatic, and mechanical drive systems, as well as apply principles of process quality assurance in an automated controls environment to meet the workforce needs of an emerging industrial technology industry. Students will be able to perform inspection, preventative maintenance, and corrective maintenance while applying proper safety, health, and personal protection procedures. Students will also gain experience in computer-aided design (CAD) to create drawings of parts and assemblies for prototypes.

### **Program Learning Outcomes**

1. Use appropriate safety, health, and personal protection procedures applicable to an industrial working environment.
2. Utilize proper procedures for inspection, preventive maintenance, and corrective maintenance of integrated industrial systems.
3. Demonstrate an understanding of the theory, construction, installation, and operation of hydraulic and pneumatic systems in an automated controls environment.
4. Demonstrate an understanding of mechanical drive systems, their function, and their operation in an automated controls environment.
5. Apply principles of process quality assurance to an automated controls environment.
6. Use CAD/CAM to create drawings of parts and assemblies and create prototypes using additive manufacturing.

### **Program Requirements**

The IIT Certificate of Achievement contains these courses:

#### **Core Requirements (15 credits):**

- IIT 101 Safety, Health, and Environment (3 cr)
- IIT 121 Electro-hydraulics and Pneumatics (3 cr)
- IIT 131 Mechanical Drive Systems (3 cr)
- IIT 151 Rapid Prototyping (3 cr)

## Integrated Industrial Technology (Certificate of Competence (CO))

### Description

The Certificate of Competence in Integrated Industrial Technology (CO-IIT) program is intended to provide students with entry-level skills in hydraulic, pneumatic, and mechanical drive systems in an automated controls environment to meet the workforce needs of an emerging industrial technology industry. Students will be able to perform inspection, preventative maintenance, and corrective maintenance while applying proper safety,

health, and personal protection procedures.

#### Program Learning Outcomes

1. Use appropriate safety, health, and personal protection procedures applicable to an industrial working environment.
2. Utilize proper procedures for inspection, preventive maintenance, and corrective maintenance of integrated industrial systems.
3. Demonstrate an understanding of the theory, construction, installation, and operation of hydraulic and pneumatic systems in an automated controls environment.
4. Demonstrate an understanding of mechanical drive systems, their function, and their operation in an automated controls environment.

#### Program Requirements

The IIT Certificate of Competence contains these courses:

IIT 101 Safety, Health, and Environment (3 cr)

IIT 121 Electro-hydraulics and Pneumatics (3 cr)

IIT 131 Mechanical Drive Systems (3 cr)

ENG 100 Composition I (3 cr)

# Liberal Arts

## Business (Academic Subject Certificate (ASC))

### Description

The Certificate in Business is designed to provide a foundation in accounting, economics, mathematics, computer applications, and written and oral communication for students who plan to earn a bachelor's degree in business administration.

#### Program Learning Outcomes

1. Perform fundamental accounting tasks and maintain basic accounting systems.
2. Access, analyze, and interpret information to make judgments and to solve basic business problems.
3. Demonstrate basic competencies in oral and written communication.
4. Demonstrate basic quantitative reasoning and problem-solving skills.
5. Analyze economic conditions that are internal and external to an organization.
6. Use basic computer applications skills to create documents and produce information to help solve business problems.

### Program Requirements

ENG 100 Composition - 3 credits

SP 151 Personal and Public Speech or SP 251 Principles of Effective Public Speaking - 3 credits

Accounting Series\* - 6 or 9 credits:

ACC 201 and ACC 202 or ACC 124, ACC 125 and ACC 202

ECON 130 Principles of Microeconomics - 3 credits

ECON 131 Principles of Macroeconomics - 3 credits

BUS 101 Business Computer Systems or ICS 101 Digital Tools for the Information World - 3 credits

MATH 103\*\*College Algebra, or BUS 250\*\*\*Applied Mathematics in Business, or MATH 115\*\*Introduction to Statistics and Probability or higher - 3 credits

Total Credits 24 or 27

NOTE: Students need to check receiving institution (to which they are transferring) for specific math requirement or see an academic advisor for appropriate Math course.

\*Possible combinations of accounting courses ACC 124, ACC 125 and ACC 202, or ACC 201 and ACC 202. All ACC courses must be completed with grade of "C" or higher.

UHWO transfers: \*\*MATH 103 and \*\*MATH 115 articulate with UH West Oahu as a General Education Foundations Symbolic Reasoning (FQ) course and will satisfy the lower division math requirement for the Bachelor of Arts in Business Administration

UHM transfers: \*\*\*BUS 250 meets the Shidler College of Business, UH Manoa FQ General Education Core.

### Sample Program Plan

#### Semester 1

12Total Credits

- Complete all of the following
  - Completed the following:
    - ENG100 - Composition I (3)
    - ECON130 - Principles of Microeconomics (3)
  - Completed at least 1 of the following:
    - SP151 - Personal and Public Speech (3)
    - SP251 - Principles of Effective Public Speaking (3)
  - Completed at least 1 of the following:
    - ACC124 - Principles of Accounting I (3)
    - ACC201 - Introduction to Financial Accounting (3)

#### Semester 2

12Total Credits

- Complete all of the following
  - Completed the following:
    - ECON131 - Principles of Macroeconomics (3)
  - Completed at least 1 of the following:
    - BUS101 - Business Info Systems (3)
    - ICS101 - Digital Tools for the Information World (3)
  - Complete 1 of the following
    - Completed at least 1 of the following:
      - MATH103 - College Algebra (3)
      - BUS250 - Applied Mathematics in Business (3)
    - Complete 1 of the following
      - Completed at least 1 of the following:
        - MATH115 - Introduction to Statistics and Probability (3)
        - Or higher.
  - Complete 1 of the following
    - Students who completed ACC 124 in Semester 1, must take ACC 125.
    - Students who completed ACC 201 in Semester 1, must take ACC 202.
    -

Completed at least 1 of the following:

- ACC125 - Principles of Accounting II (3)
- ACC202 - Introduction to Managerial Accounting (3)

Semester 3

3Total Credits

- Complete 1 of the following
  - Students who did not take ACC 202 in Semester 2.
  -

Completed the following:

- ACC202 - Introduction to Managerial Accounting (3)

Grand Total Credits: **27**

## **Community Food Security (Academic Subject Certificate (ASC))**

### **Description**

This certificate is designed to offer students a comprehensive understanding of the Community Food Security movement through coursework, skill development, and insights into certified organic farm operations and produce marketing. The courses introduce students to the local, national, and international aspects of the Community Food Security movement. They also equip students with the skills needed for organic food cultivation, the preparation of farm produce for sale to restaurants and markets, and the creation and delivery of educational activities for elementary, middle, and high school students. Moreover, students will gain knowledge about Hawaiian culture, as well as insights related to plants, nutrition, the environment, and agriculture. With this strong foundation, it is anticipated that students will be well-prepared to pursue degrees in various fields, such as environmental resources, education, nutrition, and sustainability.

Program Learning Outcomes

1. Analyze from a sociological perspective the connections between current food production systems, the environment, and public health.
2. Demonstrate the ability to grow and market organic produce.
3. Explain how local organic farming contributes to the Food Security Movement locally, nationally, and internationally.

### **Program Requirements**

The ASC is multi-disciplinary and includes courses from the Math and Science, Social Science, Arts and Humanities, and Language Arts Divisions. To earn the certificate, a minimum of a C grade in each of the courses is required.

Required courses:

ENG 100 Composition I (3)

SOC 151 Sociology of Food (3)

AG 112 Introduction to Organic Agriculture (4)

HWST 291 Contemporary Hawaiian Issues (3)

HWST 107 Hawaii: Center of the Pacific (3)

Total credits: 16

### **Sample Program Plan**

Semester 1

13Total Credits

- 

Earned a minimum grade of C in each of the following:

- HWST107 - Hawai'i: Center of the Pacific (3)
- ENG100 - Composition I (3)
- AG112 - Introduction to Organic Agriculture (4)
- SOC151 - Introduction to Sociology of Food (3)

Semester 2

3Total Credits

- 

Earned a minimum grade of C in each of the following:

- HWST291 - Contemporary Hawaiian Issues (3)

Grand Total Credits: **16**

## **Filipino Studies (Academic Subject Certificate (ASC))**

### **Description**

The Academic Subject Certificate in Filipino Studies is designed to provide an introduction to the arts, cultures, histories, and languages of Filipino people. The Certificate may be completed within the total credit requirements for the associate in arts degree. This certificate provides a valuable foundation to students planning to earn a bachelor's degree in Asian Studies, Ethnic Studies, Education, and other related fields and is recommended to students of any ethnic heritage who are interested in Filipino arts, cultures, histories, languages and the evolution of ethnic minorities in the United States.

Program Learning Outcomes

1. Develop knowledge of Filipino identity.
2. Compare and contrast the Filipino experience in Hawai'i and the continental United States.
3. Explain and analyze the relationships between the Philippines, the United States, and other countries, and the impact of historical, cultural, economic, political, and performing arts exchange, on Filipino contributions around the world.

### **Program Requirements**

A minimum of 15 credits is required to fulfill the requirements of the Filipino Studies Academic Subject Certificate Program. Students may choose from the recommended electives in addition to the 12 required core credits to earn the Certificate. A minimum grade of "C" in all courses is required to earn the Certificate.

The curriculum of the Filipino Studies ASC program is organized as follows:

Core Requirement 12 credits

FIL 107 Introduction to Filipino Studies 3 credits  
FIL 253 Filipino History, Culture & Arts 3 credits  
FIL 254 Filipinos in the U.S. 3 credits  
FIL 255 Contemporary Philippine Issues 3 credits

All four core courses are required to earn the Certificate.

Recommended Electives (beyond the 12 credits required for the Certificate)

IS 115 (formerly SSCI 101) Self-Development 3 credits  
FIL 101 Elementary Filipino I 4 credits  
FIL 102 Elementary Filipino II 4 credits

Total Credits: 15-16

### Sample Program Plan

Semester 1

15 - 16 Total Credits

- Complete all of the following

- 

- Earned a minimum grade of C in each of the following:

- FIL107 - Introduction to Filipino Studies (3)
      - FIL253 - Filipino Culture, History, and the Arts (3)
      - FIL254 - Filipinos in the United States: The History and Culture of Filipinos in the U.S. (3)
      - FIL255 - Contemporary Philippine Issues (3)

- Complete 1 of the following

- 

- Earned a minimum grade of C in each of the following:

- IS115 - Self-Development (3)

- 

- Earned a minimum grade of C in each of the following:

- FIL101 - Elementary Filipino I (4)

- 

- Earned a minimum grade of C in each of the following:

- FIL102 - Elementary Filipino II (4)

Grand Total Credits: **15 - 16**

## **Global Studies (Academic Subject Certificate (ASC))**

### **Description**

The Academic Subject Certificate in Global Studies is designed to promote cultural sensitivities and international engagement by students at Leeward Community College. It builds upon the strengths of our Hawaiian and multiethnic communities in the Pacific. This program correlates with the system-wide efforts to position the University of Hawai'i as a preeminent center of international learning. The purpose of this certificate is to prepare students to meet the challenges of an interconnected and interdependent world as globally conscious and internationally engaged citizens.

#### **Program Learning Outcomes**

1. Evaluate the growing interconnectedness of people and places through expanding economic, political and cultural activities.
2. Analyze the factors that promote and shape the international exchange of goods and services.
3. Critique the unique historical trajectories of different world regions and the complex political and cultural contexts of contemporary global issues.
4. Recognize the diversity of the arts and their role in advancing universal understanding.
5. Demonstrate cross-cultural knowledge and appreciation using second language skills.

### **Program Requirements**

The Academic Subject Certificate in Global Studies will total 18-20 credits.

Students will select five courses (15-16 credits) from the core requirements and one course (3-4 credits) from the list of electives (any of the core courses not previously selected as one of the core requirements may be taken as an elective). A single course cannot count towards two categories.

#### **Core Requirements:**

Choose one course from each of the five groups (15-16 credits):

GROUP 1 (Culture, Society and Globalization) = 3 credits (mandatory one course)

- ANTH 152 Culture and Humanity 3 credits
- ANTH 200 Cultural Anthropology 3 credits
- GEO 102 World Regional Geography 3 credits
- GEO 151 Geography and Contemporary Society 3 credits
- POLS 150 Introduction to Global Politics 3 credits

GROUP 2 (Global Business and Economics) = 3 credits (mandatory one course)

- BUSN 277 International Business Protocol 3 credits
- BUSN 279 International Business Analysis 3 credits
- ECON 120 Introduction to Economics 3 credits
- ECON 130 Principles of Microeconomics 3 credits
- ECON 131 Principles of Macroeconomics 3 credits

Group 3 (Global History, Philosophy and Religion) = 3 credits (mandatory one course)

- HIST 151 World Civilizations I 3 credits
- HIST 152 World Civilizations II 3 credits
- HIST 284 History of the Hawaiian Islands 3 credits
- PHIL 130 Introduction to World Philosophy I 3 credits
- REL 150 Introduction to the World's Major Religions 3 credits

Group 4 (Global Arts) = 3 credits (mandatory one course)

## **Hawaiian Language (Academic Subject Certificate (ASC))**

### **Description**

This certificate is intended to provide students with a strong introduction to the culture and language of Hawai'i. The certificate enhances the Liberal Arts degree and prepares students with a strong foundation to complete their baccalaureate degrees in Hawaiian Language or other fields of study at the University of Hawai'i.

#### **Program Learning Outcomes**

1. Analyze Native Hawaiian linguistic, cultural, historical, and political concepts.
2. Explain Native Hawaiian concepts as expressed in the broader areas of science, humanities, arts, or social sciences.
3. Reflect on issues relevant to the Native Hawaiian community.

### **Program Requirements**

All required courses must be completed with a grade of C or higher.

#### **Required Courses:**

- HWST 107 Hawai'i: Center of the Pacific (3)
- HAW 101 Elementary Hawaiian I (4)
- HAW 102 Elementary Hawaiian II (4)
- HAW 201 Intermediate Hawaiian I (4)
- HAW 202 Intermediate Hawaiian II (4)

## **History (Academic Subject Certificate (ASC))**

### **Description**

The Academic Subject Certificate in History will provide students with a strong foundation in geohistorical, cultural, and global connections. The courses in this certificate provide the basis for basic writing, critical-thinking, and problem-solving skills to help students in a wide range of fields. The certificate fulfills most of the core requirements for the Associate of Arts degree, WI requirements, and some additional elective requirements. The certificate will be a guided path for students who intend to earn a Bachelor's Degree in history. It will also provide a general foundation for a career in teaching, the travel industry, the service industry, and other fields such as health and law. The certificate will encourage students to attend a four-year college in the University of Hawai'i system or elsewhere.

### **Program Learning Outcomes**

1. Analyze cause and effect relationships in history.
2. Summarize key ideas in history, including major world philosophies, religions, and political theories and systems.
3. Compare and contrast historical experiences across cultures and time.
4. Describe major historical events, places, people, and other items of historical import.
5. Evaluate the historical roots of current events.
6. Analyze global processes from prehistory to the present (e.g. human migration, ecological forces, spread of world religions, creation of empires, technological innovation, and integration).

## Program Requirements

## **Liberal Arts (Associate in Arts (AA))**

### **Description**

The two-year liberal arts degree, consisting of at least 60 semester credits, entirely at the baccalaureate level (100 level and above), which provides students with skills and competencies essential for successful completion of a baccalaureate degree.

Program Learning Outcomes

1. Use the concepts, theories, and methodologies in arts, humanities, natural and social sciences to examine natural phenomena or to evaluate human experiences.
2. Develop, support, and communicate ideas to a particular audience through writing.
3. Develop, support, and communicate ideas to a particular audience through speech and writing.
4. Find, evaluate, and use information.
5. Apply quantitative reasoning to solve problems, interpret answers, and communicate results.
6. Use critical thinking to address issues and solve problems.
7. Describe and analyze the nature of culture and its variations, past and present.

## Program Requirements

The requirements for the Associate in Arts Degree are as follows:

1. Minimum cumulative grade point average: 2.0 GPR or better for all courses used to meet the degree requirements
2. 60 credits, all in courses numbered 100 or above
3. A maximum of 48 transfer credits earned at other colleges may be applied towards the degree
4. The 60 credits are composed of:
  - a. 31 credits in General Education Core requirements (12 credits in Foundation, 19 credits in Diversification)
  - b. 29 credits of elective
  - c. Graduation Requirements (Focus Requirements)
5. A minimum of 12 credits of courses numbered 100 or above must be earned at Leeward CC

Foundations Requirements: 12 credits

3 cr. in Written Communication (FW)

3 cr. in Quantitative Reasoning (FQ) or Symbolic Reasoning (FS).

Students entering Fall 2018 and thereafter must take FQ. Students enrolled prior to Fall 2018 may take either FQ or FS.

6 cr. in Global Multicultural Perspectives (FG)

For the list of approved Foundation courses, see: <http://www.hawaii.edu/offices/app/aa/afc/>  
 Foundations courses are intended to give students skills and perspectives that are fundamental to undertaking higher education. Courses taken to fulfill the Foundations requirement may not be used to fulfill Diversification or Focus requirements. Only courses taken after they have an official Foundations designation (FW, FS, FQ or FG) will count as meeting the Foundations requirement.

To enroll in a course that meets the Foundations requirement, students must first meet the prerequisites, if any. Some courses that satisfy a Focus requirement may also simultaneously satisfy Diversification and/or Writing Intensive requirements. (See a counselor for "Requirements that may be Double-Dipped.") Approved courses are identified below. They are also indicated by designations after the course **Description**.

Written Communication (FW): 3 credits Written Communication courses introduce students to the rhetorical, conceptual, and stylistic demands of writing at the college level; courses give instruction in composing processes, search strategies, and composing from sources. These courses also provide students with experiences in the library and on the Internet and enhance their skills in accessing and using various types of primary and secondary

materials.

Symbolic Reasoning (FS): 3 credits or Quantitative Reasoning (FQ) 3 credits for students admitted prior to Fall 2018. Symbolic Reasoning courses expose students to the beauty and power of formal systems, as well as to their clarity and precision; courses will not focus solely on computational skills. Students learn the concept of proof as a chain of inferences. They learn to apply formal rules or algorithms; engage in hypothetical reasoning; and traverse a bridge between theory and practice. In addition, students develop the ability to use appropriate symbolic techniques in the context of problem solving and to present and critically evaluate evidence.

Quantitative Reasoning (FQ): 3 credits for all new students admitted for the Fall 2018 semester. It includes the ability to do the following: apply math skills; judge reasonableness of results; understand and communicate numerical information via variables and equations, graphs and charts, words and sentences; and recognize the limitations of mathematical or statistical methods.

Global and Multicultural Perspectives (FG): 6 credits. Global and Multicultural Perspectives courses provide thematic treatments of global processes and cross-cultural interactions from a variety of perspectives. Students will gain a sense of human development from prehistory to modern times through consideration of narratives and artifacts of and from diverse cultures. At least one component of each of these courses will involve the indigenous cultures of Hawai'i, the Pacific, or Asia. To satisfy this requirement, students must take six credits; the six credits must come from two different groups.

Diversification Requirements: 19 credits  
6 cr. in Arts, Humanities, and Literatures (DA, DH, DL)  
6 cr. in Social Sciences (DS)  
7 cr. in Natural Sciences (DB, DP, DY; 2 courses and 1 lab)

For the list of Diversification courses, see:  
<https://sites.google.com/a/hawaii.edu/leeward-cc-diversification-board/list-of-diversification-courses>

The Diversification requirement is intended to assure that every student has a broad exposure to different domains of academic knowledge, while at the same time allowing flexibility for students with different goals and interests. To enroll in a course that meets the Diversification requirement, students must first meet the prerequisites, if any. Some courses that satisfy the Diversification requirement may also simultaneously satisfy Focus requirements. (See a counselor for ";Requirements that may be Double-Dipped.")

Arts, Humanities, and Literatures (DA, DH, DL): 6 credits  
To satisfy this requirement, students must take six credits from two separate subcategories. Each course must be taken from a different discipline. Arts area courses are designated "DA," Humanities area courses as "DH" and Literatures area courses as "DL" in the course **Descriptions** in the Leeward Catalog.

Social Sciences (DS): 6 credits  
To satisfy this requirement, students must take six credits from two different disciplines. Approved courses are identified in the Leeward Catalog with the letters "DS" after the course **Description**.

Natural Sciences (DB, DP, DY): 7 credits

Designations are: "DB" for Biological science courses, "DP" for physical science courses and "DY" for laboratory courses. To satisfy this requirement, students must take two courses and a lab for a total of seven credits. The three courses must include a biological science (DB), a physical science (DP) and a laboratory (DY) course; one of the courses must have a matching lab class. Course numbers with an "L" are separate lab courses. Approved courses are identified in the Leeward Catalog with the appropriate letters after the course **Description**.

Graduation Requirements Focus Requirements (5 courses)

1 course: Contemporary Ethical Issues (ETH)

1 course: Hawaiian, Asian, & Pacific Issues (HAP)

2 courses: Writing Intensive (WI)

1 course: Oral Communication (OC) Focus Requirements

The Focus requirements identify important additional skills and discourses necessary for living and working in diverse communities. Only Focus courses taken after they have received official designation can count as meeting the Focus requirement. Focus courses are not shown in this Catalog but appear in each semester's Class Availability listing. Because the approved Focus courses may change each semester, students should consult the College's up-to-date online course listing before they register.

Contemporary Ethical Issues (ETH): 1 course

These courses are designed to give students tools for the development of responsible deliberation and ethical judgment. Courses fulfilling this requirement are offered in departments across the curriculum. Approved sections are identified in the College's Class Availability with an 'ETH' on the left-hand column and the letter 'E' preceding the title; offerings vary each semester. Courses designated 'ETH' fulfill the E-focus requirement at Leeward CC, but not at UH Mānoa. UH Mānoa requires a 300-level E-focus course for graduation. All approved E-Focus courses from UH Mānoa, University of Hawai'i West Oahu, or any community college, will meet the Leeward CC E-focus graduation requirement.

Hawaiian, Asian, and Pacific Issues (HAP): 1 course

These courses focus on issues in Hawaiian and Asian or Pacific cultures and history; they promote cross-cultural understanding between nations and cultures. Courses fulfilling this requirement are offered in departments across the curriculum. Approved sections are identified in the College's Class Availability with a "HAP"; offerings vary each semester.

Writing Intensive (WI): 2 courses

Because writing helps students both to learn and to communicate, Leeward Community College requires students to take two writing intensive courses. Small writing intensive classes, in which instructors work with students on writing related to course topics, are offered in various disciplines. Students need to satisfy the Written Communication "FW" requirement with a grade of C or better before they enroll in writing intensive courses. Approved sections are identified in the College's Class Availability with a "WI"; offerings vary each semester.

Oral Communication (OC): 1 course

These courses will give students explicit training, in the context of the class, in oral

communication concerns relevant to the assignment or activity. Courses fulfilling this requirement are offered in departments across the curriculum. Approved sections are identified in the College's Class Availability with an "OC" on the left-hand column and the letter "OC" preceding the title; offerings vary each semester. Courses designated 'OC' fulfill the OC Focus requirement at Leeward CC, but not at UH Mānoa. UH Mānoa requires a 300-level OC-Focus course for graduation. All approved OC-Focus courses from UH Mānoa, UHWO, or any community college, will meet the Leeward CC OC-Focus graduation requirement.

For the list of Oral Communication courses, see Oral Communication Focus Board website and/or report.

## **Marine Option Program (MOP) (Academic Subject Certificate (ASC))**

### **Description**

The Marine Option Program (MOP) is designed to assist students interested in relating the ocean to their educational aspirations while earning their Associate in Arts degree. The Marine Options Program Academic Subject Certificate emphasizes an experiential, cross-disciplinary education and provides opportunities to apply traditional course work to the real world while students obtain practical marine skills through a “hands-on” internship, research or employment project. Students develop their own customized “skill project” as part of the Certificate. MOP sponsors numerous field trips, a newsletter, and many opportunities for networking with other interested students and professionals.

Program Learning Outcomes

1. Describe how the ocean relates to Hawai'i's economy, society, and lifestyle.
2. Evaluate how career and educational opportunities can be influenced by the surrounding marine environment.
3. Explain the ocean and its impacts on Hawai'i.
4. Create and execute an experiential learning project (Skill Project).

### **Program Requirements**

The Marine Option Program has existed for 40 years as a UH System certificate managed by the UH Manoa MOP office. The university has undergone many changes over the years and in 2011 the Council of Chief Academic Officers (CCAO) determined that each campus should create its own MOP Certificate. The program listed below has been in existence at Leeward CC for over 20 years and will continue to allow articulation with all other MOP certificate programs at other UH campuses. The following are required and elective courses for the Marine Option Program Academic Subject Certificate:

1. A total of 8-10 credits from the following list of courses.
  - A. Minimum of one of the following two marine survey courses (4 credits):
    - OCN 201 3 cr Science of the Sea
    - OCN 201L 1 cr Science of the Sea Lab
    - ZOOL 200 3 cr Intro to Marine Biology
    - ZOOL 200L 1 cr Intro to Marine Biology Lab
  - B. Four to six (4-6) additional credits of ocean-related elective courses from this list:
    - BIOL 124 3 cr Environment and Ecology
    - BIOL 124L 1cr Environment and Ecology Lab
    - BIOL 200 3cr Coral Reefs
    - BIOL 200L 1cr Coral Reefs Lab

BOT 130 3 cr Plants in the Hawaiian Environment  
 BOT 130L 1 cr Plants in the Hawaiian Environment Lab  
 EARTH 103 3 cr Geology of the Hawaiian Islands (formerly GG 103)  
 HIST 284 3 cr History of the Hawaiian Islands  
 OCN 201 3 cr Science of the Sea (if not counted as the required survey course)  
 OCN 201L 1 cr Science of the Sea Lab (if not counted as the required survey course)  
 ZOOL 200 3 cr Intro to Marine Biology (if not counted as the required survey course)  
 ZOOL 200L 1 cr Intro to Marine Biology Lab (if not counted as the required survey course)  
 Note that the lab course must be a companion course to a lecture course you have taken concurrently or previously, e.g. OCN 201 and OCN 201L.  
 Any marine related course accepted for MOP certificate at other UH campuses.  
**Subtotal 8-10 cr**

2. A total of 3-4 credits from the following list of courses.

OCN 101 1 cr MOP Seminar (must be taken once)  
 OCN 199 2-3 cr MOP Skill Project (Independent Study)

**Subtotal 3-4 cr**

**TOTAL 11 cr (minimum)**

# Natural Science

## Natural Sciences (Associate in Science (AS))

### Description

The curriculum in this program will allow students to complete a two year degree while fulfilling the coursework for the first two years of study towards a baccalaureate degree in one of four STEM fields of study. Students will have the option of choosing from one of four concentrations -- Biological Sciences, Engineering, Information and Computer Sciences, and Physical Sciences.

### Program Learning Outcomes

1. Communicate STEM field specific ideas and/or principles clearly, correctly, and effectively.
2. Apply quantitative reasoning in solving mathematical, programming, biological, physical, or chemical problems, with a special emphasis on Hawai'i, where appropriate.
3. Analyze and apply STEM concepts and/or techniques to one of the four concentrations (i.e. Biological Sciences, Engineering, Information and Computer Sciences, and Physical Sciences).

### Program Requirements

Leeward Community College Associate in Science in Natural Sciences (ASNS) with concentrations in Biological Sciences, Physical Sciences, Engineering, and Information and Computer Sciences Degree Requirements: The AS Natural Sciences degree is awarded to students who complete the following:

1. 60 credits, all in courses numbered 100 and above.
2. General education, concentration requirements and electives, as indicated below.
3. 12 credits of the requirements earned from the Math and Sciences Division at Leeward CC.
4. One Hawaiian, Asian, Pacific (HAP) course.
5. Cumulative grade point average (GPA) of 2.0 or higher for all courses used to meet the degree requirement.

#### Foundation and Diversification Requirements :

##### I. Foundation Written Communication (FW) (3)

Must complete: ENG 100 or equivalent

##### II. Foundation Quantitative Reasoning (FQ) (4)

Must complete: MATH 241

##### III. Foundation Global Multicultural Perspectives (FG) (6)

Must take from 2 groups (FGA, FGB, FGC)

##### IV. Diversification Social Sciences (DS) (3)

Any DS

ECON 120\*, ECON 130\*, ECON 131\* (\*recommended for Engineering)

V. Diversification Arts, Humanities, and Literature (DA/DH/DL) (3)

Any DA, DH, or DL

SP 251\* (\*option for Engineering only)

VI. Diversification Physical and Biological Sciences (DB+DP+DY) (4-7 credits required)

CHEM 161 (DP) (3) and CHEM 161L (DY)(1) are required

VII. Concentration Requirements Select one of the Natural Science Concentrations:

Biological Sciences (total 22 credits)

CHEM 162 (3)

CHEM 162L (1)

BIOL 171 (3)

BIOL 171L (1)

BIOL 172 (3)

BIOL 172L (1)

CHEM 272 (3)

CHEM 272L (2)

CHEM 273/273L (5) or BIOL 275/275L (5)

CHEM 162 (3)

CHEM 162L (1)

MATH 242 (4)

PHYS 170 (4)

PHYS 170L (1)

PHYS 272 (3)

PHYS 272L (1)

PHYS 274 (3) or EARTH 101 and EARTH 101L (4) or CHEM 272 and CHEM 272L (5)

Any DB

Engineering (total 28 - 30 credits)

CHEM 162 (3)

EE 160 (4) or ICS 111 (3, for CE and ME only)

MATH 242 (4)

PHYS 170 (4)

PHYS 170L (1)

PHYS 272 (3)

PHYS 272L (1)

MATH 243 (3)

MATH 244 (3)

EE 211 (4) or CE 270 (3)

Information and Computer Sciences (total 26 credits)

CHEM 162 (3)

CHEM 162L (1)

MATH 242 (4)

ICS 111 (3)

ICS 141 (3)

ICS 211 (3)

### Semester 3

11 - 15 Total Credits

- Complete 1 of the following
  - Biological Sciences

- Complete all of the following

■

Completed the following:

- CHEM272 - Organic Chemistry I (3)
- CHEM272L - Organic Chemistry I Lab (2)
- BIOL172 - Introduction to Biology II (3)
- BIOL172L - Introduction to Biology II Lab (1)
- Completed DA/DH/DL course. Recommended HWST 107 (HAP)
- Complete 1 of the following

■

Earned at least 3 credits from the following course sets:

- AS-NSCI Electives (E2024)
  - AG110 - Hawai'i Horticulture and Nutrition (3)
  - AG110L - Hawai'i Horticulture and Nutrition Lab (1)
  - AG112 - Introduction to Organic Agriculture (4)

    - Complete 1 of the following
      - Completed the following:
        - CE270 - Applied Mechanics I (3)
      - Completed the following:

- EE211 - Basic Circuit Analysis I (4)
  - Completed DS course. Recommended ECON 120, ECON 130 or ECON 131.
- Pre-Information and Computer Sciences
  - Complete all of the following
    - Completed the following:
      - ICS212 - Program Structure (3)
      - CHEM161 - General Chemistry I (3)
      - CHEM161L - General Chemistry I Lab (1)
    - Completed FG course.
    - Completed DB course.
    - Complete all of the following
      - Earned at least 3 credits from the following course sets:
        - AS-NSCI Electives (E2024)
          - AG110 - Hawai'i Horticulture and Nutrition (3)
          - AG110L - Hawai'i Horticulture and Nutrition Lab (1)

## Aquaponics Technician (Certificate of Competence (CO))

### Description

This is an industry aligned, entry-level commercial aquaponics certification of competency (CO) standardized and offered across the University of Hawai'i Community College system. The technician certification of competency is slated to be the nation's first comprehensive third-party certified technician education and training program to address the need for a university-trained and properly prepared, entry-level aquaponics labor force in the commercial aquaponics industry.

### Program Learning Outcomes

1. Demonstrate basic knowledge of aquaponics systems.
2. Demonstrate an understanding of aquaponics standard operating procedures.
3. Demonstrate current food safety policies and procedures related to aquaponics.
4. Work in a professional setting through an experiential-learning environment.

### Program Requirements

The program will provide comprehensive courses in plant science and aquaponics. The subjects included plants, aquaculture, pest management and aquaculture systems. Students will have an opportunity to pursue CA and AS degree, which build upon this program. The Aquaponics Technician Certificate of Competence is awarded to students who complete 10-13 credits of the following courses:

- AG 104 Food Safety & Post Harvest Handling (1)
- AG 170 Introduction to Commercial Aquaponics (3)
- AG 170L Introduction to Commercial Aquaponics Lab (1)
- AG 110 and AG 110L Hawaii Horticulture & Nutrition and Lab (4) or AG 112 Introduction to Organic Agriculture (4) or AG 200 and AG 200L Principles of Horticulture (4)
- AG 293V AG Internship (1-4)

NOTE: Students will need to complete at least two 200 level AG courses to take AG 293V.

- Complete all of the following
  -

Completed the following:

- AG104 - Food Safety & Post-Harvest Handling (1)
- AG170 - Introduction to Commercial Aquaponics (3)
- AG293V - Sustainable Agriculture Internship (1 - 4)
- AG170L - Introduction to Commercial Aquaponics Laboratory (1)

- Complete 1 of the following
  - Completed the following:
    - AG110 - Hawai'i Horticulture and Nutrition (3)
    - AG110L - Hawai'i Horticulture and Nutrition Lab (1)
  - Completed the following:
    - AG112 - Introduction to Organic Agriculture (4)
  - Completed the following:
    - AG200 - Principles of Horticulture (3)
    - AG200L - Principles of Horticulture Lab (1)

Grand Total Credits: **10 - 13**

## **Sustainable Agriculture (Associate in Science (AS))**

### **Description**

The Associate in Science (AS) in Sustainable Agriculture will prepare students for various careers in agriculture through hands-on practice and classroom instruction. Students will gain fundamental skills, knowledge and experiences in sustainable crop production, pest management, business principles, food systems, agriculture, and the environment.

#### **Program Learning Outcomes**

1. Use appropriate scientific and agricultural terminology to communicate in different settings and with different audiences.
2. Identify and analyze the biotic and abiotic factors that affect agricultural production and explain how to manage these factors at the local, state, national, and global level.
3. Apply principles and practices from plant and soil sciences and tropical agriculture to improve production and profitability.
4. Apply scientific methods and information technology to explain how to manage agronomic and agribusiness challenges and opportunities.
5. Analyze contemporary issues involving food, agriculture and the environment.

### **Program Requirements**

The program provides comprehensive courses in science, agriculture, business management and includes field and laboratory work and workplace experience through internships. The subjects include plant biology, soils, crop production, pest management, landscaping, business principles, food, agriculture and the environment.

The Associate of Science in Sustainable Agriculture is awarded to students who complete a minimum of 60 credits of the following courses. Each AG and BOT course must be completed with a C or better grade.

- 1) Foundation Written Communication (FW) (3 credits required)  
Any FW designated course numbered 100 or above

2) Quantitative Reasoning (FQ) (3 credits required)

MATH 100 Survey of Mathematics or MATH 103 College Algebra or any higher MATH FQ designated course

3) Foundation Global Multicultural Perspectives (FG) (6 credits required from 2 different groups)

FGA (HIST 151 recommended)

FGB

FGC

4) Diversification Social Sciences (DS) (3 credits required)

SOC 151 Introduction to the Sociology of Food (DS) (suggested) or other DS courses

5) Diversification Arts, Humanities, and Literature (DA/DH/DL) (3 credits required)

HWST 107 Hawai'i: Center of the Pacific (DH) (suggested) or other DA/DH/DL courses

6) Diversification Physical (DP+DY) (4 credits required)

CHEM 151 + CHEM 151L Elementary Survey of Chemistry +Lab, or CHEM 161 + CHEM 161L General Chemistry I +Lab, or GEO 101 + GEO 101L The Natural Environment + Lab

7) Additional Requirements (6 credits required)

Take one course:

ICS 101 Digital Tools for the Information World or

BUS 101 Business Computer Systems (3) or higher ICS course.

Take one course:

ENT 125 Starting a Business or BUSN 164 Career Success (3) (recommended) or any other 3 credit business course (ACC, BLAW, BUS, BUSN, ENT, MGT, MKT)

8) AG Concentration Requirements (at least 24 credits required)

BOT 101 + BOT 101L General Botany + Lab (4), or

BOT 130 + BOT 130L Plants in the Hawaiian Environment + Lab (4), or

AG 110 + AG 110L Hawaii Horticulture and Nutrition + Lab (4)

AG 112 Introduction to Organic Agriculture (4)\* or

AG 251 Sustainable Crop Production (4)\*

AG 100 Orientation to Hawai'i Agriculture Industry (1)

AG 122 Soil Technology (3)

AG 141 Integrated Pest Management (3)

AG 200 + AG 200L Principles of Horticulture + Lab (4)

AG 264 Plant Propagation (3)

AG 104 Food Safety & Post-Harvest Handling (1)

AG 293V Sustainable Agriculture Internship (1-4)

9) AG Electives (at least 6 credits):

AG 260 Tropical Landscape (4),

AG 269 Ornamental Plant Materials (3),

AG 271 Introduction to Crop Improvement (3),

AG 112 Introduction to Organic Agriculture (4)\* or

AG 251 Sustainable Crop Production (4)\*,

## AG 170 + AG 170L Introduction to Commercial Aquaponics +Lab (4)

\* When AG 112 or AG 251 is used to count as a concentration requirement, it cannot also count as an elective. The program is organized in an order that allows the student to build a foundation (CO = 12-13 credits; CA at least 25 credits; AS = minimum 60 credits) and progress through a recommended group of courses. Courses with required knowledge have prerequisites, and the counselors will have the program information to guide the student into the proper course sequence. Students who have earned 58 credits are required to earn at least 2 more credits from either 8 or 9.

## **Sustainable Agriculture (Academic Subject Certificate (ASC))**

### **Description**

The Academic Subject Certificate (ASC) in Sustainable Agriculture is designed to prepare students for a career in agriculture through hands-on practice and classroom instruction. It will provide farmers, returning non-traditional students and youth who are interested in agriculture with fundamental skills, knowledge and experiences in sustainable tropical crop production.

#### **Program Learning Outcomes**

1. Identify opportunities to succeed in Hawaii's diversified agriculture and natural resource management workforce.
2. Identify options for transfer to four-year institutions majoring in agriculture and natural resource management.
3. Describe entrepreneurship opportunities in diversified agriculture.

### **Program Requirements**

The ASC in Sustainable Agriculture will constitute 22-29 credits of the 60 credit AA degree:

Complete the following:

AG 200 Principles of Horticulture (3)  
AG 200L Principles of Horticulture lab (1)  
AG 100 Orientation to Hawai'i Agriculture Industry (1)  
AG 264 Plant Propagation (3)  
AG 141 Integrated Pest Management (3)  
AG 271 Introduction to Crop Improvement (3)  
AG 293V Internship (1-4)

Complete one of the following:

BIOL 101+ 101L Biology for Non-majors + Lab (4 credits)  
BIOL 171/171L Introduction to Biology + Lab (4 credits)  
BOT 101/101L General Botany + Lab (4 credits)

Complete one of the following:

CHEM 151+151L Elementary Survey of Chemistry +Lab (4 credits)  
CHEM 161 + 161L General Chemistry +Lab (4 credits)

Complete one of the following:

ICS 101 Digital Tools for the Information World (3 credits)  
BUS 101 Business Computer Systems (3 credits)

## **Sustainable Agriculture (Certificate of Competence (CO))**

### **Description**

The Certificate of Competence (CO) in Sustainable Agriculture offers comprehensive courses that will help students develop the skills and acquire knowledge in plant production and agricultural systems through hands-on practices and classroom instructions. It will provide students who are interested in agricultural production with fundamental skills and experiences in tropical sustainable crop production.

Program Learning Outcomes

1. Apply principles and practices from plant and soil sciences, and tropical agriculture to improve production and profitability.
2. Apply scientific methods and information technology to explain how to manage agronomic and agribusiness challenges and opportunities.
3. Interpret contemporary issues involving food, agriculture, and the environment.

Program Requirements

The program provides comprehensive courses in plant science and agriculture. The subjects include plants, soils, pest management, and agricultural systems. Students will have an opportunity to pursue CA and AS degrees, which build upon this program. The Certificate of Competence in Sustainable Agriculture is awarded to students who complete at least 12-13 credits of the following courses:

Take the following courses:

AG 100 Orientation to Hawai'i Agriculture Industry (1)  
AG 104 Food Safety & Post-Harvest Handling (1)  
AG 122 Soil Technology (3)

Take 1 course from the following (4 credits):

BOT 130+ BOT 130L Plants in the Hawaiian Environment + Lab (4)  
AG 110+AG 110L Hawaii Horticulture and Nutrition + Lab (4)  
AG 112 Introduction to Organic Agriculture (4)  
AG 200+ AG 200L Principles of Horticulture + Lab (4)

Take 1 course from the following electives (3-4 credits):

AG 141 Integrated Pest Management (3)  
AG 251 Sustainable Crop Production (4)

AG 260 Tropical Landscape (4)  
AG 269 Ornamental Plant Materials (3)  
BIOL 124 + BIOL 124L Environment and Ecology + Lab (4)

"C" grade is required for all the courses.

## **Sustainable Agriculture (Certificate of Achievement (CA))**

### **Description**

The Certificate of Achievement (CA) in Sustainable Agriculture is designed to prepare students for a career in agriculture through hands-on practice and classroom instruction. It will provide students who are interested in agriculture with fundamental skills, knowledge, and experiences in sustainable tropical crop production.

#### **Program Learning Outcomes**

1. Identify and analyze the biotic and abiotic factors that affect agricultural production and explain how to manage these factors at the local, state, national, and global level.
2. Apply principles and practices from plant and soil sciences, and tropical agriculture to improve production and profitability.
3. Apply scientific methods and information technology to explain how to manage agronomic and agribusiness challenges and opportunities.
4. Interpret contemporary issues involving food, agriculture and the environment.

### **Program Requirements**

The program will provide comprehensive courses in plant science and sustainable agriculture. The subjects include plants, soils, crop production, pest management, food, agricultural systems, business, and landscaping. The CA program builds on Certificate of Competence (CO) program, utilizing several existing courses in Sustainable Agriculture. Students will have an opportunity to pursue an Associate in Science (AS) degree, which builds upon this program. The Certificate of Achievement in Sustainable Agriculture is awarded to students who complete at least 25 credits of the following courses:

Complete the following courses:

AG 100 Orientation to Hawai'i Agriculture Industry (1)

AG 104 Food Safety & Post-Harvest Handling (1)

AG 122 Soil Technology (3)

AG 141 Integrated Pest Management (3)

**ART156 - Digital Painting (STU - Studio)**  
**Description**

This course is an introduction to the use of the computer as a painting tool. Studio experience will explore digital painting techniques as used for personal expression, production design, concept art, matte painting, and texture mapping. Emphasis will also be placed on developing an aesthetic criteria for evaluation.

**Credits**

3

**Prerequisites**

ART 112 with a grade of C or better.

**Recommended Course Preparation**

ART113 - Introduction to Drawing  
ART113D - Introduction to Digital Drawing  
ART123 - Introduction to Painting  
ART214 - Introduction to Life Drawing

**Other Recommended Preparation**

Basic computer, internet, and keyboarding skills, as well as experience using a stylus.

**ART207D - Intermediate Digital Photography (STU - Studio)****Description**

This course is an intermediate-level digital photography course intended for students who have successfully completed ART 107D and are competent in camera usage and exposure controls. The course is designed to give you a critical understanding of both the technical and aesthetic nature of digital photography beyond the basics. The technical emphasis will be on acquiring the necessary skills needed to deliver an “end-product,” namely an expressive, fine quality print and a body of work depicting the realization of an idea, an emotion, or a subject. It will further develop composition skills as well as emphasize current trends in advanced, professional level digital photography techniques. Students will be taught how to develop a visual portfolio and series of related photographs, not just single images, in various photographic genres. It will provide a foundation for students who wish to pursue photography as a career or related fields such as art, multimedia, and/or television production.

**Credits**

**ASTR295 - Astronomy Undergraduate Research Project (LAL - Lecture & Lab Instruction)  
Description**

This course introduces students to methods in astronomical scientific research using telescopes, spectrometers, and CCD cameras. Students enrolled in the course are provided the opportunity to operate telescopes, plan, and design group-oriented research projects, and learn the importance of group work in scientific research. Furthermore, participants learn the art of stellar image acquisition, data analysis, and interpretation of their results. Finally, students have the opportunity to publish their research work in scientific journals by completing the required manuscript. Potential research topics may include, but are not limited to, observing and collecting data of double stars, variable stars, exoplanets, asteroids, and comets.

**AMT129 - Engine Repair (SHP - Shop)**  
**Description**

This course will cover shop safety, tools, and all components found in the modern internal combustion engine. The course is designed to provide students with an understanding of the fundamental operation and construction of internal combustion engines. Instruction will include theory and laboratory (shop) activities in which students will learn how to inspect, service, maintain, diagnose, and repair automobile engine malfunctions. This course includes live work. (Formerly AMT 30)

**Credits**

## **ED143 - Registered Behavior Technician Training Credential (LEC - Lecture)**

### **Description**

This course is based on the Registered Behavior Technician (RBT) Task List, which is part of an internationally recognized 40-hour RBT training that equips professionals with the highest level of Applied Behavior Analytic training. The program is offered independent of the Behavior Analyst Certification Board (BACB). As the number of children diagnosed with Autism Spectrum Disorder (ASD) continues to increase, so does the need for specially trained and credentialed (certified) professionals and caregivers in the area of Applied Behavior Analysis (ABA). The training covers measurement, assessment, skill acquisition, behavior reduction, documentation and reporting, and professional conduct and scope of practice. In addition to the 40-hour training, students will complete a competency assessment administered by a Board Certified Behavior Analyst (BCBA), which involves an interview and direct observation of competencies based on the RBT Task List. Upon completion of this course, students will be eligible to apply for the RBT examination for their RBT credential.

## Human Services

### HSER100 - Exploration of Self in Society (LEC - Lecture)

#### Description

This group process course provides an opportunity for learners to explore self within society, their values, and attitudes, functional and dysfunctional patterns of behavior. The learners are encouraged to assess personal characteristics that may be hampering growth and be able to establish goals and action plans for change. Learners critically self-reflect through a biopsychosocial life-stage model of development that spans our lives from birth through death. The course supports the adoption of knowledge and skills for developing healthy interpersonal relationships and for working with a diversity of issues and people. The course is particularly applicable for those entering the field of human service and/or the helping professions as well as education, health sciences, or justice, etc.

**Credits**

**ICS273 - Network Design and Administration (LEC - Lecture)****Description**

This course covers network design fundamentals, including basic switching and routing, layer 2 and 3 protocols, wired and wireless networking, and wide area networking. Fundamental network administration techniques will also be covered as a complement to network design.

**Credits**

3

**Prerequisites**

ICS 184 with a grade of C or better **OR** Instructor approval.

**Contact Hours (per week)**

	Lecture	Lab	Other
Hours	3		

**ICS274 - Advanced Network Routing and Optimization (LEC - Lecture)****Description**

This course covers advanced network design components, including advanced Internet Protocol Version 4 (IPv4) and Internet Protocol Version 6 (IPv6) routing, route optimization, utilities to maintain the network, and three of the most widely used routing protocols.

**Credits**

3

**Prerequisites**

ICS 273 with a grade of C or better or concurrently enrolled in ICS 273 **OR** Instructor approval.

## Integrated Industrial Technology

**IIT101 - Industrial Safety Health and Environment (LEC - Lecture)****Description**

This course emphasizes the development of knowledge and skills to reinforce the attitudes and behaviors required for safe and environmentally sound work habits for industrial work environments. The course highlights the importance of regulatory compliance issues to be addressed in the performance of all job tasks. Course topics will be reinforced through scenarios performed at the campus as well as industrial sites as available.

**Credits**

3

**Prerequisites**

None.

**Contact Hours (per week)**

	Lecture	Lab	Other
Hours	3		

**IIT121 - Electro-Hydraulics and Pneumatics (Fluid Power Systems) (LEC - Lecture)****Description**

This course covers the fundamentals of fluid power and fluid power systems. Students will learn the operating principles and components of hydraulic and pneumatic systems, including pumps, compressors, and actuating devices. Students will learn to design, configure, and troubleshoot hydraulic and pneumatic systems for industrial automation and process control, incorporating automated actuator control and fail-safe interlocks into the design process. Facilitated learning and practical exercises reinforce the learning.

**Credits**

3

**Prerequisites**

None.

**Contact Hours (per week)**

	Lecture	Lab	Other
Hours	3		

**IIT131 - Mechanical Drive Systems (LEC - Lecture)****Description**

This course is an introduction to mechanical drive systems that are typical to automated manufacturing and process systems. The course provides students with an understanding of mechanical energy transmission concepts. Students will apply these concepts to design, configure, and conduct performance analysis on mechanical transmission systems.

**Credits**

3

**Prerequisites**

None.

**Contact Hours (per week)**

	Lecture	Lab	Other
Hours	3		

**IIT151 - Rapid Prototyping (LEC - Lecture)****Description**

This course introduces the student to 3D modeling using CAD/CAM mechanical design automation software. Students will build parametric models of parts and assemblies and make drawings of those parts and assemblies. The student will study CAD/CAM software configurations and translate parametric models to produce prototypes using various manufacturing methods. The course will also cover basic machine safety and operation.

**Credits**

3

**Prerequisites**

None.

**Contact Hours (per week)**

	Lecture	Lab	Other

**IIT201 - AC/DC Circuits (LAL - Lecture & Lab Instruction)****Description**

This course introduces the student to direct current and alternating current theory and the laws that represent electrical concepts. The course includes circuit configurations, source and load types, as well as the wiring configurations of common DC and AC electrical devices. Practical exercises reinforce theory, incorporate experiential learning, and emphasize basic circuit analysis and troubleshooting. The course contextualizes the proper use of electrical tools and test equipment.

**Credits**

4

**Prerequisites**

ICS 141 with a grade of C or better.

**Contact Hours (per week)**

	Lecture	Lab	Other
Hours	3	3	

**IIT205 - Digital and Analog Circuits (LAL - Lecture & Lab Instruction)****Description**

This course introduces the student to the characteristics and applications of digital logic functions, combinational logic circuits, and flip-flops, as well as semiconductor devices and circuits. Practical exercises reinforce theory, incorporate experiential learning, and

emphasize basic circuit analysis and troubleshooting. The course contextualizes the proper use of electrical tools and test equipment.

**Credits**

4

**Prerequisites**

IIT 201 with a grade of C or better.

**IIT221 - Programmable Logic Control (LAL - Lecture & Lab Instruction)**  
**Description**

This course covers the fundamentals of programmable logic controller (PLC) hardware, programming, and integration with mechatronic automation systems. Students will integrate PLC functions by writing logic programs and testing these programs on a functioning system. Students will identify malfunctioning PLC programming and apply troubleshooting strategies to identify and localize problems caused by PLC hardware.

**Credits**

4

**Prerequisites**

ICS 141 with a grade of C or better.

**Other Recommended Preparation**

Must be able to use a desktop and/or laptop computer with a high degree of proficiency.

Hours	3	3	

**IIT231 - Process Control and Instrumentation (LAL - Lecture & Lab Instruction)**  
**Description**

This course is a study of the instruments and instrument control systems used in a variety of processing industries, including instrumentation unique to manufacturing and automated production and processing systems. Topics include terminology, process variables, symbology, control loops, and basic troubleshooting, as well as temperature, pressure, and flow formulas used in the process and industrial automation industries.

**Credits**

4

**Prerequisites**

ICS 141 with a grade of C or better **AND** MATH 103 with a grade of C or better or in a higher MATH STEM track course.

**IIT251 - Motor and Motion Control (LAL - Lecture & Lab Instruction)**  
**Description**

This course is an introduction to AC & DC motors of various types and the integrated control systems used to control the power and function of electric motors. It is designed to give the student an overview of, and introduction to, the basic principles of the components and circuitry logic programs that integrate motors to systems. Course work emphasizes an overall understanding of the systems, engineering, equipment, and operations of a typical motor system.

**Credits**

4

**Prerequisites**

ICS 141 with a grade of C or better.

**Other Recommended Preparation**

Must be able to use a desktop and/or laptop computer with a high degree of proficiency.

## **Learning Skills**

### **LSK110 - College Success Strategies (LEC - Lecture)**

#### **Description**

This course will acquaint students with the college and its services, prepare students for success in all college courses, and help students begin to explore career options. Students will (1) focus on learning and study skills, critical thinking, basic computer skills, and presentation skills while reinforcing reading, writing, and math skills; (2) learn to improve their ability to recall both spoken and written materials (memory and concentration skills), visualize concepts, control their anxieties in high stress situations such as during public speaking and test taking (relaxation techniques), and develop a positive image of themselves as effective learners; (3) engage in independent project and group projects both in an online and face-to-face learning environment; (4) examine their career and education options; and (5) learn to understand their own cultural and personal learning styles and blend those with learning techniques expected of college students.

## Mathematics

### MATH100 - Survey of Mathematics (LEC - Lecture)

#### Description

MATH 100 includes a variety of selected mathematical topics designed to acquaint students with examples of mathematical and quantitative reasoning that demonstrate the beauty, power, clarity, and precision of mathematics. The core course content includes deductive, numeric, symbolic, graphical and statistical algorithms and reasoning. MATH 100 is not intended as, and does not qualify as, a prerequisite for advanced mathematics courses.

#### Credits

## **MATH103 - College Algebra (LEC - Lecture)**

### **Description**

Functions, graphs, and their properties are studied by generalizing and interpreting techniques initially introduced in elementary algebra. Simplification techniques are used to define, simplify, and derive elementary properties of linear, quadratic, rational, exponential, and logarithmic functions. Equation, system, and inequality solving techniques are used to determine the domain and range, and analyze the nature of the roots and intersection points of functions and graphs. Quantitative interpretation and practical application of functions and graphs are included throughout the course.

### **Credits**

3

### **Prerequisites**

MATH 82X with a grade of CR or better **OR** concurrently enrolled in MATH 88 **OR** appropriate math placement.

## **MATH111 - Math for Elementary Teachers I (LEC - Lecture)**

### **Description**

This course is the first in a two-course sequence (MATH 111 - MATH 112) designed to give elementary education students the depth of understanding necessary to teach mathematics at that level. The emphasis will be on understanding, representing and communicating mathematical ideas; solving problems; and reasoning mathematically. MATH 111 covers problem-solving techniques, number systems and operations, and additional companion topics. Due to potential variation in topic sequencing, it is recommended that students needing both MATH 111 and MATH 112 take the courses sequentially and from the same institution.

### **Credits**

### MATH112 - Math for Elementary Teachers II (LEC - Lecture)

#### Description

This course is the second in a two-course sequence (MATH 111 and MATH 112) designed to give elementary education students a depth of understanding necessary to teach mathematics at that level. The emphasis will be on understanding, representing, and communicating mathematical ideas and procedures; solving problems; and reasoning mathematically. MATH 112 further develops operations, and covers geometry, introductory probability and statistics, and additional companion topics. Due to potential variation in topic sequencing, it is recommended that students needing both MATH 111 and MATH 112 take the courses sequentially and from the same institution.

#### Credits

3

#### Prerequisites

MATH 111 with a grade of C or better or concurrently enrolled in MATH 111, only when the concurrent MATH 111 section and the MATH 112 section are offered as sequential part-of-term courses.

**MATH140 - Precalculus: Trigonometry and Analytic Geometry (LEC - Lecture)**  
**Description**

This course studies trigonometric functions, analytic geometry, polar coordinates, vectors, and related topics. This course is the second part of the precalculus sequence.

**Credits**

3

**Prerequisites**

MATH 135 with a grade of C or better.

**Recommended Course Preparation**

ENG100 - Composition I

**Other Recommended Preparation**

Basic computer, internet, and keyboarding skills.

**Contact Hours (per week)**

	Lecture	Lab	Other
Hours	3		

**MATH140X - Accelerated Precalculus (LEC - Lecture)**  
**Description**

This course is designed to provide an accelerated path to Calculus to students who have a strong background in College Algebra. Topics include the essential pre-calculus skills needed for success in calculus: functions, with special attention to polynomial, rational, exponential, logarithmic, and trigonometric functions; plane and analytic trigonometry; polar coordinates; and conic sections. Credit may not be earned for both MATH 140 and MATH 140X.

**Credits**

4

**Prerequisites**

MATH 103 with a grade of A **OR** MATH 135 with a grade of C or better **OR** placement in MATH 140X.

**Other Recommended Preparation**

Basic computer, Internet, and keyboarding skills Qualification for or completion of ENG 100

**Contact Hours (per week)**

	Lecture	Lab	Other
Hours	4		

**MATH241 - Calculus I (LEC - Lecture)****Description**

Introduces and develops basic calculus concepts and procedures: limits, continuity, derivatives, and an introduction to integration of single-variable algebraic and trigonometric functions. Derivations of algorithms and formulas, and proofs of important theorems, are included. Applications of differentiation and integration are introduced to bridge theory and practice. (Formerly MATH 205)

**Credits**

4.0

**Prerequisites**

MATH 140 with a grade of C or better **OR** MATH 140X with a grade of C or better **OR** placement in MATH 241.

**Other Recommended Preparation**

Basic computer, internet, and keyboarding skills Qualification for or completion of ENG 100

**Contact Hours (per week)**

	Lecture	Lab	Other
Hours	4		

**MATH242 - Calculus II (LEC - Lecture)****Description**

The second course in the standard four-course calculus sequence. The course extends differentiation and integration to single-variable inverse trigonometric, logarithmic, and exponential functions. Topics include techniques of integration, convergence of improper integrals, sequences and series, Power and Taylor series representations of functions, and an introduction to differential equations. (Formerly MATH 206)

**Credits**

4.0

**Prerequisites**

MATH 241 with a grade of C or better.

**Other Recommended Preparation**

Basic computer, internet, and keyboarding skills

**Contact Hours (per week)**

	Lecture	Lab	Other
Hours	4		

**MATH243 - Calculus III (LEC - Lecture)****Description**

The third course in the standard four-course calculus sequence. Vector algebra, vector-valued functions, differentiation of functions of several variables, and optimization. (Formerly MATH 231)

**Credits**

3.0

**Prerequisites**

MATH 242 with a grade of C or better.

**Other Recommended Preparation**

Basic computer, internet, and keyboarding skills

**Contact Hours (per week)**

	Lecture	Lab	Other
Hours	3		

**MATH244 - Calculus IV (LEC - Lecture)****Description**

The final course in the standard four-course calculus sequence. Topics include multiple integrals, line integrals, Green's Theorem, surface integrals, Stokes' Theorem, and Gauss's Theorem. (Formerly MATH 232)

**Credits**

3

**Prerequisites**

MATH 243 with a grade of C or better.

### Other Recommended Preparation

Basic computer, internet, and keyboarding skills.

**MATH82X - Expanded Algebraic Foundations (LEC - Lecture)****Description**

This course covers elementary algebra topics. Topics include linear equations and inequalities, graphing, linear systems, properties of exponents, operations on polynomials, factoring, rational and radical expressions and equations, quadratic equations, and applications. Additional topics may include graphing by transformation, introduction to logarithms and functions, and dimensional analysis. Formerly numbered MATH 82.

**Credits**

5

**Prerequisites**

Appropriate math placement.

**Other Recommended Preparation**

English and math skills at the High School Common Core Level. Basic computer, internet, and keyboarding skills.

# Microbiology

## **MICR130 - General Microbiology (LEC - Lecture)**

### **Description**

This course covers the fundamentals of microbiology and the role of microorganisms in the environment and in human affairs. Bacteria, viruses, fungi, algae, and protozoa are described, and their importance is discussed. Other topics include cell structure and metabolism, microbial genetics, pathology and epidemiology, and principles of immunology. Emphasis is given to medical aspects of bacterial and viral diseases, immunology, and chemotherapy.

### **Credits**

**MUS253 - Elementary Music in Action (LEC - Lecture)  
Description**

This course examines the fundamental elements of music: time, pitch, performance media, musical expression and form, and how these elements interact within the musical experience. These elements are explored and applied through singing and the playing of percussion instruments, 'ukulele, autoharp, piano, and other classroom instruments; listening; movement; notation of music; performing from notation; and analysis of music both aurally and from musical scores. The creative use of musical elements as a means of understanding music is an integral component of this course. (Recommended for UH Manoa elementary education majors.)

## **Ocean & Earth Science & Tech**

**OEST101 - Natural Hazards (LEC - Lecture)****Description**

Science of natural hazards: impact on human civilization of events in the lithosphere, atmosphere, biosphere, and hydrosphere (e.g., earthquakes, hurricanes, red tides, and floods), and impact of humans on their exposure to and mitigation of the hazards. This course is transdisciplinary in nature and will use real data to teach foundational principles in geological (earthquakes), oceanographic (tsunamis), and atmospheric science (hurricanes), and more importantly, the close connections between these science disciplines. We will examine how people become vulnerable to natural hazards, how society is affected by them, how people contribute to causing them, and how societies cope or fail to cope with them.

**Prerequisites**

None.

**Contact Hours (per week)**

	Lecture	Lab	Other
Hours	3		

**PHIL103 - Introduction to Philosophy: Environmental Philosophy (LEC - Lecture)****Description**

This course offers a critical examination of the history of multi-cultural philosophical and ethical systems and their implications for interactions with, and relationships between, humans and non-humans. The critical examination will take place in the context of contemporary environmental/ecological issues.

**Credits**

3

**Prerequisites**

Placement in ENG 100 **OR** equivalent **OR** instructor approval.

	Lecture	Lab	Other
Hours	3		

**PHIL110 - Introduction to Deductive Logic (LEC - Lecture)****Description**

This course is an introductory course in logic, focusing on the methods and principles of deductive reasoning. Integral to this study will be the presentation of methods for representing logical form and the development of a system of inference rules and strategies that allow for the analysis and evaluation of deductive arguments.

**Credits**

3

**Prerequisites**

None.

**Contact Hours (per week)**

	Lecture	Lab	Other
Hours	3		

**PHIL111 - Intro to Inductive Logic (LEC - Lecture)****Description**

This course offers an introduction to inductive reasoning focusing on the role of probability. Students will learn how probabilities, statistics, and risk evaluations are integrated into decision making. More generally, they will develop reasoning strategies that promote drawing logical inferences when evidence leaves them unsure as to what is actually true. Application to the media's use of probabilities and statistics, and the way many academic disciplines use these strategies to analyze and present data, will provide concrete contexts for applying inductive principles and reasoning strategies.

## Physics

**PHYS100 - Survey of Physics (LEC - Lecture)****Description**

This is an introductory course in physics with topics chosen from, but not limited to, mechanics, thermodynamics, electricity and magnetism, wave theory, optics, and atomic and/or nuclear physics. Emphasis will be placed on understanding basic principles and concepts with application to real-life connections.

**Credits**

3

**Prerequisites**

MATH 82X with a grade of CR or better **OR** Placement in MATH 103 or higher STEM math.

**Recommended Course Preparation****Other Recommended Preparation**

Concurrent registration in PHYS 100L

**Contact Hours (per week)**

	Lecture	Lab	Other
Hours	3		

**PHYS100L - Survey of Physics Lab (LAB - Laboratory)****Description**

This course is an introduction to laboratory techniques and experimental methods of physics with emphasis on linking the understanding of physics concepts with real-life situations. Topics include Hooke's law, falling bodies, collisions, Boyle's law, electric and magnetic fields, induction, waves, and optics.

**Credits**

1

**Prerequisites**

PHYS 100 with a grade of C or better or concurrently enrolled in PHYS 100 **OR** instructor approval.

# Physiology

## **PHYL141 - Human Anatomy and Physiology I (LEC - Lecture)**

### **Description**

This course is the first semester of a comprehensive two-semester course that provides a thorough introduction to the structure and function of the human body. This course covers the gross anatomy, histology, and physiology of the integumentary, skeletal, muscular, and nervous systems. Students will be expected to learn details of anatomy and physiology as well as apply those details in the broader context of whole body function and homeostasis. The covered topics include body orientation, chemical level, cellular level, tissue level, integumentary system, bone tissue, skeletal system, joints, muscular tissue, muscular system, nervous tissue, spinal cord and spinal nerves, brain and cranial nerves, autonomic nervous system, and special senses.

### **Credits**

3

### **Prerequisites**

ENG 100 with a grade of C or better or equivalent **AND** CHEM 151 with a grade of C or better or CHEM 161 with a grade of C or better or BIOC 141 with a grade of C or better or 1 year of high school college-prep chemistry with a C or better within the last 5 years **AND** HLTH 125 with a grade of C or better or concurrently enrolled in HLTH 125 **AND** PHYL 141L with a grade of C or better or concurrently enrolled in PHYL 141L.

# Quantitative Methods

## QM107C - Quant Methods in AMT (LEC - Lecture)

### Description

This course covers the quantitative methods, reasoning, and applications necessary to perform tasks and solve problems encountered by automotive technologists. The quantitative methods covered include computational operations; geometry and measurement; ratio, proportion, and percent; statistics and probability; and trigonometry. Applications include major automotive systems such as engines, drive train, chassis, and suspension. QM 107C is designed for the Automotive Technology program's degree and certificates, but does not satisfy the Foundation-Quantitative Reasoning (FQ) core requirement of an Associate in Arts degree.

### Credits

3

### Prerequisites

Placement in QM107C or concurrently enrolled in QM 78 **OR** instructor approval.

### Other Recommended Preparation

## Zoology

**ZOOL101 - Principles of Zoology (LEC - Lecture)****Description**

An introduction to the study of animal life. Basic principles of biology are covered, including the role of plants as primary producers of chemical energy. The mechanisms of digestion, circulation, osmoregulation, excretion, locomotion, nerve action, and reproduction in representative animals are discussed. The chemical and cellular mechanisms involved in the transmission of inheritance are studied. The evolution of plant and animal life, the interaction of organisms in their environment, food chains and trophic levels, and ecological distributions are introduced. Representative animal phyla, including both invertebrates and vertebrates, are studied from the viewpoint of systematics and structural characters. This course is designed to provide the student with basic information and vocabulary in preparation for advanced courses in zoology and biology. Class meets for 3 hours of lecture per week.
